SISSCGP310A Support athletes to adopt principles of sports psychology
SISSCGP310A Support athletes to adopt principles of sports psychology

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to enable coaches to support their athletes to apply the principles of sports psychology to their specific sporting activity. It focuses on assisting athletes to implement and evaluate psychological approaches to optimise their sporting performance.

Application of the Unit
This unit applies to those working autonomously and within supervisory roles in a sport and recreation environment. It applies to personnel who are responsible for coaching athletes in a sport-specific training or competition setting.

Licensing/Regulatory Information
No licensing, regulatory or certification requirements apply to this unit at the time of endorsement

Pre-Requisites
Nil

Employability Skills Information
This unit contains employability skills.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - build rapport with athletes and support personnel
  - access, analyse and convey information about sport psychology principles and approaches for peak performance to athletes using appropriate communication techniques
  - negotiate appropriate strategies to achieve peak performance with athletes and seek feedback on the effectiveness of strategies
- language and literacy skills to access and interpret information on sport psychology principles and approaches for peak performance relevant to the appropriate sport
- problem-solving skills to:
  - assess effectiveness of psychological approaches to enhance performance and to modify accordingly
  - recognise psychological barriers to enhanced performance and refer the athlete to support personnel.

Required knowledge

- psychological approaches and techniques such as mental rehearsal, goal setting and self control strategies to assist athletes to prepare psychologically for competition and to enhance performance in a sporting event
- organisational policies and procedures to enable athletes to implement psychological approaches to enhance performance in a professional and supported manner
- motivational techniques to assist athletes to prepare psychologically for a sporting event
- psychological barriers to enable these to be recognised and addressed
- information sources regarding psychological approaches for peak performance to enable accuracy and currency of knowledge to be conveyed to athletes.
# Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

## Overview of assessment

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- acquires, selects and adapts information in relation to sports psychology principles and approaches for optimal performance to develop and maintain professional knowledge for own sporting area
- works with support personnel to identify sport-specific psychological approaches for peak performance and selects and adopts communication strategies appropriate to the information needs of athletes
- consults with athletes and support personnel to develop, implement and review psychological approaches to support them in a coaching setting
- monitors psychological approaches of athletes and refers psychological barriers to appropriate support personnel.

### Context of and specific resources for assessment

Assessment must ensure participation in multiple interactions with athletes and support personnel that involve the provision and discussion of information and the implementation, monitoring and review of psychological approaches to enable optimal performance to demonstrate competency and consistency of performance.

Assessment must also ensure access to:

- a sport-specific training or competition setting
- athletes and sports psychology support personnel
- sources of information about sports psychology principles and approaches for peak performance
- current organisational policies and procedures that impact on the implementation of psychological approaches for peak performance.

### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of interaction with athletes and sport psychology support personnel including discussions and implementation of psychological approaches for
peak performance
- observation of consultation with athletes to review strategies to support them to apply psychological approaches to achieve peak performance
- oral or written questioning to assess knowledge of the principles of sports psychology
- third-party reports from coaches or other support staff detailing examples of interactions and discussions with athletes and support personnel such as the implementation of strategies to support athletes with sports psychology.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Relevant sport specific coaching units of competency.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Principles of sports psychology for peak sporting performance** may include:
- establishing mental routines
- motivation
- stress management.

**Support personnel** may include:
- sports psychologists
- nutritionists
- administrators
- other coaches
- sports scientists
- sports medicine providers
- other health professionals
- parents and guardians.

**Resources** may include:
- audiovisual
- multimedia
- information kits.

**Athletes** may include:
- beginner through to high performance level competitors
- athletes under 16 years of age who require parent or guardian consent prior to being included in a training program
