Assessment Requirements for SISOSNK002 Lead snorkelling activities

Release: 1

Assessment Requirements for SISOSNK002 Lead snorkelling activities

Modification History

Not applicable.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- lead three snorkelling sessions for a group of participants according to predetermined activity plans
- across the three sessions, collectively use two different demonstration and instruction techniques
- during each session consistently manage participant adherence to safety procedures
- after each session, facilitate a debrief with participants and participate in a team member debrief
- utilise options provided in Assessment Conditions to:
 - determine a total of three required activity modifications to suit prevailing conditions and participant capabilities and responses
 - respond to a total of three different immediate safety risks that have arisen during activities
 - respond to a total of two emergency situations and complete two incident reports
 - complete two reports on equipment faults.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- organisational safety, emergency response and first aid procedures for snorkelling activity sessions
- a range of demonstration and instruction techniques applicable to recreational activities
- appropriateness of different demonstration and instruction techniques for a range of ages and capabilities
- the importance of verbalising instructions during demonstrations and providing reasons for doing things in a certain way
- techniques used to:
 - build group cohesion
 - motivate and encourage participants to keep them engaged and challenged
 - provide constructive feedback to participants
- key principles of group dynamics and techniques used to manage positive group dynamics

- signs, stages and levels of conflict within groups and techniques used to resolve at various stages of escalation
- specific to snorkelling activities:
 - roles and responsibilities of different activity leaders and support staff
 - communication protocols used between participants and leaders during activities
 - how characteristics of participants affect the selection of equipment and exposure suits:
 - age, size and weight
 - current experience in the recreational activity and skill level
 - fitness level and physical capabilities
 - injuries and medical conditions
 - emotional, behavioural and intellectual ability or disability
 - potential hazards and associated risks and safety procedures used to manage these
 - designated area for snorkelling.

Assessment Conditions

Skills must be demonstrated in confined or open waters within natural aquatic environments.

The following resources must be available to replicate industry conditions of operation:

- first aid equipment
- communication equipment for emergency response
- surface flags or markers
- rescue equipment.

Assessment must ensure use of:

- a group of participants whom the individual leads
- real workplace situations, or simulated activities, or case study scenarios that test aspects of this unit that relate to:
 - activity modifications for prevailing conditions and participant needs
 - arising safety risks
 - emergency situations
 - equipment faults
- exposure protection swim wear suitable for conditions, and exposure suits as required
- snorkel masks
- snorkels and snorkel keepers
- fins
- activity plans
- template:
 - safety checklists
 - participant informed consents

- equipment fault reports
- incident reports
- organisational safety, emergency response and first aid procedures for snorkelling activity sessions.

Assessors must satisfy the Standards for Registered Training Organisations requirements for assessors.
