RIIWHS402E Examine and maintain mine safety

Release: 1

RIIWHS402E Examine and maintain mine safety

Modification History

Release	Comments
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to examine and maintain mine safety in coal and metalliferous mining. It includes conducting routine and non-routine examinations of site activity and investigation procedures for non-compliance issues identified.

It applies to those working in supervisory roles. They generally perform a broad range of operational activities in their area of responsibility and are responsible for monitoring a safe work environment.

Licensing, legislative and certification requirements that apply to this unit can vary between states, territories, and industry sectors. Users must check requirements with relevant body before applying the unit.

Unit Sector

Coal mining

Metalliferous mining

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Maintain familiarity with operational and safety activities	1.1 Obtain, interpret, clarify and confirm work requirements 1.2 Access, interpret and apply mine safety legislation and documentation and confirm work activity is compliant 1.3 Obtain and clarify operational forecast information and confirm with appropriate management authorities according to site requirements 1.4 Access, interpret and apply geological and survey data according to job requirements 1.5 Obtain, interpret and apply legislative and site requirements to all work activities

ELEMENT	PERFORMANCE CRITERIA
	1.6 Access and apply safety information and procedures according to legislative and site requirements 1.7 Coordinate activities with others within scope of own role
2. Examine operations	2.1 Conduct inspections according to legislative and site requirements 2.2 Respond to instances of non-compliance according to legislative and site requirements 2.3 Discuss inspection findings with responsible parties and initiate response according to legislative and site requirements 2.4 Prepare and process records of inspections results according to legislative and site requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral communication	<ul style="list-style-type: none"> Conveys information and requirements clearly and listens actively
Reading	<ul style="list-style-type: none"> Identifies and interprets relevant information from workplace procedures, documentation and legislation
Writing	<ul style="list-style-type: none"> Prepares specific information that complies with requirements, using sector-specific vocabulary, grammatical structures and conventions

Unit Mapping Information

Supersedes and is equivalent to RIIWH5402D Examine and maintain mine safety.
