

# Assessment Requirements for RIIWMG302D Reclaim and treat water

Release: 3

# Assessment Requirements for RIIWMG302D Reclaim and treat water

## **Modification History**

Release	Comment
1	The unit replaces RIIWMG302A Reclaim and treat water
2	Editorial corrections.
3	Required frequency and volume of evidence amended in Performance evidence.  Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

#### **Performance Evidence**

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant documentation, policies and procedures
- implements the requirements, procedures and techniques for the safe, effective and efficient completion of the reclaiming and treating of water including:
  - selecting and using the required tools and equipment
  - treating water
  - extracting water
  - · operating and monitoring equipment
- works effectively with others to undertake and complete the reclaiming and treating of water that meets all of the required outcomes including:
  - using a range of communication techniques to convey information to others
  - maintaining written and verbal reporting requirements and procedures
- demonstrates completion of reclaiming and treating water that safely, effectively and efficiently meets all of the required outcomes on more than one (1) occasion including:
  - completing water treatment operations
  - completing extracting operations
  - reading and interpreting data from equipment indicators
  - inspecting, identifying defects in and adjusting equipment

Approved Page 2 of 4

### **Knowledge Evidence**

The candidate must demonstrate knowledge in reclaiming and treating water through:

- identifying, assessing, addressing and reporting hazards
- interpreting reports and data
- identifying and addressing contaminants
- identifying equipment processes, technical capability and limitations
- identifying and using reagents

#### **Assessment Conditions**

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed in compliance with relevant legislation/regulation and using
  policies, procedures, processes and operational manuals directly related to the industry
  sector for which it is being assessed; and,
- assessment may be conducted in conjunction with the assessment of other Units of Competency; and,
- assessment must confirm consistent performance can be applied in a range of relevant workplace circumstances; and,
- assessors must demonstrate the performance evidence, and knowledge evidence as
  outlined in this Unit of Competency, and through the minimum years of current\* work
  experience specified below in an Industry sector relevant to the outcomes of the unit; or,
- where the assessor does not meet experience requirements a co-assessment or partnership arrangement must exist between the qualified assessor and an Industry subject matter expert. The Industry subject matter expert should hold the unit being assessed (or an equivalent unit) and/or demonstrate equivalence of skills and knowledge at the unit level. An Industry technical expert must also demonstrate skills and knowledge from the minimum years of current work experience specified below in the Industry sector, including time spent in roles related to the unit being assessed; and,
- assessor and Industry subject matter expert requirements differ depending on the Australian Qualifications Framework Level (AQF) of the qualification being assessed and/or Industry Sector as follows:

Industry sector	AQF** Level	Required as sessor or Industry subject matter expert experience
Drilling, Metalliferous Mining, Coal	1	1 Year
Mining, Extractive (Quarrying) and Civil Construction	2	2 Years
Drilling, Coal Mining and Extractive (Quarrying)	3-6	3 Years

Approved Page 3 of 4

Metalliferous Mining and Civil Construction	3-6	5 Years
Other sectors	the Resources a assessor and/or experience shou standards for th assessed and wh	is being assessed outside of and Infrastructure Sectors Industry subject matter expert ald be in-line with industry e sector in which it is being mere no Industry standard is I comply with any relevant

<sup>\*</sup>Assessors can demonstrate current work experience through employment within Industry in a role relevant to the outcomes of the Unit; or, for external assessors this can be demonstrated through exposure to Industry by conducting frequent site assessments across various locations.
