SISOSCB007 Inspect and fill SCUBA cylinders

Release: 2

SISOSCB007 Inspect and fill SCUBA cylinders

Modification History

Release 2: SISOSCB007 Inspect and fill SCUBA cylinders supersedes and is equivalent to Release 1 SISOSCB007 Inspect and fill SCUBA cylinders.

Updated: Minor change to Assessment Conditions.

Release 1: Supersedes and is not equivalent to SISOSCB307A Inspect and fill SCUBA cylinders.

Application

This unit describes the performance outcomes, skills and knowledge required visually inspect and fill SCUBA cylinders.

SCUBA cylinders are required to undergo cyclic inspection and can only be certified by a certified gas cylinder test station. This unit does not cover those specialist skills.

It applies to dive leaders, usually known as divemasters, or instructors and to assistant instructors and support staff.

This unit applies to any type of organisation that delivers SCUBA diving activities and dive instruction including commercial, not-for-profit and government organisations.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Competency Field

SCUBA Diving

Unit Sector

Outdoor Recreation

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

1. Visually inspect, SCUBA cylinders.

1.1. Visually inspect cylinders prior to filling, according to organisational safety procedures and manufacturers'

- specifications.
- 1.2. Identify any non-compliant cylinders, tag and isolate from use according to organisational procedures
 - 1.3. Remove cylinder boot and mesh, visually inspect exterior of cylinders for dents, gouges and corrosion.
2. Fill SCUBA cylinders.
- 2.1. Operate high pressure compressor according to organisational safety procedures and manufacturers' specifications.
 - 2.2. Fill cylinders with air to correct capacity and pressure.
 - 2.3. Refit valve and clean and dry areas.
 - 2.4. Complete leak testing and documentation according to organisational requirements.
 - 2.5. Handle, store and restrain cylinders according to organisational safety procedures.
 - 2.6. Test organisation's air purity regularly to ensure it meets standards.

Foundation Skills

Foundation skills essential to performance in this unit, but not explicit in the performance criteria are listed here, along with a brief context statement.

SKILLS	DESCRIPTION
Reading skills to:	interpret complex and sometimes unfamiliar documents which can include organisational work health and safety procedures and templates, and manufacturers' specifications.
Writing skills to:	use fundamental sentence structure to complete fault tags and forms that require factual information.
Numeracy skills to:	interpret, calculate and document numerical data involving pressures and percentages.
Planning and organising skills to:	manage own timing and productivity to complete inspections and fills within organisational service times.

Unit Mapping Information

This unit supersedes and is not equivalent to SISOSCB307A Inspect and fill SCUBA cylinders.
