# Assessment Requirements for RIIWVG401D Apply and monitor the site water management plan

## Modification History

Release	Comment
1	The unit replaces RIIWVG401A Apply and monitor the site water management plan
2	Editorial corrections.
3	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

## Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant legislation, documentation, policies and procedures
- implements the requirements, procedures and techniques for the safe, effective and efficient application and monitoring of site water management plans including:
  - providing team leadership
  - selecting construction and operational techniques
  - selecting and assigning plant and equipment
  - developing and administering work plans
  - monitoring performance and reporting
- works effectively with others to undertake and complete the application and monitoring of site water management plans that meets all the required outcomes including:
  - consulting with team members to share information and prepare action plans
  - providing clear and timely written and verbal instructions
  - maintaining written and verbal reporting requirements and procedures
  - organising work activities to meet all task requirements
- demonstrates completion of applying and monitoring the site water management plan that safely, effectively and efficiently meets all of the required outcomes on more than one (1) occasion including:
  - ensuring completion of site water management operations

- monitoring and adjusting work programs where required to achieve outcomes
- recommending improvements for safety and efficiency of the management plan

## Knowledge Evidence

The candidate must demonstrate knowledge in applying and monitoring the site water management plan through:

- risk and hazard assessment
- work health and safety
- environmental management
- quality system
- communication
- site water management
- monitoring and reporting
- emergency response
- developing and administering work plans
- identifying plant and equipment capabilities and limitations

## Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed in compliance with relevant legislation/regulation and using policies, procedures, processes and operational manuals directly related to the industry sector for which it is being assessed; and,
- assessment may be conducted in conjunction with the assessment of other Units of Competency; and,
- assessment must confirm consistent performance can be applied in a range of relevant workplace circumstances; and,
- assessors must demonstrate the performance evidence, and knowledge evidence as outlined in this Unit of Competency, and through the minimum years of current\* work experience specified below in an Industry sector relevant to the outcomes of the unit; or,
- where the assessor does not meet experience requirements a co-assessment or partnership arrangement must exist between the qualified assessor and an Industry subject matter expert. The Industry subject matter expert should hold the unit being assessed (or an equivalent unit) and/or demonstrate equivalence of skills and knowledge at the unit level. An Industry technical expert must also demonstrate skills and knowledge from the minimum years of current work experience specified below in the Industry sector, including time spent in roles related to the unit being assessed; and,
- assessor and Industry subject matter expert requirements differ depending on the Australian Qualifications Framework Level (AQF) of the qualification being assessed and/or Industry Sector as follows:

Industry sector	AQF** Level	Required assessor or Industry subject matter expert experience
Drilling, Metalliferous Mining, Coal Mining, Extractive (Quarrying) and Civil Construction	1	1 Year
	2	2 Years
Drilling, Coal Mining and Extractive (Quarrying)	3-6	3 Years
Metalliferous Mining and Civil Construction	3-6	5 Years
Other sectors	Where this Unit is being assessed outside of the Resources and Infrastructure Sectors assessor and/or Industry subject matter expert experience should be in-line with industry standards for the sector in which it is being assessed and where no Industry standard is specified should comply with any relevant regulation.	

\*Assessors can demonstrate current work experience through employment within Industry in a role relevant to the outcomes of the Unit; or, for external assessors this can be demonstrated through exposure to Industry by conducting frequent site assessments across various locations.

\*\*Where a unit is being delivered outside of a Qualification the first numeric character in the Unit code should be considered to indicate the AQF level
