Assessment Requirements for SFICPL412 Operate in remote areas

Release: 1

Assessment Requirements for SFICPL412 Operate in remote areas

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has, on at least one occasion, planned, travelled and operated in remote areas for fisheries monitoring activities, including:

- documenting operations and travel plans that incorporate risk management strategies and contingency plans
- testing, maintaining and operating communication equipment and navigational aids
- travelling safely according to travel plan
- maintaining the safety of self, others, equipment and evidence while undertaking operation and compliance monitoring activities
- preparing detailed witness statements
- preparing accurate reports on gathered intelligence and operation outcomes.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- equipment and supplies necessary for safe travel and operation in remote areas
- jurisdictional policies and procedures for safe travel and operation in remote areas and exercising compliance powers
- risks associated with remote area travel and operations and strategies for minimising those risks
- emergency response procedures used for remote areas
- procedures for taking statements and evidence gathering.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a fisheries compliance monitoring setting in a remote area or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - equipment, including communication and navigational aids, required for remote travel and operation
 - vehicles and vessels, as required, for remote travel
- specifications:
 - access to jurisdictional policies and procedures relating to safe travel and operation in remote areas and exercising compliance powers
 - operational plans
- relationships:
 - evidence of interactions with suspects and witnesses.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
