Assessment Requirements for SFIAQU101 Carry out basic aquaculture activities

Release: 1

Assessment Requirements for SFIAQU101 Carry out basic aquaculture activities

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has carried out basic aquaculture activities on at least one occasion, including:

- completing two of the following tasks safely and as specified by the supervisor:
 - cleaning, drying out, untangling or carrying out minor construction on nets, tanks, culture or holding structures and farm structures
 - feeding stock
 - manual activities, such as moving materials or equipment, painting and stripping, weeding, mowing and digging
 - minor plant and equipment cleaning, maintenance and/or operation
 - stock handling or harvesting, such as collecting, moving, packing live and dead stock, and sorting and grading
- using the appropriate materials, tools and personal protective equipment for the task
- cleaning up work area and equipment and reporting to supervisor after completion of work tasks.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- range and purpose of basic routine work activities carried out in an aquaculture, seafood holding or ornamental operation
- basic biological characteristics and welfare of the culture species
- basic health and safety and biosecurity requirements relating to own work
- purpose and operation of basic hand-held tools and personal protective equipment
- workplace procedures for basic aquaculture activities.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an aquaculture workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment suitable for the work activity
 - basic hand-held tools and equipment relevant to work activities
- specifications:
 - workplace procedures and specific instructions relevant to the activity
- relationships:
 - evidence of interactions with supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
