- maintain client records for the above clients detailing:
  - aftercare advice
  - adverse reactions
  - contraindications
  - follow up advice
  - service outcomes
  - procedure followed
  - products used
  - spray gun setting
- provide spray tanning services for each client that demonstrate:
  - aftercare advice
  - colour choice suitable for client skin and type
  - effective skin exfoliation and preparation
  - even colour
  - use of client and operator personal protection equipment
- clean, maintain, and reassemble spray tanning equipment
- recognise skin reactions to patch test
- present self, according to organisational policy
- comply with health and hygiene regulations and requirements.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- state or territory and local health and hygiene regulations and requirements relevant to applying cosmetic tanning products
- organisational policies and procedures relevant to applying cosmetic tanning products:
- client record management
- equipment and product use and maintenance
- incident reporting
- personal hygiene and presentation
- waste disposal
- work health and safety
- legal and insurance liabilities and responsibilities regarding tanning services
- scope of practice in regard to:
  - when to refer clients to other practitioners
  - role of complementary therapist and medical practitioner
- ingredients of tanning products, exfoliators and moisturisers and their effects on skin
- advantages and disadvantages of types of tanning products available
- product selection for different skin colours and type
- use and effect of tanning enhancers
- how and when to use tanning correctors
- cleaning, maintenance and reassembling of cosmetic tanning equipment and accessories
- typical problems that occur with equipment and how to fix according to manufacturer instructions
- risks associated with the use of pressurised cosmetic tanning equipment
- importance of using equipment with a pressure gauge
- age at which a person is classed as a minor and why minors can only be treated with informed parent or guardian consent
- contraindications that prevent or restrict service or may require referral to a medical professional and their relationship to cosmetic tanning treatment:
  - asthma
  - bacterial, fungal, parasitic and viral infections
  - eczema
  - pigmentation disorders
  - psoriasis
  - sunburn
- adverse reaction appearance and management in relation to cosmetic tanning services:
  - burning sensations
  - coughing
  - fainting
  - itching
  - swelling
  - skin irritation
  - watery eyes
- pigmentation disorders that affect cosmetic tanning application:
  - hypopigmentation
  - hyperpigmentation
• importance of pre and post-service advice
• aftercare advice, products and services in maintaining tanning service
• sustainable operating procedures for the conservation of product, water and power
• environmentally sound disposal methods for cosmetic tanning service waste.

Assessment Conditions
Skills must be demonstrated in a beauty industry environment; this can be:

• a beauty industry workplace or
• a simulated beauty workplace set up for the purpose of skills assessment, that provides services to paying members of the public.

Assessment must ensure access to:

• paying clients, both new and regular, with different spray tanning requirements, who have the expectation that the services provided reflect those of a commercial business
• hand washing facilities:
  • basin
  • hot and cold running water
  • liquid soap
  • single use towels or hand dryer
• relevant workplace documentation:
  • blank client records
  • equipment instructions
  • organisational policies and procedures relevant to applying cosmetic tanning products
  • product instructions and safety data sheets.

Assessment must ensure use of:

• cleaning and disinfection products and equipment
• compressors
• cosmetic tanning products from a comprehensive professional range
• exfoliation products
• individual spray booth areas with filtered overspray ventilation
• personal protective equipment:
  • aprons
  • disposable gloves
  • face masks
  • safety glasses
• protective caps and covers for clients
• professional spray tanning gun and machine
• towels.
Assessment activities that allow the learner to:

- complete cosmetic tanning within commercially realistic speed, timing and productivity
- demonstrate competency in an environment reflective of real work situations
- manage tasks and contingencies in the context of the job role.

Assessors must satisfy the Standards for Registered Training Organisation’s requirements for assessors and:

- have worked in the beauty industry for at least three years where they have applied the skills and knowledge of this unit of competency.
