SISSCOP308A Model the responsibilities of an elite athlete
SISSCOP308A Model the responsibilities of an elite athlete

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to operate according to the legal and ethical responsibilities of an elite athlete. This unit focuses on the non-technical skills required to exhibit the behaviour expected of an elite athlete. It includes developing self-management strategies to address issues that may affect professional and personal performance outcomes in the relevant sport.

Application of the Unit
This unit applies to current or aspiring elite athletes who are competing in individual or team sports at a state, national or international level.

Licensing/Regulatory Information
No licensing, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Nil

Employability Skills Information
This unit contains employability skills.

ELEMENT

5. Comply with contractual obligations.

PERFORMANCE CRITERIA

5.1. Identify **stakeholders** elite athletes are required to represent and their **obligations** to them.

5.2. Identify **professional** and **social situations** in which elite athletes are required to represent stakeholders.

5.3. Identify and clarify the rights and responsibilities of all parties in the **contract**.

5.4. Carry out tasks and responsibilities according to legal and ethical requirements as stated in the contract.

5.5. Identify the **potential consequences** of a breach of contract for long term career opportunities.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- problem-solving skills to identify ethical issues such as drugs and behaviour that may impact on performance and outcomes as an elite athlete and implement strategies to address these
- language and literacy skills to:
  - read and interpret rights and responsibilities documented in a contract
  - source and apply information in relation to requirements of an elite athlete such as codes of conduct, anti-doping codes and anti-discrimination legislation
- self-management skills to:
  - comply with legal and ethical responsibilities of an elite athlete to demonstrate appropriate behaviour on and off the field
  - meet role model expectations
  - promote the value and integrity of sporting competition
- communication skills to:
  - develop and maintain professional relationships with a range of sporting and support staff
  - report any breaches in ethical rights such as problems with discrimination and harassment from other athletes or staff.

Required knowledge

- ethical and legal responsibilities of elite athletes to enable fair and safe competition
- principles of sport and competition to ensure promotion of the values and benefits of appropriate sports
- legal and ethical responsibilities contained in athlete contracts to enable athlete to carry out tasks and obligations responsibly
- anti-doping codes to enable compliance with testing requirements
- classification of major drugs in relation to their legal status to maintain legal training and competition standards
- short and long term physical and psychological effects of drugs on the human body
- information sources regarding drugs in sport to enable understanding of rights and responsibilities in relation to drugs in sport and to maintain currency of knowledge.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- demonstrates professional practice on and off the playing arena and in relationships with other athletes and sporting personnel
- applies relevant international, national and sport specific standards, rules, regulations, codes and policies to practice
- evaluates and reflects on strategies that may enhance professional and personal performance
- communicates in a way that engenders respect between all parties.

Context of and specific resources for assessment

Assessment must ensure assessment of the candidate's professional practice on and off the sporting arena over a period of time to demonstrate competency and consistency of performance.

Assessment must also ensure access to:

- other elite athletes and relevant support staff
- documentation such as contracts and regulations, codes and policies for the specific sport.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of interaction with a range of sporting personnel, including fellow athletes, coaches and support staff
- oral or written questioning to assess knowledge of policies and codes for relevant sport such as anti-doping codes and testing procedures, codes of behaviour and sources of information regarding the responsibilities of elite athletes
- third-party reports from coaches or other support staff detailing examples of appropriate behaviour and understanding of expected responsibilities of an elite athlete.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Information sources** may include:
- sporting bodies
- sports literature
- sporting personnel
- drugs monitoring bodies.

**Relevant information** may include:
- roles and responsibilities of elite athletes
- codes of conduct.

**Issues** may include:
- drugs
- alcohol
- behaviour on and off the field
- role model expectations
- discrimination.

**Elite athletes** may include:
- beginner through to high performance level competitors
- athletes under 16 years of age who require parent or guardian consent prior to being included in a training program
- female or male athletes
- athletes with a disability or special needs
- athletes from minority ethnic and cultural groups.

**Potential barriers** may include:
- managing injury
- other commitments
- interpersonal conflict
- managing media
- non-selection.

**Legal responsibilities** may include:
- anti-discrimination legislation
- anti-doping codes
- duty of care
- occupational health and safety
- contract clauses regarding behaviour
- sporting tribunal decisions.

**Ethical responsibilities** may include:
- contributing to a safe environment for other athletes that is free of discrimination, harassment and abuse
- treating all athletes fairly, with respect and dignity
- promoting fair play, teamwork and modelling appropriate sporting behaviour
- behaving with integrity and honour on and off the field
- respecting fellow athletes and competitors
- maintaining the sport's standards, rules, regulations, codes and policies.

**Industry codes of practice** may include:

- sport codes and regulations
- anti-doping codes
- codes of conduct.

**Principles of sport** must include:

- fairness
- respect
- responsibility
- safety.

**Ethical rights** may include:

- competing and training in an environment free from discrimination and harassment
- competing and training in an environment free of drugs
- being treated fairly, equally and with respect by coaches, officials, fellow athletes and supporters
- having access to codes, policies rules and regulations required to compete in the sport
- fair application of the principles of natural justice in relation to complaints or allegations faced by the athlete.

**Relevant information** may include:

- professional advice available on drugs in sport
- classification of major drugs in relation to their legal status
- short term and long term effects of drugs on the human body
- possible harmful effects of drug use
- classification of drugs as either banned or permitted in sport
- physical and psychological effects of banned and restricted drugs.

**Responsibilities of an elite athlete** must include:

- being available for sample collection
- taking responsibility for what is ingested and used
- informing medical personnel of obligations not to use prohibited substances
- ensuring any medical treatment does not
violate anti-doping policies
- providing accurate and up-to-date information on whereabouts.

**Anti-doping policies and codes** include:
- the world anti-doping code (WADA)
- national anti-doping codes
- sport-specific requirements.

**Drug testing procedures** include:
- availability of athlete
- provision of samples
- representation rights
- right of appeal.

**Support personnel** may include:
- administrators
- other coach or coaches
- sports scientists
- sports medicine providers
- agents
- parents or guardians.

**Stakeholders** may include:
- sporting bodies
- sponsors
- coaches
- government bodies.

**Obligations** may include:
- media activities
- commercial activities
- educational activities
- community activities.

**Professional situations** may include:
- interviews
- training and competition
- promotional functions
- after competition activities
- sports clinics for schools and community organisations
- official dinners
- meetings
- photo shoots
- charity events.

**Social situations** may include:
- supporters and fans
- colleagues, competitors or officials
- sponsors.

**Contract** may include:
- player
- sponsorship
- employment
- performance.
Potential consequences may include:

- formation.
- loss of contract
- suspension
- fines
- disciplinary action
- legal implications
- decrease in desired profile.
