RIIUMM307D Maintain underground stockpiles

Release: 2

RIIUMM307D Maintain underground stockpiles

Modification History

Release	Comment
1	This unit replaces RIIUMM307A Maintain underground stockpiles
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to maintain underground stockpiles in Metalliferous mining.

This unit is appropriate for those working in operational roles.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and Industry sectors. Relevant information must be sourced prior to application of the unit.

Unit Sector

Metalliferous mining (Underground)

Elements and Performance Criteria

1. Plan and prepare for underground stockpiling	<p>1.1. Access, interpret and apply stockpile maintenance documentation, and ensure the work activity is compliant</p> <p>1.2. Obtain, interpret, clarify and confirm work instructions</p> <p>1.3. Select and wear personal protective equipment appropriate for work activities</p> <p>1.4. Inspect and assess site conditions and determine if scaling is required and take action</p> <p>1.5. Identify, address and report potential risks, hazards and environmental issues</p> <p>1.6. Obtain and interpret emergency procedures, and be prepared for fire/accident/emergency</p>
---	---

	<p>1.7. Use approved dust suppression and extraction methods</p> <p>1.8. Ensure work area is well ventilated before</p>
2. Stockpile materials	<p>2.1. Ensure stockpile site has adequate ground support and is accessible</p> <p>2.2. Place stockpile materials in correct location to ensure efficient identification and access, and to prevent mixing of materials</p> <p>2.3. Drive and operate equipment according to manufacturer's instructions and avoiding damage to the stockpile and surrounding site</p> <p>2.4. Use appropriate stockpiling techniques to maximise the capacity of the stockpiling site</p> <p>2.5. Identify and remove contaminants</p>
3. Carry out post operational procedures	<p>3.1. Clean and maintain condition of equipment, ensure suitability for use, and address/report issues</p> <p>3.2. Clean and store auxiliary service equipment</p> <p>3.3. Complete housekeeping requirements</p> <p>3.4. Process written and verbal recording and reporting requirements</p>

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
