**Release: 2**

## Assessment Requirements for SFIAQU312 Monitor feed activities

### Modification History

Release	Comments
Release 2	This version released with SFI Seafood Industry Training Package Version 2.0.
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

### Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has monitored feed activities for aquatic stock on at least one occasion, including:

- communicating with supervisor on feeding requirements and activities
- using appropriate feeding equipment and/or technology
- fitting personal protective equipment when it's required
- preparing the correct feed type and quantity to meet feeding requirements
- altering feeding plan to compensate for factors or conditions influencing feed uptake
- maintaining a clean work area and functional equipment during and after feeding
- checking and maintaining the quality of feed
- maintaining accurate records on feeding activities.

### Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- feeding requirements of aquatic stock, stock types and age groups
- characteristics of main feed types
- stock behaviour and dietary requirements in varying conditions
- factors and conditions that inhibit or limit feed uptake
- effects of food wastage on environment
- feed handling and preparation and storage requirements
- feeding equipment operations and maintenance
- safety considerations and hazards associated with feeding equipment and activities.

## Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
  - skills must be demonstrated in an aquaculture workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
  - feeding equipment
  - stock feed
  - stock to be fed
- specifications:
  - feeding schedule
  - workplace procedures for feeding stock, including advice on health and safety and hygiene requirements
- relationships:
  - evidence of interactions with supervisor and team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
