

# Assessment Requirements for SITXINV004 Control stock

Release: 1

# Assessment Requirements for SITXINV004 Control stock

## **Modification History**

Not applicable.

## **Performance Evidence**

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- order, control and administer continuous and efficient supply relating to at least six different types of stock items
- use stock control procedures to monitor and maintain stock levels for the above items over a stock life cycle period that includes a stocktake
- · produce and distribute stock control reports
- complete above stock order and reporting activities within commercial time constraints.

## **Knowledge Evidence**

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- principles of stock control:
  - rotation and replenishment
  - product life cycle and maximising the use of all stock
  - checking for slow moving items
  - segregation of non-food items from food items that have potential to cross-contaminate
- stock control systems:
  - bin card system
  - imprest system
  - integrated point-of-sale system
  - ledger system
- stock control procedures, template documents and reports for:
  - ordering
  - levels
  - loss
  - performance
  - monitoring of quality
  - receipt
  - reorder cycles
  - rotation

Approved Page 2 of 4

- security
- stocktakes
- valuation
- wastage
- storage requirements for different kinds of stock
- use of stock control equipment and software where appropriate
- · specific industry sector:
  - types of computer stock control systems used, their functions and features
  - electronic equipment used for stock control; their functions and features
  - stock security systems
  - types of storage and their suitability for different kinds of stock
  - · methods to monitor and maintain stock levels
- specific organisation:
  - · relevant stock and product life and storage requirements for specific goods
  - departmental or individual stock ordering responsibilities
  - full content of stock control and security procedures
  - sources of information on negotiated cost of supply, contractual arrangements and preferred supplier arrangements
  - full content of stock ordering procedures and documents
  - stock reorder cycles
  - stock level reports
  - stock performance reports
  - stock loss reports
  - full content of stocktake procedures, documents and reports
  - reasons for stock loss and damage and methods to control these
- considerations in the protection of stock:
  - avoiding cross contamination
  - correctly applying humidity and temperature controls
  - correct ventilation
  - securing stock
  - storing stock in correct location and conditions to avoid damage
  - treating pest and vermin infestations.

### **Assessment Conditions**

Skills must be demonstrated in an operational tourism, travel, hospitality or events environment where stock levels are monitored and maintained. This can be:

- · an industry workplace
- a simulated industry environment.

Approved Page 3 of 4

Assessment must ensure access to:

- computers, printers and stock control software systems
- electronic equipment used for stock control
- diverse and comprehensive range of tourism, travel, hospitality or event industry stock items that are monitored and maintained
- current commercial stock control procedures and documentation for the ordering, monitoring and maintenance of stock.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors.
