Application

This unit of competency describes the skills and knowledge required to perform mobile surveillance.

The unit applies to individuals who are required to carry out surveillance on foot, via vehicle and via public transport, consistent with the covert nature of the surveillance activity, and to apply alternative surveillance techniques in response to changes in the operation.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, biosecurity and environmental regulations, legislation and standards that apply to the workplace.

Licences will be required if operating a vehicle.

Regulatory requirements apply to this unit. Users are required to check with the relevant jurisdiction for current requirements.
