Release: 1

# Assessment Requirements for SISFFIT053 Support healthy eating for individual fitness clients

# **Modification History**

Supersedes and is not equivalent to SISFFIT025 Recognise the dangers of providing nutrition advice to clients, and SISFFIT026 Support healthy eating through the Eat for Health Program.

## **Performance Evidence**

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- support healthy eating for three fitness clients and for each of the three clients:
  - identify daily eating patterns
  - compare daily eating patterns with the recommendations of Australian national dietary guidelines
  - assist clients with change to achieve healthier eating patterns using national dietary guidelines and associated resources, and:
    - provide information about daily patterns of healthy eating and recommended proportions of the five food groups
    - provide examples of healthy meals and snacks
    - provide information about healthy ways to prepare and cook food
    - educate clients about how to interpret nutrition information on food labels
  - consistently use client-centred communication during all interactions
  - · maintain accurate records of client goals and advice provided
  - seek and evaluate feedback from clients and consider ways to improve own practice
- according to actual client interactions or case studies, respond to two clients seeking advice or services outside scope of own practice for providing nutrition advice, and for each client:
  - advise client why their nutrition needs are outside scope of own role
  - provide information about the appropriate type of medical or allied health professional with relevant expertise
  - write a referral that provides clear information about the client and the reasons for referral.

# **Knowledge Evidence**

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- procedures for maintaining client records and confidentiality of client information
- client-centred communication techniques for establishing and building trust and rapport to support behaviour change

Approved Page 2 of 5

- role and limitations of fitness instructors in providing nutritional advice to clients, and:
  - purpose and content of established fitness industry guidelines for providing nutrition advice within scope of practice for fitness instructors
  - reasons for confining information and advice that is consistent with current Australian dietary guidelines and support resources
  - potential professional, legal and financial consequences of providing nutrition-related advice outside of scope of practice
- how to screen clients to identify the type and depth of advice they are seeking about their nutrition needs
- techniques used to positively communicate with clients about scope of own role and knowledge
- appropriate responses to common fitness-related client requests and situations that require referral to medical and allied health professionals involving:
  - detailed nutritional assessment
  - personalised meal planning to meet a specific goal including advice and plans for weight loss and weight gain goals
  - high intensity, high volume and high level sports performance requirements
  - advice and recommendations on specific diet, eating trends and specific popular diets
  - nutritional supplements and specialised foods including for performance, medical and general health purposes
  - ergogenic aids
  - · queries about nutrition and medication interactions
- risks to clients of fitness instructors providing nutrition-related advice outside scope of practice:
  - nutrient deficiencies and imbalances
  - exposure to relative energy deficiency in sport (RED-S) and overview of RED-S impacts
  - negative impact on existing health conditions
  - food intolerance and allergy adverse reactions
  - negative food-drug interactions
  - nutrition confusion
  - financial burden of product recommendations
- how to find information about available accredited practising dietitians (APD) and accredited sports dietitians (AccSD) in the local area
- benefits of working in collaboration with medical and allied health professionals for both fitness instructors and clients
- format and inclusions of referral letters to medical and allied health professionals
- information and recommendations contained in fitness industry eating disorder publications, and how fitness instructors can effectively respond to behavioural warnings signs for:
  - eating disorders
  - excessive exercise disorders

Approved Page 3 of 5

- muscle dysmorphia
- sources of authoritative and evidence-based information about nutrition and how to determine credibility
- the meaning of key nutritional terms:
  - diet
  - healthy eating
  - nutrition
  - nutrients including macronutrients and micronutrients, and overview of how the body
- how to locate and use information from current Australian dietary guideline resources to provide healthy eating advice to individual fitness clients:
  - full guideline and summary documents
  - consumer brochures
  - teaching tools
- key population level recommendations and healthy eating guidance contained in current Australian national dietary guidelines and associated resources:
  - the principal recommendations and guidelines
  - characteristics of the five food groups and the nutrients they contribute to the diet
  - daily patterns of healthy eating and recommended proportions of the five food groups
  - types of discretionary foods to be limited and why
- methods and tools for collecting information about client daily eating patterns and how to evaluate this against national dietary recommendations
- strategies, informed by national dietary guidelines, that support clients with healthy eating:
  - how to interpret food labels including health star rating labelling systems to support healthier food choices
  - types of healthy meals and snacks
  - healthy ways to prepare and cook food
- the benefits to health and emotional wellbeing of combining healthy eating and physical activity
- methods used to evaluate support provided to clients:
  - client evaluation questionnaires
  - informal conversations with clients
  - self-reflection on client responses to information including difficulties in understanding and implementing.

#### Assessment Conditions

Skills can be demonstrated in:

- the workplace, or
- a simulated workplace, set up for the purpose of skills assessment.

Assessment must ensure use of:

Page 4 of 5 SkillsIQ

- interaction with clients; these can be:
  - · clients in an industry workplace, or
  - individuals who participate in simulated activities used for the purpose of skills assessment
- established fitness industry guidelines for providing nutrition advice within scope of practice for fitness instructors
- fitness industry eating disorder publications
- current Australian national dietary guidelines and associated resources:
  - full guideline and summary documents
  - consumer brochures
  - teaching tools
- template referral letters
- procedures for maintaining client records and confidentiality of client information.

#### Assessors must:

- satisfy the Standards for Registered Training Organisations requirements for assessors, and
- hold a Certificate IV in Fitness, and have a collective period of at least two years' experience working in fitness instruction, where they have applied the skills and knowledge covered in this unit of competency; the two years' experience can incorporate full and part time experience, or
- be a registered or accredited practising dietitian, sports dietitian, health or exercise professional with a degree and experience relevant to this unit of competency.
