**Assessment Requirements for SFIVOP201
Comply with organisational and legislative
requirements for vessel operations**

Release: 1

Assessment Requirements for SFIVOP201 Comply with organisational and legislative requirements for vessel operations

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has maintained records and monitored vessel operations according to organisational and statutory requirements on at least one occasion, including:

- completing and distributing accurate records for assigned vessel work responsibilities to relevant personnel or authority
- maintaining security and back-up of completed records
- monitoring operations and equipment within area of responsibility
- identifying issues and problems with non-compliance, and applying the appropriate procedures for addressing these.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- relevant local governing obligations and regulations related to assigned vessel work responsibilities
- entitlement or authorisations to view records of vessel operations
- principles of record keeping, including importance of maintaining accurate records
- workplace procedures relating to legislative requirements for vessel operations, including dealing with non-compliance
- personal and corporate penalties for non-compliance relating to vessel operations.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:

- skills must be demonstrated in a vessel operation setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - workplace record keeping system
 - equipment to check/inspect
- specifications:
 - workplace procedures relating to vessel operations, record keeping to comply with statutory requirements, and responding to non-compliance
 - access to legislation and regulations relating to vessel operations
- relationships:
 - evidence of interactions with team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
