Assessment Requirements for SHBBMUP012 Apply airbrushed make-up

Release: 1

Assessment Requirements for SHBBMUP012 Apply airbrushed make-up

Modification History

Supersedes and is not equivalent to SHBBMUP005 Apply airbrushed make-up.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- provide airbrush make-up for at least five different clients suitable for the following established client make-up objectives:
 - day
 - evening
 - mature skin
 - tattoo, or bruise coverage
 - fantasy make-up for face or body
- design and record make-up plan for each of the above clients specifying details of:
 - areas requiring corrective make-up
 - client image and occasion
 - colour analysis and design
 - contraindications to make-up services
 - facial shape
 - highlighting and shading
 - products and application techniques
 - skin types and conditions
- operate airbrush gun and compressor to demonstrate the following airbrushing techniques and precautions:
 - free-hand and stencils
 - circular movements
 - long brush stroke
 - avoid splatter
 - avoid excess product application
 - increase and decrease compressor pressure for optimal and safe make-up application
 - adjust spray patterns based on distance to client's skin
- clean and maintain airbrush gun after each use.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- state or territory and local health and hygiene regulations and requirements relevant to make-up services
- organisational policies and procedures relevant to make-up services:
 - client record management
 - equipment use and maintenance
 - incident reporting
 - linen use and laundry procedures
 - personal hygiene and presentation
 - presentation of treatment area
 - waste disposal
 - work health and safety
- legal and insurance liabilities and responsibilities regarding make-up services
- scope of practice:
 - when to refer clients to other practitioners
 - importance of not stating a diagnosis of a contraindication
- benefits and uses of airbrush make-up application
- contraindications, that prevent or restrict make-up services, and their relationship to make-up services:
 - allergies to products
 - bacterial, fungal, parasitic or viral infections
 - abnormal skin
 - recent skin treatments including injectables, intense pulsed light, laser, surgery
- appearance of the following common skin types and conditions and their relationship to make-up services:
 - oily, lipid
 - dry, alipid and lipid dry
 - diffused red
 - pigmented
 - couperose
 - mature
- factors which influence the application of make-up:
 - facial shapes and their relationship to elements and principles of make-up design
 - effects of natural and artificial light on cosmetics
 - colour design principles:
 - colour wheel
 - primary, secondary, tertiary, complementary and grey scale colours
 - tonal value, hue and shade

- common ingredients in airbrush make-up products and their effects on skin
- effects created by application of specific make-up products and colour application techniques:
 - highlighting
 - shading
 - contouring
- types of airbrushing equipment:
 - top-fed airbrush
 - bottom-fed airbrush
- sustainable operating procedures for the conservation of product, water and power
- aftercare advice and products to maintain and remove make-up applications.

Assessment Conditions

Skills must be demonstrated in a beauty or make-up services environment; this can be:

- an industry workplace or
- a simulated beauty workplace set up for the purpose of skills assessment, that provides beauty services to paying members of the public or freelance services for paid make up assignments.

Assessment must ensure access to:

- paying clients or models as part of paid assignments, with different make-up requirements, who have the expectation that the services provided reflect those of a commercial business
- facilities set up for airbrushing make-up service
- hand washing facilities:
 - basin
 - hot and cold running water
 - liquid soap
 - single use towels or hand dryer
- relevant workplace documentation:
 - blank client records
 - organisational policies and procedures relevant to make-up services
 - manufacturer instructions and safety data sheets.

Assessment must ensure use of:

- adjustable make-up chair
- airbrush equipment:
 - gun
 - compressor
 - holder
- airbrush make-up products from a comprehensive and professional product range:

- primers
- neutralisers
- foundations
- bronzers
- shimmers
- setting powders
- eye shadows
- eyeliners
- blushers
- lipsticks
- brush sanitiser
- cleaning and disinfection products and equipment
- disposable cotton buds, facial wipes, spatulas and tissues
- hand held mirror
- hand sanitiser
- headband or hair clips
- magnifying lamp
- make-up equipment:
 - protective bibs
 - sponges and wedges
 - tweezers
- make-up lighting
- make-up shields and stencils
- skin cleansers, toners, moisturisers
- water and alcohol-based cleaning products for airbrush equipment.

Assessment activities that allow the learner to:

- complete make-up services within commercially realistic speed, timing and productivity
- demonstrate competency in an environment reflective of real work situations
- manage tasks and contingencies in the context of the job role.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors and:

- have worked in the beauty or make-up industry for at least three years where they have applied the skills and knowledge of this unit of competency.
