Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to maintain aquaculture farm structures and related infrastructure and equipment used for culturing and holding stock.

The unit applies to individuals who undertake minor repairs and maintenance in an aquaculture setting under the direction of a supervisor.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, food safety, biosecurity and environmental regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Aquaculture (AQU)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to maintain and repair stock culture	1.1 Confirm instructions on maintenance and repair tasks with supervisor

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
holding and farm structures	1.2 Collect required tools and equipment, including personal protective equipment, and check for serviceability
2. Maintain and repair stock culture holding and farm structures	2.1 Check stock culture, holding and farm structures for soundness and signs of damage according to supervisor instructions 2.2 Select the appropriate technology, tools, materials or equipment for the tasks 2.3 Carry out repairs on stock culture holding and farm structures according to supervisor instructions and health and safety requirements
3. Follow up on maintenance and repair tasks	3.1 Clean work area and dispose of waste materials safely according to workplace procedures 3.2 Check and store tools and equipment, reporting any identified repair requirements to supervisor 3.3 Record relevant data and observations, and report any abnormal records to supervisor

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	- Interpret text in workplace procedures and instructions - Interpret warning signs and labels on tools, technology or materials
Writing	Complete workplace maintenance and repair forms legibly and accurately
Numeracy	- Use addition and multiplication to calculate quantities of materials - Measure length accurately
Oral communication	- Ask questions to clarify job requirements - Use correct terminology to describe condition of repairs and maintenance requirements
Get the work done	Make routine decisions about maintenance and repair activities, including condition and urgency of activity
