**Release 2**

## RIISS00031 Mine Surveying Skill Set

### Modification History

Release	Comments
1	This version was released with RII Resources and Infrastructure Training Package version 1.0.
2	Editorial corrections.

### Skill Set Description

#### Pathways Information

This Skill Set can provide credit towards a RII50113 Diploma of Surface Operations Management and the RII50913 Diploma of Underground Coal Mining Management Qualification.

#### Licensing/Regulatory Information

Licensing, legislative, regulatory and certification requirements that apply to this Skill Set can vary between States, Territories, and industry sectors. Relevant information must be sourced prior to application of the Skill Set.

#### Skill Set Requirements

Successful completion of four (4) units of competency listed below:

RIISDM501D	Conduct mine surveying operations
RIIRIS402D	Carry out risk management processes
RIICOM301D	Communicate information
RIIWH5201D	Work safely and follow WHS policies and procedures

### Target Group

This Skill Set is for individuals working in mine surveying.

It is required that the individual already holds either a Diploma of Surveying Qualification or a higher level surveying qualification.

The Skill Set is designed to provide the mining specific competencies that a surveyor would require to work in a mining context.

## **Suggest words for Statement of Attainment**

This Skill Set from the Resources and Infrastructure Industry Training Package meets the industry requirements for those aiming to work as a surveyor in a mining context.
