Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to operate safely in remote places and isolated areas for the purpose of conducting fisheries compliance monitoring activities.

The unit applies to individuals who work as fisheries compliance officers in remote areas where regular operational support is not readily available. In this role they develop operational plans specific for remote areas controls, use communication equipment and navigational aids, carry out monitoring, take and store evidence and restrain arrested suspects as necessary.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, biosecurity and environmental regulations, legislation and standards that apply to the workplace.

Licences will be required to operate a vehicle or vessel.

Regulatory requirements apply to this unit. Users are required to check with the relevant jurisdiction for current requirements.

Pre-requisite Unit

Nil

Unit Sector

Compliance (CPL)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for remote	1.1 Develop and convey operational plans to colleagues and base
