Assessment Requirements for SFIAQU303 Monitor stock handling activities

Release: 1

Assessment Requirements for SFIAQU303 Monitor stock handling activities

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has monitored stock handling activities on at least one occasion, including:

- communicating with supervisor on handling activities
- organising and communicating stock handling activities and safety precautions with team members
- monitoring stock handling activities to ensure efficiency and to minimise damage and stress to stock
- preparing, operating and maintaining stock handling equipment, including the fitting of personal protective equipment
- maintaining accurate records on stock handling activities and observations
- monitoring the cleaning of work area.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- stock handling activities conducted in aquaculture farms
- hazards and risks associated with handling stock and using stock handling equipment
- range of equipment used for stock handling, including operating methods and calibration
- health and safety requirements relating to handling stock and stock handling equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:

- skills must be demonstrated in an aquaculture workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - stock to be handled
 - stock culture, holding and farm structures
 - equipment required for the handling activities
 - personal protective equipment
 - workplace data recording or reporting forms
- specifications:
 - workplace procedures for stock handling activities, including advice on health and safety requirements
- relationships:
 - interactions with supervisor and team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
