Release	Comments
Release 3	This version first released with the RII Resources and Infrastructure Industry Training Package Version 8.0. Substituting superseded units of competency with updated equivalent units.
Release 2	This version was released with RII Resources and Infrastructure Training Package version 7.0. Version created to fix typographical and/or unit grid errors.
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 4.0.

### Description

This skill set addresses the skills and knowledge to work in traffic management implementation operations in a temporary traffic management context.

### Pathways Information

The units provide credit towards a RII20120 Certificate II in Resources and Infrastructure Work Preparation qualification and other qualifications that allow for selection of these units.

### Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

### Skill Set Requirements

RIICOM201E Communicate in the workplace

RIIRIS301E Apply risk management processes

RIIWHS201E Work safely and follow WHS policies and procedures

RIIWHS302E Implement traffic management plans

RIIWHS303 Position, set up and program portable traffic control devices

## **Target Group**

This skill set is for individuals who work in traffic management implementer contexts, and who hold some responsibility for supervising others.

## **Suggested words for Statement of Attainment**

These units of competency from the Resources and Infrastructure Industry (RII) Training Package meet industry requirements for working as a traffic management implementer, in a temporary traffic management context.
