Assessment Requirements for SFIEMS201 Participate in environmentally sustainable work practices

Release: 1

Assessment Requirements for SFIEMS201 Participate in environmentally sustainable work practices

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has identified, complied with, and contributed to the improvement of environmentally sustainable work practices in the context of their role on at least one occasion, including:

- identifying existing or potential environmental and resource efficiency issues, hazards or compliance concerns
- identifying at least two improvements to workplace practices and resource efficiency based on observing and following workplace procedures and measuring current usage of resources.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- common environmental and resource hazards and risks associated with the seafood industry sector relevant to work area
- procedures and processes relevant to work area that support environmental and resource efficiencies
- environmental sustainability principles that apply to own work role
- key features of environmental laws, regulations and standards and why they are relevant to the work context and seafood industry
- workplace environmental plan and its application to own work role
- legal and workplace requirements for reporting:
 - environmental and resource hazards and risks
 - environmental and resource efficiencies and inefficiencies.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a seafood industry workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - access to relevant workplace documentation
- specifications:
 - relevant workplace procedures that include advice on environmental requirements and environmentally sustainable work practices.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
