RIISS00011 Skill Set Underground Shotfiring - Metalliferous

Release: 1

RIISS00011 Skill Set Underground Shotfiring - Metalliferous

Modification History

Not applicable.

Description

This skill set is for those beginning work as an underground shotfirer in a metalliferous mining context.

Pathways Information

These units provide credit towards a number of qualifications from the RII09 Training Package, particularly the Certificate III in Underground Metalliferous Mining.

Licensing/Regulatory Information

Shotfiring regulations vary between states/territories. To be appointed under any statutory requirements as a shotfirer, state/territory licensing requirements must be met. State/territory licensing requirements need to be confirmed by the employer, the participant and the Registered Training Organisation delivering and/or assessing the units of competency, before training commences.

Skill Set Requirements

RIIBLA205A	Store, handle and transport explosives
RIIBLA303A	Conduct underground development shotfiring
RIIBLA304A	Conduct underground production shotfiring
RIIBLA305A	Conduct secondary blasting

Target Group

This skill set is for those beginning work as an underground shotfirer in a metalliferous mining context.

Suggested words for Statement of Attainment

This Skill Set from the RII09 Resources and Infrastructure Industry Training Package meets the industry requirements for those beginning work as an underground metalliferous shotfirer.
