Description

This skill set addresses the skills and knowledge to work in surveying operations for a range of purposes in a mining context.

Pathways Information

The units provide credit towards a RII40420 Certificate IV in Underground Coal Operations qualification and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

Licensing, legislative, regulatory and certification requirements that apply to this skill set can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the skill set.

Skill Set Requirements

RIICOM301E Communicate information

RIIRIS402E Carry out the risk management process

RIISDM501D Conduct mine surveying operations

RIIWHS201E Work safely and follow WHS policies and procedures

Target Group

This skill set is for individuals who work in a mine surveying context, and who work across a broad range of functions and may be responsible for team outcomes.

Suggest words for Statement of Attainment

These units of competency from the Resources and Infrastructure Industry (RII) Training Package meet industry requirements for surveyors in a mining context.
