ELEMENT	PERFORMANCE CRITERIA
	procedures.
2 Provide service.	2.1 Greet customers courteously and appropriately and determine their requirements for products and services.
	2.2 Offer information to customers on available products and services and promote products and services where appropriate according to organisation policy and procedures.
	2.3 Provide service using appropriate methods and techniques to meet customer expectations of quality, presentation and timeliness of delivery.
	2.4 Communicate effectively and work cooperatively as part of the team and according to established work plan or schedule.
	2.5 Follow workplace safety and hygiene procedures according to organisation and legislative requirements.
	2.6 Provide quality customer service and deal appropriately with complaints according to organisation procedures.
	2.7 Identify problems, determine possible solutions and take appropriate action to resolve the situation according to job role and organisation procedures.
	2.8 Where appropriate, farewell customers according to job role and organisation procedures in a manner that will encourage them to return.
3 Close down after service.	3.1 Complete ***end of service procedures*** according to organisation procedures, OHS requirements and ***environmental considerations***.
	3.2 Complete ***administration and reporting requirements***.
	3.3 Participate in debriefing sessions with colleagues where appropriate, identifying possible improvements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- planning and organising work according to organisation procedures, including collecting information and resources, and working within and setting timelines
- integration and application of service skills, including preparation, service procedures, close down and customer relations
- working cooperatively as part of a team and providing advice and support as required
- using safe and hygienic work practices in relation to provision of hospitality products and services according to organisation and legislative requirements
- communication skills to liaise with other team members, clarify requirements, provide information and listen to and interpret information and non-verbal communication
- numeracy skills to calculate and/or estimate bills, stock requirements and required ingredients, materials or equipment.

The following knowledge must be assessed as part of this unit:

- relevant legislative and regulatory requirements related to hygiene, health, safety, security and provision of hospitality products and services
- current knowledge of all main products and services offered by the organisation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency	Evidence of the following is essential: • collection of direct, indirect and supplementary evidence showing provision of integrated service for a minimum of 12 complete service periods (shifts) to ensure integration of skills and consistency of performance in different circumstances • ability to multi-task and respond to multiple demands and requests of a number of customers with varying requirements • ability to deal with typical issues such as workplace

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

time constraints, late arrivals, no-shows, walk-ins and other problems
- ability to meet, greet and interact positively with multiple and diverse customers throughout the hospitality experience
- ability to maintain the cleanliness and tidiness of work areas, including dealing with disposables and recyclables
- ability to participate in the service process and work flow as part of a team and take responsibility for own work and quality of outcomes
- compliance with relevant legislative and regulatory requirements, including OHS requirements
- demonstrated health and safety practices.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully-operational hospitality environment, including industry-current equipment and actual products and services as described in the Assessment Guidelines
- presence of industry-realistic conditions such as commercial ratios of customers to staff.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- training record book used as part of traineeship arrangements
- direct observation of the candidate providing integrated service according to established systems and procedures within a commercial hospitality setting
- evaluation of customer feedback about service including speed and timing
- written or oral questions to test knowledge about service techniques, equipment and OHS requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Workplace information may include:	• job role and tasks to be performed • verbal or written advice affecting job performance and service requirements • details of expected business, including customer requirements and scheduling • knowledge and availability of products, services and specials • local area knowledge and venue facilities.
End of service procedures include:	• safe storage of products, equipment and materials • cleaning procedures related to work areas and equipment • debriefing sessions, including quality service reviews • restocking • preparation for the next service period.
Environmental considerations include:	• recycling and minimising waste • responsible disposal of waste • efficient energy use • efficient water use.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Administrative and reporting requirements may include:	• handover • completing financial transactions such as reconciling takings and/or floats • completing work plans and schedules • completing incident, OHS or maintenance reports.

SITHIND003A Provide and coordinate hospitality service

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide and coordinate hospitality service to customers. The unit integrates a range of well-developed key operational and organisational skills required by service staff in hospitality organisations providing a range of organisation products and services to multiple and diverse customers.

The unit brings together the skills and knowledge covered in individual units and focuses on the way these must be applied in a hospitality setting to ensure a smooth work flow and quality customer service. It incorporates preparation, service and close-down of the work area, using a range of techniques, equipment and materials.

It involves taking responsibility for own outputs, working as part of a team and taking limited responsibility for the work of others.

State and territory licensing requirements may apply.

Application of the Unit

Application of the unit

This unit applies to a range of accommodation, catering and food and beverage services in various hospitality venues and settings such as hotels, restaurants, clubs, pubs, motels, gaming operations and catering outlets.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Basic cakes refer to a small range of cakes and sponges and must include:

- Madeira cake
- Genoise sponge
- basic aerated sponge
- Swiss roll
- fruit cake.

Product characteristics must include:

- colour
- consistency and texture

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- moisture content
- mouth feel and eating properties
- appearance.

Techniques and conditions for producing cakes may include:

- weighing or measuring and sifting dry ingredients
- adding fats and liquids to dry ingredients
- stirring and aerating to achieve required consistency and texture
- selecting and preparing appropriate cake tins and moulds
- using required amount of batter according to desired characteristics of finished products
- preparing and using appropriate pre-bake finishes and decorations
- selecting baking conditions and temperatures.

Appropriate equipment may include:

- commercial mixers and attachments
- whisks
- beaters
- spatulas
- wooden spoons
- cutting implements for nuts and fruits
- graters
- scales
- measures
- bowl cutters
- piping bags and attachments
- ovens
- cake tins and moulds.

Fillings may include:

- fresh and crystallised fruit
- fruit purées
- jams
- nuts
- creams
- mousse
- custard.

REQUIRED SKILLS AND KNOWLEDGE

- underlying principles of making yeast goods
- commodity knowledge, including quality indicators of ingredients for yeast goods
- principles and practices of hygiene particularly in relation to handling dough
- culinary terms commonly used in the industry related to yeast goods
- hygiene and safe handling and storage requirements related to yeast goods, commodities and products
- portion control and yield
- storage conditions for yeast goods and optimising shelf life.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency	Evidence of the following is essential: • ability to produce a range of sweet and savoury yeast goods • ability to produce a quantity of yeast goods that are consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints • application of hygiene and safety principles throughout the preparation process • preparation, decoration and presentation of a range of yeast goods, within typical workplace conditions.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills within a pastry kitchen as defined in the Assessment Guidelines, using industry-current equipment for making yeast goods, including a proofer and marble bench • use of authentic ingredients.
Methods of assessment	A range of assessment methods should be used to assess

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of preparing, decorating and presenting yeast goods
- questions about hygiene procedures, commodities, production techniques and storage requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITHPAT001A Prepare and produce pastries

SITHPAT002A Prepare and produce cakes.

SITHPAT004A Prepare bakery products for patisseries.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Yeast goods refer to a range of sweet and savoury breads, rolls and buns, and must include:

- basic breads and buns, such as:
  - Bath buns
  - bread rolls

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- yeast-raised pastries, such as:
  - Danish pastries
  - croissants
  - brioche
  - küchen
  - babas
  - savarins.

Product characteristics must include:

- colour
- consistency and texture
- moisture content
- mouth feel and eating properties
- appearance.

Techniques and conditions for producing yeast goods may include:

- chilling ingredients and work surfaces
- kneading and handling
- incorporating fat
- rolling
- preparing and using types of yeast
- cutting, shaping and moulding
- preparing and using appropriate fillings and pre-bake finishes and decorations.

Appropriate equipment may include:

- commercial mixers and attachments
- cutting implements
- scales
- measures
- bowl cutters
- piping bags and attachments
- ovens
- moulds, shapes and cutters
- baking sheets.

Fillings may include:

- fresh or crystallised fruit and fruit purées
- whole or crushed nuts
- spices
- cream

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- frangipane
- custard
- chocolate
- jam
- savoury fillings such as ham and cheese.

Decorations may include:

- glazes
- jellies
- fruit purées
- icings
- sprinkled icing sugar
- flavoured and coloured sugars
- fresh, preserved or crystallised fruits
- nuts
- fillings, including cream, mousse and fruit purées.

Storage conditions and methods appropriate to yeast goods may include:

- consideration of temperature, light and air exposure
- use of airtight containers
- display cabinets, including temperature-controlled cabinets to cool or warm
- refrigeration, chilling and freezing.

SITHPAT004A Prepare bakery products for patisseries

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare and produce a variety of high-quality bakery products.

Bakery products to be produced may be of varied cultural and ethnic origins and derived from classical or contemporary recipes.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers in hospitality enterprises where bakery items are prepared, such as patisseries, specialist bakeries, hotels, restaurants and coffee shops.

Bakery products to be produced may be of varied cultural and ethnic origins and derived from classical or contemporary recipes.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

SITHOHS002A Follow workplace hygiene procedures

.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare bakery products.	1.1 Prepare a variety of ***bakery products*** according to standard recipes and desired ***product characteristics***.
	1.2 Select, measure and weigh suitable ingredients according to recipe requirements, quality, freshness and desired product characteristics.
	1.3 Use ***appropriate equipment*** to produce required bakery

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	products.
	1.4 Prepare dough to correct consistency and shape.
	1.5 Prove products according to specified temperature and other conditions.
	1.6 Make bakery products, using correct ***techniques*** and ensuring appropriate ***conditions*** to optimise quality.
	1.7 Select required oven temperature and bake goods to ensure the desired characteristics, according to standard recipe specifications and enterprise practice.
2 Decorate and present bakery products.	2.1 Finish bakery items according to desired product characteristics.
	2.2 Decorate yeast goods where required and appropriate to enhance appearance, using suitable ***fillings***, icings and ***decorations***, according to standard recipes, enterprise standards and customer preferences.
	2.3 Present yeast goods attractively using suitable serviceware and decorations.
3 Store bakery products.	3.1 Store bakery products in ***storage conditions*** required to maintain quality and extend shelf life.
	3.2 Select packaging options appropriate for the preservation of product freshness and eating characteristics.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- safe work practices, particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling, and mixing and kneading equipment
- problem-solving skills to control quality
- literacy skills to read recipes, menus and instructions
- numeracy skills to calculate portions and weigh and measure quantities of ingredients.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- varieties and characteristics of bakery products, including:
  - classical
  - contemporary
  - from various ethnic and cultural backgrounds
- historical and cultural aspects of bakery products
- underlying principles of making bakery products
- culinary and technical terms commonly used in the industry related to bakery products
- commodity knowledge, including quality indicators of ingredients for bakery products, properties of ingredients used, and their interaction and changes during processing to produce required characteristics
- properties and requirements of yeast and control of yeast action
- processes of fermentation and dough development
- principles and practices of hygiene, particularly in relation to handling dough, commodities and products
- safe work practices, particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment
- function and routine maintenance of equipment used
- storage conditions for bakery products and optimising shelf life
- ratio of ingredients required to produce a balanced formula
- defining and applying corrective steps to ensure quality control
- influence of correct portion control, yields, weights and sizes on the profitability of an establishment
- portion control and yield
- expected taste, texture and crumb structure appropriate for particular bakery products.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency	Evidence of the following is essential: • ability to produce a range of specialist bakery products, both sweet and savoury

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- ability to produce a quantity of bakery products that are consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints
- application of hygiene and safety principles throughout the preparation process
- preparation, decoration and presentation of a range of specialist bakery products, within typical workplace conditions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a pastry kitchen as defined in the Assessment Guidelines, using industry-current equipment for making a variety of specialist bakery products, including specialty bread moulds
- use of authentic ingredients.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of preparing, decorating and presenting specialist bakery products
- questions about hygiene procedures, commodities, production techniques and storage requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHPAT001A Prepare and produce pastries
- SITHPAT002A Prepare and produce cakes
- SITHPAT003A Prepare and produce yeast goods.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work

SITHPAT005A Prepare and present gateaux, torten and cakes

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to produce, fill, decorate and present a range of specialised sponges and cakes, where finish, decoration and presentation of a high order are required.

The preparation of specialised cakes includes sponges, gateaux, torten, cakes, sweet pastes and meringues, fillings and coating agents, as well as skills and techniques in assembling and finishing. This unit does not include basic cakes, which are covered in SITHPAT002A Prepare and produce cakes.

Specialist cakes and sponges to be produced and decorated may be of varied cultural origins and derived from classical or contemporary recipes.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers in hospitality enterprises where specialised cakes are prepared and served, such as patisseries, pastry and cake shops, restaurants, hotels and coffee shops.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

SITHOHS002A Follow workplace hygiene procedures

.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare specialist cakes and sponges.	1.1 Select, measure and weigh ingredients according to recipe requirements, quality and freshness, standard recipe requirements, enterprise practice and customer preferences.
	1.2 Verify that ingredients are used at the correct temperature for optimum quality.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.3 Prepare ***specialist cakes and sponges*** to recipe specifications, using correct ***techniques***, and bake to achieve required product characteristics, including colour, crumb structure, consistency and texture, moisture content, mouth feel and eating properties and appearance.
	1.4 Use ***appropriate equipment*** to produce required cakes.
	1.5 Cool sponges and cakes in ***conditions*** that retain optimum freshness and eating characteristics and appearance.
2 Prepare and use fillings.	2.1 Prepare a selection of ***fillings*** to required consistency, using appropriate flavourings.
	2.2 Slice or layer sponges and cakes, and fill and assemble, according to standard recipe specifications, enterprise practice and customer preference.
	2.3 Mask, cover or coat top and sides of sponges and cakes as appropriate to achieve even, straight and smooth surfaces, or characteristics and appearance required by recipe specifications.
3 Decorate cakes.	3.1 Decorate sponges and cakes, using designs and techniques suited to the product and occasion, and according to standard recipes and enterprise practice.
	3.2 Use suitable icings and ***decorations***, according to standard recipes, enterprise standards and customer preferences.
4 Present cakes.	4.1 Present cakes attractively using suitable serviceware and decorations.
	4.2 Select and use appropriate equipment for display and service.
	4.3 Arrange cakes for display in an appealing manner to meet customer expectations and enterprise standards.
	4.4 Verify that display and service temperature of products are appropriate for maintaining freshness, appearance and eating qualities.
	4.5 Mark, score or cut portion-controlled cakes precisely, according to enterprise specifications and customer preferences, minimising wastage.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
5 Store cakes.	5.1 Store cakes at the correct temperature in ***storage conditions*** that maintain quality and extend shelf life. 5.2 Identify storage methods that minimise spoilage and wastage, using methods appropriate to specific products for short and medium-term preservation.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

- The following skills must be assessed as part of this unit:
- safe work practices, particularly in relation to using cutting implements, appliances, heated surfaces, ovens and mixing equipment
- problem-solving skills to control quality
- literacy skills to read recipes, menus, instructions and orders
- numeracy skills to calculate portions and weigh and measure quantities of ingredients.

The following knowledge must be assessed as part of this unit:

- varieties and characteristics of specialist cakes, both classical and contemporary
- historical and cultural aspects of specialist cakes
- underlying principles of making specialist cakes
- commodity knowledge, including quality indicators of specialist cake ingredients
- principles and practices of hygiene, particularly in relation to preparing cake batter and decorating finished cake products
- culinary terms commonly used in the industry related to specialist cakes
- hygiene and safe handling and storage requirements related to specialist cake ingredients, commodities and products
- portion control and yield
- storage conditions for specialist cakes and optimising shelf life.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to produce a range of specialist cakes
- ability to produce specialist cakes that are consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints
- application of hygiene and safety principles throughout the preparation process
- preparation, decoration and presentation of a range of specialist cakes within typical workplace conditions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a commercial pastry kitchen as defined in the Assessment Guidelines
- access to a range of industry-current equipment for making specialist cakes, including:
  - D-shape cake log forms and novelty cake tins and forms
  - large and small cake rings, and metal or plastic form cake rings of various shapes for individual petit gateaux
  - croquembouche mould
  - marble slab and silicon mats
  - cake wheels
  - chocolate thermometer and saccharometer
  - range of icing and decorating equipment, including variety of decorative combs, fine icing sugar sieves, crimpers of various sizes and designs, matfer-type stencils for cigarette paste decoration techniques and fine piping tubes size 3 to 000
- access to a range of presentation equipment, including:
  - cake boxes of various sizes
  - cake stands, including multi-tier and clear cover, platters and mirrors, and cake boards for individual

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Specialist cakes and sponges must include:

- cakes and sponges used as bases, such as:
- Genoise sponge
- commercial sponge
- Swiss roll
- sponge fingers
- those for weddings, birthdays and special occasions
- those for specific cultural feasts and celebrations, both religious and secular.

Techniques and conditions for producing specialist cakes may include:

- weighing or measuring and sifting dry ingredients
- adding fats and liquids to dry ingredients
- stirring and aerating to achieve required consistency and texture
- whisking, folding, piping and spreading
- selecting and preparing appropriate baking sheets, cake and sponge tins and moulds
- using required amount of batter according to desired characteristics of finished products
- preparing and using appropriate pre-bake finishes and decorations
- selecting baking conditions and temperatures
- portioning evenly, accurately and neatly
- decorating.

Appropriate equipment may include:

- commercial mixers and attachments
- whisks
- beaters
- spatulas and wooden spoons
- cutting implements for nuts and fruits
- graters
- scales and measures
- bowl cutters
- piping bags and attachments
- ovens

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- cake and sponge tins and moulds.

Fillings may include:

- fresh or crystallised fruit
- fruit purées
- jams
- nuts
- creams
- mousse
- custard.

Decorations may include:

- glazes and jellies
- icings
- chocolate
- sprinkled icing sugar
- fresh, preserved or crystallised fruits
- fruit purées
- whole or crushed nuts
- coloured and flavoured sugar
- marzipan coatings.

Storage conditions and methods appropriate for cakes may include:

- consideration of temperature, light and air exposure
- use of airtight containers
- display cabinets, including temperature-controlled cabinets
- refrigeration, chilling and freezing.

SITHPAT006A Present desserts

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to apply various and specialised techniques of dessert presentation.

The term 'dessert' is commonly used for a sweet course or option in a meal or as a stand-alone item with a beverage. In some enterprises, the term 'sweets' may be used.

Desserts may include foods from varying cultural origins and may be derived from classical or contemporary recipes.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to cooks and patissiers in hospitality enterprises where desserts are presented, such as patisseries, hotels, restaurants and coffee shops.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite units:

- SITCCC013A Prepare hot and cold desserts
- SITHOHS002A Follow workplace hygiene procedures.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Present and serve plated desserts.	1.1 Portion ***desserts*** according to enterprise standards.
	1.2 Present desserts attractively, with artistic flair, appropriate for the occasion and the item.
	1.3 Consider practicality of service and customer consumption when plating and ***decorating*** desserts.
	1.4 Use ***appropriate equipment*** to present and serve plated

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	desserts.
	1.5 Control service temperature of desserts and serviceware when serving hot, cold or frozen desserts.
2 Plan, prepare and conduct a dessert trolley presentation.	2.1 Where utilised, plan dessert trolley services appropriate to available facilities and equipment, as well as customer and enterprise requirements.
	2.2 Prepare and arrange to display a variety of desserts offered by the enterprise, together with appropriate sauces and garnishes.
3 Store and package desserts.	3.1 Store desserts at the appropriate temperature and under the correct ***storage conditions*** to maintain quality, freshness and customer appeal.
	3.2 Ensure that packaging is appropriate for the preservation of taste, appearance and eating characteristics.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- safe work practices, particularly in relation to using appliances, heated surfaces, ovens, cutting implements and mixing equipment
- problem-solving skills to control quality
- literacy skills to read instructions and orders
- numeracy skills to calculate portions.

The following knowledge must be assessed as part of this unit:

- varieties and characteristics of specialist cakes, both classical and contemporary
- historical and cultural aspects of specialist cakes
- underlying principles of making specialist cakes
- commodity knowledge, including quality indicators of specialist cakes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- principles and practices of hygiene, particularly in relation to decorating finished cake products
- culinary terms commonly used in the industry related to specialist cakes
- hygiene and safe handling and storage requirements related to specialist cake ingredients, commodities and products
- portion control and yield
- storage conditions for specialist cakes and optimising shelf life.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to present and display a range of desserts with flair
- application of food hygiene and safety principles throughout the preparation and presentation process
- knowledge of the characteristics of desserts and decorations or garnishes and the conditions required for optimum quality and presentation
- preparation, decoration and presentation of a range of desserts within typical workplace conditions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a commercial pastry kitchen as defined in the Assessment Guidelines
- access to industry-current equipment for making various desserts, including:
  - deep-fryer and associated small equipment
  - steamer, including combi oven, stand-alone steamer or Chinese steamer
  - blow torch or salamander
  - individual novelty mousse cake tins and forms

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- range of pans, including crepe, omelette and blini
- range of moulds and dishes, including tartlet, bombe, charlotte and dariole moulds of various sizes, fluted and plain flan rings, soufflé cups and gratin dishes
- industrial strength food processor, such as robot coupe
- stencils for matfer-type cigarette paste decoration techniques
- fine and heavy gauge whisks and strainers
- metal cake skewers and bamboo skewers
- acetate plastic sheets
- icing and cocoa powder dusters, variety of templates, silk screens for cocoa mass screen techniques and chocolate spray gun
- storage trays and containers

Context of and specific resources for assessment

- access to presentation equipment, including:
  - refrigerated cake display cases or towers
  - sweets trolley or dessert buffet table
  - cake stands, including multi-tier and clear cover, platters and mirrors, and cake boards for individual and large gateaux
  - petit four paper cases and doilies in a range of shapes and sizes
  - dessert serving equipment and a variety of suitable dessert plates, dishes, glasses, bowls and coupes, and cutlery
  - presentation containers or boxes of various sizes
- use of authentic desserts and decoration or garnish ingredients.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of decorating and presenting specialist cakes, including plating and garnishing
- questions about hygiene procedures, commodities, presentation and decoration techniques, and storage

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	requirements to ensure optimum quality and food safety • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. SITHPAT007A Prepare and display petits fours

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to produce, display and service a wide range of petits fours, including petits fours glacés, marzipan-based petits fours and caramelised fruits and nuts served as petits fours, to a high and consistent quality.

Petits fours glacés may include sponge bases assembled with appropriately flavoured fillings cut into a variety of shapes, iced and decorated.

Marzipan-based petits fours may be modelled by hand or shaped with the aid of moulds and may be appropriately flavoured and coloured and sealed with cocoa butter or food lacquer.

Caramelised petits fours include fresh or dried fruits and nuts, filled or unfilled, coated with a pale amber-coloured caramel.

Fresh petits fours include bases prepared from choux or sweet paste with an appropriate filling, topping and decoration.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers in hospitality enterprises where petits fours are prepared and served, such as patisseries, hotels, restaurants and coffee shops.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT **PERFORMANCE CRITERIA**

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Prepare iced petits fours.	1.1 Prepare, cut and assemble sponges and bases according to standard recipes and enterprise requirements and practice. 1.2 Prepare ***fillings*** with the required flavours and consistency. 1.3 Bring fondant icing to the correct temperature and consistency to achieve required coating thickness and surface gloss. 1.4 Design and use ***decorations*** that enhance customer eye appeal.
2 Prepare fresh petits fours.	2.1 Pipe, bake, fill and *decorate* a selection of small choux paste shapes. 2.2 Prepare and blind bake sweet paste in small moulds or tins in a variety of shapes. 2.3 Prepare and use fillings with the required flavours and consistency. 2.4 Use appropriate garnishes, glazes and finishes to enhance flavour and eye appeal.
3 Prepare marzipan petits fours.	3.1 Flavour and shape quality marzipan appropriately, producing mini-size fruits. 3.2 Coat marzipan fruits to preserve desired eating characteristics and where required, soften with egg whites, pipe into shapes and seal or brown with applied heat, according to enterprise practice.
4 Prepare caramelised petits fours.	4.1 Select and coat fresh fruits or fruit segments with pale amber-coloured caramel. 4.2 Sandwich dried fruits or nuts or fill with flavoured marzipan and coat with pale amber-coloured caramel, according to specifications and enterprise standards.
5 Display petits fours.	5.1 Select and prepare appropriate ***receptacles*** for petits fours. 5.2 Display petits fours creatively to enhance customer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	appeal.
6 Store petits fours.	6.1 Store petits fours at correct temperature and conditions to maintain maximum eating characteristics, appearance and freshness.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- creative skills in decoration and presentation
- safe work practices, particularly in relation to using cutting implements, appliances, heated surfaces, ovens and mixing equipment
- working methods used in production and display of petits fours
- defining and applying corrective steps to ensure quality control
- problem-solving skills to control quality
- literacy skills to read recipes, menus, instructions and orders
- numeracy skills to calculate portions and weigh and measure quantities of ingredients.

The following knowledge must be assessed as part of this unit:

- varieties and characteristics of petits fours, both classical and contemporary, including taste, texture, structure, shape and size appropriate for petits fours and in line with industry and enterprise standards
- historical and cultural aspects of petits fours
- underlying principles of making petits fours
- commodity knowledge, including quality indicators of petits fours ingredients
- principles and practices of hygiene, particularly in relation to ingredients and commodities and preparing and decorating petits fours
- culinary terms commonly used in the industry related to petits fours
- portion control and yield
- storage conditions for petits fours and optimising shelf life
- properties of the ingredients used and their interaction and changes during production.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to prepare, present and display a diverse range of petits fours with consistency in size, shape, quality and presentation
- application of food hygiene and safety principles throughout the preparation, decoration and presentation process
- knowledge of the characteristics of petits fours, suitable decorations or garnishes, and the conditions required for optimum quality and presentation
- preparation, decoration and presentation of a range of petits fours within typical workplace conditions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a commercial pastry kitchen as defined in the Assessment Guidelines
- access to a range of industry-current equipment for making petits fours, including:
- petit four moulds
- marble slab and silicon mats
- chocolate thermometer and saccharometer
- range of icing and decorating equipment, including variety of decorative combs, fine icing sugar sieves, crimpers of various sizes and designs, matfer type stencils for cigarette paste decoration techniques and fine piping tubes size 3 to 000, chocolate spray gun, fine paint brushes size 3 to 000 and silk screens for cocoa mass screen techniques
- dipping forks, petit four cutters and petit four dipping racks
- access to a range of presentation equipment, including:
- cake boxes of various sizes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- cake stands, including with clear cover and multi-tier, platters and mirrors, and cake boards
- refrigerated cake display cases or towers
- use of authentic ingredients.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of preparing, decorating and presenting petits fours
- questions about hygiene procedures, commodities, presentation and decoration techniques, and storage requirements to ensure optimum quality and food safety
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITHCCC013A Prepare hot and cold desserts.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work

RANGE STATEMENT

environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Fillings may include appropriately flavoured:	• custard • cream • ganache.
Toppings and decorations may include:	• fresh fruits • glazes • fondant icing • chocolate.
Receptacles may include those made from edible and non-edible materials, including:	• chocolate • tulip paste • sugar lace • croquant • glass • crystal • ceramic • metallic platters and trays.

SITHPAT008A Prepare and model marzipan

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare, handle and model marzipan and to decorate, colour and present modelled items.

Preparing marzipan refers to combining manufactured marzipan paste, pure icing sugar and glucose syrup to a smooth paste of a consistency best suited for its intended purpose.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers in hospitality enterprises where marzipan is prepared and served, such as patisseries, hotels, restaurants and coffee shops.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

SITHOHS002A Follow workplace hygiene procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare modelling marzipan.	1.1 Select, weigh and combine ingredients to achieve desired composition and characteristics of quality modelling marzipan.
	1.2 Identify potential problems and take appropriate preventative measures to maintain desired characteristics.
	1.3 Observe food hygiene principles and requirements.
2 Prepare moulded and modelled shapes.	2.1 Mould or model ***marzipan*** in a variety of figures, shapes and flowers.
	2.2 Apply appropriate colourings, decorations and coating agents to enhance appearance and presentation.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.3 Seal finished shapes to preserve freshness and eating characteristics and appearance.
3 Store marzipan products.	3.1 Store marzipan products at the correct temperature and in conditions to avoid excessive crust formation, drying out and hardening and to maintain maximum eating characteristics and appearance.
4 Use marzipan to cover cakes, gateaux, torten and petits fours.	4.1 Ensure surface of items to be covered is level and smooth.
	4.2 Roll out marzipan to specified size and thickness.
	4.3 Apply marzipan ensuring a smooth and seamless finish.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- creative skills in decoration and presentation
- handling and storing marzipan and marzipan products and recognising factors affecting their quality
- working methods used in production and display of marzipan, including the use of equipment for preparation and moulding
- defining and applying corrective steps to ensure quality control
- problem-solving skills to control quality
- literacy skills to read recipes, menus, instructions and orders
- numeracy skills to calculate portions and weigh and measure quantities of ingredients.

The following knowledge must be assessed as part of this unit:

- characteristics of marzipan, both classical and contemporary, including taste, texture, structure, shape and size appropriate for industry and enterprise standard marzipan products
- hygiene and food safety requirements relating to preparing, decorating, handling and storing marzipan

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- historical and cultural aspects of marzipan
- underlying principles of making marzipan
- commodity knowledge, including quality indicators of marzipan ingredients
- culinary terms commonly used in the industry related to marzipan
- portion control and yield
- storage conditions for marzipan and optimising shelf life
- properties of the ingredients used and their interaction and changes during production.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to present and display a diverse range of modelled and moulded marzipan products with consistency in size, shape, quality and presentation
- application of food hygiene and safety principles throughout the preparation, decoration and presentation process
- knowledge of the characteristics of marzipan and suitable decorations or garnishes and the conditions required for optimum quality and presentation
- preparation, decoration and presentation of a range of marzipan shapes within typical workplace conditions and timeframes.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a commercial pastry kitchen as defined in the Assessment Guidelines
- access to industry-current equipment for preparation and modelling of marzipan, including:
  - marzipan modelling tools and moulds, such as leaf, flower petal cutters, novelty moulds, crimpers of various sizes and designs, textured rolling pins and boards, piping tubes, dipping forks, fine piping

EVIDENCE GUIDE

tubes size 3 to 000, and fine icing sugar sieves
    - marzipan refiner or high powered food processor, such as robot coupe
    - chocolate thermometer and saccharometer
    - marble slab and silicon mats
    - chocolate spray gun kit, or brown cocoa butter aerosol and airbrush
- access to presentation equipment, including:
    - cake stands, including multi-tier and clear cover, platters and mirrors, and cake boards
    - doilies in a range of shapes and sizes
    - presentation containers or boxes of various sizes
    - use of authentic ingredients.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of preparing, decorating and presenting modelled and moulded marzipan
- questions about hygiene procedures, commodities, presentation and decoration techniques and storage requirements to ensure optimum quality and food safety
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHCCC013A Prepare hot and cold desserts
- SITHPAT001A Prepare and produce pastries
- SITHPAT002A Prepare and produce cakes.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

SITHPAT009A Prepare desserts to meet special dietary requirements

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare of a range of desserts where aspects of nutrition, diet or allergies influence the composition and the ingredients able to be used. This would include diabetic desserts, low fat or low sugar desserts, or desserts that are free of commodities such as yeast, gluten or flour and other potential allergens or substances that can cause reactions in customers.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers in hospitality enterprises where desserts that meet special dietary requirements are prepared and served, such as health facilities. It also applies to commercial catering operations, hotels and restaurants that accommodate special diets in their menus.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite units:

SITHCCC013A Prepare hot and cold desserts

SITHCCC029A Prepare foods according to dietary and cultural needs

SITHOHS002A Follow workplace hygiene procedures.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare dietary desserts.	1.1 Select ***appropriate ingredients*** according to criteria for particular dietary requirements.
	1.2 Measure and weigh ingredients required, ensuring they are at the correct temperature according to recipe

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	requirements.
	1.3 Follow special dietary recipes or nutritional guidelines in producing dietary desserts.
2 Prepare sauces for dietary desserts.	2.1 Prepare hot or cold sauces to the required consistency, using appropriate flavours and ingredients, according to dietary requirements.
3 Store dietary desserts.	3.1 Store dietary desserts at the appropriate temperature and under the correct conditions to maintain quality, freshness and customer appeal.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- creative skills in decoration and presentation
- defining and applying corrective steps to ensure quality control
- literacy skills to read recipes, menus and instructions
- numeracy skills to calculate portions and weigh and measure quantities of ingredients
- problem-solving skills to address special dietary requirements.

The following knowledge must be assessed as part of this unit:

- options for and preparation of desserts for special dietary needs and preferences
- hygiene and food safety requirements relating to preparing, decorating, handling and storing desserts for special dietary needs
- commodity knowledge, including quality indicators of ingredients and handling and storing of commodities
- properties of dietary ingredients used in a range of dessert recipes and the influence of each on processing and product quality
- culinary terms commonly used in the industry related to desserts for special dietary needs
- portion control and yield
- storage conditions for types of desserts for special dietary needs and optimising shelf life

SITHPAT010A Prepare and display sugar work

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare sugar for sugar work and to plan and produce sugar-based display pieces.

The preparation of sugar includes boiling to various predetermined temperature stages suitable for pulling, casting or blowing.

Pulling refers to manipulating boiled sugar after initial cooling, to incorporate air and to achieve elasticity and sheen.

Casting refers to pouring boiled sugar into prepared framework or moulds or into free-flowing shapes. The preparation of sugar casts also includes casting of individual segments, assembling, decorating and preparing for display and storage.

Blowing refers to creating shapes by blowing air through a blowpipe into boiled sugar of the correct temperature.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers in hospitality enterprises where sugar-based display items are prepared for display, such as patisseries, pastry shops, hotels, restaurants and catering enterprises.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units This unit must be assessed after the following prerequisite unit:

SITHOHS002A Follow workplace hygiene procedures

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Boil sugar.	1.1 Identify and assemble required ingredients according to standard recipes and enterprise requirements.
	1.2 Combine sugar and water and boil to required temperature, using ***specialised equipment*** for boiling

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	sugar correctly and safely.
	1.3 Follow preparation methods specified in standard recipes.
	1.4 Use colouring and flavourings appropriately, according to sugar products required.
	1.5 ***Handle boiled sugar solution safely*** according to safety requirements, standard recipes and enterprise practice.
2 Pull boiled sugar.	2.1 Manipulate boiled sugar to avoid crust forming.
	2.2 Turn out and pull sugar, using a suitable work surface and according to standard industry practice and safety requirements.
3 Store pulled sugar.	3.1 Portion pulled sugar according to intended use.
	3.2 Use correct packaging methods and vacuum-seal pulled sugar pieces.
	3.3 Use appropriate storage procedures to ensure extended shelf life.
4 Plan decorative sugar work.	4.1 Plan sugar work appropriate for the occasion, allowing adequate time for, or working within time available for, preparation.
	4.2 Produce sketches or outlines of required forms and shapes and identify colours, decorations and supports.
	4.3 Prepare formwork or moulds and working surface appropriately.
	4.4 Calculate required quantities of differently coloured sugar.
	4.5 Select and use appropriate equipment and materials.
5 Prepare sugar work.	5.1 Boil sugar, adding required colouring and arrest the temperature at the correct point for casting or blowing as required.
	5.2 Cast boiled sugar, shaping into desired forms or moulds, using appropriate techniques and skills and achieving correct and even thickness.
	5.3 Remove formwork from sugar at the correct stage of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	hardening and move sugar items to cool areas, where required, to accelerate cooling.
	5.4 Create sugar pieces using appropriate blowing techniques and suitable materials and equipment.
	5.5 Assemble sugar centrepieces to achieve balance, proportion and optimum strength.
	5.6 Decorate sugar work creatively, ensuring appropriateness for the occasion and creating customer appeal.
6 Display sugar work.	6.1 Display ***sugar work*** attractively to enhance food displays.
	6.2 Use sugar work to complement, harmonise and balance the displayed food.
7 Store sugar work.	7.1 Store sugar work according to establishment procedures, ensuring it is protected from humidity, dust and heat.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- handling and storing sugar work and recognising factors affecting quality and optimising shelf life
- safe boiling and handling of sugar and underlying principles of preparing sugar
- basic first aid for treatment of burns in case of accidents
- ability to pull, cast and blow sugar
- working methods used in production and display of sugar work, including the use of equipment
- creative skills in decoration and presentation
- defining and applying corrective steps to ensure quality control
- literacy skills to read recipes, menus, instructions and orders
- numeracy skills to calculate portions and weigh and measure quantities of ingredients.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- safety requirements relating to possible dangers when handling boiled sugar at high temperatures
- historical and cultural aspects of sugar work
- commodity knowledge, including quality indicators of ingredients used in sugar work
- culinary terms commonly used in the industry related to sugar work
- portion control and yield
- causes of premature crystallisation of boiled sugar and methods to avoid it
- properties of the ingredients used and their interaction and changes during production
- influence of cleanliness of materials used on the boiling process and quality outcome
- hygiene and food safety requirements relating to sugar work.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to produce a wide range of sugar work using pulling, casting and blowing
- application of safety and food hygiene principles throughout preparation, decoration, presentation and storage processes
- ability to produce sugar work of optimum quality and creativity
- preparation, decoration and presentation of a range of sugar work within typical workplace conditions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a commercial kitchen or pastry kitchen, as defined in the Assessment Guidelines
- access to industry-current equipment for producing sugar work, including:
  - air conditioned room
  - heating lamp with red or white light and hair drier

EVIDENCE GUIDE

with cold air setting or small cooling fan
    - blow torch
    - silicon paper and mats
    - heat resistant plasticine
    - saccharometer
    - marble slab
    - hand pump for blowing sugar
    - modelling tools, such as marzipan tools
    - airtight sugar display cases
    - assorted rings, moulds, metal bars and similar equipment usable for poured and moulded sugar work
    - cake wheels
    - scissors
    - suitable presentation bases, such as mirrors, tiles and platters
    - basket weave boards (round and oval shaped) complete with metal rods
    - disposable gloves for pulling and shaping sugar
- use of authentic ingredients.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of preparing, decorating and presenting sugar work
- questions about the preparation of and characteristics of quality sugar work, safe handling and hygiene procedures, commodities, presentation and decoration techniques, and storage requirements to ensure optimum quality and food safety
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHCCC013A Prepare hot and cold desserts
- SITHPAT001A Prepare and produce pastries
- SITHPAT002A Prepare and produce cakes.

- numeracy skills to calculate portions and weigh and measure quantities of ingredients.

The following knowledge must be assessed as part of this unit:

- safety requirements relating to possible dangers when handling boiled sugar at high temperature
- knowledge and understanding of sugar boiling and handling techniques and of safety requirements relating to possible dangers when working with boiled sugar at high temperature
- knowledge and understanding of various techniques for handling chocolate, pastillage, croquant and marzipan, individually and in combination
- OHS requirements, including basic first aid for treating burns
- causes of premature crystallisation of boiled sugar and methods to avoid it
- properties of the ingredients used and their interaction and changes during production
- influence of cleanliness of materials used on the boiling process and quality outcome
- hygiene and food safety requirements relating to sugar work
- historical and cultural aspects of sugar work
- commodity knowledge, including quality indicators of ingredients used in sugar work
- culinary terms commonly used in the industry related to sugar work
- portion control and yield.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency	Evidence of the following is essential:
	• ability to produce a range of sweet buffet showpieces using suitable materials, including examples from each of the following:
	  • sugar
	  • chocolate
	  • pastillage

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- croquant
- marzipan

- application of safety standards throughout preparation, decoration, presentation and storage processes
- ability to produce sweet buffet showpieces of optimum quality and creativity
- preparation, decoration and presentation of a range of sweet buffet showpieces within typical workplace conditions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a commercial kitchen or pastry kitchen as defined in the Assessment Guidelines
- access to industry-current equipment for making sweet buffet items, including:
  - microwave oven
  - marzipan modelling tools
  - spirit burners with wicks and methylated spirits
  - wide variety of moulds, including plastic and metal egg moulds and novelty shapes, silicon rubber novelty moulds and shapes, metal or silicon leaf moulds
  - cake stands, including with clear cover and multi-tier, platters and mirrors, cake boards, socles and decorative cloths
  - nougat lacquer and sugar colours, water-based, paste colours, powdered colours or alcohol colours
  - storage trays and containers
  - calcium carbonate, pure alcohol, tartaric acid (stored in bottle with eye dropper lid) and quick lime
  - doilies in a range of shapes and sizes
  - round and oval-shaped basket weave boards complete with metal rods
  - large and small scissors, aluminium rolling pin, textured rolling pin, range of pastry brushes, fine icing sugar sieves, firm wire and pliers, small very fine strainers, fine piping tubes size 3 to 000, and fine paint brushes size 3 to 000
  - heat-resistant plasticine

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- marble slab, silicon paper and mats
- air brush kit complete with alcohol-based colours
- hair drier with cold air setting, or small cooling fan
- polystyrene boxes and satay sticks, or tooth picks
- airtight display cases, domes and containers
- access to specific equipment for preparing chocolate showpieces, including chocolate thermometer, dipping forks, chocolate spray gun kit, gold leaf, plastic acetate sheets, chocolate carving tools and pasta machine for modelling chocolate
- access to specific equipment for pastillage, including dried starch, sandpaper, stencils, wood saw, wooden boards, scalpels and a wide variety of cutters and moulds
- use of authentic ingredients.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of practical demonstration by the candidate of preparing, decorating and presenting sweet buffet showpieces
- questions about the preparation and characteristics of sweet buffet showpieces, safe handling procedures, commodities, presentation and decoration techniques, and storage requirements to ensure optimum quality
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHCCC013A Prepare hot and cold desserts
- SITHPAT001A Prepare and produce pastries
- SITHPAT002A Prepare and produce cakes.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Showpieces for a buffet may include those made from:

- sugar: pulled, cast or blown
- chocolate
- pastillage
- croquant
- marzipan
- combination of these.

Appropriate equipment and materials may include:

- air brush spray equipment
- specialised equipment for preparing, moulding, casting and making freehand creations using sugar and marzipan work, chocolate, pastillage and croquant.

Storage may include:

- coolrooms and other temperature-controlled environments
- use of packaging materials and cases.

Competency field

Competency field Patisserie

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

SITHPAT012A Plan patisserie operations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to plan patisserie operations in terms of layout, menu and storage and the production, display and service of patisserie products and suitable beverages.

It must be linked to other appropriate business management units, as this unit does not cover business planning, marketing and financial management.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to patissiers or cooks who want to operate a patisserie operation; for example, a patisserie, coffee shop or takeaway pastry outlet. It also covers operations that purchase ready-made pastry products prepared commercially and offered for sale to customers.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

SITXFSA002A Develop and implement a food safety program.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Plan layout of patisserie operation.	1.1 Develop a floor plan for kitchen, service, display and storage areas according to anticipated customer requirements and volume.
	1.2 Plan fixtures, furnishing, decor and equipment according to business objectives, budget and style of patisserie operation required and according to food safety and other regulatory requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Plan the product and service elements of patisserie operation.	2.1 Plan and design menu, identifying a range of appropriate ***menu items*** and beverages to meet market needs. 2.2 Prepare a ***work flow schedule*** for production and service according to expected customer volume and menu requirements. 2.3 Plan the display of items considering style of patisserie operation, required storage temperatures and visual appeal and according to the food safety program and regulatory requirements. 2.4 Plan the preparation, display and storage of items in line with appropriate OHS and food safety procedures and to ensure that the stock is protected from loss, contamination, spoilage, temperature abuse and pests.
3 Plan and organise storage for menu items.	3.1 Plan and organise storage for pastries, cakes and savoury items at the correct temperatures according to ***food safety*** requirements, and to maximise shelf life and ***product quality***. 3.2 Plan packaging that is appropriate for the preservation of freshness, taste and eating characteristics.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- safe work practices, particularly in relation to using cutting implements, appliances, heated surfaces, ovens and mixing equipment
- problem-solving skills to develop a design within tight space restrictions
- high level literacy skills to develop comprehensive plans, including detailed, accessible policies, procedures, product specifications, monitoring documents and flow charts; and to read and analyse information about potential layout and equipment options
- numeracy skills to cost equipment
- critical thinking skills to allow for a rational and logical evaluation of the patisserie operation, including food preparation and storage; display and storage areas; identification

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

of hazards, customer needs, staffing and equipment needs; work flow schedules; product quality and budgetary considerations; enterprise practices; and regulatory requirements.

The following knowledge must be assessed as part of this unit:

- knowledge and understanding of the principles and requirements of the relevant legislation relating to:
  - OHS
  - hygiene and food safety
  - nutrition
  - licensing regulations
  - local health regulations
- knowledge and understanding of:
  - organisational skills and teamwork
  - menu planning and design
  - appropriate technical and culinary terms for patisserie operations
  - preparation of pastries, cakes and savoury products
  - cutting and serving pastries, cakes and savoury products
  - costing, yield testing and portion control
  - handling, portioning and serving ice-creams
  - buffet and table set-ups
  - coffee and tea preparation and beverage service
  - coffee shop equipment, its function and routine maintenance
  - defining and applying quality control
  - storage conditions for menu items and optimising shelf life, freshness and eating qualities
  - time management skills
  - communication skills
- varieties and characteristics of menu items offered
- underlying principles of making cakes, pastries and savoury items
- commodity knowledge, including quality indicators of ingredients.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to plan the layout, menu and storage aspects of a patisserie operation
- project or work activities that allow the candidate to demonstrate skills required to complete planning for the operation of a proposed patisserie operation
- knowledge of key hygiene and food safety issues relating to patisserie operations.

Context of and specific resources for assessment

Assessment must ensure:

- access to relevant product and equipment information.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of plans and designs produced by the candidate for a patisserie operation within a nominated location
- evaluation of projects to propose enhancements to existing patisserie operation
- case studies to assess ability to tailor plans to different market conditions
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHPAT001A Prepare and produce pastries
- SITHPAT002A Prepare and produce cakes
- SITHFAB012B Prepare and serve espresso coffee
- SITHFAB016A Plan and monitor espresso coffee service.

EVIDENCE GUIDE

Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Menu items may include:	• pastries and cakes
	• savoury items such as quiche, and ham and cheese croissants
	• beverages such as:
	  • coffee
	  • tea
	  • cold carbonated drinks
	  • fresh juices
	  • milk
	  • soy-based drinks
	• ice-cream.

Work flow schedule must take into consideration:	• available facilities, staff, time and equipment • enterprise practices and regulatory requirements • food safety program.
Food safety practices may include:	• covering menu items on display • maintaining appropriate temperatures for different menu items

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Product quality requirements may include:	• food-handling practices. • warm or chilled service temperatures • eating qualities such as taste, texture and moisture content.

SITTGDE001B Work as a guide

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to work effectively as a guide. It covers key legal, ethical, safety, environmental and professional development issues that must be considered by guides in their day-to-day work. It is an essential skill for all guides and underpins all guiding activities.

All tour guides residing in any part of Australia are subject to the Queensland Tourism Services Act (2003) when working in Queensland. They do not need to register or meet any training or certification requirements but they can be fined if they participate in unconscionable conduct when selling Queensland-based tourism products and services.

This unit covers the requirement for guides to deliver tours according to legal and ethical requirements. The Queensland Tourism Services Act (2003) specifically deals with ethical practices. Therefore, training and assessment of this unit must take into account the specific requirements of this legislation as it has implications on all guiding activities when a guide operates within the Queensland borders.

No occupational licensing or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key tour guiding function for guides working in a range of locations and in multiple tourism industry sectors and organisation types. Guides can work within a particular city, region and tourist precinct or at a single site, but commonly work across a variety of sites, cities and regions.

Guides are frontline personnel who operate with some level of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

autonomy or under limited supervision and guidance from others. They apply discretion and judgement within predefined organisational procedures and, when on tour, take the lead role without supervision. They may be engaged as employees or contractors or may perform guiding functions as one of the many occupational roles within their own small business. Guiding functions are undertaken by a diverse range of people such as tour guides, tour managers, tour directors, site guides, interpretative guides, walking guides, outdoor recreation guides, museum guides, heritage guides, cultural guides, nature-based guides, driver guides, specialist guides and owner-operators of small tour operations.

Licensing/Regulatory Information

Not applicable.

of competency.	required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Apply knowledge of the guiding sector.	1.1 Conduct day-to-day guiding activities in a manner that takes account of the roles and responsibilities of different types of guides. 1.2 Identify key guide information sources and contacts. 1.3 Use industry knowledge and guide networks to enhance the quality of guiding services provided to customers.
2 Guide tours according to safety, ethical and legal requirements.	2.1 Conduct day-to-day guiding activities according to the legal requirements governing the industry. 2.2 Actively and regularly ***participate in risk assessments*** according to established organisational policies and procedures and identify situations where a risk assessment may be required. 2.3 Guide tours according to ***general ethics of guiding and specific ethical considerations*** for particular contexts. 2.4 Guide tours according to safety requirements and in a manner that minimises risk to customers and colleagues. 2.5 Guide tours in a manner that ***minimises any negative impact on the social or natural environment***.
3 Develop guiding skills and knowledge.	3.1 Identify and use ***opportunities to update the knowledge and skills*** required by guides. 3.2 Identify and access sources of assistance and support for guides when required. 3.3 Share knowledge with colleagues to enhance the quality of service provided to customers.
4 Communicate with	4.1 Articulate information clearly using industry acceptable

ELEMENT	PERFORMANCE CRITERIA
tourism industry operators in English.	language. 4.2 Achieve mutual understanding and agree on details relevant to guiding activities. 4.3 Provide accurate information and explanations about customer requirements and any special requests. 4.4 Communicate according to ***social***, ***cultural and business requirements***. 4.5 Identify the nature and key facts of operational problems and provide an appropriate solution by consulting and openly communicating with the ***tourism operator***.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to access appropriate risk assessment templates
- critical thinking skills to facilitate rational and logical analysis of ethical and environmental issues and the making of decisions on appropriate behaviours and actions
- speaking and listening skills to carry out predictable and creative communication in English involving daily transactions and interactions of a non-routine and varied nature.

The following knowledge must be assessed as part of this unit:

- general knowledge of the tourism industry and in particular tour operations and wholesaling sectors and the way that guiding fits into the tourism industry
- roles, responsibilities and career paths for different types of guides, including tour guides, tour managers, site guides, adventure guides, meet and greet guides, city hosts and driver guides
- roles and services provided to guides by peak body Guiding Organisations of Australia (GOA) and industry associations
- broad and working knowledge of industry and legal compliance requirements that affect guiding operations, including:
  - consumer protection laws
  - occupational licensing and industry accreditation
  - contents of various guiding codes of conduct or practice (e.g. GOA and Ecotourism

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

Association of Australia) and the impacts of compliance and non-compliance
  - public liability and the guide's duty of care
  - environmental laws
  - permit requirements for operating within regulated land managed areas
- Queensland Tourism Services Act (2003), associated requirements for guides when working in Queensland, the code of conduct imposed on inbound tour operators (ITOs) and impacts on guides when engaged by an ITO to work in Queensland
- safety issues that specifically affect guiding operations in particular contexts
- broad and working knowledge of risk management systems
- format and use of appropriate risk assessment templates
- the key features of environmental impact and minimal impact practices to be considered when guiding in environmentally sensitive areas
- key factors to consider in minimising negative impacts on the social and natural environments in which tours take place
- social, cultural and business conventions applicable to working as a guide.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • provision of guiding services in a safe, ethical and legally compliant manner • broad knowledge of roles and responsibilities of different types of guides • knowledge of safety, ethical, environmental protection and legal issues to be considered in specific guiding contexts • speaking and listening skills to communicate with industry colleagues in English and achieve mutual understanding on day-to-day operational requirements.
Context of and specific resources for assessment	Assessment must ensure: • working safely, ethically and legally within

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

commercially realistic guiding environments, e.g. at a tourist site, on a coach tour, in a national park or on a walking tour
- access to plain English documents that describe the legal requirements of the Queensland Tourism Services Act (2003), consumer laws and environmental management issues
- access to industry association membership information and codes of conduct
- interaction with others to ensure communication in English on practical guiding matters.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to work safely, ethically and legally as a guide. The following examples are appropriate for this unit:

- case studies and problem-solving to assess application of knowledge to different guiding situations and contexts, including analysis of ethical issues
- review of reports of guiding activities undertaken as part of industry placement and training with an industry operator
- role-plays to assess the candidate's ability to communicate in English on practical guiding issues
- written and oral questioning or interview to test knowledge of different guide roles, the content of industry codes of conduct and the content and impact of the Queensland Tourism Services Act (2003) and other legal issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTIND001B Develop and update tourism industry knowledge
- SITTGDE003A Coordinate and operate a tour
- SITTGDE004A Lead tour groups
- SITTTSL005A Sell tourism products and services.

EVIDENCE GUIDE

Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Participation in risk assessments may involve:	• identifying hazards and conducting risk assessments individually or with others • reporting hazards and identifying a need for a risk assessment • using hazard identification and risk assessment template documents • making simple reports using template-reporting documents.
General ethics of guiding and specific ethical considerations may include:	• truth and honesty regarding all information given to customers • provision of services as promoted or confirmed • ethical dealings with local communities • compliance with specific requirements of industry codes of conduct or ethics • relationships with industry colleagues, customers and suppliers • cultural considerations • environmental considerations and sustainable practice.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Minimising any negative impact on the social or natural environment may involve:	• environmental sustainability of tourism destinations • using minimal impact practices to protect and sustain the natural and cultural integrity • guiding within the guidelines set by land management and protection authorities
Opportunities to update knowledge and skills and key guide information sources may include:	• industry seminars • training courses • familiarisation tours • participation or membership in professional guide associations • participation in industry accreditation schemes • use of industry codes of conduct or ethics • formal and informal research • internet research.
Social, cultural and business requirements may relate to:	• body language • cultural customs and mores.

Tourism operators may be:	• suppliers of any tourism product or service that is a component of the touring itinerary, including:
	  • coach company
	  • tour operators and cruise operators
	  • airlines
	  • accommodation providers
	  • food and beverage outlets
	  • attraction or theme parks
	• inbound tour operators
	• retail outlets, including:
	  • opal or souvenir outlets
	  • tax free stores
	  • factory outlets
	• other guides.

SITTGDE002A Provide arrival and departure assistance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge to offer arrival and departure assistance to customers between transport terminals and accommodation. It requires the ability to check the customer's arrival and departure information, reconfirm all operational aspects of the transportation and accommodation, and provide customers with accurate information.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key tour guiding function for guides working in a range of locations and in multiple tourism industry sectors and organisation types. The role may be undertaken by a range of personnel working for tour operating, tour wholesaling, event management or accommodation organisations; by hire car drivers and coach captains.

Tour managers, who accompany tour groups on extended touring programs, manage the logistics of all group arrivals and departures at each port and terminal throughout their tour.

Arrival and departure assistance can be provided at any international or domestic transport terminal and can be for groups or individual travellers.

The provision of arrival and departure assistance requires significant organisational, decision making and communication skills. Those tour guides, tour managers and other tourism operational staff who perform this function, at sometimes large and complex terminals, operate with some level of autonomy or under limited supervision and guidance from others. They apply

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

discretion and judgement within predefined organisational procedures.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	Nil

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Conduct arrival transfers for visitor groups or individuals.	1.1 Check and note customer arrival information accurately, and implement promptly any action required to deal with alterations in schedule or delays. 1.2 Confirm transport for the correct time and place with transport supplier. 1.3 Employ identification techniques that allow customers to locate the guide at the ***transport terminal***. 1.4 Use available ***terminal facilities*** correctly and fully to assist in meeting customers. 1.5 Use passenger lists to accurately and legibly record arrivals, no-shows and other comments. 1.6 Establish and monitor arrangements for the transport of baggage from the terminal prior to the arrival of the customer. 1.7 Use checking procedures to ensure the correct number of baggage pieces and passengers are transported. 1.8 Follow established procedures for lost baggage promptly and correctly.
2 Deliver arrival information to visitors.	2.1 Greet customers in a manner that encourages positive feelings of goodwill towards the guide, the company, the region and Australia in general. 2.2 Provide customers with correct and adequate ***information and advice*** to introduce them to the local area.
3 Check in groups and individuals at accommodation.	3.1 Brief customers on ***accommodation*** check-in procedures to minimise confusion and time delay on arrival at accommodation venue. 3.2 Offer customers friendly and efficient assistance with accommodation check-in or facilitate check-in on behalf of customers. 3.3 Liaise with accommodation staff during check-in to minimise any communication difficulties between customers and accommodation staff.
4 Conduct departure	4.1 Verify departure details with carriers prior to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
transfers for groups and individuals.	commencement of transfer and take action according to a contingency plan if changes in schedule or other problems occur. 4.2 Organise customers for departure from accommodation in a manner that minimises disruption in the hotel lobby. 4.3 Use passenger lists to accurately check details of all departing passengers and ensure all are accounted for. 4.4 Check baggage prior to departure using procedures that ensure that no items are left behind. 4.5 Advise customers to check belongings for accommodation keys, items stored securely by the accommodation venue, tickets and passports. 4.6 Advise customers correctly regarding procedures for any taxes, duty free requirements, outgoing passenger cards and general procedures that apply to departure from transport terminal. 4.7 Obtain feedback on products and services courteously from customers and relay information accurately to the company. 4.8 Offer customers friendly and efficient assistance with transport check-in at the terminal or facilitate check-in on behalf of customers.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- verbal and written use of the 24-hour clock
- microphone techniques, as and when applicable to the operational context, e.g. for coach transfers
- interpretation of tourism industry jargon, especially terminal and transport codes, such as airline and airport city codes
- high-level communication skills to communicate with customers, terminal staff, transport operator staff and accommodation staff on sometimes complex issues like lost baggage and incorrect allocation of accommodation
- literacy skills to read and interpret customer and operational information, such as travel

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

vouchers, customer and technical itineraries, rooming lists and briefing instructions provided by tour operators

- writing skills to accurately and legibly record arrivals and departures, no-shows and other comments
- numeracy skills to count and check group members and the number of luggage pieces.

The following knowledge must be assessed as part of this unit:

- all main arrival and departure points and facilities within the local area
- in-depth knowledge of the local transport terminal facilities and procedures for arrivals and departures for all terminals within the local area
- guide identification techniques within transport terminals
- baggage collection and movement procedures within various local transport terminals and accommodation venues
- lost baggage procedures for the transport operators at the terminals
- accommodation check-in procedures for various customer types
- formats of and terminology used in standard customer travel documentation (e.g. rail, air and bus tickets; accommodation vouchers; and transfer vouchers) and operational documentation (e.g. operational or technical itineraries).

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • conduct of arrival and departure transfers and ability to follow correct procedures at transport terminals and accommodation venues • effective communication of information to customers • coordination of multiple arrival and departure activities using different operational details for different customer groups to ensure consistency of performance • coordination of arrival and departure activities across multiple transport terminals, as applicable to the guide's location, to ensure that skills can be adapted to different terminal environments e.g. in a major city all terminals and types would be covered, in a regional

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

location the available types of terminals would be covered.

Context of and specific resources for assessment

Assessment must ensure:

- coordination of arrival and departure activities within fully operational transport terminals and accommodation venues, where security requirements permit
- access to and use of transport of a style used by local industry for the conduct of transfers
- involvement of transport suppliers and accommodation venues
- interaction with customer groups of a size and nature that reflect the commercial environment in which the guide operates
- use of industry-current customer and operational documentation to support the arrival and departure process.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to offer arrival and departure assistance. The following examples are appropriate for this unit:

- direct observation of complete arrival and departure transfers conducted by the candidate
- review of arrival and departure assistance activities undertaken as part of industry placement and training with an industry operator
- review of documentation, such as passenger lists and baggage checklists recorded by the candidate
- case studies and problem-solving to assess ability to respond effectively to problems that occur during arrivals and departures
- written and oral questioning or interview to test knowledge of transport terminals, baggage procedures and travel documentation
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

for example:

- SITTGDE003A Coordinate and operate a tour
- SITTGDE007A Develop and maintain the general and regional knowledge required by guides.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Transport terminals may include:

- airports
- air charter facilities
- bus and coach terminals
- train stations
- shipping ports or cruise ship terminals.

Terminal facilities to be used may include:

- public address systems
- airside access
- special areas set aside for groups
- message boards
- communication systems between terminals and parking facilities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Information and advice to customers may include:	• general welcome and introduction • details of transfer procedures • details of check-in procedures • details of forthcoming tour arrangements • local time • local weather • money exchange rates and facilities • tipping • accommodation facilities • geography of hotel and immediate vicinity • overview destination information.
Accommodation may include:	• hotel • guesthouse • motel • resort • bed and breakfast • caravan park • camping grounds.

SITTGDE003A Coordinate and operate a tour

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct a tour including multiple products, services and sites. It requires the ability to manage the tour logistics of a prearranged tour itinerary. The coordination of the delivery of the tour requires significant planning and organisational skills as well as the ability to liaise with suppliers and industry colleagues to maximise tour efficiency and customer service quality.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

The additional skills required to cohesively operate an extended tour covering multiple destinations and overnight stays are covered in SITTGDE005A Manage extended touring programs.

SITTGDE004A Lead tour groups, focuses on the communication, leadership and conflict resolution skills required by guides and on the ability to coordinate the movement of groups.

Application of the Unit

Application of the unit

This unit describes a key tour guiding function. It applies to guides working in a range of locations and in multiple tourism industry sectors, but has particular application to guides engaged by tour operators, inbound tour operators and tour wholesalers. It may also be undertaken by driver guides and coach captains.

Tours can be provided at any international or domestic destination and can be for groups or individual customers. The complexity of the touring itinerary and its component parts will vary, but typically tours would be half-day or full-day and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

travelling within a city or region.

This unit has particular application to local guides and would not apply to a guide who works solely within one site. The unit also applies to tour managers who accompany tour groups on extended touring programs to manage the logistics of all group movements and touring arrangements at each destination throughout their tour.

Coordinating and operating a tour requires significant organisational, decision making and communication skills. Tour guides, tour managers and other tourism operational staff performing this function operate with a considerable level of autonomy or under limited supervision and guidance from others. They apply discretion and judgement within predefined organisational procedures and when on tour take the lead role without supervision.

It is critical that training and assessment is contextualised to meet the requirements of local tourism industry operations. Funding and hours allocated to pre-vocational training must allow for coverage of a broad scope of locations and destinations within the city or region in which the guide is training to work. This critical requirement will ensure that city or region-based local guides have the skills and knowledge required to operate tours to the range of different locations expected by local tourism industry operators.

Licensing/Regulatory Information

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Plan the logistics of tour delivery.	1.1 Plan the delivery of ***the tour*** according to ***briefing information or documentation from the tourism operator***.
	1.2 Identify hazards for customers and delivery personnel for all touring components, conduct a ***risk assessment*** and incorporate controls into management of tour logistics.
	1.3 Make tour preparations and ***consider specific issues to ensure customer needs are met***.
	1.4 Prioritise and action tasks required for tour preparation and conduct, in advance of tour commencement.
2 Brief and assist customers.	2.1 Welcome customers to the tour and provide an accurate briefing on ***tour practicalities and procedures***.
	2.2 Provide ***additional information and assistance*** to customers to enhance enjoyment of the tour.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Liaise with industry colleagues.	3.1 Liaise with ***industry colleagues*** to achieve smooth operation of the tour.
	3.2 Action requests from industry colleagues promptly and willingly wherever possible.
	3.3 Request assistance politely when required.
	3.4 Make agreements about individual and joint responsibilities during the tour.
	3.5 Make forward ***reconfirmations and bookings*** with suppliers in an accurate and timely manner.
	3.6 Interpret documentation from other organisations correctly and apply appropriately.
4 Manage the itinerary.	4.1 Conduct the tour to schedule and include all features as set down in the itinerary.
	4.2 Advise customers courteously and sensitively about unavoidable changes to itinerary.
	4.3 Re-plan the itinerary promptly when necessary to ensure all purchased inclusions or their equivalents are delivered and disruption to customers is minimised.
	4.4 Advise industry colleagues and suppliers affected by changes promptly and according to company procedures.
	4.5 Maintain contact with those fixing the problem when itinerary delays occur and employ negotiation techniques to minimise time delay and negative impact on customers.
	4.6 Keep customers accurately informed of reasons for delays and actions being taken to manage delays.
5 Deal with unexpected events.	5.1 Implement contingency plans without delay when unexpected events occur.
	5.2 Assess the situation and select appropriate action promptly.
	5.3 Follow company procedures strictly in the case of accidents or where safety of customers or colleagues may be threatened.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	5.4 Identify and access sources of assistance promptly.
	5.5 Amend tour to minimise impact on customer enjoyment.
6 Debrief tour.	6.1 Provide accurate and complete tour reports according to organisation guidelines.
	6.2 Provide accurate customer and personal feedback and other information to the company to assist with future improvements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to conduct a safety-based risk assessment and implement appropriate hazard controls
- interpretation of the specific needs of customers and any specific services previously promoted or confirmed to them
- interpretation of tourism industry jargon, especially product codes
- use of the 24-hour clock for itinerary timings
- high-level communication skills to communicate with customers, industry colleagues and suppliers about touring logistics and sometimes complex issues such as itinerary changes
- literacy skills to read and interpret customer and operational information, such as travel vouchers, customer and technical itineraries, and briefing instructions provided by tourism operators
- writing skills to complete documents such as hazard identifications, risk assessments, tour reports and written reconfirmations of touring arrangements accurately and legibly
- numeracy skills to calculate tour component times and translate from the 24-hour to 12-hour clock for customer use.

The following knowledge must be assessed as part of this unit:

- in-depth product knowledge appropriate to the specific touring itinerary and its component products and services
- the key features of culturally or environmentally sensitive areas to be visited and use of fundamental minimal impact practices to protect and sustain these

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- tourism industry, supplier networks and interrelationships that impact on the conduct of a multi-product and multi-site touring itinerary
- industry reconfirmation and booking procedures for tour components
- legal and liability issues affecting guides specifically in relation to domestic and relevant overseas consumer law regarding provision of services as advertised
- in-depth knowledge of planning procedures relating to the delivery logistics of a multifaceted touring itinerary and the management processes to be undertaken before, during and on completion of a tour
- tour management problems, and strategies to address these.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to plan for and operate the tour logistics of prearranged tour itineraries, comprising multiple products, services and sites in a safe and environmentally protective manner • knowledge of the tourism industry, supplier networks and interrelationships that impact on the conduct of a multi-product, multi-site touring itinerary • procedures for reconfirmation of touring components and mechanisms for solving situations and problems on tour • coordinating and operating multiple tours to ensure consistency of performance • delivery of multifaceted tours of a duration that reflect local industry product and practice, such as half-day tour and full-day tour • coordinating and operating multifaceted tours to a number of locations and destinations within the city or region in which the guide works or is training to work, including coverage of a range of full and half-day tours popular and available in that location e.g. half-day city tours or tours to regional destinations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure:

- planning for and operating multifaceted tours within commercially realistic touring environments, including all operational elements of a commercial tour
- access to equipment and resources required for the delivery of tours, e.g. transport and venue access
- interaction with and involvement of a tourism operator for whom the tours are being conducted
- interaction with customer groups of a size and nature that reflect the commercial environment in which the guide operates
- use of industry-current customer and operational documentation to support the delivery of a multifaceted touring itinerary.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to coordinate and operate a tour. The following examples are appropriate for this unit:

- direct observation of organisational and tour management skills by participating in a tour conducted by the candidate
- review of tour preparation notes or tour reports prepared by the candidate
- problem-solving case studies to assess ability to apply contingency and risk management skills to a range of different touring situations and problems
- written and oral questioning or interview to test knowledge of industry networks, tour management procedures and legal issues affecting tour management
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE004A Lead tour groups
- SITTGDE005A Manage extended touring programs
- SITTGDE006A Prepare and present tour commentaries

EVIDENCE GUIDE

	or activities.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The tour may be a:	• half or full-day tour • extended tour • city or rural tour • cultural tour • ecotour • adventure tour • special interest tour.
Briefing information or documentation from the tourism operator may include:	• customer information • itinerary information • supplier information • special request notes • tickets, vouchers or other travel documentation for guide and group • supplier contact details • optional tour information • financial documents

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- promotional materials.

Risk assessment may involve assessment of:

- customers' abilities to fully engage in all activities (e.g. customer health issues)
- blocked, inaccessible tour routes
- health or safety hazards associated with weather and exposure, e.g. insufficient shade or protection from rain
- health or safety hazards associated with insufficient distance or protection from local wildlife
- crowd-related issues
- health or safety hazards associated with activities to be undertaken
- the cultural or environmental sensitivity of areas to be visited and use of minimal impact practices to protect and sustain these
- potential service delivery difficulties
- tight timing or scheduling.

Consideration of specific issues to ensure customer needs are met must include:

- type of customers
- customer special needs
- size of tour group
- length of tour
- specific itinerary requirements
- special requests
- style of commentary required
- location of tour
- climate
- equipment and resources required
- environmental and cultural considerations
- language considerations.

Tour practicalities and procedures to be communicated must include:

- tour itinerary or program, including route, schedule and highlights
- availability of free time
- health and safety procedures
- local culture, customs and security
- local regulations, including:
  - customs
  - immigration

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- luggage
- specific site procedures
- procedures at tour stops
- any group rules, regulations and codes of behaviour
- the cultural or environmental sensitivity of areas to be visited and use of minimal impact practices to protect and sustain these.

Additional information and assistance that may be provided to customers may include:

- local events and activities
- options for free time activities
- optional tours and costs
- general directions
- local facilities.

Industry colleagues may include:

- host communities
- coach drivers
- tour managers
- local guides
- airlines
- tour operators
- product suppliers, including hotels, restaurants, attractions and retail locations
- land managers and other statutory authorities
- tour company office.

Reconfirmations and bookings may be for any touring product or service component and may include:

- accommodation venue
- restaurant
- catering provider
- ground transport
- airline
- charter airline
- scenic flight
- train
- retail outlet
- attraction
- guided tour within attractions and sites
- cruise
- local tour guide

SITTGDE004A Lead tour groups

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to coordinate a group of touring customers. It focuses on the communication, leadership and conflict resolution skills required by guides. The unit requires the ability to coordinate the physical movement of groups.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Customer service and complaints resolution is covered in SITXCOM001A Work with colleagues and customers.

Application of the Unit

Application of the unit

This unit describes a key tour guiding function for guides working in a range of locations and in multiple tourism industry sectors and organisation types. The unit can apply to any situation where a guide is involved in delivering a tour or activity to a group of customers. This would include multifaceted tours inclusive of multiple products and sites e.g. half-day tours of cities and regional destinations as well as tours of specific attractions and sites.

This unit can apply to cultural industries where group tours or activities take place in a museum, gallery, library, performing arts centre or zoo; to sport and recreation industries where groups participate in outdoor and adventure activities, such as guided bushwalking; and to any industry that operates tours at an industrial site, e.g. breweries, waste management facilities and factories.

The unit also applies to tour managers who accompany tour groups on extended touring programs.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Leading tour groups requires significant organisational and communication skills. Guides who perform this function operate with a considerable level of autonomy or under limited supervision and guidance from others. They apply discretion and judgement within predefined organisational procedures and when leading groups take the lead role without supervision. The role is undertaken by tour guides, tour managers, tour directors, site guides, interpretative guides, walking guides, outdoor recreation guides, museum guides, heritage guides, cultural guides, nature-based guides, driver guides, coach captains, specialist guides and owner-operators of small tour operations.

guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Coordinate group movements.	1.1 Maintain the tour schedule wherever possible through effective communication with the group. 1.2 Use techniques to promptly attract group attention when required. 1.3 Advise the group sensitively and accurately about ways in which minimum disruption and disturbance can be caused to other tour members, host communities and the environment. 1.4 Complete physical group movements in an orderly manner, checking group numbers at appropriate times. 1.5 Advise customers of appropriate procedures if they become separated from the group. 1.6 Provide instructions in a manner and pace appropriate to the particular group. 1.7 Encourage customers to seek clarification of instructions where necessary. 1.8 Locate lost or late group members, ensure they rejoin the group and are advised of future need to comply with group movements.
2 Encourage group morale and goodwill.	2.1 Use ***techniques to build group cohesion*** during the tour. 2.2 Balance the needs of individuals and the group in the conduct of the tour.
3 Deal with conflicts and difficulties.	3.1 Assess potential for conflict promptly and take swift and tactful action should conflict arise, to prevent escalation and assist resolution. 3.2 Take appropriate action to deal with difficult tour members. 3.3 Respond to ***conflicts and difficulties*** in a manner likely to optimise the goodwill and morale of the group.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.4 Follow procedures for controlling drug or alcohol-affected customers according to company guidelines and legal requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication skills to communicate with customers about the tour or activity movements, provide clear instructions and advise on procedures they must adhere to
- conflict resolution skills and strategies incorporating the skills and techniques of:
  - assertiveness
  - active listening
  - non-verbal communication
  - inclusive language style
  - problem-solving
  - negotiation
- numeracy skills to count tour members.

The following knowledge must be assessed as part of this unit:

- procedures for maximising efficiency of group movements
- procedures for locating lost or late group members and coordinating reunion with the group
- minimal impact practices to ensure minimum disruption and disturbance to host communities and the environment
- principles of group management and group dynamics
- communication and leadership techniques with particular application to guiding activities and building group cohesion
- types of conflict and people management issues likely to arise in a group touring situation and typical causes
- procedures for negotiating and resolving conflicts and difficulties
- conflict theory, including signs, stages, levels, factors involved and resolution.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- coordinating the movement of groups, using communication and leadership techniques that build group cohesion
- responding to people management problems and issues during group tours or activities
- knowledge of the range of conflict and people management issues that could arise during group tours or activities
- leading multiple tour groups to ensure consistency of performance
- leading group tours or activities of a duration that reflects local industry product and practice and of sufficient duration to allow the candidate to demonstrate techniques to build group cohesion.

Context of and specific resources for assessment

Assessment must ensure:

- leading tour groups within commercially realistic guiding environments, e.g. at a tourist site, on a coach tour, in a national park or on a walking tour
- interaction with customer groups of a size and nature that reflect the commercial environment in which the guide operates.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to lead tour groups. The following examples are appropriate for this unit:

- direct observation of the candidate's ability to coordinate the movement of groups by participating in tours conducted by the candidate
- direct observation of the candidate's people

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

management skills during the operation of group tours
- questioning group tour members as to the candidate's clarity of communication and leadership skills
- review of guiding activities undertaken as part of industry placement and training with an industry operator
- case studies and problem-solving to evaluate ability to apply solutions to different group conflicts and difficulties
- written and oral questioning or interview to test knowledge of conflict resolution, leadership and group motivation techniques and procedures relevant to the movement of tour groups
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE003A Coordinate and operate a tour
- SITTGDE005A Manage extended touring programs
- SITTGDE006A Prepare and present tour commentaries or activities
- SITTVAF002A Provide a briefing or scripted commentary.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Techniques to build group cohesion may include:

- encouraging interaction between group members
- group activities or games
- inviting individuals to address the group
- using the skills of individual group members in the operation of the tour
- focusing the group on shared experiences
- using seat rotation systems.

Conflicts and difficulties may involve:

- personal conflict between customers
- dominant or disruptive customers
- customers who cause disruption and disturbance to other tour members, host communities and the environment
- negative customers
- subgroups or cliques within the group
- perception of favouritism by guide
- dissatisfaction with the tour.

SITTGDE005A Manage extended touring programs

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to coordinate an extended touring program of more than one day's duration. It requires the ability to manage all tour logistics taking a holistic approach to the touring program and to solve touring and group member problems. It also requires the ability to ensure the ongoing welfare and satisfaction of group tour members and to develop and maintain group cohesion and rapport throughout the touring program.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key tour guiding function. It applies to those who work in a range of locations and in multiple tourism industry sectors, but has particular application to personnel engaged by tour operators, inbound tour operators and tour wholesalers. It applies to those industry personnel known as tour managers, tour directors, tour leaders and tour escorts, who lead extended tours both within Australia and overseas.

Extended touring programs would usually cover multiple destinations and overnight stays but could also cover those tours that operate just one or two overnight stays to one or two destinations. The complexity of the touring itinerary and its component parts will vary.

The logistical management of extended touring programs requires significant organisational, decision making and communication and negotiation skills. Those tour managers who perform this function operate with a considerable level of autonomy or under limited supervision and guidance from

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Manage touring arrangements.	1.1 Manage all tour logistics taking a holistic approach to the whole ***touring program*** at all times.
	1.2 Conduct touring program according to the prearranged touring itinerary.
	1.3 Make forward ***reconfirmations and bookings*** progressively throughout the program.
	1.4 Reconfirm or arrange ***operational details*** progressively throughout the program.
	1.5 ***Reorganise and adjust touring arrangements*** when required within the scope of individual responsibility.
	1.6 Make major adjustments within budget according to ***controlling office*** guidelines.
	1.7 Make adjustments to touring arrangements in the context of the whole program.
	1.8 Maintain ongoing contact with controlling office and forward suppliers as required.
2 Liaise and negotiate with others.	2.1 Maximise operational efficiency and customer service levels by effective ***liaison and negotiation*** with all those contributing to the operation of the program.
	2.2 Conduct negotiations in a businesslike and professional manner within the relevant cultural context.
	2.3 Conduct negotiations in the context of the entire touring program.
	2.4 Conduct negotiations to take account of the overall relationship between the organisation and the other stakeholders.
	2.5 Select communication and negotiation style appropriate to the circumstance.
	2.6 Use negotiation and communication techniques to maximise the chances of an acceptable outcome for all parties.
	2.7 Note and confirm accurately in writing all agreements as required by specific circumstances.
	2.8 Provide relevant information to the controlling office

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	promptly and as required by organisation guidelines.
3 Develop and maintain group rapport.	3.1 Develop and maintain a team spirit for the duration of the program.
	3.2 Gain the trust and confidence of the group through the demonstration of professional competence and integrity and ensure customer satisfaction with the touring program.
	3.3 Use leadership and communication skills to foster group cohesion.
	3.4 Encourage customer participation and group interaction.
	3.5 Identify and assess potential conflict within the group promptly and should conflict arise, take appropriate action to assist resolution.
4 Solve problems that arise on tour.	4.1 Identify and consider ***problems*** promptly from both an operational and customer service perspective in the context of the entire touring program.
	4.2 Initiate short-term action to resolve the immediate problem where appropriate.
	4.3 Analyse problems for any long-term commercial impact and assess and action solutions.
	4.4 Present a positive image of the organisation and its contracted suppliers at all times.
	4.5 Take responsibility for resolving the problem within the scope of individual authority and to ensure customer satisfaction.
	4.6 Consult the controlling office when required and appropriate to resolve problems outside scope of guidelines and responsibility.
	4.7 Take appropriate follow-up action to monitor the effectiveness of chosen solutions.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of the specific needs of customers, their level of expectation and satisfaction with touring arrangements
- critical thinking skills to facilitate rational and logical analysis of such things as customer dissatisfaction and logistical touring problems, and appropriate solutions to be applied
- high-level communication and negotiation skills to deal with customers, industry colleagues and suppliers about touring logistics and complex issues, such as itinerary changes
- literacy skills to read and interpret customer and operational information, such as travel vouchers, customer and technical itineraries provided by tourism operators, and manifests provided by suppliers, e.g. rooming lists
- numeracy skills to calculate tour component times, to translate from the 24-hour to 12-hour clock for customer use, and to calculate the cost of changes to itineraries.

The following knowledge must be assessed as part of this unit:

- in-depth product knowledge appropriate to the specific touring itinerary and its component products and services
- the key features of culturally or environmentally sensitive areas to be visited and use of fundamental minimal impact practices to protect and sustain these
- policies, procedures and guidelines issued by the controlling tourism operator
- tourism industry, supplier networks and interrelationships that impact on the conduct of an extended touring program
- in-depth knowledge of planning the delivery logistics of an extended touring program and the management processes and procedures to be undertaken before, during and at the completion of a tour to maximise the efficiency of extended touring programs
- negotiation techniques and their application to different tour managing contexts
- leadership, motivation and communication techniques and their application to different tour managing contexts.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment

EVIDENCE GUIDE

Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- holistic management of all tour logistics for an extended touring program
- ability to ensure the ongoing welfare and satisfaction of group tour members and develop and maintain group cohesion and rapport throughout the touring program
- ability to apply effective negotiation and contingency management techniques to deal with the range of practical and people-related problems and issues that arise during the operation of an extended tour
- knowledge of communication, negotiation, leadership and motivation techniques
- delivery of an extended touring program of a duration that reflects local industry product and practice and of sufficient duration to allow the candidate to demonstrate techniques that build group rapport.

Context of and specific resources for assessment

Assessment must ensure:

- coordination and operation of an extended group touring program within commercially realistic touring environments, including all the operational elements of a commercial tour
- access to equipment and resources required for the delivery of the program, e.g. transport and accommodation venues
- interaction with and involvement of a tourism operator for whom the extended program is being conducted
- interaction with customer groups of a size and nature that reflect the commercial environment in which the tour manager operates
- use of industry-current customer and operational documentation to support the delivery of an extended touring program.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to manage extended touring programs. The following examples are appropriate for this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- direct observation of the candidate's ability to holistically manage all tour logistics by participating in tours conducted by the candidate
- direct observation of the candidate's people management skills during the operation of group tours
- direct observation of the candidate's communication, negotiation and problem-solving skills by participating in an extended tour conducted by the candidate
- questioning group tour members as to the candidate's clarity of communication, and leadership and motivational skills
- review of tour management activities undertaken as part of industry placement and training with an industry operator
- review of tour preparation notes, checklists and tour reports prepared by the candidate
- problem-solving case studies to assess ability to apply people management and contingency management skills to a range of different touring situations, including emergency situations
- written and oral questioning or interview to test knowledge of tour management procedures, leadership, motivation and communication techniques and tourism industry networks relevant to the management of extended tours
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE002A Provide arrival and departure assistance
- SITTGDE006A Prepare and present tour commentaries or activities
- SITTTOP006B Operate tours in a remote area.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Types of extended ***touring programs*** may include:	• general sightseeing tours • ecotours • adventure tours • camping tours • cultural and historical tours • cruise programs • pre and post-conference tours.
Reconfirmations and bookings may be for any touring product or service component and may include:	• accommodation venues • restaurants • catering providers • ground transport • airlines • charter airlines • scenic flights • trains • retail outlets • attractions • guided tours within attractions and sites • cruises • local tour guides • optional tours.
Operational details may include:	• management of passenger travel documentation, such

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	as: • airline tickets and vouchers • seat allocations or boarding passes • travel vouchers • luggage coordination • documentation preparation • group currency requirements • customs and immigration procedures and requirements • seat rotation • check-in and check-out procedures • local touring liaison.
Reorganisation and adjustment of touring arrangements may include:	• developing alternative routes • re-booking one or multiples services • organising new or replacement documentation • renegotiating cost.
Controlling office refers to the tourism operator that has engaged the tour manager as its representative for the delivery of the tour and may include:	• inbound tour operator • tour operator • outbound tour wholesaler • event management organisation • professional conference organiser • destination marketing company.

Liaison and negotiation may be with:	• coach drivers
	• local guides
	• tour leaders accompanying group from home country
	• interpreter guides
	• traditional owners
	• airlines
	• tour operators
	• hotels
	• restaurants
	• attractions
	• retail locations
	• government authorities, including:
	  • land management agencies
	  • customs

RANGE STATEMENT

- immigration.

Problems may include:

- unexpected delay
- missed connection
- hotel or supplier overbooking situation
- change of accommodation
- supplier driven change of date and time of supply or change to alternative supplier
- passenger sickness, injury or death
- loss of personal valuables and documents e.g. passport
- passenger robbery
- lost luggage
- equipment and transportation in contingency situations, e.g. coach breakdown
- lost passengers
- late passengers
- group conflict or dissatisfaction
- customers who cause disruption and disturbance to other tour members, host communities and the environment
- service complaints
- poor supplier performance
- political unrest in area of tour
- inclement weather conditions, such as:
  - fire
  - flood
  - storm
  - cyclone
- lack of access to tour areas, including:
  - road closures
  - road blockages.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare and present commentaries or activities to customers. Its main focus is on the need to use effective interpretation and presentation techniques to ensure customer participation and enjoyment. Tour guides may have generalist or specialist knowledge and the diversity of information imparted is immense and immeasurable.

This unit does not focus on the knowledge base but on the skills required to prepare and present information. The unit goes beyond the delivery of fully-scripted commentary and requires significant creative input. SITTPPD005A Plan and develop interpretive activities, is dedicated to the actual development of interpretive activities.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Interpreting and presenting information to visitors is a key function for guides working in a range of locations and in multiple tourism industry sectors and organisation types.

This unit can have broader industry application and can apply to cultural industries where delivery of a commentary or activity takes place in a museum, gallery, library, performing arts centre or zoo; sport and recreation industries for commentaries or activities that are linked to outdoor and adventure activities such as guided bushwalking; and to any industry that operates tours at an industrial site, e.g. breweries, waste management facilities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

and factories.

It applies to frontline personnel who operate with some level of autonomy or under limited supervision and guidance from others. The role is undertaken by a diverse range of people such as tour guides, tour managers, tour directors, site guides, interpretive guides, walking guides, outdoor recreation guides, museum guides, heritage guides, cultural guides, nature-based guides, driver guides, coach captains, specialist guides and owner-operators of small tour operations.

It is critical that training and assessment is contextualised to meet the requirements of local tourism industry operations. Funding and hours allocated to pre-vocational training must allow for a broad scope of guiding contexts to be covered to allow for broad vocational outcomes and utility of the graduate to the local industry. Pre-vocational training should also cover a broad scope of locations and destinations within the city or region in which the guide is training to work. This critical requirement will ensure that city or region-based local guides have the skills and knowledge required to deliver commentary for the range of different locations expected by local tourism industry operators.

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare commentaries or activities for presentation to customers.	1.1 Select and organise appropriate information to meet the ***needs of specific customers***, operational contexts and timing restrictions. 1.2 Select or develop appropriate themes as a basis for commentaries or activities. 1.3 Construct ***commentaries or activities*** to maximise the potential for customer enjoyment and learning. 1.4 Obtain, check and assemble all support materials in advance of the tour or activity.
2 Present commentaries or activities to customers.	2.1 Use interpretive and presentation techniques to combine entertainment and learning and to enhance the quality of the experience for the customer. 2.2 Use language appropriate to the customer group. 2.3 Present current, accurate and relevant information in a logical order.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.4 Present information of appropriate depth and breadth for specific customer needs.
	2.5 Present information in a manner that demonstrates cultural and social sensitivity.
	2.6 Pace the presentation according to timing requirements and ***operational context***.
	2.7 Use ***equipment and resources*** correctly and identify and report any equipment defects promptly.
3 Interact with customers.	3.1 Encourage customer participation within safety requirements through effective use of interpretive and presentation techniques.
	3.2 Invite questions and feedback from customers both during and at the conclusion of any commentary or activity.
	3.3 Answer questions courteously and correctly and, if required, involve the whole group by repetition of the question and delivery of answer audible to all.
	3.4 Where the answer to a question is unknown, offer to supply the answer at a future time or refer the customer to other information sources.
	3.5 Maintain communication with appropriate colleagues as required by specific tour or activity circumstances.
	3.6 Implement contingency plans without delay when ***unexpected events*** occur and amend presentation format, order or structure to minimise impact on customer enjoyment.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- microphone techniques, as and when applicable to the operational context of delivering the tour commentary or activity, e.g. a coach touring context
- interpretation of specific customer needs and any specific services previously confirmed

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

with customer
- high-level communication skills to facilitate the gathering and analysis of complex information and interpret and adapt this for simpler communication to customers
- creative communication techniques for interpretive commentaries or activities, including such things as storytelling, role-play, games, sensory awareness exercises and illustrated talks
- high-level communication skills to present in an informative, engaging, educational and enjoyable manner and interpret and answer customer questions.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge of subject matter being presented which will vary according to context
- presentation and interpretive techniques, including the role and use of:
  - humour
  - body language
  - role-play
  - voice techniques
  - storytelling
  - games and activities
  - sensory awareness exercises
  - visual aids and props
  - positioning
- safety and emergency procedures for relevant locations.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to select information and prepare commentaries or activities to meet a specific need • ability to use interpretive and presentation techniques to create customer-focused, informative and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	entertaining experiences for customers • preparation and presentation of multiple commentaries or activities covering a range of topics that meet the differing needs of various customer groups to ensure consistency of performance (for city or region-based generalist guides, this should include the delivery of information that covers different destinations within the city or region • presentation of activities and commentaries of a duration that reflects local industry product and practice • preparation for and presentation of commentaries or activities within multiple guiding environments (e.g. at a tourist site, on a coach tour, in a national park or on a walking tour) to ensure that skills can be adapted to different guiding contexts.
Context of and specific resources for assessment	Assessment must ensure: • preparation for and presentation of commentaries or activities within commercially realistic guiding environments (e.g. at a tourist site, on a coach tour, in a national park or on a walking tour) • use of industry-current equipment for presentation that will vary according to the operational context of delivering the commentary or activity (e.g. a microphone is essential equipment for coach touring) • presentation to and interaction with customer groups of a size and nature that reflect the commercial environment in which the guide operates.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to prepare and present tour commentaries or activities. The following examples are appropriate for this unit: • direct observation of the candidate presenting commentaries or activities and using equipment effectively • questioning tour members as to the candidate's communication skills, breadth of knowledge and ability to deliver knowledge in an interesting way • case studies to assess ability to tailor activities and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

information to suit particular customer needs
- case studies and problem-solving to assess ability to respond effectively to problems that occur during activities or commentaries
- written and oral questioning or interview to test knowledge of interpretive and presentation techniques
- review of guiding activities undertaken as part of industry placement and training with an industry operator
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE007A Develop and maintain the general and regional knowledge required by guides
- SITTGDE008A Research and share general information on Australian Indigenous cultures
- SITTGDE009A Interpret aspects of local Australian Indigenous culture
- SITTGDE010B Prepare specialised interpretive content on flora, fauna and landscape
- SITTGDE011B Prepare specialised interpretive content on marine environments
- SITTGDE012B Prepare specialised interpretive content on cultural and heritage environments
- FDFCDSWTB Promote wine tourism information.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Needs of specific customers may vary according to:	• geographic origin • cultural background • age • disability • educational level • special interests • requested coverage.
Commentaries or activities may relate to a range of subjects, including:	• history and heritage • culture • art • natural environment • built environment • wildlife • domestic and farm animals • birds.
Operational context may relate to:	• coach touring • guided walks • guided site activities • entertainment-based tours, such as ghost tours.
Equipment and resources may include:	• microphone, where applicable to the operational context and assessed as necessary (e.g. on a coach) • audiovisual equipment • videotapes and DVDs • props.
Unexpected events may include:	• systems failure • equipment failure • injury, accident or death • adverse weather conditions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- inappropriate customer behaviour
- customers who cause disruption and disturbance to other tour members, host communities and the environment
- unpredictable animal behaviour
- sudden closures
- change of access
- customer health issues, causing a reassessment of physical abilities.

Competency field

Guiding.

Co-requisite units

This unit involves substantial knowledge of the subject matter around which the commentary or activity is based. This knowledge must be thoroughly assessed.

Assessment with one of the following co-requisite units of competency, unless previously completed, is required:

- SITTGDE007A Develop and maintain the general and regional knowledge required by guides
- SITTGDE008A Research and share general information on Australian Indigenous cultures
- SITTGDE009A Interpret aspects of local Australian Indigenous culture
- SITTGDE010B Prepare specialised interpretive content on flora, fauna and landscape
- SITTGDE011B Prepare specialised interpretive content on marine environments
- SITTGDE012B Prepare specialised interpretive content on cultural and

heritage environments

- FDFCDSWTB Promote wine tourism information.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

SITTGDE007A Develop and maintain the general and regional knowledge required by guides

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to research information on Australia for presentation to customers. It requires broad general knowledge of Australia and a breadth and depth of regional and location-specific knowledge, highlighting the need for ongoing research to update and expand the guide's knowledge.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Specialised skills and knowledge relating to cultural and heritage sites and natural environments are found in other units:

- SITTGDE010B Prepare specialised interpretive content on flora, fauna and landscape
- SITTGDE011B Prepare specialised interpretive content on marine environments
- SITTGDE012B Prepare specialised interpretive content on cultural and heritage environments.

The skills required to prepare and present information are covered in SITTGDE006A Prepare and present tour commentaries or activities.

Application of the Unit

Application of the unit

Interpreting and presenting information and knowledge to visitors is a key function for guides who work in a range of locations and in multiple tourism industry sectors and organisation types. They must have an essential knowledge base to support this delivery.

Wherever guides are located or travel, they provide Australia-wide and region-specific information and the diversity

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

of information imparted is immense and immeasurable.

This unit does not require an in-depth knowledge of every feature of Australia or every regional location. It focuses on the ability to collect and interpret general information on Australia and the regional or location-specific information required by guides.

It applies to frontline guiding personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as tour guides, tour managers, tour directors, site guides, interpretative guides, walking guides, outdoor recreation guides, driver guides, specialist guides and owner-operators of small tour operations.

Guiding personnel are expected to have a breadth and depth of knowledge in order to satisfy the information needs of their customers and funding and hours allocated to training must reflect this industry requirement. Training and assessment programs must:

- cover the broad range of knowledge covered within the required skills and knowledge section of this unit
- ensure that the depth of knowledge covered is sufficient to meet the requirements of a guide
- tailor the regional knowledge base to cover specific aspects of the local region
- allow for guides who have moved to different locations to participate in retraining.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research information on Australia and the local region.	1.1 Identify subjects of potential customer interest, based on direct contact with customers and consultation with industry colleagues.
	1.2 Identify the key information sources frequently used by guides.
	1.3 Evaluate the credibility and reliability of information sources.
	1.4 Select and use ***formal and informal research techniques*** appropriately to access current, accurate and relevant information about Australia and the local region.
	1.5 Obtain information in a culturally appropriate way.
2 Prepare information for guiding activities.	2.1 Create and update accurate ***personal reference materials using a filing system*** that allows quick and efficient access and retrieval.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.2 Organise information to reflect the needs of customers and the way in which information may be presented during a guiding activity.
	2.3 Identify themes and messages from research to meet specific customer needs.
3 Update general knowledge of Australia and the local region.	3.1 Identify and use ***opportunities to maintain the currency of general knowledge*** about Australia and the local region.
	3.2 Incorporate updated knowledge into guiding activities regularly and in a culturally appropriate way.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills
- interpretation of the specific information needs of customer groups and specific customers
- literacy skills to source, read and interpret complex general information on Australia and regional or location-specific information.

The following knowledge must be assessed as part of this unit:

- key information sources frequently used by guides
- a depth of knowledge to satisfy the information needs of the guide's customers and the expectations of the tourism operators who will engage the guide
- aspects of Australia in general and in-depth knowledge of the specific aspects of the local region, which must include the following broad knowledge base:
  - history (historical development of Australia and the local region, major historical events and prominent individuals, key dates and overview of Australian Indigenous history)
  - government and politics (general structure, political parties, major political figures, and current federal, state and local political issues)
  - economy (overview of current state of the economy, and key features of the local

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

economy and local industry)

- trade (key exports and main trading partners)
- education (overview of school and higher education systems and comparison of systems to those of other countries or states)
- climate (weather patterns, including any extreme conditions, impact of climate on lifestyle and stories associated with climate in a local area)
- geography and geology (major land formations, landmarks, natural attractions and their key features for both Australia and the local region)
- architecture (major styles and their proponents, key buildings, their heritage and current use, and structures both in Australia and the local area)
- cultural elements (overview of Indigenous cultures within Australia, different cultures within Australia and the local area, cultural activities and local customs)
- lifestyle (key features of the day-to-day living patterns of Australians and local people, and family and social customs)
- art, theatre, music and literature (key Australian performers, writers and artists, major works by Australians and major cultural events)
- religion (religious make-up of Australia and the local area, and aspects of religious practices)
- natural environment and tourism (how the environment is a tourism asset, impacts of tourism on the environment, and land management in Australia including the role of national parks)
- flora and fauna (overview of native flora and fauna, their characteristics and key locations)
- transport (main transport systems, usage of different forms of transport across Australia, historical development of different forms of transport and current transport within the local region)
- agriculture (Australia's history as a primary producer, key products of Australia, current issues, past and current agricultural aspects of the local region)
- science and technology (Australia's contribution both past and present, prominent individuals and key discoveries)
- sport (main Australian sporting activities, Australia's sporting record, local sporting focus, sporting facilities and sporting comparisons with other countries or areas)
- food (local dishes and produce)
- wine (Australian wine styles, major wine areas, specific wine areas and wines produced within the local region)
- shopping (key locations and local products)
- tourism services and local facilities of interest to visitors (currency exchange locations, tour booking offices, accommodation, attractions, banks, dry cleaners and medical facilities)
- current events in Australia and the local region.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- required breadth of knowledge of Australia and the local region as specified in this unit, to a level and familiarity sufficient to:
  - develop coherent and interesting interpretations for customers
  - answer typical questions asked by customers on given topics
- ability to source initial and updated information to meet differing customer needs and to ensure that information supplied is current.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed and used appropriate computers, communication technology, information programs and publications to facilitate the processes involved in conducting research of general and local knowledge.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to source and apply the general and location-specific knowledge required by guides. The following examples are appropriate for this unit:

- direct observation of the candidate using knowledge to deliver interpretive commentaries or activities
- questioning of group members as to the candidate's breadth of knowledge and ability to answer customer questions
- review of guiding activities undertaken as part of industry placement and training with an industry operator

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- review of a research portfolio to assess the candidate's ability to research current and accurate information
- written and oral questioning or interview to assess the candidate's use of appropriate information sources
- written and oral questioning or interview to test knowledge of Australia and the local area
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Assessment methods should take into account that individuals may have acquired their knowledge through formal study or life experience. This would include such things as the recognition of scientific qualifications of ecotour guides and recognition systems that relate to cultural knowledge that exists in Aboriginal and Torres Strait Islander societies.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE002A Provide arrival and departure assistance
- SITTGDE003A Coordinate and operate a tour
- SITTGDE005A Manage extended touring programs
- SITTTOP006B Operate tours in a remote area.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Formal and informal research**, **techniques and ***opportunities to maintain the currency of knowledge*** may include:	• talking and listening to local experts • talking and listening to traditional owners • personal on-site observation and exploration • organising information from own memory and experiences • watching television, videos and films • listening to radio • reading newspapers, books and other references • internet • industry association membership • attending seminars or conferences.
Personal reference materials and filing systems may include:	• card reference systems • computerised database of information • notes based around different themes or characters • notes for specific touring routes or locations • notes for specific customer interests • notes for particular types of customer groups, e.g. from particular countries or with special interests • chronologies of major events • storylines • customer profiles, e.g. interest profiles for particular age groups and nationalities.

SITTGDE008A Research and share general information on Australian Indigenous cultures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to research and share information about Australian Indigenous societies in a culturally appropriate way. It focuses on information that is widely available to the general community. The unit recognises that there is no single Australian Indigenous culture and emphasises the importance of culturally appropriate behaviour and local community consultation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

This unit does not include in-depth interpretation of local Australian Indigenous cultures, which is covered in SITTGDE009A Interpret aspects of local Australian Indigenous culture.

Application of the Unit

Application of the unit

The sharing of information on Australian Indigenous cultures with visitors is a key guiding function for many people who work in a range of locations and in multiple tourism industry sectors and organisation types. They must have an essential knowledge base to support this activity. The information sourced and shared could relate to Australian Indigenous countries across Australia and cover a broad knowledge of Indigenous cultures. It could also cover knowledge of a specific Australian Indigenous country and culture. The breadth and depth of knowledge does not have to be extensive to meet the requirements of this unit.

Those people sharing the information may not identify themselves as tour guides and may work at a particular cultural site. However, this unit can apply to any type of tour guide,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

including those who operate in a particular city, region, tourist precinct or site; those who work in a variety of sites, cities, and regions; and those who cross regional, state and territory borders regularly while accompanying travellers.

Licensing/Regulatory Information

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research general information on Australian Indigenous cultures.	1.1 Identify sources of ***information*** and conduct accurate ***research*** into Australian Indigenous cultures.
	1.2 Interpret written sources of information, extract the required information, and check for accuracy and any required permission to disseminate to local communities prior to use.
	1.3 Access information from other than written sources in a culturally appropriate way.
	1.4 Demonstrate behaviour that shows respect for local Australian Indigenous culture and customs and follow correct protocols when seeking information.
	1.5 Share knowledge gained with work colleagues to increase cultural awareness and understanding in the organisation.
2 Share general information on Australian Indigenous cultures with customers.	2.1 Identify and use Indigenous interpreters where possible and within scope of individual responsibility.
	2.2 Provide customers with guidance on appropriate behaviours when interacting with Indigenous interpreters or communities.
	2.3 Share accurate information on Australian Indigenous cultures with customers.
	2.4 Include reference to the diversity of Australian Indigenous cultures when sharing information.
	2.5 Share information in a manner respectful of local community values and customs.
	2.6 Share information in a manner that enhances customer understanding of Australian Indigenous cultures.
	2.7 Answer customer questions in a polite and friendly manner and according to community wishes about what information can be shared with customers.
	2.8 Respond to culturally inappropriate customer behaviour promptly and in a manner that minimises the likelihood of offence being taken.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills and techniques for acquiring and maintaining current information generally available about Australian Indigenous cultures
- literacy skills to source, read and interpret sometimes complex information on Australian Indigenous cultures
- communication skills, including cross-cultural skills and awareness of Indigenous communication techniques.

The following knowledge must be assessed as part of this unit:

- protocols for researching and sharing information about Australian Indigenous cultures
- copyright and intellectual property issues associated with the sharing of information
- general knowledge of Australian Indigenous cultures in general
- general knowledge of the specific Australian Indigenous culture within the particular regional location.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • researching and sharing accurate information about Australian Indigenous societies in a culturally appropriate way • knowledge of the protocols that apply to researching and sharing information generally available about Australian Indigenous cultures • general knowledge of Australian Indigenous cultures and specific cultures within a regional location • ability to source different types of information

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	covering multiple topics to ensure a breadth of knowledge • ability to share general information about Australian Indigenous cultures with customers on numerous occasions to ensure consistency of performance.
Context of and specific resources for assessment	Assessment must ensure: • sharing of information about Australian Indigenous cultures within commercially realistic guiding environments e.g. in a national park, on a bush walking tour or at a tourist site • involvement of appropriate people accepted by the local community in the assessment process • interaction with Australian Indigenous communities to obtain information • sharing of information with customer groups of a size and nature that reflect the commercial environment in which the guide operates • access to information sources in order to conduct research and collect sufficient information.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to research and share general information on Australian Indigenous cultures. The following examples are appropriate for this unit: • direct observation of the candidate sharing information about Australian Indigenous cultures with customers • questioning of group members as to the candidate's breadth of knowledge and ability to answer customer questions • review of guiding activities undertaken as part of industry placement and training with an industry operator • review of a portfolio of information that has been sourced to assess the candidate's ability to identify and source current and accurate information • written and oral questioning or interview to evaluate the process undertaken by the candidate to source information • written and oral questioning or interview to assess

EVIDENCE GUIDE

general knowledge of Australian and Indigenous cultures appropriate to the region

- case studies to assess ability to apply correct protocols to particular situations
- written and oral questioning or interview to test knowledge of protocols and other issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Assessment methods should take into account that individuals may have acquired their knowledge through formal study or life experience. This would include such things as the recognition of scientific qualifications of ecotour guides and the recognition systems that relate to cultural knowledge that exists in Aboriginal and Torres Strait Islander societies.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE006A Prepare and present tour commentaries or activities
- SITTGDE009A Interpret aspects of local Australian Indigenous culture.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

RANGE STATEMENT

environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Information:	• may be about:
	  • Australian Indigenous cultures and countries in general
	  • specific Australian Indigenous cultures and countries
	• may cover the following topics:
	  • history, pre and post-European contact
	  • traditional life and culture
	  • contemporary Indigenous life and culture
	  • art and music
	  • dance
	  • bushcraft, bush food and bush medicine
	  • tools and implements
	  • land ownership
	  • cultural sites, which may include galleries, cultural centres, natural sites and occupation sites like middens.

Research may include:	• talking and listening to Australian Indigenous people • organising information from personal memory and experiences • watching television, videos and films • listening to radio • reading books and other references • internet • museum research.

SITTGDE009A Interpret aspects of local Australian Indigenous culture

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to interpret different aspects of a specific local Australian Indigenous culture. The unit focuses on an in-depth interpretation of that specific local culture. It is this in-depth, localised interpretation that distinguishes this unit from SITTGDE008A Research and share general information on Australian Indigenous cultures.

The unit recognises that there is no single Australian Indigenous culture and emphasises the importance of in-depth local cultural knowledge, appropriate behaviour and local community consultation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit has particular application to people who have in-depth knowledge of a specific local Australian Indigenous culture and who work within one region or one specific site or tour operation.

The local cultural knowledge necessary to achieve competency in this unit may only be accessible to those individuals who identify as elders or who are authorised by local elders on behalf of their communities.

There are many different Indigenous language groups in Australia, therefore focus of cultural interpretation will vary and should ultimately be decided in consultation with elders on behalf of the local community.

Pre-Requisites

Prerequisite units	Nil

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Consult with the local community.	1.1 Consult appropriate community members about cultural tourism activities, including what information can be shared, who can give information to whom, who can receive the information, what activities are appropriate and who should be involved. 1.2 Prepare for and conduct tourism activities according to the needs and wishes of the local community. 1.3 Identify potential conflicts within the local community in relation to tourism activities and seek solutions through appropriate consultation.
2 Interpret aspects of local Australian Indigenous culture for customers.	2.1 ***Interpret cultural aspects*** of Australian Indigenous culture for customers to the level that is appropriate for the guide and the particular customer. 2.2 Take account of any copyright and intellectual property requirements in cultural interpretation. 2.3 Brief customers on culturally appropriate behaviour. 2.4 Make customers aware of copyright and intellectual property issues that may affect their own future behaviour. 2.5 Show respect for Australian Indigenous culture and values through appropriate personal behaviour during activities. 2.6 Show customers traditional and contemporary practices when appropriate, and in a manner that enhances their understanding of Australian Indigenous culture. 2.7 Use local language correctly and share with customers when appropriate. 2.8 Invite customers to actively participate and share in the Australian Indigenous ***cultural experience*** when appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- ability to provide in-depth interpretation of a specific local Australian Indigenous culture
- communication skills, including cross-cultural skills and awareness of communication from both an Indigenous and non-Indigenous perspective.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge and understanding of a specific Australian Indigenous culture within a specific regional location
- protocols for the sharing of information about specific local Australian Indigenous cultures
- copyright and intellectual property issues associated with interpreting Australian Indigenous cultural aspects for customers.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • provision of cultural interpretation for customers in a culturally appropriate and respectful manner • in-depth knowledge and understanding of the Australian Indigenous culture appropriate to the region • ability to consult with community members to determine the appropriateness of information to be shared with customers • ability to interpret different types of information covering multiple topics to ensure a breadth of knowledge of local cultural aspects • ability to interpret information about the Australian Indigenous culture with customers on numerous occasions to ensure consistency of performance.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure:

- interpretation of information about the Australian Indigenous culture within commercially realistic guiding environments, e.g. within a cultural site, on a walking tour or at a tourist site
- access to appropriate cultural sites and locations
- interpretation of information with customer groups of a size and nature that reflect the commercial environment in which the guide operates
- involvement of persons approved of by relevant local community elders in the assessment process.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge.

For this unit, methods should be chosen by relevant local community elders or those approved of by the elders.

Assessment methods should take into account that individuals may have acquired their knowledge through formal study or life experience. This would include such things as the recognition of scientific qualifications of ecotour guides and the recognition systems that relate to cultural knowledge that exists in Aboriginal and Torres Strait Islander societies.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE006A Prepare and present tour commentaries or activities
- SITTGDE008A Research and share general information on Australian Indigenous cultures.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job

SITTGDE010A Prepare specialised interpretive content on flora, fauna and landscape

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to research the specialised information on flora, fauna and landscape required by some guides for presentation to customers. It requires a depth of specialised knowledge and highlights the need for ongoing research to update and expand the guide's knowledge.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Broad general knowledge of Australia, including the breadth and depth of regional and location-specific knowledge, is covered in SITTGDE007A Develop and maintain the general and regional knowledge required by guides.

Application of the Unit

Application of the unit

The interpretation and presentation of specialised information and knowledge to visitors is a key function for many guides working in a range of locations. They must have an essential specialist knowledge base to support this delivery.

This unit has particular application to those specialist guides working within one region or one specific site or tour operation. For example, guides who work in a national park will require a detailed knowledge about the specific park landscape.

This unit applies to frontline guiding personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as site guides, interpretive guides, specialist guides, walking guides, outdoor recreation guides, museum guides, heritage guides, cultural guides, nature-based guides, tour guides, driver guides and owner-operators of small tour

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

operations.

These guiding personnel are expected to have a specialised knowledge base and must have a breadth and depth of knowledge in order to satisfy the information needs of their customers.

Funding and hours allocated to training must reflect this industry requirement. Training and assessment programs must:

- cover the broad range of knowledge covered within the required skills and knowledge section of this unit
- ensure that the depth of knowledge covered is sufficient to meet the requirements of a guide
- tailor the regional knowledge base to cover specific aspects of the local region
- allow for guides who have moved to different locations to participate in retraining.

Licensing/Regulatory Information

Not applicable.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research specialised information on flora, fauna and landscape for presentation.	1.1 Identify key sources of information on specialised topics relating to flora, fauna and ***landscape***. 1.2 Use ***formal and informal research techniques*** correctly and appropriately to access current, accurate and relevant information on specialised topics. 1.3 Identify subjects of potential customer interest, based on direct contact with customers and consultation with industry colleagues. 1.4 Make subjects of potential customer interest the focus of research activities.
2 Prepare specialised information on flora, fauna and landscape for guiding activities.	2.1 Organise information in a manner that reflects the needs of customers and the way in which information may be presented during a guiding or interpretive activity. 2.2 Identify and develop interpretive themes and messages from research to meet specific customer needs.
3 Update knowledge of specialised information on flora, fauna and landscape.	3.1 Identify and use ***opportunities to maintain current knowledge*** about specialised topics. 3.2 Incorporate updated knowledge into day-to-day guiding activities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills and techniques for acquiring and maintaining current knowledge of specialised topics
- interpretation of the specific information needs of customer groups and specific customers
- literacy skills to source, read and interpret sometimes complex information on flora, fauna and landscapes.

The following knowledge must be assessed as part of this unit:

- relationship between the guide's interpretation of knowledge and the quality of the customer experience
- sources of information on the flora, fauna and landscape
- depth of knowledge to satisfy the information needs of the customers and the expectations of the tourism operators, including the following broad knowledge base:
  - landscapes of tourism interest within a local region, such as waterways and landforms, and their general characteristics
  - key ecological terminology
  - key concepts of ecology, including biotic and physical factors, populations, numbers, food web, community relations, life cycles, succession, zonation, carbon cycle, water cycle and energy flow
- interrelationships between parts of the ecosystem
- developmental processes related to the formation of the local landscapes, including geological formations and history, soil composition and its relation to plant and animal life and water catchment areas
- principles of Gondwana theory and the impact of Gondwana on plant and animal communities
- major species of flora and fauna within the landscape, including nature of species and where it is found, roles of individual species, characteristics, commonalities, interactions between species and the environment, nutrition and life cycles and species harmful to humans
- identification techniques for flora and fauna
- environmental influences that affect the landscape, including climate and fire
- nature of human impact on the landscape, including industrial impacts
- management regimes for the local landscape, including relevant authorities and codes of practice
- Australian Indigenous perspective on the landscape.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- presentation of commentaries or activities to ensure application of the knowledge
- required breadth of knowledge of flora, fauna and landscape as specified in this unit, to a level and familiarity sufficient to:
  - develop a coherent and interesting interpretation for customers
  - answer typical questions asked by customers on given topics
- ability to source initial and updated information to meet differing customer needs and ensure that information supplied is current
- ability to incorporate this information into multiple interpretive commentaries or activities that cover multiple topics, to ensure a breadth of knowledge.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of relevant knowledge through the presentation of commentaries or activities within commercially realistic guiding environments, e.g. in a national park or on a bush walking tour
- presentation of information to, and sharing of knowledge with, customer groups of a size and nature that reflect the commercial environment in which the guide operates
- access to information sources in order to conduct research and collect sufficient information.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to prepare

EVIDENCE GUIDE

specialised interpretive content on flora, fauna and landscape. The following examples are appropriate for this unit:

- direct observation of the candidate using knowledge to deliver interpretive commentaries or activities
- questioning of group members as to the candidate's breadth of knowledge and ability to answer customer questions
- review of guiding activities undertaken as part of industry placement and training with an industry operator
- review of a research portfolio to assess the candidate's ability to research current and accurate information
- written and oral questioning or interview to assess the way in which the research process has been used
- oral or written questions to assess key knowledge requirements detailed in this unit
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Assessment methods should take into account that individuals may have acquired their knowledge through formal study or life experience. This would include such things as the recognition of scientific qualifications of ecotour guides and the recognition systems that relate to cultural knowledge that exists in Aboriginal and Torres Strait Islander societies.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE004A Lead tour groups
- SITTPPD005A Plan and develop interpretive activities.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills and techniques for acquiring and maintaining current knowledge of specialised topics
- interpretation of the specific information needs of customer groups and specific customers
- literacy skills to source, read and interpret sometimes complex information on cultural and heritage environments.

The following knowledge must be assessed as part of this unit:

- relationship between the guide's interpretation of knowledge and the quality of the customer experience
- sources of information on cultural and heritage environments
- detailed knowledge of a specific environment of visitor interest to provide a guided tour of the environment and to satisfy the information needs of the customers, including the following broad knowledge base:
  - how the environment developed and evolved
  - historically and culturally significant features of the environment, including details of any exhibits, displays or performances
  - individuals associated with the environment, their roles and impacts
  - role of the environment within the local community, both past and present
  - relationship of the specific environment to past and current Australian culture and history
  - nature and extent of use of the environment.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment Evidence of the following is essential:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

and evidence required to demonstrate competency in this unit

- presentation of commentaries or activities to ensure application of the knowledge
- required breadth of knowledge of cultural and heritage environments as specified in this unit, to a level and familiarity sufficient to:
  - develop a coherent and interesting interpretation for customers
  - answer typical questions asked by customers on given topics
- ability to source initial and updated information to meet differing customer needs and to ensure that information supplied is current
- ability to incorporate this information into multiple interpretive commentaries or activities that cover multiple topics, to ensure a breadth of knowledge.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of relevant knowledge through the presentation of commentaries or activities within commercially realistic guiding environments, such as within a cultural centre, gallery or national park
- presentation of information to and sharing of knowledge with customer groups of a size and nature that reflect the commercial environment in which the guide operates
- access to information sources in order to conduct research and collect sufficient information.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to prepare specialised interpretive content on cultural and heritage environments. The following examples are appropriate for this unit:

- direct observation of the candidate using knowledge to deliver interpretive commentaries or activities
- questioning of group members as to the candidate's breadth of knowledge and ability to answer customer questions
- review of guiding activities undertaken as part of industry placement and training with an industry operator

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- review of a research portfolio to assess the candidate's ability to research current and accurate information
- written and oral questioning or interview to assess the way in which the research process has been used
- oral or written questions to assess key knowledge requirements detailed in this unit
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Assessment methods should take into account that individuals may have acquired their knowledge through formal study or life experience. This would include such things as the recognition of scientific qualifications of ecotour guides and the recognition systems that relate to cultural knowledge that exists in Aboriginal and Torres Strait Islander societies.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE004A Lead tour groups
- SITTPPD005A Plan and develop interpretive activities.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Organise work schedules.	1.1 Interpret work schedule and define tasks. 1.2 Plan tasks, including routine and special tasks, according to workplace priorities, time required and time available. 1.3 Integrate ***work activities*** to achieve greater efficiency. 1.4 Inform team members and other relevant people of work schedules and requirements, where necessary.
2 Organise machinery, materials and equipment.	2.1 Identify required machinery, materials and equipment according to tasks and work schedule requirements. 2.2 Organise, order and obtain machinery, materials and equipment as required. 2.3 Establish sequence of use and preferred on-site positioning of machinery, materials, equipment and access ways.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Carry out work tasks.	3.1 Carry out work safely and effectively according to planned work schedules and with minimum inconvenience to customers and colleagues.
	3.2 Follow ***organisational policies and procedures***.
	3.3 Complete routine tasks and accommodate unscheduled tasks, according to priorities established within the workplace and job role.
	3.4 Meet organisational and legislative recording and reporting requirements.
4 Clean and maintain work area.	4.1 Maintain work area in clean and tidy state, clearing machinery and equipment of waste, according to organisational requirements.
	4.2 Promptly remove spills, food, refuse or other potential hazards from floors and other surfaces.
	4.3 Use, clean and maintain machines, tools and equipment according to manufacturer instructions, organisational policies and procedures and legislative requirements.
	4.4 Check machinery, materials and equipment used for damage and faults and report on these according to established procedures.
	4.5 Dispose of waste safely at regular intervals according to organisational procedures and in an environmentally responsible manner.
	4.6 Safely store equipment and consumable materials after use.
5 Respond to problems as they arise.	5.1 Clearly identify nature of problems.
	5.2 ***Find solutions*** to problems that maintain a quality outcome, minimise impact on work schedules and reflect accurate knowledge of products and processes used in the workplace.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

The following skills must be assessed as part of this unit:

- correct use of personal protective equipment
- cleaning techniques for premises, machines, tools and equipment
- organisational skills to conduct preparation and maintenance activities as a logical and time-efficient work flow
- communication and teamwork skills to liaise with other team members on work requirements
- literacy skills to complete routine workplace documentation and interpret work schedules and instruction documentation such as Material Safety Data Sheets(MSDS)
- numeracy skills to calculate the dilution requirements of cleaning products, to calculate water and fertiliser requirements and to estimate time requirements and time availability
- problem-solving skills to identify and respond to routine practical workplace challenges.

The following knowledge must be assessed as part of this unit:

- basic knowledge of workplace products and processes
- work organisation principles, including scheduling and priority setting
- OHS and legislative requirements related to daily work
- typical problems related to specific work areas, appropriate ways of avoiding them and suitable solutions
- typical cleaning and maintenance methods and schedules related to machinery, materials and equipment relevant to the work area
- the essential features of and safe practices for using common hazardous substances used during cleaning and maintenance activities and in particular substances used by the organisation e.g. cleaning, pest and disease control products
- the environmental impacts of cleaning premises and maintaining gardens and minimal impact practices to reduce these especially those that relate to resource, water and energy use
- correct and environmentally sound disposal methods for waste and in particular for hazardous substances and plant materials that have a propensity to propagate weeds.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

EVIDENCE GUIDE

performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to plan and organise daily work for a variety of roles and contexts related to the particular job under typical workplace time constraints
- ability to work safely in compliance with OHS procedures
- ability to follow established procedures and interpret, understand and act on instructions
- ability to communicate effectively in the working environment.

Context of and specific resources for assessment

Assessment must ensure:

- access to all necessary equipment, tools and materials
- use of Material Safety Data Sheets (MSDS).

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate carrying out daily work tasks in an organised manner
- problem solving exercises in prioritising work and dealing with unscheduled tasks or special projects
- projects to develop work plans and schedules
- direct observation of the candidate maintaining a clean and tidy workplace
- oral or written questions about safety issues, and maintenance of tools, equipment and materials
- review of portfolios of evidence and third party workplace reports of the candidate's on-the-job performance.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

assessment	other relevant units that make up the skill set or qualification.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Work activities may include:	• daily routines • periodic routines • ad hoc activities • special projects.
Organisational policies and procedures may relate to:	• use of personal protective equipment during daily activities • cleaning, tidying and checking of work area, including regularity • using, maintaining and storing tools, machinery, materials and equipment • disposal of waste materials, especially hazardous substances • recycling appropriate waste materials • presentation of public areas • work schedules • problem-solving • work roles and responsibilities.
Finding solutions may relate to:	• maintaining quality outcomes • minimising impact on work schedules • reflecting accurate knowledge of workplace products and processes • ensuring that solutions are consistent with workplace priorities and requirements

SITTHPR302B Plan and organise in-house recreational activities

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to organise in-house recreational activities for customers in enterprises such as a resorts, holiday parks, cruise ships or attractions.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement

Application of the Unit

Application of the unit

This unit applies to individuals who plan, organise and monitor in-house recreational activities. This may include activities officers, senior operational personnel or managers. The unit covers both indoor and outdoor recreational activities for both adults and children, but does not include tours or other external activities and events. These skills and knowledge are covered in specialist units of competence for Tour Operations, Guiding and Events.

The unit also does not include the actual supervision of activities, which should be undertaken by suitably qualified or licensed personnel.

Licensing/Regulatory Information

ELEMENT	PERFORMANCE CRITERIA
	availability and delivery within planned timeframes.
	1.6 Prior to use, ensure that checks on all equipment are carried out, and check supplies for correct quantity and quality.
	1.7 Identify any ***potential hazards or safety issues for specific activities*** and establish a risk management approach.
	1.8 Identify potential threats to successful undertaking of activities and establish contingency plans.
	1.9 Provide advice to customers and colleagues about activities available and organise booking or ticketing.
2 Implement recreational activities.	2.1 Set up activities, ensuring required resources, personnel and facilities are in place.
	2.2 Verify bookings and arrangements made internally or externally.
	2.3 Provide and or complete required ***documentation*** related to participation and where necessary, distribute copies to relevant others.
	2.4 Provide or arrange required instructions and training for specific activities.
	2.5 Arrange supervision of recreational activities as required.
	2.6 Advise customers politely about ***acceptable behaviour in different environments and communities*** prior to entering the area.
3 Monitor and review recreational activities.	3.1 Monitor activities to ensure relevance, suitability and safety for customers, staff and the enterprise.
	3.2 Obtain feedback from customers, operational staff and external operators, making any necessary changes or adjustments to activities.
	3.3 Complete any required documentation following activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to liaise with both customers and colleagues on practical and operational matters, and to provide information on the range of available activities to customers
- literacy skills to both interpret and develop activity documentation
- numeracy skills to estimate costs and maintain simple budgets
- planning, organisational and administrative skills to coordinate the complete process of organising a range of recreational activities
- problem solving skills to identify and respond to a range of familiar and unfamiliar organisational and operational challenges

The following knowledge must be assessed as part of this unit:

- range of available activities and requirements and conditions for their provision
- typical safety issues and hazards related to specific activities
- local area knowledge including activities, amenities, transport and other services available
- typical co-ordination and administration procedures and systems for the organisation of recreational activities in an in-house context
- risk management issues to be considered in planning and organising activities
- cross-cultural awareness and understanding of the social and cultural aspects of the local host community
- local customs and courtesies
- environmental impacts and minimal impact practices to be considered by customers when enagaging in in-house recreational activities
- legislative and regulatory obligations for a range of different activities, including those relating to OHS, environmental and local council requirements.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to plan, organise and monitor a range of different activities which meet the requirements of target markets, enterprise policies and goals
- ability to work within available resources, budgets, regulatory requirements and other considerations
- consideration of and planning for potential risks and any safety issues
- identification and adherence to all regulatory requirements related to recreational activities, including OHS.

Context of and specific resources for assessment

Assessment must ensure:

- access to sites, facilities and resources required for a typical range of recreational activities.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of recreational activities programs developed and conducted by the candidate
- review of required documentation completed by the candidate
- written and oral questions related to the planning, administration, conduct and review of recreational activities, OHS issues, and regulatory requirements
- project to organise and conduct a recreational activities program for an enterprise
- review of portfolios of evidence and third-party workplace reports of the candidate's on-the-job performance.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Guidance information for assessment

Employability skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

Recreational activities may include:	• creative activities, e.g. art, dance, music, drama • games • sports, both team and individual • health and fitness activities • storytelling • fishing • orienteering • treasure hunts
Regulatory or licensing requirements may include:	• qualifications and licences required for personnel monitoring or supervising certain activities • permits and licences required for specific activities such as fishing and diving • council or statutory permission for certain activities, use of facilities or venues • OHS, public liability and duty of care requirements • operation of equipment and vehicles • legislative requirements regarding activities and where they may be undertaken such as using jet skis, speed boats, off road vehicles etc.
Personnel may be internal or external and may include:	• staff to conduct, control, direct, supervise and operate • specialists or experts • tradespersons • contractors.
Resources may be sourced from in-house or external providers and may include:	• essential materials and equipment • amenities and structures • furniture • vehicles and transport

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- food and beverage
- information sheets and timetables
- guidelines and regulations
- OHS instructions and checklists.

Potential hazards or safety issues for specific activities may include:

- inclement weather
- bushfires
- rough seas
- wild life
- illness or accidents
- strikes and transport failure
- faulty equipment
- unavailability of staff or key personnel.

Documentation may include:

- registration forms
- waiver and indemnity forms
- receipts and invoices
- contracts
- insurance coverage
- reports
- permits and licences
- flyers and marketing materials.

Acceptable behaviour in different environments and communities may involve:

- briefing customers on ways to ensure minimal negative impacts on the environment
- providing advice on minimal impact practices that relate to such things as:
  - use of tracks
  - noise
  - souveniring
  - interaction with wildlife
- briefing customers on local customs and courtesies
- briefing customers on ways to communicate with and avoid insult to local communities.

SITTHPR303A Tow and site a recreational vehicle safely

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to safely tow and site a recreational vehicle in off-road spaces.

This unit assumes the driver possesses a current driving licence. Driving must be carried out in compliance with the licence requirements and regulations of the relevant state or territory roads and traffic authority.

Application of the Unit

Application of the unit

This unit applies to individuals whose job role involves towing and siting a recreational vehicle. This could include people who work in holiday parks or in the manufacture, service, repair or sale of recreational vehicles.

Recreational vehicles may include pop tops, expanda or slide out, full van, cross-country or an off road all-terrain caravans; camper or tent trailers; five-wheelers; slide-on campers or campervans.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare for towing of recreational vehicle.	1.1 Calculate the gross weight of the recreational vehicle and determine the aggregate mass.
	1.2 Check and confirm the towing capacity of the towing vehicle and adhere to tow-bar capacity.
	1.3 Attach the recreational vehicle to ***towing vehicle*** in accordance with manufacturer's and state or territory specifications, requirements and regulations.
	1.4 Conduct ***pre-operational checks*** on towing vehicle and recreational vehicle, taking account of all safety considerations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Site and move recreational vehicle.	2.1 Safely manoeuvre recreational vehicle to required location.
	2.2 Identify ***obstacles or hazards*** and remove or avoid as appropriate, ensuring effective communication with others.
	2.3 Position recreational vehicle ensuring it is level and parallel and within reach of all required equipment by using stabilising fixtures.
	2.4 Move recreational vehicle from a site, disconnecting power heads, water pipes and electrical leads, ensuring stabilising fixtures are in position prior to commencing the tow.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to advise others of safety issues associated with vehicle towing and siting
- literacy skills to interpret regulations and requirements in relation to vehicle towing and siting
- numeracy skills to make calculations required for towing and siting
- technical skills to use towing, siting and other recreational vehicle equipment.

The following knowledge must be assessed as part of this unit:

- weight-to-vehicle towing ratios set by state and territory authorities and manufacturer requirements
- pre-towing checking procedures
- typical challenges associated with the towing and siting of recreational vehicles, and ways to address these
- general duty-of-care requirements.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- safe manoeuvring, towing and siting of a range of different recreational vehicles according to regulatory requirements
- applying OHS policies and procedures relevant to driving and towing a recreational vehicle.

Context of and specific resources for assessment

Assessment must ensure:

- access to a range of different recreational vehicles and off road locations to tow and site recreational vehicles.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate preparing and towing a recreational vehicle and manoeuvring it into a space
- oral and written questions to test knowledge of relevant regulatory requirements
- review of portfolios of evidence and third party workplace reports of the candidate's on-the-job performance.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Guidance information for assessment

Employability skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification.

SITTIND001B Develop and update tourism industry knowledge

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and update current and emerging information on the tourism industry, including industry structure, current technology and key environmental, community, legal and ethical issues that must be considered and applied by tourism industry personnel in their day-to-day work. The unit focuses on the ability to source and comprehend general tourism industry information and covers the initial and ongoing development of a person's required knowledge base. This information underpins effective performance in the tourism industry. More specialised and advanced tourism research and management knowledge is found in other units.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key function for all people working in the tourism industry who require an essential and broad knowledge of the tourism industry to support all work activities. This unit applies to individuals working within any tourism industry sector, in any location and for any tourism organisation type.

It is relevant to those individuals working in any tourism operational and management role.

ELEMENT	PERFORMANCE CRITERIA
	enhance the quality of work performance.
2 Source and apply information on legal and ethical issues that impact on the tourism industry.	2.1 Obtain information on ***legal issues*** to assist effective work performance. 2.2 Conduct day-to-day tourism orgsnisation activities according to legal obligations and ***ethical industry practices***.
3 Source and apply information on tourism industry technology.	3.1 Source and access information on current and emerging ***technologies that impact on the tourism organisation process***. 3.2 Identify the potential effects of different technologies on the tourism organisation process. 3.3 Apply knowledge of current and emerging technology in day-to-day work activities.
4 Update personal and organisational knowledge of the tourism industry.	4.1 Identify and use a range of ***opportunities to update knowledge*** of the tourism industry. 4.2 Monitor ***current issues of concern*** to the industry. 4.3 Share updated information with colleagues, according to organisational procedures, and incorporate into day-to-day work activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to identify, interpret and sort relevant information
- communication skills including active listening and questioning to obtain information and to provide a verbal summary of information
- literacy skills to read and comprehend the content of plain English information documents about legal issues, industry accreditation schemes and codes of conduct

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- writing skills to note take, summarise and record information in basic documents such as information sheets, portfolios and files.

The following knowledge must be assessed as part of this unit:

- sources of general information on the tourism industry
- structure of the tourism industry; the functions, key characteristics and business interrelationships of the different sectors of the tourism industry including the distribution roles of the following sectors:
  - accommodation
  - attractions and theme parks
  - tour operators
  - inbound and outbound tour wholesalers
  - retail travel agents
- the general nature of allied and crossover industries including hospitality, meetings, incentives, conferences and events
- the existence and primary functions of the major cross-industry and sector-specific industry associations especially those with which the business has a relationship
- the existence and primary functions of trade unions in the industry
- the existence and primary functions of local, regional, state and national tourism information service and marketing organisations
- the existence and primary functions of tourism research bodies
- the existence and key characteristics of occupational licensing, codes of conduct or ethics and industry accreditation schemes in the tourism industry, the impacts of compliance and non-compliance and the roles and responsibilities of individual staff members in these quality assurance processes
- the existence and basic aspects of state, territory and local council laws that impact on tourism operations and actions that must be adhered to by tourism businesses, in particular laws that cover:
  - equal employment opportunity (EEO)
  - anti-discrimination
  - occupational health and safety and workers' compensation
  - workplace relations
  - child sex tourism
  - the delivery of tourism products in Queensland under the Queensland Tourism Services Act (2003)
  - legal liability and duty of care of customers
  - environmental protection (This would include requirements that must be met by tourism operators when delivering services.)
  - local community protection (This would include land ownership, management and access requirements that must be met by tourism operators when delivering services.)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- consumer protection (This would include refund requirements that must be met by tourism businesses, terms and conditions of quotations and cancellation fees.)
- responsible service of alcohol
- food safety

- current and emerging technology used in the tourism industry, including e-business.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to source initial and updated tourim industry information and apply this to day-to-day activities to maximise effective performance in specific tourism sector contexts • general knowledge of the tourism industry, including main roles, functions and interrelationships of different sectors, with a more detailed knowledge of issues that relate to a specific sector or workplace • general knowledge of the key environmental, community, legal and ethical issues for the tourism industry.
Context of and specific resources for assessment	Assessment must ensure: • access to a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in sourcing industry information • access to information sources in order to conduct research and collect sufficient information • access to industry association membership information, codes of conduct and accreditation information • access to plain English documents that describe key tourism and general workplace legislation.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to develop and update tourism industry knowledge. The following examples are appropriate for this unit:

- projects to research differing aspects of the tourism industry and delivery of the sourced information in a brief written or oral presentation
- holistic tourism planning project activities that allow the candidate to demonstrate the application of knowledge to specific tourism industry contexts and situations
- case studies and problem-solving exercises to assess application of knowledge to different situations and contexts
- written and oral questioning or interview to test knowledge of different sectors of the tourism industry and their interrelationships, the key content of legislation and industry codes of conduct
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended for example:

- SITXADM002A Source and present information
- SITXCOM004A Communicate on the telephone.

Guidance information for assessment

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Sources of information on and ***opportunities to update knowledge*** may include:

- formal and informal research
- media
- reference books
- legislation or plain English publications describing the law and responsibilities to comply
- libraries
- unions
- industry associations and organisations
- industry journals
- computer data, including internet
- personal observations and experience
- informal discussions and networking with colleagues
- industry seminars
- training courses
- familiarisation tours of tourism destinations and facilities
- participation or membership in professional industry associations
- participation in industry accreditation schemes
- use of industry codes of conduct or ethics.

The ***tourism industry*** involves a range of sectors and businesses including:

- accommodation
- attractions
- transport
- retail travel
- tour wholesaling
  - inbound tour operators
  - outbound wholesalers
- tour operations
- meetings, incentives, conventions and events
- tour guiding
- information services and promotion:
  - visitor information centres, regional, state and national tourism offices.
- coordination
  - industry associations, councils, taskforces, research bodies.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Information of relevance to the ***the tourism industry must include***:

- different tourism markets and their relevance to industry sectors
- relationships between tourism and other industries, including:
  - events
  - hospitality
  - entertainment
  - arts
  - sports
  - agriculture
  - conservation
  - science and research
  - retail
- different sectors and businesses within the industry, their interrelationships and the services available in each sector
- major tourism industry bodies and associations
- economic and social significance of the tourism industry, which may relate to:
  - employment
  - effect on local amenities and facilities
  - population change due to tourism development
  - community role in tourism
- role of and impacts on local communities
- environmental issues for tourism, including:
  - protection of natural and cultural integrity
  - minimal impact operations
  - environmental sustainability
  - waste management
  - energy-efficient operations
  - land ownership
  - land access and usage
- industrial relations
- specific features of the local and regional industry
- career opportunities within the industry
- roles and responsibilities of individual staff members in a successful tourism business, including ethical practices and quality assurance.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Enhancing the quality of work performance may involve:

- making contacts with networks for obtaining key information to develop, deliver and improve improve tourism operations
- suggesting new and improved ways of doing things
- performing work duties within legal, ethical and social guidelines to ensure smooth tourism operations
- improving skills, knowledge and productivity to improve tourism operations by accessing and attending industry professional development courses or activities.

Legal issues may include:

- consumer protection
- EEO
- anti-discrimination
- workplace relations
- public liability and duty of care
- licensing
- land ownership, management and access
- environmental management
- risk management
- OHS
- child sex tourism
- Queensland Tourism Services Act (2003).

Ethical industry practices may realate to:

- maintaining the rights and lifestyle conditions of local community residents
- agreed compliance with codes of conduct, practice or ethics
- truth and honesty regarding all information given to customers
- product recommendations
- declaration of commissions, fees and other charges
- subcontracting and provision of services as promoted
- pricing
- procedures for payment of commissions
- bookings at venues
- overbooking
- confidentiality of customer information
- tipping

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• familiarisations • gifts and services free of charge • preferred product arrangements.
Technologies that impact on the tourism organisation process may relate to:	• current and emerging industry technology, including e-business • internal and industry wide reservation, operations and financial and tracking systems • project management systems • computer-aided design (CAD) systems.
Issues of concern to the industry may relate to:	• maintaining organisational and industry profitability by productuctivity and pricing flexibility • industry initiatives • government initiatives • emerging markets • environmental and social issues • labour issues • industry expansion or retraction.

SITTIND202B Develop and update caravan industry knowledge

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and update current and emerging information on the holiday parks and caravan industry, including industry structure, current technology and key environmental, community, legal and ethical issues that must be considered and applied by caravan industry personnel in their day-to-day work. The unit focuses on the ability to source and comprehend general caravan industry information and covers the initial and ongoing development of a person's required knowledge base. This information underpins effective performance in the caravan industry. More specialised and advanced tourism research and management knowledge is found in other units that also apply to holiday parks.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key function for all people working in the holiday parks who require an essential and broad knowledge of the holiday park and caravan industry to support all work activities. This unit applies to individuals working in any operations or management role within any holiday park in any location.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Source and apply general information on the structure and operation of the holiday park and caravan industry.	1.1 Identify ***sources of information*** to understand the structure and operation of ***the holiday park and caravan industry***. 1.2 Access and comprehend specific ***information*** of relevance to the holiday park and caravan industry. 1.3 Access and use knowledge of the holiday park and caravan industry to ***enhance the quality of work performance***.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Source and apply information on legal and ethical issues that impact on holiday park operations.	2.1 Obtain information on ***legal issues*** to assist effective work performance. 2.2 Conduct day-to-day holiday park operational activities according to legal obligations and ***ethical industry practices***.
3 Source and apply information on industry technology for holiday parks.	3.1 Source and access information on current and emerging ***technologies that impact on the operation of holiday parks***. 3.2 Identify the potential effects of different technologies on the ***operation of*** holiday parks. 3.3 Apply knowledge of current and emerging technology in day-to-day work activities.
4 Update personal and organisational knowledge of the holiday park and caravan industry.	4.1 Identify and use a range of ***opportunities to update knowledge*** of the holiday park and caravan industry. 4.2 Monitor ***current issues of concern*** to the industry. 4.3 Share updated information with colleagues, according to organisational procedures, and incorporate into day-to-day work activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge for this unit.

The following skills must be assessed as part of this unit:

- research skills to identify, interpret and sort relevant information
- communication skills including active listening and questioning to obtain information and to provide a verbal summary of information
- literacy skills to read and comprehend the content of plain English information documents about legal issues, industry accreditation schemes and codes of conduct
- writing skills to note take, summarise and record information in basic documents such as

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

information sheets, portfolios and files.

The following knowledge must be assessed as part of this unit:

- sources of general information on the holiday park and caravan industry
- the structure of the caravan industry, the primary roles, responsibilities and business interrelationships of the major caravan industry sectors including:
  - holiday parks - types of accommodation, maintenance, service and repair, emergency and safety requirements, environmental issues including waste and water management, energy conservation, rating systems, factors which contribute to the development of successful caravan parks, holiday park and caravan industry trends, social profiles of caravaners and campers
  - manufacturing - main manufacturers of recreational vehicle (RV) retailers in Australia and how they interrelate with the rest of the industry; key types of recreational vehicles made in Australia, their key characteristics; current and emerging trends in RV products
  - service - key providers of specialised recreational vehicle servicing; types of services offered; links with manufacturers, retailers and holiday parks
  - caravan retailers - main recreational vehicle retailers in the local area; types of after sales services offered
- the general nature of and links to the wider tourism industry and types of organisations providing bookings including:
  - tour operators
  - inbound tour operators
  - retail travel agents
  - vistor information centres
  - other local accommodation providers
  - attractions
- the existence and primary functions of the major industry associations especially those with which the business has a relationship
- the existence and primary functions of trade unions in the industry
- the existence and primary functions of local, regional, state and national tourism information service and marketing organisations
- the existence and key characteristics of occupational licensing, codes of conduct or ethics and industry rating or accreditation schemes in the holiday park industry, the impacts of compliance and non-compliance and the roles and responsibilities of individual staff members in these quality assurance processes
- the existence and basic aspects of state, territory and local council laws that impact on holiday park operations and actions that must be adhered to by holiday park operators, in particular laws that cover:
  - equal employment opportunity (EEO)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- anti-discrimination
- occupational health and safety and workers' compensation
- workplace relations
- legal liability and duty of care of customers
- environmental protection (This would include requirements that must be met by holiday park operators when delivering services.)
- local community protection (This would include land ownership, management and access requirements that must be met by holiday park operators when delivering services and requirements to maintain the lifestyle of neighbouring residents.)
- consumer protection (This would include refund requirements that must be met by holiday parks, terms and conditions of quotations and cancellation fees.)
- responsible service of alcohol
- food safety
- current and emerging technology used in holiday parks, including e-business.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to source initial and updated holiday park and caravan industry information and apply this to day-to-day activities to maximise effective performance • general knowledge of the holiday park and caravan industry, including main roles, functions and interrelationships of different sectors, with a more detailed knowledge of issues that relate to holiday parks • general knowledge of the key environmental, community, legal and ethical issues for the holiday park and caravan industry.
Context of and specific	Assessment must ensure:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

resources for assessment

- access to a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in sourcing industry information
- access to information sources in order to conduct research and collect sufficient information
- access to industry association membership information, codes of conduct and rating and accreditation information
- access to plain English documents that describe key holiday park and general workplace legislation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- projects to research differing aspects of the holiday park and caravan industry and delivery of the sourced information in a brief written or oral presentation
- holistic holiday park planning project activities that allow the candidate to demonstrate the application of knowledge to holiday park operations
- case studies and problem-solving exercises to assess application of knowledge to different situations and contexts
- written and oral questioning or interview to test knowledge of different sectors of the caravan industry and their interrelationships, the key content of legislation and industry codes of conduct
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended for example:

- SITXADM002A Source and present information
- SITXCOM004A Communicate on the telephone.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

Sources of information on and ***opportunities to update knowledge*** may include:

- formal and informal research
- media
- reference books
- legislation or plain English publications describing the law and responsibilities to comply
- libraries
- unions
- industry associations and organisations
- industry journals
- computer data, including internet
- personal observations and experience
- informal discussions and networking with colleagues
- industry seminars
- training courses
- familiarisation tours of holiday park facilities
- participation or membership in professional industry associations
- participation in industry accreditation schemes
- use of industry codes of conduct or ethics.

The ***holiday parks and caravan industry*** involves a range of sectors and businesses including:

- holiday parks and caravan parks
- recreational vehicle manufacturing
- recreational vehicle parts and components manufacturing and supply
- recreational vehicle servicing
- recreational vehicle and accessories retailing

Information of relevance to the holiday park and caravan industry must include:

- local economic and social significance of holiday park operations, which may relate to:
  - employment
  - community role in tourism
- role of and impacts on local communities
- different holiday park markets and trends
- social profiles of caravaners and campers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- types of accommodation available in holiday parks
- relationships between holiday park operations and other industries, including:
  - recreational vehicle manufactuers, retailers and service centres
  - tourism
  - hospitality
  - entertainment
  - sports
  - hoticulture
  - conservation
  - tourism information centres and tourism marketing bodies
- different sectors and businesses within the caravan industry, their interrelationships and the services available in each sector
- major holiday park and caravan industry bodies and associations
- caravan park rating and accreditation systems and their application in metropolitan, regional and Australia-wide locations
- environmental issues for holiday park operations, including:
  - protection of natural and cultural integrity
  - minimal impact operations
  - environmental sustainability
  - waste management
  - energy-efficient operations
  - land ownership
  - land access and usage
- industrial relations
- specific features of the local and regional industry
- career opportunities within the industry
- roles and responsibilities of individual staff members in a successful holiday park business, including ethical practices and quality assurance.

Enhancing the quality of work performance may involve:

- making contacts with networks for obtaining key information to develop, deliver and improve improve holiday park operations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- suggesting new and improved ways of doing things
- performing work duties within legal, ethical and social guidelines to ensure smooth holiday operations
- improving skills, knowledge and productivity to improve tourism operations by accessing and attending industry professional development courses or activities.

Legal issues may include:

- consumer protection
- EEO
- anti-discrimination
- workplace relations
- public liability and duty of care
- licensing
- land ownership, management and access
- environmental management
- risk management
- OHS.

Ethical industry practices may realate to:

- maintaining the rights and lifestyle conditions of local community residents
- agreed compliance with codes of conduct, practice or ethics
- truth and honesty regarding all information given to customers
- product recommendations
- declaration of commissions, fees and other charges
- subcontracting and provision of services as promoted

SITTPPD001B Research, assess and develop tourism products

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to manage product development strategically within tourism and hospitality organisations. It covers the strategic development of the organisation's product range and requires the ability to research the market, analyse issues relevant to establishing the product, determine a profitable selling price, establish the product, and monitor and evaluate its success.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

This unit has a focus on product planning processes. It underpins other specialised Planning and Product Development units that look at the specific and additional skills required to meet particular environmental or cultural requirements:

- SITTPPD006B Plan and develop ecologically sustainable tourism operations
- SITTPPD007A Plan and develop culturally appropriate tourism operations.

Negotiating with suppliers for any product component is covered in SITXMGT006A Establish and conduct business relationships.

SITTPPD003B Source and package tourism products, takes a less strategic and more operational focus to product development.

Application of the Unit

Application of the unit

This unit describes a key product planning function for a diverse range of tourism and hospitality products and services and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

applies to the full range of industry sectors.

The unit applies to the development of new or enhanced tourism products. Increasingly, tourism operators are choosing to provide specialised tourism products. This unit describes the generic tourism product planning process that applies to the development of any style or category of product for the domestic or international customer, covering any international or Australian destination.

Product planning involves a strategic focus on the overall and long-term operation of the tourism product.

This unit applies to senior tourism and hospitality industry personnel who operate autonomously and have strategic tourism planning and product development roles. These roles would include product development manager, marketing manager, operations or general manager, regional tourism manager, account manager, events manager, resort or hotel manager and owner-operator of any type of tourism business.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research the market.	1.1 Focus the research of potential ***tourism products*** within the context of the overall business plan and marketing focus of the organisation.
	1.2 Identify and access general ***information sources*** for tourism, tourism market trends, and distribution and marketing networks.
	1.3 Consult with and incorporate input from internal colleagues and ***external stakeholders*** in the research phase.
	1.4 Conduct research to identify current market trends, needs, and ***product and service gaps*** and analyse the potential for future product development.
	1.5 Identify a range of product development opportunities based on review of the market place and market needs.
	1.6 Identify distribution and marketing networks that would support the proposed tourism product and analyse the ability to successfully market.
2 Analyse issues relevant to establishing the product.	2.1 Identify and analyse product preferences and requirements of different consumer markets, including those with special needs.
	2.2 Consult external stakeholders on customer and tourism industry service and quality expectations for tourism products and services.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.3 Identify and assess ***external issues that impact on establishing a product***.
	2.4 Assess suitability of destinations at which product will be delivered for accessibility and availability of services that will meet preferences and requirements of target market.
	2.5 Conduct ***a self-assessment of organisation's capability to provide proposed product*** and identify additional resources required to establish and deliver the product.
	2.6 Consider issues relating to product life cycle.
3 Determine a profitable selling price.	3.1 Identify all ***expenditure items*** involved in delivering the tourism product to determine the nett delivery cost.
	3.2 Identify organisations that will be involved in the product distribution network and the commission or mark-up structures that would apply.
	3.3 Incorporate required distributor commissions or mark-ups, and determine required profit margin and mark-up for profit.
	3.4 Make reasonable cost adjustments to ensure market take-up of price-competitive product.
	3.5 Assess cost-effectiveness and profitability of a range of proposed products and choose products that will provide the highest yield.
	3.6 Clearly and accurately document the full range of pricing structures.
4 Establish the product.	4.1 Communicate a clear, scheduled implementation plan for all personnel involved in establishing the operational details of the product.
	4.2 Establish all required marketing activities to promote the product.
	4.3 Where appropriate, test new products and services in the marketplace prior to full implementation.
5 Monitor and evaluate the success of the	5.1 Monitor product development initiatives in terms of response in the marketplace; feedback from the distribution network, staff and customers; and changes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
product.	in the internal or external environment that may impact on plans, cost-effectiveness and profitability. 5.2 Identify and action changes required in a timely manner and according to any contractual obligations. 5.3 Communicate changes to all relevant colleagues, customers and distributors.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- market research skills
- critical thinking skills to facilitate rational and logical analysis of all input from colleagues and external stakeholders and to research information collected
- high-level communication skills to conduct consultation with internal and external stakeholders
- high-level literacy skills to read complex tourism research documents that relate to tourism trends, market statistics, information on market preferences and requirements
- numeracy skills to enable complex budgetary costings, calculate a range of different commission and mark-up structures and assess the profitability of various product options.

The following knowledge must be assessed as part of this unit:

- detailed knowledge of the tourism industry, including structure and interrelationships, tourism industry networks and information sources
- in-depth knowledge of distribution and marketing networks, especially those that would support the proposed tourism product
- in-depth knowledge of main stakeholders in local, regional, state and national tourism organisations and the structures of these organisations at each level
- current market trends, products and service styles that would meet certain market requirements and customer and tourism industry service and quality expectations for tourism products
- in-depth knowledge of the current tourism product base for the proposed destination and market to be serviced
- competitors' current and proposed products and services
- in-depth knowledge of the destination at which the product will be delivered

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- the primary components of laws that impact on tourism operations and actions that must be adhered to by tourism operators when delivering services, in particular laws that cover:
  - child sex tourism
  - legal liability insurance requirements and duty of care of customers
  - environmental protection (This would include required environmental licences, permits, accreditation and minimal impact practices.)
  - local community protection (This would include land ownership, management and access requirements.)
  - consumer protection (This would include refund requirements that must be met by tourism businesses, terms and conditions of quotations and cancellation fees.)
  - responsible service of alcohol
  - food safety
- understanding of the financial operating costs of the organisation, desired profit margins and achievement of high yield in order to determine an appropriate selling price
- industry commission and mark-up procedures and rates appropriate to the varying organisations within the distribution network
- planning and project management.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to research, assess and develop tourism products for a specific tourism operation and to monitor the product's success • ability to fully research, comprehend and analyse information on the full range of issues that relate to the development of the tourism product • detailed knowledge of the tourism industry, including structure and interrelationships, tourism industry networks, information sources and distribution and marketing networks • ability to consult and communicate with colleagues and external stakeholders

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- project or work activities conducted over a commercially realistic period of time so that the research, analysis and monitoring aspects of this unit can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped office environment using appropriate computers, communication technology, information programs and publications to facilitate the processes involved in developing tourism products
- access to an operation for which tourism products would be developed or to comprehensive and sufficient information about that tourism operation to allow the candidate to fully research, assess and develop tourism products
- access to current tourism industry data and information sources about tourism market trends and appropriate product match
- involvement of key stakeholders, both internal and external, so that consultation can be achieved
- use of legislation or plain English documents produced by regulators.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to research, assess and develop tourism products. The following examples are appropriate for this unit:

- project activities to research, assess and develop tourism products in conjunction with an industry operator
- project activities to research, assess and develop a tourism product for the training college or local community
- review of completed product costing and pricing structures for specific products
- case studies to assess the candidate's ability to assess markets with differing product preferences and requirements
- case studies to assess the candidate's ability to evaluate tourism products and markets with different distribution and marketing networks
- written and oral questioning or interview to test knowledge such as structure of the tourism industry,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	tourism industry interrelationships, distribution networks, mark-up and commission structures and legal requirements • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITXMGT003A Manage projects • SITTPPD002A Research tourism data • SITTPPD003B Source and package tourism products • SITTPPD006B Plan and develop ecologically sustainable tourism operations • SITTPPD007A Plan and develop culturally appropriate tourism operations.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Tourism products offered within the tourism industry are diverse and may include:	• products designed for:
	  • domestic tourists travelling within Australia
	  • international tourists travelling within Australia (inbound)
	  • Australians travelling internationally (outbound)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- group tours
- touring products for individuals
- a single product or service
- multiple products and services making up a complete tour package
- brochured tours
- day tours
- extended touring programs
- specially tailored itineraries
- inclusive products or optional touring products
- series tours
- incentive tours
- meetings and conferences
- special events
- cultural events
- sporting events
- transportation
- transfers
- accommodation
- food, beverage and catering
- entertainment
- cruises
- attractions or sites
- exhibits
- guest activities and shows
- tour guiding services
- adventure activities
- functions
- venue facilities
- convention facilities.

Information sources may include:

- local, regional, state or territory, and federal tourism organisations
- local, regional, state or territory, and federal tourism and tourism marketing plans
- other government agencies
- government funding bodies
- government and private tourism research bodies
- tourism industry associations
- destination marketing companies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- others in the distribution network, which will vary but can include:
  - tour operators
  - tour wholesalers
  - inbound tour operators
  - retail travel agencies
  - event management companies
  - professional conference organisers
- business management and marketing consultancies
- reports on tourism
- privately owned tourism businesses
- national parks and land management agencies
- other local communities
- local people
- internet.

External stakeholders may include:

- local, regional, state or territory, and federal tourism organisations
- other government agencies
- privately owned tourism businesses
- tourism industry associations
- tourism marketing organisations
- destination marketing companies
- business management and marketing consultancies
- others in the distribution network, which will vary but can include:
  - tour operators
  - tour wholesalers
  - inbound tour operators
  - retail travel agencies
  - event management companies
  - professional conference organisers
- local communities and cultural groups within the destination of the product
- local businesses within the destination of the product
- state, territory or local councils which manage the implementation of laws to protect the environment and local community
- land management and protection authorities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- special interest groups
- licensing or regulatory authorities.

Product and service gaps may include:

- gaps within the existing product range
- gaps in product not currently delivered by any competitor or potential competitor
- gaps in products delivered at current or prospective destinations
- specific consumer markets not currently serviced by any competitor or potential competitor
- markets for which level of demand is not being met.

Assessment of external issues that impact on establishing a product may involve:

- required legal compliance especially consumer protection
- requirements for public liability and duty of care
- reliability of other tourism operators, who supply a component of any packaged tourism product, in complying with laws especially those that relate to responsible service of alcohol, food safety , environmental and local community protection
- reliability of other tourism operators in providing promised products and services
- technological developments
- general industry trends
- environmental and local community protection credentials of tourism operators whose product will be a component of any packaged tourism product.

Self-assessment of organisation's capability to provide proposed product may involve consideration of:

- the range of products currently offered and resources required to diversify
- the product preferences and requirements of target market
- resources required to establish a new product
- the budgetary constraints involved in providing the product and applying a profitable selling price
- current environmental credentials and the need to extend these to deliver tourism products in environmentally sensitive areas
- any legislative, permit, licence or accreditation requirements especially those that relate to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

environmental and local community protection
- ability of environmentally or culturally sensitive destinations to sustain a tourism operation
- the organisation's ability to operate tours and to sustain the natural and cultural environment by use of minimal impact practices
- a documented risk assessment of all aspects of providing required products including control measures.

Expenditure items may include:
- supply of all component products and services that make up the product
- capital costs of the product developer and proportion attributed to the product
- fixed costs that relate to delivery of the product
- variable costs
- marketing costs
- human resource costs for all personnel involved in planning and delivering the product
- business insurances
- licensing and permit fees
- proportion of product developer's operating costs attributed to operating the product.

SITTPPD002A Research tourism data

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct formal tourism research. It requires the ability to identify research needs, conduct the research and accurately analyse and interpret the data.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key research function for a diverse range of tourism and hospitality products and services and applies to the full range of industry sectors.

Research may be primary or secondary and may be conducted to inform a range of activities and planning processes. It may be required to assist with customer service, planning and product development, sales and marketing and sales.

Researching tourism data would normally apply to senior tourism and hospitality industry personnel who operate autonomously and have a strategic management role. Research could be undertaken by those who operate with some level of autonomy or under limited supervision and guidance from others, e.g. senior operative personnel and supervisors.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify research needs.	1.1 Identify specific research needs based on current business focus and needs of the organisation.
	1.2 Develop objectives for the ***research*** in consultation with relevant colleagues and authorities.
2 Conduct research.	2.1 Select ***research method*** according to objectives and available resources.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.2 Prepare accurate documentation that incorporates sound research methodologies where appropriate.
	2.3 Identify the need for and obtain specialist assistance where appropriate.
	2.4 Identify and use appropriate ***information sources*** and technology to assist in the research process.
	2.5 Conduct research within agreed timeframes and according to agreed methodology.
	2.6 Identify the need for adjustments to the research process and make them when required.
3 Interpret and apply research results.	3.1 Analyse and interpret data accurately.
	3.2 Use results to inform current activities and future planning.
	3.3 Communicate research results containing recommendations and observations to appropriate colleagues and external agencies in a timely manner.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- critical thinking skills to facilitate rational and logical analysis of all research information collected
- high-level communication skills to facilitate the analysis and interpretation of complex research data and to communicate research findings in plain English to colleagues and external agencies
- high-level literacy skills to read complex tourism research documents that relate to such things as tourism trends, market statistics, information on market preferences and product performance
- numeracy skills to interpret and analyse complex tourism data.

The following knowledge must be assessed as part of this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- typical research methodologies used in a tourism industry context
- types of technology used in the conduct of research projects
- role of research within the tourism industry and major research bodies
- common sources of tourism research data.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to research, interpret and apply results for a specific tourism purpose • knowledge of research techniques and methodologies • project or work activities conducted over a commercially realistic period of time so that the research and analysis aspects of this unit can be assessed.
Context of and specific resources for assessment	Assessment must ensure: • access to a fully equipped office environment using appropriate computers, communication technology, information programs and publications to facilitate the processes involved in conducting research of tourism data • access to current tourism industry data and information sources • access to an operation to allow the candidate to fully research, interpret and apply data results to an operational activity or to comprehensive and sufficient information about that tourism operation.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

are appropriate for this unit:

- research project and report for a tourism industry organisation
- case study of a given tourism scenario and review of research and resultant report
- case studies to assess the candidate's ability to apply research and differing methodologies to different tourism industry activities
- written and oral questioning or interview to test knowledge of research methodologies and tourism data sources
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCCS003A Manage quality customer service
- SITXMGT004A Develop and implement a business plan
- SITXMPR004A Coordinate marketing activities
- SITXMPR005A Develop and manage marketing strategies.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Research may relate to a range of data, including:	• customer preferences • general visitation patterns • success of marketing initiatives • distribution networks.
Research methods may include:	• questionnaires and surveys • face-to-face and phone interviews • focus groups • electronic counters • evaluation of secondary data • desk research.
Information sources may include:	• government agency websites and tools, such as the online tourism data warehouse Decipher • industry associations • regional, state or territory, and federal tourism marketing agencies.

SITTPPD003B Source and package tourism products

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to source and package tourism products to meet the needs of particular markets or customers. It requires the ability to create, tailor and cost packages that may include complex itineraries or a wide range of products.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

The unit builds on the more operational skills found in the Tourism Sales and Operations units, such as:

- SITTTSL006B Prepare quotations
- SITTTSL008B Book and coordinate supplier services.

Negotiating with suppliers for any product component is covered in SITXMGT006A Establish and conduct business relationships.

This unit does not cover the ability to participate in the strategic development of the organisation's product range. SITTPPD001B Research, assess and develop tourism products, takes a more strategic focus to product development and covers the high-level market research and analysis function of product planning.

Application of the Unit

Application of the unit

This unit describes the product planning function for a diverse range of tourism and hospitality packaged products and services and applies to the full range of industry sectors.

The unit applies to the development of new or enhanced packaged tourism products. It describes the generic tourism product packaging process that applies to the development of any style of packaged product for the domestic or international

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

customer and covering any Australian or international destination.

The unit has particular application to inbound and outbound tour wholesalers and to tour operators. Tourism operators might source and package tourism products and services for a range of different products, e.g. brochured touring products, incentive and special interest groups and series tours.

The sourcing and packaging of tourism products and services involves complex itinerary planning, costing and operational coordination. This unit applies to senior tourism and hospitality industry personnel who operate with some level of autonomy or under limited supervision and guidance from others. These roles would include product development coordinator, senior tour coordinator, senior inbound tour coordinator, incentive account manager, account manager for a professional conference organiser, senior operations consultant or manager for a tour operator and owner-operators of any type of tourism business.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

SITTTSL006B Prepare quotations.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Source component products.	1.1 Identify product objectives in consultation with appropriate colleagues and customers.
	1.2 Identify and determine destination and product preferences and requirements of ***customer or consumer market to be serviced***.
	1.3 Identify and ***research*** potential destinations and ***component products and services*** using appropriate methods.
	1.4 Assess destination and product details relating to market or customer suitability, including costs, availability or accessibility, features and benefits, product match to preferences and requirements and profit potential.
	1.5 Assess the ***quality credentials*** of tourism operators and their products to be packaged.
	1.6 Select destinations and products based on research conducted.
2 Package component products.	2.1 Develop packaged products or programs to meet the ***requirements of specific customers or markets***.
	2.2 Combine and integrate program components to create maximum value and saleability within nominated constraints.
	2.3 Make agreements with suppliers according to organisation profit and other requirements and confirm in writing in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	line with organisation procedures.
	2.4 Cost programs to ensure profitability using appropriate technology to take account of key financial factors, including: • full range of commission or mark-up structures that would apply to each organisation involved in the distribution network for the product • desired profit margin for the packaged product • application of appropriate mark-up to achieve a profitable selling price • any additional taxes, special fees and other charges • any applicable exchange rate implications.
	2.5 Document the product or program and pricing structures clearly to include full details of all inclusions, exclusions and add-ons and present to colleagues or customers.
	2.6 Review and adjust products or programs and pricing structures in response to feedback from customers or colleagues.
	2.7 Check and incorporate legal requirements.
	2.8 Present final details of products or programs to appropriate colleagues or customers for approval prior to finalisation of operational or marketing details and within required timeframes.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills to obtain general information on destinations, product base within the destination and customer or market product preferences and requirements
- ability to assess research findings and match destinations and products to meet the needs of the specific customer or market
- literacy skills to read and interpret documents, such as:
  - customer requests

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- organisational documents that outline the range of current products and style
- complex supplier component product information, including contracts and costs
- information obtained on customer or market product preferences and requirements
- writing skills to document complex product information, programs and pricing structures, including the specific applicable conditions
- numeracy skills to calculate complex costing components and a range of different commission and mark-up structures.

The following knowledge must be assessed as part of this unit:

- detailed knowledge of the tourism industry, including structure and interrelationships, tourism industry networks and information sources
- industry information or destination marketing networks and their value in conducting research for the packaging process
- in-depth destination and product knowledge appropriate to the specific tourism or hospitality industry sector and components to be included in the product or program
- in-depth knowledge of customer or market product preferences and requirements
- negotiated cost of supply and contractual arrangements with suppliers
- key principles and elements of calculating complex packaged product costings and pricing structures
- in-depth knowledge of distribution and marketing networks, especially those involved in distributing the proposed tourism product or program
- industry commission or mark-up procedures and rates appropriate to the particular sector and the varying organisations within the distribution network
- industry practices in packaging products and presenting pricing structures appropriate to different sectors, including:
  - different costing options, e.g. per person, room or group; all inclusive; and ground content only
  - typical package styles for different markets or customer types
- the existence and basic aspects of laws that impact on tourism operations and actions that must be adhered to by tourism operators when delivering services, in particular laws that cover:
  - child sex tourism
  - legal liability insurance requirements and duty of care of customers
  - environmental protection (This would include required environmental licences, permits, accreditation and minimal impact practices.)
  - local community protection (This would include land ownership, management and access requirements.)
  - consumer protection (This would include refund requirements that must be met by tourism businesses, terms and conditions of quotations and cancellation fees.)
  - responsible service of alcohol

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- food safety.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to proactively source, package and match destinations and quality controlled products that meet the needs of specific customers or markets • ability to develop and cost practical programs that meet both customer needs and organisation business requirements • ability to source and package multiple programs in response to multiple customer needs or organisational requests covering a range of tourism products and services • ability to source and package tourism products and services within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes • project or work activities conducted over a commercially realistic period of time so that all aspects of the packaging process can be assessed • completion of product or program costings that meet the deadlines determined by the customer and the organisation.
Context of and specific resources for assessment	Assessment must ensure: • access to a fully equipped industry-realistic office environment using appropriate computers, communication technology, software and information programs and publications currently used in the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

tourism industry to facilitate the processes involved in sourcing, packaging and costing tourism products
- access to current tourism industry destination and product information sources, especially information about appropriate product match
- access to an operation for which tourism products or programs would be developed ***or*** access to comprehensive and sufficient information about that tourism operation and its market base to allow the candidate to fully develop appropriate packaged products or programs
- use of relevant and current product information to support the costing process, e.g. brochures, tariffs, product sales kits and supplier contracts
- use of legislation or plain English documents produced by regulators.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- project activities to develop packaged tourism products or programs in conjunction with an industry operator
- project activities to develop packaged tourism products or programs for the training college or local community
- review of completed product costing and pricing structures for specific packaged products or programs
- case studies to assess the candidate's ability to research and meet the needs of customers or markets with differing product preferences and requirements
- written and oral questioning or interview to test knowledge such as structure of the tourism industry, tourism industry interrelationships, distribution networks, mark-up and commission structures and legal requirements.
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL002A Access and interpret product

	information • SITTTSL003A Source and provide international destination information and advice • SITTTSL004A Source and provide Australian destination information and advice.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Customer or consumer market to be serviced may include:	• domestic tourists travelling within Australia • international tourists travelling within Australia (inbound) • Australians travelling internationally (outbound) • groups • individuals • leisure travellers • business travellers • those travelling on incentive tours • those interested in the natural environment • those interested in special cultural groups • conference delegates • event participants • special interest groups, including:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• educational groups • sporting groups • customers or groups of a particular cultural background.
Research may include:	• desk research • personal contact with tourism authorities, product suppliers or distribution network • destination or site inspection.
Component products and services to be packaged might include:	• accommodation • transport, such as air, rail, bus or coach, and shipping • hire car • entrances to attractions, museums, events and exhibits • food, beverage and catering • entertainment • tours • cruises • conference facilities • tour guiding services • activities • meals • functions • special items with customer corporate branding • venue hire • speaker services • audiovisual services • meeting or event equipment • special event consumable items.
Assessment of the ***quality credentials*** of tourism operators and their products to be packaged may involve:	• public liability and duty of care policies and procedures • safety record • customer service and satisfaction record • reliability of other tourism operators to provide promised products and services • reliability of other tourism operators in complying with laws • environmental and local community protection credentials of tourism operators who deliver tourism

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	products in environmentally sensitive areas such as: • their compliance with laws, permit, licence or accreditation requirements that relate to environmental and local community protection • reliability in sustaining the natural and cultural environment by use of minimal impact practices.
Requirements of specific customers or markets may relate to:	• budget • product or service preferences and requirements • time constraints • cultural issues • integration into a wider touring, event or sporting program.
Special fees and other charges may include:	• service fee • transaction fee • itinerary preparation fee • visa and passport handling fee • loyalty program (e.g. frequent flyer) redemption fee • product booking fee • amendment fee • cancellation fee • reconfirmation fee • courier fee • credit card fee • communication fee.

SITTPPD004A Plan and implement minimal impact operations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to organise and operate tourism activities with minimal negative environmental and social impact, and to monitor and report on any impact.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

The emphasis of this unit is on short-term operational action planning and implementation, without the strategic focus found in SITTPPD006B Plan and develop ecologically sustainable tourism operations.

Application of the Unit

Application of the unit

This unit describes a product planning function for a diverse range of tourism products delivered across a range of tourism industry sectors.

It has particular application to the tour operating, cruise and attractions sectors and to those tourism products that are delivered in environmentally sensitive areas. Many would be nature or ecotourism-based experiences.

The planning and implementation of minimal impact operations could be for a series of activities within a venue, a tour operation, or a one-off activity. This role would normally apply to those who operate with some level of autonomy or under limited supervision and guidance from others, e.g. senior operational or supervisory personnel such as senior guide or senior activities coordinator, site guide, interpretive guide and owner-operator of a small tourism business.

Prerequisite units	Nil

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Organise environmentally responsible activities.	1.1 Develop experiences and activities that combine education and interpretation of the natural environment, and ensure environmental sustainability and cultural sensitivity.
	1.2 Ensure a positive outcome for the local community and environment, and compliance with ecotourism codes of practice.
	1.3 Consult with colleagues and other stakeholders regarding issues of responsibility for ***environmental impact and social impact***.
	1.4 Develop tour procedures to limit potential negative impact and maximise positive impact on the natural environment and local community.
2 Conduct activities with minimal impact.	2.1 Select and use ***minimal impact techniques and procedures*** appropriate for a given area.
	2.2 Advise customers politely about acceptable behaviour in different environments and communities prior to entering the area.
	2.3 Provide a role model for customers and colleagues in relation to minimal impact.
	2.4 Take appropriate action to address situations where customer behaviour is not acceptable.
3 Monitor impact and changes.	3.1 Monitor and accurately record ***changes in the natural environment*** using appropriate technology.
	3.2 ***Collect environmental information*** on behalf of environmental and social agencies and authorities where appropriate.
	3.3 Advise appropriate authorities of environmental and social change promptly.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- information collection techniques for monitoring environmental and social impact
- high-level communication skills to consult with colleagues and stakeholders on issues of environmental responsibility, inform customers of their minimal impact responsibilities as tour or activity members, and discipline non-compliance when necessary
- literacy skills to:
  - read and interpret complex materials describing environmental regulatory requirements, local land management practices and permit requirements, and industry and ecotourism codes of practice
  - develop written or verbal tour procedures
- numeracy skills to:
  - record and calculate basic measurements for environmental monitoring, e.g. temperature
  - count sightings of environmental components, e.g. numbers of animals.

The following knowledge must be assessed as part of this unit:

- general and overview knowledge of global environmental issues and ethics
- broad working knowledge of the environmental and social impact of tourism
- in-depth knowledge of local environmental issues and the social and cultural aspects of the local host community
- the key contents of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia
- broad working knowledge of the range of environmental legislation and regulations imposed by relevant land management agencies and federal, state or territory, and local governments
- working knowledge of the particular land management practices and permit requirements affecting the area of operations, e.g. those used by national park management
- understanding of the biophysical and socio-cultural elements in an environment
- minimal impact techniques and procedures in relation to:
  - waste disposal
  - use of tracks
  - energy use
  - noise
  - souveniring
  - setting of camps
  - interaction with wildlife
  - group size

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- activity-specific guidelines
- local customs and courtesies.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to organise and operate tourism activities with minimal negative environmental and social impact and monitor and report on any impact on the environment • knowledge of general environmental impact and issues in regard to tourism and the particular environments of operation • knowledge of minimal impact practices • planning and implementation of minimal impact operations for multiple delivery environments to ensure that skills can be adapted to different delivery locations and contexts • project or work activities conducted over an operationally realistic period of time so that the monitoring and recording of changes in the natural environment can be assessed.
Context of and specific resources for assessment	Assessment must ensure: • access to comprehensive and sufficient information about the tourism delivery environment to allow the candidate to plan for minimal impact operations and monitor any environmental impact • conduct and monitoring of a minimal impact tour or activity within appropriate environments, e.g. in an environmentally sensitive area • conduct of a tour or activity and interaction with customer groups of a size and nature that reflect the commercial environment in which the tour or activity

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

operates.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to plan and implement minimal impact operations. The following examples are appropriate for this unit:

- direct observation of the candidate conducting a tour or activity in an environmentally sensitive area
- review of planning and operational activities undertaken as part of industry placement or training with an industry operator
- project or case study to analyse appropriate minimal impact approaches for different environments
- written and oral questioning or interview to test knowledge of the environmental and social impact of tourism, local environmental issues, minimal impact techniques and procedures and regulatory requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE004A Lead tour groups
- SITTGDE006A Prepare and present tour commentaries or activities
- SITTPPD005A Plan and develop interpretive activities
- SITTPPD006B Plan and develop ecologically sustainable tourism operations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Environmental impact may include:

- positive:
  - opportunities for conservation and protection
  - education of visitors
  - improvement of sites already impacted
- negative:
  - disturbance of flora and fauna
  - physical damage
  - introduction of exotic and feral species
  - pollution
  - waste, energy and consumable demands and issues
  - visual impacts.

Social impact may include:

- positive:
  - economic benefits to local community
  - improved local facilities
  - employment
  - visitor education
  - greater understanding between host and visitor cultures
- negative:
  - trivialisation of culture
  - effect on social structures.

Minimal impact techniques and procedures may include:

- education on appropriate behaviour
- site hardening
- technological solutions
- education
- restricting or limiting access
- staged authenticity.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Changes in the natural environment may include:	• breeding events • erosion • species sighting • changes to flora • changes to fauna.
Collecting environmental information may involve:	• logbooks • sighting forms • basic measurements, including temperature, weather conditions and estimating percentage cover and water • photography.

Unit Sector(s)

Sector Tourism

Competency field

Competency field Planning and Product Development

SITTPPD005A Plan and develop interpretive activities

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to plan and develop interpretive activities for different customer groups. It requires the ability to establish the educational, interpretive and commercial objectives of the activity, develop all operational aspects and evaluate the success of the activity.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

This unit does not cover the ability to participate in the strategic development of the organisation's product range. SITTPPD001B Research, assess and develop tourism products, takes a more strategic focus to product development and covers the high-level market research and analysis function of product planning.

The actual presentation of activities is covered in unit SITTGDE006A Prepare and present tour commentaries or activities.

Application of the Unit

Application of the unit

This unit describes a product planning function for a diverse range of tourism activities delivered in a range of tourism industry sectors. It is particularly relevant to those developing activities within tour operations, attractions, theme parks, and national parks for delivery at a particular site. Many would be nature or ecotourism-based experiences.

This unit can have broader industry application and can apply to cultural industries where delivery of interpretive activities takes place in a museum, gallery, library, performing arts centre or zoo; sport and recreation industries for interpretive activities that are linked to outdoor and adventure activities such as

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

guided bushwalking; and any industry that operates interpretive activities at an industrial site, e.g. breweries, waste management facilities and factories.

The planning and development of interpretive activities may be for a series of activities within a venue or tour operation or for a one-off activity. Planning and development may be undertaken by the same person involved in delivering the activity or may be developed by senior operational or supervisory personnel. The planning role would normally apply to those who operate with some level of autonomy or under limited supervision and guidance from others, e.g. senior guide or senior activities coordinator, site guide and interpretive guide.

Licensing/Regulatory Information

of competency.	***italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish need for activity.	1.1 Identify need for the ***interpretive activity***, based on customer requests and feedback, product development initiatives and wider community needs.
	1.2 Establish educational, interpretive and commercial objectives of the activity in consultation with appropriate colleagues.
2 Develop the activity.	2.1 Identify and develop possible themes and messages for the activity.
	2.2 Identify and access a range of potential information and ***resources***, including ***other specialists*** as required, in a culturally and environmentally appropriate manner.
	2.3 Develop activity using creative and interpretive techniques.
	2.4 Identify hazards for customers and delivery personnel at activity site, conduct a risk assessment and incorporate controls into activity development.
	2.5 Select messages and supporting information of appropriate breadth and depth to meet customer needs.
	2.6 Develop resources to support the activity within designated timelines.
	2.7 Develop activity within budget to meet agreed objectives in consultation with colleagues.
	2.8 Promote activity in conjunction with relevant colleagues and according to organisation marketing objectives.
3 Evaluate activity.	3.1 Obtain formal and informal feedback from customers and colleagues during piloting or conduct of activity.
	3.2 Modify activity according to feedback received.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3 Establish and implement ongoing review mechanisms to ensure continuous improvement of activity in line with its objectives.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to conduct a safety-based risk assessment
- interpretation of the specific needs of customers and any specific services previously promoted to customers
- high-level communication skills to facilitate the gathering and analysis of complex information and to interpret this for simpler communication to customers
- creative communication techniques for interpretive commentaries or activities, including such things as storytelling, role-play, games, sensory awareness exercises and illustrated talks.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge of subject matter around which the activity is developed
- the comprehensive details of Freeman Tilden's principles of interpretation
- principles and processes that support activity development.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to	Evidence of the following is essential: • ability to develop all operational aspects of interpretive

EVIDENCE GUIDE

demonstrate competency in this unit

activities that meet the needs of the specific customers and objectives of the organisation and evaluate those activities

- subject knowledge and ability to apply that knowledge to the development of tourism-related interpretive activities
- planning and developing various interpretive activities covering multiple themes and messages that meet the needs of different customer groups to ensure consistency of performance
- planning and developing interpretive activities that take account of the commercial constraints of their delivery, e.g. budget restrictions and limitations on activity duration
- planning and developing interpretive activities for a number of different delivery environments (e.g. at a nature-based site, at a cultural site, in a national park or on a walking tour) to ensure that skills can be adapted to different delivery locations and contexts
- project or work activities conducted over an operationally realistic period of time so that monitoring, evaluation and review of interpretive activities can be assessed, e.g. through a pilot of activities.

Context of and specific resources for assessment

Assessment must ensure:

- access to and use of appropriate environments for which interpretive activities can be planned and developed, e.g. nature-based sites, cultural sites, national parks and walking tours
- access to comprehensive and sufficient information about the customer base for which interpretive activities would be planned to allow the candidate to fully develop appropriate activities
- access to resources and equipment used for the presentation of interpretive activities.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to plan and develop interpretive activities. The following examples are appropriate for this unit:

- project to develop and evaluate activities for a

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

nominated customer group or organisation
- review of planning and development activities undertaken as part of industry placement or training with an industry operator
- written and oral questioning or interview to test knowledge of interpretation principles and activity development processes
- case studies to assess ability to tailor activities and information to suit particular customer needs
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE006A Prepare and present tour commentaries or activities
- SITTGDE008A Research and share general information on Australian Indigenous culture
- SITTGDE009A Interpret aspects of local Australian Indigenous culture
- SITTGDE010B Prepare specialised interpretive content on flora, fauna and landscape
- SITTGDE011B Prepare specialised interpretive content on marine environments
- SITTGDE012B Prepare specialised interpretive content on cultural and heritage environments.

This unit involves substantial knowledge of the subject matter around which the interpretive activity is based. This knowledge must be thoroughly assessed. Co-assessment with at least one of the abovementioned units is required. Those units describe skills and knowledge essential to this unit of competency.

Assessment methods should take into account that individuals may have acquired this knowledge through formal study or life experience. This would include such things as the recognition of scientific qualifications of ecotour guides and recognition systems that relate to cultural knowledge that exists in Aboriginal and Torres Strait Islander societies.

EVIDENCE GUIDE

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

An ***interpretive activity***:

- may include:
  - guided walks
  - guided site activities
  - touring activities
  - sporting activities
  - one or more activities that may be combined in an overall tour program
- may relate to a range of subjects, including:
  - wildlife
  - domestic and farm animals
  - birds
  - history and heritage
  - culture
  - art
  - natural environment
  - built environment
  - sports
  - festivals or seasonal themes.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Resources may include:

- natural resources
- audiovisual equipment, such as:
  - video and video monitor
  - slides and slide projector
  - microphone
  - overhead projector and transparencies
- handouts
- costumes
- props
- actors and performers
- guest speakers
- special interest organisations.

Other specialists may include:

- subject matter experts
- cultural advisers
- technical experts
- creative designers
- actors and performers
- marketers
- environmental educators
- interpretation consultants.

SITTPPD006B Plan and develop ecologically sustainable tourism operations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to strategically plan ecologically sustainable tourism operations. It also requires the ability to establish and operate an ecologically sustainable tourism operation and to monitor any environmental impact it may have.

It builds on SITTPPD004A Plan and implement minimal impact operations, which is more operationally focused.

The work involved in this unit is subject to a range of regulatory requirements that relate to environmental sustainability at land management agency and federal, state or territory, and local government level. Therefore, training and assessment must take into account the specific requirements of environmental legislation as it applies to the product or destination.

No occupational licensing or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key product planning function for a diverse range of tourism and hospitality products and services and applies across many industry sectors.

Planning and developing ecologically sustainable tourism operations involve a strategic focus on the overall and long-term operation of a tourism product. It might be for a whole region or local area, for a particular tourism venue, or for individual touring product.

The unit has particular application to the accommodation, tour operating, cruise and attraction sectors and to those tourism

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

products that are delivered in environmentally sensitive areas, many of which would be nature or ecotourism-based experiences.

This unit applies to senior tourism and hospitality industry personnel who operate autonomously and have strategic tourism planning and product development roles. These roles would include regional tourism manager, resort or hotel manager, operations or general manager, marketing manager, product development manager and owner-operator of any type of accommodation or tour operating business.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Plan for ecologically sustainable tourism operations.	1.1 Include an evaluation of the relationship between tourism and the environment in the planning process. 1.2 Conduct a cost versus yield evaluation of establishing and operating the operation on an ongoing basis according to industry and ecotourism codes and legislation. 1.3 Incorporate into the planning process the need for an economic or social return to the local community. 1.4 Conduct ***a range of evaluations*** prior to any decision to establish the operation. 1.5 Investigate and incorporate into the planning process ***methods of managing tourism impact*** and protecting vulnerable sites. 1.6 Consult all ***stakeholders*** and incorporate their views into the planning process. 1.7 Develop strategies to balance ecological sustainability and the economic viability of the operation. 1.8 Base development decisions on the information obtained in the evaluation and planning process.
2 Develop and implement ecologically sustainable tourism operations.	2.1 Develop and implement courses of action and systems to limit ***negative environmental impacts*** and damage. 2.2 Establish and integrate best practice environmental standards in the operation. 2.3 Identify and use appropriate technology for environmental best practice. 2.4 Develop environmentally-friendly codes of practice for all aspects of the operation and for customer use. 2.5 Conduct operations according to ecologically sustainable practices, guidelines provided by industry and ecotourism codes of practice and requirements of the law. 2.6 Promote environmental awareness within the tourism industry and to customers.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Monitor environmental impact of operations.	3.1 Monitor and assess environmental impact of operations as part of regular management reviews. 3.2 Continuously monitor compliance with industry and ecotourism codes and legislative requirements. 3.3 Initiate appropriate follow-up action based on assessment of environmental impact and compliance.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of environmental legislation and regulation imposed by relevant land management agencies and federal, state or territory, and local governments
- interpretation of industry and ecotourism codes of practice
- high-level communication skills to conduct comprehensive consultation with key stakeholders
- critical thinking skills to facilitate rational and logical analysis of cost versus yield and other evaluations associated with planning the establishment of the tourism operation
- literacy skills to read and interpret complex material describing environmental regulatory requirements and industry and ecotourism codes of practice
- high-level written literacy skills to develop comprehensive plans for ecologically sustainable tourism operations, and operational and customer-focused codes of practice
- numeracy skills to perform complex calculations when evaluating cost versus yield.

The following knowledge must be assessed as part of this unit:

- the key characteristics of tourism trends, developments and the environmental impact of tourism
- the key characteristics of global environmental issues and intricacies of local environmental issues
- the intricacies of the social, cultural and economic aspects of the local host community
- the objectives, components and comprehensive details of environmental and local community protection compliance requirements within state, territory and local government laws and regulations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- the objectives, components and comprehensive details of guidance given by industry and ecotourism codes of practice, especially that of the Ecotourism Association of Australia
- consultative and communication mechanisms commonly used by organisations to deal with sensitive ecological and community issues
- the objectives and intricate details of minimal impact techniques
- the intricate details of methods of managing tourism impacts
- the intricate details of environmental management strategies and practices to acceptably balance ecological sustainability and the economic viability of an operation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to strategically plan for, establish and operate an ecologically sustainable tourism operation and to monitor any environmental impact
- project or work activities conducted over a commercially realistic period of time so that the planning, evaluation and monitoring aspects of the operations can be assessed
- ability to critically analyse all information that relates to the product development phase
- knowledge of the current range of legislation, regulations and industry codes and ability to interpret the requirements as they relate to the tourism operation
- knowledge of minimal impact and environmental management strategies.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed a fully equipped industry-realistic office environment using appropriate computers, printers, information programs and publications currently used in the tourism industry to facilitate the planning and product development

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

processes involved
- access to a destination where the ecologically sustainable tourism operation would be established and operated ***or*** access to comprehensive and sufficient information about that destination to allow the candidate to plan for strategically, establish and operate an ecologically sustainable tourism operation and monitor any environmental impact
- access to current regulatory documents distributed by key land management agencies and federal, state or territory, and local governments, such as plain English legislative publications, codes and standards outlining environmental regulatory requirements
- use of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia
- involvement and interaction with a group of people so that consultation with key stakeholders can be achieved..

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to plan and develop ecologically sustainable tourism operations. The following examples are appropriate for this unit:

- review of a completed plan for the tourism operation, including analysis of all evaluations that have been conducted
- review of codes of practice developed by the candidate
- review of environmental impact monitoring reports completed by the candidate and action plans for any required corrective measures
- project activities to plan and develop an ecologically sustainable tourism operation in conjunction with industry
- project activities to plan and develop an ecologically sustainable tourism operation for a given environmentally sensitive area
- case studies to assess the candidate's ability to evaluate the development and operation of different tourism operations with differing environmental issues
- case studies and projects to assess the candidate's ability to improve the ecological sustainability of existing tourism operations
- written and oral questioning or interview to test

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

knowledge such as industry codes of conduct, environmental regulatory requirements, minimal impact techniques and methods of managing tourism impact

- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD001B Research, assess and develop tourism products
- SITTPPD004A Plan and implement minimal impact operations
- SITTPPD007A Plan and develop culturally appropriate tourism operations
- SITXFIN005A Prepare and monitor budgets.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Range of evaluations prior to establishing the operation may

- a complete environmental impact study
- a site evaluation
- evaluation of the social impact on local communities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

involve:	• evaluation of the operation's ability to comply with industry and ecotourism codes of practice • evaluation of the operation's ability to comply with enironmental and community protection laws.
Methods of managing tourism impact may include:	• limits of acceptable change • zoning • exclusion • community consultation and involvement • tourism development plans • scheduling • consideration of optimal weather conditions and seasons • selection of most appropriate transport modes • education • size of operation and group size.
Stakeholders may include:	• host community where the operation is to take place • investors • state, territory and local government authorities • land management and protection authorities, such as national parks • consumer representatives • suppliers of environmentally-friendly products.
Negative environmental impacts may include:	• disturbance of flora and fauna • physical damage • introduction of exotic and feral species • pollution • waste, energy and consumable demands and issues • visual impacts.

Elements and Performance Criteria

ELEMENT **PERFORMANCE CRITERIA**

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Plan for culturally appropriate tourism operations.	1.1 Conduct a cost versus yield evaluation of establishing and operating the operation on an ongoing basis according to the local community's cultural considerations.
	1.2 Identify the full range of cultural issues at the commencement of the planning process.
	1.3 Consult individuals and communities about ***cultural issues*** that might affect the operation and how the operation might affect local community culture.
	1.4 Identify and analyse the economic and social ***impact on the communities***.
	1.5 Identify the need for economic and social returns to local communities.
	1.6 Investigate and develop ways of managing and minimising negative tourism impact and maximising positive impact on the local culture.
	1.7 Develop strategies to balance cultural appropriateness and the economic viability of the operation.
	1.8 Base product development decisions on the information obtained in the evaluation and planning process, including the need for culturally appropriate operations.
2 Develop and implement culturally appropriate tourism operations.	2.1 Develop ***codes of practice and procedures*** for all aspects of the operation and for customer use that ensure that respect for cultural values is shown.
	2.2 Conduct operations according to established codes of practice.
	2.3 Encourage operational participation of individuals from the appropriate culture.
	2.4 Ensure that all customer activities are culturally appropriate.
	2.5 Share information with customers that is culturally appropriate and accurate and avoids cultural stereotyping.
	2.6 Consider copyright and intellectual property issues when developing the operation.
	2.7 Educate colleagues about other cultures and societies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA	
		during the development process.
	2.8	Encourage culturally appropriate behaviours in colleagues and customers through education.
	2.9	Promote the need for culturally appropriate behaviour throughout the organisation and with customers.
	2.10	Use promotional and other materials to inform colleagues and customers about cultural issues.
3 Monitor operations.	3.1	Continuously monitor the standard of operations to ensure culturally appropriate practices are maintained.
	3.2	Conduct regular consultation with individuals and local communities as appropriate in order to obtain feedback on the operation.
	3.3	Deal with operational issues promptly and consider changes to continuously improve organisation practices.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication skills to conduct comprehensive and culturally appropriate consultation with local community stakeholders
- critical thinking skills to facilitate rational and logical analysis of cost versus yield and other evaluations associated with planning the establishment of the tourism operation
- high-level written literacy skills to develop comprehensive plans for culturally appropriate tourism operations, and operational and customer-focused codes of practice
- numeracy skills to perform complex calculations in evaluating cost versus yield.

The following knowledge must be assessed as part of this unit:

- general knowledge of the social, cultural and economic impact of tourism
- cross-cultural awareness and in-depth understanding of the social, cultural and economic aspects of the local host community

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- in-depth knowledge of consultation and communication mechanisms commonly used by organisations and by the local host community
- copyright and intellectual property issues associated with delivering information about local cultural issues
- different ways in which organisations can foster culturally appropriate behaviour during product development and product delivery
- ways of managing and minimising negative tourism impacts and maximising positive impacts on the local culture.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to strategically plan for, develop and operate a culturally appropriate operation and to monitor the delivery of the product to ensure ongoing culturally appropriate behaviour
- ability to integrate culturally appropriate practices into the product development phase
- ability to critically analyse all information that relates to the product development phase
- knowledge of strategies to manage and minimise negative tourism impact and maximise positive impact on the local culture
- project or work activities conducted over a commercially realistic period of time so that the planning, evaluation and monitoring aspects of the operations can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped industry-realistic office environment using appropriate computers, printers, information programs and publications currently used in the tourism industry to facilitate the planning and

product development processes involved
- access to a destination where the culturally appropriate tourism operation would be established and operated ***or*** access to comprehensive and sufficient information about that destination, the local communities and culture to allow the candidate to plan for strategically, establish and operate a culturally appropriate tourism operation and to monitor any impact on the local culture
- involvement and interaction with a group of people so that consultation can be achieved.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to plan and develop culturally appropriate tourism operations. The following examples are appropriate for this unit:

- review of a completed plan for the tourism operation, including analysis of all evaluations that have been conducted
- review of codes of practice developed by the candidate
- review of monitoring reports completed by the candidate and action plans for any required operational changes
- project activities to plan and develop a culturally appropriate tourism operation in conjunction with industry
- project activities to plan and develop a culturally appropriate tourism operation for a given destination, local community and culture
- case studies to assess the candidate's ability to evaluate the development and operation of different tourism operations with differing culturally sensitive issues
- case studies and projects to assess the candidate's ability to improve the cultural appropriateness of existing tourism operations
- written and oral questioning or interview to test knowledge such as social, cultural and economic impacts of tourism, copyright and intellectual property issues, and strategies for the management of the impact of tourism on local communities and their culture
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD001B Research, assess and develop tourism products
- SITTPPD006B Plan and develop ecologically sustainable tourism operations
- SITXFIN005A Prepare and monitor budgets.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Cultural issues may include:

- culturally appropriate activities
- use of cultural information
- access restrictions
- use of appropriate staff
- traditional and contemporary values and customs
- cultural differences in styles of negotiation and communication.

Impact on the communities may be:

- positive:
  - economic benefits to local community

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- improved local facilities
- employment opportunities
- cultural benefits
- visitor education
- greater understanding between host and visitor cultures

- negative:
  - trivialisation of culture
  - effect on social structures
  - damage to culturally sensitive areas or sites.

Codes of practice and procedures may relate to:

- involving appropriate people in both product development and delivery
- developing formal or informal guidance on appropriate staff and customer behaviour in given situations
- selecting appropriate staff for different situations
- guidelines for language skill requirements
- specific guidance on the use of culturally sensitive information
- guidance for negotiating contracts in cross-cultural situations.

SITTPPD008A Develop host community awareness of tourism

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop a host community's awareness of tourism, including its costs and benefits. It requires the ability to educate and inform the community about tourism and to conduct community consultation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Developing the host community's awareness of tourism involves a strategic focus on the overall and long-term operation of tourism as an industry within a local community. It is a key component of tourism planning and management.

An awareness program would normally be for a whole region or local area but may sometimes apply to the development of a particular tourism venue or individual touring product.

This unit applies to senior tourism industry personnel from local, regional or state and territory tourism organisations that operate autonomously and have a strategic tourism planning role.

Licensing/Regulatory Information

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Educate and inform the community on tourism.	1.1 Set objectives for the education of the local community according to the goals of the organisation and the community.
	1.2 Choose ***appropriate communication methods***, and devise and implement ***strategies and programs to maximise the opportunity to inform*** all sections of the community about tourism.
	1.3 Communicate ***costs and benefits of tourism*** to the community on an ongoing basis.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Liaise with stakeholders.	2.1 Identify the main ***stakeholders*** in the host community. 2.2 Seek views and opinions of stakeholders on an ongoing basis in relation to tourism activities. 2.3 Assess and apply input from stakeholders in the planning and organisation of tourism activities. 2.4 Identify ***potential community conflict*** relating to tourism and seek solutions in consultation with relevant parties.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication skills to:
  - conduct comprehensive consultation with key stakeholders
  - develop, implement and deliver information programs to maximise tourism, such as information sessions and written tactical public relations documents
- critical thinking skills to facilitate rational and logical analysis of input from key stakeholders
- high-level written literacy skills to develop both complex and plain English documents, including communication strategies, consultation questionnaires and information documents.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge of the community impact of tourism, both costs and benefits
- issues and problems that relate to host communities and tourism
- in-depth knowledge of the main stakeholders in local, regional, state or territory, and national tourism industry and structures of tourism organisations at each level
- in-depth understanding of the social, cultural and economic aspects of the particular local host community and the main stakeholders
- the key features of environmentally or culturally sensitive areas in the local or regional area

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- in-depth knowledge of strategic and tactical community communication processes.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • understanding the role of tourism within host communities, the impact of tourism and the role of major stakeholders • ability to develop and implement strategies for effective communication of tourism issues to a specific local community • ability to consult and communicate with the broad community.
Context of and specific resources for assessment	Assessment must ensure: • access to a fully equipped industry-realistic office environment using appropriate computers, communication technology, information programs and publications to facilitate the processes involved in developing and implementing communication strategies • access to a local host community where the community awareness program would be established and operated ***or*** access to comprehensive and sufficient information about that local host community to allow the candidate to plan for strategically, establish and operate a community awareness program • involvement of community stakeholders so that consultation can be achieved.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

are appropriate for this unit:

- case studies to address community awareness issues for a given community
- project activities to develop a community awareness program in conjunction with a local, regional, state or territory tourism organisation
- review of a completed community awareness program for a specific local community
- case studies to assess the candidate's ability to evaluate communities with differing social, cultural and economic structures and issues
- written and oral questioning or interview to test knowledge such as community impact of tourism, strategic and tactical community communication processes, and the structures of tourism management organisations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD010A Develop and implement local or regional tourism plan.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Appropriate communication methods may involve:

- using interpreters
- following cultural protocols
- face-to-face meetings
- limiting the amount of jargon and printed material and using as much visual information as possible.

Strategies and programs to maximise the opportunity to inform the community may include:

- media strategies, e.g. regular tourism column in local newspaper
- networking activities, e.g. regular functions between tourism operators and communities
- educational activities, e.g. speaking at local schools
- sponsorship activities, e.g. tourism sponsorship of local community activities
- community representation on relevant tourism committees and boards
- regular planning activities in conjunction with the local community
- information on the internet.

Costs and benefits of tourism to communities may include:

- benefits:
  - economic benefits to local community
  - improved local facilities
  - employment opportunities
  - cultural benefits, including cultural preservation
  - visitor education
  - greater understanding between host and visitor cultures
- costs:
  - trivialisation of culture
  - effect on social structures
  - damage to environmentally or culturally sensitive areas.

Stakeholders may include:

- general public

RANGE STATEMENT

- elected officials
- senior bureaucrats
- community groups
- elders of Indigenous communities
- tourism operators
- tourism industry associations
- land management and protection authorities
- state, territory or local council regulatory authorities
- trade unions
- media.

Potential community conflict may relate to:

- competition for local government resources
- conflicting opinions about tourism development options
- perceived threat to local amenities by high visitor numbers
- conflicting opinions regarding local government levies for tourism
- conflict between environmental and business groups.

SITTPPD009A Assess tourism opportunities for local communities

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to assess the general costs and benefits of tourism development with or on behalf of local communities. It requires the ability to seek all relevant information about potential tourism developments, critically analyse that information and make it available for community consensus and decision.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Assessing strategic tourism opportunities for local communities focuses on the overall and long-term operation of tourism as an activity or industry for the community. The assessment might focus on potential tourism developments or on the expansion of current activities.

An assessment would normally be conducted for a particular tourism venue or individual tourism product. However, it could be conducted for a whole region or local area that wants to develop tourism as a new or complementary industry to expand its economic base.

The local community wishing to operate a commercial tourism venture would normally make a request for the assessment. However, the assessment process could be instigated by local and regional tourism or industry organisations. In either case, the assessment is based on a need for communities to make informed decisions about their potential involvement in tourism

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

and the potential for success.

This unit applies to senior tourism industry personnel from local, regional or state and territory tourism organisations, to senior community members and to tourism business management consultants who operate autonomously and have a strategic tourism planning role.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Seek and analyse information about tourism opportunities.	1.1 Choose ***appropriate communication methods***, consult the local ***community*** about the possibility of community involvement in tourism and seek agreement to investigate ***tourism opportunities***.
	1.2 Gather information from the community on their proposed tourism products.
	1.3 Identify and access general ***information sources*** for tourism, tourism market trends and distribution and marketing networks.
	1.4 Identify product and service gaps within the local area and region and analyse the potential for future development, based on community proposals.
	1.5 Identify current market trends and the need for tourism products and services and analyse the potential for future development, based on community proposals.
	1.6 Identify distribution and marketing networks that would support the proposed tourism product and analyse the ability to successfully market the proposal.
2 Liaise with external stakeholders.	2.1 Establish and maintain contacts with relevant people outside the community.
	2.2 Exchange information and advice with ***external stakeholders***.
	2.3 Consult external stakeholders on customer and tourism industry service and quality expectations for tourism products and services.
	2.4 Obtain information from other communities with experience in establishing and developing tourism products and use during analysis and consultation.
	2.5 Seek specialist assistance from external individuals and organisations when required.
3 Analyse local community issues relevant to establishing tourism	3.1 Identify and analyse potential economic and social ***impact on the community***.
	3.2 Identify and analyse the currently available infrastructure and infrastructure development required to support the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
activities.	delivery of tourism.
	3.3 Identify and analyse current skill levels and the need for training or specialist expertise.
	3.4 Identify and analyse potential conflicts between tourism and other community values.
4 Consult with the community.	4.1 Choose appropriate communication methods and conduct ***consultation with the community*** about opportunities and potential tourism developments.
	4.2 Provide the community with ***relevant***, ***current and accurate information*** to facilitate informed debate and decisions.
	4.3 Invite external individuals and organisations to talk to the community where appropriate.
5 Make decisions about tourism opportunities.	5.1 Make decisions about tourism opportunities within the appropriate timeframe, taking into account all information that has been gathered and analysed.
	5.2 Make decisions that reflect the wishes of the community.
	5.3 Integrate information collected in the assessment process into future planning of tourism activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills
- high-level communication skills to conduct:
  - comprehensive and culturally appropriate consultation with local community stakeholders
  - detailed consultation with external stakeholders
- critical thinking skills to facilitate rational and logical analysis of:
  - input from the broad community, key community stakeholders and external

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

stakeholders
- all research information collected.

The following knowledge must be assessed as part of this unit:

- general knowledge of the social, cultural and economic impact of tourism
- detailed knowledge of the tourism industry, including structure and interrelationships, tourism industry networks and information sources
- in-depth knowledge of distribution and marketing networks, especially those that would support any proposed tourism product
- in-depth knowledge of the main stakeholders in local, regional, state or territory, and national tourism organisations and the structures of these organisations at each level
- current market trends, products and service styles that would meet certain market requirements and customer and tourism industry service and quality expectations for tourism products and services
- in-depth knowledge of the current tourism product base for the particular community
- the key features of environmentally or culturally sensitive areas in the local or regional area
- in-depth understanding of the main stakeholders, the infrastructure within the particular community, and social, cultural and economic aspects of the area
- cross-cultural awareness and in-depth knowledge of consultative and communication mechanisms commonly used by organisations and the local community.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to assess tourism opportunities for a specific community and determine the potential for success • ability to fully research, analyse and provide information on the full range of issues that relate to the proposed tourism development within a community • detailed knowledge of the tourism industry, including structure and interrelationships, tourism industry

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

networks, information sources, and distribution and marketing networks
- ability to consult and communicate with the broad community, key community stakeholders and external stakeholders
- project or work activities conducted over a commercially realistic period of time so that the research, analysis and consultation aspects of this assessment of opportunities can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped office environment using appropriate computers, communication technology, information programs and publications to facilitate the processes involved in assessing tourism opportunities
- access to a community for which tourism opportunities would be assessed ***or*** access to comprehensive and sufficient information about that community to allow the candidate to fully assess tourism opportunities
- access to current tourism industry data and information sources about tourism market trends and appropriate product match
- involvement of key stakeholders, both internal and external to the community so that research and consultation can be achieved.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to assess tourism opportunities. The following examples are appropriate for this unit:

- project to fully assess tourism opportunities for a given community
- project activities to assess tourism opportunities in conjunction with a local, regional, state or territory tourism organisation, community or industry organisation, or tourism business management consultancy
- review of a completed assessment report for a specific community
- case studies to assess the candidate's ability to evaluate communities with differing social, cultural and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

economic structures and issues
- case studies to assess the candidate's ability to evaluate community areas with different tourism product bases, and distribution and marketing networks
- written and oral questioning or interview to test knowledge such as structure of the tourism industry, tourism industry interrelationships, distribution networks, community communication and consultation processes, and the structures of tourism management organisations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD008A Develop host community awareness of tourism
- SITTPPD010A Develop and implement local or regional tourism plan.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Appropriate communication methods may involve:	• using interpreters • following cultural protocols • face-to-face meetings • limiting the amount of jargon and printed material and using as much visual information as possible.
Community may relate to:	• traditional communities on ancestral lands • local residents in urban, regional or rural settings • extended families in urban or rural settings • small groups with common cultural links and interests • individuals who identify with and are accepted by a particular group.
Tourism opportunities cover the full range of tourism development opportunities, including:	• tourism retailing operations • tour operations • attractions, events and festivals • accommodation development • visits to the community by external tour operators • community involvement in providing staff for external operations • community involvement in training for the tourism industry.
Information sources may include:	• local, regional, state or territory, and federal tourism organisations • local regional, state or territory, and federal tourism and tourism marketing plans • other government agencies • government funding bodies • government and private tourism research bodies • tourism industry associations • destination marketing companies • tour operators, tour wholesalers and inbound tour operators • business management and marketing consultancies • reports on tourism • privately owned tourism businesses • national parks and land management agencies • other local communities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- local people
- internet.

External stakeholders may include:

- wider community
- local businesses
- local, regional, state or territory, and federal tourism organisations
- state, territory or local government authorities
- land management and protection authorities
- privately owned tourism businesses
- tourism industry associations
- tourism marketing organisations
- destination marketing companies
- business management and marketing consultancies
- tour operators, tour wholesalers and inbound tour operators
- training agencies.

Impact on the community may include:

- benefits:
  - economic benefits to local community
  - improved local facilities
  - employment opportunities
  - cultural benefits, including cultural preservation
  - visitor education
  - greater understanding between host and visitor cultures
- costs:
  - trivialisation of culture
  - effect on social structures
  - damage to environmentally or culturally sensitive areas.

Consultation with the community may involve:

- verbal presentations to individuals or groups
- public or community meetings
- presentations or talks from specialist advisers
- preparation and presentation of comprehensive written reports
- preparation and presentation of plain English excerpts

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	from comprehensive written reports • presentation of notes or fact sheets about research findings • copies of information provided from external stakeholders.

Relevant, current and accurate information to be provided to the community must include:	• community's proposed tourism products
	• product and service gaps within the local area and region
	• current market trends and needs
	• need for tourism products and services to meet certain market requirements
	• customer and tourism industry service and quality expectations for tourism products and services
	• general information on distribution and marketing networks
	• information on particular distribution and marketing networks that would support the proposed tourism products
	• analysis of:
	  • community's ability to successfully market their proposed tourism products
	  • community's ability to successfully deliver their proposed tourism products
	  • positive and negative impact of operating the proposed tourism products
	• summary of all component analyses above and potential for success of the tourism development
	• information about other communities that have experience in establishing and developing tourism products
	• recommendations, including any alternative product offerings for the community to consider.

SITTPPD010A Develop and implement local or regional tourism plan

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and implement a strategic tourism plan in a local or regional areas. It requires the ability to develop the plan in consultation with the local community, implement all actions detailed in the plan and monitor all tourism activities for the area or region against the plan.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Developing a local or regional tourism plan involves a strategic focus on the overall and long-term operation of tourism as an industry within a local area or region. It is a key component of tourism planning and management.

This unit applies to senior tourism industry personnel from local, regional or state or territory tourism organisations that operate autonomously and have a strategic tourism planning role.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop plans for local or regional tourism.	1.1 Draft tourism plans within the context of the organisation's overall approach to tourism development within the region.
	1.2 Include an inventory of both ***tourism infrastructure*** and the carrying capacity of the region.
	1.3 Identify ***product and service gaps*** and the potential for future development, including use of emerging technologies.
	1.4 Draft plans to take account of the level of ***community and***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	industry resources available to implement the plan.
	1.5 Consider ***impact on the community***, including environmental, social, cultural and economic factors, and incorporate these into the planning process.
	1.6 Ensure development initiatives are both culturally and environmentally appropriate for the region.
	1.7 Conduct ***community consultation*** throughout the tourism planning process.
	1.8 Develop plans to include a clear strategic and tactical focus.
	1.9 Include scheduled course of action and evaluation methods.
	1.10 Submit plans to the appropriate authority for approval prior to implementation.
2 Implement local or regional tourism plans.	2.1 Implement actions detailed in the plan according to schedule and contingencies.
	2.2 Consult and involve the community in tourism issues on an ongoing basis.
3 Monitor and evaluate plans.	3.1 Monitor activities using the evaluation methods detailed in the plan on an ongoing basis to take account of progress towards objectives, evaluation of individual activities and need for changes to the plan.
	3.2 Submit required changes for consideration and approval by the appropriate authority.
	3.3 Implement and communicate agreed changes promptly.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication skills to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- conduct comprehensive consultation with the broad community and key community stakeholders
- facilitate information sessions, such as seminars and public meetings to elicit feedback and tactically present information
- critical thinking skills to facilitate rational and logical analysis of input from the broad community and key stakeholders
- high-level written literacy skills to develop both complex and plain English documents such as the overall plan, consultation questionnaires and information documents.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge of the main stakeholders in local, regional, state or territory, and national tourism organisations and the structures of these organisations at each level
- in-depth understanding of the main stakeholders and the environmental, social, cultural and economic aspects of the particular local regional area
- in-depth knowledge of current tourism operators and product base, and opportunities to extend these
- the key features of environmentally or culturally sensitive areas in the local or regional area
- in-depth knowledge of the distribution and marketing networks currently supporting the local or regional tourism product base, and opportunities to extend these
- in-depth knowledge of strategic and tactical community communication processes
- strategic planning techniques and practices.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • detailed knowledge of the full range of issues that apply to the planning, development and administration of tourism for a local or regional area and the distribution and marketing of particular products • ability to develop, implement and monitor a tourism plan for a specific local or regional area

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- ability to apply the total planning process to the development of a specific local or regional tourism plan
- ability to consult and communicate with the broad community and key stakeholders
- project or work activities conducted over a commercially realistic period of time so that the planning, evaluation and monitoring aspects of developing and implementing the plan can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped industry-realistic office environment using appropriate computers, communication technology, information programs and publications to facilitate the processes involved in developing and implementing a local or regional tourism plan
- access to a local or regional area for which the plan would be developed and implemented ***or*** access to comprehensive and sufficient information about that local or regional area to allow the candidate to develop, implement and monitor a strategic tourism plan
- access to current tourism industry data
- involvement of community stakeholders so that consultation can be achieved.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- project to develop, implement and monitor a tourism plan for a given local or regional area
- project activities to develop, implement and monitor a tourism plan in conjunction with a local, regional, or state or territory tourism organisation
- review of a completed tourism plan for a specific local or regional area
- case studies to assess the candidate's ability to evaluate communities with differing social, cultural and economic structures and issues
- case studies to assess the candidate's ability to evaluate local or regional areas with different tourism product

EVIDENCE GUIDE

bases, and distribution and marketing networks
- written and oral questioning or interview to test knowledge such as distribution networks, strategic and tactical community communication processes, strategic planning techniques and practices and the structures of tourism management organisations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD002A Research tourism data
- SITTPPD008A Develop host community awareness of tourism
- SITTPPD009A Assess tourism opportunities for local communities
- SITXMPR005A Develop and manage marketing strategies.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Tourism infrastructure may include:	• transport • accommodation • attractions • retail • visitor information services • tours • conference facilities.
Product and service gaps may relate to:	• inability to service current demand • inappropriate operating practices for the current market place • opportunities for new products and services • assessment of region to meet current and future customer expectations.
Community and industry resources may relate to:	• local government resources • local tourist associations or other industry bodies • preparedness of individual tourism operators to contribute to the plan • expertise of those likely to implement the plan • current market position of the destination • opportunities for sponsorship • opportunities for cooperative approaches • potential for state or federal assistance • local skill profile.

Impact on the community may include:	• benefits:
	  • economic benefits to local community
	  • improved local facilities
	  • employment opportunities
	  • cultural benefits, including cultural preservation
	  • visitor education
	  • greater understanding between host and visitor cultures
	• costs:
	  • trivialisation of culture
	  • effect on social structures
	  • damage to environmentally or culturally sensitive

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

areas.

Community consultation may include:	• conduct of seminars and public meetings to gain community input • formal and informal research activities within the local community • involvement of community representatives on planning steering committees • activities to gain community support for the planning process prior to commencement • publication and display of draft plans for community comment.

SITTTOP001A Allocate tour resources

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to allocate human and physical resources to ensure efficient and effective tour operations. It requires the ability to correctly interpret operational documentation in order to identify and allocate appropriate types and quantities of resources to meet operational needs.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit has particular application to tour operators who operate day tours or tours of several days' duration to one or more destinations and who may use any form of transportation or operate walking tours. The unit can also apply to attraction and theme park activities.

Resource allocation requires the application of significant planning, organisational and contingency management skills and this role is generally undertaken by senior personnel who operate autonomously or under limited guidance from others. Tour resources are allocated by people such as operations managers, owner-operators of a tour operating business, senior tour guides and senior driver guides.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify resource requirements.	1.1 Liaise with appropriate colleagues and other departments to identify ***tour or activity resource requirements***.
	1.2 Interpret ***operational documentation*** and determine resource requirements that specifically meet the product delivery requirements of the tour or activity.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Allocate resources to meet operational needs.	2.1 Organise human and physical ***resources*** to comply with organisation requirements for long and short-term planning.
	2.2 Identify ***risks involved with resources*** and make resource allocation contingency plans to avoid disruption to tour or activity.
	2.3 Coordinate resources to meet the needs of the particular tour or activity and specific customer requirements.
	2.4 ***Allocate resources*** according to predetermined tour costings to minimise waste and maximise profitability.
	2.5 Allocate resources according to maintenance, safety and other statutory requirements.
	2.6 Provide colleagues and customers with resource information in a timely manner.
	2.7 Prepare and distribute accurate and sufficiently detailed ***documentation***, minimising use of printed materials and maximising electronic transmission of all documents to reduce negative environmental impacts.
	2.8 Action any contingency arrangements when required.
	2.9 Recognise any changes in resource priorities and make necessary adjustments.
	2.10 Organise any necessary additional or external resources.
3 Monitor and adjust resource allocation.	3.1 Monitor and adjust efficiency and effectiveness of resource allocation.
	3.2 Provide and seek regular and accurate feedback to and from colleagues to facilitate continuous improvement of the operation.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- communication skills to liaise with other departments on resource requirements and provide and seek regular feedback on efficiency of resource allocation
- numeracy skills to calculate and allocate appropriate numbers of required touring resources and calculate costs within a predetermined budget
- literacy skills to read and interpret complex technical itineraries, sales and reservations data
- writing skills to be able to prepare documents such as rosters, resource schedules and operational itineraries.

The following knowledge must be assessed as part of this unit:

- in-depth product knowledge of all elements of the tour or activity being operated
- the existence and key aspects of the relevant federal, and state or territory legal compliance requirements for both human and physical resource allocation
- principles of planning and scheduling that relate to tour operations and resource allocation
- systems and documentation used by tourism operators to control resource allocation
- operational, sales and reservations data appropriate to particular sector or workplace.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of the legal and safety requirements that impact on resource allocation in tour operations • ability to identify and cost effectively allocate the full range of resources required for the effective and efficient operation of multiple tours • project or work activities showing the candidate allocating resources for a nominated operation on multiple occasions • ability to cope with the time pressures and other work constraints that generally apply to the resource allocation role, including problems and the need for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

contingency management.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic tourism operation where resources would be allocated, e.g. an office environment or tour operating depot using appropriate computers, printers, database programs currently used within the industry for resource allocation
- access to operational, reservations and sales data in order to identify the required resources.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to allocate tour resources. The following examples are appropriate for this unit:

- review of resource allocation activities undertaken by the candidate for a specific tour operation, conducted with the involvement of an industry operator
- review of actual allocation documentation and reports prepared by the candidate
- case studies to assess ability to allocate resource for specific operating circumstances
- written and oral questioning or interview to test knowledge of safety and legal knowledge required to allocate appropriate resources
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITXHRM003A Roster staff.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and broadly consistent across industry sectors. How these skills are applied varies between occupations and between qualifications due to the different work function and context.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Employability skills embedded in this unit should be assessed holistically with other relevant units which make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Tour or activity resource requirements may be for:

- single tour or activity
- tour or activity series.

Operational documentation may include:

- paper-based or electronically transmitted materials
- reservations and sales data
- tour schedules
- technical or operations itineraries
- passenger or customer profiles, including special requests.

Resources may include:

- human resources, including:
  - drivers
  - tour guides
  - tour managers
  - drivers and guides
  - hostesses
  - camp site cooks
  - interpreters
  - specialist tour leaders
- physical resources, including:
  - vehicles
  - vessels and aircraft

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- any form of transportation
- camping equipment
- catering equipment
- safety equipment
- first aid equipment
- spare parts or equipment
- recreational equipment
- maintenance equipment
- educational equipment
- communication equipment
- consumable goods.

Risks involved with resources may include:

- breakdown
- complete equipment failure
- wear and tear
- exhaustion of regulated equipment or human resource hours during tour or activity
- over allocation of consumable goods and associated wastage
- inadequate equipment to meet the needs of the tour or activity
- sickness or injury to personnel.

Allocate resources may be:

- manual
- by computer.

Documentation may include:

- staffing rosters
- schedules allocating specific duties
- schedules allocating specific physical resources
- operational itineraries giving details of specific resources allocated.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify requirements.	1.1 Interpret ***operational tour documentation*** to accurately identify the range of ***equipment and supplies*** required.
2 Check equipment and supplies.	2.1 Select and check equipment and supplies against documented requirements for correct quantity to minimise waste and maximise profitability and to ensure appropriate quality
	2.2 Conduct safety checks according to organisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	procedures and statutory requirements.
	2.3 Identify shortfalls and problems promptly, report these and follow up to ensure rectification.
3 Load equipment and supplies.	3.1 Load equipment and supplies using safe ***manual handling techniques*** to avoid injury.
	3.2 Take account of terrain to be covered and the need for access to equipment and supplies when loading equipment and supplies.
	3.3 Identify any ***hazardous items*** and load these to minimise any health or safety risks.
	3.4 Inspect load prior to departure to ensure that all items are stored in an appropriate position to allow ease of access and avoid damage and risk of injury.
4 Complete documentation.	4.1 Complete accurate ***pre-departure documentation*** according to organisation and statutory requirements.
	4.2 Report any identified problems and suggest improvements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- vehicle or vessel loading techniques appropriate to workplace
- safe handling techniques for hazardous items
- safe manual handling techniques
- numeracy skills to calculate, count and load appropriate numbers of required touring equipment and supplies
- literacy skills to read and interpret documents such as technical itineraries, checklists, tour briefs, and passenger profiles providing details of types and amounts of equipment and supplies to be loaded
- writing skills to be able to complete pre-departure documents such as checklists, basic fault reports and supply lists.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

basic product knowledge of the tours being operated

- working knowledge of the operation of the equipment used and supplies required for the tours being operated
- the fundamental features of hazardous items and safe methods of packing in various forms of transportation to minimise injury
- thorough understanding of the contents of operational tour documentation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge of the fundamental features of hazardous items and safe methods of packing in various forms of transportation to minimise injury
- ability to check and effectively load equipment and supplies for multiple tours according to operational documentation
- project or work activities that show the candidate conducting pre-departure checks for a nominated operation on multiple occasions
- completion of loading and pre-departure checks within typical workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a venue, such as an operational depot where pre-departure checks take place
- access to the full range of supplies and equipment used in the operation of a tour
- realistic ratios of operational staff to equipment and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

supplies
- use of a full range of operational tour documentation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate loading equipment and supplies and conducting pre-departure checks
- review of loading and checking plans, notes or operational checklists prepared by the candidate
- written and oral questioning to test knowledge of OHS issues and legislative requirements pertaining to loading and checking equipment and supplies
- written and oral questioning to test knowledge of the candidate's interpretation of operational tour documentation
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

TLIC107C Drive vehicle

TLIC807C Drive coach/bus

SITTTOP006B Operate tours in a remote area.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Operational tour documentation may include:

- passenger lists
- rooming lists
- passenger profiles, including special requests
- passenger descriptive itinerary
- technical or operations itinerary
- written tour brief
- catering information
- itemised lists of required supplies and equipment.

Equipment and supplies:

- may include:
  - camping equipment
  - catering equipment
  - maintenance equipment
  - recreational equipment
  - educational equipment
  - protective clothing and equipment
  - communication equipment
  - fuel
  - water
  - food and beverage
  - luggage
  - medication and first aid kit
  - commercial cargo
- may be loaded on:
  - vehicles
  - vessels
  - any other form of transportation.

Manual handling techniques may involve:

- lifting
- shifting
- using equipment to assist lifting or shifting
- seeking assistance from others.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Hazardous items may include:	• sharp tools or equipment • glass containers or bottles • gas containers • aerosols, which are heat-sensitive • medication • petrol, fuel or inflammable materials.
Pre-departure documentation may include:	• completed checklists • basic fault reports • supply lists.

Unit Sector(s)

SITTTOP003B Operate and maintain a 4WD tour vehicle

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to utilise features of a four-wheel drive (4WD) vehicle and perform simple maintenance on those vehicles. It relates ***only*** to the specialist skills and knowledge for 4WD vehicles, not to general driving and maintenance skills.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to tour operators who operate day tours or tours of several days' duration to one or more destinations using 4WD vehicles as the form of transportation. Personnel who operate with some level of autonomy or under limited supervision and guidance from others are responsible for driving these specialist vehicles. This function is undertaken by people such as owner-operators of a tour operating business, tour guides and driver guides.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units

This unit must be assessed with or after the following prerequisite units.

TLIB307C Carry out vehicle servicing and maintenance

TLIC107C Drive vehicle.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Use the features of a 4WD vehicle.	1.1 Identify situations where the engagement of 4WD is required and correctly engage 4WD when necessary.
	1.2 Assess ***risks to customers***, ***self and other road users*** and operate ***4WD vehicles*** correctly and safely both on and off road to minimise any risks.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.3 Advise customers of any special safety precautions to be taken when traversing rough terrain.
	1.4 Use the special features of a 4WD vehicle correctly, safely and responsibly to navigate a ***range of terrain types***.
2 Conduct driving activities with minimal impact.	2.1 Drive the 4WD vehicle to ensure minimal ***negative impact to the environment*** and maximum comfort and safety of passengers.
	2.2 Conduct all activities according to special permit requirements and report any incidents to the relevant agency.
	2.3 Monitor the quality of tracks and report any deficiencies or damage to the relevant agency.
	2.4 Minimise the effects of noise on local communities.
3 Recover 4WD vehicles.	3.1 Use a range of techniques to ***recover*** vehicles from ***adverse terrain*** correctly and safely ***where required***.
	3.2 Consider customer, driver and crew safety throughout the recovery exercise.
	3.3 Perform any required post-recovery repairs correctly and according to the level of technical expertise available.
4 Perform maintenance and minor repairs on 4WD vehicles.	4.1 Select and access maintenance equipment, including spares and fluids prior to tour departure according to the duration of tour, type of terrain to be covered and remoteness of area to be visited.
	4.2 Check vehicle regularly prior to and during tour and perform correct ***routine repair and maintenance tasks*** according to maintenance schedule.
	4.3 Make any required vehicle performance reports promptly to the designated person.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- efficient and safe 4WD handling techniques
- defensive driving techniques for off-road driving hazards
- communication skills to provide clear verbal advice to customers on safety precautions
- literacy skills to read road and off-road signage, vehicle manuals and manufacturer's basic maintenance and repair guidelines
- writing skills to complete basic vehicle performance reports and checklists.

The following knowledge must be assessed as part of this unit:

- all features and handling characteristics of 4WD vehicles
- differences between 2WD and 4WD vehicles and the effect on vehicle operation and capability
- off-road driving hazards
- the key health and safety issues to be considered when operating 4WD vehicles
- common ways in which 4WD vehicles can damage or negatively affect the social and natural environment and minimal impact practices to reduce these
- the key contents of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia
- the existence and basic aspects of state, territory and local government environmental and local community protection laws and regulations and actions that must be adhered to by 4WD tourism operators
- key permit requirements for operating 4WD vehicles in a designated areas, including when in national parks and on land under the control of traditional owners
- land management guidelines for operating 4WD vehicles.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment Evidence of the following is essential:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

and evidence required to demonstrate competency in this unit

- ability to use the features of a 4WD safely, correctly and with minimal environmental impact to navigate a full range of terrain that will vary according to the touring and organisation location
- knowledge of the negative environmental impacts of operating a 4WD and minimal impact practices
- knowledge of the, safety and regulatory issues that relate to 4WD operation
- ability to safely apply a full range of recovery techniques to 4WD vehicles
- knowledge of and ability to apply a full range of repair and maintenance techniques specific to 4WD vehicles.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills in an off-road environment that requires the application of the required range of 4WD techniques and recovery skills and in which touring activities may take place, such as remote area national park or very steep terrain
- use of a 4WD vehicle typically used in touring situations and loaded to reflect operational conditions
- access to vehicle performance reports
- access to current regulatory documents distributed by key land management agencies and federal, state or territory, and local governments, such as plain English legislative publications, codes and standards outlining environmental regulatory requirements
- use of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate using the features of a 4WD vehicle, using recovery techniques and performing minor repairs and maintenance on the vehicle
- review of maintenance schedules prepared or completed by the candidate
- review of recovery reports completed by the candidate
- written and oral questioning or interview to test

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

knowledge of OHS issues and legislative requirements pertaining to operating 4WD vehicles

- written and oral questioning or interview to test knowledge of environmental and community impact of operating 4WD vehicles
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITTTOP006B Operate tours in a remote area.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Risks to customers, self and other road users may include:

- rolling a vehicle
- causing a vehicle to become bogged
- delaying other road users by obstructing access with incapacitated vehicle
- injury to self and others.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

4WD vehicles may be:	• diesel powered • petrol powered • made to manufacturer's standard • specially configured for touring • small capacity seating • multi-seat vans • large or small coaches.
Range of terrain types must include:	• steep inclines • very soft ground • rocky areas • sand • water crossings • mud or black soil.
Negative impact to the environment may include:	• disturbance or injury to fauna • physical damage to flora • damage to roads, tracks and fire trails • pollution from vehicle emissions • noise disturbance to the local community • damage to culturally sensitive areas or sites.
Recovery may involve:	• winching • rocking vehicle free of an obstruction or bog • removing vehicle from a bog • removing vehicle from a water crossing.
Adverse terrain must include:	• steep inclines • very soft ground • rocky areas • sand • water crossings • mud or black soil.
Routine repair tasks may include:	• replacing blown globes in vehicle lights • replacing broken fan belts

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- replacing blown fuses
- fixing or replacing door mirrors
- repairing rear tail-light lens
- changing wheels in uneven terrain
- changing of tyres
- repairing tyre punctures
- replacing broken coolant hose
- bleeding brakes
- bleeding a diesel engine.

Routine maintenance tasks may include:

- topping up of water levels
- replacement of oils
- replacement of air in tyres.

SITTTOP004B Set up and operate a camp site

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to set up and operate a camp site for camping tours. It requires the ability to operate the camp site within the requirements set by any permit conditions and land management guidelines. It also requires the ability to provide for the safety of customers and ensure low environmental impact.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to tour operators operating tours involving overnight stays at temporary or semi-permanent camp sites. Camping tours might involve one or more overnight stays and might be to one or more destinations. Personnel who operate with some level of autonomy or under limited supervision and guidance from others are responsible for setting up and operating the camp site. This function is undertaken by people such as owner-operators of a tour operating business, tour guides and driver guides.

Licensing/Regulatory Information

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Select a camp site.	1.1 Access the ***camp site*** according to tour itinerary, relevant permits, agreement of land owners and other statutory requirements.
	1.2 Where no designated area exists, select a site to ensure comfort, safety and minimal ***negative environmental impact***.
	1.3 Identify any ***camp site hazards***, assess associated risks and eliminate or minimise the hazards.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Set up a camp site.	2.1 Set up the ***camp site facilities*** in the most appropriate position to ensure comfort, safety and minimal environmental impact. 2.2 Arrange appropriate shelter for the prevailing weather and conditions. 2.3 Identify and access any required water sources. 2.4 Construct any required camp fires in a safe location and ensure there is no danger to the crew, customers and environment during the construction.
3 Operate a camp site.	3.1 Operate ***camping equipment*** correctly and according to manufacturer instructions and safety guidelines. 3.2 Establish and follow environmentally-friendly rubbish and human waste disposal procedures. 3.3 Brief customers on waste disposal requirements, agree to procedures and monitor adherence at all times. 3.4 Discuss and agree upon acceptable camp site behaviour with customers. 3.5 Operate any camp fires within land management guidelines and ensure there is no danger to the crew, customers and environment during the use of the fire.
4 Break camp.	4.1 Dismantle, pack and store all equipment using safe lifting and handling techniques to avoid injury. 4.2 Remove all rubbish from the site where disposal facilities are not available. 4.3 Extinguish camp fires fully to ensure there is no danger to the environment. 4.4 Check the site prior to departure to ensure all equipment and belongings have been removed. 4.5 Leave the camp site in the original or improved condition.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- safe manual handling techniques
- efficient and safe camping equipment handling techniques
- communication skills to provide clear verbal advice to customers on waste disposal requirements and camp site behaviour
- literacy skills to read tour itineraries and customer information, required permit conditions, camp site or land use signage, and manufacturer's basic equipment operational guidelines.

The following knowledge must be assessed as part of this unit:

- the key health and safety issues to be considered when setting up, operating and breaking down a camp site
- the key operational features of commonly-used camping equipment
- the key features of a desirable camp site
- the cultural or environmental sensitivity of camp sites and surrounding areas and minimal impact practices for setting up, operating and breaking down a camp site
- correct and environmentally sound disposal methods for waste including human waste
- the key contents of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia
- the existence and basic aspects of state, territory and local government environmental and local community protection laws and regulations and actions that must be adhered to when operating a camp site
- key permit requirements for camp sites, including when camping in national parks and on land under the control of traditional owners
- land management guidelines for operating camp sites an open fires
- issues relating to the safe use of open fires in camp sites.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to select, set up and safely operate a camp site, including operating a range of camping equipment, with minimal negative environmental and social impact
- knowledge of the negative environmental impacts of operating a camp site and minimal impact practices
- knowledge of the, safety and regulatory issues that relate to camp site operation
- candidate setting up and operating a camp site for a minimum of one night.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills in an environment suitable for camping
- involvement of a group for or with whom the site is set up and operated
- use of the full range of camping equipment used on tour to reflect local industry conditions
- access to current regulatory documents distributed by key land management agencies and federal, state or territory, and local governments, such as plain English legislative publications, codes and standards outlining environmental regulatory requirements
- use of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to set up and operate a camp site on tour. The following examples are appropriate for this unit:

- direct observation of the candidate completing tasks to safely set up, operate, and dismantle and clean a camp site
- review of operational plans and checklists prepared and completed by the candidate
- review of post-tour reports completed by the candidate
- evaluation of feedback from group members who have participated in a camping tour coordinated by the candidate
- written and oral questioning or interview to test

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

knowledge of camping procedures and equipment, OHS issues and legislative requirements pertaining to operating a camp site

- written and oral questioning or interview to test knowledge of environmental and community impact of operating camp sites
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITTTOP002A Load touring equipment and conduct pre-departure checks

SITTTOP005A Provide camp site catering

SITTTOP006B Operate tours in a remote area.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Camp site may be:

- permanent
- semi-permanent (seasonal)
- temporary.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Negative environmental impact may include:	• disturbance or injury to fauna • physical damage to flora • damage to camp sites and surrounding areas • instigation of bush fire due to incorrect management of open fires • pollution from waste • noise disturbance to the local community • damage to culturally sensitive areas or sites.
Camp site hazards may include:	• unstable ground • rocky and uneven ground • poor access to facilities • unstable trees or tree branches • insufficient distance and protection from local wildlife • insufficient shade and protection from other weather elements • swollen creeks or rivers and possible flood activity.
Camp site facilities may include:	• tents • wash areas • entertainment or scenic viewing areas • dining and cooking areas • latrines • fire sites • pathways.
Camping equipment may include:	• tents • sleeping equipment • cooking equipment • tables and chairs • cleaning equipment • lights and groundsheets • heating facilities • first aid kit • cutting equipment and tools.

ELEMENT	PERFORMANCE CRITERIA
	dietary requirements.
	1.4 Identify any ***food safety hazards*** involved in storing, preparing and serving planned meals, assess risks and take action to eliminate or minimise them.
2 Store and maintain camp site food and beverages.	2.1 Select and correctly use appropriate ***storage equipment***.
	2.2 Store all ***food and beverage*** items safely and hygienically, according to particular requirements.
	2.3 Monitor the quality of food and beverages throughout the tour and make any required adjustments to storage.
3 Prepare and serve meals.	3.1 Check and clean food preparation equipment as required.
	3.2 Treat water, if required, to ensure suitability for human consumption.
	3.3 Use a range of ***food preparation techniques*** and ensure that food is prepared in a safe and hygienic manner.
	3.4 Use a range of ***cooking methods*** to prepare the required meals.
	3.5 Prepare meals for customers at the appropriate times and within accepted timeframes.
	3.6 Serve food to customers according to individual preferences and with regard to safe hygiene practices.
4 Clear and clean catering equipment.	4.1 Clear and clean utensils and equipment in a safe, hygienic and environmentally-sound manner.
	4.2 Remove all rubbish from the site where disposal facilities are not available and store remaining foodstuffs safely and hygienically.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- general food preparation and cooking techniques that are commonly used in a camp site environment
- numeracy skills to calculate appropriate numbers of meals and proportions of ingredients
- literacy skills to read cooking and storage instructions provided by the food manufacturer and passenger profiles, which include special dietary requests.

The following knowledge must be assessed as part of this unit:

- the general principles of nutrition in relation to providing a balanced diet for customers
- the key features and operation of common camp site catering equipment
- thorough understanding of food safety issues that specifically relate to camp site catering
- correct and environmentally sound disposal methods for camp site catering waste.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to safely and hygienically prepare food in a camp site environment for touring customers using a range of common preparation and cooking techniques • knowledge of food safety issues, especially as they relate to off-site catering • knowledge of general nutritional principles and the range of food options available for camp site catering • setting up, operating and breaking down camp site catering equipment and preparing and serving meals within typical workplace or touring time constraints.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills within a camp site environment • access to the full range of catering equipment and

role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Touring and customer factors that must be considered are:

- budget
- duration of trip
- number of passengers
- climate
- special dietary requirements
- facilities and equipment available for cooking
- availability of supplies.

Special meals may involve:

- providing vegetarian meals
- catering for those with food allergies
- catering for those with cultural dietary requirements.

Food safety hazards may include:

- no access to refrigeration or appropriate cooling facilities for perishable goods
- minimal or no facilities to properly wash perishable foodstuffs, and cooking and storage equipment
- contaminated water supplies.

Storage equipment may involve:

- refrigeration
- ice boxes
- dry goods storage containers.

Food and beverages may be:

- fresh
- frozen
- dehydrated

SITTTOP006B Operate tours in a remote area

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to operate any style of tour in a remote area and requires specific abilities in bush craft and survival and the use of communication equipment. It requires the ability to operate remote tours within the requirements set by any permit conditions and land management guidelines. It also requires the ability to provide for the safety of customers and ensure low environmental impact.

This unit does not cover complementary skills in operating camp sites and providing catering, which are covered by other units in the Tour Operations field.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to tour operators who operate day tours or tours of several days' duration to single or multiple remote area destinations and who may use any form of transportation or operate walking tours. Remote area touring might involve sightseeing and recreational activities. Personnel who operate with some level of autonomy or under limited supervision and guidance from others are responsible for operating this style of tour. This function is undertaken by people such as owner-operators of a tour operating business, senior tour guides and senior driver guides.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Use bush craft and survival techniques.	1.1 Identify ***current hazards in accessing and operating in the remote area***, assess risks and action contingency plans to eliminate or control the risks.
	1.2 Read maps and use ***navigation and communication equipment*** accurately to find tour destinations and to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	navigate the return journey.
	1.3 Share bush craft knowledge with customers to enhance the ***tour experiences*** and employ their help, if required.
	1.4 Employ ***bush craft and survival techniques*** in remote areas in ***emergency situations*** to source water, food and shelter and to signal for help or rescue.
2 Operate remote area communications equipment.	2.1 Tune and adjust equipment to ensure that incoming and outgoing communications can be clearly transmitted.
	2.2 Obtain and select correct communication address to make outgoing communication.
	2.3 Operate communications equipment correctly at the appropriate times to establish contact and according to organisation procedures and safety requirements.
	2.4 Relay and receive messages speaking at a volume and tone and using the phonetic alphabet or radio call signs to allow the other party to hear clearly and understand the message.
	2.5 Provide appropriate response to caller, respond to requests for action or information and confirm that requests have been actioned.
3 Conduct remote area touring activities with minimal impact.	3.1 Conduct the tour to ensure minimal ***negative impact to the environment*** and maximum comfort and safety of passengers.
	3.2 Conduct all activities according to special permit requirements and report any incidents to the relevant agency.
	3.3 Monitor the quality of culturally or environmentally sensitive areas or sites and report any deficiencies or damage to the relevant agency.
	3.4 Minimise the effects of noise on local communities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- bush craft and survival techniques
- map reading and use of navigational equipment
- high-level problem-solving skills, specifically in relation to the operation of tours in a remote area, and sufficient to assess and solve problems with limited assistance
- numeracy skills to calculate distances between various declinational points
- literacy skills to read and interpret complex remote area maps and manufacturer's guidelines for the use of communications equipment.

The following knowledge must be assessed as part of this unit:

- all operational features of remote area communication methods and equipment
- international radio call signs
- the key features and all operational aspects of equipment and supplies needed for remote area touring
- the cultural or environmental sensitivity of remote areas to be visited and use of minimal impact practices to protect and sustain these
- correct and environmentally sound disposal methods for waste including human waste
- the key contents of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia
- the existence and basic aspects of state, territory and local government environmental and local community protection laws and regulations and actions that must be adhered to when operating in remote areas
- key permit requirements for remote areas, including when operating in national parks and on land under the control of traditional owners.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment Evidence of the following is essential:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

and evidence required to demonstrate competency in this unit

- ability to safely operate tours in remote areas with minimal negative environmental and social impact
- ability to apply bush craft and survival techniques in a remote area
- knowledge of the negative environmental impacts of operating tours in remote areas and minimal impact practices
- knowledge of the, safety and regulatory issues that relate to remote tour operationproject or work activities that show the candidate effectively assessing and responding to a range of emergency situations
- ability to integrate general problem-solving skills with the technical skills required for operation of tours in remote areas
- ability to deliver tours within remote areas within the time and other operational constraints of a pre-planned tour itinerary.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills while leading tours in remote areas where bush craft and survival techniques would be required
- access to the full range of transportation, communications, navigation and other equipment used on remote tours
- involvement of appropriate numbers of touring customers to reflect local industry needs and product profile
- access to current regulatory documents distributed by key land management agencies and federal, state or territory, and local governments, such as plain English legislative publications, codes and standards outlining environmental regulatory requirements
- use of industry ecotourism codes of practice, especially that of the Ecotourism Association of Australia.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to operate tours in a remote area. The following examples are appropriate for this unit:

- direct observation of the candidate using bush craft and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

survival techniques
- direct observation of the candidate receiving and relaying communications
- review of operational plans and checklists and post-tour reports prepared and completed by the candidate
- written and oral questioning or interview and role-plays to test appropriate assessment and response to a range of remote area emergency situations
- written and oral questioning or interview to test knowledge of such things as safety issues, the principles of bush craft and survival techniques, regulatory issues and minimal impact practices
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTOP002A Load touring equipment and conduct pre-departure checks
- SITTTOP004B Set up and operate a camp site.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

performance criteria is detailed below.

Current hazards in accessing and operating in the remote area may include:

- inclement weather
- flooding
- animal or insect infestation
- civil uprising
- landslips
- blocked roads
- damaged facilities
- lack of available supplies
- disease, illness, injury and death.

Navigation and communication equipment may include:

- compass
- global positioning system (GPS)
- radio communication equipment
- emergency position indicating radio beacon (EPIRB).

Tour experiences may include:

- walking
- four-wheel drive sightseeing
- boating and cruising
- aerial sightseeing
- fishing
- any recreational or adventure activity
- any outdoor activity.

Bush craft and survival techniques may involve:

- building temporary shelter
- sourcing water
- sourcing food
- navigating when lost
- navigating when maps and navigation equipment fail
- signalling for help when communications equipment fails.

Emergency situations in a remote area may involve:

- any form of injury or illness to self or customer
- heat exhaustion and heat stroke
- hypothermia
- falls

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- accidental crash of vehicle or vessel
- dangerous bites or stings
- failure of transportation or communications equipment.

Negative environmental impact may include:

- disturbance or injury to fauna
- physical damage to flora
- damage to camp sites and surrounding areas
- instigation of bush fire due to incorrect management of open fires
- pollution from waste
- noise disturbance to the local community
- damage to culturally sensitive areas or sites.

SITTTSL001A Operate an online information system

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to operate an online information system, which can include the internet and any intranet system. It requires the ability to determine information requirements and locate, check and download information.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key sales and operational function for a diverse range of domestic and international tourism and hospitality products and services and applies to the full range of industry sectors. The online system used will vary according to the organisation and industry sector but can include the internet, and any internal or external tourism information database.

This unit has particular application to those personnel who provide tourism information as a key focus of their job role. It applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. The role is undertaken by a diverse range of people such as visitor information officers, retail travel consultants, corporate consultants, inbound tour coordinators, account managers for professional conference organisers, event coordinators, tour guides, hotel guest relations officers, tour desk officers, reservations sales agents and owner-operators of small tourism businesses.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Access online information.	1.1 Identify information requirements.
	1.2 Identify sources of information and access the correct ***online information systems*** in an efficient manner.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.3 Select appropriate search methods for the type of ***information*** required.
	1.4 Use key words and phrases to search for required information.
	1.5 Use and manipulate the ***features of the system*** to access the full range of required information.
2 Check and download information.	2.1 Ensure that the information accessed meets the required scope and purpose.
	2.2 Conduct a further search if information is insufficient.
	2.3 Select the required information.
	2.4 Place an order for any information required to be purchased.
	2.5 Download and save information according to system procedures and organisation requirements.
	2.6 Organise information in a suitable format for use.
	2.7 Use information in an ethical manner and according to organisation procedures and privacy, copyright and intellectual property requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic keyboarding skills
- electronic file handling skills, including saving, copying
- literacy skills to determine and correctly spell key search words and phrases and to read and follow online instructions for searching and downloading information.

The following knowledge must be assessed as part of this unit:

- role of online information systems in the tourism industry
- functions of the information system

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- basic understanding of privacy, copyright and intellectual property requirements as they relate to copying and using online information.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to source and retrieve multiple types of information from an automated system, ideally as a component of integrated work activity and in response to multiple customer requests covering a range of tourism products and services
- ability to manipulate the functions of the system to efficiently access the information
- completion of activities to access and retrieve a range of information within typical workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped industry-realistic office environment using appropriate computers and information systems currently used in the tourism industry to store tourism related information (the internet could be one of these) ***or*** demonstration within the applicable information provision environment for the sector, such as a conference venue for the Events sector.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of integrated activities completed by the candidate, which may include sourcing information on

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

destinations, selling products, providing quotations and issuing documents
- review of information samples sourced by the candidate to meet particular customer needs
- direct observation of the candidate using the system in response to specific requests
- written and oral questioning or interview to test knowledge of the role of information systems within the tourism industry, system features and copyright requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBCMN205A Use business technology
- SITTTSL002A Access and interpret product information
- SITTTSL003A Source and provide international destination information and advice
- SITTTSL004A Source and provide Australian destination information and advice.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

SITTTSL002A Access and interpret product information

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to access and interpret specific details about tourism products correctly and accurately. This unit does not cover detailed interpretation of airfare information which is covered by a range of other Tourism Sales and Operations units.

Any organisation that sells travel insurance to a retail client must meet the requirements of the Financial Services Reform Act (2001). In particular, sales personnel must complete a course delivered by the insurance provider in order to interpret provisions of the insurance policy and provide advice to customers on its purchase.

No occupational licensing requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key sales and operational function for a diverse range of domestic and international tourism and hospitality products and services and applies to the full range of industry sectors.

The range of product knowledge required and the application of that information will vary according to the industry sector, workplace and job role. This unit does not require an in-depth knowledge of every product but focuses on the ability to collect and interpret any sort of tourism product information to fulfil any sales or operational need.

The unit applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as visitor information officers,

1 Identify and access product information.	1.1 Identify and access sources of ***product*** information. 1.2 Select appropriate ***sources*** according to organisation policy, commercial agreements and specific needs. 1.3 Source ***specific product information*** to meet the ***particular sales or operational need***.
2 Interpret product information.	2.1 Interpret general information and apply this to meet the particular sales or operational need. 2.2 Interpret ***specific details about the product*** and accurately apply this information to meet the particular sales or operational need. 2.3 Interpret any ***special jargon or specifications*** in product information and accurately apply these to meet the particular sales or operational need. 2.4 Identify and assess any customer, sales or operational ***risks that relate to the product*** and apply these to meet the particular sales or operational need.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- verbal and written use of the 24-hour clock
- literacy skills to read and interpret complex product information, including terms and conditions of their sale
- writing skills to summarise information.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- sources of tourism product information and specific product types
- major categories of tourism products and services
- industry terminology and common abbreviations in relation to major product categories
- specific legal issues relating to the interpretation of different types of tourism products.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to access and interpret information on different categories of tourism products, ideally as a component of integrated work activity and to meet the different needs of multiple customers
- knowledge of product terminology and procedures
- project or work activities that show the candidates' ability to access and interpret product information within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes
- accessing and interpreting product information within typical workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic office environment using appropriate publications, computers, printers and information programs currently used in the tourism industry to store tourism related information ***or*** demonstration within the applicable sales or operational environment for the sector, e.g. a conference venue for the Events sector or

RANGE STATEMENT

- food, beverage and catering
- currency and banking services.

Sources of product information may include:

- principal or supplier of the product
- product library
- internet, intranet and extranet
- organisation-designed information systems, e.g. inventory control database
- state and federal government tourism authority information systems
- international government tourism authority information systems
- centralised reservations system (CRS)
- global distribution system (GDS).

Specific product information may be found in:

- brochures
- e-brochures
- timetables
- tariff sheets
- confidential tariffs
- sales kits
- supplier information kits
- product manuals
- advertising flyers
- manufacturer specifications.

Particular sales or operational need may include:

- providing destination and specific product information and advice
- providing specific information and advice about the credentials of the tourism operator in minimising negative environmental, social and cultural impacts
- selling tourism products to the customer
- preparing quotations
- booking and coordinating a supplier service for the customer
- receiving and processing a reservation from a customer
- processing financial transactions
- issuing customer travel documentation
- issuing crew documentation, e.g. operational or

SITTTSL003A Source and provide international destination information and advice

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to source and provide information and advice for international destinations, including general product information such as what types or styles of product a destination offers. The unit requires the ability to identify appropriate information sources and research destinations in order to develop, update and maintain a general destination knowledge base relevant to the industry sector and job role.

More specific and detailed product knowledge is covered in SITTTSL002A Access and interpret product information. Selling skills are covered in SITTTSL005A Sell tourism products and services.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key sales and operational function for a diverse range of international tourism products and services and applies to the full range of industry sectors.

Tourism operators such as retailers and tour wholesalers can specialise in one international destination or cover multiple destinations. The range and depth of destination knowledge required will vary according to the industry sector, workplace and job role. This unit does not require in-depth knowledge of every destination sold by every style of tourism operator but focuses on the ability to collect and interpret destination information to fulfil a particular sales or operational need.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The unit applies to frontline sales and operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, corporate consultants, account managers for professional conference organisers, event coordinators, tour managers and reservations sales agents.

Because of the broad industry application of this unit and the variances in the essential general knowledge base, it is critical that assessment is contextualised to meet the requirements of the specific industry sector, local tourism industry operations and the particular needs of the job role. Providers of pre-employment training programs must cover a broad range of destination knowledge in order to provide a choice of vocational outcomes. Funding and hours allocated to training must reflect the breadth and depth of knowledge required.

Licensing/Regulatory Information

Not applicable.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop knowledge of international destinations.	1.1 Identify and access ***information sources*** with current and accurate information on international destinations. 1.2 Obtain information on ***features of the international destination*** and the general style of tourism products available. 1.3 Obtain ***key information on geographical features*** and ***current health and safety features*** of the international destination. 1.4 Identify and obtain ***general information on different tourism products*** available to meet different customer needs. 1.5 Record and ***store destination information*** for future use according to organisation systems.
2 Update knowledge of international destinations.	2.1 Use ***formal and informal research*** to update destination and general product knowledge. 2.2 Seek feedback from colleagues and customers on experience with international destinations and provide this to other organisations where appropriate. 2.3 Share updated information with colleagues according to organisation procedures.
3 Provide information and advice on international destinations.	3.1 Accurately identify the specific information and advice needs of the customer. 3.2 Provide a range of current and accurate destination and general product information and advice in a timely

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	manner and according to organisation procedures.
	3.3 Refer customers to current sources of ***health***, ***safety and regulatory information***.
	3.4 Ensure that the scope and depth of the information are appropriate to customer needs.
	3.5 Present the information and advice in an appropriate format and style.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills
- communication skills to identify the information needs of customers and seek and provide feedback on international destinations; specifically actively listening, questioning and verbal summary of information
- literacy skills to source, read and interpret general information on destinations and complex information of specific health, safety and regulatory issues that relate to international destinations.

The following knowledge must be assessed as part of this unit:

- general sources of information on regions and destinations
- industry information networks
- understanding of the ways in which customers seek information
- formats and styles of information presentation, including styles that cater for those with special needs (e.g. presenting information in large print or providing information electronically)
- sources of information on current health and safety issues for the destination, including travel warning advice issued for Australian travellers by the federal government, and health advisory notices and vaccination information issued by local and international bodies
- sources of information on regulatory issues for the destination, including passport and visa requirements and restrictions for visiting that destination
- ways that individuals update their knowledge in the tourism industry
- breadth of international destination knowledge appropriate to the sector or specific

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

workplace (pre-vocational assessment must include coverage of all six continents, the major regions and destinations found within)

- for each destination, the depth of knowledge must cover:
  - key information on geographical features of the destination, including destination location, climate and seasonal factors of the destination and its region, and major geographical features of the destination and its region
  - key information on cultural and related features of the destination, including major cities, towns and tourist areas and precincts; areas of environmental, social or cultural significance or sensitivity; major man-made tourist attractions; major gateways for and transport networks within the destination and its region; and very basic understanding of the history and cultural aspects of the host community, including cultural mix and language spoken
  - key information on socioeconomic features of the destination, including current state of the economy, basis for the economy (e.g. key industries) and currency used.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to research current, relevant and accurate information on international tourism destinations and the styles of product offered in those destinations
- knowledge of current industry information networks and sources
- ability to source and provide tailored international destination information and advice to meet the different requests of multiple customers, covering a range of international tourism destinations; the breadth of destination knowledge required to provide advice to customers will vary according to the industry sector and workplace
- project or work activities that show candidates' ability to source and provide international destination information and advice within the context of the particular industry sector in which they are working or

EVIDENCE GUIDE

	information • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITTTSL001A Operate an online information system • SITTTSL005A Sell tourism products and services • SITTTSL006B Prepare quotations • SITTTSL007B Receive and process reservations • SITTTSL008B Book and coordinate supplier services.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Sources of destination information may include:	• destination and product library • internet and intranet • state and federal government tourism authority information systems • international government tourism authority information systems.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Features of the international destination may include:	• major cities, towns and tourist areas and precincts • major man-made tourist attractions • major gateways for and transport networks within the region and destination • history • local economy • local customs • special regional features • areas of environmental, social or cultural significance or sensitivity • cultural elements • special features of the host community • local facilities • banking and currency information • facilities for customers with special needs.
Key information on geographical features must include:	• location of the destination and the region in which it is located • climate and seasonal factors of the destination and its region • major geographic features of the destination and its region.
Key information on current health and safety features may include:	• any current health risks, including diseases, epidemics, and animal or insect infestation • political uprisings and civil commotion • war • terrorism threats or current acts.

General information on different tourism products:	• may include:
	  • styles of product available within the destination
	  • seasonal availability of product
	  • location of product within the destination
	• may be found in:
	  • brochures
	  • e-brochures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- sales kits
- supplier information kits
- product manuals
- advertising flyers.

Storage of destination information may include:

- card reference systems
- files and notes of particular destinations
- files and notes for specific touring routes or locations
- files and notes for specific styles of customer group
- computerised database of information.

Formal and informal research may include:

- informal discussions with colleagues
- undertaking formal study
- accessing and reading promotional information, including travel guide books, and product brochures and updates
- liaising with trade and general media
- attending product launches
- attending promotional seminars
- direct contact with other organisations, including suppliers, principals and tourist information offices
- familiarisations
- accessing the internet and intranet
- personal on-site observation or exploration
- organising information from own memory and experiences
- watching television, videos and films
- listening to radio
- reading newspapers, books and other references.

Health, safety and regulatory information may include:

- travel warning advice issued by the federal government for Australian travellers
- health advisory notices and vaccination information issued by local and international bodies.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to source and provide information and advice for Australian destinations, including general product information such as what types or styles of product can the destination offer. The unit requires the ability to identify appropriate information sources and research destinations in order to develop, update and maintain a general destination knowledge base relevant to the industry sector and job role.

More specific and detailed product knowledge is covered in SITTTSL002A Access and interpret product information. Selling skills are covered in SITTTSL005A Sell tourism products and services.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key sales and operational function for a diverse range of Australian tourism products and services and applies to the full range of industry sectors.

Tourism operators within Australia such as retailers, tour wholesalers and inbound tour operators would cover multiple Australian destinations. Visitor information centres and some tour operators would specialise in one region. The range and depth of destination knowledge required will vary according to the industry sector, workplace and job role. This unit does not require an in-depth knowledge of every Australian destination sold by every style of tourism operator but focuses on the ability to collect and interpret destination information to fulfil a

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

particular sales or operational need.

The unit applies to frontline sales and operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as visitor information officers, retail travel consultants, corporate consultants, inbound tour coordinators, account managers for professional conference organisers, event coordinators, tour guides, hotel guest relations officers, tour desk officers, reservations sales agents and owner-operators of small tourism businesses.

Because of the broad industry application of this unit and the variances in the essential general knowledge base, it is critical that assessment is contextualised to meet the requirements of the specific industry sector, local tourism industry operations and the particular needs of the job role. Providers of pre-employment training programs must cover a broad range of destination knowledge in order to provide a choice of vocational outcomes. Funding and hours allocated to training must reflect the breadth and depth of knowledge required.

Licensing/Regulatory Information

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop knowledge of Australian destinations.	1.1 Identify and access ***information sources*** with current and accurate information on Australian destinations. 1.2 Obtain information on ***features of the Australian destination*** and the general style of tourism products available. 1.3 Obtain ***key information on geographical features and current health and safety features*** of the Australian destination. 1.4 Identify and obtain ***general information on different tourism products*** available to meet different customer needs. 1.5 Record and ***store destination information*** for future use according to organisation systems.
2 Update knowledge of Australian destinations.	2.1 Use ***formal and informal research*** to update destination and general product knowledge. 2.2 Seek feedback from colleagues and customers on experience with Australian destinations and provide this to other organisations where appropriate. 2.3 Share updated information with colleagues according to organisation procedures.
3 Provide information	3.1 Accurately identify the specific information and advice

ELEMENT	PERFORMANCE CRITERIA
and advice on Australian destinations.	needs of the customer. 3.2 Provide a range of current and accurate destination and general product information and advice in a timely manner and according to organisation procedures. 3.3 Refer customers to current sources of ***health and safety information***. 3.4 Ensure that the scope and depth of the information are appropriate to customer needs. 3.5 Present the information and advice in an appropriate format and style.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills
- communication skills to identify the information needs of customers and to seek and provide feedback on Australian destinations; specifically actively listening, questioning and verbal summary of information
- literacy skills to source, read and interpret general information on destinations and complex information of specific health, safety and regulatory issues that relate to Australian destinations.

The following knowledge must be assessed as part of this unit:

- general sources of information on regions and destinations
- industry information networks
- understanding of the ways in which customers seek information
- formats and styles of information presentation, including styles that cater for those with special needs (e.g. presenting information in large print or providing information electronically)
- sources of information on current health and safety issues for the destination, including weather information, health advisory notices issued by the federal and state or territory government health departments and safety advisory information issued by federal and local police authorities and emergency service authorities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- ways that individuals update their knowledge in the tourism industry
- breadth of Australian destination knowledge appropriate to the sector or specific workplace; pre-vocational assessment must include coverage of all Australian States and Territories, the major regions and destinations found within
- for each destination, the depth of knowledge must cover:
  - key information on geographical features of the destination, including destination location, climate and seasonal factors of the destination the its region and major geographic features of the destination and its region
  - key information on cultural and related features of the destination, including areas of environmental, social or cultural significance or sensitivity; major cities, towns and tourist areas and precincts; major, man-made tourist attractions; major gateways for and transport networks within the destination and its region; and very basic understanding of the history and cultural aspects of the host community, including cultural mix.

SITTTSL005A Sell tourism products and services

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to sell tourism services and products proactively in a range of industry contexts. It requires the ability to provide quality customer service while identifying specific customer needs, suggest a range of products to meet those needs, provide current and accurate product information and close the sale.

The sale of some tourism products and services is subject to specific regulation under several federal and state or territory pieces of legislation. In most States and Territories, organisations that sell air tickets must meet the requirements of relevant state or territory Department or Office of Fair Trading to hold a travel agent's licence.

Any organisation that sells travel insurance to a retail client must meet the requirements of the Financial Services Reform Act (2001). In particular, sales personnel must complete a course delivered by the insurance provider in order to interpret provisions of the insurance policy and provide advice to customers on its purchase.

Any inbound tour operator (ITO), no matter where the business is located, who sells and organises the operation of tours within Queensland is subject to the Queensland Tourism Services Act (2003). ITOs must register with the Queensland Office of Fair Trading. All tour guides residing in any part of Australia are also covered by this law when working in Queensland. ITO business operators and guides do not need to meet any training or certification requirements, however ITOs and guides may be fined if they participate in unconscionable conduct when selling Queensland-based tourism products and services.

This unit covers the sale of any type of tourism product or service to any destination. Therefore, training and assessment must take into account the specific requirements of tourism-related legislation as it applies to selling the product or destination.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Application of the Unit

Application of the unit

This unit describes a key sales and operational function for a diverse range of domestic and international tourism and hospitality products and services and applies to the full range of industry sectors. The tourism or hospitality organisation could be a principal (the supplier) or an agent selling products and services on behalf of the principal.

This unit has particular application to those personnel who sell as a key focus of their job role and for whom selling is an essential skill. It applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, corporate consultants, inbound tour coordinators, visitor information officers, account managers for professional conference organisers, event coordinators, tour guides, restaurant managers, banquet coordinators or managers, resort activities coordinators, tour desk officers, reservations sales agents and owner-operators of small tourism businesses.

Licensing/Regulatory Information

ELEMENT	PERFORMANCE CRITERIA
	product arrangements where appropriate.
	2.4 Make the customers aware of additional products and options that may enhance their itinerary.
	2.5 Provide all options within the appropriate or agreed timeframe.
	2.6 Present all options in a format and style most appropriate to the particular customer and according to organisation procedures.
3 Provide product information and advice.	3.1 Accurately identify the specific product information and advice needs of the customer.
	3.2 Provide current and accurate product information and advice, including relevant product conditions in a timely manner.
	3.3 Ensure the scope and depth of the information are appropriate to customer needs.
	3.4 Present the information and advice in an appropriate format and style.
	3.5 Clearly explain and promote product features and benefits to the customer.
	3.6 Provide additional information to address customer questions and objections.
	3.7 Select and use techniques at the appropriate time to close the ***sale*** with the customer.
	3.8 Identify and act on opportunities to enhance the quality of service to customers.
4 Follow up sales opportunities.	4.1 Where appropriate, make follow-up contact with the customer.
	4.2 Provide any required after sales service according to organisation procedures.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- sales techniques
- fundamental communication techniques, specifically active listening and questioning
- literacy skills to read and interpret the content and format of complex product information documents, including rate schedules and supplier tariff sheets, and sufficient to read plain English documents that relate to legislative requirements of tourism product sales
- writing skills to present product options to the customer, such as in the form of an itinerary
- numeracy skills to calculate any fees that will apply to the sales and related product coordination activities.

The following knowledge must be assessed as part of this unit:

- broad and working knowledge of the principles of selling and sales communication, especially as they relate to intangible products
- broad and working knowledge of the legal liability and implications of consumer legislation and regulations relating to selling tourism products appropriate to the particular industry sector and job role
- special laws relating to the sale of prohibited products and services, e.g. Child Sex Tourism Law
- product knowledge appropriate to the organisation or industry sector
- content and format of product information
- formats and styles of information presentation, including styles that cater for those with special needs (e.g. presenting information in large print or providing information electronically)
- considerations in selling, such as negotiated costs, contractual arrangements or preferred supplier or agent arrangements that may be in place.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment Evidence of the following is essential:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

and evidence required to demonstrate competency in this unit

- ability to communicate with the customer and correctly interpret the customer's requirements
- ability to apply sales techniques in response to a range of different customer situations
- underpinning product knowledge
- understanding of consumer liability issues
- demonstration of selling skills for multiple products and services and to meet varying customer needs
- project or work activities that show the candidates' ability to sell tourism products and services within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes
- completion of sales activities within typical workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic office environment using appropriate computers, printers, information programs, publications and software programs currently used in the tourism industry to assist the sales function ***or*** demonstration within the applicable sales environment for the sector, e.g. a conference venue for the Events sector or touring environment for the Guiding and Tour Operations sectors
- interaction with customers to demonstrate selling techniques
- use of relevant and current product information to support the sales process, including brochures, timetables, tariffs and product sales kits.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate using various sales techniques to sell a product or service
- project and role-play activities that allow the candidate to demonstrate selling skills, including sourcing initial

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

and subsequent products to suit changing customer requests and finalising the sale
- written and oral questioning or interview to test knowledge of the consumer regulations that apply and communication principles that underpin sales
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Any related Tourism Sales and Operations units to which this unit has strong links, for example:

- SITTTSL003A Source and provide international destination information and advice
- SITTTSL004A Source and provide Australian destination information and advice
- SITTTSL006B Prepare quotations
- SITTTSL007B Receive and process reservations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Ethical and legal commitments

- child sex tourism products or services

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

may relate to the sale of:	• products that breach environmental laws
	• products that are known to cause negative environmental, cultural or social impacts such:
	  • damage to environmentally or culturally sensitive areas or sites
	  • disturbance or injury to fauna
	  • physical damage to flora
	  • introduction of exotic and feral species
	  • damage to roads, tracks and fire trails
	  • pollution from vehicle emissions and unmanaged waste
	  • noise disturbance to the local community
	  • trivialisation of culture.

Fees determined by the organisation may include:	• service fee • transaction fee • itinerary preparation fee • visa and passport handling fee • loyalty program (e.g. frequent flyer) redemption fee • product booking fee • amendment, cancellation or reconfirmation fee • courier fee • credit card fee • communication fee.
Specific customer needs may relate to:	• preferences of different cultures and nationalities • family status • disability • age • gender • available budget • time available • special interests.
There is a broad range of products and services sold within the tourism industry, including:	• transportation • airfares • travel insurance • brochured tour packages

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Calculate costs of products and services.	1.1 Create ***records*** to administer the customer's details and requirements. 1.2 Source and accurately select and interpret product and costing information required to prepare the ***quotation***. 1.3 If required, negotiate costs with suppliers according to commercial agreements and relationships, and within scope of individual responsibility. 1.4 Calculate commissions or mark-up nett costs according to organisation procedures and requirements to determine a profitable selling price. 1.5 Accurately calculate any additional taxes, ***special fees and other charges***. 1.6 Accurately calculate any required currency conversions. 1.7 Accurately calculate the final cost to the customer. 1.8 Check all calculations against all ***product and service*** components. 1.9 Keep detailed and legible records of the method of calculation, according to organisation formats.
2 Provide quotations to customer.	2.1 Prepare the quotation to reflect all inclusions required by the customer. 2.2 Promptly ***provide accurate quotation*** to the customer according to organisation procedures and formats. 2.3 Offer secondary quotations with options, as appropriate. 2.4 Ensure all quotations include accurate details of the cost of product and service provision and the ***conditions and limitations of the quotation***. 2.5 Record all details of the quotation accurately and legibly and keep on file according to organisation procedures. 2.6 Minimise use of printed materials and maximise electronic transmission and filing of all documents to reduce waste and negative environmental impacts.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Update and amend quotations.	3.1 Adjust and update quotations to take account of changed requests or arrangements. 3.2 Provide the most up-to-date quotation to customers inclusive of new conditions and limitations. 3.3 Record all details of adjusted quotations and keep on file according to organisation procedures.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to read and interpret documents such as customer files, customer requests and complex product costing information
- writing skills to create customer files and document complex customer requests, complex costings and complex written quotations, including the conditions specifically applicable to the quotation
- numeracy skills to calculate complex costing components.

The following knowledge must be assessed as part of this unit:

- key principles and elements of calculating costs and components of quotations
- product knowledge appropriate to the specific tourism or hospitality industry sector and the products included in the quotation
- negotiated cost of supply, contractual arrangements and preferred supplier arrangements in place
- industry commission and mark-up procedures appropriate to the specific industry sector
- quotation systems and procedures appropriate to the specific industry sector
- broad and working knowledge of legal and consumer protection issues that relate to providing quotations and to the products covered by the quotation.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to prepare and provide multiple accurate quotations in response to multiple customer requests covering a range of tourism products and services and ideally as a component of integrated work activity
- knowledge of industry practices in relation to commissions, mark-up and fees
- project or work activities that show the candidates' ability to prepare quotations within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes
- completion of quotations within typical workplace time constraints and the deadlines determined by the customer and the organisation.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic office environment using appropriate computers, printers, information programs, publications and software programs currently used in the tourism industry to assist the quotations function ***or*** demonstration within the applicable sales environment for the sector e.g. a conference venue for the Events sector or touring environment for the Guiding and Tour Operations sectors
- use of relevant and current product information to support the quotation process, e.g. brochures, timetables, tariffs and product sales kits
- use of a full range of operational documentation, e.g. details of supplier contracts and customer files.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of integrated activities completed by the candidate, including sourcing information on destinations, selling products and issuing documents
- evaluation of a range of quotations prepared by the candidate
- case studies to assess ability to provide accurate quotations in response to particular customer requests or for a series of customer files
- written and oral questioning or interview to test knowledge of the principles that underpin quotation procedures and the consumer protection regulations that would apply
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL005A Sell tourism products and services
- SITTTSL007B Receive and process reservations
- SITTTSL010B Control reservations or operations using a computerised system.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Customer records may be:

- a computer file
- a manual file.

Quotations:

- may be for ***a broad range of products and services***, ***including***:
  - single product or service
  - multiple products and services making up a complete itinerary
  - inclusive products or optional touring products
  - groups
  - individuals
  - one-off touring arrangements
  - series tours
  - incentive tours
  - meetings
  - conferences
- may be prepared:
  - manually
  - using a computer
- may be provided by:
  - telephone
  - verbally in a face-to-face context
  - fax
  - email or other electronic transmission
  - mail
  - internal communication.

Special fees and charges may include:

- service fee
- transaction fee
- itinerary preparation fee
- visa and passport handling fee
- loyalty program (e.g. frequent flyer) redemption fee

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- product booking fee
- amendment fee
- cancellation fee
- reconfirmation fee
- courier fee
- credit card fee
- communication fee.

Some examples of products and services included in quotations are:

- domestic products and services
- international products and services
- transportation
- transfers
- accommodation
- entertainment
- tours
- cruises
- entrance to attractions or sites
- tour guiding services
- activities
- meals
- functions
- special items with customer's corporate branding
- venue hire
- speaker services
- audiovisual services
- meeting or event equipment
- special event consumable items
- catering.

Conditions and limitations of the quotation (initial and subsequent) may include:

- inclusions
- exclusions
- cost of items that are subject to availability
- prices subject to change
- inclusion of fees, taxes and levies
- general conditions and rules
- payment requirements
- date of current quotation
- life and expiry date of quotation
- changes of conditions of pre-existing quotation or

SITTTSL007B Receive and process reservations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to receive and process reservations for a tourism or hospitality product or service offered for sale to agents or direct to the consumer. It requires the ability to determine the availability of the product or service, offer alternatives, accurately record the reservation details and administer the reservation through to finalisation. This unit does not cover specific selling skills required by reservations or call centre staff, nor does it cover the use of a computerised reservation system to manage reservations. These skills are covered by SITTTSL005A Sell tourism products and services and SITTTSL010B Control reservations or operations using a computerised system.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key sales function for a diverse range of domestic and international tourism and hospitality products and services. It applies to those tourism operators who act as principal (the supplier) and who receive and process reservations for the supply of their product or service. This would include airlines, car rental companies, hotels, motels, bed and breakfasts or other accommodation providers, tour operators of any type, outbound tour wholesalers and attractions and theme parks. Reservations personnel may be involved in a direct selling role to the consumer but are very often engaged in selling to some sort of tourism industry agent.

Reservations are processed for a particular product or service or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

for a whole product range and would normally be processed and managed within a computerised system but some small business operators would use a manual system.

This unit applies to those frontline sales personnel who operate with some level of autonomy or under limited supervision and guidance from others and is undertaken by people such as reservations sales agents, reservations consultants, call centre consultants, booking officers and owner-operators of small tourism businesses.

ELEMENT	PERFORMANCE CRITERIA
reservation details.	***requirements and reservation details*** to appropriate departments and colleagues.
	4.2 Compile and provide accurate and relevant reservation statistics on request.
5 Minimise waste of printed materials.	5.1 Minimise use of printed materials and maximise electronic transmission and filing of all documents to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- verbal and written use of the 24-hour clock and ability to translate for customers
- verbal and written use of reservation jargon, system and product codes
- literacy skills to read and interpret reservation information such as customer files, customer requests and complex product and costing information
- writing skills to create customer files and succinctly document complex customer requests and any conditions specifically applicable to reservations
- numeracy skills to prepare and present reservation statistics.

The following knowledge must be assessed as part of this unit:

- in-depth product knowledge appropriate to the specific industry sector and product being sold
- reservations and bookings terminology
- relationships between different sectors of the tourism industry that relate to reservations, including sources of reservations
- working knowledge of the principles underpinning the particular reservations system in use.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to make accurate reservations according to established systems and procedures and within typical workplace time constraints
- ability to receive and process multiple reservations in response to multiple customer requests covering a range of tourism products and services and ideally as a component of integrated work activity
- understanding of the different sources of reservations and the industry interrelationships that apply
- project or work activities that show the candidates' ability to receive and process reservations within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic office environment using appropriate telephones, computers and printers
- access to a computerised or manual reservations system currently used by tourism and hospitality industry operators to control the reservations function for the supply of their product or service
- use of industry-current reservations documentation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate receiving and processing reservations
- evaluation of integrated activities completed by the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

candidate, including sourcing information on products, selling products, providing quotations and issuing documents
- evaluation of reservations documentation and booking data generated by the candidate
- activities to assess ability to process differing types of reservations, including booking, retrieving and amending a series of bookings
- written and oral questioning or interview to test knowledge of the principles underpinning reservations procedures and the relationships between different sectors of the tourism industry
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL005A Sell tourism products and services
- SITTTSL006B Prepare quotations
- SITTTSL010B Control reservations or operations using a computerised system.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

RANGE STATEMENT

performance criteria is detailed below.

Customers may be:	• industry customers, e.g. retail travel consultants and inbound tour companies or operators • end users of the service, i.e. the consumer.
Customer details may be recorded using:	• a computer file • a manual file.

Reservation:	• may be made by:
	  • phone
	  • facsimile
	  • mail
	  • face-to-face
	  • internet
	• may be for:
	  • individuals
	  • groups
	  • VIPs
	  • conference delegates.

Customer profiles may include:	• full name and title • address • phone, fax, email and other communication methods • special requirements • amount of business generated by the customer • usual method of payment.
Documents issued to customers may include:	• paper-based or electronically transmitted materials • invoices • credit notes • receipts • service vouchers • confirmation letters • information packs.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Updating the financial status of the reservation may include:	• receiving, processing and recording payments • generating and issuing invoices and credit notes for changed reservations • checking and recording that the reservation has been fully paid.
General and specific customer requirements and reservation details may include:	• special requests • timing details • special needs • payment arrangements • information of a style of customer, e.g. special interest group or VIP status • details of other services being used.

SITTTSL008B Book and coordinate supplier services

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to make and administer bookings for tourism or hospitality products and services. It requires the ability to identify the customer's product requirements, request and confirm these with appropriate suppliers, and administer all bookings through to finalisation. It describes the coordination of bookings with suppliers, normally a business to business supply.

The unit does not cover the skills required to receive and process an incoming reservation within a supplier organisation which are covered in SITTTSL007B Receive and process reservations.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key operational function for a diverse range of domestic and international tourism and hospitality products and services and applies to the full range of industry sectors. Many tourism and hospitality operators have a role in making and administering business to business supply bookings for other tourism products on behalf of their customer. To the retail travel agency, one supplier can be a tour wholesaler. To the inbound tour operator, one supplier can be the tour operator. But even tour wholesalers and tour operators, who often package components to make up their product, have tourism suppliers, hotels for example.

The unit applies to frontline operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

people such as retail travel consultants, corporate consultants, inbound tour coordinators, visitor information officers, account managers for professional conference organisers, event coordinators, tour guides, banquet coordinators or managers, hotel guest relations officers, tour desk officers, operations coordinators and owner-operators of small tourism businesses.

Licensing/Regulatory Information

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Administer customer file and identify booking requirements.	1.1 Interpret existing or create new records of the customer's booking requirements. 1.2 Prepare and issue ***documents*** and other materials to the customer. 1.3 ***Update the financial status of the customer's records*** accurately and according to organisation procedures. 1.4 Identify all ***supplier services to be booked*** according to customer's requirements and requests. 1.5 Identify details of specific products and services which have been sold and confirmed to the customer. 1.6 Where no specific product or service has been confirmed with the customer, select appropriate suppliers to ensure customer needs and prices quoted to the customer are met. 1.7 Select suppliers according to predetermined organisation negotiated arrangements and maximising the profitability of the sale.
2 Request products and services.	2.1 ***Request*** products and services from suppliers using the appropriate method and according to organisation procedures. 2.2 Provide ***full details*** of the required ***booking*** to ensure the customer receives the correct product or service. 2.3 Request ***return confirmation of all details*** of the booking from the supplier. 2.4 Make requests for multiple services in the most practical sequence. 2.5 Seek and request alternatives if requested bookings are not available and identify and action flow-on impacts, making adjustments to other bookings as required.
3 Record request and confirmation.	3.1 Keep accurate records of all bookings made, including request and confirmation, and file according to organisation procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.2 Monitor files to ensure that all confirmations have been received and follow up any outstanding confirmations.
	3.3 Note and schedule future action to be taken in relation to bookings according to system and organisation procedures.
4 Update and finalise bookings.	4.1 Make any ***necessary amendments or adjustments to bookings*** and accurately record these according to organisation procedures.
	4.2 ***Action payment required by the supplier*** at the appropriate time according to organisation procedures.
	4.3 Provide suppliers with any changes to the bookings according to agreed procedures and any contractual arrangements.
	4.4 Advise suppliers of ***final customer details*** and requirements according to the needs of particular bookings and organisation procedures.
5 Minimise waste of printed materials.	5.1 Minimise use of printed materials and maximise electronic transmission and filing of all customer, supplier booking, confirmation and finalisation documents to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of any quotations and specific services previously supplied to customer
- verbal and written use of the 24-hour clock
- verbal and written use of industry product and booking jargon, and system and product codes
- literacy skills to read and interpret booking documentation such as customer files, customer requests and complex product and costing information and to interpret supplier confirmations and any conditions specifically applicable to the reservation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- writing skills to create bookings, update customer files and succinctly and clearly document complex customer requests to the supplier
- numeracy skills to interpret quotations supplied to the customer and costs confirmed by the supplier, and to create and maintain financial documentation required to administer the bookings.

The following knowledge must be assessed as part of this unit:

- in-depth product knowledge appropriate to the specific industry sector and product being booked for supply
- booking systems and procedures appropriate to the specific industry sector
- relationships between different sectors of the tourism industry that relate to making bookings with suppliers
- negotiated costs, contractual arrangements and preferred supplier arrangements in place
- working knowledge of the principles underpinning the particular booking administration system in use.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to interpret and confirm the customer's requirements
- ability to coordinate the booking process effectively from initial request to finalisation of the booking
- ability to keep accurate records of bookings made
- ability to process multiple bookings in response to multiple customer requests covering a range of tourism products and services and ideally as a component of integrated work activity
- knowledge of industry booking systems and procedures for a range of products and services
- project or work activities that show the candidates' ability to book and coordinate supplier services within the context of the particular industry sector in which

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Documents issued to customers may include:

- paper-based or electronically transmitted materials
- invoices
- credit notes
- receipts
- confirmation letters
- information packs.

Updating the financial status of the customer's records may include:

- receiving, processing and recording payments
- generating and issuing invoices and credit notes for changed arrangements
- checking that the customer has fully paid.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Supplier services to be booked can cover a broad range of products and services within the tourism industry, including:	• transportation • transfers • accommodation • airline flights • charter flights • entertainment • tours • cruises • entrance to attractions or sites • tour guiding services • activities • meals • functions • special items with customer's corporate branding • venue bookings • speaker services • audiovisual services • staging equipment • meeting or event equipment • special event consumable items • catering.
Service requests and return confirmations may be communicated via:	• telephone • fax • email • internet and intranet • mail • centralised reservations system (CRS) • global distribution system (GDS).
Full details must include:	• customer details • date, time and location of commencement and conclusion of service • any pre-negotiated costs and payment details • nature of service to be provided • special requests or requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Bookings may be made for:	• a single product or service • multiple products and services making up a complete itinerary • inclusive tours or optional tours • groups • individuals • one-off touring arrangements • series tours • incentive tours • meetings • conferences.
Return confirmation of details of the supply may include:	• cost • payment method and deadline • special requests.
Necessary amendments or adjustments to bookings may include:	• cancellation of booking • change of date or time • change of location of commencement and conclusion of service • reduction or increase in number of bookings held.
Actioning payments required by the supplier may involve:	• requesting payment from the accounts department, e.g. cheque requisition or purchase order • self-administering the payment • issuing a miscellaneous charges order • sending payment by cheque or electronic transmission.
Final customer details may include:	• final numbers for a group booking • arrival and departure times and flights (or any other form of transportation) • final name list • final rooming list • details of tour guides, tour managers and crew accompanying customers.

SITTTSL009B Process travel-related documentation

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to process a range of travel documentation commonly used or issued within the tourism industry. It requires the ability to identify and interpret all documentation requirements and to prepare and despatch documents within designated deadlines.

Travel-related documents can include air tickets. In most States and Territories, organisations that issue air tickets must meet the requirements of relevant state or territory Department or Office of Fair Trading which, in most cases, requires the tourism organisation to hold a travel agent's licence. In many cases managers must have formally achieved competence in constructing and ticketing airfares through a registered training organisation that must use this unit as the basis for their training.

Application of the Unit

Application of the unit

This unit describes a key operational function for a diverse range of domestic and international tourism and hospitality products and services and applies to the full range of industry sectors. It applies to all organisations where travel and tourism documents are issued to customers or tour delivery staff. Documentation can be administered using a computerised or manual system.

The unit applies to frontline operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, corporate consultants, inbound tour coordinators, visitor information officers, account managers for professional conference organisers, event coordinators, tour guides, tour desk officers and operations coordinators. Some larger organisations such as tour wholesalers support a documentation department staffed by

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

industry entry-level documentation officers or clerks who may require more supervision.

The range of products and services and complexity of documents will vary according to the industry sector. Because of the broad industry application of this unit, it is critical that assessment is contextualised to meet the requirements of the specific industry sector, local tourism industry operations and the particular needs of the job role.

Licensing/Regulatory Information

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Interpret information required for processing of documentation.	1.1 Identify deadline for preparation and despatch of ***documents***.
	1.2 Interpret existing ***reservation data*** held for the customer to identify all ***customer details*** correctly.
	1.3 Identify and interpret details of specific ***products and services*** that have been sold and confirmed to the customer and check prices quoted.
	1.4 Identify confirmed bookings held for customers and costs quoted by product and service suppliers.
	1.5 Identify ***sources of general information required to issue all necessary documents***.
	1.6 Check payment status and take appropriate action.
	1.7 Check for and report any discrepancies in costs quoted to the customer and actual cost of services and take any follow-up action required to collect shortfall.
	1.8 Identify any operational documents required by personnel involved in delivering the tourism product.
2 Process documentation.	2.1 Prepare complete and accurate ***documentation*** within designated timeframes.
	2.2 Record required details on documentation with accuracy and according to the conditions applicable to the product.
	2.3 Make appropriate calculations and record any required costs within documents.
	2.4 ***Action payment required by the supplier*** at the appropriate time according to organisation procedures.
	2.5 Check all documentation for accuracy prior to issue and amend as necessary.
	2.6 Process, file and despatch ***copies of documents*** according to organisation and ***supplier*** procedures and requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.7 Despatch documents according to customer and organisation requirements.
	2.8 Reissue documentation where appropriate and process any required refunds or additional payments required according to conditions applicable to the product.
3 Minimise waste of printed materials.	3.1 Minimise use of printed materials and maximise electronic transmission and filing of all documents to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of customer and operational requirements
- interpretation of quotations previously supplied to customer
- literacy skills to read and interpret reservation and operational data, read and interpret complex itineraries and product information, and prepare accurate and clearly expressed travel-related documents
- numeracy skills to calculate costs quoted to the customer, check payment status of customer files and issue documents with correct monetary value.

The following knowledge must be assessed as part of this unit:

- procedures and principles underpinning the processing of documentation
- documentation types and standard formats used in the tourism industry
- basic product knowledge appropriate to the specific industry sector
- relationships between different sectors of the tourism industry in relation to requirements for and acceptance of tourism documentation
- basic understanding of the negotiated costs, contractual arrangements and preferred supplier arrangements in place.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to interpret and confirm the customer's requirements
- ability to identify any documents required by operational or delivery personnel
- ability to process and issue accurate tourism documentation
- ability to process a range of different tourism product, service or operational documentation for multiple customer, tour or event files and ideally as a component of integrated work activity
- understanding of the principles that apply to the processing of any type of documentation
- project or work activities that show the candidates' ability to process tourism documentation within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes
- issuing of documentation within typical workplace time constraints and the deadlines determined by the customer and the organisation.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic office environment using appropriate computers, printers, information programs, publications and software programs currently used in the tourism industry to control documentation functions ***or*** demonstration within the applicable sales environment for the sector e.g. a conference venue for the Events sector or touring environment for the Guiding and Tour Operations sectors
- use of customer and operational file types showing reservations or operational data as the basis for the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

issuing of documentation
- use of industry-current documents, such as itineraries, vouchers and confirmation letters
- where assessment covers air documents and tickets, the use of industry-current airline or consolidator documentation, computer data, schedules, tariffs and bulletins outlining rules, conditions and regulations
- for air tickets, the use of the full range of International Air Transport Association (IATA) actual or training facsimile air documentation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of integrated activities completed by the candidate, including sourcing information on destinations, selling products, providing quotations and booking supplier services
- review of documents processed by the candidate
- case studies or project activities to assess candidate's ability to issue different types of documents in different operational circumstances and for varying customer requirements
- written and oral questioning or interview to test knowledge of the principles underpinning the issuing of documentation, requirements for various types of documents and relationships between different sectors of the tourism industry
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL008B Book and coordinate supplier services
- SITTTSL010B Control reservations or operations using a computerised system
- SITTTSL012B Construct domestic airfares
- SITTTSL013B Construct normal international airfares
- SITTTSL014B Construct promotional international airfares
- SITTTSL015B Construct advanced international

EVIDENCE GUIDE

airfares.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Documents may be produced:

- manually
- using a computer.

Reservation data for the customer may be:

- a computer file
- a manual file.

Customer details may include:

- name
- age
- special requirements to be noted on documents
- agent's details
- address for delivery of documents
- date required for delivery of documents.

Products and services may be:

- domestic
- international.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Sources of general information required to issue all necessary documents may include:

- timetables
- brochures
- price schedules
- contracts with suppliers
- centralised reservations system (CRS)
- database of product suppliers and their details
- internet sites
- visa guides
- air travel information such as:
  - airline schedules and timetables
  - airline fare manuals
  - tariffs from airlines
  - tariffs from consolidators
  - special bulletins issued by airlines and consolidators.

Documentation:

- may be paper-based or electronically transmitted materials
- may include:
- air travel documents such as e-tickets, multi-purpose document (MPD), credit card charge forms and exchange tickets
- accommodation vouchers
- bus, coach or other form of transportation tickets
- car hire and motor home vouchers
- cruise vouchers
- tour vouchers
- vouchers for attraction or theme park entry
- vouchers for any tourism product or service
- meeting or event confirmation letters
- delegate information packs
- travel insurance documentation
- confirmation letters
- letters outlining terms, conditions and liability restrictions
- letters advising sources of information relating to health, safety and regulatory issues for the customer's attention

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- product disclosure statements
- letter of commission disclosure
- confirmation vouchers
- commission vouchers
- visa and passport forms
- visas and passports
- travellers cheque requests
- passenger itineraries
- operational itineraries for crew
- briefing notes for crew
- passenger lists
- rooming lists
- sales returns
- may be produced for:
  - a single product or service
  - multiple products and services making up a complete itinerary
  - inclusive tours or optional tours
  - groups
  - individuals
  - guests or delegates
  - one-off touring arrangements
  - series tours
  - incentive tours
  - meetings
  - conferences.

Actioning payments required by the supplier may involve:

- requesting payment from the accounts department, e.g. cheque requisition or purchase order
- self-administering the payment:
- issuing a miscellaneous charges order
- sending payment by cheque or electronic transmission.

Copies of documents may be:

- paper-based or electronically transmitted materials
- for the file
- for the accounts department
- for the operational personnel involved in the delivery of a tour, e.g. tour guide and driver

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

SITTTSL010B Control reservations or operations using a computerised system

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to use a computerised reservations or operations system to create, maintain and administer bookings for a range of products and services in tourism, hospitality or events. It requires the ability to use the system capabilities to fulfil a range of sales and operational functions.

The unit concentrates on the specific computer skills required to apply many tourism operational functions. This unit does not cover specific core sales and operational skills which are fully covered in other individual units, such as SITTTSL005A Sell tourism products and services, SITTTSL006B Prepare quotations and SITTTSL009B Process travel-related documentation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key sales and operational function for a diverse range of domestic and international tourism and hospitality products and services and applies to the full range of industry sectors.

These industry sectors use a diverse range of computerised systems to manage reservations, operations and sales administration functions, so the system will vary depending upon the organisation and industry sector.

This unit covers the use of the industry-wide systems known as computerised or centralised reservations system (CRS) and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

global distribution system (GDS) commonly used by retail travel agencies when booking a supplier's service. It covers systems used by accommodation providers and tour operators when receiving and processing reservations for the supply of their product or service. It also covers other industry-wide systems used by inbound tour operators, outbound tour wholesalers and meetings and events management organisations. It can equally apply to any organisation-based computerised reservations or operations system.

The unit applies to frontline sales and operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, corporate consultants, inbound tour coordinators, visitor information officers, account managers for professional conference organisers, event coordinators, tour desk officers, operations consultants, reservations sales agents and owner-operators of small tourism businesses.

The range and complexity of products and services and the particular reservations or operations system will vary according to the industry sector. Because of the broad industry application of this unit, it is critical that training and assessment is specifically tailored. Training and assessment programs must be contextualised to meet the requirements of the specific industry sector and specific computerised systems and must allow for learners who have moved from one computer system to another to participate in retraining.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Access and manipulate system information.	1.1 Access and interpret ***system*** displays.
	1.2 Use all system features to access a range of ***information***.
2 Create and process reservations.	2.1 Check availability of required booking according to system functions and requirements.
	2.2 Create new ***reservations*** containing accurate customer details and full requirements according to system procedures and features.
	2.3 Input all customer details in the format required by the computer system.
	2.4 Retrieve bookings as required, using the format required by the computer system.
	2.5 Make accurate ***updates and amendments to reservations*** and store as required.
	2.6 Download and file any required reservation details.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Send and receive communications.	3.1 Create and process accurate communications to ***industry colleagues*** using the required features of the system. 3.2 Access and interpret communications from industry colleagues at the appropriate time.
4 Administer sales and operations functions using the system.	4.1 Use the ***system capabilities*** to meet the ***particular sales or operational need***. 4.2 Use the system capabilities to manage all required ***accounting processes that relate to a particular file***, ***customer or reservation***. 4.3 Produce ***reports*** to meet sales and operational needs.
5 Minimise waste of printed materials.	5.1 Minimise use of printed materials and maximise electronic transmission and filing of all documents to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic computer and keyboarding skills
- literacy skills to read and interpret complex product information controlled by the system which can include costs, terms and conditions of their sale; read, interpret and use system codes
- writing skills to input reservation or operational data accurately
- numeracy skills to interpret statistical data within the various reports produced and manage the accounting processes that relate to a particular file, customer or reservation.

The following knowledge must be assessed as part of this unit:

- role of computerised reservations and operations systems within the tourism and hospitality industry

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- range of products and services controlled by the computer system
- range of sales, operational and accounting functions that can be controlled by the system
- procedures and codes required to enter and exit a system
- common computerised reservation and operational entries, including encodes and decodes
- mandatory fields
- requirements for specific formatted entries
- procedures for confirming, storing and retrieving reservations or operational data
- procedures for amending and cancelling reservations
- procedures for sending and receiving messages.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to use the features of a computerised reservations or operations system correctly and efficiently • ability to accurately operate a computer reservations system to make and process bookings in response to multiple customer requests covering a range of tourism products and services, ideally as a component of integrated work activity • ability to use a full range of system administrative capabilities relevant to the job role • project or work activities that show the candidates' ability to operate a computerised reservation or operations system used within the particular industry sector in which they are working or seeking work • completion of reservation or operational activities within typical workplace time constraints.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills within a fully equipped

EVIDENCE GUIDE

industry-realistic office environment using appropriate computers, printers, information programs and publications
- access to a computerised reservations or operations system currently used in the tourism or hospitality industry to control the agent to supplier booking function ***or*** an organisation-based computerised reservations system that controls the supplier's reservations or operations function.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of integrated activities completed by the candidate, including sourcing information on destinations, accessing product information, selling products, providing quotations and issuing documents and air tickets
- direct observation of the candidate using the various features of a computerised reservations or operations system to book, retrieve and amend a series of bookings
- case studies to assess ability to complete the booking process using a computerised reservations or operations system for different tourism products, services and customers
- use of emulator reservations programs to assess candidate's ability to use all the functions of a computerised reservations system in simulator mode
- evaluation of booking data generated by the candidate in response to different customer situations
- written and oral questioning or interview to test knowledge of the role of computerised reservations or operations systems within the industry
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

This unit underpins effective performance in a range of sales and operational activities and combined assessment with any related Tourism Sales and Operations units is

SITTTSL011A Maintain a product inventory

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to maintain an inventory of tourism products. It requires the ability to access and interpret the required product information, enter and maintain accurate data and provide product inventory information to relevant personnel.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key operational function for a diverse range of domestic and international tourism and hospitality products and services. It applies to tourism and hospitality industry sectors and organisations where product is controlled by use of an inventory; mainly to tour operators, tour wholesalers, accommodation providers and event management organisations.

The inventory system may control a principal's (the supplier's) tourism and hospitality products that are supplied to other organisations or it may control a tour wholesaler's inventory of product purchased or allotted from the principal.

Inventory control requires the application of significant interpretation, planning and organisational skills and this role is generally undertaken by senior personnel who operate autonomously or under limited guidance from others. They would require considerable product knowledge to maintain an accurate inventory of product and could apply discretion and judgement. It is undertaken by senior product coordinators, product or operations managers, and owner-operators of small

Pre-Requisites

Prerequisite units	This unit must be assessed after the following prerequisite unit: SITTTSL002A Access and interpret product information.

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Obtain and interpret information for inventory.	1.1 Obtain ***information to be included in inventory*** from internal and external colleagues at the appropriate time. 1.2 Interpret and review information prior to entry into ***inventory*** to ensure information is current and accurate.
2 Enter data into inventory system.	2.1 Calculate costs accurately prior to entry and according to organisation procedures and commercial agreements. 2.2 Format all information and enter into the inventory system according to organisation procedures and system requirements.
3 Update inventory.	3.1 Monitor the currency of inventory information and update at designated times according to organisation procedures. 3.2 Monitor bookings, allotments or requests and adjust as required. 3.3 Remove any out-of-date information from the inventory within designated timelines.
4 Provide inventory information.	4.1 Prepare inventory information, updates and briefings within required timelines. 4.2 Distribute ***reports*** and inventory information to appropriate colleagues according to organisation procedures using electronic transmission, wherever possible, to reduce waste of printed materials and negative environmental impacts. 4.3 Provide assistance to colleagues on inventory-related matters.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to read and interpret complex product information, including costs and terms and conditions of their sale
- writing skills to summarise information accurately and succinctly for inclusion in the product inventory and produce accurate inventory reports
- numeracy skills to interpret and calculate complex product cost components.

The following knowledge must be assessed as part of this unit:

- role played by inventory systems within the organisation and wider tourism industry
- major categories of tourism products and services
- sources of tourism product information and specific product types
- industry terminology and common abbreviations in relation to major product categories
- product knowledge appropriate to the specific tourism or hospitality industry sector and products to be included in inventory
- negotiated cost of supply, contractual arrangements and preferred supplier arrangements in place
- industry commission or mark-up procedures appropriate to the specific industry sector and the particular products controlled by the inventory
- key principles and elements of calculating costs for the components of products
- broad and working knowledge of legal and consumer protection issues that relate to providing quotations and product information
- uses of various reports within inventory systems.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

SITTTSL012B Construct domestic airfares

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to construct air itineraries and cost airfares correctly for domestic air travel. It requires the ability to interpret airfare information accurately and configure air itineraries that create optimum airfare costs. This unit does not include ticketing which is found in the unit SITTTSL009B Process travel-related documentation.

In most States and Territories, organisations that sell air tickets must meet the requirements of relevant state or territory Department or Office of Fair Trading which, in most cases, requires the tourism organisation to hold a travel agent's licence. In many cases managers must have formally achieved competence in constructing airfares through a registered training organisation that must use this unit as the basis for their training.

Application of the Unit

Application of the unit

This unit describes a key operational function for the sale of domestic airfares. It applies to tourism industry sectors and organisations where airfares are sold; mainly to retail travel agencies, tour wholesalers and consolidators. The tourism organisation must be accredited with the International Air Transport Association (IATA).

Fare construction would normally be managed within a computerised system but some small business operators may use a manual system.

The unit applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, retail

Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT **PERFORMANCE CRITERIA**

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Interpret domestic airfare information.	1.1 Identify and access ***sources of fare information***.
	1.2 Interpret ***information on air itineraries***, fares and fare rules, including airport codes, airline codes, fare types and classes, normal fares, ***concession fares***, promotional fares, ***taxes***, general air travel rules and restrictions and ***conditions applicable to specific fares***.
2 Configure air itineraries and cost domestic airfares.	2.1 ***Configure air itineraries*** to create optimum airfare cost.
	2.2 ***Configure domestic air itineraries and calculate domestic fare costs*** accurately and according to enterprise procedures.
	2.3 Calculate any additional taxes, ***fees*** and other charges.
	2.4 Check the constructed airfare to ensure it has been costed accurately and complies with applicable conditions.
	2.5 ***Record*** full details of the calculated fare.
3 Minimise waste of printed materials.	3.1 Minimise use of printed materials and maximise electronic fare calculation and filing of all records to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of fare schedules and other airline or consolidator guidelines
- interpretation of rules and conditions applicable to fares
- interpretation of current airline and IATA regulations
- literacy skills to read and interpret complex airfare schedules, airline and IATA regulations, costings and applicable rules and conditions
- numeracy skills to perform complex airfare calculations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- familiarity with content and format of text-based tariffs and supporting manuals or automated fare systems
- encoding and decoding of domestic airport and airline codes
- how to access information on different types of current fares and applicable rules and conditions, especially most popular and currently available promotional fares
- how to access information on current airline and IATA regulations.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge of how to access information on the current range of domestic airfares and ability to interpret conditions applicable to specific fares
- knowledge of how to construct sector fares, promotional fares and fares incorporating non-stop, direct and connecting services
- ability to calculate airfares accurately and according to current airline and IATA regulations and conditions applicable to specific fares
- ability to calculate domestic airfares accurately in response to multiple customer requirements covering a range of different air routes
- completion of airfare calculations within typical workplace time constraints and deadlines determined by the customer or the organisation.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills using appropriate computers, printers, publications and reservations systems currently used in the tourism industry to assist with airfare calculations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- use of industry-current documentation or computer data such as airline, IATA and consolidator schedules, tariffs and bulletins outlining fares, rules, conditions and regulations.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of integrated activities completed by the candidate, including sourcing information on destinations, selling products, providing quotations and issuing documents
- fare construction activities and case studies to assess ability to construct and cost domestic airfares for different routes and to meet varying customer requirements
- review of fare calculation worksheets completed by the candidate
- written and oral questioning or interview to test knowledge of rules and conditions applicable to specific fares
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL005A Sell tourism products and services
- SITTTSL009B Process travel-related documentation.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Sources of fare information may include:	• airline guides • airline schedules and timetables • fare manuals • computerised data • centralised reservations system (CRS) • global distribution system (GDS) • tariffs from airlines • tariffs from consolidators • special bulletins issued by airlines and consolidators • general information from airlines • internet.
Information on air itineraries:	• non-stop services • direct and connecting services • minimum connecting times.
Concession fares may include those for:	• infants • children • students • pensioners • groups • seamen • carers • military personnel.
Taxes may include:	• domestic head tax • noise tax • GST.
Conditions applicable to specific	• payment deadline

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

fares may include:	• ticketing deadline • extensions to ticketing deadline • cancellation charges • availability of any type of change to the air itinerary • availability of changes to class of travel • amendment fees • baggage allowance • excess baggage charges • restricted articles in baggage • time limits for passenger name records (PNRs).
Configure air itineraries must ensure coverage of the following types of fares:	• sector fares • promotional fares • fares incorporating non-stop, direct and connecting services • fares incorporating airport and other taxes.
Calculation of domestic fare costs may be completed:	• manually • using a computer.
Fees may include:	• service fee • transaction fee • air itinerary preparation fee • loyalty program (e.g. frequent flyer) redemption fee • courier fee • credit card fee • communication fee • flight fuel emissions offset fee ("flying carbon neutral").
Record of the calculated airfare may involve use of:	• paper-based or electronically filed materials • manual format • linear format.

SITTTSL013B Construct normal international airfares

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to construct international air itineraries and cost normal international airfares. It requires the ability to interpret airfare information accurately and configure air itineraries that create optimum airfare costs. This unit does not include ticketing which is found in SITTTSL009B Process travel-related documentation.

In most States and Territories, any organisation that sells air tickets must meet the requirements of relevant state or territory Department or Office of Fair Trading which, in most cases, requires the tourism organisation to hold a travel agent's licence. In many cases managers must have formally achieved competence in constructing airfares through a registered training organisation that must use this unit as the basis for their training.

Application of the Unit

Application of the unit

This unit describes a key operational function for the sale of international airfares. It applies to tourism industry sectors and organisations where airfares are sold; mainly to retail travel agencies, tour wholesalers and consolidators. The tourism enterprise must be accredited with the International Air Transport Association (IATA).

Fare construction would normally be managed within a computerised system but some small business operators may use a manual system.

The unit applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, retail

travel agency managers, corporate consultants, ticketing consultants, reservations and operations consultants.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	Nil

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Interpret international airfare information.	1.1 Identify and access ***sources of international fare information***. 1.2 Interpret ***information on international air itineraries***, ***fares and fare rules***.
2 Configure air itineraries and cost international airfares.	2.1 ***Configure air itineraries to create the optimum airfare cost accurately and according to IATA regulations***. 2.2 ***Configure international air itineraries and calculate international fare costs*** accurately and according to IATA regulations. 2.3 Calculate any additional ***taxes***, special ***fees*** and other charges. 2.4 Check the constructed airfare to ensure it has been costed accurately and complies with applicable conditions.
3 Construct fares incorporating add-ons.	3.1 Correctly interpret add-on tables. 3.2 Calculate through fares, incorporating add-ons and document according to IATA procedures. 3.3 ***Record*** full details of the calculated international fares.
4 Minimise waste of printed materials.	4.1 Minimise use of printed materials and maximise electronic fare calculation and filing of all records to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of fare schedules and other airline or consolidator guidelines

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- interpretation of rules and conditions applicable to fare
- interpretation of current airline and IATA regulations
- literacy skills to read and interpret complex airfare schedules, airline and IATA regulations, costings and applicable general air travel rules and restrictions
- numeracy skills to perform complex airfare calculations.

The following knowledge must be assessed as part of this unit:

- familiarity with content and format of text-based tariffs and supporting manuals or automated fare systems
- encoding and decoding of airport and airline codes
- how to access information on different types of current fares and the applicable rules and conditions
- how to access information on current airline and IATA regulations
- normal fare construction principles and procedures, including currency and neutral units of construction (NUA) conversion.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge of how to access information on the current range of international airfares and ability to interpret the conditions applicable to specific fares
- ability to calculate airfares accurately and according to current airline and IATA regulations and conditions applicable to specific fares
- ability to create practical air itineraries in response to customer requirements
- ability to calculate normal international airfares accurately in response to multiple customer requirements covering a range of different air routes
- completion of airfare calculations within typical workplace time constraints and deadlines determined

in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Sources of international fare information may include:

- airline guides
- airline schedules and timetables
- fare manuals
- computerised data
- centralised reservations system (CRS)
- global distribution system (GDS)
- tariffs from airlines
- tariffs from consolidators
- special bulletins issued by airlines and consolidators
- general information from airlines
- internet.

Information on international air itineraries, fares and fare rules must include:

- airport codes
- airline codes
- fare types and classes
- IATA areas
- global indicators
- international airline terminology
- IATA terminology and definitions
- normal fares
- concession fares, which may include those for:

RANGE STATEMENT

- infants
- children
- students
- pensioners
- groups
- seamen
- carers
- military personnel

- taxes and surcharges
- general air travel rules and restrictions, which may include:
  - payment deadline and ticketing deadline
  - extensions to ticketing deadline
  - cancellation charges
  - availability of any type of change to the air itinerary
  - availability of changes to class of travel
  - amendment fees
  - baggage allowance
  - excess baggage charges.

Information on international air itineraries, fares and fare rules may include:

- non-stop services
- direct and connecting services
- minimum connecting times
- route maps.

Configure air itineraries:

- must include coverage of the following types of fares:
  - sector fares
  - fares incorporating open-dated travel and surface segments
  - fares incorporating non-stop, direct and connecting services
  - fares incorporating intermediate points
  - fares incorporating airport and other taxes
- ***must include*** coverage of the following types ***of calculations and checks***:
  - neutral units of construction (NUA)
  - local currency fares (LCF)
  - global indicators (GI)

SITTTSL015B Construct advanced international airfares

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to construct international air itineraries and cost fares using advanced international airfare rules and procedures. It requires the ability to accurately interpret airfare information and configure air itineraries that create optimum airfare costs. This unit does not include ticketing which is found in SITTTSL009B Process travel-related documentation.

In most States and Territories, organisations that sell air tickets must meet the requirements of relevant state or territory Department or Office of Fair Trading which, in most cases, requires the tourism organisation to hold a travel agent's licence. In many cases managers must have formally achieved competence in constructing airfares through a registered training organisation that must use this unit as the basis for their training.

Application of the Unit

Application of the unit

This unit describes a key operational function for the sale of international airfares. It applies to tourism industry sectors and organisations where airfares are sold; mainly to retail travel agencies, tour wholesalers and consolidators. The tourism enterprise must be accredited with the International Air Transport Association (IATA).

Fare construction would normally be managed within a computerised system but some small business operators may use a manual system.

The unit applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, retail

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Construct mixed class fares.	1.1 Identify options where mixed class combinations are allowed and appropriate to meet customer needs. 1.2 ***Configure air itineraries*** and calculate mixed class fare costs accurately and in accordance with IATA regulations.
2 Apply minimum checks.	2.1 Apply minimum checks to appropriate itineraries. 2.2 ***Calculate fares*** and document according to IATA procedures.
3 Calculate international pre-paid ticket advices.	3.1 Calculate pre-paid ticket advice for journeys commencing outside the country of sale according to IATA procedures.
4 Apply indirect travel limitation rules.	4.1 Calculate sectorised journeys and side trips with complete accuracy and document according to IATA procedures.
5 Construct round the world journeys.	5.1 Identify situations where round the world fares are appropriate to meet the needs of the customer. 5.2 Accurately calculate fares and apply round the world minimum checks according to IATA procedures.
6 Construct fares for open jaw journeys.	6.1 Identify options where open jaw journeys are allowed and appropriate to meet the needs of the customer. 6.2 Accurately calculate open jaw journey fares according to IATA procedures.
7 Apply the pricing unit concept.	7.1 Divide a single or return fare journey into separate pricing units. 7.2 Calculate the lowest combination of fares for a series of pricing units.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT **PERFORMANCE CRITERIA**

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of fare schedules and other airline or consolidator guidelines
- interpretation of rules and conditions applicable to fares
- interpretation of current airline and IATA regulations
- literacy skills to read and interpret complex airfare schedules, airline and IATA regulations, costings and applicable rules and conditions
- numeracy skills to perform complex airfare calculations.

The following knowledge must be assessed as part of this unit:

- familiarity with content and format of text-based tariffs and supporting manuals or automated fare systems
- encoding and decoding of airport and airline codes
- how to access information on the different types of current international fares and the applicable rules and conditions
- how to access information on current airline and IATA regulations
- advanced fare construction principles and procedures, including currency and neutral units of construction (NUA) conversion.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge of how to access information on the current range of international airfares and ability to interpret conditions applicable to specific fares
- ability to calculate airfares accurately and according to current airline and IATA regulations and conditions applicable to specific fares
- ability to apply advanced international airfare rules and procedures
- ability to accurately calculate multiple airfares covering range of different air routes, using advanced rules and procedures, and to meet varying customer requirements
- completion of airfare calculations within typical workplace time constraints and deadlines determined by the customer or the organisation.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills using appropriate computers, printers, publications and reservations systems currently used in the tourism industry to assist with airfare quotations
- use of industry-current documentation or computer data such as airline, IATA and consolidator schedules, tariffs and bulletins outlining fares, rules, conditions and regulations.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- fare construction activities and case studies to assess ability to apply advanced fare construction principles to different circumstances and customer requirements
- review of fare calculation worksheets completed by the candidate
- written and oral questioning or interview to test knowledge of rules and conditions applicable to specific fares
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL005A Sell tourism products and services
- SITTTSL009B Process travel-related documentation
- SITTTSL013B Construct normal international airfares
- SITTTSL014B Construct promotional international airfares.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Configure air itineraries must include the following types of fares:

- through fares incorporating add-ons
- mixed class fares
- round the world fares
- round, circle and open jaw trips
- fares incorporating intermediate points
- fares incorporating sectorised journeys and side trips
- fares incorporating airport taxes and other surcharges, which may include:
  - domestic head tax
  - noise tax

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- fuel surcharge
- Q surcharge.

Calculate fares must include coverage of the following types of calculations and checks:

- neutral units of construction (NUA)
- local currency fares (LCF)
- global indicators (GI)
- journeys commencing outside the country of sale
- mileage system:
  - maximum permitted mileages (MPMs)
  - ticketed point mileages (TPMs)
  - extra mileage allowance (EMA)
  - excess mileage surcharges (EMS)
- higher intermediate points (HIPs)
- one way backhaul checks (BHA)
- circle trip minimum fare checks (CTM)
- compliance with indirect travel limitations rule
- re-routing.

SITTTSL016B Administer billing and settlement plan

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to administer a billing and settlement plan (BSP) for any tourism organisation involved in the sale and ticketing of airfares. It requires the ability to compile all information and documentation for air ticket sales and to lodge and report payments with accuracy.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key operational function for the sale and ticketing of domestic and international airfares. It applies to tourism industry sectors and organisations where airfares are sold and ticketed; mainly to retail travel agencies, tour wholesalers and consolidators. The tourism enterprise must be accredited with the International Air Transport Association (IATA).

BSP administration would normally be managed within a computerised system but some small business operators may use a manual system.

The unit applies to frontline sales or operations personnel who operate with some level of autonomy or under limited supervision and guidance from others. It is undertaken by a diverse range of people such as retail travel consultants, retail travel agency managers, corporate consultants, ticketing consultants, reservations and operations consultants.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Report on air travel sales and refunds.	1.1 Compile all information and documentation required for ***BSP reports*** at the appropriate time.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.2 Check documents for accuracy, and identify and report on discrepancies.
	1.3 Complete agency sales reports for the given BSP reporting period.
	1.4 Complete refund notices and refund applications as required.
	1.5 Produce and check BSP reports to include all transaction details.
	1.6 Keep and file documents and reports according to BSP and organisation procedures.
2 Complete billing and settlement reports and payments.	2.1 Reconcile statements according to BSP procedures and adjustment systems.
	2.2 Identify any discrepancies and action according to BSP procedures.
	2.3 Acquire ***BSP documentation*** according to BSP and organisation procedures.
3 Minimise waste of printed materials.	3.1 Minimise use of printed materials and maximise electronic transmission and filing of all documents to reduce waste and negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to read, interpret and complete BSP reporting documents
- numeracy skills to calculate gross and nett ticket sales, IATA payments and refunds, costs and other reporting figures and to accurately reconcile the BSP return.

The following knowledge must be assessed as part of this unit:

- role of IATA in BSP

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- IATA agency accreditation requirements
- BSP procedures
- BSP reporting timeframes
- BSP documentation
- general understanding of airfares and ticketing.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of BSP procedures and documentation • ability to apply BSP rules and procedures and complete BSP documents within typical workplace time constraints and the reporting deadlines determined by IATA and organisation • ability to complete multiple BSP documents accurately for multiple reporting periods and cover the full range of BSP reporting requirements relevant to the industry sector or organisation.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills within a fully equipped industry-realistic office environment using appropriate computers, printers, publications and software programs currently used in the tourism industry to control the administration of the billing and settlement plan • use of industry-current actual or training facsimile IATA BSP documentation • assessment by or in conjunction with an assessor currently accredited by IATA for BSP.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- written exercises, quizzes and tests of BSP reporting activities
- review of actual or facsimile BSP documents completed by the candidate
- written and oral questioning or interview to test knowledge of rules and procedures applicable to the completion of BSP documents
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTTSL012B Construct domestic airfares
- SITTTSL013B Construct normal international airfares
- SITTTSL014B Construct promotional international airfares
- SITTTSL015B Construct advanced international airfares.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

SITTVAF001A Provide venue information and assistance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide visitors with information on the venue's facilities and services.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to frontline service personnel working in a range of tourism, hospitality, entertainment and cultural venues. Provision of information and assistance is often face-to-face but may be by telephone or other remote mechanism. Customer service personnel working under supervision undertake this function, but the unit is also relevant to those working in operational roles where customer service may not be the main focus of work, e.g. animal handlers in a zoo or technicians in a theatre.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Access and update information.	1.1 Source and access ***information on facilities and services*** available within the organisation according to organisational systems.
	1.2 Incorporate information into day-to-day working activities to support quality of service and standards within the organisation.
	1.3 Share information with colleagues to support the efficiency and quality of service.
	1.4 Identify and use ***opportunities to update and maintain facility and service knowledge***.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Provide information about services and facilities.	2.1 Proactively identify information and assistance needs of different customers, including those with special needs. 2.2 Provide accurate information in a clear, concise, courteous and culturally appropriate manner. 2.3 Where appropriate, assist or instruct visitors in the use of equipment and facilities or refer to relevant colleagues. 2.4 Consider health and safety requirements when providing information and assistance. 2.5 Promote internal products and services using appropriate customer service skills to contribute to the profitability of business.
3 Seek feedback on services.	3.1 Proactively seek ***feedback*** on services from visitors. 3.2 Observe visitor behaviour to inform future service developments and correctly follow procedures for any formal customer evaluation. 3.3 Provide information on visitor feedback to relevant colleagues.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and interpersonal skills to interact in a friendly and courteous way with customers
- basic research skills to source information on a predictable range of customer requests
- literacy skills to understand, interpret and orally communicate venue information and promotional material.

The following knowledge must be assessed as part of this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- sources of information on the organisation's services and facilities
- typical information systems used within the different types of venues open to the general public
- organisation facilities, services and procedures, including for those with special needs, such as parking, exhibits, show times, retail outlets and special events
- available sources of advice and referral
- safety and emergency procedures for visitors, colleagues and self
- sources of venue customers in the relevant industry context
- roles of different departments within different types of venues.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to access appropriate information on services and facilities
- ability to communicate information and assist visitors in a courteous and culturally appropriate manner
- demonstration of skills on multiple occasions or in response to multiple requests to reflect breadth of knowledge and ability to respond to different situations.

Context of and specific resources for assessment

Assessment must ensure:

- interaction with others in the provision of information to demonstrate the appropriate interpersonal skills
- use of current venue information.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate providing assistance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	and information • case studies to assess ability to source a range of different types of information for different purposes • written and oral questioning or interview to test knowledge of the sources of information and the role of information systems within the venue • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Information on facilities and services may relate to:	• opening hours • access • pricing • ticket sales • cloaking • times of activities or events • direction or location of facilities • retail

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- food and beverages
- facilities for those with special needs
- new activities, events or procedures
- operational changes
- promotional activities.

Opportunities to update and maintain facility and service knowledge may include reference to:

- staff noticeboards
- leaflets and brochures
- team meetings
- internal newsletters
- discussions with colleagues.

Feedback may be:

- formal, including surveys, interviews and structured questioning
- informal, including observation or casual discussion.

SITTVAF002A Provide a briefing or scripted commentary

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide a briefing or scripted commentary for customers. It requires basic group communication and presentation techniques and the ability to deliver information effectively in a group situation. Often the information would have been prepared or scripted by others.

The unit does not include the skills to develop and present commentaries or activities to the level required by a fully competent guide. Those skills are found in SITTGDE006A Prepare and present tour commentaries or activities and SITTPPD005A Plan and develop interpretive activities.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals who need to present information or commentary to a group of people but who do not require the complete suite of presentation, commentary or public speaking skills.

Typically this unit might apply to individuals working in museums, attractions, on aircraft and in any business or community situation where oral communication to a group is required.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Present information to group.	1.1 Welcome participants to the ***briefing***, ***information session or tour*** according to organisation procedures.
	1.2 Provide participants with comprehensive, accurate and relevant information, including any special requirements or directions.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.3 Outline ***health and safety requirements*** according to organisation procedures and specific restrictions.
	1.4 Prepare participants appropriately for potential ***changes to the environment***.
	1.5 Answer questions in a courteous and friendly manner.
2 Enhance the presentation of information.	2.1 Use communication and presentation techniques to enhance participant experience.
	2.2 Ensure that personal presentation, appearance and grooming are appropriate to the environment.
	2.3 Use positive and welcoming body language.
	2.4 Show cultural and social sensitivity during the presentation.
	2.5 Correctly use relevant technical ***presentation resources***.
3 Liaise with team members.	3.1 Maintain communication and cooperation with other team members and operators to ensure safe and efficient operations.
	3.2 Give correct and accurate signals where appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- presentation and communication skills to present cohesive and audible group presentations and interact effectively with participants
- literacy skills to read and interpret information scripts or other briefing information
- numeracy skills to address required safety considerations, such as not exceeding numbers in a given location.

The following knowledge must be assessed as part of this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- health and safety requirements for specific events and locations
- emergency procedures for specific events and locations
- basic group presentation techniques, including:
  - voice projection
  - body language
  - tonal variety
- how to tailor language to meet different group needs.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to communicate information clearly to customers • ability to use simple group presentation techniques to enhance briefing or commentary • knowledge of health, safety and emergency procedures relevant to the venue or site • demonstration of skills on multiple occasions.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills through the presentation of a briefing or scripted commentary in an environment where such an event would generally take place, i.e. at a visitor site or within an attraction • use of appropriate equipment to provide the briefing or scripted commentary.
Methods of assessment	Assessment methods must be chosen to ensure that the skills required to conduct a pre-event briefing can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

The following examples are appropriate for this unit:

- direct observation of the candidate providing a briefing or scripted commentary
- written or oral questions or interview to test knowledge of OHS issues and requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITTVAF003A Operate a ride location.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Briefing**, **information session or tour may be:

- safety briefing
- site familiarisation tour
- shows or entertainment session
- ride
- demonstration
- crowd information session.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Health and safety requirements may relate to:	• dress restrictions • areas that are off-limits • guidance on using equipment • emergency procedures • restrictions on talking or making noise in an area.
Changes to the environment may relate to:	• warning about extraneous noise or other unusual activity • change in temperature, e.g. climate controlled facility • special effects on a tour • possible safety restrictions, e.g. if group entering a high risk area.
Presentation resources may include:	• microphone • loud speaker • video presentation • monitors • actors presenting a scripted show.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare and inspect ride location.	1.1 Inspect the ***ride location*** prior to arrival of customers and according to approved ***checklist*** for a specific ride.
	1.2 Check ***general equipment and supplies*** in the ride location to ensure readiness for operation and reorder supplies according to organisation procedures.
	1.3 Check ***safety equipment*** to ensure readiness for operation.
	1.4 Check for cleanliness and standard of presentation, and take remedial action promptly where appropriate.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Inspect rides.	2.1 Inspect ***rides*** prior to the arrival of customers according to approved ***checklist***.
	2.2 Note all items accurately according to organisation procedures.
	2.3 Report all discrepancies or irregularities to the appropriate supervisor immediately.
3 Prepare to operate ride.	3.1 Check ***loading procedures*** prior to commencement of the ride according to organisation procedures.
	3.2 Maintain appropriate communication with the ride loader to ensure the ride commences safely.
4 Operate and monitor ride.	4.1 Operate the ride or device according to specifications and organisation requirements and procedures.
	4.2 Continuously monitor operator controls during the operation of the ride.
	4.3 Monitor the overall ride, ride area and rider behaviour and reactions at all times.
	4.4 Take any required action in response to observations made during the ride, and ensure these conform to organisation safety procedures.
	4.5 Action ***emergency procedures*** strictly according to organisation and specific ride procedures.
	4.6 Treat customers in a friendly and courteous manner throughout the ride.
	4.7 Identify ***quality control issues or problems*** during the ride advising the appropriate supervisor for action.
5 Close down ride.	5.1 Commence close-down procedures when all customers have left the ride location.
	5.2 Close-down ride following organisation procedures for the specific ride.
	5.3 Identify defects or deficiencies and promptly report to appropriate supervisor for action.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
6 Close and secure ride.	6.1 Check that all areas of the ride meet organisation guidelines. 6.2 Clean and prepare location and equipment for the next operation. 6.3 Secure the ride location according to organisation procedures.
7 Prepare ride documentation.	7.1 Identify issues and events requiring ***documentation***. 7.2 Make notations accurately and comprehensively according to organisation procedures. 7.3 Complete and distribute accurate documentation within required timeframe, minimising use of printed materials and maximising electronic transmission of documents to reduce negative environmental impacts. 7.4 Forward reports and documentation to the appropriate area within the required timeframe.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- problem-solving skills to identify and respond to ride operation problems in the context of established procedures
- communication skills to allow for friendly and courteous interaction with customers
- literacy skills to interpret and prepare simple, standard documentation
- numeracy skills to interpret instructions involving numbers correctly.

The following knowledge must be assessed as part of this unit:

- health and safety procedures for specific rides
- emergency procedures for specific rides
- technical and equipment procedures for specific rides
- types of documentation and reports to be completed in ride operations.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to consistently follow procedures in ride operations to ensure safety of customers and colleagues
- understanding of the health, safety and emergency issues associated with ride operations
- specific demonstration of all safety procedures
- demonstration of skills across multiple operations of the ride and for an appropriate range of rides (as required by the attraction).

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped operational ride location
- commercially realistic ratios of customers to candidate to reflect typical workplace conditions.

Methods of assessment

Assessment methods must be chosen to ensure that the skills required to operate a ride location can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

- direct observation of the candidate safely operating a ride location
- direct observation of the candidate performing actual or simulated emergency procedures
- review of ride operational reports and checklists prepared or completed by the candidate
- written and oral questioning or interview to test knowledge of OHS issues, equipment features and emergency procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- problem-solving activities to assess ability to respond to various situations during the operation of a ride location, especially emergency aspects
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTVAF002A Provide a briefing or scripted commentary
- SITTVAF004A Load and unload a ride.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

SITTVAF005B Operate a games location

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct the day-to-day operation of a games area.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals working in a games area, usually in the context of an attraction or theme park although it may also apply to other games locations, such as those found in clubs and casinos.

The unit requires a good knowledge of operational, safety and games maintenance procedures combined with some problem-solving skills to address typical games problems. A person undertaking this role works under general supervision and applies some individual discretion and judgement to work activities.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare games location for customers.	1.1 Check ***games*** location for cleanliness, safety and security according to organisation policy and procedures.
	1.2 Check and prepare ***equipment and supplies*** for operation.
	1.3 Organise relevant ***signage and displays***.
	1.4 Check stock supplies and reorder required items according to organisation procedures.
	1.5 Inspect each game according to organisation procedures and report faults to relevant supervisor.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Conduct games operations.	2.1 Apply correct rules and regulations during games. 2.2 Answer customer questions on games correctly and courteously. 2.3 Record all prizes given for data analysis and stocktake purposes according to organisation procedures. 2.4 Maintain cleanliness of games location at all times. 2.5 Take payment for participation in the game and tender correct change.
3 Monitor customers and crowd.	3.1 Monitor crowd size and ensure that maximum numbers are not exceeded. 3.2 Monitor customer behaviour to ensure a safe and pleasant environment for all customers. 3.3 Firmly but courteously request customers to change inappropriate behaviour. 3.4 Request assistance from supervisor or security personnel as appropriate.
4 Clean and maintain games.	4.1 Inspect and clean games according to relevant schedules and procedures. 4.2 Identify game faults promptly. 4.3 Make simple repairs with minimum disruption to customers according to manufacturer instructions and organisation policy. 4.4 Report faults immediately to appropriate personnel and put games out of order where necessary. 4.5 Use energy, water and other resources efficiently when cleaning to reduce negative environmental impacts.
5 Close down games location.	5.1 Close down the game location according to organisation procedures and manufacturer instructions. 5.2 Secure resources, equipment and stock according to organisation policy and procedures. 5.3 Clean and prepare area for next day's operation.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
6 Complete reports and documentation.	6.1 Produce tallied data records and other ***documentation*** according to organisation requirements within required timeframe.
	6.2 Forward reports to the appropriate area within the required timeframe minimising use of printed materials and maximising electronic transmission of all documents to reduce negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to make simple repairs to games equipment
- cleaning techniques for games locations and equipment
- problem-solving skills to address typical operational problems in a games location
- communication skills to interact politely and appropriately with customers
- literacy skills to interpret and complete standard documents and reports
- numeracy skills to work with numerical games, to tally data reports and to calculate the dilution requirements for cleaning products.

The following knowledge must be assessed as part of this unit:

- security procedures in relation to games operations
- record keeping and documentation procedures for games
- individual game operations and rules
- health and safety requirements as they apply to games operations
- the environmental impacts of cleaning games locations and equipment and minimal impact practices to reduce these especially those that relate to resource, water and energy use
- correct and environmentally sound disposal methods for waste from games locations and in particular for hazardous substances.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to apply games operations procedures, including set up, inspection, cleaning and maintenance
- conduct of actual games and close down of games areas
- ability to complete games operation documentation accurately
- demonstration of skills during a complete shift or operational period.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped, operational games location during a complete shift or operational period
- commercially realistic ratios of customers to candidates to reflect typical workplace conditions.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge.

Assessment methods must be chosen to ensure that the skills required to operate a games location can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

- direct observation of the candidate completing duties within a games location
- direct observation of the candidate making simple repairs
- review of operational reports and checklists prepared and completed by the candidate
- written and oral questioning or interview to test knowledge of OHS issues and requirements, and rules

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	of the games • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Games may be:	• computerised • manual • coin-operated • group • individual • pay per use • included in entry.
Equipment and supplies may include:	• prizes • other promotional material • game components • administrative supplies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• maintenance items.
Signage and displays may include:	• prizes • games rules • promotional offers • directional signage.
Documentation may include:	• paper-based or electronically transmitted materials • participant numbers • incident reports • equipment checklists • safety checklists.

SITXADM001A Perform office procedures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to complete a range of routine office procedures and activities, including writing simple correspondence.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

It does not cover specific financial skills which are found in other units such as SITXFIN001A Process financial transactions. Development of more complex documents and correspondence is covered in SITXADM003A Write business documents.

Application of the Unit

Application of the unit

This unit describes a fundamental administrative function for the tourism and hospitality industries and applies to the full range of industry sectors and environments. All manner of personnel are required to perform office procedures. For some it may be a key aspect of their job (e.g. for those working in an office environment) and for others an occasional task (e.g. for those working in a stock control environment or kitchen).

All personnel at all levels would apply this skill, but it does describe a basic operational function of minimal complexity.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Process office documents.	1.1 Process ***office documents*** according to organisation procedures and within designated timelines.
	1.2 Use ***office equipment*** safely and correctly to ***process documents***.
	1.3 Identify, rectify or report office equipment malfunctions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	promptly and according to organisation procedures.
2 Draft written communication.	2.1 Select appropriate format and style for ***correspondence*** according to purpose, audience and situation.
	2.2 Draft documents according to organisation formats and protocols.
	2.3 Use clear and concise language appropriate to purpose, audience and situation.
	2.4 Use correct spelling, punctuation and grammar to ensure understanding by receiver.
	2.5 Check information for accuracy prior to sending.
3 Maintain document systems.	3.1 File or store documents according to organisation security procedures.
	3.2 Modify and update reference and index systems according to organisation procedures.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to convey meaning clearly and concisely
- basic literacy and written communication skills to produce workplace documentation and correspondence
- basic numeracy skills to do simple clerical tasks and count.

The following knowledge must be assessed as part of this unit:

- organisation practices and procedures for preparing and processing documents
- layout, format and features of typical business documents and alternative formats for special needs groups, such as large print
- features and usage of typical office equipment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- safe work practices for using office equipment and any related chemicals.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to draft multiple pieces of clear, concise and correct written communication, with different purposes, appropriate to the audience and situation
- ability to process a range of office documentation accurately and undertake a range of office tasks using different equipment ideally across a complete shift or operating period to address a range of office tasks
- completion of office administrative activities within typical workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped office environment using appropriate computers, printers and other office equipment such as facsimile machines, photocopiers and software programs currently used in the tourism and hospitality industries to assist with administrative functions.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to perform office procedures. The following examples are appropriate for this unit:

- review of documents processed or produced by the candidate
- project to develop a portfolio of documentation or correspondence associated with a particular job, event or project

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- questions to evaluate selection of appropriate type and format of correspondence for particular audiences, purposes and situations
- observation of candidate's safe and correct usage of office equipment
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCOM004A Communicate on the telephone
- BSBCMN205B Use business technology.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Office documents to be processed may include:

- guest mail
- customer records
- incoming and outgoing correspondence
- files
- letters
- facsimiles

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- memos
- reports
- menus
- banquet orders
- financial records
- invoices
- receipts.

Office equipment may include:

- photocopiers
- facsimiles
- computers
- paging equipment
- calculators
- audio-transcribing machines
- telephone answering machines.

Processing of documents may include:

- recording sent or received documents
- filing, including electronic filing
- mailing, including bulk mailing
- photocopying
- faxing
- emailing
- collating
- binding.

Correspondence to be drafted must include a selection from each of the following:

- letters
- emails
- faxes
- memos.

SITXADM002A Source and present information

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct basic research and present information in response to an identified need.

The development and presentation of more complex or strategic reports is covered in SITXADM003A Write business documents. Complex market research for the development of products is covered by the range of Planning and Product Development units.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a fundamental administrative function for the tourism and hospitality industries and applies to the full range of industry sectors and environments.

Frontline operational personnel who work with some level of autonomy or under limited supervision and guidance from others would be responsible for sourcing and presenting information. They are likely to be responding to a request to source and present specific information to meet a given business need. The research and information required is likely to be of minimal complexity.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Find information.	1.1 Identify a range of current and accurate information sources appropriate to the ***information to be sourced***.
	1.2 Access a range of ***information sources*** and assess for relevance and applicability.
	1.3 Obtain information within designated timelines.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Prepare and present information.	2.1 Review information and select content to suit the specific need. 2.2 Draft text if required, including all appropriate information. 2.3 Express information within the draft text clearly, concisely and accurately. 2.4 Present information according to organisation guidelines and in a format appropriate to the circumstances. 2.5 Deliver information to the appropriate person within designated timelines.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- basic research skills, encompassing:
  - identifying sources of required information, such as internet and industry journals
  - questioning and active listening skills to elicit information
  - note taking
  - sorting and processing information
- written and oral communication skills for conveying information clearly and concisely.

The following knowledge must be assessed as part of this unit:

- types of information resources available for a range of topics and how to access them
- methods of presenting information in a logical sequence and of an appropriate depth
- alternative presentation formats for special needs groups, such as large print
- organisational policies and procedures that relate to the presentation of information.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to find and review current and correct information on various topics related to the particular information need
- ability to present information in a logical, well-organised and appropriate manner
- sourcing and providing information within typical workplace time constraints that meet determined deadlines.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in sourcing and presenting information
- access to and use of current information and data
- access to policies and procedures that relate to the sourcing and presentation of information.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to source and present information. The following examples are appropriate for this unit:

- project to research a work-related topic and deliver the information sourced in a brief written presentation
- simple report with recommendations on a prospective product to be purchased
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITXADM003A Write business documents

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare and produce a range of business documents expressing complex ideas and requiring varying and complex formats, e.g. formal reports.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Basic written communication skills are covered in SITXADM001A Perform office procedures, and basic research and presentation skills are covered in SITXADM002A Source and present information.

Application of the Unit

Application of the unit

This unit describes a complex administrative function for the tourism and hospitality industries and applies to the full range of industry sectors and environments.

The business documents described by this unit are complex in nature and their preparation would require significant research. These documents would include such things as formal reports, tender submissions, complex letters, and business and operational plans. These types of documents require formal presentation and clear expression of complex concepts.

Senior tourism and hospitality operational personnel, supervisors and managers who operate autonomously and who may have responsibility for others are involved in the development of these complex business documents.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills, including academic research conventions and accessing research outside the immediate experience and expertise of the individual
- critical thinking skills to allow for interpretation and rational and logical analysis of all research information collected, including input from colleagues and external specialists
- communication skills to obtain specialist assistance and to seek and provide feedback
- high-level written communication skills to express and explain varied and complex issues in business documents
- proofreading and editing skills.

The following knowledge must be assessed as part of this unit:

- current business practices related to preparing and presenting documents, including report formats, structures and styles for commonly-used business documents
- organisation policies or guidelines and requirements for document design
- design, layout and graphic presentation techniques for business documents, including alternative presentation formats for special needs groups, such as large print.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • preparation and presentation of written documents that express ideas and concepts clearly, concisely and correctly • ability to adapt tone, format, style and language to suit purpose and audience

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- preparation of multiple business documents covering complex issues and addressing different communication needs
- preparation of a suitable range of business documents which could include reports, newsletters, submissions, proposals, project reviews, tenders, and business and operational plans
- development of business documents within typical workplace time constraints that meet determined deadlines.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in preparing and presenting business documents
- use of current technology for document preparation
- access to organisation policies, guidelines or requirements for document structure and design.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to prepare business documents. The following examples are appropriate for this unit:

- evaluation of a variety of documents produced by the candidate
- case studies to determine requirements and develop document formats or outlines for varying purposes and audiences
- review of research conducted by candidate for a particular project, including research methodology and selection and organisation of material
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Plan and prepare for meetings.	1.1 Identify the need for ***meetings*** and who should attend.
	1.2 Decide on style of meeting and required level of formality according to meeting purpose, occasion, nature of participants and organisation procedures.
	1.3 Make arrangements for meeting according to organisational requirements and within designated timelines, including provision for people with special needs.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.4 Develop an agenda that reflects meeting purpose.
	1.5 Research or obtain information on agenda items to enable informed discussion at the meeting.
	1.6 Prepare meeting papers and dispatch to participants before the meeting, where appropriate, and within appropriate timeframes.
2 Conduct meetings.	2.1 Chair meetings according to organisation procedures and meeting protocols.
	2.2 Encourage open and constructive communication by using appropriate interpersonal and communication styles.
	2.3 Reach agreement with meeting participants on meeting goals and conduct.
	2.4 Present information and ideas clearly and concisely.
	2.5 Give all participants the opportunity to contribute.
	2.6 Manage meetings to maintain focus on agreed goals.
	2.7 Conduct meetings within agreed times, or adjust times with the agreement of participants.
	2.8 Record minutes of meetings where appropriate.
3 Debrief and follow up meetings.	3.1 Process and distribute ***documentation from meetings***.
	3.2 Inform colleagues regarding the outcomes of meetings.
	3.3 Incorporate work resulting from meetings into the current work schedule, with tasks prioritised and actioned as appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- meeting management and chairing skills, including:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- active listening
- questioning
- conflict management
- time keeping
- oral communication skills specific to the conduct of meetings, including presentation skills
- written communication skills specific to writing agendas, supporting notes and minutes
- summarising and minute taking.

The following knowledge must be assessed as part of this unit:

- different types and formats of meetings, including general awareness of procedures for formal meetings
- standard procedures for formal meetings, including:
  - agenda format and order
  - types of seating arrangements
  - meeting terminology
  - minutes
  - role of chairperson and other office bearers
- group dynamics.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show the candidate's ability to plan for and conduct effective and structured meetings using appropriate procedures, protocols and documentation • ability to use effective communication skills in the conduct of meetings.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure:

- management of a meeting in a meeting facility appropriate to size and style of meeting
- involvement of multiple meeting participants
- use of agendas, minutes and other supporting documentation relevant to subject matter of the meeting.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to plan and manage meetings. The following examples are appropriate for this unit:

- direct observation of a meeting chaired by the candidate
- review of agendas, minutes and supporting documentation prepared by the candidate
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCOM003A Deal with conflict situations
- SITXHRM005A Lead and manage people
- SITXMGT002A Develop and implement operational plans
- SITXMGT003A Manage projects.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Meetings may include:

- one-off
- regular
- teleconferences
- videoconferences
- committee meetings
- board meetings
- annual general meetings
- project management meetings
- formal staff meetings.

Documentation from meetings must include:

- agendas
- minutes.

SITXCCS001B Provide visitor information

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide visitors with general information about a local area.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to frontline service personnel working in a range of tourism, hospitality, entertainment and cultural sectors who routinely respond to requests for general visitor information.

The unit reflects a context where information provision is fairly general in nature or where it is not the primary job role. For example, this unit might apply to individuals working in restaurants, hotels, wineries, attractions and entertainment venues, or to a volunteer in a visitor information centre who may not be expected to respond to requests for more complex or detailed Australian destination information. It might also include information on the venue in which the person works, e.g. products and services within a large theme park, attraction, cultural venue, winery or resort complex. The unit SITTTSL004A Source and provide Australian destination information and advice, is more relevant to people working in jobs where the provision of destination information is a primary focus, e.g. travel consultants and visitor information officers.

A person undertaking this role works under supervision and guidance from others.

ELEMENT	PERFORMANCE CRITERIA
	efficiency and quality of service.
	1.4 Identify and use opportunities to update and maintain local knowledge.
2 Provide information.	2.1 Proactively identify information and assistance needs of different customers, including those with special needs.
	2.2 Provide accurate and unbiased information in a clear, concise, courteous and ***culturally appropriate manner***.
	2.3 Where appropriate, assist or instruct visitors in the use of equipment and facilities or refer to relevant colleagues.
	2.4 Consider health and safety requirements when providing information and assistance.
	2.5 Promote ***internal products and services*** using appropriate customer service skills.
3 Seek feedback on services.	3.1 Proactively seek feedback on services from visitors.
	3.2 Observe visitor behaviour to inform future service developments and correctly follow procedures for any formal customer evaluation.
	3.3 Provide information on visitor feedback to relevant colleagues.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and interpersonal skills to interact in a friendly and courteous way with customers
- basic research skills to source information on a predictable range of customer requests
- literacy skills to understand, interpret and orally communicate local information and

REQUIRED SKILLS AND KNOWLEDGE

promotional material.

The following knowledge must be assessed as part of this unit:

- sources of information for organisation and local area knowledge
- general knowledge of organisation, local attractions and events, transport options and general visitor facilities, including shopping, currency exchanges, post offices, banks and emergency services (the focus of this knowledge will vary according to organisational needs)
- understanding of the need to provide advice in an unbiased and ethical manner
- available sources of advice and referral for more complex requests
- safety and emergency procedures for visitors, colleagues and self
- sources of customers in the relevant industry context.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to source accurate and current information on the local area • general knowledge of the local area sufficient to answer commonly asked customer questions relevant to job role • demonstration of skills on multiple occasions or in response to multiple requests reflecting breadth of knowledge and ability to respond to different situations.
Context of and specific resources for assessment	Assessment must ensure: • interaction with others in the provision of information to demonstrate appropriate interpersonal skills • use of current local area information.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- project to research visitor information for the organisation or local area
- direct observation of the candidate using local knowledge to answer customer questions
- oral or written questions to assess knowledge of local information and information sources
- role-play to provide information for variety of different customers
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

Sources of visitor information may include:

- brochures
- timetables
- local visitor guides
- library and local council
- local people including local identities with specialised knowledge
- winemakers and other wine experts
- organisation information
- room directories
- maps

SITXCCS002A Provide quality customer service

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide quality service to customers in a range of service industry workplaces. It requires the ability to determine and address diverse customer needs and expectations, ascertain changes in customer preferences, establish rapport, deal with complaints and difficult service situations, use opportunities for promoting and up-selling, apply knowledge of protocol and ritual for particular types of industry sectors and organisations, and systematically manage a clientele through rewards systems, databases, etc.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

This unit builds on the skills addressed in other units dealing with customer service and communication, such as SITXCOM001A Work with colleagues and customers.

Application of the Unit

Application of the unit

This unit describes a high-level customer service skill for those working within the service industries and applies to the full range of tourism and hospitality, retail and personal services, and sport and recreation industry sectors and environments, including those involved in food and beverage service, housekeeping, front office and hairdressing.

It applies to those who deal with customers and whose job includes the opportunity to provide a quality customer service experience. Senior operational personnel or supervisors and managers who operate autonomously are involved in providing this service.

Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Develop and maintain product, service and market knowledge.	1.1 Identify opportunities and use ***formal and informal research*** to develop and maintain knowledge of products and services.
	1.2 Use customer feedback and workplace observation to evaluate ***products***, ***services and promotional initiatives*** and identify changes in ***customer preferences***, ***needs and expectations***.
	1.3 Share market, ***product and service knowledge*** obtained with colleagues to enhance the effectiveness of the team.
	1.4 Suggest ideas to appropriate person for product and service adjustments to meet customer needs for future planning according to organisation policy.
2 Provide a quality service experience to customers.	2.1 Determine and clarify customer preferences, needs and expectations.
	2.2 Offer accurate information about appropriate products and services to customers to meet their needs and expectations.
	2.3 Anticipate customer preferences, needs and expectations throughout the service experience and provide products and services in a timely manner, appropriate to individual needs and preferences, and according to organisation standards.
	2.4 Offer possible extras and add-ons appropriately and provide personalised and additional services and products where appropriate.
	2.5 Proactively ***promote products and services*** at appropriate opportunities according to current organisation goals and promotional focus and employ ***selling techniques*** appropriately to encourage usage and purchase.
	2.6 Identify problems in products and services and take action immediately to address them and/or notify management.
	2.7 Liaise with team members to ensure timely and efficient service.
	2.8 Share information with other team members and relevant persons to ensure efficient service and timely and smooth workflow.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Deal with complaints and difficult customer service situations.	3.1 Use questioning techniques to establish and agree on the nature, possible cause and details of the ***complaint or difficult customer service situation*** with the customer and assess the impact on the customer of the situation. 3.2 Use ***communication techniques*** to assist in the management of the complaint and handle the situation sensitively, courteously and discreetly. 3.3 Take responsibility for finding a solution to the complaint within the scope of individual responsibility. 3.4 Determine possible options to resolve the complaint and promptly analyse and decide on the best solution, taking into account any ***organisation constraints***. 3.5 Take appropriate action swiftly to resolve the complaint and prevent escalation, in agreement with customer and to the customer's satisfaction. 3.6 Where appropriate, use techniques to turn complaints into opportunities to demonstrate high quality customer service. 3.7 Provide feedback on complaints to appropriate personnel in order to avoid future occurrence. 3.8 Reflect on and evaluate complaint and solution to enhance response to future complaints or difficult service situations.
4 Manage and use information about clients and customers.	4.1 Determine and record ***customer information*** where appropriate to provide personalised service. 4.2 Develop and maintain knowledge of organisation ***promotional initiatives*** and implement where appropriate. 4.3 Proactively provide enhanced products and services to clients and customers based on client information.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- communication skills to source information and determine customer needs and preferences through observation, questioning and active listening
- appropriate personal presentation and use of non-verbal communication
- selection and use of appropriate communication medium, including email and telephone and appropriate tone and style for different purposes and target audience
- formal and informal research skills
- conflict resolution techniques
- managing own work tasks, timing and workflow
- problem-solving techniques to deal with contingencies, difficult service situations and customer complaints.

The following knowledge must be assessed as part of this unit:

- any legal issues that impact on the sale of products and services
- in-depth knowledge of organisation products and services
- general knowledge of the market for different types of products and services
- different stated and unstated customer preferences and needs, and ways of meeting requirements
- protocols, service rituals, and service culture and expectations in relevant industry context
- expectations of socially and culturally diverse customers
- role of frontline staff in maximising business performance through effective up-selling and promotion
- ways in which different services present and promote products
- client management and reward systems, such as customer databases, promotions and loyalty programs.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in	Evidence of the following is essential: • ability to provide a total quality service experience • knowledge of different customer preferences and ways

EVIDENCE GUIDE

this unit

to meet both stated and unstated requirements
- ability to use selling techniques to promote products and services within a specific tourism or hospitality context
- ability to handle and resolve complaints and difficult customer service situations.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills while undertaking normal job tasks, e.g. up-selling while providing food and beverage service, promoting the hotel or park restaurant while at reception, advising guests of special features or events while issuing tickets to a theme park or other attraction, or promoting through the development of menus, specials or other special products or services
- work activities that allow interaction with multiple and diverse customer types to allow the candidate to respond to a range of requirements and customer service situations.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate providing service to customers
- oral or written questions to determine product and service knowledge
- case studies to test knowledge of appropriate products and services for different contexts, customers and situations
- role-plays in which the candidate promotes products and services and demonstrates up-selling techniques
- projects to develop menus, promotional ideas or suggestions for a particular product or service
- project to research customer preferences for a particular organisation or context
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the

RANGE STATEMENT

- restaurant facilities
- food and beverage
- add-on services
- special offers or packages.

Customer preferences, needs and expectations:

- may be determined by:
  - active listening
  - questioning
  - observation
  - recognition of non-verbal signs
- may be related to:
  - age
  - gender
  - social and cultural characteristics
  - prior knowledge
  - special needs
- may include:
  - friendliness
  - courtesy
  - value for money
  - prompt or timely service
  - assistance
  - empathy and support
  - comfort
  - new experience
  - basic needs for food, shelter, transport or other services.

Product and service knowledge may relate to:

- general features
- special features
- benefits
- disadvantages
- price
- special offers
- availability
- how to purchase or order.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Promoting products and services may include:	• displays • promotions • special offers and deals • menus and specials • word of mouth • up-selling.
Selling techniques include up-selling and suggestive selling and may involve:	• serving • helping • advising • building rapport with customers • arousing interest.
Complaints or difficult customer service situations may include:	• problems or faults with the service or product • delays or poor timing of product or service supply • misunderstandings or communication barriers • difficult or demanding customers • customers with different or special needs or expectations • escalated complaints.
Communication techniques may include:	• listening and active listening • asking questions to gain information, clarify ambiguities and adequately understand requirements • rephrasing and repeating questions, requests and statements to confirm that they have been correctly understood • empathising with the customer's situation while upholding organisation policy • non-verbal communication and recognition of non-verbal signs • using communication techniques appropriate to different social and cultural groups • ability to speak clearly, be understood and use appropriate language, style and tone.
Organisation constraints may include:	• feasibility • costs and budgets • policy and procedures

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop approaches to enhance quality customer service.	1.1 Obtain information on customer needs, expectations and satisfaction levels using both ***formal and informal research***.
	1.2 Provide opportunities for customers and colleagues to provide feedback on products and services.
	1.3 Review ***changes in internal and external environments*** and integrate findings into planning for quality service.
	1.4 Provide opportunities for colleagues to participate in the customer service planning process.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Develop standards and plans to address key quality service issues.
2 Manage the delivery of quality service.	2.1 Communicate ***customer service issues***, ***standards*** and expectations clearly to colleagues.
	2.2 Provide colleagues with access to information on service standards and delivery.
	2.3 Use coaching to assist colleagues to deal with customer service issues and take responsibility for service outcomes.
	2.4 Monitor ***customer service*** in the workplace according to organisation policies and procedures to ensure standards are met.
3 Monitor and adjust customer service.	3.1 Seek feedback from customers on an ongoing basis and use this to improve performance where applicable.
	3.2 Identify customer service problems and make adjustments to standards, systems and procedures to ensure continued service quality.
	3.3 Communicate new approaches to all those involved in service delivery within appropriate timeframes.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to provide support and coaching to a customer service team
- critical thinking and problem-solving skills to assess the need for, and make systemic improvements to address, service quality issues
- literacy skills to interpret complex information from varied sources and to develop documents that detail service standards, systems and procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- roles and responsibilities of management in ensuring quality service within an organisation
- concepts of total quality service and total quality management and their application in a given industry context
- role of continuous improvement and benchmarking
- methods of implementing quality assurance in the workplace, including:
  - establishing and monitoring standards
  - staff involvement and reward
  - evaluating customer service
- overview of the range of market research techniques used to gain information on customer preferences
- legislation that impacts on customer service standards and delivery, including relevant requirements under state fair trading legislation
- industry schemes that impact on customer service standards and delivery, such as accreditation schemes and codes of conduct.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to develop proactive approaches to delivering and monitoring quality customer service within a specific workplace context • knowledge of quality service principles and processes • demonstration of skills through the establishment, monitoring and evaluation of service delivery in a workplace context (e.g. managing an event or running a tour).

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure:

- access to a project or workplace where the candidate is able to demonstrate the full range of required skills
- involvement of and interaction with a team for which the candidate is leader.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of industry projects managed by the candidate to enhance service delivery in a given operation
- evaluation of projects managed by the candidate to create, market and deliver a tourism or hospitality service
- case studies to address specific service delivery issues in different workplace contexts
- oral or written questions to assess knowledge of quality assurance concepts and principles
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Formal and informal research on customer needs may include:

- talking to customers
- qualitative or quantitative research
- seeking feedback from service delivery colleagues
- analysis of competitive environment
- analysis of industry and market trends.

Changes in internal and external environments affecting quality service planning may include:

- management changes
- organisational restructures
- introduction of new equipment
- recruitment practices
- technological changes affecting service delivery
- changes in the competitive environment
- economic climate
- trends in customer preferences
- introduction of e-business.

Customer service issues and standards may relate to:

- response times
- service guarantees
- pricing guarantees
- product quality
- document presentation standards
- personal presentation standards
- complaint management.

Customer service may be provided in various modes, including:

- face-to-face
- online
- by telephone
- email or written communication.

SITXCCS004A Provide club reception services

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide reception services within a licensed club environment. It requires the ability to deliver quality customer service while assisting customers to comply with club and legislative requirements.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to all types of licensed club venues, such as sporting clubs, entertainment clubs, social clubs, workers' clubs and Returned and Services League (RSL) clubs.

Frontline customer service personnel who operate with some level of autonomy or under limited supervision and guidance from others are responsible for providing club reception services. They would require considerable product knowledge of all aspects of the club venue and could apply discretion and judgement within predefined organisational reception service procedures. Common job roles would include club receptionist, front desk receptionist and doorperson.

Club membership conditions, club rules, and dress and age regulations will vary according to the particular club and state or territory legislative requirements. It is critical that assessment is contextualised to meet the requirements of the specific state or territory legislation and the particular needs of the organisation and job role.

process memberships.	1.2 Explain club membership and club rules clearly, correctly and politely to the public and to members. 1.3 Clearly explain membership application forms to applicants and assist them to complete forms if required. 1.4 Issue correct membership badges or cards. 1.5 Check membership records to verify membership. 1.6 Use ***club reception technology*** to assist with the provision of services to members.
2 Monitor entry to club.	2.1 Check membership badges or cards upon entry to the club. 2.2 Assist guests to sign in according to government and organisation requirements. 2.3 Check that members and guests comply with dress and age regulations, according to organisation policy. 2.4 In a polite manner, inform members and guests who do not comply with dress regulations that entry is not permitted. 2.5 Refer disputes over club entry to security, supervisor or other relevant person according to organisation policy.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication and customer service skills for dealing tactfully and politely with customers
- literacy skills to read documents such as club membership cards, membership database records, ID cards, proof of age cards and driver's licences
- writing skills to assist customers to complete membership application forms, temporary and guest membership forms and to issue membership badges
- numeracy skills to calculate and explain membership costs.

The following knowledge must be assessed as part of this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- broad and working knowledge of club and licensing laws that relate to entry requirements for customers and dress regulations
- in-depth knowledge of particular club membership rules, conditions, benefits, entitlements and costs
- in-depth knowledge of the particular club services and facilities.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to offer courteous and friendly service to members and guests within the confines of the club rules and legislative requirements
- ability to accurately monitor the entry of club members and guests and issue necessary documentation within typical workplace time constraints and to allow for the efficient flow of people through reception to the club facilities
- knowledge of club rules and legislative requirements for entry into the club
- ability to process a range of different customer enquiries, membership applications and temporary membership forms, to meet different customer needs and on multiple occasions.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills within a fully equipped industry-realistic club reception environment using appropriate telephones, computers, printers and public address systems
- access to current club regulatory documents distributed by state or territory licensing agencies such as plain

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

English legislative publications that outline club entry requirements

- use of current club documents outlining policies, procedures, club facilities, membership benefits, costs and dress regulations
- interaction with others to demonstrate the interpersonal communication requirements of the unit.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to provide club reception services. The following examples are appropriate for this unit:

- direct observation of the candidate interacting with customers and providing accurate membership and regulatory information and using club reception technology to assist
- role-play to assess ability to provide appropriate customer service
- activities to allow the processing of different types of membership applications and club entry documents
- oral and written questions on club facilities, membership benefits and costs, rules and legislative requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCOM001A Work with colleagues and customers
- SITXCCS001A Provide visitor information.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish status of item.	1.1 Establish and maintain a lost and found register according to ***organisational requirements***.
	1.2 Record and verify a description and relevant details of the lost or found item with ***appropriate person***(***s***).
	1.3 Tag and file found items and place them in a ***designated location***.
2 Follow procedures for lost and claimed items.	2.1 Conduct all ***communication*** in a professional and courteous manner according to organisational requirements.
	2.2 Explain to the enquirer or claimant the organisational procedures and obligations regarding lost and found items, in a clear and sensitive manner.
	2.3 Investigate and trace lost items according to organisational policies and procedures.
	2.4 Verify ***identification*** of the claimant,ensuring they sign for and date the claimed item(s) according to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	organisational requirements.
3 Complete documentation.	3.1 Update the lost and found register reflecting whether the item has been claimed or fully investigated.
	3.2 Complete reports and other documentation according to organisational requirements and within designated timeframes.
	3.3 Report to the appropriate person(s) incidents and recommended system improvements in relation to lost and found claims and enquiries in a timely manner.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

- The following skills must be assessed as part of this unit:
- Accurately record and report information
- Effectively operate office and communication equipment
- Present a professional image to members of the public and colleagues
- Apply active listening and questioning techniques
- Solve basic problems
- Estimate and calculate resource and equipment requirements
- Collate and organise information and items
- Communicate effectively with people from different social, cultural and ethnic backgrounds and various physical and mental abilities
- Communicate in a clear and concise manner
- Comply with relevant legislative and regulatory requirements
- Enter data using basic keyboarding skills
- Estimate time to complete activities and organise personal schedule
- Prepare statements and write reports

The following knowledge must be assessed as part of this unit:

- Relevant legislative provisions
- Basic problem-solving strategies
- Premises and property security requirements and procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- Premises and property lay-out
- Rules for the identification and handling of dangerous and prohibited goods
- EEO, equity and diversity principles
- Operational techniques of communication and office equipment
- Organisational procedures and guidelines appropriate to own role, responsibility and delegation
- Reporting procedures and documentation requirements and processes
- Principles of effective communication including internpersonal techniques
- Principles of questioning to get specific information
- Use and storage requirements of equipment.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • Effectively communicate and record information regarding lost and found items and complete and maintain workplace documentation • Receive and relay verbal and non-verbal information in a concise and accurate manner with sensitivity to social and cultural differences • Identify prohibited and/or hazardous items and goods and take appropriate action • Effectively operate office technology and communication equipment
Context of and specific resources for assessment	Assessment must ensure: • Access to a suitable venue and equipment • Access to plain English version of relevant statutes and procedures • Assignment instructions, work plans and schedules, policy documents and duty statements • Assessment instruments, including personal planner

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	and assessment record book • Access to a registered provider of assessment services
Methods of assessment	For valid and reliable assessment of this unit, the competency should be demonstrated over a period of time and observed by the assessor. The competency is to be demonstrated in a range of situations, which may include involvement in related activities normally experienced in the workplace. Evidence of underpinning knowledge understanding of processes and principles can be gained through thorough questioning and by observation of previous work. A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • Access to a suitable venue and equipment • Access to plain English version of relevant stautes and procedures • Assignment instructions, work plans and schedules, policy documents and duty statements • Assessment instruments, including personal planner and assessment record book • Access to a registered provider of assessment services • Continuous assessment in a setting that stimulates the conditions of performance described in the elements, performance criteria and range of variables statement that make up the unit • Continuous assessment in the workplace, taking into account the range of variables affecting performance • Self-assessment on the same terms as those described above • Simulated assessment or critical incident assessment, provided that the critical incident involves assessment against performance criteria and an evaluation of underpinning knowledge and skill required to achieve the required performance outcomes. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

Organisational requirements may include:

- Legal and organisational policy and procedures including personnel practices and guidelines
- Organisational goals, objectives, plans, systems and processes
- Legislation relevant to the operation, incident and/or response
- Employer and employee rights and responsibilities
- Business and performance plans
- Policies and procedures relating to own role, responsibility and delegation
- Quality and continuous improvement processes and programs
- Emergency and evacuation procedures
- Duty of care, code of conduct, code of ethics
- Access and equity policy, principles and practice
- Records and information systems and processes
- Communication channels and reporting procedures.

Relevant details may include:

- Location
- Date
- Time.

Appropriate persons may include:

- Supervisors, managers
- Colleagues
- Members of the public
- Clients
- Designated human resource personnel.

Designated locations may include:

- Cupboard/storage facility
- Safe facilities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Communication techniques may include:	• Language, verbal or non-verbal • Active listening • Questioning to clarify and confirm understanding • Interpreting non-verbal and verbal messages • Observation techniques • Use of positive, confident and co-operative language • Control of tone of voice and body language • Use of language and concepts appropriate to cultural differences.
Identification documents may include:	• Daily/weekly reports • 'lost and found' register • Written and computer reports • Logs, journals

SITXCOM001A Work with colleagues and customers

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, interpersonal, communication and customer service skills and knowledge required to work in the service industries. This is a core unit underpinning all other units involving interaction with colleagues and customers.

Key required skills and knowledge for this role include meeting personal presentation standards, establishing rapport with customers, determining and addressing customer needs and expectations, dealing with complaints, working in teams and using appropriate communication techniques and mediums.

Application of the Unit

Application of the unit

This unit applies across the service industries to all job roles and levels and in particular to the full range of tourism and hospitality industry sectors and environments. It applies to those who deal directly with customers as well as back-of-house staff or those working in reception areas; in an office; and on tour or on site, such as food and beverage attendants, housekeeping attendants, porters and concierge staff, guides, front office personnel, tour coordinators, event coordinators and retail travel consultants.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Communicate with customers.	1.1 Conduct ***communication*** with ***customers and colleagues*** in a polite, professional and friendly manner.
	1.2 Use language and tone appropriate to a given situation in both written and spoken communication.
	1.3 Source relevant information about products and services and provide information clearly to customers.
	1.4 Use appropriate ***non-verbal communication*** in all situations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Observe and take into consideration non-verbal communication of colleagues and customers.
	1.6 Show sensitivity to ***cultural and social differences***.
	1.7 Use active listening and questioning to facilitate effective two-way communication.
	1.8 Select an appropriate ***medium of communication*** for the particular audience, purpose and situation, taking into consideration the characteristics of each medium and the relevant ***factors*** involved.
	1.9 Use communication medium correctly and according to standard ***protocols and organisation procedures***.
2 Maintain personal presentation standards.	2.1 Practise high standards of ***personal presentation*** according to organisation requirements, work location, impacts on different types of customers and specific requirements for particular work functions.
3 Provide service to colleagues and customers.	3.1 Identify colleague and customer needs and expectations correctly, including ***customers with special needs***, and provide appropriate products, services or information.
	3.2 Meet all reasonable colleague and customer needs and requests within acceptable organisation timeframes.
	3.3 Identify and take all opportunities to enhance service quality.
4 Respond to conflicts and customer complaints.	4.1 Identify potential and existing conflicts and seek solutions in conjunction with parties involved.
	4.2 Recognise customer dissatisfaction promptly and take action to resolve the situation according to individual level of responsibility and organisation procedures.
	4.3 Respond to ***customer complaints*** positively, sensitively and politely and in consultation with the customer.
	4.4 Refer escalated complaints to the appropriate person according to individual level of responsibility and organisation policy and procedures.
	4.5 Maintain a positive and cooperative manner at all times.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
5 Work in a team.	5.1 Demonstrate trust, support and respect towards team members in day-to-day work activities.
	5.2 Recognise and accommodate cultural differences within the team.
	5.3 Identify work-team goals jointly with colleagues and relevant others.
	5.4 Identify, prioritise and complete individual tasks within designated timeframes.
	5.5 Seek assistance from other team members, supervisors and managers when required.
	5.6 Offer assistance to colleagues when required to ensure designated work goals are met.
	5.7 Acknowledge and respond to feedback and information from other team members.
	5.8 Negotiate changes to individual responsibilities to meet reviewed work goals.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills in relation to listening, questioning and non-verbal communication
- basic written communication skills, including writing clear and concise messages, notes, emails and faxes
- basic literacy skills to read messages, notes, emails and faxes
- basic telephone skills
- identifying and responding to different cultural, language and special needs and expectations
- meeting personal presentation standards according to organisation requirements
- identifying and dealing with conflict situations, complaints and misunderstandings within scope of responsibility
- customer service skills, including meeting customer requirements, handling customer complaints and requests, developing rapport and promoting suitable products and services.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- protocol and service rituals of the industry, sector and organisation
- ethics of professional hospitality and tourism behaviour
- characteristics, uses and conventions of different types of communication mediums
- teamwork principles.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to communicate effectively with customers and colleagues (including those with special needs) within a range of situations required for the relevant job role
- ability to work effectively in a team
- ability to respond effectively to a range of customer service situations
- understanding of communication and customer service and its importance in a tourism or hospitality context.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of communication skills through interaction with others
- project or work activities that allow the candidate to respond to multiple and varying customer service and communication situations relevant to the job role; for those undertaking generic pre-employment training, project activities must cover a range of industry contexts to allow for a broad range of vocational outcomes.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate carrying out work tasks involving dealing with customers and colleagues
- role-plays about communication situations and dealing with complaints and misunderstandings
- review of simple messages written by the candidate for various situations
- questions about effective communication and personal presentation
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCOM002A Work in a socially diverse environment
- SITXCOM003A Deal with conflict situations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work

RANGE STATEMENT

environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Communication may be:	• verbal • written format, such as electronic (e.g. email) or hard copy (e.g. letter) • by telephone • in languages other than English, including Australian Indigenous languages • visual, such as sign language • via an interpreter.
Customers and colleagues may be:	• workmates and colleagues • external customers and clients • members of other tourism and hospitality industry sectors • individuals or groups, such as consultants and committees • government or other organisations • visitors • media.
Non-verbal communication may include:	• body language • dress and accessories • gestures and mannerisms • voice tonality and volume • use of space • culturally specific communication customs and practices.
Cultural and social differences may include:	• modes of greeting, farewelling and conversation • body language, including use of body gestures • formality of language.
Medium of communication may include:	• fax • email or other electronic communication • simple written messages, such as restaurant bookings or phone messages

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• face-to-face • telephone • two-way communication systems • standard forms and pro formas • assistive technology, e.g. telephone typewriter (TTY) • through interpreters.
Factors affecting the selection of appropriate medium may include:	• technical and operational features • access of the sender and receiver to necessary equipment • technical skills required to use the medium • required format • degree of formality required • urgency and timeframes.
Protocols and organisation procedures may include:	• modes of greeting and farewelling • addressing the person by name • timeframe for required response • style manual requirements • standard letters and pro formas.
Personal presentation may include:	• dress • hair and grooming • hands and nails • jewellery.
Customers with special needs may include:	• those with a disability • those with special cultural or language needs • unaccompanied children • parents with young children • pregnant women • aged people.
Customer complaints may relate to:	• problems with the service, such as delays or wrong orders • problems with the product • communication barriers or misunderstandings.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Communicate with customers and colleagues from diverse backgrounds.	1.1 Value customers and colleagues from different cultural groups and treat them with respect and sensitivity. 1.2 Take into consideration ***cultural differences*** in all verbal and non-verbal communication. 1.3 Make ***attempts to overcome language barriers*** by communicating through the use of gestures, sign language, or simple words in English or the other person's language. 1.4 Obtain assistance from colleagues, reference books or ***outside organisations*** when required.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Address cross-cultural misunderstandings.	2.1 Identify issues that may cause conflict or misunderstanding in the workplace.
	2.2 Address difficulties with appropriate people and seek assistance from team leaders or others where required.
	2.3 Consider ***possible cultural differences*** when difficulties or misunderstandings occur.
	2.4 Make efforts to resolve misunderstandings, taking account of cultural considerations.
	2.5 Refer problems and unresolved issues to the appropriate team leader or supervisor for follow-up.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to read and understand any workplace equal employment opportunity (EEO) and anti-discrimination policies and plain English information documents produced by government information agencies
- basic communication skills to identify and attempt to resolve misunderstandings which may be due to cross-cultural issues.

The following knowledge must be assessed as part of this unit:

- principles that underpin cultural awareness
- overview of general characteristics and key aspects of the main social and cultural groups in Australian society, including Indigenous and non-Indigenous people, sufficient to aid cross-cultural understanding
- overview of general characteristics of various international tourist groups appropriate to sector and individual workplace to enable their identification
- basic knowledge of types of disability and implications for the workplace
- principles and basic knowledge of EEO and anti-discrimination legislation as they apply to individual employees, and any associated workplace policies.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- social and cultural understanding and sensitivity in responding to different types of customers and colleagues
- ability to identify and respond to the cultural context of the workplace
- ability to apply knowledge of different cultures and cultural characteristics appropriately when communicating with colleagues and customers
- ability to communicate effectively with customers and colleagues from a broad range of backgrounds and on different operational activities that are relevant to the particular organisation and job role.

Context of and specific resources for assessment

Assessment must ensure:

- ability to communicate with colleagues and customers in a culturally sensitive manner while undertaking operational activities within a commercially realistic environment
- access to EEO and anti-discrimination policies and any plain English information documents produced by government information agencies.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to communicate with culturally diverse customers and colleagues. The following examples are appropriate for this unit:

- observation of the candidate interacting with colleagues and customers from diverse cultural and social backgrounds
- case studies or projects to consider particular conflict

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

situations arising from diversity and to suggest appropriate means of resolving them
- questions about cultural values and differences and effective communication and problem-solving techniques
- written and oral questioning or interview to test knowledge of EEO and anti-discrimination legislative issues and workplace policies
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCCS002A Provide quality customer service
- SITXCOM001A Work with colleagues and customers
- SITXLAN1__A Conduct basic workplace oral communication in a language other than English.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

SITXCOM003A Deal with conflict situations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to resolve conflict situations with customers and colleagues. It also describes the resolution of escalated complaints. The unit covers the conflict resolution skills required to address conflicts that may arise in day-to-day work situations. It does not cover formal negotiation, counselling or conducting mediation.

This unit builds on the basic skills and knowledge found in other units that address communication, such as SITXCOM001A Work with colleagues and customers.

Application of the Unit

Application of the unit

This unit describes a complex communication skill to apply when resolving conflicts and complaints that may arise in the course of daily work. It applies to those working within the service industries in the full range of industry sectors and environments.

The unit applies mainly to senior operational personnel or supervisors and managers who operate autonomously and take responsibility for resolving conflicts and complaints.

Licensing/Regulatory Information

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify conflict situations.	1.1 Identify potential for ***conflict*** quickly and take swift and tactful action to prevent escalation.
	1.2 Identify quickly ***situations where personal safety of customers or colleagues may be threatened*** and organise appropriate assistance.
	1.3 Identify and use ***resources to assist in managing conflict*** where appropriate and according to organisation policy and procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Resolve conflict situations.	2.1 Take responsibility for finding a solution to the conflict within scope of individual responsibility.
	2.2 Deal with conflict sensitively, courteously and discreetly and take steps to minimise impact on other colleagues and customers.
	2.3 Use effective ***communication skills*** to assist in management of the conflict.
	2.4 Encourage all points of view, acknowledge them and treat them with respect.
	2.5 Establish and agree on the nature and details of the conflict with all parties and assess the impact of the situation on them.
	2.6 Determine possible options to resolve the conflict and promptly analyse and decide on the best solution in agreement with all parties, taking into account any ***organisation constraints***.
	2.7 Use accepted ***conflict resolution techniques*** to manage the conflict situation and develop solutions.
	2.8 Complete any necessary documentation accurately and legibly within time constraints.
3 Evaluate conflict situations.	3.1 Seek and provide feedback on the conflict and its resolution where possible with the parties involved.
	3.2 Evaluate and reflect on the situation and effectiveness of the solution.
	3.3 Determine possible ***causes of workplace conflict*** and provide input for workplace enhancement and improvements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to determine details and causes of the conflict through observation, questioning and active listening

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- conflict resolution skills and strategies incorporating communication skills of:
  - assertiveness
  - listening
  - non-verbal communication
  - language style
  - problem-solving
  - negotiation
- ability to follow procedures for handling complaints.

The following knowledge must be assessed as part of this unit:

- types of conflict that typically occurs and typical causes
- conflict theory, including signs, stages, levels, factors involved and results
- group processes and roles people play
- organisational structures, and workplace cultures and policies
- organisation policy and procedures on conflicts and complaints, including any reporting requirements
- relevant regulatory, industrial and legislative requirements related to the handling of disputes, dealing with drug or alcohol-affected persons, situations where customers must be refused entry, ejection from premises and security provision.

commonly-occurring conflict situations that may be found in the workplace relating to the usual work roles of the candidate, such as handling customer complaints in a restaurant, resolving disputes with colleagues over work aspects, or dealing with contractors or suppliers who fail to meet obligations; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes

- interaction with others to demonstrate appropriate interpersonal skills for resolving conflicts.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate demonstrating complaint handling or negotiation skills, either in the workplace or through role-plays
- case studies to analyse and resolve conflict situations arising in various work contexts
- written or oral questions to assess underpinning theories related to conflict resolution
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXCCS002A Provide quality customer service
- SITXMGT001A Monitor work operations
- SITXHRM005A Lead and manage people
- SITXHRM007A Manage workplace diversity.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job

EVIDENCE GUIDE

role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Conflict situations may relate to:	• customer complaints • conflict among work colleagues • refused entry • drug or alcohol-affected persons • ejection from premises • problems or faults with a service or product • delays or poor timing of product or service supply • misunderstandings or communication barriers • difficult or demanding customers • customers with different or special needs or expectations.
Situations where personal safety of customers or colleagues may be threatened and assistance required may involve:	• drug or alcohol-affected persons • people with guns or arms • situations where someone has been or may be hurt • people who appear to be violent or are threatening • situations where customers refuse to leave or be pacified.
Customers or colleagues may be from a range of cultural backgrounds and may include:	• workmates • hospitality or tourism customers • outside contractors • suppliers.
Resources to assist in managing conflict may include:	• senior staff • other staff members

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- internal security staff or police
- counsellors.

Communication skills include:

- listening and active listening
- questioning techniques, such as asking the right question to elicit the other parties' needs
- asking questions to gain information, clarify ambiguities and adequately understand requirements
- rephrasing and repeating questions, requests and statements to confirm that they have been correctly understood
- empathising with the colleague or customer's situation while upholding organisation policy
- assertiveness
- non-verbal communication and recognition of non-verbal signs
- ability to speak clearly to be understood and use appropriate language, style and tone.

Organisation constraints may include:

- costs and budgets
- organisation policy on refunds or exchange
- lack of availability of replacement items, services or tickets.

Conflict resolution techniques may include:

- problem-solving
- negotiation
- use of appropriate communication skills.

Causes of workplace conflict may include:

- poor communication
- lack of information
- changes to practices and procedures
- cultural misunderstanding
- lack of empathy
- complaints
- workplace problems and issues.

SITXCOM004A Communicate on the telephone

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to communicate effectively on the telephone. It requires the ability to make and receive calls, to take messages on behalf of other people and to use the main features of a telephone correctly.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a fundamental administrative function for the tourism and hospitality industries and applies to the full range of industry sectors and environments. All manner of personnel are required to communicate on the telephone. For some it may be a key aspect of their job such as for those who work in an office environment and for others an occasional task, for example, for those who work in a kitchen.

All personnel at all levels would apply this skill, but it does describe a basic operational function of minimal complexity.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Respond to incoming telephone calls.	1.1 Answer ***telephone calls*** promptly, clearly and politely according to organisation standards.
	1.2 Offer friendly assistance to the caller and establish the purpose of the call.
	1.3 Repeat call details to the caller to confirm understanding.
	1.4 Answer caller enquiries promptly or transfer caller to the appropriate location and person.
	1.5 Where necessary, record caller requests and information and pass on to the appropriate department or person for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	follow-up.
	1.6 Relay messages accurately to the nominated person within appropriate timelines.
	1.7 Report threatening or suspicious phone calls promptly to the appropriate person and according to organisation procedures.
	1.8 Use language, tone and volume appropriate to the nature of the phone call.
2 Make telephone calls.	2.1 Obtain correct telephone numbers.
	2.2 Establish clearly the purpose of the call prior to calling.
	2.3 Use ***telephone equipment*** correctly in order to establish contact.
	2.4 Communicate clearly your name, company and reason for calling.
	2.5 Be polite and courteous at all times.
	2.6 Document outcome of telephone call if required according to organisation standards.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to use the technical features of a specific telephone system correctly
- oral communication skills to convey meaning clearly and concisely and interpret the requirements of incoming callers
- interpersonal skills to relate to people from a range of social, cultural and ethnic backgrounds
- literacy and writing skills to record messages.

The following knowledge must be assessed as part of this unit:

- principles of effective communication in relation to listening, questioning and verbal

REQUIRED SKILLS AND KNOWLEDGE

communication

- organisation's policies and procedures relating to telephone communication, and the recording and passing on of messages.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • making and receiving telephone calls using telephone equipment correctly • courteous and friendly telephone service • clear and concise verbal and written communication • making and receiving calls on multiple occasions, communicating on different matters and with different types of callers to ensure consistency of performance.
Context of and specific resources for assessment	Assessment must ensure: • use of current telephone equipment within operationally realistic tourism or hospitality environments • interaction with others to demonstrate the interpersonal communication aspects of communicating on the telephone • access to policies and procedures that relate to answering the telephone, and recording and taking messages.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to communicate on the telephone. The following examples are appropriate for this unit: • direct observation of candidate answering and making

EVIDENCE GUIDE

a variety of phone calls
- review of messages taken on behalf of customers and colleagues
- role-plays to observe candidate dealing with difficult customers or situations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXADM001A Perform office procedures
- SITXCOM001A Work with colleagues and customers.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Telephone calls may take place in a range of different contexts, including:

- office
- reception area
- on tour
- in a restaurant or kitchen
- on site
- with customers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- with colleagues
- with suppliers.

Telephone equipment may include:

- single or multiple line telephone systems
- switchboards
- mobile phones
- landlines.

SITXCOM005A Make presentations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare for and deliver effective presentations to a group of people. It requires the ability to plan presentations that are tailored to the audience needs and to deliver interesting and coherent presentations using appropriate aids, equipment and public speaking techniques.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a complex communication skill for those working within the service industries and applies to the full range of industry sectors and environments.

The presentations described by this unit are formal and structured in nature. They may be internal or external and may include such things as sales presentations, training delivery, presentations within meetings, presentation of a bid or proposal, conference addresses and formal staff briefings.

Senior operational personnel or sales and marketing supervisors and managers who operate autonomously are involved in making formal presentations.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare for presentations.	1.1 Plan presentation in advance allowing adequate time for appropriate research and preparation.
	1.2 Research and select material based on presentation objective, ***audience characteristics***, nature of the occasion, style of venue and any ***special needs*** of the audience.
	1.3 Organise material in a clear and logical order and structure.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.4 Select and create or organise appropriate ***supporting materials and visual aids*** using appropriate technology and within required timeframes.
2 Make presentations.	2.1 Observe protocols appropriate to the audience and nature of the occasion.
	2.2 Enhance the quality of the presentation through appropriate use of ***public speaking techniques***.
	2.3 Use visual aids and other ***presentation equipment*** correctly to enhance presentation.
	2.4 Involve the audience in the presentation and encourage feedback where possible.
	2.5 Assess audience needs and responses during the presentation and make adjustments to presentation accordingly.
	2.6 Complete presentation within the nominated timeframe.
	2.7 Seek feedback on presentation to incorporate in any future presentation preparation.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpretation of the audience characteristics and information needs
- use of appropriate technology and software programs to create suitable support materials that relate to the delivery of presentations
- microphone techniques, as and when applicable to the context of delivering the presentation e.g. for a conference address
- high-level literacy and communication skills to facilitate the gathering and analysis of complex information and to interpret this for accessible communication to the group
- high-level verbal communication skills to present in an informative, engaging, educational and enjoyable manner and to interpret and answer group questions.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- methods for planning presentations, including structure and timing of effective presentations
- knowledge and application of public speaking techniques, including:
  - use of voice, including tone, volume, diction and expression
  - appropriate eye contact
  - appropriate body language
  - impact of dress
  - use of humour
- features of typical equipment and software programs used to deliver presentations
- subject matter for presentation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • delivery of logical, well-structured presentations that show effective use of public speaking techniques and equipment • ability to tailor the presentation to specific audience needs, contexts and delivery situations • preparation and delivery of multiple presentations covering various topics that meet the needs of different audiences to ensure consistency of performance.
Context of and specific resources for assessment	Assessment must ensure: • presentation of information within a commercially realistic delivery environment, such as in a large meeting room or in a conference venue • use of industry-current equipment and support aids for presentation, which will vary according to the operational context of delivering the presentation,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	e.g. a microphone will be essential equipment for a large venue • presentation to and interaction with a group of a size and nature that would be expected for the relevant topic or context.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to make presentations. The following examples are appropriate for this unit: • direct observation of presentations made by the candidate • evaluation of presentation notes and supporting materials prepared by the candidate • evaluation of feedback forms that describe the audience's enjoyment of the presentation • questioning audience members on their response to the candidate's ability to present information in an interesting way • • case studies to assess ability to tailor presentations for different audience needs, different subject matter and different delivery locations • written and oral questioning or interview to test knowledge of public speaking techniques and features of presentation equipment • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITXADM004A Plan and manage meetings • SITXMGT006A Establish and conduct business relationships • SITXMPR003A Plan and implement sales activities • SITXMPR004A Coordinate marketing activities.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry

sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Audience characteristics may relate to:

- age
- gender
- seniority or status
- commercial or other relationship
- familiarity with presentation topic
- culture
- disability.

Special needs may include:

- provision of an interpreter
- provision of presentation materials in alternative formats, such as large print
- provision of assistive technology, such as audio loops
- use of pictures, diagrams, cartoons and photographs.

Supporting materials and visual aids may include:

- slides
- overheads
- PowerPoint presentations
- handouts
- props
- videos.

SITXCOM006A Address protocol requirements

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to address protocol requirements in a broad range of business activities. The unit focuses on basic research skills to acquire a knowledge and understanding of protocol requirements within diverse business, social and cultural contexts, as well as the ability to use that knowledge in a practical workplace context.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Protocol issues affect a broad range of business and government activity. This unit therefore applies to people working in different roles and at different levels in many industry sectors. It applies to hospitality and tourism operations and is particularly relevant to those involved in event management and operations function coordination, tour operations and tour guiding.

Licensing/Regulatory Information

Not applicable.

ELEMENT	PERFORMANCE CRITERIA
into work activities.	2.2 Integrate the correct use of protocol into work activities. 2.3 Liaise with colleagues and other stakeholders to determine appropriate protocol requirements. 2.4 Provide appropriate information on protocol to relevant colleagues and stakeholders.
3 Update knowledge of protocol.	3.1 Identify and use ***opportunities to update protocol knowledge***. 3.2 Share updated knowledge with customers and colleagues as appropriate, and incorporate into day-to-day working activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to identify and access information on protocol
- literacy skills to interpret protocol information
- numeracy skills to work with concepts around order and timing, such as for speakers or dignitaries.

The following knowledge must be assessed as part of this unit:

- importance and role of protocol in different business situations
- key sources of information on protocol
- main types of civic functions held in Australia
- Australian honours system, including order of precedence, ranks and forms of address, and wearing of honours and medals
- appropriate protocols for the involvement of Indigenous Australians and other cultural groups in business activities
- correct use of national and state symbols, including flags, anthems and military salutes
- forms of address for different VIPs and dignitaries, both for written correspondence and in oral communication
- protocol procedures for different types of event, including:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- invitations to VIPs
- arrival procedures, including for heads of state or government officials
- introduction protocols and order of speakers
- order of precedence for official guests
- seating arrangements
- dress styles.

SITXENV001A Participate in environmentally sustainable work practices

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to participate in environmentally sustainable work practices. It requires the ability to measure self-usage of resources effectively, follow predetermined environmentally sustainable work practices, identify and report on breaches and suggest improvements to work activities that will contribute to environmental sustainability and reduce negative environmental impacts.

The unit is the first of three hierarchical service industry units that describe varying levels of participation in work practices that contribute to environmental sustainability. It is equivalent to GCSSUS01A from the Generic Guideline units for Sustainability.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a fundamental skill necessary to participate in environmentally sustainable work practices within the service industries and applies to the full range of industry sectors and environments.

It has particular application to the retail, sport and recreation, accommodation, tour operating and attractions sectors and to those tourism products and services that are delivered in environmentally sensitive areas and which promote environmentally sustainable messages. Many would be nature or ecotourism-based experiences.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	All personnel at all levels could apply this skill, but it does describe a basic operational function of minimal complexity.
Application of the unit (*continued*)	The unit applies to frontline operational personnel who operate under close supervision and guidance from others during the normal course of their daily activities. They would apply little discretion and judgement because they operate within the predefined organisational procedures for their individual participation in environmentally sustainable work practices.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	Nil

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify current resources used within the workplace.	1.1 Identify workplace ***environmental and resource efficiency issues***. 1.2 Identify resources used in own work role. 1.3 Measure and document current usage of resources using ***appropriate techniques***. 1.4 Identify and report workplace environmental hazards to appropriate personnel.
2 Comply with environmental regulations.	2.1 Follow procedures to ensure ***compliance***. 2.2 Report breaches or potential breaches to appropriate personnel.
3 Seek opportunities to improve resource efficiency.	3.1 Follow ***enterprise plans*** to improve environmental practices and resource efficiency. 3.2 Make ***suggestions*** for improvements to ***workplace practices*** in own work area.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to recognise procedures, follow instructions and respond to change
- communication skills to enable questions and seek clarification relating to environmentally sustainable work practices and to propose and report on suggested improvements to work practices that promote environmental sustainability
- literacy and numeracy skills to interpret workplace policies, plans and procedures that relate to use of resources and the organisation's environmental sustainability practices
- ability to relate to people from a range of social, cultural and ethnic backgrounds and of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

varying physical and mental abilities.

The following knowledge must be assessed as part of this unit:

- broad understanding of environmental sustainability and the means by which it can be implemented by organisations and individuals in the workplace
- awareness of legislation and regulations imposed by relevant land management agencies and federal, state or territory, and local governments and their relevance to the particular industry sector and workplace
- how to access industry codes of practice, standards and accreditation scheme requirements, and working knowledge of their contents and organisational compliance requirements
- working knowledge of environmental and resource hazards, risks and inefficiencies associated with the particular industry sector and workplace
- relevant environmental and resource-efficiency systems and organisational procedures for own work area
- reporting procedures.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show candidates' ability to identify and integrate environmentally sustainable principles into their work practices and to follow predetermined procedures • ability to participate in the improvement of environmental and resource-efficient work practices at own level of responsibility • knowledge of the principles of environmental sustainability and means by which they can be incorporated into the workplace.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure:

- project or work activities that show candidates' ability to participate in environmentally sustainable work practices within operationally-realistic service industry environments and within the context of the particular industry sector and business type in which they are working or seeking work
- access to current regulatory documents distributed by key federal, state or territory, and local government agencies such as plain English legislative publications
- access to industry codes, standards and accreditation scheme documentation that outline principles and practices for environmental sustainability and resource-efficient approaches
- access to organisational policies and procedures that relate to resource usage, measurement and reporting and general environmental sustainability practices.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to participate in environmentally sustainable work practices. The following examples are appropriate for this unit:

- evaluation of written or verbal reports prepared by the candidate on resource use, measurements of usage, inefficiencies and suggestions for improvements
- evaluation of checklists on workplace environmental hazards and risks completed by the candidate
- project activities and problem-solving exercises to allow candidates to identify resource inefficiencies and environmental impacts and apply improved approaches to their own workplace operations
- evaluation of written or verbal reports that outline suggested measures to reduce environmental impacts of the organisation
- written and oral questioning or interview to assess knowledge of environmental regulatory requirements, contents of industry codes of conduct and methods for reducing environmental impacts and improving environmental sustainability of operations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	Holistic assessment with other operational units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Environmental and resource efficiency issues may include:	• minimisation of environmental risks and maximisation of opportunities to improve business environmental performance, including:
	  • minimisation of waste through implementation of the waste management hierarchy
	  • efficient energy use, seeking alternative sources of energy
	  • efficient water use
	  • modelling environmentally efficient workplace practices.

Appropriate techniques may include:	• examination of invoices from suppliers • analysis of resource orders placed and resource audits • observation of usage

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- measurements made under different conditions
- examination of relevant information and data
- monitoring equipment.

Compliance may include:

- meeting relevant federal, state or territory, and local government laws, by-laws and regulations
- meeting the requirements of industry codes of conduct to which the organisation subscribes
- meeting the requirements of industry accreditation schemes to which the organisation subscribes.

Enterprise plans may include:

- documented policies and procedures
- work plans to minimise waste and increase efficiency of water use
- endorsement of accepted industry codes of practice developed by industry associations.

Suggestions may include ideas that help to:

- prevent and minimise risks and maximise opportunities, such as use of solar or other alternative forms of energy where appropriate
- reduce emissions of greenhouse gases
- reduce use of non-renewable resources
- improve energy efficiency
- increase use of renewable, recyclable, reusable and recoverable resources.

Workplace practices may involve:

- administrative, purchasing and product planning activities
- personal services
- purchasing stock, equipment and supplies
- disposal of waste, which can include waste disposal associated with large events as well as that from the workplace
- communicating with suppliers, clients and colleagues
- catering and provision of food and beverage
- organising and managing activities relevant to the operations of the enterprise
- providing advice to customers on risks to the environment and how to reduce these.

SITXENV002A Implement and monitor environmentally sustainable work practices

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to analyse environmentally sustainable work practices effectively. It requires the ability to analyse current work practices, seek information from key stakeholders and specialists, set improvement targets, implement improvements and monitor their effectiveness.

The unit is the second of three hierarchical service industry units that describe varying levels of participation in work practices that contribute to environmental sustainability. It is equivalent to GCSSUS02A from the Generic Guideline units for Sustainability.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to the full range of industry sectors and environments.

It has particular application to the retail, sport and recreation, accommodation, tour operating and attractions sectors and to those tourism products and services that are delivered in environmentally sensitive areas and which promote environmentally sustainable messages. Many would be nature or ecotourism-based experiences.

The implementation and monitoring of environmentally sustainable work practices may apply to the whole enterprise, to a series of activities within an enterprise, or to one-off activities. They would normally be undertaken by unsupervised senior

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

staff members who have significant responsibility in the workplace, owner-operators and managers.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	Nil

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Investigate current workplace practices in relation to resource usage.	1.1 Identify environmental regulations applying to the enterprise. 1.2 Evaluate procedures for assessing ***compliance*** with environmental regulations. 1.3 Collect information on environmental and resource-efficient systems and procedures, and share information with team members. 1.4 Measure and document current resource usage by members of the work group. 1.5 Analyse and document current ***purchasing strategies***. 1.6 Analyse current work processes to access information and data to assist in identifying areas for improvement. 1.7 Consult with colleagues and other stakeholders regarding issues of environmental sustainability, including environmental responsibilities and environmental impacts.
2 Set targets for resource usage improvements to sustainable work practices.	2.1 Seek and integrate input from ***stakeholders***, ***key personnel and specialists***. 2.2 Assess external sources of information and data as required to inform decisions on improvements. 2.3 Evaluate alternative solutions to workplace environmental issues and incorporate outcomes into workplace operations. 2.4 Set efficiency targets for resource usage. 2.5 Develop procedures to minimise or negate potential negative environmental impacts and maximise positive environmental impacts. 2.6 Seek a coordinated effort amongst stakeholders, key personnel and specialists to operate in an environmentally sustainable manner.
3 Implement performance improvement strategies.	3.1 Source ***techniques and tools*** to assist in achieving performance improvement targets. 3.2 Apply continuous improvement strategies to own work area of responsibility and communicate ideas and possible solutions to the work group and management.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3 Integrate and implement ***environmental and resource efficiency improvement plans*** for own work group with those from other operational activities.
	3.4 Seek, and where appropriate act upon, ***suggestions*** and ideas about environmental and resource management from stakeholders.
	3.5 Implement costing strategies to determine value of environmental assets.
	3.6 Provide a role model for colleagues, customers and stakeholders in relation to environmentally sustainable operations.
4 Monitor performance and improvement strategies.	4.1 Document outcomes and communicate reports on performance improvement targets to key personnel and stakeholders.
	4.2 Evaluate strategies to identify required modifications and inform further performance improvement strategies.
	4.3 Set new targets and investigate and apply new tools and strategies.
	4.4 Promote successful strategies and where possible reward participants.
	4.5 Monitor and accurately record workplace practices that have been established to improve the environmental sustainability of enterprise operations.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication skills to consult with colleagues and stakeholders on issues of environmental responsibility and to ensure information is supplied to work group
- literacy and numeracy skills to use information-collection techniques, record and monitor activities within an environmentally sustainable framework, and read and interpret complex documents that relate to environmental and energy efficiency requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- technology skills, including the ability to operate and shut down equipment
- ability to recognise and implement environmental and energy efficiency management policies and procedures relevant to own work area
- change management skills
- critical thinking skills to allow for rational and logical analysis of problems in order to devise solutions and reflect on approaches taken
- ability to relate to people from a range of social, cultural and ethnic backgrounds and of varying physical and mental abilities.

The following knowledge must be assessed as part of this unit:

- broad working knowledge of legislation and regulations imposed by relevant land management agencies and federal, state or territory, and local governments and their relevance to the particular industry sector and workplace
- how to access industry codes of practice, standards and accreditation scheme requirements, and working knowledge of their contents and organisational compliance requirements
- relevant environmental and energy efficiency systems and procedures
- best practice approaches relevant to own area of responsibility
- quality assurance systems relevant to own work area
- supply chain procedures
- strategies to maximise opportunities and minimise impacts relevant to own work area
- relevant knowledge of environmental and resource efficiency issues specific to industry practices
- general awareness of global environmental issues and environmental ethics
- broad awareness of the environmental and social impacts relevant to particular industry sector and workplace
- thorough knowledge of minimal impact techniques and procedures in relation to areas of operation, including:
  - waste disposal
  - energy use
  - resource use.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- project or work activities that show candidate's ability to analyse environmentally sustainable work practices, set improvement targets, implement improvements and monitor their effectiveness
- knowledge of external benchmarks and how these can be applied to the workplace to improve environmental sustainability
- knowledge of how to access information on the current range of legislation, regulations and industry codes and ability to interpret the requirements clearly as they relate to the business operation
- knowledge of general environmental impacts and issues associated with service industry operations, minimal impact techniques and procedures and their application within the workplace
- project or work activities conducted over a commercially realistic period of time so that the analysis, implementation and monitoring aspects of this unit can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a service industry operation for which environmentally sustainable practices can be implemented and monitored ***or***
- access to comprehensive and sufficient information about that operation to allow the candidate to participate fully and actively in implementing and monitoring environmental practices
- access to current regulatory documents distributed by key federal, state or territory, and local government agencies, such as plain English legislative publications
- access to industry codes, standards and accreditation scheme documentation that outline environmental sustainability compliance issues
- involvement of key people so that consultative actions can be implemented.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to implement and monitor environmentally sustainable work practices.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

The following examples are appropriate for this unit:

- review of reports prepared by the candidate analysing current workplace practices and resource usage, with work plans outlining plans for improved practices inclusive of documented benchmarks
- evaluation of procedures developed by the candidate on minimising or negating negative impacts on the environment
- direct observation of the candidate conducting consultation and workplace monitoring activity
- review of planning and operational activities undertaken as part of a workplace program aimed at improving environmentally sustainable work practices
- project or case study to analyse appropriate minimal impact approaches and other measures that work toward improving environmental sustainability
- written and oral questioning or interview to assess knowledge of such things as environmental regulatory requirements, contents of industry codes of conduct, relevant environmental issues, and minimal impact techniques and procedures
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD004A Plan and implement minimal impact operations
- SITTPPD006B Plan and develop ecologically sustainable tourism operations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Compliance may include:	• meeting relevant federal, state or territory, and local government laws, by-laws and regulations • meeting requirements of industry codes of conduct to which the organisation subscribes • meeting requirements of industry accreditation schemes to which the organisation subscribes.
Purchasing strategies may include:	• influencing suppliers to incorporate practices that support the principles and outcomes of sustainability.

Stakeholders, ***key personnel and specialists*** may include:	• individuals and groups both inside and outside the organisation that have some direct interest in the enterprise's conduct, actions, products and services, including:
	  • employees at all levels of organisation
	  • customers
	  • suppliers
	  • other organisations
	  • specialists outside the organisation with particular technical expertise.

Techniques and tools may include:	• examination of invoices from suppliers • measurements made under different conditions relating to environmental impacts of workplace operations • examination of relevant information and data, such as that relating to energy and resource use.
Environmental and resource	• addressing environmental and resource sustainability

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

efficiency improvement plans may include:	initiatives, such as environment management systems, action plans, surveys and audits
	• reference to standards, guidelines and approaches such as:
	  • ISO 14001 Environment Management System
	  • life cycle analyses
	  • global reporting initiative
	  • ecological footprinting
	  • triple bottom line reporting
	  • product stewardship
	• determining enterprise's most appropriate waste treatment, including waste to landfill, recycling, reuse and wastewater treatment.
	• applying the waste management hierarchy in the workplace
	• initiating or maintaining appropriate enterprise procedures for operational energy consumption, including stationary and non-stationary (transport) energy.

Suggestions may include ideas that help to:	• prevent and minimise risks and maximise opportunities, such as use of solar energy where appropriate • reduce emissions of greenhouse gases • reduce use of non-renewable resources • make more efficient use of energy • maximise opportunities to reuse and recycle materials • identify strategies to offset or mitigate environmental impacts, such as purchasing carbon credits • express purchasing power through the selection of suppliers with improved environmental performance, such as purchasing renewable energy • eliminate the use of hazardous and toxic materials.

SITXENV003A Develop workplace policy and procedures for sustainability

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and implement a strategic workplace sustainability policy. It requires the ability to define the scope of the policy, and develop policy content and procedures that reflect the organisation's commitment to sustainability, communicate and implement the policy and review and modify it to suit changed circumstances.

The unit is the third of three hierarchical service industry units that describe varying levels of participation in work practices that contribute to environmental sustainability. It is equivalent to GCSSUS03A from the Generic Guideline units for Sustainability.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a complex business management skill necessary to ensure environmentally sustainable business operations within the service industries and applies to the full range of industry sectors and environments. Sustainability policies can have a broad focus, incorporating environmental, economic and social impacts of operations or can focus on one or more of these aspects.

The unit has particular application to the retail, sport and recreation, accommodation, tour operating and attractions sectors and to those tourism products and services that are delivered in environmentally and culturally sensitive areas. Many would be nature, ecotourism or culturally-based

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

experiences.

The development of sustainability policies may apply to the whole enterprise, to a series of activities within an enterprise, or to one-off major activities, such as an event.

The unit applies to senior managerial personnel who operate autonomously, have responsibility for others and who will be responsible for making strategic decisions on establishing and reviewing various business management practices across the organisation.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop workplace sustainability policy.	1.1 Define ***scope of sustainability policy***.
	1.2 Identify and consult with ***stakeholders*** as a key component of the policy development process and evaluate opportunities for stakeholders to participate in partnership sustainability practices.
	1.3 Include in the policy, ***strategies*** for minimising resource use, reducing toxic material and hazardous chemical use and employing life cycle management approaches at all stages of work.
	1.4 Recommend policy options based on likely effectiveness, timeframes and cost.
	1.5 Develop policy that reflects the organisation's commitment to sustainability as an integral part of the business planning and as a business opportunity.
	1.6 Agree on appropriate methods of implementation.
	1.7 Consider and evaluate relevant inclusions from established industry benchmark standards and codes of conduct.
2 Communicate the policy.	2.1 Promote the policy and its expected outcomes to key stakeholders and agree on implementation.
	2.2 Inform those involved in implementing the policy on outcomes to be expected, activities to be undertaken and assigned responsibilities.
	2.3 Develop mechanisms and systems to maximise opportunities to capture feedback.
3 Implement the policy.	3.1 Develop and communicate procedures to help implement the policy.
	3.2 Implement strategies for continuous improvement in resource efficiency.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3 Establish and assign responsibilities relating to record systems for tracking continuous improvements in sustainability approaches.
4 Review policy implementation.	4.1 Document outcomes and provide feedback to key personnel and stakeholders.
	4.2 Investigate the success or otherwise of policy.
	4.3 Monitor records to identify trends that may require remedial action and to promote continuous improvement of performance.
	4.4 Modify policy and procedures to ensure improvements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to research, analyse and present information
- ability to prepare written reports that are concise, well articulated and suited to intended audience
- high-level literacy skills to read and interpret complex materials describing legislative and industry regulatory requirements that relate to environmental, economic and cultural sustainability
- high-level written literacy skills to develop comprehensive sustainability business management practices and systems inclusive of detailed yet easily accessible policies and procedures
- high-level communication skills to conduct consultation with a variety of stakeholders, deal with different points of view and dissenting stakeholders and adjust communication to suit different audiences
- ability to work as a member of a team to consult on and validate policy
- ability to respond to diversity, including gender and disability.

The following knowledge must be assessed as part of this unit:

- components of policies and procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- policy development processes and practices
- consultation and communication mechanisms used by organisations to develop and implement procedural systems
- in-depth knowledge of legislation and regulations imposed by relevant land management agencies and federal, state or territory, and local governments and their relevance to the particular industry sector and workplace
- how to access industry codes of practice, standards and accreditation scheme requirements; and in-depth knowledge of their contents and organisational compliance requirements
- principles, practices and available tools and techniques of sustainability management relevant to the particular industry sector and workplace
- best practice approaches relevant to the particular industry sector and workplace
- relevant systems and procedures to aid in the achievement of sustainability in the workplace
- quality assurance systems relevant to the particular industry sector and workplace
- awareness of enterprise policies, procedures and protocols from other related industries
- equal employment opportunity, equity and diversity, and OHS implications of policy being developed
- general awareness of global environmental issues and environmental ethics
- in-depth knowledge of environmental, economic, social or cultural impacts relevant to the particular industry sector and workplace
- in-depth knowledge of ways to enhance sustainable work practices, such as minimising impact through efficient and effective:
  - waste disposal
  - resource and energy use
  - involvement of sustainable practices in all areas of operation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show the candidate's ability to develop, implement and review strategic and integrated sustainability policies and procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

according to regulatory requirements for a given service industry operation
- knowledge of specific and relevant legislative and industry regulatory requirements
- knowledge of environmental, economic, social or cultural impacts and issues associated with the candidate's industry sector and the particular environments of operation
- project or work activities conducted over a commercially realistic period of time so that the implementation and evaluation aspects of this unit can be assessed; for example, a sustainability policy can be established, evaluated and reviewed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a service industry operation for which sustainability policies and procedures can be developed, implemented, monitored and reviewed ***or***
- access to comprehensive and sufficient information about that operation to allow the candidate to participate fully and actively in developing, implementing, monitoring and reviewing sustainability policies and procedures
- access to current regulatory documents distributed by key federal, state or territory, and local government agencies, such as plain English legislative publications
- access to industry codes, standards and accreditation scheme documentation that outline environmental, economic and social sustainability compliance issues
- involvement of key people so that consultative actions can be implemented.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to develop workplace policy and procedures for sustainability. The following examples are appropriate for this unit:

- evaluation of a portfolio that incorporates an entire written sustainability system for an organisation, including such things as policies, procedures, information fact sheets for workers, training plans and a communication strategy

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- evaluation of reports prepared by the candidate detailing how sustainability policies, systems and procedures were established for a given project or work activity
- evaluation of project or work activities conducted in conjunction with an industry operator to allow the candidate to develop policies and procedures for a particular workplace
- evaluation of implementation and review processes through interviews with key stakeholders or review of reports
- case studies and problem-solving exercises to establish systems, policies and procedures for different workplace sizes and types

- direct observation of the candidate reviewing workplace operations with a view to improving contribution to sustainable work practices direct observation of the candidate modelling minimal impact procedures within an environmentally sensitive area
- project or case study to analyse appropriate strategies for minimising operational impacts and improving the sustainability of the workplace and local environment
- written and oral questioning or interview to test knowledge of legislative and industry compliance requirements, environmental and social impacts of the operation, and local and regional environmental issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTPPD004A Plan and implement minimal impact operations
- SITTPPD006B Plan and develop ecologically sustainable tourism operations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies

between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Scope of sustainability policy may include:

- integrated approach to sustainability that includes environmental, economic and social aspects, or a narrower one to focus on each aspect individually
- parts of the enterprise to which it is to apply, including whether it is for the whole enterprise, one site, one work area or a combination of these
- investigation of particular business and market context of the industry and enterprise
- addressing sustainability initiatives through reference to standards, guidelines and approaches, such as:
  - ISO 14001 Environment Management System
  - life cycle analyses
  - global reporting initiative
  - ecological footprint assessment
  - triple bottom line reporting
  - product stewardship.

Stakeholders may include:

- individuals and groups inside and outside the organisation that have some direct interest in the enterprise's conduct, actions, products and services, including:
  - employees at all levels of the organisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- customers
- suppliers
- regulators
- other organisations.

Strategies may include:

- awareness raising among stakeholders
- training staff in principles and techniques of sustainability
- promotional and educational activities
- conducting audits of energy and waste within initial development of policy and procedures and their subsequent review
- minimising environmental impacts through:
  - technological solutions
  - education
  - restricting and minimising use of particular resources
  - reducing use of energy through energy-saving devices
  - reducing waste
  - involving clients, stakeholders and other persons in contributing to sustainable practices.

SITXEVT001B Develop and update event industry knowledge

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and update current and emerging information on the event industry, including industry structure, current technology and key environmental, community, legal and ethical issues that must be considered and applied by event industry personnel in their day-to-day work. The unit focuses on the ability to source and comprehend general event industry information and covers the initial and ongoing development of a person's required knowledge base. This information underpins effective performance in the events industry. More specialised and advanced event research and management knowledge is found in other units.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a key function for all people working in the event industry who require an essential and broad knowledge of the event industry to support all work activities. This unit applies to individuals working within any industry context and for any event organisation type, as event organisation and management takes place across the full spectrum of business and community activity. It has particular relevance in the cultural, community hospitality, sporting and tourism sectors.

By its nature, the unit acknowledges the concept of an events industry and is relevant to those individuals working in any meeting and event operational and management role.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Source and apply general information	1.1 Identify ***sources of information*** to understand the structure and operation of ***the event industry***.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 on the structure and operation of the event industry.	1.2 Access and comprehend specific ***information*** of relevance to the event industry. 1.3 Access and use knowledge of the event industry to ***enhance the quality of work performance***.
2 Source and apply information on legal and ethical issues for the event industry.	2.1 Obtain information on ethical and ***legal issues*** to assist effective work performance. 2.2 Conduct day-to-day event organisation activities according to legal obligations and ***ethical industry practices***.
3 Source and apply information on event industry technology.	3.1 Source and access information on current and emerging ***technologies that impact on the event organisation process***. 3.2 Identify the potential effects of different technologies on the event organisation process. 3.3 Apply knowledge of current and emerging technology in day-to-day work activities.
4 Update personal and organisational knowledge of the events industry.	4.1 Identify and use a range of ***opportunities to update knowledge*** of the event industry. 4.2 Monitor current ***issues of concern*** to the industry. 4.3 Share updated information with colleagues, according to organisational procedures, and incorporate into day-to-day work activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to identify, interpret and sort relevant information
- communication skills including active listening and questioning to obtain information and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

to provide a verbal summary of information

- literacy skills to read and comprehend the content of plain English information documents about legal issues, industry accreditation schemes and codes of conduct
- writing skills to note take, summarise and record information in basic documents such as information sheets, portfolios and files.

The following knowledge must be assessed as part of this unit:

- sources of general information on the event industry
- the key characteristics of those different types of events listed in the range statement including for each specific type of event:
  - key motivations for hosting events
  - nature of audience
  - objectives
  - key stakeholders and their roles
  - scope
  - key elements of staging an event
- primary impacts of events on local economies and community lifestyle
- structure and function of the event industry including:
  - concept of an event industry and how it relates to a range of business and community activity
  - businesses and organisations involved in the industry
  - marketing and distribution channels
- the general nature of allied and crossover industries including:
  - cultural
  - exhibition
  - tourism
  - hospitality
  - sports
  - incentives
  - conferences
- the existence and primary functions of the major cross-industry and sector-specific industry associations especially those with which the business has a relationship
- the existence and primary functions of trade unions in the industry
- the existence and key characteristics of occupational licensing, codes of conduct or ethics and industry accreditation schemes in the event industry, the impacts of compliance and non-compliance and the roles and responsibilities of individual staff members in these quality assurance processes
- the existence and basic aspects of state, territory and local council laws that impact on event operations and actions that must be adhered to by event businesses, in particular

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

laws that cover:

- equal employment opportunity (EEO)
- anti-discrimination
- occupational health and safety and workers' compensation
- workplace relations
- legal liability and duty of care of customers
- environmental protection (this would include requirements that must be met by event businesses when staging events)
- local community protection (this would include land ownership, management and access requirements that must be met by event businesses when staging events)
- consumer protection (this would include refund requirements that must be met by event management businesses, terms and conditions of quotations and cancellation fees)
- responsible service of alcohol
- food safety

- current and emerging technology used in the event industry, including e-business

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to source initial and updated event industry information and apply this to day-to-day activities to maximise effective performance in specific event organisational contexts • general knowledge of the event industry, including main roles, functions and interrelationships of different event businesess, with a more detailed knowledge of issues that relate to a specific event or workplace • general knowledge of the key environmental, community, legal and ethical issues for the event industry.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in sourcing industry information
- access to information sources in order to conduct research and collect sufficient information
- access to industry association membership information, codes of conduct and accreditation information
- access to plain English documents that describe key event and general workplace legislation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- projects to research differing aspects of the events industry and delivery of the sourced information in a brief written or oral presentation
- holistic event planning project activities that allow the candidate to demonstrate the application of knowledge to specific event industry contexts and situations
- case studies and problem-solving exercises to assess application of knowledge to different situations and contexts
- written and oral questioning or interview to test knowledge of different businesses within the event industry and their interrelationships, the key content of legislation and industry codes of conduct
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

for example:

- SITXADM002A Source and present information
- SITXCOM004A Communicate on the telephone.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry

EVIDENCE GUIDE

	sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Sources of information on and ***opportunities to update knowledge*** may include:	• formal and informal research • media • reference books • legislation or plain English publications describing the law and responsibilities to comply • libraries • unions • industry associations and organisations • industry journals • computer data, including internet • personal observations and experience • informal discussions and networking with colleagues • industry seminars • training courses • familiarisation tours of event destinations and facilities • participation or membership in professional industry associations • participation in industry accreditation schemes • use of industry codes of conduct or ethics.
Event industry relates to any type of event and information	• conference • symposium

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

must be sourced for and applied to:	• exhibition • festival • promotion • show • sporting event • parade • cultural celebration • trade and consumer show • social event • private and public event • corporate event • charitable or fundraising event.

Information of relevance to the ***event industry must include***:	• economic and social significance of the event industry which may relate to:
	  • employment
	  • effect on local amenities and facilities
	  • population change due to event facility development
	  • community role in events
	• role of and impacts on local communities
	• different event markets and their relevance to industry sectors
	• relationships between the event and other industries, including:
	  • tourism
	  • hospitality
	  • entertainment
	  • arts
	  • sports
	  • agriculture
	  • conservation
	  • retail
	• different sectors and businesses within the industry, their interrelationships and the services available in each sector
	• different event types and staging elements
	• major event industry bodies and associations
	• environmental issues for events, including:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- protection of natural and cultural integrity
- minimal impact operations
- environmental sustainability
- waste management
- energy-efficient operations
- land ownership
- land access and usage

- industrial relations
- specific features of the local and regional industry
- career opportunities within the industry
- roles and responsibilities of individual staff members in a successful events business, including ethical practices and quality assurance

Enhancing the quality of work performance may involve:

- making contacts with networks for obtaining key information to develop, deliver and improve events
- suggesting new and improved ways of doing things
- performing work duties within legal, ethical and social guidelines to ensure smooth operation of events
- improving skills, knowledge and productivity by accessing and attending industry professional development courses or activities.

Legal issues may include:

- consumer protection
- EEO
- anti-discrimination
- workplace relations
- public liability and duty of care
- licensing
- land ownership, management and access
- environmental management
- risk management
- OHS.

Ethical industry practices may relate to:

- maintaining the rights and lifestyle conditions of local community residents
- agreed compliance with codes of conduct, practice or ethics
- truth and honesty regarding all information given to

SITXEVT002B Provide event staging support

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to provide assistance with the staging of an event, including general knowledge of event staging and production issues.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals working in event operations support roles across the full spectrum of business and community activity. It has particular relevance in the cultural, community hospitality, sporting and tourism sectors.

While the unit is broad in nature to capture a wide range of event operations, it requires the ability to apply specific knowledge of event technical production and staging requirements.

An individual undertaking this role would be required to use some discretion and judgement, and operate within an established framework of plans and procedures under some supervision.

Licensing/Regulatory Information

Not applicable.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Make preparations for event staging.	1.1 Clarify and confirm details of ***event***, including necessary resources, roles, responsibilities and timelines.
	1.2 Assess and correctly interpret ***key event staging information*** to confirm own and team work requirements.
	1.3 Obtain or organise relevant ***staging resources*** ensuring all safety requirements are met.
	1.4 Obtain staging resources according to staging plans to meet cost requirements, minimise waste and maximise

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	profitability of the event.
2 Provide on-site staging and production assistance.	2.1 Use event operations knowledge and initiative to participate effectively in event set-up, operation and break-down.
	2.2 Anticipate potential operational problems and take appropriate action to mitigate.
	2.3 Provide required ***assistance to meet technical production requirements***.
	2.4 Identify and take opportunities to acquire new skills.
	2.5 Safely dispose of all waste, especially hazardous substances, to minimise negative environmental impacts
	2.6 Ensure ***health***, ***safety and security procedures*** are integrated into all work procedures and ***risk management issues*** are addressed.
	2.7 Maximise work efficiency and effectiveness through appropriate ***liaison with colleagues on operational issues***.
	2.8 Identify ***operational problems*** promptly and resolve within scope of individual responsibility or refer to supervisor.
	2.9 Accurately complete all required ***event documentation***.
3 Participate in event debrief.	3.1 Review event operation and factors impacting on its efficiency and success, including own role.
	3.2 Provide input to event debrief regarding operational issues and areas for potential improvement.
4 Reduce negative environmental impacts.	4.1 Use energy, water and other resources efficiently during event set up, operation and break-down to reduce negative environmental impacts.
	4.2 Safely dispose of all waste, especially hazardous substances, to minimise negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to interpret event documentation, including basic production documentation and work plans
- numeracy skills to work with attendance numbers, monitor time and schedules, and check resources and equipment
- problem-solving skills to anticipate and respond to typical event operational problems.

The following knowledge must be assessed as part of this unit:

- broad features and components of different types of events
- roles and responsibilities of various personnel involved in event staging in different work contexts
- product and service terminology and broad operational parameters for key areas of staging, including:
  - catering
  - venue or site services and set-ups
  - technical services, including audiovisual, lighting, sound, rigging and special effects
  - entertainers
  - registration requirements and set-ups
  - physical elements, including display, furniture and temporary structures
  - security
  - media coverage
  - safety equipment
  - typical procedures and practices for the set-up, operation and break-down of events in the relevant work context
  - overview of legal, security and risk management issues that impact on event operations across different contexts
  - safe manual handling procedures relevant to the work context
  - emergency procedures relevant to the work context.
- the environmental impacts of resource, water and energy use during event set-up, operation and break-down and minimal impact practices to reduce these
- correct and environmentally sound disposal methods for all types of waste and in particular for hazardous substances.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- general knowledge of key operational, staging and production issues for different types of events
- knowledge of the different event management and operational roles and responsibilities in the relevant work context
- ability to provide efficient, resource effective and safe event operations support, including effective liaison and proactive identification of operational problems
- practical demonstration of skills through the provision of operational assistance at an event.

Context of and specific resources for assessment

Assessment must ensure:

- access to an event on which the candidate can work
- ***access to key event staging information***
- interaction with others to reflect the communication aspects of the unit
- presence of realistic time constraints for the completion of work activities.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate completing tasks during set-up, operation and break-down of an event
- oral or written questioning to assess knowledge of event components, typical procedures and safety issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the

EVIDENCE GUIDE

	industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Event may include:	• conference • symposium • exhibition • festival • promotion • show • sporting event • parade • cultural celebration • trade and consumer show • social event • public event • corporate event • charitable, fundraising event.
Key event staging information	• attendance numbers • event timelines

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

may provide details of:

- venue or stage set-up
- technical production, including:
  - lighting
  - sound
  - audiovisual
- sets
- props
- costumes
- itemised lists of resources and suppliers
- itemised maximum cost of resources.

Staging resources may include:

- technical equipment
- handouts
- props
- transportation
- furniture
- space
- catering
- security
- support materials.

Assistance to meet technical production requirements may include:

- working with technicians
- working with venue staff
- running cables
- moving equipment
- assisting with stage or equipment set-up.

Health, ***safety and security procedures*** may relate to:

- food safety
- electrical safety
- ensuring clear access routes
- personal hygiene
- restricting access
- identifying potential hazards.

Risk management issues may relate to:

- security
- specific audience behaviour
- crowd control

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• service quality.
Liaison with colleagues on operational issues may include:	• early discussion of potential problems • seeking clarity on operational requirements • developing a team approach to particular tasks.
Operational problems may include:	• delays • equipment breakdown • client dissatisfaction • non-arrival of key talent, speakers, etc. • inadequate supplies.
Event documentation may include:	• running sheets • checklists • equipment labelling • attendance lists.

SITXEVT003B Process and monitor event registrations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to process and monitor registration for any type of event.

No licensing, legislative, regulatory or certificate requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Events are diverse in nature and are organised and administered in many different industry contexts. The underpinning principles of event management are consistent across these contexts and this unit is designed to apply to a broad range of events. It has particular relevance in the creative, hospitality, sport and tourism sectors within venues, event management organisations and professional conference organisers.

Registration processing and monitoring requires underpinning clerical and administrative skills combined with knowledge of specific event administration procedures. This function is undertaken by individuals working according to broader event management procedures and under guidance from others.

An individual achieving this unit would be expected to have a broad understanding of general event administration processes and principles to enable the transfer of skills across a range of different event types.

ELEMENT	PERFORMANCE CRITERIA
	timelines.
	1.3 Use appropriate features of technology to maximise work efficiency and speed.
	1.4 Organise all registration information in a clear and logical way.
	1.5 Provide accurate and relevant event information to clients and colleagues as required.
	1.6 Prepare and issue ***documents and other materials*** according to event requirements.
	1.7 Identify and follow up on missing information within appropriate timelines.
2 Review and report registration information.	2.1 Monitor ***registration information*** and provide ***attendance reports*** to appropriate colleagues, clients and suppliers as required.
	2.2 Proactively identify issues or challenges emerging from attendance information and report accordingly.
	2.3 Take ***action to address attendance issues*** according to instructions and in consultation with colleagues.
3 Finalise registration documentation.	3.1 Check and finalise registration documentation within agreed timelines.
	3.2 Produce accurate and complete ***final attendance documentation*** in agreed formats and styles.
	3.3 Distribute final registration documentation according to agreed procedures and within required timelines.
	3.4 Minimise use of printed materials and maximise electronic transmission of all documents and materials during the registration process to reduce negative environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- organisational skills to collate, organise and process a wide range of information from varied sources
- problem-solving skills to address typical registration requirements, discrepancies and anomalies
- communication skills to liaise with event attendees and colleagues on registration issues
- literacy skills to interpret general event and specific registration documentation
- numeracy skills to determine attendance numbers and relationship to venue or event capacity.

The following knowledge must be assessed as part of this unit:

- overview knowledge of the event management process, such as key components for any type of event
- event attendance procedures and systems, including current technological developments in the relevant industry context
- impact and importance of accurate registration information for operational and services quality
- issues and problems that arise in the event registration process
- type of information and reports that assist in the event management process
- different types of clients for different types of events and the associated impact on attendance administration.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to accurately process registration information and to produce accurate attendance reports and related documentation • knowledge of administration systems and procedures for recording and reporting event attendance

EVIDENCE GUIDE

- demonstration of skills in registration processing and monitoring for more than one event
- production of work within commercial workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- project or work activities are conducted over a period of time to allow the candidate to demonstrate registration processing and monitoring for an event
- use of industry-current systems and technology.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of documentation and reports prepared by the candidate in preparation for an event
- evaluation of reports prepared by the candidate on the administrative process for an event, including challenges and responses
- written or oral questioning to assess knowledge of event administration procedures and material formats
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish and confirm event requirements.	1.1 Liaise with client to establish ***specific event operational requirements***.
	1.2 Calculate quotations to ensure maximum profitability of the function and provide to client according to organisation procedures.
	1.3 Develop ***options and ideas*** in consultation with colleagues and suppliers to assist client with event planning.
	1.4 Identify and pursue ***additional sales opportunities*** through effective communication with client to ensure maximum profitability of the function.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Negotiate and agree upon final event details, with confirmation in writing provided to client, including financial and other conditions.
	1.6 Prepare, maintain and issue relevant ***event documentation*** to clients and suppliers.
2 Coordinate in-house event services.	2.1 Liaise with appropriate colleagues and suppliers to facilitate effective planning of event services.
	2.2 Identify and organise appropriate ***internal and external resource requirements***.
	2.3 Research relevant information about new or previously unused services for incorporation into current and future events.
	2.4 Identify and consider possible ***event impacts*** and take appropriate action to address these impacts.
	2.5 Prepare, update and distribute ***event documentation*** to clients, relevant colleagues and suppliers according to organisation procedures.
	2.6 Prepare and organise relevant ***event briefings*** in a timely fashion.
	2.7 Minimise use of printed materials and maximise electronic transmission of all client and event documents to reduce negative environmental impacts.
3 Monitor and evaluate in-house services.	3.1 Monitor event set-up and operation according to service agreements and relevant safety requirements.
	3.2 Promptly identify ***operational problems*** and take appropriate action to resolve.
	3.3 Obtain feedback from clients, colleagues and suppliers and use or share this information for future event organisation.
	3.4 Finalise ***post-event administrative requirements*** accurately and promptly.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- organisational skills to coordinate a complete event within a framework of existing venue procedures and systems
- problem-solving skills to anticipate and respond to a range of event planning and operational issues
- communication and interpersonal skills to establish and conduct positive business relationships with internal and external clients
- literacy skills to develop and interpret a range of event documentation
- numeracy skills to estimate and calculate costs of different services and products.

The following knowledge must be assessed as part of this unit:

- general characteristics of different types of events and event clients for different styles of venue
- role of different venue personnel in the event management process, including the relationships of different venue personnel to clients
- understanding of event costings and venue profitability requirements
- range and general features of typical internal and external services required for different types of events, including:
  - catering
  - technical
  - use of space or different layouts
  - security
  - entertainment
  - display and decoration
- current industry practice in relation to use of different services and technologies
- typical event coordination procedures and systems within a commercial venue
- types of problems that commonly occur during event planning and operations
- purposes and features of various types of documentation used to control the event management process within a venue
- safety legislation and requirements that impact on event set-up and operation
- the environmental impacts of resource, water and energy use during event set-up, operation and break-down and minimal impact practices to reduce these
- correct and environmentally sound disposal methods for all types of waste and in particular for hazardous substances.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to coordinate efficient, resource effective and safe events and provide services that meet agreed client requirements
- effective liaison and proactive identification of operational problems
- accuracy in presentation of event information and the ability to tailor venue services to meet client needs
- knowledge of the types and range of event services that may be required by different clients
- demonstration of skills through the organisation of more than one event
- presence of typical workplace time constraints for the completion of tasks.

Context of and specific resources for assessment

Assessment must ensure:

- access to and demonstration of skills within a suitable venue for the operation of an event
- project or work activities conducted over a period of time so that the candidate is able to coordinate the complete event organisation process
- access to industry-current technology used in the event organisation process
- use of industry-current event documentation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of actual event documentation and reports prepared by the candidate
- evaluation of an event organised by the candidate, including documentation and operational efficiency and cohesiveness
- evaluation of reports prepared by the candidate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

detailing the way in which a particular event was organised and highlighting key issues and challenges in the event organisation process

- written and oral questioning or interview to test knowledge of event coordination procedures and materials
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Specific event operational requirements may relate to:

- catering
- technical equipment
- overall format and style
- access
- bump-in and bump-out
- security
- timing.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Options and ideas may relate to:	• different approaches to use of space • refining or adjusting catering options • ideas about technical requirements • possible use of other suppliers.
Additional sales opportunities may include:	• extra services • upgraded services.
Event documentation may include:	• paper-based or electronically transmitted materials • access and security details • booking conditions • confirmations • financial documents, including invoices and receipts • running sheets • service vouchers • information packs.
Internal and external resource requirements may include:	• entertainment • equipment • furniture • catering • security • display or decoration • other specialist services, such as interpreters.

Event impacts may relate to:	• access
	• crowds
	• noise
	• security
	• staffing requirements
	• negative environmental impacts due to:
	  • inefficient use of energy, water and other resources during event set-up, operation and break-down
	  • unsafe disposal of all waste, especially hazardous substances.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Event briefings may be verbal or written and may be for:	• internal staff • external suppliers • participants • staff in client organisation.
Operational problems may relate to:	• failure to provide agreed services • deficit in quality of services being provided • non-performance of internal or external suppliers • technical malfunctions • last minute changes in client requirements • unforeseen incidents or circumstances.
Post-event administrative requirements may include:	• finalising accounts • collating event feedback.

SITXEVT006A Research and evaluate event industry trends and practices

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to research and critically evaluate past, present and future event industry practices to enhance the quality of one's own work practice.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals managing events in any industry context. It is particularly relevant to the cultural, community, hospitality, sporting and tourism sectors.

The unit focuses on research, analysis and communication of information, ideas and concepts at a complex level, as well as the evaluation and extension of one's own professional development needs. It is therefore relevant to individuals who analyse, design and execute judgements in technical, conceptual or managerial areas.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research event industry ideas, practices and trends.	1.1 Assess and select ***formal and informal research strategies*** to explore ***event industry information***, ***ideas and concepts***. 1.2 Identify and explore potential ***new and alternative sources of information***. 1.3 Source information on the history and evolution of the global event industry as a context for effective work practice.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Evaluate information to inform work practice.	2.1 Critically analyse information in the context of industry practice and philosophy of work. 2.2 Assess ways in which information may be used or adapted within work practices, including integration of new technologies. 2.3 Develop ***positions and ideas*** and integrate into work practice. 2.4 Use information to generate discussion and ***critical analysis*** of event management practice and opportunities.
3 Extend own event management skills and knowledge.	3.1 Proactively identify and use opportunities presented by research to extend event management skills and knowledge. 3.2 Re-evaluate and refine approaches to work in the context of current and emerging trends. 3.3 Identify and use practice, feedback, discussion and evaluation opportunities to continuously improve skills.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- analytical skills to develop complex conceptual, technical or management positions and ideas
- literacy skills to research complex and unfamiliar information sources.

The following knowledge must be assessed as part of this unit:

- research methodologies and options
- sources of event industry references, and broader references that may inform emerging

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

and innovative practice in event management and operations
- current and emerging event industry trends across all areas of planning, management and operations
- evolution of the event industry, globally and within Australia
- event industry networks and professional development opportunities
- techniques and methods to generate new ideas and develop innovative approaches to work.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to conduct research on a complex range of event industry issues, trends and ideas • ability to analyse, critique and synthesise complex sources to develop own positions and ideas • in-depth conceptual, technical and management knowledge of the event industry • demonstration of skills through one or more pieces of event industry research.
Context of and specific resources for assessment	Assessment must ensure: • use of a current and varied range of general and specialised information sources.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • evaluation of research undertaken by the candidate • oral or written questioning to assess depth and complexity of candidate's event industry knowledge • review of portfolios of evidence and third-party

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Formal and informal research strategies may include:	• reading current literature, including specialist journals and industry magazines • participating actively in relevant industry associations • participating in professional development and other learning opportunities • participating in and contributing to discussion through conferences, meetings, seminars, courses and journals • internet research • formal study.
Event industry information, ***ideas and concepts*** may relate to:	• overall philosophy about events and their place in society • overall management practice • event operations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- safety and risk management
- environmental sustainability
- history of events
- role of events in the broader social, economic and political environment
- best practice examples
- research around concepts of leisure and play
- emerging and future technology.

New and alternative sources may include:

- theories of business and management practice
- work from other related areas of community or business activity, including:
  - artists and designers
  - photographers
  - historians
  - film makers
  - authors
  - entertainers.

Positions and ideas may include:

- totally new approaches to work practice
- adaptation of current practice
- specific operational innovations.

Critical analysis may include:

- comparing and contrasting
- reflecting
- critiquing or challenging
- considering merit
- discussing and debating
- making judgements about relevance of information and ideas
- considering how ideas may be adapted
- considering how ideas may be challenged within work
- drawing links between research and own work.

SITXEVT007B Determine event feasibility

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to assess the viability of a proposed complex event comprising multiple components, and to develop recommendations and models for its future planning and operation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals managing events in any industry context. It is particularly relevant to the cultural, community, hospitality, sporting and tourism sectors.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.

The unit focuses on research, analysis and communication of information, ideas and concepts at a complex level, as well as the evaluation and extension of one's own professional development needs. It is therefore relevant to individuals who analyse, design and execute judgements in technical, conceptual or managerial areas.

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Analyse event context and rationale.	1.1 Confirm overall event rationale and goals through consultation with ***key stakeholders*** and evaluation of initial ***event concept information***. 1.2 Determine and assess the ***place of the proposed event*** in relation to other events, the industry and community context, and the wider marketplace. 1.3 Assess and determine the marketability of the proposed event through research and consultation. 1.4 Evaluate the ***internal and external factors*** that impact on the viability of the proposed event.
2 Assess resource requirements and opportunities.	2.1 Develop complete and realistic estimates of ***primary event costs*** based on thorough breakdown of all event components. 2.2 Identify ***potential sources of revenue and other resources*** and develop realistic estimates. 2.3 Test and explore different resource scenarios with a range of possible event models.
3 Evaluate planning and operational requirements.	3.1 Analyse overall event ***planning and management requirements***. 3.2 Evaluate ***specific operational requirements for each event component***. 3.3 Identify all key ***regulatory requirements*** and their impact on event management and operations. 3.4 Consider negative environmental impacts and minimal impact practices to reduce these.
4 Develop recommendations and models.	4.1 Develop positions and recommendations based on the outcomes of analysis. 4.2 Develop specific planning, management and operational recommendations for the overall event and key event components. 4.3 Clearly articulate contingency planning requirements. 4.4 Present accurate and complete income and expenditure estimates to inform future decision making. 4.5 Offer different ***models and options***, including clear details

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	of the benefits and risks of suggested models.
	4.6 Present ***key stakeholders*** with feasibility outcomes in appropriate format.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- analytical skills to interrogate and evaluate complex information and to develop positions and recommendations as a result of analysis
- planning and organisational skills to provide recommendations for cohesive event planning and management
- communication skills to consult and liaise with a wide range of stakeholders on strategic event management proposals and issues
- literacy skills to analyse and develop complex information and documentation
- numeracy skills to estimate costs and develop different budgetary scenarios and models.

The following knowledge must be assessed as part of this unit:

- event industry operations at an in-depth level, including features and formats or a wide range of event types
- internal and external factors that impact on event feasibility and affect its management and operation
- resource requirements for the overall planning and management of complex events, and for specific event components
- sources of potential revenue for different types of event
- sources of event industry references, and broader references that may inform emerging and innovative practice in event management and operations
- current and emerging event industry trends across all areas of planning, management and operations
- risk management issues of particular relevance to events
- options for the presentation of feasibility analysis results
- the environmental impacts of resource, water and energy use at event sites and minimal impact practices to reduce these
- correct and environmentally sound disposal methods for all types of waste and in particular for hazardous substances.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to critically evaluate a wide range of complex information and to develop substantiated positions and recommendations to inform event planning and management at both a strategic and operational level
- in-depth conceptual, technical and management knowledge of the event industry
- demonstration of skills through the completion and presentation of a detailed feasibility analysis for at least one complex event concept.

Context of and specific resources for assessment

Assessment must ensure:

- use of a real event concept on which to base the feasibility analysis
- use of current industry data and information sources to inform the feasibility analysis.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of feasibility studies prepared by the candidate
- oral or written questioning to assess depth and complexity of candidate's event industry knowledge
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

EVIDENCE GUIDE

Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Key stakeholders may include:	• organising committees • potential sponsors • host organisation • industry bodies • community groups.
Event concept information may relate to:	• overall format • proposed location or venue • dates and times • duration • objectives • possible management structures • overall management practice.
Place of the proposed event may relate to:	• relationship with other similar events • competing events • supplementary events • events with similar formats • events with similar objectives

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- wider industry directions
- philosophy of host organisation
- previous events or past practice.

Internal and external factors may include:

- management structures
- organisation objectives
- resource constraints
- industry context
- competitor activity
- social, political or economic factors.

Primary event costs may include:

- venue
- catering
- equipment
- transport
- security
- staffing requirements
- collateral materials
- marketing costs.

Potential sources of revenue and other resources may include:

- industry bodies
- government funding
- grants
- sponsors
- participating organisations
- community organisations
- general public.

Planning and management requirements may include:

- overall management structures, roles and responsibilities
- seed funding
- human resources
- administration structures and facilities
- technology
- consideration of negative environmental impacts and minimal impact practices for the event and particular site.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Specific operational requirements for each event component may relate to:	• paid and voluntary staff requirements
	• specialist assistance
	• staging requirements, including:
	  • catering
	  • technical equipment
	  • security
	  • infrastructure
	  • transport
	• minimal impact practices for the construction, maintenance and disposal of event staging components.

Regulatory requirements may relate to:	• safety • licensing • environmental sustainability • insurance.

SITXEVT008A Plan and develop event proposals and bids

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to plan and develop proposals and bids for the staging of complex events comprising multiple components.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies in any industry context where bids and proposals to stage events are developed. It has particular relevance in the cultural, hospitality, sporting and tourism sectors, but also relates to event managers working across many other business and community contexts. Other individuals who commonly undertake this role are venue managers, marketing managers or local or regional tourism managers.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.

Development of event proposals and bids at this level requires the application of business writing as well as document and bid presentation skills, combined with sound knowledge of the event management process and the particular context for the staging of a given event. The unit is broad in focus to capture

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

the application of skills in an event context and does not include advanced writing or visual communication skills.

Depending on the event context and scope, specialists (e.g. graphic designers) are often employed to undertake particular aspects of proposal preparation.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Interpret event brief.	1.1 Accurately interpret and assess event brief in terms of organisation's capacity to meet the stated requirements. 1.2 Evaluate and plan action required for development of the proposal or bid. 1.3 Undertake liaison with the client to clarify requirements where appropriate.
2 Develop proposal or bid details.	2.1 Research and develop ***details and options for inclusion in the proposal or bid*** after consultation with suppliers and other relevant agencies. 2.2 Assess ***current and emerging factors and trends*** for impact on bid preparation. 2.3 Identify and integrate appropriate current and emerging technology into proposal. 2.4 Seek support for the proposal or bid from ***relevant individuals and agencies***. 2.5 Evaluate possible competitors and develop strategies to address competitive issues.
3 Develop proposal or bid materials.	3.1 Prepare ***proposal or bid materials*** within the designated timelines according to requirements of the brief. 3.2 Assess the need for expert assistance and organise the involvement of ***appropriate specialists***. 3.3 Present materials in a format that maximises the use of presentation and promotional techniques.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- critical thinking skills to assess, evaluate and develop options to address potentially complex event requirements
- literacy skills to interpret and develop complex documents
- numeracy skills to estimate costs, test different financial scenarios and present costs and quotations for event staging.

The following knowledge must be assessed as part of this unit:

- components to be included in event proposals and bids and product knowledge in relation to those components for different types of events
- networks and interrelationships of different industry sectors and organisations and their impact on the development of event proposals and bids in a given industry context
- event management logistical and operational factors that impact on proposal and bid development and proposed approaches
- risk management issues to be considered in formulation of event proposals and bids
- environmental impacts and minimal impact practices to be considered in formulation of event proposals and bids for particular event sites
- sources of specialist advice and expertise for the development of proposal and bid materials
- presentation techniques for proposal and bid materials, including current technology options.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to undertake the proposal or bidding process for a specific complex event, including effective assessment of the brief, coordination of all details and resources to meet the proposal or bid requirements, and professional presentation of proposal or bid materials and documents • knowledge of typical proposal or bid requirements and

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Details and options for inclusion in the proposal or bid may include information on:

- general concepts and themes
- business program
- social program
- costs which ensure profitability of the bid proponent
- travel and touring arrangements
- accommodation
- entertainment
- staging
- special features
- sample promotional materials
- references and details of other successful undertakings
- organisational information, including structure and personnel
- support statements, information from other organisations
- approach to environmental impacts and issues
- proposals relating to use of technology
- risk management approaches
- potential negative environmental impacts and proposed minimal impact practices for the event and particular site.

Current and emerging factors and trends may relate to:

- overall industry context
- sponsoring organisation objectives
- sustainability
- information from other similar events
- competitor activity
- emerging technologies
- new product and service options.

Relevant individuals and agencies may include:

- high profile individuals
- sponsors
- local businesses
- community agencies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- government agencies
- statutory authorities.

Proposal or bid materials may include:

- text documents
- electronic presentations
- videotapes, DVDs or other multimedia options
- props
- other promotional items.

Appropriate specialists may include:

- artists
- graphic designers
- multimedia specialists
- photographers
- professional writers.

SITXEVT009A Develop event concepts

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop the overall concept, theme and format for a complex event comprising multiple components. Event bids and proposals are covered in unit SITXEVT008A Plan and develop event proposals and bids. The unit also shares some similarities with SITXEVT014A Develop conference programs, but is broader in application.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to the overall concept development process for any type of event. It may be relevant in any industry context, but has particular application in the cultural, community, hospitality, sporting and tourism sectors.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.

Concept development occurs at the commencement of the event management cycle and involves the application of significant analytical, creative and conceptual skills teamed with sound operational management expertise. Sometimes the concept

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

development phase is undertaken as part of the event bidding process. An event manager or other individual often in the event sponsoring organisation undertakes this role in consultation with a range of event stakeholders and sometimes under the guidance of an event organising committee.

The unit does not include the specialist concept development undertaken by experts such as writers, technical specialists or lighting, sound, exhibition, set or costume designers. Consultation with relevant experts, however, may be a key aspect of overall event concept development.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish overall event objectives and scope.	1.1 Clarify and agree on key ***event objectives*** in consultation with ***event stakeholders***.
	1.2 Analyse ***initial event information*** and consult with stakeholders to determine the broad scope of the event.
	1.3 Identify and analyse ***internal and external factors*** that may impact on the event.
2 Establish event concept theme and format.	2.1 Identify and access sources of information and ideas to inform event concept development.
	2.2 Research and critically evaluate ideas and information for possible application to current and future work.
	2.3 Generate discussion and consultation with event stakeholders and other colleagues to progress development of the event concept.
	2.4 Explore, test and reflect on ***different and innovative approaches*** as part of the concept development process.
	2.5 Develop overall event concept, theme and format that reflect key objectives and meet potential audience needs.
3 Evaluate and progress concept to operational stage.	3.1 Verify the ***operational practicality and cohesiveness*** of the concept, theme and format through consultation and analysis.
	3.2 Select and implement a strategy for effective communication about the concept with ***event stakeholders***.
	3.3 Develop a summary of ***key logistical requirements*** based on the overall concept, theme and format.
	3.4 Facilitate effective planning and implementation through timely provision of accurate and complete information on the concept, theme and format to all relevant stakeholders.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.5 Obtain relevant approvals prior to implementation.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- critical thinking skills to assess, select and synthesise broad ideas and concepts
- planning and organisational skills to tie concepts to the need for operational practicality
- communication skills to consult and liaise with a wide range of stakeholders on potentially complex concepts and planning issues
- literacy skills to interpret and develop information dealing with complex concepts
- numeracy skills to estimate costs, work with budgets and understand the impact of budgetary limitations on concept development.

The following knowledge must be assessed as part of this unit:

- processes to explore, generate and test ideas to develop a concept, format and theme
- range of different creative, promotional, technical and operational options to consider when developing an event concept
- key stakeholders for different types of event
- internal and external factors to be considered when developing an event concept
- key operational issues and logistical requirements that impact on development of an event concept in the relevant industry context
- risk management factors that impact on event concept development
- legislative requirements that may impact on the event concept, e.g. safety and licensing
- common environmental site impacts and minimal impact practices that can be typically used.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to develop an event concept and format that are operationally practical and result in the achievement of event objectives
- knowledge of typical formats and specific components for different types of events
- development of a concept, theme and format for a complex event to meet a specified need.

Context of and specific resources for assessment

Assessment must ensure:

- access to and interaction with event industry suppliers
- involvement of and interaction with an event principal or organising group.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- case studies to develop concepts, themes and formats for different types of events
- evaluation of a concept, theme and format through a candidate presentation or bid for an event
- oral or written questions to assess knowledge of the range of key market factors and management issues to be considered in the concept development phase
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Event objectives may be:

- creative
- profile creation
- community impact
- participation or attendance.

Event stakeholders may include:

- event principal
- local community
- organising committees
- local authorities
- clients
- colleagues
- staging contractors
- entertainers.

Initial event information may relate to:

- date, time and duration
- size and scope
- location
- resourcing.

Internal and external factors to be assessed may include:

- human, financial and physical resource availability, including:
  - potential for attracting additional resources, such as sponsorship and co-hosting

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- level of management commitment
- restrictions on lead time
- potential levels of participation and interest
- competitive environment
- timing and duration factors, such as impact of public holidays and other public events
- potential contributors
- talent requirements
- climate
- access factors
- marketing and promotional issues, such as potential for media coverage
- safety factors
- risk management considerations.

Different and innovative approaches may involve:

- adapting existing ideas, products or services
- developing new ideas, products or services
- incorporating or experimenting with new technologies
- challenging established ways of doing things.

Operational practicality and cohesiveness may relate to:

- scheduling
- availability of human, financial and physical resources
- ensuring realistic attendance expectation
- venue or site constraints
- time constraints
- managing risk
- managing negative environmental impacts by use of minimal impact practices.

Key logistical requirements may relate to:

- venue and site set-up and design
- catering
- physical elements
- technical effects, including sound, lighting and audiovisual
- collateral materials
- need for specialist contractors
- minimal impact practices for the construction, maintenance and disposal of event staging components.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to assess the regulatory requirements that impact on a complex event comprising multiple components, and to incorporate appropriate responses into event planning and management.

Application of the Unit

Application of the unit

This unit may apply to individuals coordinating events in any industry context, but is particularly relevant to event specialists who operate in the cultural, community, hospitality, sporting and tourism sectors.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.
- A senior event coordinator or event manager would undertake this role.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Analyse regulatory issues that impact on event management.	1.1 Analyse ***event information*** to determine the scope and nature of regulatory issues to be considered. 1.2 Research and assess the impact of ***specific event regulatory issues*** on event planning and operation. 1.3 Analyse ***specific risk management issues*** for identified

ELEMENT	PERFORMANCE CRITERIA
	regulatory requirements and incorporate into overall risk management planning.
	1.4 Establish and assess the role of different ***stakeholders*** in relation to regulatory issues.
	1.5 Assess the need for ***specialist planning and operational advice or assistance*** to address regulatory requirements.
2 Establish strategies for working with regulatory authorities.	2.1 Determine the ***scope and complexity of required or desirable liaison*** with regulatory authorities.
	2.2 Identify key organisations and individuals and establish effective consultation and communication processes.
	2.3 Include representatives from ***appropriate agencies*** in event management structures and consultation processes.
3 Develop plans and procedures to address regulatory requirements.	3.1 Integrate approach to plans and procedures addressing regulatory issues, into ***broader event management structures***, ***processes and constraints***.
	3.2 Develop and document ***specific procedures that address event regulatory requirements***.
	3.3 Develop and monitor the production of any required ***compliance documentation***.
	3.4 Identify critical tasks and allocate responsibilities and timelines.
	3.5 Develop and articulate contingency and critical incident procedures in relation to all regulatory requirements.
	3.6 Provide ***briefings and relevant information*** to colleagues regarding regulatory requirements and procedures.
4 Evaluate event for regulatory compliance.	4.1 Assess different event elements in regard to compliance with regulatory requirements.
	4.2 Incorporate outcomes of evaluation into future event planning.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to develop practical plans and procedures
- communication and negotiation skills to liaise with people with varying responsibilities working in different contexts (e.g. operational staff and government officials)
- research skills to source information on event regulatory requirements
- literacy skills to interpret regulatory documentation and develop complex plans, procedures and other documentation.

The following knowledge must be assessed as part of this unit:

- range of regulatory issues that impact on different types of event
- the primary components of state, territory and local council laws that impact on event delivery and actions that must be adhered to by event operators during event set-up, operation and break-down, in particular laws that cover:
  - occupational health and safety (this would include requirements that must be met for providing a safe workplace, hazard identification and assessment and control of associated risks)
  - workers' compensation (this would include insurance requirements, injury reporting and occupational rehabilitation requirements)
  - workplace relations
  - legal liability and duty of care of customers
  - environmental protection (this would include requirements that must be met for environmental hazard identification, use of minimal impact practices and reporting of incidents)
  - local community protection (this would include land ownership, management and access requirements that must be met and requirements to maintain the lifestyle of neighboring residents)
  - consumer protection (this would include refund requirements that must be met, terms and conditions of quotations and cancellation fees)
  - responsible service of alcohol
  - food safety
- sources of detailed information on specific regulatory issues including plain English documentation that explains the operational requirements of legislation
- ways in which regulatory issues need to be addressed, including policies procedures, systems and typical reporting and documentation requirements
- structures and general operating procedures of regulatory authorities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- insurance issues relevant to regulatory requirements
- different formats for and contents of typical procedures to manage regulatory requirements during the set-up, operation and break-down of events.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to analyse, assess and respond to the range of regulatory issues affecting an event to ensure event compliance
- sound knowledge of the range of regulatory issues that affect different aspects of event staging, relevant networks and information sources
- practical demonstration of skills through development of plans and procedures to address the regulatory requirements of a specific complex event.

Context of and specific resources for assessment

Assessment must ensure:

- access to a complex event for which regulatory requirements must be addressed
- interaction with others to reflect the communication and negotiation aspects of the unit
- use of the appropriate state or territory legislation and plain English documents issued by regulatory authorities
- access to current organisation policies and procedures, and plans used to manage regulatory issues.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- evaluation of strategies and operational plans prepared by the candidate to address regulatory issues
- case studies to assess candidate's ability to develop approaches for a range of different events
- questions to assess detailed knowledge of different regulatory requirements and issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Event information may include:

- general nature of event
- event management structures
- level of government involvement
- location
- dates and times
- duration
- number of activities, sports or individual events
- numbers attending

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- scope of physical staging requirements.

Specific event regulatory issues may relate to:

- food safety
- security
- responsible service of alcohol
- use of licensed personnel, such as trades and pyrotechnicians
- crowd control
- legal liability and duty of care of customers
- local community protection
- consumer protection
- environmental impacts and minimal impact practices
- OHS and workers' compensation.

Specific risk management issues may include:

- implications of non-compliance
- accountability, e.g. event organiser versus specific contractors
- safety issues
- need for clear communication and reporting protocols
- minimisation of environmental impacts.

Stakeholders may include:

- industry bodies
- professional associations
- state, territory & local government management and regulatory authorities, including:
  - sport and recreation
  - facilities
  - parks and public places
  - transport
  - licensing
  - traffic
  - land management
  - environmental protection
  - waste management
  - utilities
  - information services
  - police
  - emergency services

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• convention and event sections • fair trading • occupational health and safety • tourism authorities and organisations • unions.
Specialist planning and operational advice or assistance may include:	• technical experts • local government management and regulatory authorities.
Scope and complexity of required or desirable liaison may be impacted by:	• scope of the event • nature of the event in terms of complexity and number of associated regulatory issues • current focus or requirements of relevant authority • level of safety risk • level of environmental risk • impact of the event on the physical environment.
Appropriate agencies may include:	• WorkCover authorities • licensing authorities • local councils • federal, state and territory government departments.
Broader event management structures, ***processes and constraints*** may include:	• overall management structure for the event • specific event objectives • budget • human resources • other operational requirements • promotional requirements • factors external to the event.
Specific procedures that address event regulatory requirements may relate to:	• transport, handling and storage of food • documentation of roles and responsibilities, including restrictions for non-licensed personnel • lines of communication • reporting procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- emergency procedures
- hazard identification, reporting and assessment of associated risks
- minimal impact practices to reduce the negative environmental impacts of resource, water and energy use at event sites
- waste management.

Compliance documentation may include:

- pre-event reports and requests to authorities
- details of licensed personnel
- activity logs
- incident reports.

Briefings and relevant information may include:

- information on regulatory requirements
- specific procedures to follow in different situations
- contacts and procedures for emergency situations
- roles and responsibilities charts
- blank copies of documentation to be completed.

SITXEVT011A Develop crowd control plans and procedures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop plans and procedures for the admittance, seating and dispersal of crowds to ensure the safety and well-being of personnel and participants. It includes procedures for emergency situations.

Application of the Unit

Application of the unit

This unit applies to individuals responsible for the development of plans and procedures for the management of large crowds in any industry or community context.

It is particularly relevant in the community, cultural, sporting and tourism sectors where large crowds are a feature of both ongoing and one-off business and community activity.

Development of crowd management procedures in this unit requires the application of significant critical thinking, planning and organisational skills, combined with a detailed knowledge of risk management issues, crowd control techniques and relevant emergency procedures. Those with managerial responsibility undertake this role. The unit is generalist in nature and does not cover the specialised operational crowd management skills required by police or other security experts.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Analyse risks associated with large crowds.	1.1 Identify and evaluate regulatory constraints and requirements in relation to ***crowd management***. 1.2 Identify and analyse ***general risks*** associated with gathering of large crowds to ensure the safety of personnel and participants. 1.3 Identify and analyse current and emerging ***situation-specific risks*** and assess for their impact on planning.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.4 Inspect, or organise inspection of, ***venue*** and facilities to ensure compliance with ***legal requirements*** and facilitate risk assessment.
	1.5 Determine need for ***specialist assistance*** and involvement of ***authorities*** in crowd management.
2 Develop crowd management plans.	2.1 Establish and document maximum limits for admission based on analysis of ***risks*** and ***venue***.
	2.2 Estimate expected crowd numbers based on historical data and current trends or attendance information.
	2.3 Organise or confirm completion of any necessary work to ensure compliance with legal constraints and requirements.
	2.4 Determine and document ***human resource requirement*** for crowd management.
	2.5 Develop plan that minimises identified ***risks*** associated with the ***venue*** and complies with legal constraints and requirements.
	2.6 Consult with and gain input from relevant stakeholders on crowd management approaches.
	2.7 Develop ***evaluation criteria*** for crowd management plan in consultation with stakeholders.
3 Establish operational crowd management procedures.	3.1 Develop and document specific ***operational crowd control procedures***, including ***contingency and critical incident procedures***.
	3.2 Identify critical tasks and allocate responsibilities.
	3.3 Undertake or organise preparation and checking of safety equipment according to legal requirements and manufacturer instructions.
	3.4 Ensure procedures consider and are integrated with ***broader management constraints and issues***.
	3.5 Provide crowd control ***briefings and relevant information*** to stakeholders and staff.
4 Establish emergency crowd control procedures.	4.1 Develop and document ***procedures*** for managing crowds in ***emergency situations*** in consultation with relevant stakeholders.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4.2 Identify and document safety needs of special populations in ***emergency situations***.
	4.3 Implement and accurately document required practice drills.
5 Evaluate crowd control plans and procedures.	5.1 Evaluate effectiveness of crowd control, based on agreed evaluation criteria.
	5.2 Ensure outcomes of evaluation are incorporated into future planning.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to develop cohesive operational plans, procedures and systems
- research and critical thinking skills to assess risks associated with large crowds, seek information on regulatory requirements and develop appropriate strategies and procedures
- literacy skills to develop documents explaining crowd control strategies and procedures
- numeracy skills to work with concepts around capacity.

The following knowledge must be assessed as part of this unit:

- types of situations that require specific crowd control planning
- sources of specialist assistance in relation to crowd control
- broader operational issues that impact on crowd management in the relevant work context
- technology and equipment used in crowd management
- legislation, regulations and industry codes that affect crowd management
- specific risk management issues associated with large crowds
- resource requirements for crowd management, including financial, human and physical resources.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- detailed knowledge of the factors influencing crowd management planning and operations
- ability to analyse crowd risks and develop plans and procedures for crowd management
- ability to determine and organise appropriate resources to address emergency situations
- demonstration of skills through development of crowd management plans and procedures for event or workplace operation.

Context of and specific resources for assessment

Assessment must ensure:

- access to venues at which crowd management would be required
- use of current legal and other operational information on which to base planning
- involvement of and interaction with stakeholders as part of the planning process.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of crowd management plans and procedures developed by the candidate
- case studies to assess candidate's ability to develop crowd management approaches for a range of different events or workplace situations
- questions to assess detailed knowledge of risks and factors influencing crowd management planning
- review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Crowd management may be required for:	• ongoing business operations, such as at attractions or performance venues
	• events, including:
	  • sport events
	  • competitions
	  • community events
	  • festivals
	  • functions
	  • conferences
	  • holiday programs
	  • celebrations
	  • arts events.

General risks may include:	• overcrowding • crowd stress • personal injury to attendees

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- onset of chronic stress related illnesses in personnel or participants e.g. anxiety, panic attacks, asthma, fainting
- mob behaviour
- fire hazards
- inadequate provision for:
  - protection of participants
  - protection of performers
  - traffic flow
  - areas of congestion
  - access of emergency services.

Situation-specific risks may relate to:

- nature of audience, e.g. youth or elderly people
- special needs of audience, attendees and participants
- nature of event, e.g. intensity and impact on crowd
- venue constraints and capacity
- timing, in regard to factors such as weather considerations
- event duration and its impact on crowd behaviour.

Venue may be indoor or outdoor and may include:

- open spaces
- aquatic environments
- streets
- gymnasiums
- restaurants
- hotels
- theatres
- stadiums
- arenas
- sports grounds
- attractions and theme parks.

Legal requirements may include:

- fire egress
- OHS
- risk management
- first aid
- insurances, including:
  - public liability
  - professional indemnity

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• public liability and duty of care.
Specialist assistance may include:	• local authorities • emergency services.
Authorities may include:	• local government • state government • emergency services • other industry bodies, including certifying bodies.
Human resource requirement may include:	• ushers and marshals • security personnel • on-site supervisors.
Evaluation criteria may relate to:	• speed and efficiency of crowd movements • absence of crowd incidents.
Operational crowd control procedures may relate to:	• access, including restricted areas, exits and aisles • evacuation • special population needs • first aid set-ups • precise numbers and location of personnel • allocation of duties and rostering • placement of physical elements, such as barriers and staging • communication methods and protocols, such as two-way radios.
Contingency and critical incident procedures may relate to:	• equipment breakdown • adverse weather • event staff sickness • potential changes in crowd behaviour • drug or alcohol-affected clients.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Broader management constraints and issues may include:	• overall event management structures • specific event objectives • budget • human resources • other staging requirements • factors external to the event.
Briefings and relevant information may include:	• location and venue maps • summary procedures • emergency telephone contacts.
Emergency situations may include:	• fire • earthquake • bombing • chemical leak or spill • riot • illegal entry • alcohol • drugs • medical emergency • equipment failure • stage failure or collapse.

SITXEVT012A Select event venues and sites

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to undertake the venue or site selection process for a complex event comprising multiple components.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to the overall venue or site selection process for any type of event. It may be relevant in any industry context, but has particular application in the cultural, community, hospitality, sporting and tourism sectors.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.

Selection of an appropriate venue or site for a complex event requires the application of significant analytical and research skills as well as sound knowledge of venue or site issues that impact on different types of events. Individuals working autonomously with limited guidance from others undertake this role. This may include senior event coordinators or event managers.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Analyse venue or site requirements.	1.1 Analyse ***overall venue or site requirements*** based on detailed review of all aspects of the proposed event.
	1.2 Develop accurate and complete ***venue or site specifications*** to facilitate the research process.
	1.3 Integrate the needs of all ***stakeholders***, including those with disabilities, into venue or site specifications.
2 Source event venues and sites.	2.1 Research potential venues and sites using appropriate ***information sources*** and ***research methods***.
	2.2 Assess the ***suitability of venues and sites*** based on comparison of services offered with event specifications.
	2.3 Evaluate venue and site capacity to deliver ***a range of quality outcomes*** through broader investigation and negotiation and liaison with venue and site personnel.
	2.4 Identify ***risk management issues*** associated with specific venues and sites and incorporate into broader event planning.
	2.5 Assess the need for tentative bookings and take action promptly.
	2.6 Coordinate ***multiple site or venue selection*** when required in a logical manner.
	2.7 Provide clear and accurate briefings on venue or site options to colleagues and key stakeholders to include recommendations and rationale and gain appropriate approvals.
3 Confirm venue or site arrangements.	3.1 Confirm venue or site arrangements accurately in writing when the selection process is finalised.
	3.2 Review and sign venue or site contracts within appropriate timeframes and within scope of individual responsibility.
	3.3 Integrate specific venue or site planning issues promptly into overall event management systems.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to source and analyse a wide range of complex information and materials
- critical thinking skills to evaluate a range of venue or site options against complex criteria and make substantiated selection
- communication skills to liaise and negotiate with event stakeholders, including venue or site personnel
- literacy skills to interpret varied and complex venue or site information and materials and to develop complex accurate event documentation
- numeracy skills to estimate and negotiate costs for a range of on-site venue-related products and services.

The following knowledge must be assessed as part of this unit:

- operational requirements for different event types and their impact on the venue or site selection process.
- information sources for venue or site information for a broad range of event types
- different styles of venues and sites, the range of products and services offered and their suitability for particular event types
- venue and site options within a given locality
- presentation styles for venue or site information, typical information inclusions and how to interpret these
- features and requirements of typical venue or site contracts
- typical operational structures within different venues and sites, including relevant personnel, internal networks, organisational interrelationships and reporting structures
- risk management and environmental impact factors relevant to different types of venue or site.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to research and select an appropriate venue or site for a complex event
- ability to develop, interpret and analyse the range of information used in venue and site selection and confirmation process
- knowledge of different venue and site options within the local area
- conduct of venue or site selection process for at least two events, one of which becomes an event managed by the candidate.

Context of and specific resources for assessment

Assessment must ensure:

- access to venues and sites relevant to different types of events
- use of current industry documentation and publications relating to venues and sites
- access to and liaison with venue personnel during the selection process
- involvement of and consultation with event stakeholders.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of the suitability of a venue or site selected by the candidate through attendance at the event
- case studies to assess ability to source and select venues and sites for different types of event
- review of documentation and specifications prepared by the candidate
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITXEVT009A Develop event concepts.

EVIDENCE GUIDE

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Overall venue or site requirements may relate to:

- event theme and image
- estimated numbers
- facilities and services to be provided
- budget
- audience or delegate profile and location.

Venue or site specifications would include details related to:

- budget parameters
- availability
- staffing
- staging and capacity
- technical capacity or potential
- access and timing, such as for set-up and break-down
- location and attendees' access issues
- participant capacity
- specific facilities and services, such as catering and size of area and equipment.

Stakeholders may include:

- attendees, delegates, guests or participants
- host organisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• contractors and suppliers • clients • sponsors • emergency services • state, territory and local government regulatory authorities.
Information sources may include:	• local or regional and state cultural, tourism and sporting organisations • convention and visitor bureaus • land management and protection agencies • venue publications and directories • destination brochures • trade journals • internet.
Research methods may include:	• using own event industry networks • conducting desk research • calling for tenders • inspecting venue or site.
A range of quality outcomes may be affected by:	• assessment of previous experience with venue or site • level of cooperation shown by venue personnel • venue or site experience in holding similar events • willingness to negotiate on products, services and costs.
Assessment of the ***suitability of venues and sites*** may involve:	• the cost of the site • availability of site staff and ability to fulfil event requirements • availability of facilities for the use of event operator personnel • appropriateness of staging and technical capacity • available access times for set-up and break-down • suitability of the location for easy attendee access • participant capacity and ability for crowds to be controlled to ensure the safety and well-being of personnel and participants at the site

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- capacity for security to manage the participants
- quality of facilities and services
- availability of on-site storage and maintenance areas
- ability of site to accommodate services to manage personal comfort and any injury to attendees
- environmental sensitivity of the site and ability to accommodate facilities to minimise environmental impacts e.g. correct waste disposal.

Risk management issues may relate to:

- venue or site appeal for intended audience
- physical constraints
- safety issues
- security issues
- number of contractors to be coordinated
- access complications
- minimisation of environmental impacts on the site.

Multiple site or venue selection may relate to:

- touring a single event
- a single event requiring multiple sites
- staging of related events in multiple locations.

SITXEVT013A Manage event staging

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to manage the staging and operation of a complex event comprising multiple components.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to staging management for any type of event. It may be relevant in any industry context, but has particular application in the cultural, community, hospitality, sporting and tourism sectors. The unit focuses on the key knowledge and skills required to manage overall event staging from an organisational and contractor management perspective. It requires the application of advanced planning, organisation and communication skills combined with a detailed knowledge of the event management process and broad understanding of individual specialist services.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.

It does not cover the high levels of technical expertise required to provide individual specialist services, including catering,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

technical, creative and sporting. The unit is distinct from staging specialisation units that apply to staging technicians and stage managers in the entertainment industry.

Depending on the event type and context, this role may be undertaken by a manager working within a venue or site, by an independent event manager or by a combination of both.

Licensing/Regulatory Information

ELEMENT	PERFORMANCE CRITERIA
1 Analyse event staging requirements.	1.1 Analyse ***event staging requirements*** based on detailed review of all aspects of the proposed event.
	1.2 Develop an accurate summary of staging requirements for each event component in consultation with ***key stakeholders***.
	1.3 Incorporate safety and risk management issues into all planning of event staging.
2 Source and negotiate staging contractors.	2.1 Identify and source appropriate ***contractors*** to provide services for the event.
	2.2 Provide accurate and complete ***staging specifications*** detailing precise requirements to contractors, based on sound product and service knowledge.
	2.3 Obtain complete and timely quotations for the provision of products and services.
	2.4 Analyse quotations, conduct negotiations and select contractors using product and service knowledge to make informed decisions.
	2.5 Confirm agreements with contractors in writing to include details and costs of all services.
3 Monitor staging contractors.	3.1 Monitor pre-event progress with staging components at regular intervals through ongoing liaison with contractors and other stakeholders.
	3.2 Evaluate work completed against event requirements and time schedules, and take appropriate action to address delays or other problems to maintain event quality and integrity.
	3.3 Assess the need for ***staging adjustments*** to maintain event quality and integrity and negotiate appropriate changes.
	3.4 Negotiate and confirm adjustments to maintain event quality and integrity.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and negotiation skills to conduct complex negotiations for the supply of products and services, and to manage staging contractors during the event management and operations process
- problem solving skills to address complex issues, such as poorly-performing contractors, changing requirements and other operational constraints
- literacy skills to interpret and develop complex and detailed event documentation
- numeracy skills to work with budgets and detailed quotations for the supply of products and services.

The following knowledge must be assessed as part of this unit:

- different roles and responsibilities of organisations involved in event staging
- suppliers of staging products and services and sources of information on staging services
- specific risk management issues to be considered for different areas of event staging
- product and service terminology, features and options, and current technology in key areas of staging, including:
  - catering
  - venue or site services and set-ups
  - technical services, including audiovisual, lighting, sound, rigging and special effects
  - entertainers
  - registration requirements and set-ups
  - physical elements, including display, furniture and temporary structures
  - security
  - media coverage
  - safety equipment
- key inclusions for contractor briefing and specification documents.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- general knowledge of the range of staging services and related terminology to allow for informed planning and decision-making
- ability to source, organise and coordinate multiple staging contractors as part of the overall event management process
- management of the staging of at least one complex event.

Context of and specific resources for assessment

Assessment must ensure:

- access to an event venue
- access to all equipment required for the staging of an event
- liaison with and involvement of multiple contractors.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of the staging of an event managed by the candidate through attendance at the event
- review of documentation used to manage staging contractors prepared by the candidate
- questioning of contractors to assess the organisational skills of the candidate
- case studies to assess ability to determine staging requirements for different events
- oral or written questions to assess knowledge of key staging services and relevant terminology
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Event staging requirements may relate to:	• exhibition set-up • audiovisual • disabled and emergency access • display and decoration • furniture and temporary structures • special effects • entertainment • sound and lighting • stage design • rigging • catering and catering set-up • security.
Key stakeholders may include:	• attendees, delegates, guests or participants • clients or host organisation • contractors and suppliers • sponsors • emergency services • regulatory authorities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Contractors may include:	• venues and sites • speakers and entertainers • staging and technical specialists, including pyrotechnicians, special effects, sound and lighting • display suppliers • caterers • equipment hire companies.
Staging specifications may include or relate to:	• price • performance standards • timelines • technical specifications for such things as equipment • theme-related requirements • regulatory requirements.
Staging adjustments may relate to:	• changes in numbers • capacity of supplier to deliver quality outcome • budgetary changes • unexpected difficulties with staging components.

SITXEVT014A Develop conference programs

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop conference programs.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals who are responsible for the overall design of a conference program and is relevant to the full range of industry contexts. The unit is specialised in nature, and relates to conferences that include a significant business program. It requires the application of detailed knowledge of conference formats and options as well as a sound understanding of learning and development issues that impact on program design.

Meetings or conference managers, either internal or external to the sponsoring organisation, undertake this role. They work autonomously in consultation with others, and often under the overall guidance of an organising committee.

More general conference organisation skills are found in business units such as BSBADM503A Plan and manage conferences.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish program requirements.	1.1 Analyse overall ***conference context***, ***scope and objectives*** in consultation with ***stakeholders*** to determine program parameters and balance.
	1.2 Develop and agree on ***specific program requirements*** in consultation with relevant stakeholders.
	1.3 Assess ***internal and external factors*** for impact on program design.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Design conference program.	2.1 Develop overall conference format within known budget, venue and staging constraints. 2.2 Research, analyse and assess various options for different ***program components*** and investigate ways to incorporate innovative approaches. 2.3 Identify and integrate the use of appropriate ***technologies*** in program development. 2.4 Include activities that integrate ***educational***, ***learning and development principles*** appropriate to the target audience.
3 Finalise program details.	3.1 Create cohesive program by integrating all program components. 3.2 Present proposed conference program to appropriate stakeholders within required timeframe. 3.3 Negotiate program details with stakeholders and gain appropriate approvals. 3.4 Initiate appropriate actions in relation to dissemination and publication of conference program.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to interrogate wide-ranging and complex information sources to develop options for different conference program components
- critical thinking skills to analyse, assess and distil program options to best meet conference objectives
- communication skills to consult and reach agreements with stakeholders on program details and to present program information
- literacy skills to research and interpret complex information
- numeracy skills to work with conference schedules and timing issues.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- typical conference session formats, and the features, advantages and disadvantages of different options
- scheduling options and issues for conferences of varying durations
- links between different program components and how these affect program design
- needs of different segments of the market (e.g. corporate, associations and government) in relation to conference activities
- range of options for conference staging, including key staging components, room layouts and current technologies
- educational, learning and development principles, including learning principles for different groups, varying learning styles and features of learning materials
- features of academic abstracts and how these are used.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to design a practical conference program to meet overall objectives and needs of the target audience within budgetary guidelines • detailed knowledge of the range of options available to conference organisers in terms of venues, staging, format, and pre and post-touring components • development of a program for at least one conference that is actually held.
Context of and specific resources for assessment	Assessment must ensure: • involvement of a sponsoring organisation or individual with whom the candidate must liaise • use of current industry information sources and technology to develop conference program option.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- project to develop a program for a conference
- case studies or projects to assess knowledge of programming for different types of conferences
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITTPPD003B Source and package tourism products.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Conference context*, *scope and objectives may relate to:

- current local, national and international industry or community issues and activities
- profile of the host organisation
- internal organisation objectives and development needs
- wider industry development needs

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- current and emerging research
- characteristics of desired delegates
- required timing and dates for conference.

Stakeholders may include:

- clients
- organising committees
- management
- industry associations
- event-specific practitioners, such as medical practitioners at a medical conference
- community organisations.

Specific program requirements may relate to:

- program duration
- keynote speakers and facilitators
- learning and development focus
- balance of social and business program.

Internal and external factors may include:

- speaker or facilitator availability
- venue-related issues
- current and emerging industry trends
- emerging research.

Program components may include:

- business program, such as:
  - plenary sessions
  - workshops and break-out sessions
  - remote components
- breaks
- catering
- links with other parallel events
- social program
- pre and post-touring elements.

Technologies may relate to:

- ways to enhance presentations
- remote conferencing options
- venue requirements
- delivery of program information to delegates.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Educational**, **learning and development principles may relate to:	• principles of adult learning • different learning styles of particular groups • key principles in developing learning materials and designing educational experiences • use of interpretive techniques • action and experiential learning.

SITXEVT015B Manage exhibitions

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and implement plans and procedures for the management and operation of exhibitions. All other Events units are applicable to exhibition management. This unit focuses only on the issues specific to commercial exhibitions.

Application of the Unit

Application of the unit

This unit applies to individuals responsible for the development and implementation of exhibition plans and procedures in any industry or community context.

Exhibitions are events that bring buyers and sellers together to view and sell products and services. They may be trade or consumer focused.

This unit focuses on the application of the specific knowledge and skills required for exhibition management. In particular, it includes establishing systems and formats for bringing buyers and sellers together, recruiting and managing exhibitors, and setting up physical exhibitions.

Exhibition management requires the application of significant communication, planning and organisational skills underpinned by detailed knowledge of exhibition operations. A senior coordinator or manager undertakes this role.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish overall exhibition scope and format.	1.1 Assess proposed ***exhibition*** concept to determine planning and operational requirements. 1.2 Consult with key ***stakeholders*** and agree on ***exhibition objectives***. 1.3 Develop overall format in consultation with ***stakeholders***.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Establish and manage exhibition layouts and floor plans.	2.1 Assess the physical characteristics of the exhibition space in relation to its capacity to meet requirements. 2.2 Assess ***safety***, ***risk and environmental issues*** that may impact on exhibition layouts. 2.3 Establish ***criteria for the allocation of space*** according to exhibition objectives and in consultation with ***stakeholders***. 2.4 Allocate space according to agreed criteria. 2.5 Identify, negotiate and resolve any conflicting demands for exhibition space according to agreed criteria. 2.6 Organise development of accurate and complete floor plans based on agreed layouts and criteria.
3 Establish and manage format for buyer and seller interaction.	3.1 Determine most appropriate ***format for buyer and seller interaction*** based on analysis of exhibition objectives, operational constraints and consultation with key stakeholders. 3.2 Establish and monitor procedures and systems for one-to-one appointment scheduling when required. 3.3 Generate and distribute reports and schedules of interaction to buyers and sellers.
4 Recruit and manage exhibitors.	4.1 Develop clear, concise and professional exhibitor prospectus, including full breakdown of costs, benefits and other relevant exhibitor information. 4.2 Distribute and present ***exhibitor prospectus*** according to agreed targets and marketing plan. 4.3 Undertake follow-up promotion and negotiation as required to ensure maximum take-up of space and profitability of the exhibition. 4.4 Execute exhibitor contracts and agreements to include full details of commitments made by both parties. 4.5 Provide or organise ***exhibitor support services***. 4.6 Develop and distribute accurate and complete ***exhibitor kits*** at appropriate time prior to exhibition. 4.7 Provide or organise exhibitor operational support,

ELEMENT	PERFORMANCE CRITERIA
	including ***briefings and debriefings*** according to agreements.
	4.8 Minimise use of printed materials and maximise electronic transmission of all exhibitor and exhibition documents to reduce negative environmental impacts.
5 Evaluate exhibition operations.	5.1 Evaluate exhibition effectiveness based on agreed ***evaluation criteria***.
	5.2 Ensure outcomes of evaluation are incorporated into future exhibition planning.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to establish and manage cohesive operational procedures and systems
- communication skills to consult, liaise and negotiate with a wide range of stakeholders on complex planning and operational issues
- critical thinking skills to evaluate complex information from multiple sources, and to develop management approaches based on those evaluations
- literacy skills to interpret and develop complex and varied exhibition management documentation
- numeracy skills to work with budgets and spatial planning issues.

The following knowledge must be assessed as part of this unit:

- detailed knowledge of the exhibitions sector, including different types of exhibitions, key planning and operational components and industry networks
- broader event management issues that affect exhibition planning and management
- issues and challenges commonly encountered in exhibition and exhibitor management
- formats and options for bringing buyers and sellers together, including suitability of different formats for different types of exhibition
- current exhibition technology and equipment options
- legislation, regulations and industry codes that affect commercial exhibitions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- specific risk management issues for commercial exhibitions
- resource requirements for different exhibition components and activities, including financial, human and physical resources
- correct and environmentally sound disposal methods for all types of waste and in particular for recycling high levels of paper based resources associated with exhibitions.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- detailed knowledge of exhibition planning and operations
- demonstration of skills through management of an exhibition
- ability to coordinate efficient, resource effective and safe exhibitions and provide services that meet agreed client requirements.

Context of and specific resources for assessment

Assessment must ensure:

- access to venues for staging of exhibitions
- use of current information on which to base planning
- involvement of and interaction with stakeholders as part of the planning process.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of exhibition plans and procedures developed by the candidate
- case studies to assess candidate's ability to develop approaches for a range of exhibition styles and contexts
- review of portfolios of evidence and third-party

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Exhibition may be:	• trade • consumer • combination trade and consumer.
Stakeholders may include:	• organising committees • industry bodies • seller representatives.
Exhibition objectives may relate to:	• industry exposure • sponsor exposure • numbers and ratios of buyers and sellers • profile of buyers and sellers (e.g. balance between small and large, generalist and specialist, etc.)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- media coverage
- industry education
- dollar value of business completed.

Safety, risk and environmental issues may relate to:

- access
- maximum numbers of exhibitors
- space requirements to avoid overcrowding
- allowance for allocation of non-exhibition space to effective waste disposal and recycling facilities
- technical issues, including cabling and power sources
- food safety requirements and impact on space.

Criteria for the allocation of space may relate to:

- exhibitor participation level
- required balance and variety of exhibitors
- sponsorship arrangements
- placement or proximity of equipment required by different exhibitors
- guidelines on proximity of exhibitors in direct competition
- exhibition layout themes or overall schemas.

Format for buyer and seller interaction may be:

- free flow
- prearranged appointments
- appointments made during exhibition period
- scheduled presentations, including plenary, workshops and carousel
- combination of different formats.

Exhibitor prospectus may include information on:

- overall market context
- venue details and features
- marketing plans
- attendance expectations
- previous performance data
- participation costs, at different levels
- sample layouts and floor plans
- buyer and seller interaction format, such as free flow and prearranged appointments
- benefits of participation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- endorsements
- sponsor material or information
- support services, including travel and accommodation
- information on transport of materials and equipment.

Exhibitor support services may include:

- travel
- accommodation
- assistance with additional promotions
- answering general enquiries
- providing updated information.

Exhibitor kits may include:

- venue details
- detailed floor plans
- access information
- delivery details for materials and equipment
- technical services information or contacts
- confirmation of travel or accommodation arrangements
- confirmation of buyer appointment schedules
- times of exhibitor presentations
- sponsor material or information
- paper-based or electronically transmitted materials.

Briefings and debriefings may include:

- location and venue maps
- summary exhibition information and support materials
- emergency procedures, including emergency telephone contacts.

Evaluation criteria may relate to:

- exhibitor, buyer and sponsor feedback
- operational efficiency
- number of attending buyers
- venue service levels
- effective use of resources to minimise waste and environmental impacts
- profitability of the exhibition to the exhibition management business.

SITXEVT016B Organise and monitor event infrastructure

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to coordinate infrastructure and facilities for a complex event comprising multiple components, where these do not already exist at a venue or site. It therefore builds on other Events units, such as SITXEVT013A Manage event staging.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals managing events in any industry context. It is particularly relevant to the cultural, community, hospitality, sporting and tourism sectors.

A complex event comprising multiple components must involve:

- need for a comprehensive and multifaceted event plan
- need for a formal internal or external communications strategy
- dedicated and diverse event budget
- multiple administrative and operational components
- a wide range of stakeholders
- an event operations team.

Many events take place at outdoor venues or at locations where infrastructure and facilities are minimal. Significant event operations knowledge combined with organisational and management skills are required to establish that infrastructure and make it operational.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

This role is undertaken by an event manager working autonomously, but in consultation with suppliers, colleagues and broader event stakeholders.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify event infrastructure requirements.	1.1 Liaise with ***relevant authorities*** at the commencement of the event management cycle to ensure regulatory requirements are integrated into the planning process.
	1.2 Identify and analyse ***infrastructure and facility requirements*** based on a detailed review of all aspects of the proposed event and ***venue***.
	1.3 Develop an accurate summary of infrastructure requirements for each event component in consultation with key stakeholders.
	1.4 Incorporate ***safety***, ***security***, ***risk and environmental management issues*** into all planning documentation and processes.
2 Establish and organise event infrastructure.	2.1 Identify and source appropriate infrastructure and facilities contractors.
	2.2 Provide accurate briefings to contractors in relation to infrastructure requirements, ensuring all safety, legal and technical requirements are covered.
	2.3 Obtain complete and timely quotations for the provision of event services.
	2.4 Analyse quotations and select contractors according to legal and ***licensing requirements*** and in consultation with key stakeholders.
	2.5 Involve ***relevant authorities*** in the planning process by providing relevant and timely information.
	2.6 Take account of ***stakeholder*** views in establishing infrastructure and facilities.
3 Monitor event infrastructure.	3.1 Monitor progress with infrastructure and facilities through ongoing liaison with contractors.
	3.2 Identify the need for adjustments to infrastructure requirements and organise appropriate changes with confirmation in writing.
	3.3 Evaluate work completed against event requirements prior to event commencement and take appropriate corrective action where necessary.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.4 Coordinate the installation, utilisation and dismantling of facilities and infrastructure to minimise environmental impacts.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- analytical skills to plan and organise event infrastructure
- communication and negotiation skills to work with event contractors
- literacy skills to interpret a wide range of event management documentation
- numeracy skills to interrogate and interpret quotations for provision of event services.

The following knowledge must be assessed as part of this unit:

roles and responsibilities of various organisations involved in staging of events

- infrastructure requirements for a range of event types, including issues and challenges and suitability of infrastructure for different venues
- terminology and services in key areas related to event infrastructure and facilities, including:
  - temporary water and power supply
  - portable and demountable toilets
  - temporary structures, including marquees and demountables
  - mobile catering outlets
  - waste disposal and recycling
- suppliers of services related to event infrastructure and sources of information on those suppliers
- risk management and safety issues to be considered for key areas of event staging
- Australian standards that relate to event operations
- environmental sensitivity of various event sites and particular sites used by the event operator.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to organise and monitor infrastructure for an event in a location with minimal existing facilities and services
- ability to manage the efficient, resource effective, environmentally protective and safe on-site operation of an event, including all aspects of preparation, set-up, operation and move-out
- knowledge of the issues that specifically impact on the organisation of events in venues without infrastructure, including requirements of relevant authorities, Australian standards and OHS regulations
- demonstration of skills through the organisation and monitoring of the infrastructure requirements for at least one event where the candidate plays a key management role.

Context of and specific resources for assessment

Assessment must ensure:

- access to venues and sites that require infrastructure
- access to all equipment required for the staging of a complex event
- liaison with and involvement of suppliers and local authorities.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of the infrastructure through attendance at an event managed by the candidate
- review of documentation used to coordinate infrastructure prepared by the candidate
- questioning of contractors to assess the organisational skills of the candidate
- case studies to assess candidate's ability to determine

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	infrastructure requirements for different events • questions to assess candidate's knowledge of infrastructure services and terminology • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: SITXEVT012A Select event venues and sites.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Relevant authorities may include:	• local government • state or territory government • land management and protection authorities • police • ambulance • fire services.
Infrastructure and facility	• those which make effective use of water an energy

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

requirements may include:

resources to minimise environmental impacts

- power supply
- water supply
- heating or air conditioning
- public toilets
- erection of temporary structures
- scaffolding
- emergency services
- car and coach parking
- transport systems
- camping sites or other temporary accommodation
- signage
- media services and impacts
- first aid stations to manage any injury or illness suffered by participants
- disabled access
- waste disposal and recycling facilities.

Venue may be:

- indoor
- outdoor
- established event location
- untested event location.

Safety, ***security***, ***risk and environmental management issues*** may relate to:

- participant access
- crowd control to ensure the safety and well-being of event personnel and participants at the event site
- capacity for security personnel to manage the participants
- weather and climate impacts
- protecting equipment
- traffic
- equipment failure
- power failure
- responsible service of alcohol
- food safety issues
- use of systems, resources and facilities which minimise environmental impacts to the event site
- the correct installation and removal of infrastructure and facilities to ensure site is left in good condition.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Licensing requirements may relate to:	• builders and building work • electricians and electrical work • plumbers and plumbing work • gas fitters • handling of hazardous materials • forklift operations • special effects.
Stakeholders may include:	• clients • sponsors • local residents • organising committees • local businesses • potential and actual attendees • business associations.

SITXEVT017B Provide on-site event management services

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to coordinate the final preparation and set-up of a complex event comprising multiple components and to manage all aspects of the on-site operation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals managing events in any industry context, but it is particularly relevant to the cultural, community, hospitality, sporting and tourism sectors.

A complex event comprising multiple components must involve:

need for a comprehensive and multifaceted event plan

need for a formal internal or external communications strategy

dedicated and diverse event budget

multiple administrative and operational components

a wide range of stakeholders

an event operations team.

On-site management of a complex event requires considerable organisational, communication, negotiation and problem-solving skills as well as detailed knowledge of the range of issues and challenges that impact on event operations. Those with managerial responsibility undertake this role.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare for on-site management.	1.1 Develop ***plans and procedures for on-site management*** based on assessment of overall event requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.2 Analyse final arrangements for all aspects of the event and address any discrepancies or outstanding matters.
	1.3 Develop and collate ***materials to facilitate effective on-site management***.
	1.4 Organise and provide accurate ***event briefings*** to operational staff and contractors prior to the event, including clarification of roles and responsibilities.
2 Oversee event set-up.	2.1 Establish contact with ***relevant contractors*** at the appropriate time and reconfirm all requirements.
	2.2 Assess all aspects of event set-up against the ***prearranged operational agreements***.
	2.3 Assess set-up to ensure appropriate access and safety issues have been addressed.
	2.4 Identify any ***deficiencies and discrepancies*** and take prompt action to negotiate any necessary adjustments with the appropriate contractor to rectify the situation.
	2.5 Brief any additional on-site staff on full details of the meeting or event operation, including ***communication and control mechanisms***.
3 Monitor event operation.	3.1 Monitor event operation through observation and appropriate ***communication and control mechanisms***.
	3.2 Identify and analyse ***operational problems*** or need for additional services as they arise and take prompt action to address.
	3.3 Liaise with the client throughout the event to ensure it is progressing to his or her satisfaction.
	3.4 Monitor and ensure effective delivery of services through ongoing liaison with contractors.
4 Oversee event break-down.	4.1 Ensure ***event break-down*** is completed according to agreements.
	4.2 Debrief operational staff and contractors as required with view to future operational and service improvements.
	4.3 Check and sign accounts according to contractor agreements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4.4 Assess matters requiring post-event action and initiate relevant processes.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- critical thinking skills to evaluate and assess event requirements for on-site management
- problem-solving skills to evaluate and address a wide range of unpredictable operational issues within tight time constraints
- communication skills to lead, liaise and negotiate with a wide range of stakeholders on potentially complex and unpredictable operational issues
- negotiation skills to allow for on-the-day negotiations where time constraints play a key factor
- literacy skills to interpret and develop potentially complex event documentation
- numeracy skills to address a range of operational and planning issues that may include the need to manage the flow of a large number of people and work quickly and accurately with budget figures and estimates.

The following knowledge must be assessed as part of this unit:

- typical systems, procedures and logistics for on-site management, including:
- contractor communication mechanisms and protocols, including main liaison person within a venue, hierarchy of control and walkie-talkie options
- operational control documents, such as running sheets and how they are used
- techniques for managing stress and time during the operation of an event
- detailed characteristics of written contractor documentation across a wide range of services, including venue, technical, catering and staging
- safety and risk issues associated with different types of event, such as movement of numbers of people and security issues in particular situations
- environmental impacts and minimal impact practices for the construction, maintenance and disposal of event staging components
- correct and environmentally sound disposal methods for all types of waste and in particular for hazardous substances.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to manage the efficient, environmentally protective and safe on-site operation of an event, including all aspects of preparation, set-up, operation and move-out
- knowledge of the range of issues and problems that may arise during the conduct of meetings and events
- demonstration of skills in managing the on-site aspects of more than one complex event
- presence of commercially realistic time pressures related to the operation of an event.

Context of and specific resources for assessment

Assessment must ensure:

- participation of a team of operational staff involved in delivering an event
- involvement of suppliers of equipment and services
- realistic ratios of operational staff to participants, delegates or guests
- use of meeting and event operational documents and equipment.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of the operational efficiency and service quality at an event site-managed by the candidate
- evaluation of reports prepared by the candidate on the event management process, including the issues and challenges associated with delivering effective outcomes
- review of documentation, such as running sheets and other site management plans prepared by the candidate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- review of staff or supplier briefing documents and reconfirmation checklists prepared by the candidate
- written and oral questioning or interview to test knowledge of management procedures and systems, event documentation requirements and negotiating techniques
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITXMGT003A Manage projects.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Plans and procedures for on-site management may be related to:

- registrations
- organising committee
- record-keeping and reporting
- special needs
- risk management
- crowd control

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• event timings • contractor communication • minimisation of environmental impacts on the site.
Materials to facilitate effective on-site management may include:	• running sheets • copies of agreements with clients • copies of agreements with all contractors • contact numbers for all contractors • contact numbers for emergency services • briefing papers • pre-determined processes and procedures for managing risks to personnel, participants and he site environment.
Event briefings may be:	• face-to-face • in writing • on telephone.
Relevant contractors may include:	• venues • speakers and facilitators • staging suppliers • display suppliers • caterers • entertainers • equipment hire companies.
Prearranged operational agreements may relate to:	• the correct installation of infrastructure and facilities to ensure minimal impacts to the site • availability of materials and equipment • room set-ups • staging and technical equipment • display and signage • food and beverage arrangements • registration areas.
Deficiencies and discrepancies may include:	• incorrect room set-ups • incorrect staging

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• faulty or unavailable technical equipment • lack of equipment to manage displays and signage • shortage of food and beverage • inappropriate space in registration areas • inappropriate management of risk to personnel, participants and the site environment.
Communication and control mechanisms may include:	• guidelines on hierarchy of control and associated reporting lines during the event • regularity of updates to event managers • specific performance indicators • contingency plans.
Event break-down may involve:	• the correct removal of infrastructure and facilities to ensure site is left in good condition • packing and removing items • debriefing participants, exhibitors and contractors • liaising with venue and site personnel.

SITXEVT018B Develop a transport strategy for an event

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to identify the transport needs for an event and develop an appropriate transport strategy.

Application of the Unit

Application of the unit This unit applies to individuals organising events in any industry context. It is particularly relevant in the community, cultural, sporting and tourism sectors where event management is a key activity. This unit has particular application in the transport industry, where transport companies may be called upon to work on the development of an event transport strategy.

The unit does not cover the specialist skills required to manage and monitor large transport fleets, as these roles are undertaken by individuals working as transport specialists.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Analyse transport needs.	1.1 Determine overall event transport needs based on analysis of ***key event information***. 1.2 Identify and assess specific transport needs of different ***event stakeholders***, including those with special needs. 1.3 Determine need for ***specialist assistance*** and involvement of ***authorities*** in the transport planning process.
2 Develop strategies to meet differing transport needs.	2.1 Identify and assess various ***transport options and resources*** in consultation with relevant suppliers. 2.2 Assess the particular ***transport issues and risks*** presented by event location, geography and environmental harm to the event site. 2.3 Analyse the legal, safety and insurance issues as they

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	relate to event transport.
	2.4 Analyse and incorporate particular transport issues and risks into transport strategy development.
	2.5 Evaluate impacts of ***broader event management constraints and issues*** as they relate to event transport.
	2.6 Consult with and gain input from relevant event stakeholders about transport strategies at appropriate times prior to the event.
	2.7 Develop ***evaluation criteria*** for the transport strategy in consultation with stakeholders.
3 Develop transport logistics plan.	3.1 Develop and document specific ***procedures to address transport operational requirements***, considering potential new and improved approaches if appropriate.
	3.2 Identify critical tasks and allocate responsibilities and timelines.
	3.3 Allocate transport resources to maximise efficient use of space, cost effectiveness and profitability.
	3.4 Integrate ***human resource requirements*** into the logistics plan and liaise with appropriate colleagues.
	3.5 Develop and articulate ***contingency and critical incident procedures*** within the logistics plan.
	3.6 Provide ***briefings and relevant information*** to those involved in provision of transport services and to other stakeholders.
4 Evaluate transport strategies.	4.1 Evaluate efficiency and effectiveness of the transport strategy based on agreed evaluation criteria.
	4.2 Ensure outcomes of evaluation are incorporated into future event preparations.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- planning and organisational skills to develop and manage transport logistics
- research and critical thinking skills to source and analyse information on transport options
- communication and negotiation skills to consult with stakeholders and negotiate arrangements with suppliers
- contingency management skills to address transport problems
- literacy skills to develop complex plans and documents for the management of event transport
- numeracy skills to work within event budgets and develop different scenarios for consideration.

The following knowledge must be assessed as part of this unit:

- broad event management process and role of transport planning in relation to other event management functions
- types of events that require the development of dedicated transport strategies
- sources of specialist assistance for complex transport planning
- different transport alternatives for consideration in the planning process
- general operational knowledge of the various transport options, including private and public variations for air and land transport
- technology and equipment used for coordination of transport services
- legislation, regulations and industry codes that affect transport planning
- risk management issues associated with event transport
- resource requirements for a transport strategy, including financial, human and physical resources
- efficient use of combined transport options to maximise use of space and profitability for event operations
- environmental access and site impacts and minimal impact practices to be considered in coordinating suitable transport options.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to analyse transport needs for an event and develop resource and cost efficient strategies and transport logistics plans
- knowledge of the factors to be considered when developing an event transport strategy and the particular risk and contingency management issues
- demonstration of skills through the development of a transport strategy and logistics plan for at least one complex event.

Context of and specific resources for assessment

Assessment must ensure:

- use of current information and resource options to develop the strategy
- involvement of and interaction with stakeholders and suppliers as part of the planning process.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of event transport strategies and operational plans prepared by the candidate
- case studies to assess candidate's ability to develop transport strategies for a range of different events
- questions to assess detailed knowledge of different event transport issues and options
- review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Key event information may include:

- general nature of event
- event management structures
- level of government involvement
- location
- dates and times
- duration
- number and type of activities, such as sport or individual programmed events
- numbers attending
- scope of physical staging elements.

Event stakeholders may include:

- organising committees
- media
- participants, competitors and delegates
- officials
- spectators or audiences
- VIPs
- volunteers and paid staff
- authorities, such as local government, emergency services and roads authorities.

Specialist assistance may include:

- transport experts
- local authorities
- emergency services.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Authorities may include:

- local government
- state government, such as state roads authorities
- land management and protection agencies
- emergency services, including police, ambulance and fire service
- other industry bodies, such as certifying bodies.

Transport options and resources may include:

- public transport system, including:
  - trains
  - bus network
  - ferries
  - light rail and trams
- private transport system, including:
  - airlines
  - coach services
  - taxis
  - hire cars, minibuses and limousines
  - private vehicles
  - charter services
  - dedicated disabled transport, including taxis and buses
  - animal transport.

Transport issues and risks may relate to:

- general nature of location, such as major metropolitan, regional, country or remote
- restricted access
- road surface or terrain
- distance between event venues
- distance between event venues and other facilities such as accommodation and service centres
- distance between accommodation providers and venues
- traffic issues, such as peak periods and traffic regulations
- environmental sensitivity of access areas and the event site itself.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Broader event management constraints and issues may include:	• overall event management structures • specific event objectives • budget • human resources • other staging requirements • factors external to the event, such as other events • requirements to manage minimal impact to the natural environment of access to and the site itself.
Evaluation criteria may relate to:	• efficient use of combined transport options to maximise use of space and profitability for the event operator • service quality • environmental targets • financial targets • attendance targets • time targets for movement of people and equipment.
Procedures to address transport operational requirements may relate to:	• contacting relevant authorities for information and permission • available transport and timetables • contingency and backup transport options • security • vehicle refuelling • parking • pick-up and drop-off procedures • human resource requirements, including marshals, guides and drivers • training requirements • adequate provision for buses • emergency services presence and access • arrival of clients - dump or trickle • adequate provision for disabled people.
Human resource requirements may include:	• drivers • guides • volunteers • marshals • interpreters

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• on-site supervisors.
Contingency and critical incident procedures may relate to:	• equipment breakdown • traffic problems • adverse weather • event staff sickness • internal and external delays to event.
Briefings and relevant information may include:	• summary procedures • emergency contact details • contingency procedures • maps and other geographical information, including route maps between venues and sites and information for venues, sites and local area.

SITXEVT019A Manage multi -venue events

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit deals with the performance outcomes, skills and knowledge required to develop strategies to manage an event across a number of venues. It focuses only on the additional knowledge and skills required in the context of cross-venue event operations. CULMS012A Plan event touring, is used more to reflect the skills required when the same event is toured to different venues.

Application of the Unit

Application of the unit

This unit applies to individuals managing events in any industry context. It is particularly relevant in the cultural, community, hospitality, sporting and tourism sectors.

Planning and management of an event using multiple venues or sites requires application of significant analytical and management skills, combined with a strong understanding of event management operational issues. This role is undertaken by an event manager working autonomously, often in consultation with an event organising committee.

Licensing/Regulatory Information

Not applicable.

ELEMENT	PERFORMANCE CRITERIA
selection process.	evaluation of overall event objectives.
	2.2 Incorporate specific multi-venue considerations into the venue or site selection process.
	2.3 Determine best combination of venues to meet event needs.
3 Develop operational procedures to address multi-facility issues.	3.1 Assess and respond to ***geographical factors*** arising from multi-venue operations.
	3.2 Evaluate need for ***consistency across venues*** and develop appropriate guidelines in consultation with venue personnel.
	3.3 Develop ***contingency and critical incident procedures*** for multi-venue operations.
	3.4 Develop clear and concise procedures and distribute to relevant venues.
4 Address multi-facility communication requirements.	4.1 Assess ***inter-venue communication*** needs and determine most appropriate form of communication, using relevant technology.
	4.2 Organise relevant resources to achieve effective inter-venue cooperation.
	4.3 Develop and distribute ***communication protocols and procedures*** in consultation with venues.
5 Evaluate multi-venue operations.	5.1 Evaluate multi-venue event operations in terms of efficiency, communication and service provision.
	5.2 Incorporate outcomes and learning into future event planning.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to develop practical operational procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- critical thinking skills to evaluate a range of complex information and develop operational strategies and procedures
- communication and negotiation skills to work with multiple venue stakeholders
- contingency management skills to address operational issues across multiple venues
- literacy skills to interpret and develop complex documentation
- numeracy skills to assess budget impacts of multi-venue operations.

The following knowledge must be assessed as part of this unit:

- types of events that require the use of multiple venues, and implications of multi-event operations on management structures, processes and procedures
- inter-venue communication options, including relevant technologies to suit particular event requirements
- risk management issues associated with the use of multiple venues for an event
- legal issues associated with the use of multiple venues for an event
- additional resource and staging requirements of a multi-venue event.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to develop operational and communication strategies and procedures for the management of events across a number of venues • ability to select an appropriate set of venues for a multi-venue event • detailed knowledge of management and operational issues to be addressed for a multi-venue event • demonstration of skills through development of plans and procedures for at least one multi-venue event.
Context of and specific resources for assessment	Assessment must ensure:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- access to multiple event venues
- involvement of and interaction with venue personnel to establish appropriate operational and communication strategies and procedures
- use of current and complete venue information.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of plans and procedures developed by the candidate to address multi-venue operations
- case studies to assess candidate's ability to address multi-venue considerations for a range of different events
- questions to assess detailed knowledge of the operational issues to be addressed for a multi-venue event
- review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

SITXEVT012A Select event venues and sites.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Potential impact of multi-venue operations may relate to:	• human, financial and physical resources • operational complexities • safety • management and operating structures.
Multi-venue operations may include:	• sporting events • festivals • conferences.
Event scope and complexity may relate to:	• number of venues • number of attendees • degree of movement of people or equipment between venues • number of different services to be provided at each venue.
Specific risks associated with multi-venue events may include:	• delays • communication issues • consistency of presentation and standards • security complications • crowd control • expansion in number of contractors and associated management requirements.
Multi-venue considerations may relate to:	• distances between venues • comparative venue standards and facilities • distances from venues to other facilities.
Broader event management structures and processes may include:	• overall event management structures • specific event objectives • budget

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- human resources
- staging requirements
- factors external to the event.

Geographical factors may include:

- distance
- traffic routes
- terrain
- levels of congestion
- public transport services between venues.

Consistency across venues may relate to:

- differing weather conditions
- waste management
- environmentally sensitive areas, such as forests and national parks.

Contingency and critical incident procedures may relate to:

- equipment breakdown
- traffic problems
- adverse weather
- event staff sickness
- internal and external delays to event.

Inter-venue communication might involve:

- telephone systems
- computer networks
- two-way radios
- video links or videoconferencing.

Communication protocols and procedures may relate to:

- lines of communication
- methods of communication
- time requirements.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Process receipts and payments.	1.1 Receive and check cash float accurately where appropriate using correct documentation.
	1.2 Check payments received from the customer and give correct change where appropriate.
	1.3 Prepare and issue accurate receipts including all relevant tax details.
	1.4 Process and record ***transactions*** according to organisation and financial institution procedures.
	1.5 When cash payments are required, check documents and issue cash according to organisation procedures.
	1.6 Conduct transactions using appropriate software applications.
	1.7 Conduct transactions to meet organisation speed and customer service standards.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Reconcile takings.	2.1 Perform ***balancing procedures*** at the designated times according to organisation policy and in consultation with colleagues.
	2.2 Where appropriate, separate any cash floats from takings prior to balancing procedure and secure according to organisation procedures.
	2.3 Determine register or terminal reading or printout where appropriate.
	2.4 Remove payments received and transport according to organisation ***security procedures***.
	2.5 Count and calculate payments accurately.
	2.6 Determine balance between register or terminal reading and sum of payments accurately.
	2.7 Investigate or report discrepancies in the reconciliation within scope of individual responsibility.
	2.8 Record takings according to organisation procedures.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- problem-solving skills to identify and investigate a range of routine reconciliation discrepancies
- literacy skills to read and interpret documentation, such as credit card details, receipts or cash float documentation
- numeracy skills to tender correct change and undertake simple financial reconciliations.

The following knowledge must be assessed as part of this unit:

- procedures for processing different types of transactions in the relevant industry context
- underpinning principles of the reconciliation and balancing process
- relevant software, such as point of sale
- role and importance of the reconciliation and balancing process in a broader financial

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to maintain accurate financial records in a range of business contexts.

Application of the Unit

Application of the unit This unit focuses on generic bookkeeping skills and principles and must therefore be contextualised to meet specific industry contexts. It does not reflect the skills of a specialist bookkeeper. In the workplace, this function may be integrated with other activities and systems such as guest registration or travel file management. It is also highly likely that systems for maintaining financial records will be automated.

While individuals working at an operational level undertake this role, it may also be relevant to small business managers who administer their own accounts.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Post transactions.	1.1 Organise and interpret ***source documents*** accurately in preparation for entering ***transactions***.
	1.2 Identify any irregularities in documentation promptly and take action to resolve within scope of individual responsibility and designated timeframes.
	1.3 Check or obtain correct authorisation for entry.
	1.4 Select correct account and journal for intended entry.
	1.5 Enter credit and debit transactions into journals, including correct allocation of all amounts within designated timeframes.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.6 Support journal entries with explanation and cross-referencing to support documentation where necessary.
	1.7 Cross-check source documentation with entered transaction to ensure matching.
	1.8 File source documents in the correct location and according to organisation procedures.
2 Reconcile transactions to a balance.	2.1 Check documentation and balances to ensure matching.
	2.2 Where appropriate, use reconciliation features of computerised systems correctly to assist the reconciliation process.
	2.3 Where necessary, investigate and clear outstanding entries accurately and promptly in consultation with appropriate colleagues.
	2.4 Identify, investigate or report discrepancies according to scope of individual responsibility.
	2.5 Finalise ***reconciliations*** within designated timelines and provide information to colleagues.
3 Retrieve financial information.	3.1 Interrogate financial records correctly to identify required information.
	3.2 Generate and distribute relevant ***routine financial reports or information*** at designated times and in response to requests from colleagues.
	3.3 Check financial reports for accuracy prior to distribution.
	3.4 Identify, investigate or report discrepancies according to scope of individual responsibility.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- problem-solving skills to identify and resolve discrepancies in transaction journals and reconciliations
- organisational skills to logically organise, file and maintain a wide range of business source documents
- literacy skills to interpret a range of source documents
- numeracy skills to make basic calculations, identify numerical discrepancies and work with financial reconciliations.

The following knowledge must be assessed as part of this unit:

- features of financial record-keeping systems relevant to the industry sector or organisation
- bookkeeping cycle relevant to a particular industry sector or organisation
- principles of bookkeeping and general understanding of bookkeeping terminology, including charts of accounts, reporting periods, ledgers, double-entry, debits, credits, debtors, creditors, income, expenditure, receipts, disbursements, transactions, journals, accounts, reconciliations, unpresented cheques, bank charges, and direct debits and credits
- impact of GST on the bookkeeping process in the relevant industry context, including the types of transactions that attract GST or are GST-exempt and the GST reporting requirements for different businesses
- bookkeeping terminology of specific relevance to an industry sector or organisation
- income and expenditure types relevant to a particular industry sector or organisation
- nature of source documents relevant to a particular industry sector or organisation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • understanding of financial record-keeping processes as they apply to a particular industry sector or organisation • ability to maintain accurate records within acceptable organisation timeframes and according to organisation requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- ability to complete reconciliations and resolve routine bookkeeping problems within organisation-acceptable timeframes
- posting of multiple transactions of different types over a period of time to reflect the typical trading or reporting period within a given sector or organisation
- completion of reconciliations that include data of a size, scope and nature to reflect current industry practice
- generation of financial information and routine reports that reflect current industry format and practices
- presence of time constraints that reflect the relevant industry environment.

Context of and specific resources for assessment

Assessment must ensure:

- use of industry-current accounting systems
- integration of problem-solving strategies, such as identifying and resolving errors in reports.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate using a system to post transactions
- review of reconciliations and the accuracy of financial records or reports prepared by the candidate
- review of documentation used or prepared by the candidate to prepare financial records
- problem-solving exercises to address typical bookkeeping errors and problems
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Source documents may include:

- cheques
- deposit books
- cheque requisitions
- tax invoices
- credit notes
- expense vouchers
- petty cash vouchers
- receipts
- bank and credit card statements.

Transactions may include:

- cash and credit card receipts
- cash and credit card payments
- petty cash
- sales
- refunds
- rebates
- interest expenses or interest received
- direct debits and credits
- returns and allowances journal entries
- bad debts journal entries
- main, general journal entries
- payroll journal entries.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Reconciliations may include:	• single system reconciliations • creditor statements • petty cash • foreign currency • bank reconciliations • guest accounts • travel files • taxation.
Routine financial reports may include:	• period reports on receipts or disbursements • account summaries • short-term trading information • information for business activity statements • GST paid or received.

SITXFIN003A Interpret financial information

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to interpret the types of financial information used by operational supervisors and managers in their day-to-day work activities. The unit focuses on understanding key financial terminology, different types of financial reports and on how financial information is used in the management of a business.

This unit is therefore related to other financial units such as: SITXFIN004A Manage finances within a budget, SITXFIN005A Prepare and monitor budgets, and SITXFIN008A Manage financial operations.

Application of the Unit

Application of the unit

This unit applies in any industry context and to a wide range of individuals who need to interpret financial data to inform their work practice, including senior operational staff, supervisors and managers.

This unit does not include the skills required to produce financial reports that would generally be created by senior managers, financial specialists or accountants.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Access and interpret financial information.	1.1 Identify and use relevant business performance indicators and benchmarks for decision-making purposes.
	1.2 Identify the range of ***financial information*** and reports required to monitor business performance effectively on a day-to-day operational management level.
	1.3 Access and review relevant ***financial information*** at appropriate times according to organisation policy and financial reporting periods.
	1.4 Interpret ***financial information*** correctly.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Apply financial information to work activities.	2.1 Identify ***financial information*** that applies to particular areas of work operation. 2.2 Review ***financial information*** in terms of its impact on day-to-day work operations and take action accordingly. 2.3 Share appropriate ***financial information*** with colleagues in a timely manner.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- critical thinking skills to evaluate financial information and determine its impact and importance for day-to-day workplace operations
- literacy skills to interpret a wide range of business documentation
- numeracy skills to interpret and use financial reports.

The following knowledge must be assessed as part of this unit:

- understanding of the basic features of accounting and how it provides information for business management, including:
  - charts of accounts and account categories, such as assets, liabilities, equity, cost of sales, income and expense
  - basic rules underpinning double-entry accounting and the concept of debits and credits
  - accrual versus cash accounting
  - profit and loss statements and balance sheets as key financial statements used to measure business performance, including their role; how these reports are generated; and the format, features and key information an operational manager should look for
  - reporting periods, including variations different financial years observed by different businesses
  - concept of reconciliations
  - concept of costing, including fixed and variable costs
- general features of computerised accounting packages, including the types of packages

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

suitable for different industry sectors

- overview of the financial record-keeping process and key terminology, including:
  - ledgers, subsidiary ledgers and journals
  - transactions, receipts and disbursements
  - invoices, accounts payable, debtors and creditors
  - reconciliations, including purpose, different types of reconciliation and the impact of unpresented cheques, bank charges, direct debits and credits on reconciliations
  - cash flow
- financial terminology used specific to different industry sectors, e.g. average spend, cover, ullage and Travel Compensation Fund requirements
  - overview of GST accounting and reporting processes for business and the impact of this on day-to-day operations.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • understanding of the accounting process and of key accounting terminology • ability to interpret financial information and determine the relationship between the information and the performance of a business.
Context of and specific resources for assessment	Assessment must ensure: • use of commercially realistic financial data and reports.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • case studies that allow the candidate to report on business performance through analysis of financial

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Allocate budget resources.	1.1 Allocate funds according to ***budget*** and agreed priorities. 1.2 Discuss changes in income and expenditure priorities with ***appropriate colleagues*** prior to implementation. 1.3 Consult and inform all relevant personnel in relation to resource decisions. 1.4 Promote awareness of the importance of budget control. 1.5 Maintain detailed records of resource allocation according to organisation control systems.
2 Monitor financial activities against budget.	2.1 Check actual income and expenditure against budgets at regular intervals. 2.2 Include financial commitments in all documentation to ensure accurate monitoring. 2.3 Identify and report deviations according to organisation policy and significance of deviation.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.4 Investigate appropriate options for more effective management of deviations.
	2.5 Advise ***appropriate colleagues*** of budget status in relation to targets, within agreed timeframes.
3 Identify and evaluate options for improved budget performance.	3.1 Assess existing costs and resources and proactively identify areas for improvement.
	3.2 Discuss desired budget outcomes with relevant colleagues.
	3.3 Undertake appropriate ***research to investigate new approaches to budget management***.
	3.4 Define and communicate clearly the benefits and disadvantages of new approaches.
	3.5 Take account of impacts on customer service levels and colleagues in developing new approaches.
	3.6 Present recommendations for ***budget management*** clearly and logically to the appropriate person or department.
4 Complete financial and statistical reports.	4.1 Complete all required ***financial and statistical reports*** accurately and within designated timelines.
	4.2 Produce clear and concise information to enable informed decision making.
	4.3 Forward reports promptly to the appropriate person or department.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research, critical thinking and problem-solving skills to investigate and develop options for potential budget performance improvements
- communication skills to discuss budget requirements and to seek and provide feedback
- literacy skills to interpret a wide range of business and financial documents, and to create

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

accurate budget reporting and recommendations documentation

- numeracy skills to interpret and use budget figures in day-to-day work operations, and to develop budget estimates and scenarios for performance improvement.

The following knowledge must be assessed as part of this unit:

- knowledge and understanding of budgets, specifically how a budget is structured and how to interpret a budget
- any legislative requirements in relation to disbursement of funds and record keeping
- techniques related to maximising budget performance relevant to the organisation or industry sector
- budgeting terminology relevant to a specific industry context
- financial reporting procedures and cycles relevant to the organisation or industry sector.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge of basic budget principles and structures
- budgeting terminology relevant to a specific industry context
- ability to monitor budgeted income and expenditure and to identify ways of improving budget performance
- understanding of the main types of budgets that apply in the specific organisation or industry context
- management of and reporting on a budget for a specific project or operational area over a period of time so that the monitoring and implementation aspects of managing finances within a budget can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- use of figures and data that reflect the realistic financial operating conditions of industry.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of financial reports detailing financial performance of projects or activities conducted by the candidate
- evaluation of reports produced by the candidate detailing the processes undertaken to manage finances within a budget
- case studies and problem-solving to assess application of the principles of budget management to different situations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXFIN005A Prepare and monitor budgets.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Budgets may include:	• cash budgets • departmental budgets • wage budgets • project budgets • purchasing budgets • sales budgets • cash flow budgets • budgets for micro, small, medium or large businesses.
Appropriate colleagues may include:	• operational staff • managers • internal or external financial specialists.
Research to investigate new approaches may include:	• discussions with existing suppliers • sourcing new suppliers • evaluating staffing and rostering requirements • reviewing operating procedures • potential roster changes.
Financial and statistical reports may relate to:	• daily, weekly and monthly transactions and reports • break-up by department • occupancy • sales performance • commission earnings • sales returns • yield management • commercial account activity.

SITXFIN005A Prepare and monitor budgets

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare and monitor budgets. It builds on the skills in unit SITXFIN004A Manage finances within a budget. While the nature of the budget may vary, the unit focuses on the key managerial skills of analysing financial information to inform developing a budget, drafting a budget and monitoring budget performance over time.

This unit requires researching and analysing financial and other business information and applying it to budget planning, development, negotiation and monitoring. It requires sound knowledge of accounting principles, budget development methods, and presentation formats for different types of budget.

Application of the Unit

Application of the unit

This unit applies to individuals responsible for budget development in any industry context. A budget may be for an entire small organisation, for a section of a larger organisation, or for a particular project or activity. A person achieving this unit would be expected to have a sufficiently sound understanding of the budget development process to enable the transfer of skills across a range of workplace contexts.

Budget development is carried out autonomously but in consultation with others.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare budget information.	1.1 Determine and confirm scope and nature of budgetary planning activity with ***relevant colleagues***.
	1.2 Identify, access and interpret ***data and data sources*** required for ***budget*** preparation.
	1.3 Analyse ***internal and external factors*** for potential impact on budget.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.4 Provide relevant colleagues with adequate notice of the opportunity to contribute to the budget planning process.
2 Prepare budget.	2.1 Draft budget, based on analysis of all available information and according to organisation policy.
	2.2 Estimate income and expenditure and support with valid, reliable and relevant information, including income and expenditure for previous time periods.
	2.3 Assess and present options where appropriate.
	2.4 Present recommendations clearly, concisely and in an appropriate format.
	2.5 Reflect organisation objectives appropriately within the draft budget.
	2.6 Circulate the draft budget to appropriate individuals for comment.
3 Finalise budget.	3.1 Negotiate budget according to organisation policy and procedures.
	3.2 Agree and incorporate modifications accurately and in consultation with colleagues.
	3.3 Complete final budget in required format within designated timelines.
	3.4 Inform colleagues of final budget decisions and their application within the relevant work area, including reporting and financial management responsibilities.
4 Monitor and review budget.	4.1 Review budget regularly to assess actual performance against estimated performance and prepare accurate ***financial reports***.
	4.2 Incorporate all financial commitments promptly and accurately into budget and all budget reports.
	4.3 Investigate and take appropriate action on significant deviations.
	4.4 Analyse changes in the internal and external environment during budget review, and make adjustments accordingly.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4.5 Collect and record relevant information to assist in future budget preparation.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to organise a timely, efficient and consultative budget development process
- communication and negotiation skills to liaise with colleagues on potential complex and conflicting budget development issues
- critical thinking and problem-solving skills to develop different options for addressing budgetary challenges
- literacy skills to interpret and analyse information that deals with complex ideas and concepts
- numeracy skills to interpret and analyse financial information, including forecasts and previous performance data, and to develop financial estimates and scenarios.

The following knowledge must be assessed as part of this unit:

- role and nature of the budget development process within different businesses and contexts
- accounting terminology, principles and practices relevant to budget preparation in any context and for different types of budgets
- budget preparation and monitoring principles, practices and techniques, including:
  - information required for budget preparation
  - components of a budget and a budget performance report
  - techniques for making budget estimates
  - type of supporting information required
  - use of software for preparing and monitoring budgets
  - how to present budgets and budget reports
  - budget deviation management, including common reasons for deviations
  - regulatory issues that may impact on budget development in the relevant work context.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- understanding of the technical processes and procedures that must be followed in budget preparation
- sound analysis of the factors that impact the budget and budget development process
- ability to prepare realistic and accurate budgets within relevant workplace context
- preparation of multiple budgets to meet specific and differing workplace needs
- project or work activities conducted over an operationally realistic period of time so that the planning and evaluation aspects of preparing and monitoring a budget can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- involvement of multiple stakeholders in the budget development and monitoring process
- use of industry-current technology for the budget preparation and evaluation process.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of budgets versus financial performance of projects managed by the candidate
- evaluation of reports produced by the candidate detailing the processes undertaken to develop a budget
- direct observation of the candidate providing a briefing or negotiating on a proposed budget
- case studies and problem-solving to assess application of the principles of budget preparation and evaluation to different situations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXFIN004A Manage finances within a budget.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Data and data sources required for budget preparation may include:

- performance data from previous periods
- financial proposals from key stakeholders
- financial information from suppliers
- customer or supplier research
- competitor research
- management policies and procedures
- organisation budget preparation guidelines
- declared commitments in given areas of operation
- grant funding guidelines or limitations.

Budgets may include:

- cash budgets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- departmental budgets
- wage budgets
- project budgets
- event budgets
- sales budgets
- cash flow budgets
- grant funding budgets
- budgets for micro, small, medium or large businesses.

Internal and external factors that could impact on budget development may include:

- organisational and management restructures
- organisational objectives
- new legislation or regulation
- growth or decline in economic conditions
- significant price movement for certain commodities or items
- shift in market trends
- scope of the project
- venue availability and cost (for events)
- human resource requirements.

Financial reports may include:

- periodic reports showing budget versus year-to-date actuals and financial commitments
- periodic sales reports
- taxation commitments
- funding acquittals in relation to grants received.

SITXFIN006A Obtain and manage sponsorship

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to obtain and manage sponsorship for an activity, event or other organisational activity.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies in any industry context where sponsorship is sought to support business or community activity. Sponsorship may relate to a one-off activity, such as an event, or to ongoing operations, such as sponsorship of a particular service.

The unit has particular relevance in the cultural, community, hospitality, sporting and tourism sectors. It requires sound knowledge of sponsorship opportunities and protocols in a given industry context, as well as a range of advanced communication, negotiation and management skills. This role is undertaken by individuals working autonomously, in consultation with colleagues and sometimes under the overall guidance of event organising committees.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Determine sponsorship requirements and opportunities.	1.1 Identify sponsorship requirements in consultation with ***appropriate colleagues***.
	1.2 Develop targets for sponsorship based on financial parameters of the activity.
	1.3 Identify ***items***, ***activities or projects to be sponsored*** based on potential sponsor appeal and the needs of the organisation.
	1.4 Identify ***potential sponsors*** according to nature of the activity and previous approaches.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Source sponsorship.	2.1 Develop ***sponsorship materials*** in a clear, concise and professional format to include a full breakdown of costs and benefits and other relevant sponsor information. 2.2 Distribute and present sponsorship materials according to agreed targets and after appropriate approvals. 2.3 Undertake follow-up promotion and negotiation with potential sponsors. 2.4 Discuss and negotiate additional opportunities with the sponsor where appropriate. 2.5 Make written contracts or agreements with the sponsor to include full details of commitments made by both parties.
3 Service sponsors.	3.1 Brief colleagues on details of sponsorship arrangements. 3.2 Organise activities according to sponsorship agreement ensuring all agreements made are honoured. 3.3 Monitor and evaluate activities and make adjustments accordingly. 3.4 Provide and request feedback to and from the sponsor. 3.5 Identify and action opportunities to enhance value of involvement for sponsors and benefits for the organisation. 3.6 Maintain and distribute accurate and current ***sponsorship documentation*** throughout the process. 3.7 Liaise and follow up with sponsor in a timely fashion, initiating future cooperative approaches where appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- literacy skills to develop sponsorship materials and agreements expressing complex business ideas and proposals
- numeracy skills to evaluate budgets and interrogate or use a range of financial data to inform sponsorship activities
- negotiation and communication skills to undertake sponsor liaison and management.

The following knowledge must be assessed as part of this unit:

- sponsorship protocols in relation to making contact, nature of proposals, involvement of sponsor in activities and reporting expectations
- features and formats for sponsorship proposals and packages in the relevant industry context
- features of sponsorship contracts and agreements
- potential sponsorship contacts and sources of finance in the relevant industry context.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • development of clear, concise and professional sponsorship proposals • comprehensive knowledge of practices and protocols in relation to accessing sponsorship opportunities • application of effective communication and negotiation skills in the context of sponsorship management • demonstration of skills by obtaining and managing sponsorship for at least one activity, project or event.
Context of and specific resources for assessment	Assessment must ensure: • adequate timeframes for the activity so that implementation, monitoring and follow-up activities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	can be assessed • involvement of potential and actual sponsors to allow the communication and negotiation aspect of obtaining and managing sponsorship to be assessed • use of current technology to design effective sponsorship proposals.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • project to initiate and manage sponsorship activities • case studies to assess knowledge of sponsorship practices and protocols for a range of activities and events • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Appropriate colleagues may include:	• management • event organisers • customers • management committees • funding bodies.
Items, activities or projects to be sponsored may include:	• overall event or activity sponsorship • physical items, such as satchels • meals • travel • permanent or temporary exhibitions • entertainment • sporting components • speaker sessions • social events • ongoing organisation activities, such as an annual publication • one-off promotional activities or projects.
Potential sponsors may include:	• individuals • private companies • government agencies • industry organisations or professional associations • educational institutions • community organisations • investors • existing sponsors.
Sponsorship materials may include:	• electronic presentations • printed promotional material.
Sponsorship documentation may include:	• financial records • activity reports or schedules • attendance figures • feedback documentation • contracts.

SITXFIN007A Manage physical assets

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to manage the physical assets of an organisation. It includes a focus on establishing strategies, systems and procedures for asset maintenance and monitoring, as well as financing asset acquisition.

Application of the Unit

Application of the unit This unit applies to mainstream managers who need to proactively plan and manage the acquisition and maintenance of physical assets in an industry context.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop strategies for systematic maintenance, repair and purchase of physical assets.	1.1 Develop strategies for managing ***physical assets*** that reflect overall business and marketing objectives of the organisation.
	1.2 Evaluate current and potential financial objectives and constraints in developing asset management strategies.
	1.3 Integrate all ***OHS requirements*** into physical asset management.
	1.4 Develop and maintain an accurate and current physical assets register as part of the asset management strategy.
	1.5 Incorporate maintenance and repair regimes that minimise disruption and loss of revenue and involve appropriate specialists.
	1.6 Integrate ***practices to support environmental sustainability*** into physical asset management practices.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Monitor the condition and performance of physical assets in the workplace.	2.1 Establish and implement ***systems*** to ensure that the condition and performance of physical assets are regularly reported and discussed within the organisation. 2.2 Establish and implement systems to identify timely replacement of physical assets. 2.3 Make ***assessments of physical asset performance*** based on safety, operational efficiency, customer service quality and input from colleagues. 2.4 Identify physical asset problems promptly and take appropriate action. 2.5 Evaluate need for and access ***specialist assistance*** when required.
3 Coordinate financing of physical assets.	3.1 Prepare accurate work or equipment ***specifications*** to guide the acquisition process. 3.2 Estimate acquisition costs based on evaluation of ***current***, ***accurate and relevant data***, including supplier quotations and estimates. 3.3 Make appropriate decisions on the acquisition of physical assets according to organisation policies and procedures. 3.4 Select ***methods of financing*** to meet current organisation financial objectives based on an analysis of internal and external factors. 3.5 Implement the financing process in consultation with key stakeholders and appropriate financial specialists. 3.6 Make and keep accurate records of all financial agreements and related documents.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- critical thinking and analytical skills to evaluate complex information from varied sources to develop strategic management approaches to physical assets
- planning and organisational skills to develop and implement complex and interrelated workplace procedures, systems and schedules for physical asset management
- literacy skills to interpret and develop a varied range of complex business documents
- numeracy skills to analyse and prepare a wide range of financial data, and to interpret estimates and financial agreements for physical asset acquisition.

The following knowledge must be assessed as part of this unit:

- types of physical assets required by organisations in different work contexts
- maintenance requirements for different types of physical assets in the relevant industry context
- features and benefits of different financing options for asset acquisition, including purchase, rent, lease and hire purchase
- features of an assets register and techniques for its development and maintenance
- overview of taxation arrangements in relation to the acquisition and disposal of physical assets
- specific legislation relevant to the management and maintenance of physical assets, such as that relevant to vehicles or food production equipment
- environmental standards and requirements in relation to different types of physical assets.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to plan for and manage the acquisition, maintenance and replacement of physical assets for a small business, or section or department of a larger business • understanding of financial and legal issues that affect the management of physical assets • development of asset management strategies and

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Physical assets may include:	• buildings • equipment • fixtures, fittings and furniture • vehicles • gardens • pools • rides and games.
OHS requirements may relate to:	• restrictions on who can undertake repairs • regularity of maintenance required • levels of usage.
Practices to support environmental sustainability may include:	• use of particular consumables • protocols for use of machinery • minimising waste • systems to reduce power use • regular maintenance.
Systems to monitor condition and performance of physical assets may include:	• integration of reporting into day-to-day operating procedures • regular management reports • internal or external inspections and audits • regular staff feedback • analysis of maintenance costs over a period of time.
Specialist assistance may include:	• tradespeople • mechanics • electronic specialists • vendor support.
Specifications may include:	• information on general business context

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- numbers of users or customers
- budget parameters
- operational constraints.

Current, accurate and relevant data used for estimating costs may include:

- quotations from suppliers
- current maintenance contracts
- published or advertised prices
- previous contracts and costs.

Methods of financing may include:

- hire purchase
- renting
- leasing
- purchase.

SITXFIN008A Manage financial operations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to manage day-to-day financial operations of a small organisation, a department within a larger organisation or a complex project.

The unit is not intended to cover detailed specialist accounting skills that are undertaken by qualified accountants or financial controllers, but does include the awareness of accounting issues and concepts needed by managers for effective communication with accountants or other specialists on financial matters.

Application of the Unit

Application of the unit

This unit applies to any manager responsible for overseeing the financial operations of a small business, a department within a larger organisation or a complex project. It requires the application of highly developed planning and management skills underpinned by significant knowledge of financial management concepts.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop approaches to financial management.	1.1 Assess ***scope of financial management requirements*** for a given organisation or project. 1.2 Identify need for and organise specialist accounting assistance where appropriate. 1.3 Develop approaches to financial management based on overall direction and goals of the organisation or project. 1.4 Develop financial management systems and procedures according to organisation needs.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Develop and monitor financial procedures and systems.	2.1 Develop ***financial procedures and systems*** to meet relevant statutory and internal control requirements. 2.2 Communicate importance of financial objectives, management controls and systems to all staff. 2.3 Develop practical procedures and systems for monitoring income and ensuring payment of accounts. 2.4 Research and integrate the use of current industry practices and technology into systems where appropriate. 2.5 Check compliance with procedures and systems on a regular basis. 2.6 Monitor the flow of financial information within the organisation in terms of currency, accuracy, level of detail and relevance. 2.7 Review financial management systems regularly and make adjustments according to organisation needs.
3 Make pricing decisions.	3.1 Make pricing decisions based on current, sufficient, accurate and relevant financial and marketplace data. 3.2 Identify fixed, variable and semi-variable costs. 3.3 Perform and interpret simple cost-volume-profit analysis. 3.4 Set appropriate profit margins according to organisation policy and calculate prices correctly.
4 Monitor financial performance.	4.1 Monitor budgets against performance targets on a regular basis. 4.2 Negotiate corrective budgets to maximise business performance. 4.3 Take remedial action to address financial performance problems where appropriate. 4.4 Prepare and interpret profit and loss statements accurately with appropriate level of detail. 4.5 Conduct financial ratio analysis and apply the findings to financial management and reporting as appropriate.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4.6 Communicate feedback on positive and negative performance to appropriate colleagues in an appropriate manner.
5 Prepare financial reports.	5.1 Prepare accurate, concise, relevant and sufficiently detailed ***financial reports*** to schedule, in a format appropriate to the audience and according to organisation and statutory requirements.
	5.2 Identify the need for and access specialist advice on reporting requirements where appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- critical thinking and analytical skills to evaluate complex financial and other business information and develop appropriate management initiatives
- planning and organisational skills to develop and implement systems and procedures for sound financial management within an organisation or project
- literacy skills to interpret and develop information and documentation dealing with complex ideas, concepts and data
- numeracy skills to interrogate and develop financial data, work with complex mathematical ideas and develop approaches to strategic issues such as pricing.

The following knowledge must be assessed as part of this unit:

- different financial management roles for given industry sectors or types of business, including operational managers, owner-operators, financial controllers and external accountants or auditors
- aspects of financial management to be considered for a given organisation or industry sector
- ways in which financial management interrelates with all other areas of business activity
- major steps in the total accounting process and relationship of each with business operations and reporting requirements
- typical financial management systems and technology relevant to the organisation or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

industry sector, including features and capabilities of one or more computerised accounting packages

- key features of and how to prepare the main financial reports used to monitor business performance, including:
  - profit and loss statements
  - balance sheets
  - sales and receivables reports
- techniques for calculating profit margins relevant to a given industry sector
- overview of specific financial and taxation regulations and requirements relevant to the industry sector, including how GST applies to different business operations and reporting requirements
- overview of economic issues that affect financial performance in specific industry contexts.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- understanding of the total financial management process within a business
- ability to integrate the financial management activities of a business into overall business operations
- knowledge of financial control, reporting and monitoring systems
- establishment and management of financial systems over a period of time so that the monitoring and implementation aspects of the unit can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- project or work activities that include the use of figures and data that reflect the financial operating conditions of industry
- use of industry-current technology for financial

EVIDENCE GUIDE

management.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of financial reports detailing financial performance of projects or activities conducted by the candidate
- evaluation of financial management strategies produced by the candidate detailing systems and procedures for the management of given business operations or situations
- case studies and problem-solving to assess application of financial management strategies to particular situations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the

RANGE STATEMENT

performance criteria is detailed below.

Scope of financial management requirements for different projects or organisations will vary and may relate to differing requirements for:	• budgeting and forecasting • reporting, including depth, regularity and nature of reports • control mechanisms • specialist financial skills.

Financial procedures and systems:	• must address:
	  • transaction recording
	  • checking and reconciliation processes
	  • banking procedures
	  • invoicing
	  • accounts payable and receivable
	  • cash management and security measures
	  • cash flow management
	  • budget management
	  • reporting requirements
	  • GST and other taxation requirements
	  • statutory requirements that apply to the specific business structure
	  • sector specific requirements, such as the Travel Compensation Fund in retail travel
	• may cover:
	  • stock control
	  • financial responsibilities within an organisation or department.

Financial reports must include:	• GST reports and business activity statements • cash flow statements • profit and loss statements • balance sheets • reconciliations.

SITXFSA001A Implement food safety procedures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to handle food safely during the storage, preparation, display, service and disposal of food within a range of service industry operations. It requires the ability to follow predetermined procedures as outlined in an organisation food safety program.

This unit is one of three hierarchical units describing varying levels of participation in food safety processes:

- SITXOHS002A Follow workplace hygiene procedures
- SITXFSA001A Implement food safety procedures
- SITXFSA002A Develop and implement a food safety program.

Food safety is nationally legislated by the Food Standards Australia New Zealand Act 1991 which provides for the operation of a statutory authority known as Food Standards Australia New Zealand.

The Australia New Zealand Food Standards Code (the Code) developed by this authority contains an individual standard for food safety practices. This unit of competency complies with the legislative requirements for food safety and safe food handling practices as outlined in the Code.

The legislative requirement for a business to comply with the national standard for food safety practices, along with training and certification requirements, differ between state and territory governments.

In some cases food handlers and especially designated food safety supervisors, may be required to formally achieve competence in implementing safe food handling practices through a registered training organisation that must use this unit as the basis for their training.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Application of the Unit

Application of the unit

This unit has application to hospitality, commercial catering and retail venues where food is stored, prepared, displayed, served and disposed of. It applies to venues that operate a permanent or temporary kitchen or smaller food preparation area, including restaurants, cafes, clubs, hotels, attractions, events and conference venues, fast food restaurants, retail food outlets such as sandwich shops and food court outlets. It would apply to tour operators involved in the preparation and service of food at temporary sites.

Other industries will need to access industry-specific food safety units of competency.

Safe food handling practices are based on policies and procedures outlined in an organisation food safety program. The program and its procedures would normally be based on the hazard analysis and critical control points (HACCP) method but this unit can apply to other food safety systems.

This unit applies to frontline operational personnel who work under supervision and guidance and operate within predefined organisational food safety procedures. This function is undertaken by a diverse range of people, such as cooks, chefs, catering staff and kitchen hands, food and beverage attendants, cafe and fast food outlet cooking crew and sales people, and owner-operators of small business catering operations or retail food outlets.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

- SITXOHS002A Follow workplace hygiene procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Implement procedures for food safety.	1.1 Access and use the relevant documents from the organisation food safety program.
	1.2 Follow all food safety ***policies and procedures*** correctly and consistently according to organisation food safety program requirements to ensure compliance of all food handling practices.
	1.3 Control all ***food hazards*** at ***critical control points***.
	1.4 Complete any ***food safety monitoring*** processes and complete documents as outlined in the food safety program.
	1.5 Identify and report any practices that are inconsistent with the food safety program.
	1.6 Take any corrective actions within scope of job responsibility for ***incidents where food hazards are found not to be under control***.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Store food safely.	2.1 Select food storage conditions appropriate to the specific ***food type***.
	2.2 Store food in the appropriate environmental conditions so that it is protected from contamination and to ensure its freshness, quality and appearance.
	2.3 Store food at appropriately controlled temperatures and ensure that any frozen items remain frozen during storage.
3 Prepare food safely.	3.1 Prepare food in a safe manner to ensure that it is protected from contamination.
	3.2 Use cooling and heating processes that will not adversely affect the microbiological safety of the food.
	3.3 Monitor temperature of food throughout the preparation process to achieve microbiological safety of the food at all times.
	3.4 ***Ensure the safety of food prepared, served and sold to customers under other conditions***.
4 Provide safe single use items.	4.1 Store, display and provide single use items so that they are protected from damage and contamination.
	4.2 Do not re-use ***items intended for single use***.
5 Maintain a clean environment.	5.1 Clean and sanitise equipment, surfaces and utensils used during food handling process.
	5.2 Use appropriate containers and do not allow the accumulation of garbage and recycled matter.
	5.3 Identify and report any equipment that requires cleaning or ***maintenance to ensure its cleanliness and safe operation***.
	5.4 Dispose of any chipped, broken or cracked eating, drinking or food handling utensils or report these if disposal is outside scope of responsibility.
	5.5 Take measures within scope of responsibility to ensure food handling areas are free from animals and pests and report any incidents of animal or pest infestation.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
6 Dispose of food safely.	6.1 Mark and keep separate from other foodstuffs any ***food identified for disposal*** until disposal is complete.
	6.2 Dispose of food promptly to ensure no cross-contamination of other foodstuffs.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- operation of equipment, especially how to calibrate, use and clean a temperature probe and how to identify faults
- literacy skills to read and interpret relevant components of organisation food safety program, including policies, procedures and flow charts that identify critical control points and to complete basic documentation relating to monitoring food safety
- numeracy skills to take and record temperatures and to calculate times.

The following knowledge must be assessed as part of this unit:

- basic understanding of federal, and state or territory food safety legislative compliance requirements, contents of national codes and standards that underpin regulatory requirements, and local government food safety regulations and inspection regimes
- working knowledge of relevant components of the organisation food safety program, especially policies, procedures, product specifications and the use of any monitoring documents
- consequences of failure to observe food safety policies and procedures
- basic understanding of HACCP principles, procedures and processes
- critical control points for the specific food production system and the predetermined methods of control, especially time and temperature controls used in the storage, preparation, display, service and disposal of food
- meaning of hazardous foods, especially as described by local legislation and national food codes
- high risk customer groups (those who may have a higher than average risk of harm from food contamination), such as:
  - children or babies
  - pregnant women
  - aged persons

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- people with immune deficiencies or allergies
- methods of food storage, production, display, service and disposal for the industry sector and food business, especially appropriate temperature levels for each of these processes
- broad understanding of the main types of safety hazards and contamination that may be found in the main food types handled by the industry sector and food business
- broad understanding of the conditions for development of microbiological contamination for the main food types handled by the industry sector and food business
- broad understanding of the appropriate environmental conditions, including temperature controls, for the storage of the main food types handled by the industry sector and food business
- temperature danger zone for the main food types handled by the industry sector and food business and the two-hour and four-hour rule
- principles and methods of safe food handling
- choice and application of cleaning, sanitising and pest control equipment and materials.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency	Evidence of the following is essential: • ability to access and interpret safe food handling procedures and consistently apply these during day-to-day food handling activities • knowledge of critical control points and methods of food hazard control for each critical point • project or work activities that show the candidate's ability to apply safe food handling practices on multiple occasions across a range of different food handling circumstances to ensure consistency in the application of food safety procedures.
Context of and specific resources for assessment	Assessment must ensure: • access to a fully equipped industry-realistic food

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	preparation environment, such as a commercial kitchen, catering production line, or food preparation area of a food outlet using the full range of equipment currently used in the service industries to store, prepare, display, serve and dispose of food • access to current regulatory documents distributed by key federal, state or territory, and local government agencies, such as plain English legislative publications, and codes and standards outlining food safety requirements • access to a food safety program inclusive of policies and procedures • use of real ingredients and food items.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to implement food safety procedures. The following examples are appropriate for this unit: • direct observation of the candidate completing tasks in the food handling facility according to food safety policies and procedures • case studies to assess ability to react to a range of incidents where hazards have not been controlled • oral or written questions to assess knowledge of food safety legislative requirements, policies and procedures • oral or written questions to assess knowledge of food hazards and methods of controlling hazards • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • any commercial cookery, commercial catering, patisserie, Asian cookery or food and beverage unit directly involving food preparation.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Policies and procedures may relate to:

- food receiving, storage, preparation, display, service and disposal
- methods of food hazard control for each critical point
- systematic monitoring of hazard controls and record keeping
- personal hygiene, suitable dress and personal protective equipment and clothing
- record maintenance
- corrective actions when hazards are found not to be under control
- pest control
- cleaning and sanitation
- equipment maintenance.

Food hazards may be:

- anything related to food, including work practices and procedures, that have a potential to harm the health or safety of a person
- actual or potential
- chemical, microbiological or physical
- any food contaminated with chemical or microbiological elements
- foods highly susceptible to microbiological contamination
- food containing bacteria, moulds and yeast
- food containing broken glass, metal or foreign objects

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- food containing chemicals and natural poisons
- insects and vermin
- processes where food is vulnerable to contamination including:
  - requirements for food to be touched by hand
  - requirements for re-thermalisation or defrosting
  - displays of food and buffets
  - working with temperatures that promote the rapid growth of micro-organisms.

Critical control points are those where there is high risk of contamination or food spoilage, including:

- receiving
- storing
- preparing
- processing
- displaying
- packaging
- serving
- transporting
- disposing.

Food safety monitoring may involve:

- monitoring and recording temperature of cold and hot storage equipment
- monitoring and recording food temperatures using a temperature probe
- checking and recording that food is stored within appropriate time limits of receipt of goods
- visual examination of food for quality review
- bacterial swabs and counts
- chemical tests.

Incidents where food hazards are found not to be under control may include:

- food poisoning
- customer complaints
- misuse of single use items
- stocks of out-of-date foodstuffs
- spoilt or contaminated food
- unclean equipment
- existence of pests and vermin.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Food types may include:	• eggs • dairy • meat and fish • fruit and vegetables • dried goods • frozen goods.

Food prepared, served and sold to customers under other conditions may involve:	• displaying any type of food for self-service, such as:
	  • buffets
	  • salad bars
	  • condiments
	  • tea and coffee
	• providing drink dispensing equipment
	• pre-packaging food items
	• displaying and selling pre-packaged food.

Ensuring the safety of food served and sold to customers under other conditions may involve:	• supervising the display of food to prevent contamination by customers • removing contaminated food without delay • providing separate serving utensils for each dish • providing protective barriers • displaying food under temperature control • using packaging materials suitable for use on the particular foodstuff • ensuring that packaging is not damaged during packaging or display process • ensuring that damaged packaging does not allow contamination.
Items intended for single use may include:	• disposable cutlery, e.g. plastic or wooden spoons or stirrers • disposable plates, mugs, cups and bowls • individually packaged sugars • individually packaged condiments, e.g. tomato sauce • individually packaged jams and spreads • individually packaged serves of coffee, tea and whitener • face wipes and serviettes.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Maintenance to ensure cleanliness and safe operation of equipment may involve:	• removal of food waste • removal of grease • removal of dirt • removal of animal or pest waste and cleaning of affected area • recalibration of measurement and temperature controls.
Food identified for disposal may be:	• subject to recall • not safe, or suspected of not being safe, for consumption • destroyed • disposed of so that it cannot be used for human consumption • returned to supplier.

SITXFSA002A Develop and implement a food safety program

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to develop, implement and evaluate a food safety program for a range of service industry operations where food is stored, prepared, displayed, served and disposed of. It requires the ability to determine the specific program requirements for an organisation and prepare policies and procedures for other personnel to follow.

This unit is one of three hierarchical units describing varying levels of participation in food safety processes:

- SITXOHS002A Follow workplace hygiene procedures
- SITXFSA001A Implement food safety procedures
- SITXFSA002A Develop and implement a food safety program.

Food safety is nationally legislated by the Food Standards Australia New Zealand Act 1991 which provides for the operation of a statutory authority known as Food Standards Australia New Zealand.

The Australia New Zealand Food Standards Code (the Code) developed by this authority contains an individual standard for the development of food safety programs. This unit of competency complies with the legislative requirements for food safety and the development of a food safety program as outlined in the Code.

The legislative requirement for a business to develop a program, along with training and certification requirements, differs across state and territory governments.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Application of the Unit

Application of the unit

This unit has application to hospitality, commercial catering and retail venues where food is stored, prepared, displayed, served and disposed of, such as any venue operating a permanent or temporary kitchen or smaller food preparation area. It applies to restaurants, cafes, clubs, hotels, attractions, events and conference venues, fast food restaurants, retail food outlets such as sandwich shops and food court outlets. It would apply to tour operators involved in the preparation and service of food at temporary sites.

Other industries will need to access industry-specific food safety units of competency.

A food safety program would normally be based on the hazard analysis and critical control points (HACCP) method but this unit can apply to other food safety systems.

The development and implementation of a food safety program requires the application of significant planning, organisational and contingency management skills. This role is generally undertaken by senior personnel who operate autonomously, and who are responsible for making strategic decisions on establishing and monitoring risk control systems for food-related hazards. Programs are developed by such people as chefs, kitchen managers, catering managers, fast food store managers and owner-operators of small business catering operations or retail food outlets.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite unit:

- SITXFSA001A Implement food safety procedures.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Evaluate organisation requirements for the food safety program.	1.1 Evaluate the ***characteristics of the organisation***.
	1.2 Examine all food handling operations and processes and identify potential or existing ***food hazards***.
	1.3 Identify all ***critical control points*** in the food preparation system where food hazards can be controlled.
	1.4 Identify product suppliers and determine the quality assurance specifications that relate to foodstuffs supplied.
	1.5 Evaluate existing product specifications covering all food items prepared and sold.
	1.6 Evaluate existing ***policies***, ***procedures*** and monitoring practices, including record keeping, and assess the need for change.
2 Develop a food safety program to control	2.1 Design a food safety program to suit the characteristics and needs of the organisation, in consultation with

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
hazards.	appropriate colleagues and stakeholders.
	2.2 Ensure that the food safety program complies with regulatory requirements and standards.
	2.3 Develop food production flow charts to document the critical control points for the ongoing control of food hazards.
	2.4 Establish and document methods of food hazard control for each critical point.
	2.5 Develop food safety policies and procedures for food hazard control.
	2.6 Develop procedures for the systematic ***monitoring of controls*** and establish a recording system to document the monitoring.
	2.7 Develop procedures for implementing corrective actions when hazards are found not to be under control.
	2.8 Develop or modify and record product specifications covering all food items prepared and sold.
	2.9 Identify training needs and develop a training plan or program based on needs.
	2.10 Develop a schedule for regular review of the food safety program.
	2.11 Set out the food safety program, including all policies and procedures, in a clearly articulated written document and provide to regulatory authorities as required.
3 Implement the food safety program.	3.1 Communicate food safety programs, policies, procedures and product specifications to colleagues in the workplace and ensure display of appropriate signage and access to information.
	3.2 Organise appropriate training and mentoring related to the food safety program.
	3.3 Monitor operational activities to ensure that policies and procedures for hazard control, monitoring and documentation are consistently followed by all employees.
	3.4 Manage the response to ***incidents where food hazards are found not to be under control*** and oversee the implementation of corrective action procedures.
	3.5 Make swift amendments to any practices that led to the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA	
		food safety breach, and document, communicate and implement changes.
	3.6	Maintain all ***documents that relate to the management of the food safety program***, monitor performance and adjust the program accordingly.
4 Participate in food safety audit.	4.1	Ensure that the food safety program is audited by a food safety auditor or compliance inspector at the auditing frequency applicable to the business and according to legislative requirements.
	4.2	Participate in any inspections of the premises or documents that relate to food safety management and provide assistance to the food auditor or compliance inspector.
	4.3	Retain all records of food audits according to legislative requirements.
5 Evaluate and revise the food safety program.	5.1	Conduct a regularly scheduled review of the food safety program in consultation with colleagues to ensure its adequacy.
	5.2	Carry out tests and measures to validate required food safety controls.
	5.3	Review policies, procedures, product specifications, monitoring systems and all record keeping methods, identify required changes and incorporate amendments.
	5.4	Prepare an updated food safety program, including all current policies, procedures, product specifications and monitoring documents, in a clearly articulated written document and provide to regulatory authorities as required.
	5.5	Communicate changes to the food safety program to all employees and ensure that they are incorporated into the production system as scheduled.
	5.6	Identify the need for additional training based on changes to food safety practices.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to read and interpret sometimes complex materials describing regulatory requirements relating to food safety
- high-level literacy skills to develop and write comprehensive food safety programs inclusive of detailed yet easily accessible policies, procedures, product specifications, monitoring documents and flow charts, including formats to suit special needs
- communication skills to consult on and review food safety program, provide information to colleagues, and to question and listen in order to determine and clarify requirements
- critical thinking skills to allow for a rational and logical evaluation of the food storage preparation, display, storage and service areas, and to identify hazards, critical control points and determine suitable control measures.

The following knowledge must be assessed as part of this unit:

- components of food safety programs as specified and required by food safety regulators and under national codes or standards for food safety
- components of policies, procedures, product specifications and monitoring documents
- options for the structure and implementation of a food safety program, including the use of the HACCP method as the basis
- consultative and communication mechanisms used by organisations to develop and implement procedural systems
- understanding of federal, and state or territory food safety legislative compliance requirements, contents of national codes and standards that underpin regulatory requirements, and local government food safety regulations and inspection regimes
- regulatory requirements for food safety audits
- HACCP principles, concepts, procedures and processes
- techniques for identifying hazards and critical control points
- principles and methods of food storage, production, and display and service for the industry sector and food business
- main types of safety hazards and contamination found in food handled by the industry sector and food business
- conditions for development of microbiological contamination for the food types handled by the industry sector and food business
- principles and methods of personal hygiene and safe food handling practices
- acceptable control methods for identified food hazards, especially time and temperature controls used in the storage, preparation, display and service of food.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- ability to develop, implement, monitor, evaluate and make ongoing improvements to a complete food safety program for a given service industry operation and in line with regulatory requirements
- development and documentation of a comprehensive food safety program inclusive of policies, procedures, product specifications and monitoring documents
- knowledge of food safety systems and options suitable for a service industry food preparation organisation
- project or work activities conducted over a period of time so that establishing, monitoring, evaluating and reviewing a food safety program can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- access to a fully equipped industry-realistic food preparation environment such as a commercial kitchen, catering production line, and food preparation area of a food outlet using the full range of equipment currently used in the service industries to store, prepare, display and serve food
- access to current regulatory documents distributed by key federal, state or territory, and local government agencies, such as plain English legislative publications, codes and standards outlining food safety plan content requirements
- involvement and interaction with a food preparation team so that communication and monitoring actions can be implemented.

Methods of assessment

A range of assessment methods should be used to assess

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

the practical skills and knowledge required to develop and implement a food safety program. The following examples are appropriate for this unit:

- review of a completed food safety program inclusive of policies, procedures and product specifications developed by the candidate
- case studies to assess ability to react to incidents where hazards have not been controlled
- case studies to assess ability to develop programs to meet differing workplace needs
- activities conducted in conjunction with industry to allow the candidate to develop systems for a real workplace
- written and oral questioning or interview to test knowledge of the regulatory requirements and knowledge of food safety systems, such as HACCP
- written or oral questions about chosen systems and reasons for selection
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHCCC026A Establish and maintain quality control of food
- SITHCCC037C Manage facilities associated with commercial catering contracts
- SITHCCC038A Plan the catering for an event or function.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Characteristics of the organisation may include:

- size and nature of organisation
- at risk client groups ***with*** a higher than average risk of harm from food contamination, such as:
  - children or babies
  - pregnant women
  - aged persons
  - people with immune deficiencies or allergies
- layout of food storage, preparation, display and service areas
- food items prepared and sold or menu items
- production equipment
- facilities
- re-thermalisation and service requirements.

Food hazards may be:

- anything related to food, including work practices and procedures, that have a potential to harm the health or safety of a person
- actual or potential
- chemical, microbiological or physical
- any food contaminated with chemical or microbiological elements
- foods highly susceptible to microbiological contamination
- processes where food is vulnerable to contamination, including:
  - requirements for food to be touched by hand
  - requirements for re-thermalisation or defrosting
  - displays of food and buffets
  - working with temperatures that promote the rapid growth of micro-organisms.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Critical control points are those where there is high risk of contamination or food spoilage, including:	• receiving • storing • preparing • processing • displaying • packaging • serving • transporting • disposing.
Policies and procedures may relate to:	• food receiving, storage, preparation, display and service • methods of food hazard control for each critical point • systematic monitoring of hazard controls and record keeping • communication and food safety information provision • employee training in hygiene and food handling • personal hygiene and suitable dress standards • record maintenance • contingency management • corrective actions when hazards are found not to be under control • scheduled evaluation and review of food safety program • audit of food safety program • pest control • cleaning and sanitation • equipment maintenance.
Monitoring of controls may involve:	• food quality reviews and tests • bacterial swabs and counts • chemical tests • temperature tests • internal audit of food safety practices • analysis of incidents where food hazards are found not to be under control.
Incidents where food hazards are found not to be under	• food poisoning • customer complaints

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

control may include:	• misuse of single use items • stocks of out-of-date foodstuffs • spoilt or contaminated food • unclean equipment • existence of pests and vermin.

Documents that relate to the management of the food safety program may include:	• documented food safety program
	• policies, procedures and product specifications
	• records of the monitoring of hazard controls, including:
	  • temperature control data
	  • training logs
	  • illness register
	  • list of suppliers
	  • any record required by local legislation
	• incident reports where food hazards are found not to be under control
	• audit reports
	• food production records.

SITXFSA003A Transport and store food in a safe and hygienic manner

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to transport food from a food preparation area to another location. It also deals with holding or storage on its arrival. The unit applies to all catering operations but is particularly relevant to external catering and events.

This unit does not cover the transport of food for room service which is covered in SITHFAB008A Provide room service. It does not cover the skills required to drive a van or truck which are covered in TLIC107C Drive vehicle and other units of competency in the Transport and Distribution Training Package.

Transportation refers to the moving of food and food items from one location to another. For example, transporting food from a kitchen to a school or hospital or providing event catering. It does not refer to the transport of food from the kitchen to the dining room or as part of room service.

The person transporting the food may or may not be driving the vehicle.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to catering operations where food is transported from the preparation area to another location and stored on arrival, such as operations associated with restaurants, educational institutions, health establishments, defence forces, cafeterias, kiosks, cafes, residential catering, in-flight and other transport catering, events catering and private catering.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after the following prerequisite units:

- SITXFSA001A Implement food safety procedures
- SITXOHS002A Follow workplace hygiene procedures.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT **PERFORMANCE CRITERIA**

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Identify appropriate food transportation.	1.1 Select suitable food ***transportation*** vehicles according to ***legislative requirements***.
2 Transport food safely and hygienically.	2.1 Package, load, restrain and unload food appropriately. 2.2 Employ hygienic work practices and observe OHS regulations. 2.3 Maintain appropriate and accurate records of food transportation.
3 Store food safely and hygienically.	3.1 Select food storage conditions appropriate to ***specific food types***. 3.2 Maintain appropriate ***environmental conditions*** for specific food types to ensure freshness, quality and appearance. 3.3 Ensure that storage and holding methods optimise nutritional quality and comply with relevant stock control principles. 3.4 Employ hygienic work practices and observe OHS procedures and practices. 3.5 Keep storage areas free from contaminants and pests.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- safe work practices, in particular loading and unloading, lifting and dealing with heated surfaces
- problem-solving skills to deal with minor problems such as delays with products, traffic congestion and getting lost
- literacy skills to read directions and instructions for venues and locations
- numeracy skills to calculate quantities during the packing and unpacking process.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- hygiene and OHS requirements for food storage and transport
- advantages and disadvantages of different forms of transport for particular food items, quantities and circumstances
- safe storage principles and practices for different food types, including storage options
- characteristics of different food items and conditions required to maintain optimum freshness, palatability and safety.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency

Evidence of the following is essential:

- safe transport and storage of food items within food safety requirements and regulations
- transport of a range of food item types.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills using real food items to be transported and relevant transportation and storage equipment to move food between locations.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate transporting and storing food items
- inspection of food transported and stored by the candidate
- problem-solving and case studies to address various conditions that apply to the transport and storage of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

different food items
- written or oral questions to test knowledge of hygiene issues related to transport and storage
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHCCC030A Package prepared foodstuffs.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Type of ***transportation*** used:

- will vary according to organisation needs and type of food being transported
- may include:
  - vans
  - cars
  - refrigerated trucks
  - trolleys, carts and buggies.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Legislative requirements refer to federal, state or territory, and local regulations and guidelines and may apply to:	• temperature • lining • sealing • food safety programs.
Specific food types must include:	• dairy • meat and fish • eggs • fruit and vegetables • dried goods • frozen food.
Environmental conditions may involve:	• temperature • humidity • exposure to light • exposure to weather • exposure to pests.

SITXGLC001A Develop and update legal knowledge required for business compliance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to ensure business compliance with legislation across a broad range of operational areas. Ability to research and apply relevant legal information to business operations is the key focus of the unit. This is combined with a general knowledge of the legal framework in which businesses in different contexts operate.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to senior personnel and operational managers responsible for ensuring overall business compliance with legislative and regulatory requirements.

The unit does not cover the specialist skills and knowledge required by legal experts or managers whose primary role relates to compliance.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research the legal information required for business compliance.	1.1 Identify ***sources of relevant legal and licensing information*** and advice. 1.2 Determine compliance needs for the business by accessing, selecting and analysing all information on relevant ***legal and licensing requirements***. 1.3 Determine risks, penalties and consequences of non-compliance.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Ensure compliance with legal requirements.	2.1 Assess the need for specialist legal advice and seek assistance where appropriate. 2.2 Record and distribute relevant legal information to colleagues at appropriate times and in suitable formats for the intended audience. 2.3 Organise information updates and training for colleagues and staff where appropriate. 2.4 Establish and monitor ***workplace systems and procedures***, including a risk management approach to ensure compliance with legal requirements. 2.5 Identify aspects of operations that may infringe or potentially infringe laws and solicit advice on how to develop and implement modifications.
3 Update legal knowledge.	3.1 Use formal and informal research to update the legal knowledge required for business compliance. 3.2 Share updated knowledge with colleagues and incorporate into workplace planning and operations.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to source and access legal information and advice
- critical thinking skills to evaluate and apply complex information to a particular operational context
- literacy skills to interpret complex information from varied sources.

The following knowledge must be assessed as part of this unit:

- general knowledge of compliance provisions of legislation in the following areas to the level of depth required by an operational manager or owner-operator and in the specific context of a tourism, hospitality or events organisation:
  - legal responsibilities and liabilities of managers and directors within varying business

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

structures

- consumer protection and trade practices: key features of trade practices and fair trading legislation, its application in different States and Territories and key areas in which tourism and hospitality businesses must ensure compliance
- licensing: licences needed by various businesses and individuals within those businesses; licence application procedures; ongoing requirements to maintain licence, auditing and inspection regimes; and reasons for cancellation of licences
- contracts: differences between contracts; impacts of contract law on operators, including the specific terms and obligations of contract; methods of contractual agreement, exclusion clauses and termination of contracts
- insurance: key business insurances required by different tourism and hospitality businesses, including public liability and workers' compensation
- superannuation: employer responsibilities in relation to payment of superannuation for employees
- industrial relations: rights and responsibilities of employees and employers under industrial relations legislation
- taxation: overview of statutory reporting requirements for businesses
- equal employment opportunity (EEO) and anti-discrimination: including key features, employer responsibilities and consequences of operating contrary to legislation
- examples of specific legislation and local government regulations impacting on particular sectors or contexts: such as Responsible Service of Alcohol, local, state or territory, and federal food regulations and standards, Food Standards Australia New Zealand Act 1991, Responsible Conduct of Gaming, the Crimes (Child Sex Tourism) Amendment Act, European Economic Directive of Foreign Travel, Residential Tenancy Acts, Queensland Tourism Services Act (2003), Privacy Act and local government regulations on building and waste disposal

- sources of legal information and advice in particular industry sectors.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Prepare for on-the-job coaching.	1.1 Identify the need for coaching based on a range of ***factors***. 1.2 Identify specific coaching needs through discussion with colleague to be coached. 1.3 Where appropriate, organise ***coaching sessions*** according to organisation policy.
2 Coach colleagues on the job.	2.1 Explain the overall purpose of coaching to colleague. 2.2 Explain and demonstrate the specific ***skills*** to be coached. 2.3 Communicate clearly any ***underpinning knowledge*** required and check colleague's understanding. 2.4 Provide colleague with opportunity to practise the skill and ask questions. 2.5 Provide feedback in a constructive and supportive manner.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3 Follow up coaching.	3.1 Monitor progress with new skills in the workplace and provide supportive assistance as required.
	3.2 Report progress to the appropriate person as required.
	3.3 Identify ***performance problems or difficulties*** with the coaching and rectify them or refer them to the appropriate person for follow-up.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills, specifically the use of questioning techniques and clarity in oral communication
- interpersonal skills to facilitate participation and encourage effective coaching outcomes
- literacy skills to interpret workplace documentation as required by the job role.

The following knowledge must be assessed as part of this unit:

- context for workplace coaching, including objectives, scope and relationship to other workplace activities
- basic principles of training, such as explanation, demonstration, review, trainee explanation, trainee demonstration and feedback
- equal employment opportunity (EEO) and other relevant legislation impacting on workplace coaching.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to provide supportive on-the-job coaching with constructive and supportive feedback
- clarity in oral communication
- knowledge of basic training principles
- demonstration of coaching skills under normal workplace conditions, including real work tasks to coach others in and use of suitable equipment and materials.

Context of and specific resources for assessment

Assessment must ensure:

- interaction with other people to whom coaching is provided
- use of industry-current technology and documentation to support coaching activities.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate coaching a colleague in a required work skill
- role-plays in which the candidate demonstrates training techniques or communication skills, such as questioning and providing feedback
- questions about training principles
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up

EVIDENCE GUIDE

	the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Factors that could influence the decision whether or not to conduct coaching may include:	• request for coaching from colleague to be coached • own observation and workplace experience • direction from colleagues.
Coaching sessions could be conducted in a range of contexts, including:	• on-the-job during work hours • before or after work • in a simulated location away from the actual workplace.
Skills to be coached are generally those not requiring formal or extended training sessions, but short, commonly-used tasks such as:	• customer service skills • technical or practical skills, such as operating equipment, making something or completing documentation • selling or promoting products and services.
Underpinning knowledge refers to the essential knowledge required to carry out tasks or undertake skills effectively, such as:	• ingredients or components of items • knowledge of products or services • principles underpinning skills such as communication and selling • reasons for undertaking various tasks • legislative, OHS and hygiene requirements.
Performance problems or difficulties may be due to:	• shyness or lack of confidence • breakdown in communication

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- language or cultural barriers
- insufficient opportunity to practise
- inappropriate circumstances for coaching.

SITXHRM002A Recruit, select and induct staff

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to recruit, select and induct staff within the framework of existing human or staffing resource plans or policies. It requires the application of significant planning and organisational skills combined with sound knowledge of current recruitment, selection and induction practices.

Application of the Unit

Application of the unit This unit applies to individuals who recruit, select and induct staff in a tourism or hospitality context and in the framework of existing human resource plans and policies. Depending upon the sector and organisation, dedicated specialist staff, operational supervisors or managers undertake this role.

A more strategic approach to recruitment and selection may be found in specialist human resource management units from a Business Services Training Package.

Licensing/Regulatory Information

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify recruitment needs.	1.1 Identify short-term ***recruitment needs*** based on monitoring of service and efficiency levels in the workplace.
	1.2 Consult appropriate colleagues and other stakeholders in relation to staffing needs and job specifications.
	1.3 Develop clear and concise selection criteria and job specifications.
	1.4 Use job descriptions where appropriate to facilitate the recruitment process.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Obtain approval for recruitment initiatives according to ***organisation recruitment policies***.
2 Administer recruitment.	2.1 Create, approve and disseminate ***advertisements*** for positions according to organisation policy and legal requirements.
	2.2 Process applications according to organisation policy.
	2.3 Inform applicants of decisions and provide other recruitment information in ***appropriate format*** within reasonable timeframes.
	2.4 Organise interviews and other ***selection processes*** according to organisation policy and taking into account any ***special needs***.
	2.5 Make employment offers according to organisation policy.
	2.6 Advise prospective employees on details according to organisation policy and industrial and legislative requirements.
	2.7 Process and file recruitment records according to organisation policy.
	2.8 Identify and communicate recommendations for improvements in recruitment processes to appropriate colleagues.
3 Select staff.	3.1 Review applications against criteria, noting any additional influencing factors.
	3.2 Conduct ***selection processes*** according to organisation policy and legal requirements and taking into account any special needs.
	3.3 Use selection criteria as the basis for selection.
	3.4 Communicate selection recommendations to appropriate colleagues.
	3.5 Create and maintain accurate, clear and complete ***records of the selection process***.
4 Plan and organise induction programs.	4.1 Plan content and format of induction programs to reflect organisation objectives and policies.
	4.2 Include all appropriate ***information in induction***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	programs according to organisation policy and industrial and legislative requirements.
	4.3 Include information on the culture of the organisation in induction programs.
	4.4 Liaise with operational colleagues to ensure induction programs are implemented in a manner that minimises operational disruption.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to conduct the complete recruitment, selection and induction process
- literacy skills to develop complex and varied documentation, such as advertisements, job descriptions or induction programs
- ability to adapt interview techniques to meet the needs of a range of social and cultural groups
- communication skills to consult with colleagues and stakeholders, recommend improvements in recruitment process, inform applicants, ask questions to identify requirements, share information, listen and use non-verbal communication
- numeracy skills to work with basic numerical concepts in relation to issues such as advertising costs and salary levels.

The following knowledge must be assessed as part of this unit:

- broad knowledge of personnel planning, recruitment and selection practices
- role of job descriptions and typical formats
- role and uses of competency standards for the recruitment process
- recruitment methods and processes used within the tourism and hospitality industry, including most appropriate styles of advertising, features of an effective recruitment advertisement, roles of recruitment agencies and internal recruitment
- protocols and procedures for conducting selection interviews, including make-up of interview panels, type of questions and equity issues
- procedures and methods for selection
- procedures for reference checks

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- nature and role of induction programs and typical content
- details of relevant legislation in relation to recruitment and selection of staff, including equal employment opportunity (EEO), anti-discrimination and dismissal procedures
- overview of potential requirements for employing people with special needs
- award provisions or other organisation agreement issues impacting on the recruitment process.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge and understanding of recruitment and induction processes and procedures used within the tourism and hospitality industry • ability to administer the total recruitment and induction process • ability to develop job specifications and selection criteria for recruitment, conduct fair interviews and make selections based on agreed criteria • conduct of a complete recruitment and induction process involving multiple applicants to meet a specific industry need • conduct of interviews with multiple applicants as part of the recruitment process.
Context of and specific resources for assessment	Assessment must ensure: • use of current industry information • involvement of and interaction with multiple applicants to reflect typical workplace conditions for the recruitment, selection and induction process.
Methods of assessment	A range of assessment methods should be used to assess

EVIDENCE GUIDE

practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate conducting a number of job interviews
- review of documentation prepared by the candidate detailing job specifications, advertisements and supporting correspondence of the recruitment process
- evaluation of industry projects conducted by the candidate to develop job specifications and recruitment procedures for different workplaces
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Recruitment needs may be:

- permanent
- temporary
- full-time
- part-time

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- casual and contract
- volunteer
- project-related, e.g. for an event.

Organisation recruitment policies may relate to:

- approval processes for additional recruitment
- approval processes for advertised salaries
- required profile of potential employees, e.g. trainees and fully skilled
- use of government-subsidised traineeships
- nature and content of job advertisements
- nature and content of communications with applicants
- use of different media in the recruitment process
- participants in interview panels
- timing and nature of induction programs
- role of different personnel within the recruitment and induction process.

Advertisements may be:

- internal and external
- direct to the public
- via a recruitment agency
- on the internet.

Appropriate format:

- may include:
  - face-to-face
  - telephone
  - letter
  - email
  - fax
- may suit a particular special need, such as providing a document in large print.

Selection processes may include:

- face-to-face or remote interviews
- exchange of written information
- liaison with referees
- police checks
- internal administrative processes.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Special needs in organising and conducting an interview may include:	• access, such as parking • establishing need for and using interpreters • establishing need for and using assistive technology • using special interview techniques, such as looking directly at a person who lip-reads • using visual information and diagrams instead of written material.
Records of the selection process may include:	• administrative documents relating to the organisational process • records of interview • panel comments • interview schedules • interviewer details.
Information in induction programs may include:	• organisation vision, goals and objectives • current organisational focus or initiatives • organisational charts • procedural information • workplace health and safety information • conditions of employment • contact details for various departments or colleagues • employee benefits • superannuation information.

SITXHRM003A Roster staff

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to develop, administer and communicate staff rosters.

Application of the Unit

Application of the unit This unit applies to individuals responsible for the development of staff rosters in a tourism or hospitality context, in situations involving potentially large numbers of staff working across a range of different service periods, i.e. in more than a small office environment. Constraints around award provisions, other industrial agreements and wage budgets are a feature of rostering at this level.

Depending on the sector or specific organisation, this role may be carried out by dedicated specialist staff or by operational supervisors and managers.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Develop staff rosters.	1.1 Develop ***rosters*** according to relevant ***award provisions***, ***organisation agreements*** and wage budgets.
	1.2 Maximise ***operational efficiency and customer service levels*** while minimising wage costs in roster development.
	1.3 Combine duties where appropriate to ensure effective use of staff.
	1.4 Use the available skills base appropriately to roster the most effective mix of staff and to meet different operational requirements and constraints.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Take account of ***cultural considerations*** and ***broader organisational policies*** that affect staff rosters.
	1.6 Consult with colleagues to ensure appropriate input to rosters.
2 Present and communicate rosters.	2.1 Present rosters in required formats to ensure clarity of information according to organisation standards.
	2.2 Communicate rosters to appropriate colleagues within designated timeframes.
3 Maintain staff records.	3.1 Complete time sheets and other documentation accurately and within designated timelines.
	3.2 Update staff records and maintain or store them according to organisation procedures.
4 Evaluate rosters.	4.1 Monitor the effectiveness of rosters in consultation with colleagues.
	4.2 Identify ways in which rosters and roster development processes may be improved and take appropriate action.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- organisational skills to plan rosters to meet operational needs
- literacy skills to develop potentially complex roster documentation
- communication skills to consult with colleagues, ask questions and confirm requirements, and listen, understand and interpret verbal and non-verbal messages
- numeracy skills to undertake planning activities involving dates, times and staff ratios.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- role of rosters and their importance in controlling staff costs
- factors to be considered when developing rosters, including legal or industrial provisions in the relevant work context
- formats for the presentation of staff rosters and details to be included
- overview of software programs and other technology available for roster design
- in-depth knowledge of operational area for which roster is being developed.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge and understanding of the factors and issues affecting staff rostering
- familiarity with typical formats for rosters and key information to be included
- ability to prepare staff rosters that meet wage budgets and provide a level of staffing sufficient to ensure the delivery of high quality customer service
- project or work activities that allow the candidate to prepare rosters for a workplace and to evaluate their cost efficiency and operational effectiveness against nominated standards project or work activities conducted over an operationally realistic period of time so that the planning, evaluation and monitoring aspects of rostering staff can be assessed
- preparation of multiple rosters for multiple periods to meet the staffing requirements of more than one operational situation.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills in a fully operational situation (project or permanent working environment), including

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	a team of people for whom rosters can be developed • use of industry-current rostering technology and systems.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • evaluation of the staffing costs and service levels in a workplace or at an event for which the candidate has prepared rosters • case studies to develop rosters for typical industry working periods and different operational situations • oral or written questions to assess knowledge of specific factors affecting the design of rosters • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Rosters may be for:	• individual department • whole organisation • specific project.
Award provisions and organisation agreements may affect rostering in relation to a range of issues, including:	• number of hours worked in a given shift • overall number of hours allocated to different staff members • breaks between shifts • nature of duties allocated • use of permanent or casual staff.
Operational efficiency and customer service levels may be affected by:	• numbers of staff • type of staff • balance of skills required • demands of different service styles or periods.
Cultural considerations may relate to:	• types of work to be undertaken by individuals • dates of cultural or religious festivals • family considerations • mixing of people from different cultures.
Broader organisational policies may relate to:	• compassionate leave • maternity or paternity leave • family-friendly workplace initiatives.

SITXHRM004A Manage volunteers

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit covers the performance outcomes skills and knowledge required to recruit and retain volunteers.

Application of the Unit

Application of the unit This unit applies to individuals working in any industry who need to manage volunteer involvement in business or community activities. It is particularly relevant in the community, cultural, sporting and tourism sectors where volunteers feature prominently as part of the workforce both as part of one-off events and ongoing industry activities.

The unit applies to the whole process of volunteer management, including confirming need, establishing the recruitment program and monitoring implementation. It requires a range of critical thinking, communication and people management skills combined with sound knowledge of specific volunteer management issues. Individuals with managerial responsibility undertake this role.

Licensing/Regulatory Information

Not applicable.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Research, determine and define needs for volunteer involvement.	1.1 Determine and evaluate volunteer requirements based on analysis of relevant ***human resource information*** and consultation with relevant stakeholders. 1.2 Assess ***benefits***, ***costs and risks*** to the organisation or project of volunteer involvement. 1.3 Establish and assess the requirements and impacts of ***relevant legislation and industry codes***. 1.4 Define overall ***volunteer roles*** according to specific organisational or project requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Undertake volunteer recruitment.	2.1 Develop appropriate ***position descriptions*** based on review of volunteer roles. 2.2 Establish and incorporate ***volunteer rewards*** into the recruitment program. 2.3 Communicate and delegate responsibility for volunteer coordination to relevant parties according to specific workplace requirements. 2.4 Identify key ***target areas*** from which volunteers might be recruited.
3 Maximise volunteer retention.	3.1 Assist in developing a climate of recognition and support for volunteers through ***representation in the wider environment***. 3.2 Identify and incorporate individual requirements of volunteers into work role design. 3.3 Arrange suitable induction and training for volunteers to ensure work roles, rights and responsibilities are clearly understood.
4 Ensure a positive experience for volunteers.	4.1 Liaise with volunteers regularly to monitor experience from both organisation and volunteer perspective and identify any areas of concern. 4.2 Identify and evaluate areas of concern and initiate follow-up action. 4.3 Identify and incorporate consideration of volunteer ***social and other motivations*** in work design programs.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- critical thinking skills to research and evaluate various aspects of volunteer recruitment and management
- communication and leadership skills to provide support to volunteers
- literacy skills to develop volunteer documentation, such as position descriptions
- numeracy skills to estimate numbers of volunteers.

The following knowledge must be assessed as part of this unit:

- social, political, cultural and historical issues that affect volunteering
- contribution made by volunteers in the relevant industry or community sector, and more broadly in Australian society
- motivational patterns of volunteers
- benefits, costs and risks of using volunteers
- human resource management practices and principles as they apply to volunteer management, including:
  - defining broad work roles and position descriptions
  - recruitment methods
  - training requirements
  - relevant industrial awards and agreements
  - links to broader organisational or project strategies
- insurance issues that impact on using a volunteer workforce
- features of legislation that impact on volunteer management, including equal employment opportunity (EEO), workplace relations, OHS and trade practices.

Evidence Guide

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Human resource information may include:

- organisational human resource plans
- operational plans
- event information.

Benefits, ***costs and risks*** may include:

- financial
- community engagement
- community cultural development
- risks of using untrained or partially trained staff
- impact on the paid workforce.

Relevant legislation and industry codes may include:

- OHS
- consumer affairs
- EEO
- organisation articles of association
- professional association regulations
- company codes and guidelines.

Position descriptions may include information on:

- required knowledge
- skills and attributes
- responsibilities
- accountability
- commitment
- rewards
- reimbursement of costs
- uniform.

Volunteer rewards may include:

- free admittance to games, competitions or events
- free or discounted merchandise
- opportunities for social interaction
- community involvement
- skill development
- pathway to employment.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Target areas may include:	• past and present membership • family and friends • local community and community groups • volunteer agencies • unemployed people • service organisations.
Representation in the wider environment may include:	• providing input to organisation's overall human resource plan • promoting the benefits and value of volunteers to colleagues.
Social and other motivations may relate to:	• socialisation • enjoyment • loyalty • desire to do something different • support of family members and friends • meet new people • break from routine • sense of involvement • learn new skills • increased self-esteem • pathway to employment • travel • acknowledgment • status.

ELEMENT	PERFORMANCE CRITERIA
	work.
	2.4 Encourage teams and individuals to develop ***innovative approaches*** to work.
	2.5 Identify, encourage, value and reward individual and team efforts and contributions.
	2.6 Model and encourage ***open and supportive communication styles*** within the team.
	2.7 Seek and share ***information from the wider environment*** with the team.
	2.8 Represent the team's interests appropriately in the wider environment.
3 Manage team performance.	3.1 Assess the skills of team members and provide opportunities for ***individual development***.
	3.2 Monitor team performance to ensure progress towards achievement of goals.
	3.3 Delegate tasks and responsibilities appropriately, identify barriers to delegation and implement processes to overcome them.
	3.4 Provide mentoring and coaching support to team members.
	3.5 ***Provide recognition and reward*** for team achievements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and interpersonal skills to provide effective support and motivation to a team and overcome communication barriers
- planning and organisational skills to ensure activities and initiatives important to team development are integrated into own work planning
- literacy skills to interpret a wide range of operational workplace information and develop clear and articulate team plans

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- time management skills
- problem solving and decision making skills.

The following knowledge must be assessed as part of this unit:

- roles of and functions performed by supervisors and managers
- different leadership styles and the characteristics of effective leadership
- principles of teamwork, including characteristics of effective teams, roles and attributes of team members, organisation of teams, potential team problems and the benefits of effective teamwork
- role and theories of motivation and their application to different workplace contexts
- typical causes of workplace conflict, including cultural differences
- impact of conflict on the role of leaders
- organisational structure and group dynamics
- formal and informal communication methods and application
- legislative issues that impact on team management, including equal employment opportunity (EEO), diversity, anti-discrimination and unfair dismissal
- types of plans and planning processes.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of leadership, motivation and teamwork principles • ability to build positive team spirit and effectively manage overall team performance within a specific workplace context • project or work activities conducted over a period of time to allow the candidate to play an ongoing team-leading role.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment	Assessment must ensure: • involvement of a team whose overall performance is the responsibility of the candidate.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • evaluation of team leadership within a project or activity managed by the candidate • evaluation of reports prepared by the candidate detailing how team commitment was encouraged and how team performance was managed during the conduct of a project • case studies to develop approaches to specific team leadership situations • oral or written questions to assess theoretical knowledge of leadership, motivation and teamwork • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Plans and objectives may be short, medium or long-term and relate to:	• sales targets • performance targets for a particular project • increased productivity • meeting key performance indicators • organisational strategies • operational activities • task management • contingency management.
Team may be:	• project-based • permanent teams • paid workers • volunteers.
Expectations, ***roles and responsibilities*** may include:	• nature and scope of work • relationships with others in the workplace and interdependent areas of activity • roles of leaders and managers, including information provision, decision making, planning and organising, and monitoring staff • expectations around communication • reporting requirements.
Innovative approaches may include:	• making suggestions about better ways of doing things • alerting colleagues to the potential of new technologies • trying new approaches to old problems • seeking information or ideas from unexpected places.
Open and supportive communication styles may include:	• planned and unplanned exchanges of information • providing open access to documents • using technology to support effective communication, e.g. email groups • involving others in developing solutions • being prepared to declare own need for assistance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• providing constructive feedback.
Information from the wider environment which may affect the team may include:	• overall organisation objectives • rationale for management decisions • changes in organisation policies • marketing information and targets • business performance information, including financial • technology updates • plans for new equipment • training developments.
Opportunities for ***individual development*** may include:	• internal training and professional development • external training and professional development • change in job responsibilities • opportunity for greater autonomy or responsibility • formal promotion.
Recognition and reward for team members may include:	• informal acknowledgment • acknowledgment to the whole team of an individual's good performance • presentation of awards • written report to management • incentive initiatives.

SITXHRM006A Monitor staff performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to monitor staff performance within the framework of established performance management systems. It includes the skills to conduct structured performance appraisal and formal counselling sessions.

Application of the Unit

Application of the unit

This unit applies to individuals who monitor day-to-day staff performance in a tourism or hospitality context. It requires the application of significant communication and problem-solving skills combined with sound knowledge of current performance management practice.

Depending upon the sector and organisation, dedicated specialist staff, operational supervisors or managers undertake this role.

A more strategic approach to performance management can be found in specialist human resource management units from the Business Services Training Package.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Monitor staff performance and provide feedback.	1.1 Consult with and inform colleagues about ***expected standards of performance*** using appropriate communication mechanisms.
	1.2 Monitor ongoing performance by maintaining close contact with the workplace and relevant colleagues.
	1.3 Provide confirming and corrective feedback to colleagues on an ongoing basis.
	1.4 Provide colleagues with ***appropriate guidance and support*** in the workplace.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Provide ***recognition and reward*** for achievements and outstanding performance according to organisation procedures.
	1.6 Identify the need for further coaching or training and organise according to organisation policies.
2 Recognise and resolve performance problems.	2.1 Identify and investigate performance problems promptly.
	2.2 Use feedback and coaching appropriately to address performance problems.
	2.3 Discuss and agree upon ***possible solutions*** with the colleague in question according to organisation procedures.
	2.4 Follow up outcomes of informal counselling through review in the workplace.
	2.5 Organise and conduct a formal counselling session when needed according to ***required procedures***.
3 Implement performance management systems.	3.1 Implement formal ***performance management systems*** according to organisation policy.
	3.2 Conduct individual performance evaluations openly and fairly according to organisation policy.
	3.3 Complete and file performance management records according to organisation policy and industrial requirements.
	3.4 Agree on courses of action with colleagues and follow up in the workplace.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and interpersonal skills to provide effective feedback, coaching and counselling to team members

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- problem-solving skills to develop and respond to unpredictable staff performance issues
- planning and organisational skills to monitor and maintain a formal performance management system
- literacy skills to express potentially complex and sensitive information in writing and to develop and interpret typical performance management documentation
- numeracy skills to work with documents such as staff records and schedules.

The following knowledge must be assessed as part of this unit:

- understanding of the performance management concept within an organisation
- types of performance standards and performance management systems applicable to tourism and hospitality workplaces
- role and importance of feedback and coaching, including appropriate communication, in relation to monitoring staff performance
- grievance procedures
- performance appraisal techniques and systems, including:
  - reasons for performance appraisal
  - types of performance assessment
  - compiling and using performance data
  - protocols and procedures for performance appraisal interviews
  - procedures for formal counselling sessions
- communication skills, including active listening, questioning and using appropriate non-verbal communication in relation to counselling, providing feedback and coaching
- industrial relations, equal employment opportunity (EEO) and diversity issues and legislation that impact on monitoring staff performance.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of typical procedures and processes for formal performance management and counselling • ability to demonstrate appropriate communication

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	skills to provide supportive feedback and guidance to colleagues • project or work activities that allow the candidate to address typical performance management issues found in tourism or hospitality workplaces.
Context of and specific resources for assessment	Assessment must ensure: • interaction with others to demonstrate appropriate communication skills.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • evaluation of reports prepared by the candidate detailing how performance management issues may have been addressed during the conduct of a team project • evaluation of industry projects conducted by the candidate to develop performance management approaches for different workplaces • role-play to provide feedback and conduct a performance appraisal or formal counselling session • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Expected standards of performance and performance problems may relate to:

- productivity
- punctuality
- personal presentation
- level of accuracy in work
- adherence to procedures
- customer service standards
- team interaction
- response times
- waste minimisation
- cost minimisation.

Appropriate guidance and support may include:

- advice on training and development opportunities
- support with difficult interpersonal situations
- opportunity to discuss work challenges
- confirmation of organisational objectives and key performance requirements
- ensuring adequate resources are applied
- representing staff interests in other forums.

Recognition and reward may include:

- informal acknowledgment
- acknowledgment of an individual's good performance to the whole team
- presentation of awards
- written report to management.

Possible solutions to performance may include:

- additional training
- assistance with problems outside of the workplace
- adjustment of workload
- reorganisation of work practices
- agreement on short-term goals for improvement.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Required procedures for a formal counselling session may include:	• formal notification to staff member and management • invitation of appropriate people • organisation of appropriate location for counselling session.
Performance management systems may include:	• type of assessment, e.g. self, peer, team and productivity indicators • methods of collecting performance data • methods of interpreting performance data • processes for performance appraisal interviews.

SITXHRM007A Manage workplace diversity

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to provide leadership in a diverse workplace where customers and staff are from a wide range of backgrounds. It builds on the unit SITXCOM002A Work in a socially diverse environment, and reflects the importance of managing diversity in the workplace.

Application of the Unit

Application of the unit This unit applies to individuals working in a frontline management role in any industry context. It requires the application of sophisticated communication and problem-solving skills in a leadership context, based on a strong understanding of diversity issues, how they impact on management practice and how diversity may be encouraged and respected in the workplace.

Team leaders, supervisors or managers undertake this role.

Licensing/Regulatory Information

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Encourage respect for diversity in the workplace.	1.1 Provide a role model for others through individual behaviour that demonstrates respect for ***diversity***. 1.2 Develop ***work practices*** and undertake planning in a manner that shows respect for workplace diversity. 1.3 Assist and coach colleagues in ways of accepting diversity in relation to customers and other colleagues. 1.4 Initiate open communication and discussion about diversity issues among colleagues and team members.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Use diversity as an asset.	2.1 Recognise and use the skills of a diverse workforce to enhance organisation performance. 2.2 Promote the ***benefits of productive diversity*** to colleagues. 2.3 Seek out information about emerging approaches to diversity and integrate into current work practice.
3 Deal with problems arising from diversity issues.	3.1 Recognise workplace ***problems that arise from diversity issues*** promptly and take action to resolve the situation. 3.2 Identify training needs related to diversity issues and take appropriate action. 3.3 Use coaching and mentoring to assist colleagues to work successfully in a diverse environment.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- cross-cultural communication skills with specific reference to the roles of leaders and managers, including cross-cultural communication for:
  - conflict resolution
  - negotiation
  - motivation
- problem-solving skills to address diversity issues and challenges at a leadership level
- literacy skills to interpret a wide range of information dealing with complex ideas and concepts.

The following knowledge must be assessed as part of this unit:

- specific diversity issues that apply to the relevant industry context and contribute to the industry's progress, including benefits of productive diversity
- current and emerging views and approaches on managing workplace diversity
- potential scope of the term diversity

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- how diversity may affect workplace operations
- legal issues that relate to diversity, including equal employment opportunity (EEO) and anti-discrimination.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • understanding of the role of leaders and managers in encouraging diversity • knowledge of cross-cultural communication techniques as they apply to leaders and managers • knowledge of specific cultural issues that may apply in a particular industry context • ability to apply knowledge and understanding of diversity issues to specific workplace situations.
Context of and specific resources for assessment	Assessment must ensure: • access to current sources of information on diversity.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • case studies to develop strategies for effectively managing diversity in different industry contexts • oral or written questions to assess knowledge of cross-cultural issues and communication techniques • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the

SITXHRM008A Manage workplace relations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to manage workplace relations from an industrial relations perspective. A more strategic approach to overall employee relations is found in the Business Services Training Package.

Application of the Unit

Application of the unit

This unit applies to individuals involved in the management of workplace relations from an industrial relations perspective and at an operational level. It requires the application of critical thinking, communication, problem-solving and planning skills combined with a sound general knowledge of current industry relations legislation, as well as provisions and processes in a given workplace context.

The unit focuses on the skills and knowledge needed by frontline managers and owners or managers of small businesses. Human resource management units in the Business Services Training Package are more relevant to human resource specialists who need a more strategic focus.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Build a positive industrial relations climate.	1.1 Provide employees with accurate and impartial information on industrial matters likely to affect them. 1.2 Identify and evaluate promptly workplace changes or issues that may cause industrial unrest and take ***appropriate action***. 1.3 Analyse potential causes of industrial unrest in external environments and take appropriate action promptly. 1.4 Create ***conditions of employment*** according to relevant legislation and industrial awards or agreements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Implement mechanisms for consulting with staff and facilitating two-way communication.
	1.6 Ensure induction and training initiatives are used effectively to develop a competent workforce.
	1.7 Establish consultative structures for the identification and resolution of grievances.
2 Implement formal industrial procedures.	2.1 Contribute to the development of ***formal industrial relations procedures*** in consultation with ***relevant parties***.
	2.2 Use and monitor agreed procedures to resolve employee relations issues according to organisation policy and legal requirements.
	2.3 Monitor agreed processes and make appropriate adjustments in consultation with relevant parties.
	2.4 Identify the need for and access specialist assistance in industrial relations matters when appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- critical thinking and analytical skills to evaluate complex information from varied sources and apply that information to management practices
- planning and organisational skills to organise and implement workplace procedures to address industrial relations issues
- literacy skills to interpret and develop complex documentation
- numeracy skills to work with numerical aspects of industrial agreements.

The following knowledge must be assessed as part of this unit:

- overview of the current federal and relevant state or territory industrial relations system, including legal obligations of employers
- role of specific unions in the relevant industry sector

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- role of specific employer groups in the relevant industry sector
- provisions of awards appropriate to the industry sector
- overview of procedures for creating workplace agreements
- procedures and specific communication skills for formal counselling, and grievance and industrial dispute resolution.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

SITXHRM009A Provide mentoring support to business colleagues

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to act as a business mentor to other individuals in the industry or workplace.

Application of the Unit

Application of the unit

Mentoring may apply to any area of business or professional endeavour and those involved in the mentoring process may work within the same or different organisations.

Providing mentoring support requires the application of highly developed communication and critical thinking skills combined with wide-ranging business skills in the relevant industry context. A good knowledge of the role of mentoring, mentoring protocols, and the ways in which mentoring can be used for maximum benefit, is also required.

By its nature, this role is only undertaken by individuals with significant workplace and business experience.

Licensing/Regulatory Information

ELEMENT	PERFORMANCE CRITERIA
support.	options to achieve agreed goals.
	2.2 Share appropriate personal experiences and knowledge with the person to assist in progress towards agreed goals.
	2.3 Encourage the person to make decisions and take responsibility for the courses of action or solutions under consideration.
	2.4 Provide supportive advice and assistance in a manner that allows the person to retain responsibility for achievement of his or her own goals.
	2.5 Recognise and openly discuss ***changes in the mentoring relationship***.
	2.6 Make adjustments to the relationship to take account of the needs of both parties.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to develop and maintain a positive, open and mutually supportive mentoring relationship
- critical thinking skills to evaluate and generate complex ideas and concepts
- literacy skills to interpret a wide range of complex documentation.

The following knowledge must be assessed as part of this unit:

- understanding of mentoring, its role and potential benefits
- protocols associated with a mentoring relationship, including appropriate boundaries
- typical issues and problems that might occur at given points in a mentoring relationship
- extensive knowledge and experience of the area of business in which the person being mentored operates.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- understanding of the role and benefits of mentoring in business
- extensive experience and knowledge of the context in which the person being mentored is operating
- ability to use workplace knowledge and experience to assist another individual to achieve his or her agreed goals
- application of effective communication styles to develop the mentoring relationship
- demonstration of skills over a period of time where the candidate provides mentoring support for a less experienced colleague.

Context of and specific resources for assessment

Assessment must ensure:

- interaction with others to demonstrate appropriate communication and mentoring skills.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of reports detailing mentoring activities undertaken by the candidate, taking account of confidentiality issues
- interview with the person being mentored to evaluate the mentor's skills
- oral or written questions to assess knowledge of the key concepts of mentoring
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

SITXICT001A Build and launch a website for a small business

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to build a basic website to meet business needs, including selecting a hosting service and appropriate web development software, planning the website structure and undertaking the actual construction of the site. It requires the technical skills and knowledge typically needed by a business that elects to develop its own site rather than access the services of IT professionals.

This unit satisfies the requirements of BSBEBUS506A Plan and develop a business website, in the Business Services Training Package. BSBEBUS506A has been customised to articulate the technical skills required for building a website and define the scope of skills and knowledge required.

Application of the Unit

Application of the unit

This unit describes a skill relevant to any business within the service industries and applies to the full range of industry sectors and environments. It is particularly relevant to those in small businesses who develop their own websites.

	5.2 Evaluate effectiveness of interactive forms to ensure that required sales data is collected for the business.
	5.3 Evaluate website according to business website strategy to ensure it projects a business image suited to the e-business model.
	5.4 Identify any problems, develop a range of strategies to solve them and select appropriate and sustainable solutions.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- techniques for using colour and enhancing text within a website
- techniques for capture and manipulation of digital images and graphics, including insertion into a website
- writing skills to develop and review website content for diverse purposes and audiences.

The following knowledge must be assessed as part of this unit:

- general understanding of the internet and world wide web and their application and relevance to individual businesses
- current e-business environment for a particular business context
- general overview of different services and operation systems used by internet service providers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- general principles of website architecture and design
- role of a website in the marketing mix and ways in which the marketing effectiveness of a website can be enhanced
- key features of a marketing-oriented website
- general features of browsers, search engines and web crawlers, including how these impact on website design, decisions and meta-tags
- relationships between content and site design
- functions and features of micro-content elements such as headings, highlighted words and hyperlink text
- underlying impact of hypertext markup language (HTML) and cascading style sheets on site design
- features and uses of frames, forms and tables within a website
- privacy issues, codes of practice and legislative requirements in relation to the development of a website including:
  - OECD Guidelines for Consumer Protection in the Context of Electronic Commerce
  - World Wide Web Consortium (W3C) guidelines
  - copyright laws
  - defamation laws
  - privacy legislation and confidentiality requirements
  - intellectual property
  - legal and regulatory policies affecting e-business.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to build a website to meet a specific business need through the integration and application of appropriate business and technical skills • knowledge of the key features and functions to be

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	incorporated into a business website.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills using current equipment, software and authoring tools to develop a business website to meet a particular business need.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to build and launch a website. The following examples are appropriate for this unit: • evaluation of a website developed by the candidate through testing of the site against key criteria • oral or written questioning to assess knowledge of functions, features, security requirements, ISP services and website design requirements • review of portfolios of evidence and third -party workplace reports of on -the -job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBEBUS604A Develop a business website strategy • BSBEBUS507A Manage the business aspects of a website.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Business purpose may include:

- promotion
- sales
- contracting and procurement
- auctions
- provision of information
- collaboration
- support to multiple businesses
- change to supply chain integration
- electronic payments
- consultancy services
- certification.

Website ***features and capabilities*** may involve:

- marketing features
- legal requirements
- privacy and confidentiality requirements
- security requirements
- authentication facility or link
- customer service requirements
- shopping cart facilities
- electronic payment facilities
- online catalogues and brochures
- knowledge bases
- frequently asked questions (FAQs)
- thumbnails
- active links
- navigation buttons

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- colour, sound, video, images and graphics
- downloadable files
- search facility
- facility of user feedback on content and operation of website
- text and tags in HTML
- cut down versions of web pages in wireless markup language (WML) for access by wireless application protocol (WAP) telephones.

Ease of operation may include:

- homepage download time
- time to download files
- difficulty in navigation.

Authoring tools and software may include a wide range of text editors and commercial applications such as:

- WordPad
- Notepad
- FrontPage
- Dreamweaver
- Adobe Photoshop.

Security requirements may include:

- password protection
- limited viewing of rates
- limited downloading of images or image encoding
- payment mechanism.

Content features may include:

- knowledge bases
- products and services
- catalogues and brochures
- thumbnails
- FAQs
- company profile
- staff profiles
- business history
- client testimonials
- published materials.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Page presentation may include:	• animated sequences • sound • movie sequence • plug ins • downloadable files • use of bold, italics, subscript, superscript and strikethrough • different fonts and font sizes • colour • images, e.g. photographs and graphics • bulleted or numbered lists • tables • interactive forms for bookings or enquiries.
Features to enhance web pages may include use of:	• frames • colour • photographic images • graphics • text enhancement.
Linked pages may include:	• relative links: between a page and the home page • fully qualified uniform resource locator (URL) link: to a page on another website.
Relevant sources of information on web hosting options may include:	• internet service providers (ISPs) • industry associations • IT media reviews and articles.

SITXINV001A Receive and store stock

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to receive and store stock. It requires the ability to check and take delivery of stock, other than food, and to appropriately store, rotate and maintain the quality of stock items.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

This unit has commonality with SITHCCC003B Receive and store kitchen supplies, which deals specifically with the receipt and storage of food items and related food safety issues. The control and ordering of stock levels is covered in SITXINV002A Control and order stock.

Application of the Unit

Application of the unit

This unit describes a fundamental administrative function for the tourism and hospitality industries and applies to the full range of industry sectors and environments.

Stock control systems might be manual, but increasingly stock control is computerised. This unit covers any type of stock, other than food items.

The receipt and storage of stock is undertaken by frontline operational personnel who work under close supervision and guidance from others. They would be required to apply little discretion and judgement because they operate using predefined organisational procedures. They would report any stock-related discrepancies for the action of a higher level staff member.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Take delivery of stock.	1.1 Check incoming ***stock*** against orders and delivery documentation according to organisation procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.2 Identify and record variations and report them to the appropriate person.
	1.3 Inspect items for damage, quality, use-by dates, breakages or discrepancies, and record findings according to organisation procedures.
	1.4 Manage excess stock according to organisation procedures.
2 Store stock.	2.1 Transport stock to appropriate storage area promptly and safely.
	2.2 Store stock in the appropriate location according to organisation OHS and security procedures.
	2.3 Record stock levels accurately according to organisation procedures and using appropriate technology.
	2.4 Label stock according to organisation procedures.
3 Rotate and maintain stock.	3.1 Rotate stock according to organisation procedures.
	3.2 Use safe manual handling techniques when moving and storing stock to avoid any injury.
	3.3 Check on the quality of stock at regular intervals and report findings to appropriate personnel.
	3.4 Place excess stock into storage or dispose of stock according to organisation procedures.
	3.5 Maintain stock area according to organisation and government requirements, and identify and report any problems promptly to appropriate personnel.
	3.6 Use ***stock control systems*** correctly and according to organisation speed and accuracy requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following skills must be assessed as part of this unit:

- safe manual handling techniques
- ability to conduct stock activities in a logical and time-efficient work flow
- literacy skills to check incoming stock against order and delivery documentation, to read use-by dates, stock labels, and to read and interpret organisation procedures
- writing skills to record incoming stock and to use stock control systems to record stock-related issues
- communication skills to make accurate verbal or written reports of stock discrepancies
- numeracy skills to count incoming, stored and rotated stock items.

The following knowledge must be assessed as part of this unit:

- basic knowledge of relevant stock, including product life and storage requirements
- different types of storage and their suitability for different kinds of stock
- principles of stock control, including:
  - rotation
  - correct storage procedures for specific goods
  - segregation of non-food items from food items in any storage area that have potential to cross-contaminate
  - checking for slow moving items
- types of stock control documentation and systems that may be applied in the tourism and hospitality industries
- stock security systems and procedures
- OHS procedures and safe work practices that relate to the receipt, transportation and storage of stock

safe and correct use of equipment, such as forklifts.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in	Evidence of the following is essential: • efficient and safe receipt, storage, rotation and

EVIDENCE GUIDE

this unit

maintenance of stock items

- application of the OHS and security procedures related to receipt, handling and storage of goods
- completion of stock receipt and storage activities within typical workplace time constraints.

Context of and specific resources for assessment

Assessment must ensure:

- receipt, storage, rotation and maintenance of stock items within an operationally realistic tourism or hospitality stock control environment
- use of current technology, equipment, stock documentation and real stock items
- access to stock control procedures and OHS procedures that relate to the receipt, transportation and storage of stock.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to receive and store stock. The following examples are appropriate for this unit:

- direct observation of the candidate receiving and storing stock
- written and oral questioning or interview to test knowledge of stock, OHS and security procedures
- review of workplace reports and records related to stock control prepared by the candidate
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXOHS002A Follow workplace hygiene procedures
- SITXADM001A Perform office procedures
- SITXOHS001B Follow health, safety and security procedures.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry

sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Stock may include:

- beverages for bar, mini bar, restaurant and shop
- equipment, such as maintenance and cleaning equipment and office equipment
- linen, such as sheets and towels
- stationery, such as guest stationery and office supplies
- brochures and promotional material
- vouchers and tickets
- souvenirs and other retail products.

Stock control systems may be:

- manual
- computerised.

SITXINV002A Control and order stock

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to control and order stock. It requires the ability to process stock orders, maintain stock levels, minimise stock losses, manage stocktakes and maintain all documents that relate to the administration of stock.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

The skills required by managers to establish and monitor cost-effective order and supply arrangements are covered in SITXINV003A Manage and purchase stock.

Application of the Unit

Application of the unit

This unit describes a fundamental administrative function for the tourism and hospitality industries and applies to the full range of industry sectors and environments.

Stock control systems might be manual, but increasingly stock control is computerised. This unit covers the administrative control of any type of stock.

Supervisory personnel who operate with a considerable level of autonomy or under limited guidance from others would be responsible for controlling and ordering stock. They would be largely responsible for making decisions on the overall administration of stock and would be the contact person for operational staff referring any stock discrepancies.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

This unit must be assessed after one of the following prerequisite units:

- SITXINV001A Receive and store stock
- SITHCCC003B Receive and store kitchen supplies.

Employability Skills Information

Employability skills

The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Maintain stock levels and records.	1.1 Use ***stock control systems*** to administer all stock control and ordering processes fully and efficiently.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.2 Monitor and maintain ***stock*** levels to organisation requirements.
	1.3 Monitor stock security and adjust systems as required.
	1.4 Monitor and adjust stock reorder cycles as required.
	1.5 Inform colleagues of their individual responsibilities in regard to the reordering of stock.
	1.6 Maintain records of stock storage and movement according to organisation procedures.
	1.7 Monitor stock performance, and identify and report fast or slow-selling items according to organisation procedures.
2 Process stock orders.	2.1 Process orders for stock according to organisation procedures.
	2.2 Maintain and record stock levels ensuring information is complete, correct and current.
	2.3 Check incoming stock records against purchase and supply agreements and record all necessary details.
3 Minimise stock losses.	3.1 Identify and record ***stock losses*** according to organisation procedures.
	3.2 Report losses according to organisation procedures.
	3.3 Identify avoidable losses and establish reasons for them.
	3.4 Recommend solutions to loss situations and implement related procedures to prevent future avoidable losses.
4 Follow up orders.	4.1 Monitor the delivery process to ensure agreed deadlines are met.
	4.2 Liaise with colleagues and suppliers to ensure continuity of supply.
	4.3 Follow up on routine supply problems or refer problems to appropriate person according to organisation policy.
	4.4 Distribute stock to agreed allocations ensuring that it is protected from loss, contamination, spoilage, temperature abuse and pests, and is in line with relevant OHS and food safety procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
5 Organise and administer stocktakes.	5.1 Organise stocktakes at appropriate intervals according to organisation policy and procedures. 5.2 Allocate stocktaking responsibilities to staff. 5.3 Produce accurate stocktake reports within designated timelines.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to process all stock order documents and reconcile incoming stock records against purchase orders
- writing skills to record and maintain all stock records and produce complex stocktake reports
- high-level communication skills to inform colleagues on their individual stock ordering and stocktake responsibilities and liaise with suppliers about deliveries and discrepancies
- critical thinking skills to allow for the analysis of stock records to determine stock losses and to make appropriate recommendations for improvements
- numeracy skills to perform complex calculations involving reconciling stock orders and levels.

The following knowledge must be assessed as part of this unit:

- stock ordering procedures
- stock level maintenance techniques appropriate to industry sector
- stocktake procedures appropriate to industry sector
- stock recording systems
- stock security systems and procedures
- types of stock control documentation and systems
- reasons for stock loss and damage and methods used to control these.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ordering, control and overall administration of continuous stock supply within a specific tourism and hospitality industry environment
- ability to meet accuracy and speed requirements for completion and maintenance of stock records
- project or work activities conducted over a commercially realistic period of time so that the stock control and maintenance aspects of this unit can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- ordering, control and overall administration of stock within an operationally realistic tourism or hospitality stock control environment
- use of current technology, equipment, stock documentation and real stock items
- access to stock security and stocktake procedures
- involvement of internal and external suppliers.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to control and order stock. The following examples are appropriate for this unit:

- review of project activities undertaken by the candidate to control stock for a given period of time for a specific outlet
- review of stock control activities undertaken as part of industry placement or training with an industry operator
- written and oral questioning or interview to test knowledge of security and stocktake procedures
- case studies to assess ability to solve problems related to stock control, stock loss or security

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- review of workplace reports and records prepared by the candidate related to stock control
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXADM001A Perform office procedures
- SITXMGT001A Monitor work operations
- SITXINV003A Manage and purchase stock.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

SITXINV003A Manage and purchase stock

Modification History

Not applicable.

Unit Descriptor

Unit descriptor This unit describes the performance outcomes, skills and knowledge required to establish and implement stock control and stock purchasing systems.

Application of the Unit

Application of the unit This unit applies to individuals who need to establish and monitor high quality and cost-effective order and supply arrangements within an organisation. The unit is relevant in organisations where stock management is an integral and essential part of business operations, and where there are complex ordering, control and purchasing issues to be considered, such as in hospitality establishments.

Individuals with managerial responsibility undertake this role.

The unit is not appropriate for individuals working in environments where stock management is very simple, such as those controlling stationery supplies in a small office.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish and implement an order and supply process.	1.1 Develop an order and supply process for ***stock*** and communicate to relevant people.
	1.2 Establish economic order quantities based on internal information and supplier advice.
	1.3 Determine required stock levels according to peak seasons, special events and supplier's lead time.
	1.4 Develop process to include monitoring of quality during supply and delivery processes in line with any organisation and regulatory requirements, including food safety regulations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2 Establish and implement stock control systems.	2.1 Develop ***stock control systems*** and communicate to all appropriate staff in a timely manner. 2.2 Apply ***special control systems*** to items showing high wastage or loss. 2.3 Use data correctly to calculate ***standard methods and measures*** and communicate to appropriate staff. 2.4 Monitor workplace systems and make adjustments according to feedback and operational experience. 2.5 Initiate training of staff to minimise stock wastage.
3 Develop optimum supply arrangements.	3.1 Evaluate quality of supply, based on feedback from colleagues and customers. 3.2 Source and review potential suppliers in line with organisation requirements. 3.3 Develop appropriate and accurate ***purchase specifications***. 3.4 Assess suppliers against specifications considering all ***relevant factors***. 3.5 Assess ***terms of purchase*** and negotiate with suppliers to achieve optimum supply arrangements. 3.6 Adjust sources of supply in line with assessments and make accurate records of agreements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to negotiate and liaise with stock suppliers
- critical thinking skills to evaluate and determine optimum supply arrangements
- planning and organisational skills to establish and monitor stock control systems and procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- problem-solving skills to address stock-related issues at a management level
- literacy skills to interpret and develop a wide range of documents related to purchasing and stock control
- numeracy skills to work with budgets and specific stock control issues, such as wastage, standard measures and stocktakes.

The following knowledge must be assessed as part of this unit:

- economic order quantities and their workplace application, including:
  - applicability to different items
  - appropriate formulas
  - data required to compute the economic order quantity
  - information from suppliers needed to establish economic order quantities
- supply sources for different types of product
- information required to develop an accurate and complete purchase specification, including appropriate terminology
- supplier and market knowledge relevant to given industry context.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to develop purchasing and control systems to ensure continuity, quality and cost-effectiveness of supply • knowledge of typical purchasing and control systems used within the relevant tourism or hospitality context • development of a purchasing and control system to address a specific business operation need.
Context of and specific resources for assessment	Assessment must ensure: • interaction with suppliers.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of activities that allow the candidate to undertake a stock management role within a commercial kitchen or a food and beverage outlet over a period of time
- case studies to develop order and supply processes and stock control systems for different workplace situations
- oral or written questions to assess knowledge of typical systems for purchasing and stock control
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Stock may include:

- food and beverages

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- linen
- housekeeping supplies
- stationery
- cleaning agents and chemicals
- general stores
- merchandise.

Data for establishing ***stock control systems*** may include:

- yield tests
- historical sales figures
- stocktake figures.

Stock control systems may include:

- integrated point-of-sale systems
- imprest
- ledgers
- bin cards
- stocktaking systems
- stock valuation systems
- stock reporting systems.

Special control systems for items of high wastage may include:

- systems for receiving, storing and issuing
- requisitioning
- controlling issue quantities
- issuing to authorised persons
- procedures for stock transfer to other departments.

Standard methods and measures vary depending on product item, but may include:

- portion size, such as weight, volume, count, scoop, measure, cup or slice
- standard recipes.

Information to be included in ***purchase specifications*** may include:

- product name
- general description
- detailed description
- use for product
- storage procedures
- required labelling
- special instructions or requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Relevant factors to consider in assessing suppliers against specifications may include:	• ability to meet all aspects of the specification • product availability • delivery service, including emergency delivery • minimum and maximum order quantities • competitive pricing • financial terms available • references from other customers • trading hours • after sales service.
Terms of purchase may include:	• competitive or open market buying • contract buying • sealed bid buying • cost plus buying • one stop buying • cooperative buying • negotiated buying • volume buying and warehousing • centralised or decentralised purchasing.

SITXLAN1A Conduct basic workplace oral communication in a language other than English

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to understand and use a language other than English for very simple, commonly used expressions of a basic and predictable nature in tourism and hospitality workplaces. It covers activities such as welcoming and farewelling guests, providing face-to-face routine customer service and other routine workplace activities. This unit can be used for training delivery and assessment of basic oral proficiency in any language other than English. There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 1.

This unit is the first in a hierarchical set of four units dealing with oral communication and cultural skills in a language other than English, ranging from entry to fluency and increasing in complexity with the level of linguistic and cultural ability. These units do not align with Australian Qualifications Framework (AQF) levels and do not include interpreting or translating, which are higher-level specialist skills.

Application of the Unit

Application of the unit

This unit applies to individuals working in any industry context and at many different levels of responsibility. Frontline, supervisory or management personnel may use the language skills described in this unit.

This unit may be customised for training delivery and assessment of proficiency in any language.

However, for reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

A specific code has been allocated for each of these languages, as detailed below. In addition, each language must be indicated in brackets after the unit title.

For example: SITXLAN111A Conduct basic workplace oral communication in a language other than English (Italian).

SITXLAN101A	(Arabic)
SITXLAN102A	(Indonesian)
SITXLAN103A	(Cantonese)

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Be courteous to customers and colleagues.	1.1 Identify the specific language needed in order to conduct basic communications. 1.2 Use appropriate, very simple, ***commonly-used courtesy expressions*** with customers or colleagues including greeting and welcoming, farewelling, apologising and thanking. 1.3 Recognise and observe any social and cultural conventions of the specific language speaker to support communication. 1.4 Make efforts to communicate through use of gestures or use of basic vocabulary in the other person's language where language barriers exist. 1.5 Identify and use ***appropriate resources*** and seek assistance from those with suitable language skills.
2 Communicate with customers and colleagues in a language other than English to support routine workplace activities.	2.1 Understand and use key words, short phrases and gestures to enhance ***communication***. 2.2 Use any ***visual techniques*** to enhance or replace oral communication.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and interpersonal skills to allow for positive and courteous interaction with customers
- cross-cultural language skills to use key words, phrases, short expressions and numbers routinely required to fulfil common customer needs relevant for the particular workplace and to the language being assessed.

The following knowledge must be assessed as part of this unit:

- general knowledge of the culture and the social and cultural conventions relevant to the language being assessed, including traditions, attire, eating habits, table manners, body language and taboo topics
- general awareness of cross-cultural communication issues sufficient to avoid giving offence to customers and colleagues.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	There are three critical considerations for the assessment of this unit. • This unit can be used to assess basic oral proficiency in anylanguage other than English. Assessment must be customised to the requirements of a particular language. • Assessment should not only focus on the language being assessed but must also incorporate the practical customer service requirements of the tourism or hospitality industry, i.e. the assessment of language must be conducted while the candidate is carrying out

EVIDENCE GUIDE

typical tourism or hospitality vocational activities.

- This unit can apply to any tourism and hospitality sector, workplace and circumstance. Assessment activities must ensure that the use of a specific language is contextualised and linked to vocational activities which are relevant to the particular tourism or hospitality sector and workplace. For example, if assessment is linked to restaurant service, language usage should relate to a restaurant.

Evidence of the following is essential:

- ability to use appropriate courtesy expressions, key words, phrases, short expressions and numbers in a language other than English in order to fulfil common customer needs
- ability to gesture in a socially and culturally appropriate manner.

Context of and specific resources for assessment

Assessment must ensure:

- operational conditions of a tourism or hospitality customer service environment
- that the person being assessed is undertaking typical tourism or hospitality workplace activities, such as serving food, greeting guests, assisting guests with baggage, completing registration details, checking in while using the language being assessed
- provision of services to customers within typical workplace time constraints
- use of relevant and current tourism and hospitality materials and equipment, such as timetables, brochures, menus, tour desks, check-in desks, porter desks and restaurant equipment
- use of basic resources commonly used to assist workplace communication, including:
- phrase books
- dictionaries
- language mats
- pamphlets written in the specific language
- menus written in the specific language
- signs written in the specific language
- international signage, such as 'No Smoking' signs.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral testing of conversational language use (note: this should not be the sole method of assessment)
- direct observation of the candidate communicating in a language other than English in a customer service environment while undertaking typical workplace activities
- review of visual aids prepared by the candidate to assist verbal communication
- written and oral questioning or interview to test knowledge of the culture, social and cultural conventions and cross-cultural communication requirements associated with the language
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHACS001B Provide accommodation reception services
- SITHFAB002C Operate a bar
- SITHFAB004A Provide food and beverage service
- SITXCCS001B Provide visitor information.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Commonly-used courtesy expressions (formulaic language) may include:

- Good Morning
- How are you?
- Goodbye
- May I help you?
- This way please
- Have you had lunch?
- Did you have a good trip?
- May I clean your room now?
- Do you need another towel?
- Sorry, I don't understand. Do you speak English?

Appropriate resources may include:

- language mats
- phrase books
- dictionaries
- pamphlets written in the specific language
- menus written in the specific language
- signs written in the specific language
- international signage, such as 'No Smoking' signs
- websites with translating facilities.

Communication must include:

- listening to requests and comments
- providing factual information, such as:
- location of specific facilities
- opening hours
- procedures, e.g. check-in and tour pick-up
- currency
- prices
- room and floor numbers
- safety rules
- conducting simple product and service transactions, such as:
- purchase of souvenir products
- payment of a restaurant bill
- payment for a tourism service, e.g. day tour, accommodation and ticket
- references to timetable, signage and basic rules,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

e.g. opening hours
- selection of food and beverages from a menu
- advising check-in and check-out procedures and times
- advising opening and closing times
- answering very simple queries about products and services, including:
- in-house facilities
- local attractions and places of interest
- shopping centres
- tour desk
- pick-up and drop-off point for tours
- transport terminals, and taxi and other transport services
- providing general assistance within the scope of responsibility
- providing very simple directions.

Visual techniques may include:
- marking of a map
- drawing attention to pamphlets and timetables
- locating specific costs and items on menus
- signs, gesturing and appropriate body language.

SITXLAN2A Conduct routine workplace oral communication in a language other than English

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to understand and use a language for predictable routine communication in speaking and listening in a language other than English in tourism and hospitality workplaces. It covers the speaking and listening language skills required to conduct routine tasks and provide simple factual information and instructions. This unit can be used for training delivery and assessment of routine oral proficiency in any language other than English. There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 1+ to 2.

This unit is the second in a hierarchical set of four units dealing with oral communication and cultural skills in a language other than English, ranging from entry to fluency and increasing in complexity with the level of linguistic and cultural ability. These units do not align with Australian Qualifications Framework (AQF) levels and do not include interpreting or translating, which are higher-level specialist skills.

Application of the Unit

Application of the unit

This unit applies to individuals working in any industry context and at many different levels of responsibility. Frontline, supervisory or management personnel may use the language skills described in this unit.

This unit may be customised for training delivery and assessment of proficiency in any language.

However, for reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

A specific code has been allocated for each of these languages, as detailed below. In addition, each language must be indicated in brackets after the unit title.

For example: SITXLAN206A Conduct routine workplace oral communication in a language other than English (French).

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Communicate in a language other than English with customers and colleagues to provide customer service.	1.1 Identify the specific language needed in order to conduct ***routine communications***. 1.2 Understand and use appropriate ***courtesy expressions*** with customers or colleagues. 1.3 Give basic and factual information, provide simple explanations of problems and their causes, and offer apologies when required. 1.4 Make introductions according to the business of the workplace. 1.5 Seek clarification from customers and colleagues when required, using simple terms. 1.6 Provide simple advice on workplace events and ***topical and familiar matters***.
2 Communicate with customers and colleagues to conduct routine transactions.	2.1 Understand and use key words, phrases, gestures and sentences to ***communicate***. 2.2 Support communication by reference to, and basic explanation of, specific ***workplace materialsand visual information***. 2.3 Identify need for and seek assistance from others with appropriate language skills in order to better communicate.
3 Give simple directions and instructions.	3.1 Provide clear, succinct and easy to follow ***simple directions and instructions*** at an appropriate pace and in a correctly ordered sequence.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.2 Support communication with the use of appropriately sequenced expressions and questions to emphasise or clarify directions and instructions.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication and interpersonal skills to allow for positive and courteous interactions with customers
- cross-cultural communication skills to participate in routine communications and transactions and use key words, phrases, sentences and vocabulary specific to communicating about number (e.g. counting), time, place, distance, quantity and currency to fulfil common customer requests relevant to particular workplace and language being assessed.

The following knowledge must be assessed as part of this unit:

- social and cultural conventions specific to the language being assessed which enhance communication and avoid giving offence to customers and colleagues, including:
- traditions
- attire
- awareness of appropriate forms of address
- food taboos, special dietary needs and eating habits of the relevant culture (where relevant to the workplace)
- appropriate body language
- general knowledge of cross-cultural communication issues sufficient to conduct routine workplace transactions in a socially and culturally appropriate manner.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment

EVIDENCE GUIDE

Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

There are three critical considerations for the assessment of this unit.

- This unit can be used to assess basic oral proficiency in any language other than English. Assessment must be customised to the requirements of a particular language.
- Assessment should not only focus on the language being assessed but must also incorporate the practical customer service requirements of the tourism or hospitality industry, i.e. the assessment of language must be conducted while the candidate is carrying out typical tourism or hospitality vocational activities.
- This unit can apply to any tourism and hospitality sector, workplace and circumstance. Assessment activities must ensure that the use of a specific language is contextualised and linked to vocational activities which are relevant to the particular tourism or hospitality sector and workplace. For example, if assessment is linked to restaurant service, language usage should relate to a restaurant.

Evidence of the following is essential:

- ability to use appropriate courtesy expressions, give simple factual supporting information and clarify information by asking simple factual questions in a language other than English
- ability to accurately identify and respond to customer needs, provide routine information and maintain communication with customers and colleagues in relation to routine transactions.

Context of and specific resources for assessment

Assessment must ensure:

- operational conditions of a tourism or hospitality customer service environment
- that the person being assessed is undertaking typical tourism or hospitality workplace activities, such as preparing and serving beverages, providing site information and assistance, selling merchandise or tourism products or services. serving food, checking in while using the language being assessed
- provision of services to customers within typical

EVIDENCE GUIDE

workplace time constraints
- use of relevant and current tourism and hospitality materials and equipment, including timetables, brochures, menus, tour desks, check-in desks and restaurant equipment
- use of resources which would be commonly used to assist workplace communication, including:
- phrase books
- dictionaries
- language mats
- maps
- pamphlets
- menus
- signs written in the specific language
- international signage, such as 'No Smoking' signs.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral testing of conversational language use (note: this should not be the sole method of assessment)
- direct observation of the candidate communicating in a language other than English in a customer service environment while undertaking typical workplace activities
- review of visual aids prepared by the candidate to assist verbal communication
- written and oral questioning or interview to test knowledge of the culture, social and cultural conventions and cross-cultural communication requirements associated with the language
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHACS001B Provide accommodation reception services
- SITHFAB002C Operate a bar
- SITHFAB004A Provide food and beverage service

- SITXCCS001B Provide visitor information.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

The relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Routine communications may include:

- dealing with customers and colleagues on the telephone
- taking a message
- accepting a simple booking
- explaining a menu or wine list
- taking an order
- processing payment of an account or restaurant bill
- providing simple information about guiding services, timetables, menus, signage, rules, check-out times and availability of tours
- responding to basic requests for such things as toiletries, towels, razor, hairdryer, blanket, pillow, laundry list, 'Do Not Disturb' sign and breakfast menu
- processing purchase of souvenir products
- processing payment for a tourism service, e.g. day tour, accommodation or ticket
- references to timetables, signage and basic rules, such as opening hours.

Courtesy expressions may

- Good Morning

include:

- How are you?
- Goodbye
- May I help you?
- This way please
- Would you like a newspaper?
- Did you have a good trip?
- May I clean your room now?
- Do you need another towel?
- Sorry, I don't understand. Do you speak English?

Topical and familiar matters may include:

- public holidays and festivals
- celebrations
- sporting or cultural events
- deaths or marriages
- strikes or accidents
- demonstrations
- elections
- weather conditions.

Communicate must include:

- listening and understanding requests and comments
- providing factual information, such as:
- location of specific facilities, such as attractions and shopping centres
- opening and closing hours
- procedures and rules, such as check-in and tour pick-up
- availability and cost of products and services
- conducting product and service transactions
- answering simple queries about products and services, including:
- in-house facilities
- local attractions and places of interest
- shopping centres
- tour desk
- pick-up and drop-off point for tours
- transport terminals, and taxi and other transport services
- responding to requests for factual information and simple advice within scope of responsibility.

Workplace materials and visual information may include:

- signs, maps, diagrams, forms, labels and tickets
- pamphlets, timetables, charts, price tags and menus
- hotel information signs and tags printed in the target language to assist where necessary
- pamphlets written in the specific language
- menus written in the specific language
- signs written in the specific language
- international signage, such as 'No Smoking' signs.

Simple directions and instructions may include:

- how to get to restrooms, car park, restaurant, bistro, bar, pool or gym
- how to get to tour pick-up point
- how to use key to open hotel room and operate lights
- how to use telephone
- basic details of guided tours
- house rules
- how the hotel laundry service operates
- how facilities work, such as alarm clock, safe, air conditioning and maid service
- where facilities are located, such as attractions and rides at a theme park, and general transport
- where to go to catch a tour bus or taxi
- where to go to purchase everyday goods, such as medication and sunscreen
- where to go to purchase everyday services, such as post office and tour services
- advising check-in and check-out procedures and times.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Converse with customers and colleagues.	1.1 Use appropriate ***courtesy expressions to extend interactions*** by references to customers' and colleagues' wellbeing, comfort and satisfaction.
	1.2 Use non-verbal communication to convey an acceptance of and sensitivity towards customers or colleagues.
	1.3 Provide any required appropriate information about personal job roles and responsibilities.
	1.4 Provide explanations of problems and their cause, and elaborate on detail and offer apologies when required.
	1.5 Offer further assistance according to the business of the workplace to ensure full service is provided.
	1.6 Courteously request further information from customers or colleagues in order to satisfy their needs.
	1.7 Provide full and clear information to customers and colleagues.
	1.8 Support communication with comments on topical familiar matters, workplace business and events.
2 Provide detailed information and advice.	2.1 Identify and understand the need for ***detailed information and advice***.
	2.2 Convey detailed information and advice using narrative and descriptive statements as necessary to ***communicate***.
	2.3 Repeat, paraphrase and clarify all communications to avoid misunderstanding and to explain difficult points.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.4 Use ***workplace documents***, ***materials and other references*** to support explanations if required.
3 Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others in order to better respond to the situation or problem. 3.3 Accurately identify the nature and key facts of any problems and provide an appropriate solution by consulting and openly communicating with appropriate parties. 3.4 Respond to all conflicts and complaints with sensitivity and in keeping with the social and cultural conventions of the specific language speaker. 3.5 Convey appropriate apologies and expressions of regret for the situation and the specific language and culture.
4 Conduct negotiations at a functional level.	4.1 Facilitate exchange of ***negotiations at a functional level*** through key information and agreement on details, including personnel, dates, quantities, products and services. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- cross-cultural communication skills to participate in non-routine and varied communication situations
- communication and interpersonal skills to allow for positive and courteous interactions with customers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- positive and effective verbal and non-verbal communicative and interactive techniques to establish rapport, provide detailed information and advice, be responsive to customers and deal with the needs of a particular workplace relevant to the language being assessed
- problem solving and conflict resolution techniques.

The following knowledge must be assessed as part of this unit:

- key information and information sources relating to the particular tourism or hospitality circumstance
- key information and standard procedures specific to negotiating in relation to operations and functions in a particular workplace

social and cultural conventions specific to the language being assessed, including knowledge and some consistent use of forms of address and appropriate recognition and consideration of customs, protocols and taboos.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

There are three critical considerations for the assessment of this unit.

- This unit can be used to assess basic oral proficiency in any language other than English. Assessment must be customised to the requirements of a particular language.
- Assessment should not only focus on the language being assessed but must also incorporate the practical customer service requirements of the tourism or hospitality industry, i.e. the assessment of language must be conducted while the candidate is carrying out typical tourism or hospitality vocational activities.
- This unit can apply to any tourism and hospitality sector, workplace and circumstance. Assessment activities must ensure that the use of a specific language is contextualised and linked to vocational activities which are relevant to the particular tourism or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

hospitality sector and workplace. For example, if assessment is linked to restaurant service, language usage should relate to a restaurant.

Evidence of the following is essential:

- ability to use a range of extended non-verbal communication skills effectively, as well as verbal skills such as narrative and descriptive statements
- ability to use repetition, clarification and paraphrasing techniques to clarify requirements, solve problems and conflict, and reassure customers and colleagues
- ability to communicate constructively and sensitively in a language other than English to solve problems and conflict, and reassure customers and colleagues in a particular workplace.

Context of and specific resources for assessment

Assessment must ensure:

- operational conditions of a tourism or hospitality customer service environment
- that the person being assessed is undertaking typical tourism or hospitality workplace activities, such as providing first aid, selling tourism products and services, organising functions, providing site information and assistance, and processing reservations while using the language being assessed
- provision of services to customers within typical workplace time constraints
- use of relevant and current tourism and hospitality materials and equipment, such as timetables, brochures, menus, tour desks, reservations and restaurant equipment
- use of resources commonly used to assist workplace communication, including:
- dictionaries
- maps
- pamphlets
- menus
- tour brochures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral testing of conversational language use (note: this should not be the sole method of assessment)
- direct observation of the candidate communicating in a language other than English in a customer service environment while undertaking typical workplace activities
- review of workplace documents prepared by the candidate to assist verbal communication
- written and oral questioning or interview to test knowledge of the requirements of the language; the culture, and social and cultural conventions; and cross-cultural communication requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHFAB013A Provide specialist advice on food
- SITTTSL005A Sell tourism products and services
- SITTTSL007B Receive and process reservations
- SITXCOM003A Deal with conflict situations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Courtesy expressionsto extend interactions may relate to:	• questioning about needs and preferences • conversations about topical matters • offers of additional assistance.
Detailed information and advice may relate to:	• workplace and local facilities, locations, guiding, activities and events • roles and responsibilities of support personnel • food and beverage products and services • functions, meetings and event services • tourism products and services • workplace health and security • shopping locations, including post office • medical and emergency services • timetables and itineraries.
Communicate must include:	• providing information about the workplace • conducting product and service transactions • answering queries about products and services • providing specialised assistance within the scope of responsibility.
Workplace documents, ***materials and other references*** may include:	• brochures, magazines, newspapers and price lists • signs, maps, diagrams, forms, labels and tickets • pamphlets, timetables, charts, price tags and menus • tour documentation and tickets • booking conditions • invoices.
Unpredictable situations and problems may include:	• lost luggage and stolen property • lost people • delays to vacation schedule, and changes and errors in itinerary • service quality issues, such as special dietary needs and dissatisfaction with room, room service or food

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- medical emergencies and minor injuries
- breaches in security and workplace health and safety rules
- non-functioning equipment
- lack of other guests' awareness and knowledge of social and cultural conventions.

Negotiations at a functional level may relate to arrangements for:

- conferences and functions
- tours, guiding, cruises and visits to theme parks
- accommodation
- restaurant services, including food and beverage
- entertainment and shopping.

SITXLAN4A Conduct complex workplace oral communication in a language other than English

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct complex, creative, routine and non-routine communication in a language other than English in tourism and hospitality workplace activities. It involves very effective and fluent communication in all listening and speaking skills with the ability to conduct negotiations, present information and participate in social and cultural activities at a high level of complexity and fluency. It is not intended to reflect the skills of a professional interpreter. This unit can be used for training delivery and assessment of complex oral proficiency in any language other than English. There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

This unit is the fourth in a hierarchical set of four units dealing with oral communication and cultural skills in a language other than English, ranging from entry to fluency and increasing in complexity with the level of linguistic and cultural ability. These units do not align with Australian Qualifications Framework (AQF) levels and do not include interpreting or translating, which are higher-level specialist skills.

Application of the Unit

Application of the unit

This unit applies to individuals working in any industry context and at many different levels of responsibility. Frontline, supervisory or management personnel may use the language skills described in this unit.

This unit may be customised for training delivery and assessment of proficiency in any language.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

However, for reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry.

A specific code has been allocated for each of these languages, as detailed below. In addition, each language must be indicated in brackets after the unit title.

For example: SITXLAN412A Conduct complex workplace oral communication in a language other than English (Japanese).

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Conduct negotiations.	1.1 Establish rapport by using appropriate courtesy protocols, identifying common ground and observing appropriate social, cultural and business conventions of the specific language.
	1.2 Provide appropriate explanations, information and supporting details about products or services.
	1.3 Use an appropriate range of language functions to conduct ***negotiations***, including introducing formal talk, using turn-taking skills, and agreeing and disagreeing tentatively.
	1.4 Use appropriate intonation, voice tone and signalling expressions effectively.
	1.5 Exchange and agree to information, including details of personnel, dates, quantities, products and services.
	1.6 Support negotiations by using any relevant visuals, graphics and other approaches in keeping with the requirements of a particular workplace.
2 Deliver presentations.	2.1 Deliver ***presentations*** in a style relevant to the purpose and objectives, audience characteristics, occasion and venue.
	2.2 Present information in a logical and concise manner using appropriate sequencing and linguistic linking.
	2.3 Support presentations with relevant ***public speaking***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	techniques.
3 Participate in social and cultural activities.	3.1 Use language and language functions appropriate to given ***social and cultural activities***.
	3.2 Adapt and modify communication strategies and language functions according to the situation and customer requirements.
4 Provide oral translations and summaries.	4.1 Recognise the need for a professional interpreter to ensure that ***oral translations and summaries*** meet the needs of the customer and arrange for assistance, as required.
	4.2 Express the purpose and meaning of the original message.
	4.3 Use communication strategies and language functions that allow immediate and unhindered communication.
	4.4 Make appropriate comments between parties to check and clarify meaning.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- oral skills using language functionssuch as presenting, questioning and negotiating, and a sufficiently comprehensive vocabulary to conduct a range of workplace activities in a specific language in a particular workplace
- skills to provide oral translations and summaries that support immediate and unhindered communication
- appropriate oral expression and vocabulary to conduct negotiations, make presentations and participate in varied social and cultural activities
- problem solving and conflict resolution techniques
- cross-cultural communication skills in relation to the language being assessed and the associated culture, in order to undertake the full range of social and workplace activities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- comprehensive technical vocabulary required to support specific workplace activities
- knowledge and use of standard procedures specific to the particular workplace
- key information and information sources in relation to operations and functions in a particular tourism or hospitality workplace
- key information and standard procedures specific to negotiating in a particular workplace
- comprehensive knowledge and application of social, business and cultural conventions specific to the language being assessed, including:
- sound knowledge and some consistent use of forms of address
- customs, protocols and taboos.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

There are three critical considerations for the assessment of this unit:

- This unit can be used to assess basic oral proficiency in any language other than English. Assessment must be customised to the requirements of a particular language.
- Assessment should not only focus on the language being assessed but must also incorporate the practical customer service requirements of the tourism or hospitality industry, i.e. the assessment of language must be conducted while the candidate is carrying out typical tourism or hospitality vocational activities.
- This unit can apply to any tourism and hospitality sector, workplace and circumstance. Assessment activities must ensure that the use of a specific language is contextualised and linked to vocational activities which are relevant to the particular tourism or hospitality sector and workplace. For example, if assessment is linked to restaurant service, language usage should relate to a restaurant.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Evidence of the following is essential:

- ability to interact, establish and maintain rapport with customers in a language other than English
- use of a range of language functions appropriate to negotiating in the workplace, conducting presentations, and participating in social and cultural activities according to the needs of a particular workplace (rare linguistic errors may occur)
- ability to use a range of extended non-verbal communication skills effectively, as well as verbal skills such as narrative and descriptive statements
- ability to use repetition, clarification and paraphrasing techniques to clarify requirements, solve problems and conflict, and reassure customers and colleagues.

Context of and specific resources for assessment

Assessment must ensure:

- operational conditions of a tourism or hospitality business environment
- that the person being assessed is undertaking typical tourism or hospitality workplace activities, such as making presentations, presenting tour commentary, selling tourism products and services, or dealing with complex issues while using the language being assessed
- use of relevant and current tourism and hospitality materials and equipment, such as brochures, menus, presentation equipment and microphones for commentary delivery.
- use of resources commonly used to assist workplace communication, including:
- maps
- pamphlets
- tour brochures
- cost sheets
- rate information.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral testing of conversational language use (note: this

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

should not be the sole method of assessment)
- direct observation of the candidate communicating in a language other than English
- review of role-play activities that simulate simultaneous language use and customer service activity
- written and oral questioning or interview to test knowledge of the functions of the language, culture, social and cultural conventions and cross-cultural communication requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITTGDE004A Lead tour groups
- SITTGDE006A Prepare and present tour commentaries or activities
- SITXCOM005A Make presentations
- SITXMGT006A Establish and conduct business relationships.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

The relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Negotiations may be conducted in relation to:	• formal contracts for provision of conference services, meeting and event activities and venues, tour and guiding services, accommodation and international marketing activities • business arrangements involving tours, travel arrangements, restaurant, food and beverage services, entertainment and shopping • selling tourism products and services and agreeing to a price • agreeing to a purchase price from a supplier • solving customer or colleague complaints or resolving conflict.
Presentations may include:	• guiding and interpreting activities • presentations at conferences • meetings and sales presentations • instructing and training • promotional activities • providing complex information on products and services.
Public speaking techniques may include:	• humour • non-verbal communication • audience participation • demonstrations and visual aids.
Social and cultural activities may include:	• formal and informal meetings • interacting with tourists • conferences, presentations, meetings and seminars • trade fairs, promotions, marketing activities and business tours • international meetings and exhibitions • promotional tours • staff professional development activities relevant to the specific language and culture • accompanying customers or colleagues to dinner • workplace-related social activities.
Oral translations and	• factual and personal information

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

summaries may include providing translations of:

- instructions and arrangements
- information about meetings, events, tours and places of interest
- information about products, services, facilities, options, advice and costs.

SITXLAN5A Read and write workplace information in a language other than English

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in diverse language scripts to respond to customer needs. It covers routine and non-routine activities such as writing letters and brief workplace reports, and using a range of commonly used workplace documents such as emails, faxes, letters and brochures. This unit can be used for training delivery and assessment of reading and writing proficiency in any language, other than English. There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

This unit is the first in a hierarchical set of two units dealing with reading and writing in a language other than English, ranging from entry to fluency and increasing in complexity with the level of linguistic ability. These units do not align with Australian Qualifications Framework (AQF) levels and do not include interpreting or translating, which are higher-level specialist skills.

Application of the Unit

Application of the unit

This unit applies to individuals working in any industry context and at many different levels of responsibility. Frontline, supervisory or management personnel may use the language skills described in this unit.

This unit may be customised for training delivery and assessment of proficiency in any language.

However, for reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Read and understand workplace documents.	1.1 Read and understand ***routine and non-routine workplace documents***.
	1.2 Use and interpret any accompanying ***visual information*** to support comprehension.
	1.3 Identify main ideas, key facts and requirements.
	1.4 Identify and take into account tone and purpose of document.
	1.5 Act upon information and respond to requests, seeking assistance where required.
2 Write simple routine workplace documents.	2.1 Accurately prepare ***simple workplace documents*** using key words, phrases, simple sentences and visual aids where appropriate.
	2.2 Clearly and accurately convey main ideas, key facts and details in the written text.
	2.3 Write key information in the appropriate places in standard forms to enable the completion of ***routine tasks***.
	2.4 Provide clear and easy to follow ***written directions and instructions*** in a correctly ordered sequence.
	2.5 Support written communication with the use of appropriately sequenced expressions and questions that help define or clarify the goal.
	2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.7 Provide written responses to documents in an appropriate form and tone.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- reading comprehension skills to identify the document purpose, main idea, key issues and facts, writer attitude and mood, type of response and action, and to recognise when further assistance in translating may be required
- cross-cultural communication skills to avoid writing workplace information that may cause offence.

The following knowledge must be assessed as part of this unit:

- linguistic knowledge required to write workplace documents in a language other than English, including structure and other specific language features such as vocabulary, sentence structure, grammar, spelling and punctuation conventions

awareness and limited application of social, workplace and cultural conventions and protocols in relation to the culture and language being assessed.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	There are three critical considerations for the assessment of this unit. • This unit can be used to assess basic oral proficiency in any language other than English. Assessment must be

EVIDENCE GUIDE

customised to the requirements of a particular language.

- Assessment should not only focus on the language being assessed but must also incorporate the practical customer service requirements of the tourism or hospitality industry, i.e. the assessment of language must be conducted while the candidate is carrying out typical tourism or hospitality vocational activities.
- This unit can apply to any tourism and hospitality sector, workplace and circumstance. Assessment activities must ensure that the use of a specific language is contextualised and linked to vocational activities which are relevant to the particular tourism or hospitality sector and workplace. For example, if assessment is linked to restaurant service, language usage should relate to a restaurant.

Evidence of the following is essential:

- reading comprehension skills to understand and identify the document purpose, main ideas, key issues, facts, attitude and mood in written texts in the specific language (some use of a dictionary may be made but infrequently)
- appropriate linguistic knowledge and skills to communicate meaning effectively when writing documents relevant to the specific language in a particular workplace (some errors may occur in writing, provided facts are not distorted and meaning is clear)
- ability to understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations, in order to respond or take action according to the business of a particular workplace
- ability to read and write the script relating to routine workplace information needs in a particular language (including alphabet, syllable and character-based languages) specific to the business requirements of a particular workplace.

Context of and specific resources for assessment

Assessment must ensure:

- operational conditions of a tourism or hospitality customer service environment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- that the person being assessed is undertaking typical tourism or hospitality workplace activities such as providing quotations, issuing itineraries and vouchers, issuing letters, processing reservations while reading and writing in the language being assessed
- provision of services to customers within typical workplace time constraints
- use of relevant and current tourism and hospitality materials and equipment, such as timetables, brochures, rate schedules and menus
- use of relevant and current office equipment such as computers, faxes and email facilities
- use of resources which would be commonly used to assist workplace written communication, including:
- dictionaries
- maps
- pamphlets
- menus
- tour brochures.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- written testing of written language use (note: this should not be the sole method of assessment)
- written and oral questioning or interview to test the candidate's ability to read and interpret workplace documents written in a language other than English in a customer service environment
- review of samples of written communications translated by the candidate
- review of samples of workplace written communications prepared by the candidate
- review of project activities that simulate the application of reading and writing in a customer service activity
- written and oral questioning or interview to test knowledge of the culture, social and cultural conventions and cross-cultural communication requirements associated with the language
- written and oral questioning or interview to test linguistic knowledge, generic structure and other specific language features, such as vocabulary and

EVIDENCE GUIDE

	sentence structure • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITTTSL006B Prepare quotations • SITTTSL009B Process travel-related documentation.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Routine and non-routine workplace documents required to be read and understood include:	• emails, memos and faxes • brochures and promotional material • menus and wine lists • schedules and itineraries • formal and informal letters • reservation and booking information • simple reports, such as progress and incident reports • conference programs and signage • visual and graphic materials.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Visual information may include:	• signs • maps • diagrams • forms • labels • tickets.
Simple workplace documents may include:	• emails, memos and faxes • letters of enquiry and complaint • letters to customers • thank you letters and invitations • response to requests for routine information • covering letters • brief reports on events, negotiated arrangements, offers and opportunities.
Routine tasks must relate to:	• providing factual information on the workplace • conducting simple product and service transactions • answering queries about products and services • responding to requests for general assistance and factual information within the scope of responsibility.
Written directions and instructions may include:	• general information on workplace health and safety rules • how to use simple equipment.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Read and interpret workplace documents.	1.1 Read and fully understand ***workplace documents***, including information and details, ideas (both explicit and implied), technical information and writer requirements.
	1.2 Correctly interpret any accompanying visual and graphics material.
	1.3 Correctly understand the culturally-specific meaning contained in documents.
2 Provide informal written translations.	2.1 Capture and accurately convey nuances of meaning, in ***written translations and summaries***.
	2.2 Convey ideas accurately taking into consideration cultural differences.
	2.3 Lose no meaning and embed no extra meaning in the written translation provided.
	2.4 Provide any required additional explanation or comments to clarify meaning, especially about culturally-specific details.
	2.5 Recognise ***documents requiring professional translation*** and arrange for assistance if required.
3 Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats appropriate to particular workplace requirements and circumstances.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.2 Ensure the content of written documents is appropriate to audience and purpose.
	3.3 Develop ideas in appropriate depth to meet the requirements of the particular context.
	3.4 Tailor language to meet varying requirements of the workplace or situation.
	3.5 Observe social and cultural conventions when writing workplace documents.
	3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- reading skills to allow understanding and accurate interpretation of information which may include some complex ideas and concepts
- language skills to allow writing of documents that require clear and fluent expression of information and ideas with appropriate structuring of texts and language tailored to requirements of a range of workplace situations
- cross-cultural communication skills related to written documents.

The following knowledge must be assessed as part of this unit:

- standard formats and protocols for a range of typical workplace documents appropriate to the industry sector and particular language
- sound knowledge of social, workplace and cultural conventions in a range of written documents specific to the language being assessed.

Evidence Guide

EVIDENCE GUIDE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

There are three critical considerations for the assessment of this unit.

- This unit can be used to assess basic oral proficiency in any language other than English. Assessment must be customised to the requirements of a particular language.
- Assessment should not only focus on the language being assessed but must also incorporate the practical customer service requirements of the tourism or hospitality industry, i.e. the assessment of language must be conducted while the candidate is carrying out typical tourism or hospitality vocational activities.
- This unit can apply to any tourism and hospitality sector, workplace and circumstance. Assessment activities must ensure that the use of a specific language is contextualised and linked to vocational activities which are relevant to the particular tourism or hospitality sector and workplace. For example, if assessment is linked to restaurant service, language usage should relate to a restaurant.

Evidence of the following is essential:

- reading and writing a typical range of workplace documents required to fulfil a given job role in the relevant industry sector
- accurate strategic interpretations and translations of documents
- language skills to write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and workplace situation (rare linguistic errors may occur).

Context of and specific resources for assessment

Assessment must ensure:

- operational conditions of a tourism or hospitality business environment
- that the person being assessed is undertaking typical tourism or hospitality workplace activities, such as providing quotations, issuing itineraries and vouchers,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

issuing letters, and preparing business documents while reading and writing in the language being assessed
- provision of services to customers within typical workplace time constraints
- use of relevant and current tourism and hospitality materials and equipment, such as timetables, brochures, rate schedules and menus
- use of relevant and current office equipment, such as computers, faxes and email facilities
- use of resources commonly used to assist workplace written communication, including:
- dictionaries
- maps
- pamphlets
- menus
- tour brochures.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- written testing of written language use (note: this should not be the sole method of assessment)
- written and oral questioning or interview to test the candidate's ability to read and interpret workplace documents written in a language other than English in a tourism or hospitality environment
- review of samples of written communications translated by the candidate
- review of samples of workplace written communications prepared by the candidate
- written and oral questioning or interview to test knowledge of the culture, social and cultural conventions and cross-cultural communication requirements associated with the language

- written and oral questioning or interview to test linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the

EVIDENCE GUIDE

	candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITTTSL006B Prepare quotations • SITTTSL009B Process travel-related documentation • SITXADM003A Write business documents.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Workplace documents to be read and informally interpreted may include:	• brochures and promotional material • notes, written requests and information • schedules and itineraries • formal letters • reservation and booking information • conference and seminar papers • meeting agendas • reports • manuals and instructions • internet information • quotations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Written translations and summaries may relate to:	• factual and personal information • instructions and arrangements • information about meetings, events, tours, places of interest and special facilities • information about products, services, facilities, options, advice and costs.
Documents requiring professional translation may include:	• complex proposals, submissions and tenders • complex contractual documents.
Written workplace documents may include:	• notes, written requests and information • schedules and itineraries • formal and informal letters • reservation and booking information • promotional material • menus • simple conference and seminar papers • meeting agendas • simple reports • simple manuals • internet communication • quotations.

SITXMGT001A Monitor work operations

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to oversee and monitor the quality of day-to-day work operations within a tourism or hospitality context. As such it includes fundamental knowledge of management roles and responsibilities.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to individuals responsible for the monitoring of day-to-day work operations in any tourism or hospitality context. It requires the application of problem-solving, communication and short-term planning and organisational skills with a heavy operational focus. These skills are underpinned by sound knowledge of management roles and responsibilities and detailed understanding of operational issues in the given work context.

Team leaders, supervisors or managers undertake this role.

Licensing/Regulatory Information

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Monitor and improve workplace operations.	1.1 Monitor efficiency and service levels on an ongoing basis through close contact with day-to-day operations. 1.2 Ensure that workplace operations support overall organisation goals and ***quality assurance initiatives***. 1.3 Identify quality problems and issues promptly and make appropriate adjustments, with relevant approvals. 1.4 Adjust ***procedures and systems*** in consultation with colleagues to improve efficiency and effectiveness.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.5 Proactively consult with colleagues about ways to improve efficiency and service levels, including potential for new technologies.
	1.6 Provide feedback to colleagues and management to inform future planning.
	1.7 Identify and take opportunities to evaluate current and emerging industry trends and practices for relevance to own work situation.
2 Plan and organise workflow.	2.1 Assess current workload of colleagues accurately.
	2.2 Schedule work in a manner that enhances efficiency and customer service quality.
	2.3 Delegate work to appropriate people according to ***principles of delegation***.
	2.4 Assess workflow and progress against agreed objectives and timelines.
	2.5 Assist colleagues in prioritisation of workload through supportive feedback and coaching.
	2.6 Provide timely input to appropriate management regarding staffing needs.
3 Maintain workplace records.	3.1 Complete ***workplace records*** accurately and submit within required timeframes.
	3.2 Where appropriate, delegate and monitor completion of records prior to submission.
4 Solve problems and make decisions.	4.1 Identify ***workplace problems*** promptly and analyse from an operational and customer service perspective.
	4.2 Initiate short-term action to resolve the immediate problem where appropriate.
	4.3 Analyse problems for any long-term impact, and assess and action potential solutions in consultation with relevant colleagues.
	4.4 Where a team member raises a problem, encourage the individual's participation in solving it.
	4.5 Take follow-up action to monitor the effectiveness of solutions in the workplace.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- problem-solving skills to anticipate and respond to a wide range of unpredictable problems and situations at an operational level
- communication and leadership skills to provide positive support to a team
- literacy skills to interpret and develop wide-ranging workplace documentation
- numeracy skills to develop schedules and timelines.

The following knowledge must be assessed as part of this unit:

- leadership and management roles and responsibilities within the relevant industry sector
- key concepts of quality assurance and how it is managed and implemented in the workplace
- typical work organisation and work planning methods appropriate to the industry sector
- time management principles and their application to leaders and managers
- principles of effective delegation
- problem-solving and decision making processes and techniques and their application to typical workplace issues
- features of relevant record-keeping systems appropriate to the industry sector
- industrial or legislative issues that affect short-term work organisation appropriate to the industry sector.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to	Evidence of the following is essential: • ability to monitor effectively and respond to a range of

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Define planning needs.	1.1 Assess ***operational planning needs*** based on monitoring of workplace needs and identification of opportunities for improvement and innovation. 1.2 Define scope and objectives of the required initiative based on organisation goals, and staff and customer feedback. 1.3 Identify and analyse ***internal and external factors*** that may impact on the development of the operational plan.
2 Develop operational plan.	2.1 Develop operational plan clearly identifying all priorities, responsibilities and timelines. 2.2 Integrate appropriate and financially-sound ***resource strategies***. 2.3 Develop ***administrative framework and systems*** capable of supporting the planned initiative.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.4 Consult ***appropriate colleagues*** during the development of the plan.
	2.5 Develop ***evaluation systems*** in consultation with appropriate colleagues.
	2.6 Initiate an internal and external communications strategy to keep all stakeholders informed.
3 Administer and monitor operational plans.	3.1 Implement and monitor identified actions according to agreed priorities.
	3.2 Provide ***support and assistance*** to colleagues involved in implementing the plan.
	3.3 Provide progress and other reports according to organisation requirements.
	3.4 Make assessment of the need for additional resource requirements and take appropriate action according to organisation policy.
4 Conduct ongoing evaluation.	4.1 Use agreed evaluation methods to assess effectiveness in the workplace.
	4.2 Involve appropriate colleagues in the evaluation.
	4.3 Identify problems and make adjustments accordingly.
	4.4 Incorporate the results of evaluation into ongoing planning and operational management.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research skills to source and analyse a broad range of information on varying issues from multiple sources
- problem-solving and contingency management skills to address a broad range of operational issues at a management level

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- planning and organisational skills to implement and monitor the operational plan
- literacy skills to interpret and develop documents dealing with complex issues and ideas
- communication skills to consult colleagues through clear and direct communication
- numeracy skills to develop and monitor financial aspects of the operational plan.

The following knowledge must be assessed as part of this unit:

- key planning concepts and techniques, including the structure of plans and steps in the planning process
- current internal and external environments that impact on planning within the organisation or industry sector
- typical issues that arise in the implementation of plans, and strategies to address these

legal issues appropriate to the industry sector that affect organisation operations.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to develop an operational plan for a specific workplace context that identifies current and relevant industry and organisation issues and includes clear action plans and evaluation mechanisms • management skills demonstrated through effective implementation of the plan, including the ability to respond to changing circumstances encountered in the implementation phase • knowledge and understanding of current legal issues and industry issues affecting general operations within the sector • project or work activities conducted over an operationally realistic period of time so that the planning, evaluation and monitoring aspects of this unit can be assessed.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Context of and specific resources for assessment	Assessment must ensure: • involvement of multiple stakeholders to ensure consultation processes are included.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • evaluation of a plan prepared by the candidate as well as an evaluation of the implementation and evaluation phase to assess ongoing monitoring • evaluation of reports prepared by the candidate detailing the plan, how the planning process was undertaken, the ways in which implementation and evaluation of the plan were carried out and the lessons learned to inform future project planning • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Operational planning needs may relate to any plan required to support day-to-day workplace operations, such as:

- introduction of a new product
- staff reorganisation
- impacts of marketing initiatives or campaigns
- office relocation or refurbishment
- upgrading of facilities
- changes in work practices or procedures
- business expansion or contraction
- introduction of new systems.

Internal and external factors to be analysed may include:

- capabilities and resources, including:
  - human resources
  - financial resources
  - equipment capacity
  - staff skill levels
  - hours of operation
  - communication capabilities
  - location and position
- trends and developments in the marketplace, including:
  - economic
  - ecological and environmental
  - government activities
  - social and cultural
  - demographic
  - technological
  - industrial
- comparative market information, including:
  - best practice information
  - benchmarking
  - competitor information
- legal and ethical constraints, including:
  - legislation
  - regulation
  - codes of practice
  - cultural expectations and influences

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• social responsibilities, such as protection of children and environmental issues.
Resource strategies may relate to:	• human • financial • physical.
Administrative framework and systems may include:	• dedicating staff to the planned initiative • establishing communication protocols • developing supporting documentation or resources • regular meetings about the initiative.
Appropriate colleagues may include:	• team members • suppliers • other management • staff in other departments • staff in external organisations.
Evaluation systems may be qualitative or quantitative and may relate to:	• sales figures and targets • occupancy levels • customer or staff feedback • productivity gains.
Support and assistance may include:	• informal coaching and feedback • making additional resources available • formal training opportunities • representing colleagues in the wider environment • ensuring effective internal and external communication.

SITXMGT003A Manage projects

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to manage all aspects of a complex project, including project planning, monitoring and evaluation.

The project administration skills required by operational staff are found in the Business Services Training Package.

Application of the Unit

Application of the unit

This unit applies to individuals who are responsible for the overall management of complex projects in the context of a broader job role. Specialist project management units and qualifications are found in the Business Services Training Package.

In the context of this unit a complex project is defined as a project that involves:

- need for a comprehensive and multifaceted project plan
- need for a formal internal or external communications strategy
- dedicated and diverse project budget
- multiple administrative components
- multiple operational components
- wide range of stakeholders
- project operations team.

Project management occurs across the full spectrum of business and community activity and may be extremely diverse in nature. Some examples where project management will occur include events, product development initiatives, research projects and projects related to the introduction of new workplace systems or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

technologies.

Senior personnel and managers undertake project management at this level.

Licensing/Regulatory Information

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Confirm project.	1.1 Confirm ***project objectives and scope*** in consultation with appropriate ***stakeholders***.
	1.2 Evaluate financial viability of project through analysis of ***key factors***.
	1.3 Determine and develop a resource strategy for project.
	1.4 Confirm ***administrative structure*** for project.
2 Plan project.	2.1 Develop an integrated ***project management plan*** using appropriate ***project management tools*** and communicate plan to appropriate colleagues.
	2.2 Allocate project responsibilities in agreement with others, and clearly communicate responsibilities to all involved.
	2.3 Identify ***key project milestones*** and communicate these to persons involved.
	2.4 Plan internal and external communications and ***public relations and marketing approaches*** together with appropriate colleagues.
	2.5 Consult and reach agreement on suitable project ***evaluation methods***.
3 Administer and monitor project.	3.1 Implement project strategies and monitor them in conjunction with project team members.
	3.2 Provide ***support and assistance*** to team members as required.
	3.3 Use effective interpersonal communication to build trust and respect within the project team.
	3.4 Assess progress against project goals and review progress in consultation with project team members.
	3.5 Determine the need for additional project resources and take action accordingly.
	3.6 Implement ***financial control systems*** and monitor them according to project guidelines.
	3.7 Provide regular reports on project progress to appropriate colleagues and customers.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.8 Complete the project within agreed timelines.
4 Evaluate project.	4.1 Assess effectiveness of project at specified stages, using agreed ***evaluation methods***.
	4.2 Take account of agreed goals and priorities when carrying out a project evaluation.
	4.3 Involve project team members, appropriate colleagues and customers in the project evaluation.
	4.4 Incorporate evaluation results into ongoing project management.
	4.5 Share information from project evaluation with appropriate colleagues and incorporate information into future planning.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- planning and organisational skills to allow for the complete management of a complex project and all its facets
- problem-solving skills to allow for the development of contingency management plans and to anticipate a wide range of unpredictable problems and operational challenges
- communication and leadership skills to lead and motivate a project team effectively, and to liaise and negotiate with a wide range of diverse stakeholders
- literacy skills to interpret and develop a wide range of documentation dealing with complex ideas and management issues
- numeracy skills to manage budgets.

The following knowledge must be assessed as part of this unit:

- project management processes, the project life-cycle and relationship between project stages
- administrative structures and processes required for successful project planning and implementation, including the range of documentation required to support the project

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- in-depth knowledge of nature of the project being managed, including internal and external issues to be considered
- risk management processes and issues applicable to project in general and to projects in a particular workplace context
- OHS requirements that may impact on project management
- project planning and control procedures.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to effectively plan, administer, monitor and evaluate a tourism or hospitality-based project, including evidence of skills in planning, administration, financial management and leadership • ability to apply understanding of the critical aspects of effective project management • management of a multifaceted, complex industry-based project that reflects real industry practice and is completed within a specified timeframe.
Context of and specific resources for assessment	Assessment must ensure: • involvement of a project team for whom the candidate is a leader.
Methods of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • project to plan an event or function • project to undertake a reform or redevelopment of a work aspect • written or oral questions to assess underpinning

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

knowledge related to project management
- review of portfolios of evidence relating to workplace experience, such as project plans, budgets, records of coordination and implementation of project phases and milestones, records of project reports.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Project objectives and scope may relate to:

- overall business objectives
- community or industry development objectives
- specific outcomes required
- levels of resourcing to be applied
- how project relates to other internal and external projects and activities.

Stakeholders may include:

- internal or external customers
- organising committees
- management
- funding bodies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• regulatory authorities • industry associations.
Key factors to determine financial viability of the project may include:	• availability of short and long-term funding • cash flow issues • market feasibility • level of financial risk involved • cost-benefit analysis • impact on other aspects of operation • break-even points and profitability.
Administrative structure for the project may involve:	• management • secretariat • consultants • contractors and suppliers • steering committee • advisory and reference groups • consultative groups.
Project management plan may include:	• goals and outcomes • selection or tendering process • personnel • budget • stages • timeframes • key milestones • internal and external communication processes and channels • sponsors • risk management and contingency plans • quality assurance • consultation strategies • reporting requirements • marketing.
Project management tools may include:	• project management software • planning tools, such as PERT and Gantt charts, and critical path.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Key project milestones may relate to:	• stages • outcomes • reporting requirements.
Public relations and marketing approaches are those directly relevant to the project, including:	• providing advice and information to clients, funding bodies and stakeholders • developing and publishing reports • developing and distributing brochures, flyers and other marketing materials • communicating to public and stakeholders via mass media.
Evaluation methods may be internal or external and may include:	• customer and stakeholder feedback • client or funding body evaluation • surveys and questionnaires • pilots and trials • long-term monitoring strategies.
Support and assistance may include:	• informal coaching and feedback • formal training opportunities • moderation and joint planning sessions • regular meetings and briefings • representing the team's interests in wider forums • additional resources.
Financial control systems may include:	• established organisational systems • project-specific systems.

ELEMENT	PERFORMANCE CRITERIA
	document their strengths and weaknesses.
	1.9 Explore the potential for joint ventures and strategic alliances.
2 Formulate business plans and strategies.	2.1 Create or confirm organisation mission, vision and purpose as the starting point for the business plan in consultation with stakeholders.
	2.2 Establish realistic, clearly stated and measurable objectives for the business.
	2.3 Develop appropriate strategies and tactics to address objectives across all ***areas of business operation***.
	2.4 Identify and include opportunities for strategic business alliances.
	2.5 Develop all aspects of the business plan to ensure the business meets relevant ***legal***, ***social***, ***environmental and ethical obligations***.
	2.6 Include appropriate action plans and ***evaluation processes***, including key performance indicators.
	2.7 Consult with appropriate staff, management and other stakeholders to encourage support for the planning process so that all perspectives are taken into account in development of business plan.
3 Implement the business plan.	3.1 Communicate objectives and content of plans in a timely manner to facilitate a clear understanding of the plan, associated activities and individual responsibilities.
	3.2 Use appropriate communication and leadership techniques to encourage a team commitment to the business plan.
	3.3 Encourage staff to provide ongoing input into the business plan.
	3.4 Implement and organise actions detailed in the plan in a cost-efficient manner and according to schedule and contingencies.
4 Monitor the business plan.	4.1 Review the business plan regularly and adjust in light of changing circumstances.
	4.2 Monitor activities using evaluation methods detailed in business plan on an ongoing basis.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4.3 Identify and analyse successes and performance gaps in terms of cause and effect.
	4.4 Implement agreed changes to plans promptly, ensuring timely communication of changes to all stakeholders.
	4.5 Report business plan performance in a transparent manner to all stakeholders.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- research, critical thinking and analytical skills to analyse broad range of issues that impact on business operations
- planning and organisational skills to implement the business plan
- strategic problem-solving skills to review and adjust plans and strategies in light of operational experience
- communication and leadership skills to communicate and implement the business plan
- literacy skills to interpret and develop a wide range of documents dealing with complex ideas and concepts
- numeracy skills to develop budget and take a strategic approach to financial issues.

The following knowledge must be assessed as part of this unit:

- detailed knowledge of business planning techniques and formats
- legal, social, environmental and ethical obligations and compliance issues that affect the relevant industry context or organisation
- detailed knowledge of relevant industry context, including current trends, structures and government policies.

Evidence Guide

EVIDENCE GUIDE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to undertake detailed, thorough and appropriate analyses of both internal and external business environments to provide a sound basis for business planning
- ability to develop and implement an integrated business plan implemented in a tourism or hospitality context
- project or work activities conducted over an operationally realistic period of time to allow the candidate to develop and implement a business plan for a given product or service.

Context of and specific resources for assessment

Assessment must ensure:

- involvement of a key stakeholder group, including customers for the product or service
- access to a commercial or not-for-profit business environment in which the business plan may be implemented.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of a business plan prepared by the candidate to guide the management of a commercial or not-for-profit business activity, as well as evaluation of the resulting performance report also prepared by the candidate
- case studies to develop specific business plans and strategies for selected business activities or projects
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

EVIDENCE GUIDE

Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Stakeholders may include:	• customers • employees • government agencies • owners • suppliers • strategic alliance partners.
Resources and capabilities may include:	• human resources • financial resources • equipment capacity • staff skill levels • hours of operation • communication capabilities • location and position.
Trends and developments may include:	• economic • ecological or environmental

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- government activities
- social and cultural
- demographic
- technological
- industrial.

Areas of business operation that must be included in the business plan are:

- operations
- marketing
- technology
- human resources and labour requirements
- management and organisational structure
- financial plan and projections
- quality management.

Legal, ***social***, ***environmental and ethical obligations*** may include:

- regulatory requirements, such as licensing
- codes of practice
- cultural expectations and influences
- social responsibilities, such as protection of children and environmental issues.

Evaluation processes may include:

- key performance indicators
- gap analysis
- customer feedback
- compliance reports
- employee feedback.

SITXMGT005A Manage business risk

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to actively identify risks to business operations, assess the associated consequences and take measures to eliminate or control the risk. It requires the ability to monitor business risks on an ongoing basis.

This unit focuses on business risk and not on the risk management strategies that a business applies to the management of OHS issues. OHS management practices are covered in separate specialised units.

Application of the Unit

Application of the unit

This unit describes a fundamental business management skill for those working within the service industries and applies to the full range of industry sectors and environments.

A risk to business operations can be faced by any type of organisation, including non-profit businesses, whether they are micro, small, medium or large. Managers within these businesses require skills to ensure the success of the operation, meet budget, minimise losses or ensure a profit, depending on the focus of the activities.

This unit reflects the active participation of any personnel in the identification, assessment and control of risks to business and operational activities. This activity would normally be undertaken by unsupervised senior staff members who have significant responsibility in the workplace, owner-operators and managers. It could also be undertaken by frontline operational personnel who work with some level of autonomy or under limited supervision and guidance from others.

Assessments of business risk are commonly conducted as a team

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

effort and a person achieving competence in this unit could either actively participate in group assessments or could take a lead role in coordinating a group approach.

The assessment and control of risks to business operations could be implemented on many levels within an organisation; a whole of organisation approach or for a particular project or business activity.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify risks to business operations.	1.1 Determine ***operational objectives*** through consultation with ***key people*** and by referring to available ***information sources*** and use this as the basis for identifying, assessing and controlling risks to the organisation or activity.
	1.2 Develop or access ***a business risk identification and assessment tool or template document*** which incorporates ***assessment criteria*** for assessing risks and consequences.
	1.3 Use appropriate ***methods to identify foreseeable risk*** that has the potential to adversely affect operational activities.
	1.4 Ensure that risk assessment processes are a key component of all operational activities.
	1.5 Involve ***other people*** in the risk identification process and integrate the perspective of key people.
	1.6 Produce ***clear documents that outline identified risks*** to allow for a full assessment.
2 Assess risks to business operations.	2.1 Refer to identified and documented ***risks***, consult with and involve key people to achieve broad input into the risk assessment process.
	2.2 Use a systematic and ***four-staged hierarchical process model*** to conduct the risk assessment.
	2.3 Use established ***assessment criteria*** for assessing risks and consequences.
	2.4 Prepare clear ***documentation of the outcome of risk assessment*** and proposed control actions.
3 Eliminate or control the business risk.	3.1 Assess the organisation's ***capability to eliminate or control risk*** and determine specific control measures.
	3.2 Develop and document contingency plans for risk elimination, minimisation or control and communicate these to key people involved in the operational activity.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3 Implement control measures according to individual level of responsibility or refer to appropriate personnel for permission or further action.
	3.4 Eliminate risk where possible or take action to control and minimise the risk.
	3.5 Continuously monitor specific risks and controls to ensure effectiveness of control method.
	3.6 Regularly monitor low or accepted risks for any unacceptable consequences.
4 Monitor and evaluate business risk management practices.	4.1 Continuously monitor operational activities for a changing risk profile and identify, assess and control business risks on an ongoing basis.
	4.2 Make evaluation of specific risk controls a key component of all operational activity reviews.
	4.3 Consult with a range of key people to elicit feedback on the effectiveness of all risk management practices.
	4.4 Identify inadequacies in risk management practices, develop, implement, document and communicate improvements to risk management practices.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to access appropriate risk identification or assessment templates
- high-level communication skills to communicate and consult with key people on issues of business risk identification, assessment and control
- literacy skills to read and interpret complex business management materials, such as business plans, marketing plans and reports that relate to managing business risks; and write risk identification, assessment and control documents
- critical thinking skills to allow for a rational and logical evaluation of the business risk and to apply or suggest effective controls while incorporating the views of other people consulted.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

The following knowledge must be assessed as part of this unit:

- broad and working knowledge of risk management systems or practices
- the way business risk management practices link with other management systems
- context of risk assessment within the overall operation of the business or activity
- key principles and elements of risk assessment processes
- appropriate risk identification or assessment templates, and their format and use
- range of techniques for assessing risks, such as the four-staged hierarchical process model
- broad and working knowledge of industry and legal compliance requirements
- broad and working knowledge of consultative mechanisms commonly used by organisations
- common risk control measures
- organisational activities and capabilities.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show the candidate's ability to systematically identify risks to business operations, assess the associated consequences and take measures to control the risks for a given service industry operation • ability to develop or access and use business risk identification and assessment template • project or work activities conducted over a commercially realistic period of time so that the monitoring and evaluation aspects of business risk can be assessed.
Context of and specific resources for assessment	Assessment must ensure: • that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	publications to facilitate the processes involved in managing business risk • access to an operation for which a business risk assessment can be undertaken, or to comprehensive and sufficient information about that operation to allow the candidate to participate fully and actively in risk management practices • use of risk management information or business management manuals issued by industry associations or commercial publishers, and template documents used for risk assessment activities • use of information sources that provide operational details on which to base business risk identification or assessment activity, such as business, marketing, operational or project plans • involvement of key people so that consultative actions may be implemented.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to manage business risk. The following examples are appropriate for this unit: • evaluation of completed business risk identification and assessment template documents prepared by the candidate detailing suggested risk controls for a given project or work activity • evaluation of a portfolio that incorporates all documents used for the management of business risk for a business, project or event, including summary of reference material, completed risk identification and assessment template documents, documents detailing control measures, reports detailing success of control measures and recommendations for improvements, and notes or minutes from meetings and briefings • evaluation of project or work activities conducted in conjunction with an industry operator to allow the candidate to implement risk management practices for a particular business, event, project or business activity • direct observation of the candidate consulting with appropriate colleagues about business risk identification, assessments and control • case studies and problem-solving exercises to identify and assess business risks for different types of business

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	or operational activities • written and oral questioning or interview to test knowledge of the risk management principles • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITXADM003A Write business documents.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Operational objectives may include:	• business or operational objectives relating to:
	  • client of the organisation
	  • department within an organisation
	  • whole of the organisation
	  • particular project
	  • particular event or community activity
	• meeting budget
	• minimising losses
	• making a business profit

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- meeting project deadlines
- staging an event or community activity successfully
- successful project outcomes.

Key people may include:

- colleagues, including:
  - peers
  - supervisors
  - managers
- clients
- contractors
- participants and performers
- venue and facility managers
- industry association personnel
- legal representatives
- business accountants
- insurance brokers
- specialist or technical advisers
- government authorities.

Information sources may include:

- business plans
- operational plans
- project plans
- marketing plans
- tender, proposal or bid documents
- customer quotations
- discussions with colleagues or clients
- group workshops or brainstorming
- incident reports
- industry association reports and articles
- media reports and articles
- observation checklists
- surveys.

A business risk identification tool or template document and ***assessment criteria*** may include:

- self-designed tools and assessment criteria
- tools and templates developed:
  - by external consultancy services
  - by industry associations for use by member businesses

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- by the organisation as part of a risk management system
- for public use and found within business management manuals

- assessment criteria nominated in Australian standards.

Methods to identify foreseeable risk may include:

- audit of operational activity
- interview and discussion
- investigation of an incident with a negative result
- monitoring of operational activity
- observation of business, project or client activities
- review of incident reports and registers
- review of information sources, such as plans and reports
- review of global or local reports and media discussions that identify critical economic, social, terror-related, war-related or health issues.

Clear documents that outline identified risks and ***documentation of the outcome of the assessment*** may include:

- checklist
- completed risk identification and assessment report or checklist, such as a tool or template document
- comprehensive file notes
- correspondence with customer, supplier or specialist adviser
- report
- meeting notes or minutes
- action plan.

Risks may involve:

- product failure
- failure of marketing program
- competitor activity
- damage to property or equipment
- system or equipment failure
- financial loss
- industrial dispute
- inability to provide business or operational activity with appropriate human, financial or physical resources
- natural disasters
- political events

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- civil uprising
- terrorism
- world or local health events or epidemics
- professional incompetence
- non-compliance with industry or legal requirements
- security breaches or failures
- change of client or customer requirements.

Four-staged hierarchical process model must include:

- identifying the consequences that could result from the identified risk
- determining the exposure to the risk
- estimating the probability that negative impacts will occur
- determining an overall risk level for the identified issue, identifying risk level as:
  - low
  - accepted
  - medium
  - high.

Capability to eliminate or control risk may include:

- access to accurate information
- expertise within the organisation to determine and implement appropriate control measures
- legal liability
- financial or other resource constraints on implementing sufficient control measures.

SITXMGT006A Establish and conduct business relationships

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to manage business relationships with customers or suppliers. It requires the ability to establish and maintain business relationships, conduct formal negotiations and make and manage agreements or contracts.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a complex administrative skill for those working within the service industries and applies to the full range of industry sectors and environments.

The business agreements or contracts and negotiations described by this unit are formal and structured in nature and cover significant commercial dealings. They may relate to such things as corporate accounts, service contracts, agency agreements, venue contracts, rate negotiations, preferred product agreements, supply agreements and marketing agreements.

The establishment and management of business relationships require the application of significant analytical, communication, negotiation and relationship building skills. This role is generally undertaken by senior operational personnel or sales and marketing personnel who work autonomously and are responsible for making strategic decisions on purchasing or marketing activities for an organisation and for overseeing the maintenance of contracts or agreements. Managers and owner-operators of small businesses would also undertake this activity.

Employability Skills Information

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
1 Build business relationships.	1.1 Establish relationships within appropriate cultural context in a manner that promotes goodwill and trust between the organisation, its customers and suppliers. 1.2 Build trust and respect in business relationships through use of effective communication skills and techniques. 1.3 Identify and take up ***opportunities to maintain regular contact with customers and suppliers***.
2 Conduct negotiations.	2.1 Conduct negotiations in a professional manner within relevant cultural context. 2.2 Conduct negotiations in the context of current organisation marketing focus. 2.3 Maximise benefits for all parties in the negotiation through use of established ***negotiation techniques*** and in context of establishing long-term relationships. 2.4 Incorporate feedback and input from colleagues into the negotiation where appropriate. 2.5 Communicate results of negotiations to appropriate colleagues and stakeholders within appropriate timeframes.
3 Make formal business agreements.	3.1 Confirm agreements in writing, using formal contracts where appropriate and according to organisation requirements. 3.2 Check and gain appropriate approvals for all aspects of formal agreements according to organisation procedures. 3.3 Identify the need for and seek specialist advice in the development of contracts where appropriate.
4 Foster and maintain business relationships.	4.1 Proactively seek, review and act upon information needed to maintain sound business relationships. 4.2 Honour agreements within the scope of individual responsibility, complying with agreed terms and meeting key performance indicators (KPIs). 4.3 Make adjustments to agreements in consultation with customer or supplier and share information with appropriate colleagues.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4.4 Nurture relationships through regular contact and use of effective interpersonal and communication styles.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level negotiation skills and techniques appropriate to negotiations that may be of significant commercial value
- high-level interpersonal and communication skills to establish and nurture ongoing relationships
- high-level literacy skills to outline specific written requests clearly and succinctly; read complex agreements, conditions and contracts; and confirm formal details in writing
- numeracy skills to prepare statistics, KPIs or usage figures that might relate to the negotiation of costs and calculate any costs related to agreements and contracts.

The following knowledge must be assessed as part of this unit:

- detailed knowledge of KPIs for the industry, industry structure and interrelationships, industry networks, information sources, sources of supply, and in-depth knowledge of distribution and marketing networks
- principles of negotiation, stages in the negotiating process and different techniques that can be applied
- legal issues that affect negotiations and contracts in the relevant industry sector
- general and working knowledge of contracts and basic understanding of contract law.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- project or work activities that show the candidate's ability to successfully establish and maintain business relationships, conduct formal negotiations and make and manage agreements and contracts for a specific business operation
- detailed knowledge of KPIs for the industry, industry structure and interrelationships, industry networks, information sources, and distribution and marketing networks
- knowledge and understanding of role of contracts within a given business operation
- project or work activities conducted over a commercially realistic period of time so that the planning and relationship-building aspects of this unit can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and software to facilitate the processes involved in establishing and conducting business relationships
- access to an operation for which business relationships would be managed, or access to comprehensive and sufficient information about that operation to allow the candidate to fully establish and maintain business relationships, conduct formal negotiations and make and manage agreements and contracts
- use of materials that support the negotiation process such as preparatory facts, statistics, KPIs, product usage rates, request letters, and written confirmation of agreements and contracts
- use of plain English contract law information
- interaction with individuals or businesses that have a genuine or potential interest in negotiating and relationship-building for a commercial relationship.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to establish and conduct business relationships. The following examples are

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

appropriate for this unit:

- direct observation of the candidate participating in verbal negotiations
- evaluation of negotiations and business relationships or agreements conducted or made by the candidate
- evaluation of reports prepared by the candidate to detail the way in which a negotiation activity was planned and conducted and lessons to be learned for future activities
- review of negotiating documents prepared by the candidate, including preparatory facts, statistics, KPIs, product usage rates, request letters and written confirmation of agreements
- case studies to assess application of different techniques to different negotiating scenarios
- written and oral questioning or interview to test knowledge, such as industry structure and interrelationships, negotiating principles and techniques and legal compliance issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXINV003A Manage and purchase stock
- SITXMPR003A Plan and implement sales activities
- SITXMPR004A Coordinate marketing activities
- SITTPPD001A Research, assess and develop tourism products
- SITTPPD003A Source and package tourism products.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

SITXMPR001A Coordinate production of brochures and marketing materials

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to coordinate the development of brochures and other marketing materials. It requires the ability to source information to be included; obtain production quotations; develop or outsource copy; and design, check and approve final content.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a complex sales and marketing skill for those working within the service industries and applies to the full range of industry sectors and environments.

Brochures and marketing materials can be devised to promote any product, service or event; a group of products being cooperatively marketed; or even a whole city, region or tourist precinct.

This unit does not include all the skills of a professional graphic designer or copywriter. Rather it reflects the more general skills needed by a large range of service industry personnel involved in sales and marketing activities.

Frontline sales and marketing personnel who operate with some level of autonomy or under limited supervision and guidance from others would be responsible for coordinating the production of brochures and marketing materials. Managers and owner-operators of small businesses would also undertake this activity.

ELEMENT	PERFORMANCE CRITERIA
	when totally accurate.
	5.4 Approve artwork according to organisation guidelines prior to commencement of printing.
	5.5 Obtain and deliver brochures and marketing materials on schedule and establish contingency plans to allow for situations where timelines may be exceeded.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level literacy skills to create copy or check quality of outsourced copy, to interpret quotations and conditions and to proofread all contents of draft materials
- high-level verbal and written communication skills to explain complex requirements and specifications
- high-level numeracy skills to calculate costs and quantities of materials to be produced, sizing of layouts and components, and total size of final materials.

The following knowledge must be assessed as part of this unit:

- in-depth understanding of the objectives of the material and knowledge of the market for which material is required
- general awareness of potential of material for use on websites
- print production processes and terminology, including copy, film, artwork, 2-colour process, 4-colour process, final art, proofreading, bromide, print-ready, PDF file, author's corrections and transparencies
- printing and industry conventions in relation to placement of information, page numbering and copyright information
- quality indicators in brochure production, including readability, photographic quality, effective use of colour and spacing requirements
- current production technology
- creative writing techniques used for the content of brochures and other marketing materials
- procedures and requirements for preparation and proofing of material
- broad understanding of copyright laws and restrictions that apply to the inclusion of certain materials and content within brochures and other marketing materials

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- procedures for copyright clearance of restricted materials.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- coordination of all elements of development and production process for brochures and marketing material
- ability to produce materials that meet stated objectives, provide current and accurate information and are free of errors
- knowledge and understanding of current production processes and terminology and copyright restrictions
- production of brochures and marketing materials within typical workplace time constraints that meet determined deadlines.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information and software programs to facilitate the processes involved in coordinating the production of brochures and marketing materials
- access to an operation for which brochures and marketing materials would be developed, or access to comprehensive and sufficient information about that operation to allow the candidate to fully coordinate the production of actual brochures and marketing materials to meet a specified market need for a commercially realistic operation
- access to technology and materials for the production of brochures and marketing materials

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- interaction with suppliers such as graphic designers, print production organisations and copywriters.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to coordinate the production of brochures and marketing materials. The following examples are appropriate for this unit:

- evaluation of brochures or other marketing materials produced by the candidate
- written and oral questioning or interview to test knowledge of brochure coordination and production processes, copyright laws and clearance procedures
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXMGT006A Establish and conduct business relationships
- SITXMPR004A Coordinate marketing activities.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

SITXMPR002A Create a promotional display or stand

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to create a display or stand for the promotion of a product or service. It requires the ability to identify the objectives of the promotion, determine who the audience will be, select all display components and assemble the display or stand.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a fundamental sales and marketing skill for those working within the service industries and applies to the full range of industry sectors and environments.

Promotional displays or stands are set up and operated in a range of contexts, including trade or consumer shows, meeting or conference events, in-house promotions, window displays, visitor information centre displays and shopping centre promotions. They might be used to promote any product, service, or event; a group of products being cooperatively marketed; or even a whole city, region or tourist precinct.

This unit does not include all the skills of a specialist display designer or visual merchandiser. Rather, it reflects the more general display skills needed by a large range of service industry personnel involved in sales and marketing activities. Frontline sales and marketing personnel who operate with some level of autonomy or under limited supervision and guidance from others would be responsible for setting up displays or stands.

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Make preparations for display or stand.	1.1 Identify display or stand objectives in consultation with appropriate colleagues.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.2 Obtain operational ***information to assist in display or stand preparation*** to allow time for adequate planning.
	1.3 Plan display or stand to meet the needs of target audience.
	1.4 Select and organise adequate ***display supplies*** and transportation arrangements according to display plan.
	1.5 Identify the need for and seek assistance from display specialists where appropriate.
2 Create the display.	2.1 Create or dress the display or stand, making creative use of available materials and supplies.
	2.2 Use established ***display techniques*** to maximise the visual appeal of the display and reflect the nature of product or service being sold.
	2.3 Use display equipment correctly and safely.
	2.4 Check display or stand to ensure safety of colleagues and customers.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- safe OHS practices that relate to transporting, carrying, assembling and monitoring the display or stand
- basic visual merchandising techniques for creating displays with typically available materials, including techniques for maximising the effectiveness of commonly-used collateral in displays, including brochures and posters
- literacy skills to collect and interpret information about the needs of the target audience and operational aspects of the display or stand.

The following knowledge must be assessed as part of this unit:

- typical tourism industry contexts in which displays are used, such as trade and consumer shows, shopping centre promotions, information centre displays, window displays and promotional functions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- range of materials and equipment used for display in different locations and settings, such as stages, exhibition booths, permanent displays and window displays.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • creation of a display or dressing of a promotional stand to meet specific objectives using accepted display techniques • ability to create display or stand in a well-organised and safe manner • creation of a display or dressing of a promotional stand within typical workplace time constraints that meet determined deadlines.
Context of and specific resources for assessment	Assessment must ensure: • creation of a display or promotional stand within commercially realistic promotional environments • use of display and promotional material commonly used by tourism and hospitality organisations.
Methods of assessment	A range of assessment methods should be used to assess the practical skills and knowledge required to create a promotional display or stand. The following examples are appropriate for this unit: • evaluation of the creativity and visual appeal of a display created by the candidate • case studies to assess application of different display techniques to typical industry promotional situations • written and oral questioning or interview to test knowledge of basic and different visual merchandising

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

techniques
- written and oral questioning or interview to test knowledge of safe working practices
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXMPR004A Coordinate marketing activities
- SITXCOM005A Make presentations.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Information to assist in display or stand preparation may include:

- nature of display area, including booth and stage
- floor plans
- type of surface on which display is to be created
- set-up times and duration
- OHS requirements
- budget allocation
- need for utilities, such as electricity and water
- need for waste management

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- security.

Display supplies may include:

- furniture
- collateral materials, such as brochures, posters, banners and organisational colours and logo
- scissors
- adhesives and velcro
- pins
- string
- audiovisual systems, including videos and sound systems
- floral arrangements and potted plants
- balloons and other decorations
- mobiles
- computers.

Display techniques must include the use of:

- fabric
- flags
- signs
- printed materials
- three-dimensional materials
- freestanding display options
- product samples
- local produce
- cultural artefacts.

SITXMPR003A Plan and implement sales activities

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to plan and implement sales activities. It requires the ability to identify and analyse market and customer needs, proactively target current and new customers, plan the operation of sales calls, make calls and prepare sales reports.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Operational sales skills are covered in SITTTSL005A Sell tourism products and services.

Application of the Unit

Application of the unit

Planning and implementation of sales activities may relate to the promotion of any product, service or event; a group of products being cooperatively marketed; or even a whole city, region or tourist precinct.

This unit requires the application of planning, organisational and communication skills. This role is generally undertaken by sales and marketing personnel within the service industries who operate autonomously and who are responsible for coordinating a range of sales activities. Managers and owner-operators of small businesses would also undertake this activity.

Licensing/Regulatory Information

	and concise information to those responsible for sales and marketing planning.
	4.4 Share market intelligence with relevant colleagues in a timely fashion.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- sales skills to sell diverse products and services in a range of industry contexts and environments
- planning and organisational skills that relate to the conduct of sales activities
- high-level verbal communication skills, specifically active listening and questioning
- conflict and problem resolution techniques in order to take a lead role in solving ongoing problems
- high-level literacy skills to interpret customer information and market trend information, and to read and prepare sales reports
- high-level numeracy skills to calculate potential sales revenues and create and interpret sales statistics.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge of the principles of selling, sales communication and relationship building
- in-depth product knowledge sufficient to take a proactive sales role
- detailed knowledge of the industry, including structure and interrelationships, industry networks and information sources
- industry and market knowledge appropriate to the sector and organisation, including:
  - in-depth knowledge of distribution and marketing networks, especially those that support the product or service being promoted
  - current customer and market trends, products and service style that would meet particular customer and market requirements and preferences
  - links between sales and other areas of the organisation's operations
- overall structure and content of marketing plans
- role of sales within the overall marketing mix
- broad and working knowledge of the legal liability and implications of consumer

REQUIRED SKILLS AND KNOWLEDGE

legislation and regulations on selling products appropriate to particular industry sectors.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- project or work activities that show the candidate's ability to plan and implement sales activities for a specific business operation and to prepare sales reports
- use of effective communication skills during sales calls
- detailed knowledge of the industry, including structure and interrelationships, industry networks, information sources and distribution and marketing networks
- project or work activities conducted over a commercially realistic period of time so that the planning, analysis and reporting aspects of this unit can be assessed.

Context of and specific resources for assessment

Assessment must ensure:

- that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and software to facilitate the processes involved in planning and implementing sales activities
- access to an operation for which products would be promoted or access to comprehensive and sufficient information about that operation to allow the candidate to plan for fully and implement sales activities
- use of marketing plans and operational sales documents, such as sales reports and sales support materials
- interaction with individuals or businesses with a genuine or potential interest in purchasing the product or service.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to plan and implement sales activities. The following examples are appropriate for this unit:

- evaluation of sales plans and sales results developed and achieved by the candidate
- evaluation of sales reports prepared by the candidate to detail the way in which a sales campaign was planned and implemented and lessons to be learned for future sales activities
- evaluation of sales activities undertaken by the candidate in conjunction with and on behalf of industry operators
- case studies to assess knowledge of how sales activities can be used for specific industry contexts
- written and oral questioning or interview to test knowledge such as structure of the industry, industry interrelationships, distribution networks and legal compliance issues
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXMGT002A Develop and implement operational plans
- SITXMGT006A Establish and conduct business relationships
- SITXMPR004A Coordinate marketing activities.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job

role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Information to be incorporated into the sales planning process may include:

- sales and marketing reports
- financial statistics
- market trends
- competitive activity.

Establishing practical sales call patterns may be affected by:

- specific sales and revenue targets
- call intensity required
- geographic considerations and restraints
- current organisation priorities
- need for administration and reporting time.

Sales call strategies and tactics may include or be based on:

- focus on specific products or offers
- individual customer history
- current sales figures for nominated periods
- response to competitive activity.

Information and support materials may include:

- brochures
- tariff sheets
- other handouts
- internet and web pages
- electronic updates
- display material
- giveaways
- incentive material.

SITXMPR004A Coordinate marketing activities

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to plan and coordinate a range of marketing and promotional activities at an operational level. The unit incorporates knowledge of marketing principles.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

Coordination of marketing activities may relate to the promotion of any product, service or event; a group of products being cooperatively marketed; or even a whole city, region or tourist precinct.

This unit requires the application of planning, organisational and communication skills, with a focus on short-term operational plans. This role is generally undertaken by marketing personnel who operate autonomously and who will be responsible for making decisions on marketing activities for an organisation. Managers and owner-operators of small businesses would also undertake this activity.

REQUIRED SKILLS AND KNOWLEDGE

- legal issues that impact on marketing activities including Trade Practices and Fair Trading legislation.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to develop a marketing strategy and plan for a specific tourism or hospitality product, service or organisation that identify current and relevant industry organisation marketing issues and include a detailed, realistic implementation program
- knowledge and understanding of specific implementation and monitoring issues
- project or work activities conducted over a period of time to allow the candidate to develop and implement a marketing strategy for a given product or service
- development and implementation of a marketing strategy that targets and involves individuals or businesses with a genuine interest or potential in purchasing the product or service.

Context of and specific resources for assessment

Assessment must ensure:

- involvement of stakeholders in the planning process
- involvement of customers to whom products and services are marketed.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of the marketing aspects of a project conducted by the candidate, either alone or in

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Evaluate online cooperative marketing initiatives.	1.1 Source and evaluate ***relevant information*** about the range of current online ***cooperative tourism marketing initiatives and sites*** for potential value to the business.
	1.2 Select an initiative that meets ***requirements and considerations of the business***.
	1.3 Evaluate additional skills, equipment or other resources that may be required to participate in initiative.
	1.4 Assess value of participation through consideration of overall marketing direction and any budgetary constraints.
2 Provide online content in appropriate	2.1 Review and accurately interpret ***content requirements*** as set down by administrator of the cooperative initiative.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
format and style.	2.2 Use appropriate and customer-focussed writing techniques to develop content suited to an online environment and the requirements of specific cooperative initiatives. 2.3 Identify appropriate images for inclusion in online content. 2.4 Capture and manipulate digital images using appropriate techniques to enhance images. 2.5 Upload content according to relevant guidelines and protocols.
3 Use remote authoring to update content.	3.1 Develop ***protocols to ensure regular and timely updating of content*** within cooperative sites. 3.2 Update content accurately using ***remote authoring techniques*** according to requirements of cooperative site. 3.3 Review and evaluate content and outcomes of participation and identify and address any problems or issues arising.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to use remote authoring processes and techniques appropriate to one or more cooperative initiatives as defined by the site administrator
- techniques to capture and manipulate digital images
- communication skills to write customer-focussed content for an online environment.

The following knowledge must be assessed as part of this unit:

- range of online cooperative marketing opportunities available to the tourism industry in Australia

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- current national, state and regional frameworks for online cooperative marketing, e.g. Australian Tourism Data Warehouse and other government initiatives
- specific online cooperative marketing initiatives for particular industry sectors
- guidelines and requirements for format and style of typical online copy
- equipment and software requirements and techniques for capturing, manipulating and uploading digital images to cooperative sites, including saving and storing images.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- knowledge of current developments and initiatives in relation to online cooperative marketing in the Australian tourism industry
- awareness of and ability to use basic technical skills to create, upload and update content, including words and images.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills using industry-current equipment to develop and update online content in a cooperative marketing context.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to participate in cooperative online marketing initiatives. The following examples are appropriate for this unit:

- evaluation of content developed by the candidate
- evaluation of reports prepared by the candidate to compare different online cooperative marketing initiatives
- written and oral questioning to assess knowledge and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

awareness of potential online cooperative marketing initiatives for tourism operators within Australia

- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

BSBMKG401B Profile the market

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Relevant information about the range of current online cooperative tourism marketing initiatives may be sourced from:

- national, state, regional or local tourism organisations
- private organisations
- promotional material provided to the business
- internet.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Cooperative tourism marketing initiatives may be established and run by:	• national or state tourism organisations • regional tourism organisations • local tourism organisations • industry associations • private organisations.
Cooperative tourism marketing initiatives and sites may relate to:	• information only • bookings and reservations • referral services • destination-based sites • product-based sites, e.g. bed and breakfasts.
Requirements and considerations of the business may include:	• marketing goals and strategies • types of product and service offered • intended audience and market • budget • available technology • time resources • training requirements.
Content requirements for cooperative sites may include:	• number of words • number and size of digital images or multimedia • order of information • links to other sites and emails • conformity with style guides • proximity to data and geocoding • pricing by room or package.
Protocols to ensure regular and timely updating of content may include:	• timetable for updating words and images • allocation of responsibility to specific staff member for updating of content • monitoring pricing and the timing of the release of special offers • monitoring system-generated emails.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Remote authoring techniques may include:	• those set down by a particular administrator • use of specific software programs as defined by site administrator, for example, software that assists in the development of digital images.

SITXOHS001B Follow health, safety and security procedures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to follow predetermined health, safety and security procedures. It requires the ability to incorporate safe work practices into all workplace activities and to participate in the organisation's OHS management practices.

OHS legislation in all Australian states and territories imposes obligations on employees to participate in the management of their own health and safety and that of their colleagues and anyone else in the workplace. They have a duty to cooperate with their employer's initiatives to ensure safety at work.

No occupational licensing or certification requirements apply to this unit at the time of endorsement.

This unit is one of three hierarchical units describing varying levels of participation in OHS management practices:

- SITX0HS001B Follow health, safety and security procedures
- SITXOHS004B Implement and monitor workplace health, safety and security practices
- SITXOHS005A Establish and maintain an OHS system.
- The use of correct hygiene practices is covered in SITXOHS002A Follow workplace hygiene procedures.

The processes necessary to control specific workplace safety risks are covered in SITXOHS003B Identify hazards, and assess and control safety risks.

Application of the Unit

Application of the unit

This unit describes a fundamental workplace skill for those working within the service industries and applies to the full

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

range of industry sectors and environments.

Frontline operational personnel who work under close supervision and guidance from others are involved in applying safe work practices during the normal course of their daily activities. They would be required to apply little discretion and judgement because they operate within predefined organisational OHS procedures. Safe working practices and following OHS procedures apply to all personnel operating at any level within the service industries.

Licensing/Regulatory Information

Not applicable.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Follow workplace procedures for health, safety and security.	1.1 Correctly and consistently follow the organisation's ***health***, ***safety and security procedures*** according to relevant legislative requirements. 1.2 Incorporate ***safe work practices*** into all workplace activities. 1.3 Follow the safety directions of supervisors or managers and heed any workplace safety warning signs. 1.4 Use any required protective equipment and wear required personal protective clothing. 1.5 Identify and promptly report unsafe work practices, ***issues and breaches of health***, ***safety and security procedures***. 1.6 Report any suspicious behaviour or unusual occurrences promptly to the designated person.
2 Follow procedures for emergency situations.	2.1 Recognise emergency and potential ***emergency situations*** promptly and determine or take required actions within the scope of individual responsibility. 2.2 Follow the organisation's emergency procedures correctly. 2.3 Seek assistance promptly from colleagues or other authorities where appropriate. 2.4 Report details of emergency situations accurately according to organisation procedures.
3 Participate in the organisation's OHS practices.	3.1 ***Participate in OHS management practices*** developed by the organisation to ensure a safe workplace. 3.2 Actively participate in the OHS ***consultation*** processes and identify and report safety and procedural issues requiring attention. 3.3 Ensure immediate work area is free from hazards, participate in scheduled hazard identification activities and report hazards on an ongoing basis. 3.4 Participate in risk assessments and suggest appropriate ways of controlling risk. 3.5 Raise OHS issues and concerns with designated persons

ELEMENT	PERFORMANCE CRITERIA
	according to organisation and legislative requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- literacy skills to read and interpret workplace safety signs, procedures, emergency evacuation plans, and hazard identification and risk assessment tools and template documents
- communication skills to participate in consultation processes, to clearly report and explain hazards, to contribute to risk assessments and to assertively suggest control methods.

The following knowledge must be assessed as part of this unit:

- individual employee responsibilities in relation to ensuring safety of self, other workers and other people in the workplace
- broad understanding of employer's responsibilities under relevant state or territory OHS legislation
- broad understanding of employee's responsibility to participate in OHS practices under relevant state or territory OHS legislation
- ramifications of failure to observe OHS policies and procedures and legislative requirements
- working knowledge and understanding of the contents of health, safety and security procedures that relate to the individual workplace
- major workplace hazards and associated health, safety and security risks associated with the hazards as relevant to the individual workplace
- safe work practices relevant to individual job roles and responsibilities
- broad understanding of the particular consultation, hazard identification and risk assessment methods used in the particular workplace
- familiarity with hazard identification and risk assessment tools and template documents.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- project or work activities that show the candidate's ability to follow predetermined health, safety and security procedures, incorporate safe work practices into all workplace activities and participate in consultation, hazard identification and risk assessment activities for a given service industry operation in line with regulatory requirements
- knowledge and understanding of the implications of disregarding those procedures
- knowledge and understanding of the legal requirement to work according to health, safety and security procedures.

Context of and specific resources for assessment

Assessment must ensure:

- project or work activities that show candidate's ability to apply safe working practices within the context of the particular industry sector and job role in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes
- use of the current plain English regulatory documents distributed by the local OHS regulatory authority, any codes of practice and standards issued by regulatory authorities or industry groups, and OHS information and business management manuals issued by industry associations or commercial publishers
- use of current commercial policies and procedures and template documents used for the management of OHS practices.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to follow health, safety and security procedures. The following

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

examples are appropriate for this unit:

- direct observation of the candidate explaining workplace safety or emergency procedures to a colleague or customer
- direct observation during an integrated assessment of the candidate demonstrating safe work practices for particular job roles
- case studies and problem-solving exercises, role-plays and simulations for emergency situations
- role-plays to assess participation in consultation meetings
- activities, case studies and problem-solving exercises to assess participation in hazard identification and risk assessment
- written and oral questions or interview to test knowledge of legislation and individual requirements relating to workplace safety and security
- written and oral questioning or interview to test knowledge of appropriate protective equipment and clothing for particular jobs and situations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example, SITXOHS002A Follow workplace hygiene procedures and any operative skills that would allow integration of safe work practices.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

Health, safety and security

- emergency, fire and accident

RANGE STATEMENT

procedures may involve:

- incident and accident reporting
- consultation
- hazard identification
- risk assessment
- risk control
- security, including:
  - documents
  - cash
  - equipment
  - people
  - key control systems.

Safe work practices may include:

- use of personal protective clothing and equipment
- safe posture and movements, including sitting, standing and bending
- using safe manual handling techniques for such things as lifting and transferring
- taking designated breaks
- rotating tasks
- using knives and equipment and handling hot surfaces
- taking account of the dangers associated with inert gases used in beverage dispensing systems
- using computers and electronic equipment
- safe handling of chemicals, poisons and dangerous materials
- using ergonomically sound furniture and workstations
- clearing any hazards from immediate work area
- paying attention to safety signage.

Issues and breaches of health, safety and security procedures may include:

- loss of keys
- strange or suspicious persons
- broken or malfunctioning equipment
- loss of property, goods or materials
- damaged property or fittings
- lack of suitable signage when required
- lack of training on health and safety issues.

Emergency situations may

- bomb threats

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

include:

- irrational customers
- accidents
- robberies or armed hold-ups
- fires
- floods
- earthquakes
- power failure.

Participation in OHS management practices may involve:

- active participation in OHS induction training and safe work practice training
- involvement in hazard identifications
- involvement in risk assessments
- involvement in suggesting methods for and making joint decisions on how to eliminate or control risks
- involvement in writing parts of OHS policies and procedures.

Consultation processes may involve:

- OHS discussions with all employees during the course of each business day
- a diary, whiteboard or suggestion box used by staff to report issues of concern
- regular staff meetings that involve OHS discussions
- special staff meetings or workshops to specifically address OHS issues
- surveys or questionnaires that invite feedback on OHS issues
- informal meetings with notes
- formal meetings with agendas, minutes and action plans
- discussions with and reports to formal OHS representatives and committee members.

SITXOHS002A Follow workplace hygiene procedures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to apply good hygiene practices within a range of service industry operations. It requires the ability to follow predetermined procedures, identify and control simple hazards and take particular hygiene measures to ensure the non-contamination of food and other items that might put customers, colleagues and self at a health risk.

This unit is one of three hierarchical units describing varying levels of participation in food safety processes:

- SITXOHS002A Follow workplace hygiene procedures
- SITXFSA001A Implement food safety procedures
- SITXFSA002A Develop and implement a food safety program.

Food safety is nationally legislated by the Food Standards Australia New Zealand Act 1991 which provides for the operation of a statutory authority known as Food Standards Australia New Zealand. The Australia New Zealand Food Standards Code (the Code) developed by this authority contains an individual standard for food safety practices. A large component of that standard deals with the health and hygiene of food handlers. This unit of competency complies with the legislative requirements for food safety and hygiene practices as outlined in the Code.

The legislative requirement for a business to comply with the national standard for food safety practices, along with training and certification requirements, differs between state and territory governments.

In some cases food handlers, especially designated food safety supervisors, may be required to formally achieve competence in hygiene practices through a registered training organisation that may use this unit as the basis for their training.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Application of the Unit

Application of the unit

Personal hygiene practices underpin a range of service industry activities. They are particularly important within a food safety regime, but can also apply to housekeeping activities and anywhere where poor hygiene could provide a contamination risk. Poor hygiene practices can risk the health of customers, colleagues and self.

For the purposes of food safety, this unit only has application to hospitality, commercial catering and retail venues where food is stored, prepared, displayed and served. It will apply to any venue that operates a permanent or temporary kitchen or smaller food preparation area, such as restaurants, cafes, clubs, hotels, attractions, events and conference venues, fast food restaurants, retail food outlets such as sandwich shops and food court outlets. It would apply to tour operators involved in the preparation and service of food at temporary sites.

Other industries will need to access industry-specific food safety units of competency.

This unit applies to frontline operational personnel who work under close supervision and guidance from others during the normal course of their daily activities. They would be required to apply little discretion and judgement because they operate within predefined organisational hygiene procedures. Personal hygiene practices apply to all personnel operating at all levels within the service industries, such as kitchen hands, cooks, chefs, catering staff, food and beverage attendants, housekeeping and, laundry staff, sandwich hands, cafe and fast food outlet cooking crew and sales people and owner-operators of small business catering operations or retail food outlets.

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Follow hygiene procedures and identify hygiene hazards.	1.1 Access and follow ***hygiene procedures and policies*** correctly and consistently according to organisation and legal requirements to ensure health and safety of customers and colleagues. 1.2 Identify and report ***poor organisation practices*** that are inconsistent with hygiene procedures. 1.3 Identify ***hygiene hazards*** that may affect the health and safety of customers, colleagues and self. 1.4 Take action to remove or minimise the hazards within scope of individual responsibility and according to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	organisation and legal requirements.
	1.5 Promptly report hygiene hazards to appropriate person for follow up where control of hazard is beyond the scope of individual responsibility.
2 Report any personal health issues.	2.1 Report any personal ***health issues*** that are likely to cause a hygiene risk.
	2.2 Report incidents of food contamination that have resulted from the personal health issue.
	2.3 Do not participate in food handling activities where there is a risk of food contamination as a result of the health issue.
3 Prevent food and ***other item*** contamination.	3.1 Maintain clean clothes, wear required personal protective clothing and only use organisation-approved bandages and dressings to prevent contamination to food.
	3.2 Ensure that no clothing or ***other items worn*** contaminate food.
	3.3 Prevent unnecessary direct contact with ready to eat food.
	3.4 Do not allow food to become contaminated with any body fluids or tobacco product from sneezing, coughing, blowing nose, spitting, smoking or eating over food or food preparation surfaces.
	3.5 Maintain the use of clean materials and clothes and safe and hygienic practices to ensure that no ***cross-contamination of other items in the workplace occurs***.
4 Prevent cross-contamination by washing hands.	4.1 ***Wash hands at appropriate times*** and follow hand washing procedures correctly and consistently according to organisation and legal requirements.
	4.2 Wash hands using ***appropriate facilities***.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- communication skills to verbally report hygiene hazards and poor organisation practice
- literacy skills to read and interpret relevant organisation policies, procedures and diagrams that identify good hygiene practices.

The following knowledge must be assessed as part of this unit:

- very basic understanding of federal, and state or territory food safety legislative compliance requirements, contents of national codes and standards that underpin regulatory requirements, and local government food safety regulations
- working knowledge of organisation personal hygiene policies and procedures
- ramifications of failure to observe hygiene policies and procedures
- broad understanding of the general hazards in handling food, linen, laundry and garbage, including major causes of contamination and cross-infection
- sources and effects of microbiological contamination of food and other items that would require protection in the industry sector and business
- basic understanding of the choice and application of cleaning and sanitising equipment and materials.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • ability to access and interpret hygiene procedures and consistently apply these during day-to-day activities • understanding of the importance of following hygiene procedures and of the potential implications of disregarding those procedures • project or work activities that show the candidate's ability to apply good hygiene practices on multiple

EVIDENCE GUIDE

occasions in a range of different operational circumstances to ensure consistency in the application of hygiene procedures.

Context of and specific resources for assessment

Assessment must ensure:

- access to current regulatory documents distributed by key federal, state or territory, and local government agencies such as plain English legislative publications, codes and standards outlining food safety requirements
- access to hygiene policies and procedures
- project or work activities that show candidates' ability to apply good hygiene practices within the context of the particular industry sector in which they are working or seeking work; for those undertaking generic pre-employment training, assessment must cover a range of industry contexts to allow for a broad range of vocational outcomes
- use of real products, materials and equipment.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the candidate carrying out work tasks that involve following hygiene procedures
- oral and written questions about hygiene principles and practices, policies and procedures
- oral or written questions to assess knowledge of food hygiene legislative requirements
- case studies to assess ability to react to a range of incidents where hygiene hazards exist
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITHACS005A Prepare rooms for guests
- SITHACS007A Launder linen and guest clothes
- SITXFSA001A Implement food safety procedures.

EVIDENCE GUIDE

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Hygiene procedures may relate to:

- personal hygiene
- safe and hygienic handling of food and beverages
- regular hand washing
- correct food storage
- suitable dress and personal protective equipment and clothing
- avoidance of cross-contamination
- hygienic cleaning practices to avoid cross-contamination
- use of cleaning equipment, clothes and materials to avoid cross-contamination
- safe handling and disposal of linen and laundry
- appropriate handling and disposal of garbage
- cleaning and sanitising
- procedures documented in the organisation food safety program
- procedures covered by staff training programs
- procedures required by the national food safety code.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Poor organisation practices may include:

- poor personal hygiene practices
- poor food handling practices that may result in the contamination of food
- poor cleaning practices that may result in cross-contamination of food and other items
- practices inconsistent with the organisation's food safety program
- outdated practices not in keeping with current organisation activities.

Hygiene hazards may include:

- contaminated food
- vermin
- airborne dust
- items such as linen, tea towels and towels that may be contaminated with human waste, such as blood and body secretions
- dirty equipment and utensils
- contaminated garbage
- use of practices not in keeping with current organisation activities
- colleagues without appropriate training or understanding of good hygiene practices, policies and procedures
- equipment not working correctly, such as fridge and temperature probes.

Health issues may relate to:

- food-borne diseases
- airborne diseases
- infectious diseases.

Other items worn may include:

- hair accessories
- jewellery
- watches
- bandages.

Cross-contamination of other items in the workplace may involve:

- infected linen
- items such as linen, tea towels and towels that may be contaminated with human waste, such as blood and body secretions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- dirty equipment and utensils
- spreading bacteria from bathroom or bedroom areas to kitchen areas in an accommodation facility.

Washing hands at appropriate times might include:

- immediately before working with food
- immediately after handling raw food
- before commencing or recommencing work with food
- immediately after using the toilet
- immediately after smoking, coughing, sneezing, blowing the nose, eating, drinking, and touching the hair, scalp or any wound.

Appropriate facilities for hand washing may include:

- warm running water
- soap
- single use towels
- designated hand washing sink.

SITXOHS003B Identify hazards, and assess and control safety risks

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to identify hazards, assess the associated safety risks and take measures to eliminate or control and minimise the risk. It focuses on the processes necessary to control specific workplace safety risks. This risk management approach is central to compliance with OHS legislation, which imposes obligations on businesses (whether small, medium or large) in all Australian states and territories to manage the safety of their workers and anyone else in the workplace. In the service industries, the workplace includes any location where the business operates and 'others' includes customers.

No occupational licensing or certification requirements apply to this unit at the time of endorsement.

Other units describe varying levels of participation in OHS risk management practices:

- SITXOHS001B Follow health, safety and security procedures
- SITXOHS004B Implement and monitor workplace health, safety and security practices
- SITXOHS005A Establish and maintain an OHS system.

Application of the Unit

Application of the unit

This unit describes a fundamental workplace OHS risk management skill for those working in the service industries and applies to the full range of industry sectors and environments.

Under OHS law, staff members at all levels are required to participate in the identification, assessment and control of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

hazards but the degree of participation may vary. This unit reflects the active participation of frontline operational personnel who work with some level of autonomy or under limited supervision and guidance from others. They are actively involved in contributing to or making decisions on how best to control hazards. However, the unit could apply to personnel working at any level, including unsupervised staff members with significant responsibility in the workplace, owner-operators, supervisors and managers.

Risk assessments are commonly conducted as a team effort and a person achieving competence in this unit could either actively participate in group assessments or take a lead role in coordinating a group approach.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify hazards.	1.1 Access and use ***hazard identification tools and template documents*** according to organisation procedures. 1.2 Use ***appropriate methods to identify actual or foreseeable hazards*** that have the potential to harm the health and safety of workers or ***anyone else in the workplace***. 1.3 Involve other personnel where appropriate in hazard identification process. 1.4 Keep records of ***hazards*** identified according to organisation procedures.
2 Assess the safety risk associated with a hazard.	2.1 Access and use risk assessment tools and template documents according to organisation procedures. 2.2 Consult with a range of personnel within the organisation to achieve broad input into risk assessment process. 2.3 Participate with or involve ***other personnel where appropriate in the risk assessment process according to consultation requirements*** of OHS legislation. 2.4 Collect sufficient evidence of the type and level of risk that the identified hazard poses. 2.5 Use a systematic and ***four-staged hierarchical process*** model to conduct a risk assessment. 2.6 Document the outcome of the risk assessment and proposed actions. 2.7 Keep records of risk assessments according to organisation procedures.
3 Eliminate or control the risk.	3.1 Consult with a range of personnel within the organisation to achieve broad input into risk control process. 3.2 Implement control measures according to individual level of responsibility or refer to appropriate personnel for permission or further action.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3 Where possible eliminate the risk and if not practical take actions to control the risk using a ***five-step hierarchical approach***.
4 Review the risk assessment process.	4.1 Identify inadequacies in hazard identification and risk assessment processes and resolve or report them to the appropriate person.
	4.2 Document any changes to the process and implement new processes for future risk management activities.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to access appropriate hazard identification and risk assessment templates
- high-level communication skills to communicate and consult with colleagues on issues of hazard identification and assessment of risks associated with those hazards
- literacy skills to read and interpret:
  - complex materials describing regulatory requirements that relate to OHS management
  - organisational policies and procedures and template documents.
- literacy skills to write hazard identification and risk assessment documents
- critical thinking skills to allow for rational and logical evaluation of hazards and associated risks, and to apply or suggest effective controls while incorporating the views of other people consulted in the workplace.

The following knowledge must be assessed as part of this unit:

- broad and working knowledge of relevant state or territory OHS legislation, specifically requirements for:
  - when, where and how hazards must be identified
  - when, where and how risk assessments must be conducted
  - incorporation of appropriate consultation in the hazard identification and risk assessment process
  - record keeping.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- OHS consultative mechanisms commonly used by organisations
- role of OHS committees or OHS representatives as mechanisms for consultation
- context of risk assessments within an overall OHS management system
- key elements of OHS risk assessments
- format and use of appropriate hazard identification and risk assessment templates
- range of methods for identifying hazards in the workplace
- common methods applied to the assessment of safety risks, such as the four-staged process model recommended and published by state and territory OHS authorities
- common methods applied to controlling risks, such as the five-stepped hierarchical process model recommended and published by state and territory OHS authorities
- OHS record-keeping procedures
- specific organisational policy and procedures for OHS management.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- project or work activities that show the candidate's ability to identify workplace hazards, and assess and control safety risks for a given service industry operation in line with regulatory requirements
- ability to access and use appropriate template documents for hazard identification and risk assessment
- ability to apply appropriate methods for hazard identification, and risk assessment and control
- knowledge and understanding of the consultative approach to hazard identification, assessment of associated safety risks and implementation of controls
- knowledge of OHS legislation requirements for hazard identification, and risk assessment and control
- ability to implement and monitor OHS management practices within the context of an established system where policies and procedures already exist
- knowledge of specific and relevant OHS legislative

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

requirements
- demonstration of skills in conducting risk assessments for different hazard scenarios.

Context of and specific resources for assessment

Assessment must ensure:

- access to an operation for which hazard identification and risk assessment can be undertaken or access to comprehensive and sufficient information about that operation to allow the candidate to conduct hazard identification and risk assessment activities
- use of the appropriate state or territory legislation, codes of practice and standards issued by regulatory authorities or industry groups
- use of OHS information, such as manuals issued by industry associations or commercial publishers
- access to current organisation policies and procedures, and hazard identification and risk assessment template documents
- involvement of a team operating in a specified workplace so that consultative actions can be implemented.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to identify hazards, and assess and control safety risks. The following examples are appropriate for this unit:

- direct observation of the candidate consulting with appropriate colleagues about hazard identification, and risk assessment and control
- direct observation of the candidate conducting a hazard identification and risk assessment process
- evaluation of hazard identification and risk assessment reports prepared by the candidate detailing how safety issues were addressed for a given project or work activity
- evaluation of projects conducted by the candidate to address safety issues in a given workplace
- case studies and problem-solving exercises to assess safety responses to different workplace hazards
- written and oral questions or interviews to test knowledge of legislation and requirements relating to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	hazard identification and risk assessment • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • SITXOHS004B Implement and monitor workplace health, safety and security practices.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

Hazard identification tools and risk assessment tools and template documents may include:	• self-designed tools developed for the organisation as part of an OHS management system
	• tools and templates developed:
	  • by external consultancy services
	  • by industry associations for use by member businesses
	  • for public use and found within business management publications, including those developed by OHS regulatory authorities
	• self-designed tools.

Appropriate methods to identify actual or foreseeable hazards include:	• conduct of site safety audits • completion of a safety checklist • inspections of the workplace • observation of daily activities • investigation of accidents and incidents • review of injury or illness registers • environmental monitoring of the workplace • investigation of staff complaints or reports of safety

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	concerns • review of staff feedback via consultative processes, such as meetings, surveys or suggestion box submissions.
Anyone else in the workplace may include:	• customers • visiting supplier representatives • contractors.

The workplace may include:	• operational offices of the business
	• retail outlet of any sort
	• warehouse
	• sport or recreation facility
	• performance venue
	• field location of the business where services are delivered to customers
	• any place where the organisation normally conducts its business activities, for example:
	  • in a tourism business this could be any destination to which customers are taken on tour
	  • for an event it could be any location where the event happens.

Hazard may include:	• beverage dispensing systems using inert gases
	• physical environment, for example:
	  • working space of workers
	  • lighting
	  • hot and cold environments
	  • climate, weather or exposure, such as insufficient shade and protection from rain, sun or wind
	  • exposure to flood, fire and storm
	  • prevailing noise levels
	  • electrical items
	  • flooring
	  • equipment designed to assist with or replace manual handling
	  • pests
	  • crowds

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- wild animals and local wildlife
- customers' abilities to fully engage in all activities, e.g. health issues
- hazards associated with activities to be undertaken

- plant, for example:
  - machinery
  - tools
  - appliances
  - equipment
- working practices, for example:
  - opening and closing procedures
  - security procedures
  - any standard operating procedures for work-related tasks
  - inappropriate rostering and shift allocation
  - length of time spent at certain task and allocation of breaks
- security issues, for example:
  - theft and robbery
  - irrational or angry, drunk or drug-affected customers
  - bomb scares.

Other personnel who jointly participate in consultation, ***hazard identification***, ***and risk assessment and control*** may include:

- staff under supervision
- peers and colleagues
- supervisors
- managers
- contractors
- OHS representatives
- OHS committee members.

Four-staged hierarchical process model must include:

- identifying the injury or illness consequences that could result from the hazard
- determining the exposure to the hazard
- estimating the probability that an incident or injury will occur
- determining an overall risk level for the identified hazard.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Five-step hierarchical approach must include:	• substituting a system of work or equipment with something safer • isolating the hazard • introducing engineering controls • using personal protective equipment • implementing combined control methods to minimise risk.

SITXOHS004B Implement and monitor workplace health, safety and security practices

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to implement predetermined OHS policies and procedures and to monitor OHS practices as a supervisory function.

A systematic management approach is central to compliance with OHS legislation which, in all Australian states and territories, imposes obligations on all businesses whether small, medium or large, to manage the safety of their workers and anyone else in the workplace. This unit involves the implementation and monitoring of those predetermined OHS practices designed, at management level, to ensure a safe workplace.

No occupational licensing or certification requirements apply to this unit at the time of endorsement.

This unit is one of three hierarchical units describing varying levels of participation in OHS management practices:

- SITXOHS001B Follow health, safety and security procedures
- SITXOHS004B Implement and monitor workplace health, safety and security practices
- SITXOHS005A Establish and maintain an OHS system.

The processes necessary to control specific workplace safety risks are covered in SITXOHS003B Identify hazards, and assess and control safety risks.

Application of the Unit

Application of the unit

This unit describes a fundamental systems implementation skill for those working within the service industries and applies to the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

full range of industry sectors and environments.

Under OHS law, all organisations are responsible for providing and maintaining a safe workplace. Whether micro, small, medium or large, they must ensure the health, safety and welfare at work of all employees and the safety of people, other than their workers, who may be present at the workplace. In the service industries, the workplace would include any location where the business operates and 'others' would include customers.

In large organisations, the responsibility for implementing and monitoring OHS practices might be undertaken by a specialist OHS practitioner. In the service industries, the majority of businesses are small to medium and OHS implementation is undertaken by supervisors, operational managers and owner-operators who fulfil a range of diverse business management duties. This unit applies equally to both specialist and generalist personnel.

Those who operate with a considerable level of autonomy or under limited guidance from others would be responsible for implementing and monitoring OHS practices. They would be the contact person for operational staff who would refer any OHS discrepancies.

Licensing/Regulatory Information

Not applicable.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Provide information on health, safety and security.	1.1 Accurately and clearly explain to personnel relevant ***OHS information***, including organisation-specific policies and procedures. 1.2 Make all current and updated OHS information readily accessible to staff in a timely and regular manner, according to organisational procedures.
2 Monitor safe work practices.	2.1 Monitor adherence to organisational ***OHS procedures*** and OHS signage. 2.2 Monitor ongoing compliance with safe work practices. 2.3 Take prompt and appropriate action to address non-compliance with procedures, ***safe work practices*** and non-adherence to signage. 2.4 Monitor the effectiveness of work practices in maintaining the health, safety and security of personnel through close contact with day-to-day operations.
3 Coordinate consultative arrangements for the management of health, safety and security issues.	3.1 Coordinate any scheduled consultation sessions and the operation of any and all ***consultative processes***. 3.2 Provide the opportunity for staff members to contribute their views on current and future OHS management practices, including views on how to eliminate or control risks.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3 Action, resolve or refer issues raised through OHS consultation to the appropriate person.
	3.4 Provide timely staff and own feedback on OHS management practices to the designated person according to organisation procedures.
4 Implement and monitor procedures for identifying hazards, and assessing and controlling risks.	4.1 Coordinate any scheduled hazard identification activities ensuring hazards are identified at ***times designated by legislation***.
	4.2 Identify any ***hazards*** on an ongoing basis through close contact with day-to-day operations in the workplace and react to reports of hazards by others workers.
	4.3 Coordinate the conduct of risk assessments and, participate by taking a lead role in assessing risks associated with identified hazards according to consultative requirements of OHS legislation.
	4.4 Implement any risk control methods according to organisation's policies and procedures or refer to appropriate person if control is outside scope of responsibility.
	4.5 Monitor the effectiveness of control measures, promptly identify any inadequacies and resolve or report them to the appropriate person.
5 Implement and monitor health, safety and security training.	5.1 Identify ***OHS training needs*** accurately based on regular workplace monitoring.
	5.2 Make timely arrangements for fulfilling training needs in consultation with appropriate management and according to organisation policies and procedures.
	5.3 Monitor effectiveness of training in the workplace and make adjustments as required.
6 Maintain OHS records and reports.	6.1 Complete ***OHS records and reports*** accurately and legibly and store according to organisation and legal requirements.
	6.2 Use data and reports to provide reliable and timely input to the management of workplace health, safety and security.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level communication skills to communicate with colleagues on issues of OHS responsibility and discipline non-compliance, to conduct OHS consultation activities, and to provide all OHS procedural information and information on safe work practices
- high-level literacy skills to read and interpret sometimes complex materials describing regulatory requirements that relate to OHS management and to read and interpret organisational policies and procedures
- writing skills to develop reports and complete OHS records
- critical thinking skills to allow for a rational and logical evaluation of the effectiveness of OHS management practices and to incorporate the views of other people consulted in the workplace.

The following knowledge must be assessed as part of this unit:

- in-depth knowledge of the contents of the organisation's OHS policies, procedures and reporting processes
- in-depth knowledge of employee responsibilities in relation to ensuring safety of self, other workers and other people in the workplace
- in-depth knowledge of employer's responsibilities under relevant state or territory OHS legislation, especially:
    - requirement to consult and acceptable consultation mechanisms

requirements for the use of OHS representatives and committees, and their roles and responsibilities

    - requirements for hazard identification, risk assessment, risk control and acceptable mechanisms
    - requirements for record keeping and acceptable record keeping mechanisms

provision of information and training

- issue resolution
- in-depth knowledge of employee's responsibility to participate in OHS practices and consultation under relevant state or territory OHS legislation
- ramifications of failure to observe OHS policies and procedures and legislative requirements
- in-depth knowledge of the particular consultation, hazard identification and risk

REQUIRED SKILLS AND KNOWLEDGE

assessment methods used in the particular workplace.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show the candidate's ability to implement and monitor OHS management practices within the context of an established system where policies and procedures already exist for a given service industry operation and in line with regulatory requirements • knowledge of specific and relevant OHS legislative requirements • project or work activities conducted over a commercially realistic period of time so that the implementation, monitoring and reporting aspects of this unit can be assessed.
Context of and specific resources for assessment	Assessment must ensure: • that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in implementing and monitoring an OHS system • access to an operation for which OHS management practices would be monitored, or access to comprehensive and sufficient information about that operation to allow the candidate to fully implement and monitor OHS management practices • use of the appropriate state or territory legislation, codes of practice and standards issued by regulatory authorities or industry groups • use of OHS information, such as manuals issued by

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

industry associations or commercial publishers
- access to current organisation policies and procedures, and hazard identification and risk assessment template documents
- involvement of a team operating in a specified workplace for which the candidate coordinates OHS management practices.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to implement and monitor workplace health and safety practices. The following examples are appropriate for this unit:

- evaluation of action plans prepared by the candidate to coordinate consultative processes, hazard identification and risk assessment activity
- direct observation of the candidate providing OHS information and conducting OHS consultation sessions
- evaluation of a range of OHS records completed by the candidate
- evaluation of monitoring reports prepared by the candidate detailing the effectiveness of OHS management practices and recommendations for change
- case studies and problem-solving exercises on staff non-compliance with procedures and safe work practices
- evaluation of project or work activities conducted in conjunction with an industry operator to allow the candidate to monitor and report on OHS practices for a particular workplace
- written and oral questions or interview to test knowledge of the legislative requirements, the contents of policies and procedures and roles and responsibilities of various staff members in OHS management practices
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXOHS005A Establish and maintain an OHS system

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- SITXMGT001A Monitor work operations
- SITXMGT002A Develop and implement operational plans
- SITXADM004A Plan and manage meetings.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

OHS information may include information on:

- organisation's overall OHS policy
- any OHS policy and procedure but especially hazard identification
- roles and responsibilities of employers and employees in OHS management practices
- legal obligations and ramifications of failure to comply
- consultative arrangements for OHS
- use of hazard identification reporting documents
- use of risk assessment template documents
- specific existing control measures relevant to the workplace
- specific regulations and codes of practice
- OHS training information and updates
- location of first aid kit and emergency evacuation plan.

OHS procedures may involve:

- emergency, fire and accident
- incident or accident reporting
- consultation
- hazard identification
- risk assessment and control
- security including:
  - documents
  - cash

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- equipment
- people
- key control systems.

Safe work practices may include:

- use of personal protective clothing and equipment
- safe posture including sitting, standing and bending
- using safe manual handling, including lifting and transferring
- taking designated breaks
- rotating tasks
- using knives and equipment, handling hot surfaces
- taking account of the dangers associated with inert gases used in beverage dispensing systems
- using computers and electronic equipment
- safe handling of chemicals, poisons and dangerous materials
- using ergonomically sound furniture and workstations
- clearing any hazards from immediate work area
- paying attention to safety signage.

Consultative processes may involve:

- consultation with employees during the course of each business day
- a diary, whiteboard or suggestion box used by staff to report any issue of concern
- recording issues in a management diary
- regular staff meetings that involve OHS discussions
- special staff meetings or workshops to specifically address OHS issues
- staff handbook which includes OHS information
- surveys or questionnaires that invite feedback on OHS issues
- informal meetings with notes
- fact sheets to fully inform personnel about OHS rights and responsibilities
- formal meetings with agendas, minutes and action plans
- formal OHS representatives and committees
- involvement of personnel in writing parts of OHS policies and procedures.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Times designated by legislation for systematic hazard identification may include:

- when changes to the workplace are implemented, for example:

before the premises are used for the first time

before and during the installation or alteration of any plant

before changes to work practices are introduced

when any new information relating to health and safety risk becomes available.

Hazards may include:

- physical environment, for example:
  - working space of any workers
  - lighting
  - hot and cold environments
  - exposure to elements of weather, such as sun, wind and rain
  - prevailing noise levels
  - electrical items
  - flooring
  - equipment designed to assist with or replace manual handling
  - pests
  - crowds
- plant, for example:
  - machinery
  - tools
  - appliances
  - equipment
- working practices, for example:
  - opening and closing procedures
  - security procedures
  - any standard operating procedures for work-related tasks
  - rostering of staff and shift allocation
  - length of time spent at certain task and allocation of breaks
- security issues, for example:
  - theft and robbery
  - irrational or angry customers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- bomb scares.

OHS training needs may include:

- OHS policy and procedure induction training
- coaching or mentoring in safe work practices
- formal training programs in safe work practices
- provision of information, fact sheets and signage to ensure safe work practices
- OHS representative or committee training
- hazard identification and risk assessment and control training.

OHS records and reports may include documentation of:

- training action plans
- training undertaken
- consultation records, such as:
- hazard identification records
- risk assessments
- risk control actions
- incident or accident, near miss reports and related statistics
- incident and accident notifications to OHS regulatory authorities
- monitoring reports and recommendations for change, including effectiveness of:
  - diaries of meetings
  - agendas for and minutes of meetings
  - committee members
  - consultation decisions and follow-up actions
  - risk controls
  - safe work practices
  - consultation processes
  - OHS information provided to personnel.

Employability skills	The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Establish and maintain a framework for health, safety and security.	1.1 Access and interpret key legislative documents to ensure that OHS systems comply with regulatory requirements, standards and codes.
	1.2 Design an ***OHS management system*** to suit the characteristics and needs of the organisation, in consultation with appropriate personnel.
	1.3 Identify and provide adequate financial, human and specialist external resources to address OHS management practices.
	1.4 Develop and clearly articulate ***OHS policies and procedures*** in a format readily accessible to all personnel.
	1.5 Define and allocate health, safety and security responsibilities clearly, including relevant information in job descriptions and duty statements.
	1.6 Consult with key personnel, and determine, develop and implement a plan for all ***OHS training requirements***.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.7 Establish and monitor a system for keeping ***OHS records***.
	1.8 Establish and maintain systems to ensure communication of information to personnel, including information on policies, procedures and their roles and responsibilities in OHS management practices.
2 Establish and maintain consultative arrangements for the management of health, safety and security.	2.1 Establish and maintain appropriate ***consultative processes*** to suit the characteristics and needs of the organisation.
	2.2 Plan for and ensure that ***consultation is conducted at times designated and required by legislation***.
	2.3 Resolve issues raised through consultation and participation promptly and effectively.
	2.4 Provide information about the outcomes of consultation and participation in a manner accessible to employees.
3 Establish and maintain practices for identifying hazards, and assessing and controlling risks.	3.1 Develop or access a ***hazard identification and risk assessment tool or template document*** that incorporates ***assessment criteria*** for assessing risks and consequences.
	3.2 Plan for and ensure that ***hazards are identified at times designated and required by legislation***.
	3.3 Develop procedures for the ongoing identification of hazards, especially ***types of hazards designated by legislation***.
	3.4 Develop procedures for the assessment of risks associated with identified hazards.
	3.5 Develop procedures for the control of risks and the ongoing monitoring of controls.
	3.6 Nominate the roles and responsibilities of personnel for hazard identification, risk assessment and risk control within procedures.
	3.7 Take a lead role in assessing and controlling risks, including implementing interim or emergency solutions according to consultative requirements of OHS legislation.
	3.8 Manage the response to any incident or accident and follow legislative requirements for notifying and cooperating with OHS regulatory authorities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
4 Evaluate the organisation's health, safety and security system.	4.1 Assess ongoing compliance with OHS legislation and regulatory requirements, standards and codes to ensure that OHS legal requirements are maintained. 4.2 Consult with a range of personnel to elicit feedback on OHS policies, procedures and practices. 4.3 Assess the effectiveness of OHS management practices, including a review of any incidents or accidents, near misses, OHS reports and statistics held by the organisation. 4.4 Develop, implement, document and communicate improvements and changes to the OHS system.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- high-level literacy skills to:
  - read and interpret complex materials describing regulatory requirements that relate to OHS management
  - develop and write comprehensive OHS systems inclusive of detailed yet easily accessible policies, procedures and template documents
- high-level communication skills to consult with different personnel
- critical thinking skills to allow for a rational and logical evaluation of the characteristics and needs of the organisation in order to design a tailored OHS system, and to evaluate and review it.

The following knowledge must be assessed as part of this unit:

- in-depth and comprehensive knowledge of relevant state or territory OHS legislation as it affects specific workplace operations
- in-depth knowledge of associated OHS codes of practice and standards
- components of policies and procedures
- alternative presentation formats for special needs groups
- consultative and communication mechanisms used by organisations to develop and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

implement procedural systems
- main types of safety hazards that may be found in the industry sector or organisation
- acceptable control methods for identified hazards
- the way systems and procedures on health, safety and security issues link with other management systems
- other legal issues that impact on health and safety, in particular industry contexts such as responsible service of alcohol, responsible conduct of gambling, public liability and duty of care to customers.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show the candidate's ability to establish, implement, evaluate and make ongoing improvements to a complete OHS system for a given service industry operation and in line with regulatory requirements • development of comprehensive OHS system documents inclusive of policies, procedures, hazard identification and risk assessment documents • knowledge of specific relevant OHS legislative requirements • project or work activities conducted over a commercially realistic period of time so that the implementation and evaluation aspects of this unit can be assessed, i.e. an OHS system can be established, evaluated and reviewed.
Context of and specific resources for assessment	Assessment must ensure: • that the candidate has accessed a fully equipped office environment using appropriate computers, printers, communication technology, information programs and publications to facilitate the processes involved in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

developing an OHS system
- access to an operation for which an OHS system would be developed or access to comprehensive and sufficient information about that operation to allow the candidate to fully develop a tailored OHS system
- use of the appropriate state or territory legislation, codes of practice and standards issued by regulatory authorities or industry groups
- use of OHS information, such as manuals issued by industry associations or commercial publishers
- access to current organisation policies and procedures, and hazard identification and risk assessment template documents
- involvement of a team operating in a specified workplace for which the candidate establishes OHS management practices.

Methods of assessment

A range of assessment methods should be used to assess the practical skills and knowledge required to establish and maintain an OHS system. The following examples are appropriate for this unit:

- evaluation of a portfolio which incorporates an entire written OHS system for an organisation, including policies, procedures, hazard identification and risk assessment template documents, information fact sheets for workers, job descriptions incorporating OHS roles, training plans and a communication strategy
- evaluation of reports prepared by the candidate detailing how OHS policies, systems and procedures were established for a given project or work activity
- evaluation of project or work activities conducted in conjunction with an industry operator to allow the candidate to develop systems for a particular workplace
- evaluation of the implementation and review processes through interviews with key stakeholders or review of reports
-
- case studies and problem-solving exercises to establish systems, policies and procedures for different workplace sizes and types
- written and oral questioning or interview to test knowledge of the legislative requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SITXADM003A Write business documents
- SITXGLC001A Develop and update legal knowledge required for business compliance.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

OHS management system must include:

- safe premises, including the provision of entrances and exits that are safe
- safe machinery, equipment and materials
- safe systems of work
- safe working environment
- information, instructions, training and supervision that ensure employees' health and safety
- adequate facilities for the welfare of employees
- appropriate management of incidents or accidents and notification to OHS regulatory authorities.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

OHS policies and procedures may cover:

- organisation's overall approach to OHS
- consultation
- incident and accident management and notification to OHS regulatory authorities
- participation of personnel in OHS management practices
- hazard identification
- risk assessment
- risk control
- ongoing monitoring of risks
- responsibilities of employees to ensure safety
- particular safe work practices in regard to:
  - handling of hazardous substances
  - manual handling
  - wearing or using protective equipment
- retail supply of hazardous substances
- security issues
- emergency evacuation and responses.

OHS training requirements may include:

- OHS policy and procedures
- induction training
- coaching or mentoring in safe work practices
- formal training programs in safe work practices
- provision of information, fact sheets and signage to ensure safe work practices
- OHS representative or committee training
- hazard identification, and risk assessment and control training.

OHS records may include documentation of:

- policies and procedures
- training plans and training undertaken
- consultation records, such as:
  - diaries of meetings
  - agendas for and minutes of meetings
  - committee members
  - consultation decisions and follow-up actions
- hazard identification records

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- risk assessments
- risk control actions
- incident, accident and near miss reports and related statistics
- incident or accident notifications to OHS regulatory authorities.

Consultative processes may involve:

- consultation with all employees during the course of each business day
- diary, whiteboard or suggestion box used by staff to report concerns
- recording of concerns in a management diary
- regular staff meetings that involve OHS discussions
- special staff meetings or workshops to specifically address OHS issues
- staff handbook with OHS information
- survey or questionnaire that invites feedback on OHS issues
- informal meetings with notes
- fact sheets to fully inform personnel about OHS rights and responsibilities
- formal meetings with agendas, minutes and action plans
- formal OHS representatives
- formal OHS committees
- participation in OHS management practices, such as involving personnel in:
  - conducting hazard identification and risk assessment
  - making decisions on how to eliminate or control risks
  - writing parts of OHS policies and procedures.

Times designated and required by legislation for consultation will vary but may include when the organisation:

- makes initial and ongoing decisions on how best to consult with personnel
- is proposing to make changes to the premises, equipment, materials and systems of work that might affect the health and safety of personnel
- conducts hazard identification and risk assessment or reviews hazard identification and risk assessment practices

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- makes decisions about actions to eliminate or control risks
- introduces or alters procedures for monitoring workplace risks
- introduces or alters facilities for the welfare of personnel.

Hazard identification and risk assessment tool or template document may include:

- self-designed tools developed for the organisation as part of an OHS management system
- tools and templates developed:
  - by external consultancy services
  - by industry associations for use of member businesses
  - for public use by and found within business management publications, including those developed by OHS regulatory authorities.

Assessment criteria may include:

- criteria developed by external consultancy services
- criteria outlined in Australian standards
- criteria suggested by industry associations for use by member businesses
- self-determined criteria for the organisation as part of an OHS management system.

Times designated by legislation for systematic hazard identification may include:

- when changes to the workplace are implemented, including:
  - before the premises are used for the first time
  - before and during the installation or alteration of any plant
  - before changes to work practices are introduced
  - when new information relating to health and safety risk becomes available.

Types of hazards designated by legislation may include:

- physical environment, for example:
  - working space of any workers
  - lighting
  - hot and cold environments
  - prevailing noise levels

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- electrical items
- flooring
- equipment designed to assist with or replace manual handling

- plant, for example:
  - machinery
  - tools
  - appliances
  - equipment
- working practices, for example:
  - opening and closing procedures and security procedures
  - any standard operating procedures for work-related tasks
  - rostering of staff and shift allocation
  - length of time spent at certain tasks and allocation of breaks.

SITXQUA001A Contribute to workplace improvements

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to generate and propose ideas for improvements to workplace practices, services or products. It requires the ability to identify areas for improvement, generate appropriate ideas or solutions, and discuss and review their appropriateness.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit describes a fundamental skill necessary to participate in making improvements to work practices, services or products within the service industries and applies to the full range of industry sectors and environments.

All personnel at all levels could apply this skill, but it does describe a basic operational function of minimal complexity.

The unit applies to frontline operational personnel who operate under close supervision and guidance from others during the normal course of their daily activities. They would apply little discretion and judgement because they operate within the predefined organisational procedures for their individual participation in work practices.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Identify areas for improvement to work practices, services or products.	1.1 Clearly identify own role in work practices and role of others. 1.2 Identify opportunities for improvements to work practices, services or products. 1.3 ***Check and clarify*** areas where improvements could be

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	made.
2 Generate ideas for improvement.	2.1 ***Generate a range of ideas*** or solutions. 2.2 Gather information relevant to ideas. 2.3 Review ideas for relevance and practicality. 2.4 Further ***develop suitable ideas based on information collection and review***.
3 Discuss ideas with others.	3.1 Identify ***people who can contribute*** to the ideas for improvement to work practices, services or products. 3.2 Select appropriate ***communication methods*** for discussing ideas. 3.3 Share and discuss ideas, ***seek feedback and consider*** all opinions. 3.4 Review feedback, modify and further develop ideas in response to feedback.
4 Develop ideas for improvement.	4.1 ***Explore processes*** required to implement suggested improvements to work practices, services or products. 4.2 Present ideas for improvement to appropriate people.
5 Review process for proposing improvements.	5.1 ***Review process*** for developing, discussing and presenting ideas and identify how things could be done better.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to use creative thinking techniques to generate a range of innovative ideas

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- observation skills
- basic skills in analysing work practices, services, products and positive and negative feedback
- basic research skills, including:
  - identifying sources of required information
  - questioning and active listening skills to elicit information
  - note taking
  - sorting and processing information
- creative thinking techniques
- written and oral communication skills for conveying ideas clearly and concisely
- basic presentation skills
- literacy skills to interpret written information relating to work practices, services and products
- ability to experiment with ideas and modify them according to feedback
- ability to relate to colleagues from a range of social, cultural and ethnic backgrounds and of varying physical and mental abilities and to listen to ideas and opinions of others with an open mind.

The following knowledge must be assessed as part of this unit:

- work practices, services or products of the organisation
- organisational structure, own role and role of various personnel
- typical communication methods used within organisations
- typical evaluation and review procedures used within organisations.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • project or work activities that show candidate's ability to observe work practices and analyse problems or areas where improvements could be implemented • knowledge of own role, role of others and services and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

products offered by the organisation
- ability to develop a range of ideas for workplace improvements or solutions to problems
- ability to consult with others, seek feedback, modify ideas and present suggested improvements.

Context of and specific resources for assessment

Assessment must ensure:

- project or work activities that show candidates' ability to contribute to work improvements within operationally realistic service industry environments and within the context of the particular industry sector and business type in which they are working or seeking work
- access to and use of current information and data on work practices, services or products
- access to organisational policies and procedures that relate to work practices and the review and evaluation of organisational activities.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of written reports prepared by the candidate on problems with work practices, services or products, including suggestions for improvements and methods for implementing the suggestions
- direct observation of the candidate discussing ideas with others and seeking feedback
- direct observation of the candidate presenting ideas and implementation suggestions to a group meeting
- project activities and problem-solving exercises to allow the candidate to identify work practice inefficiencies and problems and to generate a range of ideas or solutions
- written and oral questioning to assess knowledge of the work practices, services or products of the organisation, organisational structure, role of various personnel and typical communication methods used within organisations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE

	candidate. • Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Assessing employability skills	Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Checking and clarifying areas for improvement may involve:	• observing problems • observing inefficient work practices • observing non-compliance with policies and procedures • understanding current procedures and processes • asking questions to ensure full understanding of work practices, services or products.
Generating a range of ideas may involve:	• talking to colleagues or supervisors • considering how work practices are applied in other workplaces • using brainstorming techniques • visualising different ways of working • developing checklists and plans.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

Developing suitable ideas may involve:	• thinking through all aspects of ideas • exploring processes, resources and time required to implement ideas.
People who can contribute may include:	• colleagues • supervisors • managers • friends and family who work outside the organisation • those who can challenge or support the ideas • those who can provide technical knowledge on the viability of the ideas • those who can fund or promote the implementation of the ideas.
Communication methods may include:	• face-to-face discussions • interviews • telephone discussions • email • written correspondence, such as memos, letters and reports • suggestion boxes and suggestion boards • surveys and questionnaires • newsletter contributions • formal and informal meetings.
Seeking and considering feedback may involve:	• actively listening • asking questions • clarifying understanding • accepting the opinions and ideas of others, especially those with cultural or special needs • taking into account technical and OHS considerations and restrictions.
Exploring processes for implementation of ideas may involve:	• identifying all steps required to implement ideas for improvement • seeking technical advice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

	• identifying physical and human resources required • identifying how long it would take to make changes.
Reviewing process may involve identifying:	• communication problems that were encountered • lack of access to appropriate information to develop ideas • problems with own ability to present ideas and influence others • aspects that worked well • solutions for generation and presentation of future ideas.

SITXQUA002A Originate and develop a concept

Modification History

Not applicable.

Unit Descriptor

Unit descriptor

This unit describes the performance outcomes, skills and knowledge required to originate and develop a concept to a stage where it becomes the basis of a creative and effective product, service or process. It requires the ability to respond to a brief or develop a self-initiated proposal, originate the concept, seek technical and creative input, adjust the proposal and create an operational specification for the implementation of the concept.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit

This unit applies to the full range of industry sectors and environments within the service industries.

It may apply to designing a new entertainment concept, hospitality product, retail product or service, client package for a hotel or resort, style of cuisine for a restaurant or food outlet, type of recreational vehicle, quality control program, marketing campaign or convention package.

The unit applies to senior managerial, product or creative personnel who operate autonomously, may have responsibility for others and have a strategic planning and product development role.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units Nil

Employability Skills Information

Employability skills The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skills requirements.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1 Interpret the brief or clarify need or opportunity.	1.1 Explore the brief, need or opportunity for innovation, investigate and clarify the context for the new ***product or service***.
	1.2 Clarify ***purpose***, desired outcome or end product, broad content, style, cost, intended audience or user and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	other relevant ***factors*** of the brief, need or opportunity.
	1.3 Specify the purpose, goals, constraints and requirements of the final product, service or process.
2 Develop a range of creative approaches.	2.1 Generate a range of different, innovative and creative approaches and concepts.
	2.2 Review different approaches or concepts for feasibility, innovation, creativity and acceptability to client or audience.
	2.3 Identify possible ***constraints*** and check the approaches or concepts against constraints to determine feasibility.
	2.4 Take into consideration social, ethical and environmental impacts of the approaches or concepts.
	2.5 Investigate effects and advantages of various combinations of activities, systems, processes, staff and materials for achieving a creative, innovative and appropriate outcome.
	2.6 Select concepts or approaches that achieve the required outcome in an innovative and feasible way and document draft proposals representing those approaches in an ***appropriate format***.
3 Seek opinions of colleagues and a range of creative technical experts and specialists.	3.1 Discuss proposals with ***colleagues and specialists***.
	3.2 Clarify creative and technical aspects of proposals and seek expert advice where required.
	3.3 Compare proposals with best practice examples of similar products, services or processes.
4 Adjust and refine proposal on the basis of advice received and evaluation.	4.1 Determine advantages and disadvantages of each approach or strategy based on ***established criteria***.
	4.2 Evaluate proposals and select the approach that will result in desired outcome.
5 Develop concept to an operational level.	5.1 Develop detailed specification for the product, service or process in terms of creativity, audience or user, budget and technical requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	5.2 Present detailed ***specification*** to relevant parties for approval, funding or endorsement.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- ability to use creative techniques to generate a range of innovative ideas
- ability to communicate with a wide range of people
- research skills.

The following knowledge must be assessed as part of this unit:

- relevant specialist technical knowledge relating to issues for the specific work contexts within the particular service industry sector and business
- appropriate ways of documenting creative proposals
- past history of work in related areas
- social and environmental effects of possible approaches
- technical principles and knowledge appropriate to the area covered by the concept

communication principles.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in	Evidence of the following is essential: • project or work activities that show the candidate's ability to generate and evaluate original, creative and

EVIDENCE GUIDE

this unit

effective concepts that can be translated into concrete operational proposals

- ability to fully research, comprehend and analyse information on the full range of issues that relate to originating and developing the concepts
- ability to consult and communicate with colleagues and external specialists
- ability to review, modify and document concepts and operational specifications.

Context of and specific resources for assessment

Assessment must ensure:

- access to a service industry operation for which concepts would be originated and developed ***or***
- access to comprehensive and sufficient information about that service industry operation to allow the candidate to fully develop concepts
- involvement of both internal and external specialists so consultation can be achieved.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- project activities to originate and develop concepts in conjunction with an industry operator
- project activities to originate and develop concepts for service industry products for the training college or local community
- case studies to assess the candidate's ability to evaluate, adjust and refine concepts
- written and oral questioning or interview to test technical knowledge and knowledge of the contents of operational specifications and other conceptual documentation
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

BSBMGT516A Facilitate continuous improvement

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Product or service may include:	• new or enhanced service industry product or service • marketing campaigns • loyalty programs • advertising campaigns.
Purpose of the product or service may be:	• new product to gain market share • new product to diversify the current product range • expanded product range to minimise business risk.
Factors may include:	• cost-effectiveness • technical feasibility • audience or user characteristics • issues relating to implementation, such as:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT

- level of skill and understanding
- resource requirements
- need for additional staff training
- access to technology.

Constraints may include:

- cost
- finance
- time
- availability of skilled experts and personnel
- availability of equipment
- technical difficulty in realising the concept.

Appropriate format may include:

- proposals to be submitted to a funding body or sponsor
- briefs for a consultant
- descriptions of a creative proposal for in-house consideration.

Colleagues and specialists may include:

- staff involved in the design or implementation of process
- technical specialists
- creative and administrative staff
- external consultants.

Established criteria may include:

- creativity
- appropriateness to the user or audience
- cost-effectiveness
- level of risk
- potential benefits
- technical feasibility.

Specifications may include:

- purpose
- audience
- time
- budget
- human and physical resources, including plant and equipment
- ownership of final product

INTRODUCTION

Unit Descriptor	This unit covers the competencies required to start up a personal computer or business computer terminal, correctly navigate the desktop environment and use a range of basic functions. This unit is related to BSBCMN213A Produce simple wordprocessed documents and BSBCMN214A Create and use simple spreadsheets. Consider co-assessment with BSBCMN108A Develop keyboard skills.
Competency Field	Common

Element	Performance Criteria
1. Start computer and basic	1.1 Computer is started or user logged on according to user

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

system information and features	procedures 1.2 Basic functions and features are identified using system information 1.3 Desktop configuration is customised if necessary with assistance from appropriate persons 1.4 Disks are erased and formatted as necessary 1.5 Available help functions are used as required
2. Navigate and manipulate desktop environment	2.1 Desktop icons are correctly selected, opened and closed to access features (directories/folders, files, network devices, recycle bin and waste basket) 2.2 Different roles and parts of the desktop window are identified for particular functions 2.3 Desktop windows are opened, resized and closed for navigation purposes 2.4 Shortcuts from the desktop are created if necessary with assistance from appropriate persons
3. Organise basic directory and folder structures	3.1 Directories/folders with subdirectories/subfolders are created and suitably named 3.2 Directory/folder attributes (size, dates, etc) are identified 3.3 Subdirectories/folders are moved between directories/folders 3.4 Directories/folders are renamed as required 3.5 Directories/folders and subdirectories/folders are accessed via different paths
4. Organise files for use and/or organisational requirements	4.1 The most commonly used types of files in a directory/folder are identified 4.2 Files are created and suitably named when required 4.3 Groups of files are selected and opened and renamed as required 4.4 Files are copied or cut and pasted across directories 4.5 Files are copied to disk where necessary 4.6 Deleted files are restored as necessary 4.7 Software tools are used to locate files
5. Print information	5.1 Information printed from installed printer 5.2 Progress of print jobs viewed and deleted as required 5.3 Default printer is changed for installed list if available

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

6. Shutdown computer	6.1 All open applications are closed 6.2 Computer is shutdown in accord with user procedures

RANGE STATEMENT

The Range Statement provides advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. The following variables may be present for this particular unit:

Legislation, codes and national standards relevant to the workplace which may include:	• award and enterprise agreements and relevant industrial instruments • relevant legislation from all levels of government which affect business operation, especially in regard to Occupational Health and Safety and environmental issues, equal opportunity, industrial relations, anti-discrimination and diversity • relevant industry codes of practice
Documents may include but are not limited to:	• help files • established files and applications
Operating systems may include	• command line and graphical user interface
Disks may include but are not limited to:	• diskettes • CDs • zip disks
IT components can include:	• hardware • software • communications packages
OHS standards may include:	• statutory requirements • OHS guidelines related to the use of the screen equipment, computing equipment and peripherals, and ergonomicwork

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

stations, security procedures, customisation requirements

EVIDENCE GUIDE

The Evidence Guide identifies the critical aspects, underpinning knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statement.

Critical Aspects of Evidence	• Ability to perform start up and filing procedures, file name conventions and • To navigate and manipulate the desktop environment within the range of assigned workplace tasks
Underpinning Knowledge* * At this level the learner must demonstrate knowledge by recall in a narrow range of areas.	• Relevant legislation from all levels of government which affect business operation, especially in regard to Occupational Health and Safety and environmental issues, equal opportunity, industrial relations, anti-discrimination and diversity • Organisational benchmarks for keyboarding • Basic ergonomics of keyboard and computer use • Main types of computers and basic features of different operating system • Main parts of a computer • Storage devices and basic categories of memory • Relevant types of software • Suitable file naming conventions • General security, viruses, privacy legislation and copyright
Underpinning Skills	• Literacy skills to identify work requirements and to comprehend basic workplace documents and interpret basic user manuals • Communication skills to identify lines of communication, request advice, effectively question, follow instructions and receive feedback • Problem solving skills to solve routine problems in the workplace, while under direct supervision • Technology skills to use equipment safely while under direction, basic keyboard and mouse using skills and logging procedures relating to accessing a PC

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	• Ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental
Resource Implications	The learner and trainer should have access to appropriate documentation and resources normally used in the workplace
Consistency of Performance	In order to achieve consistency of performance, evidence should be collected over a set period of time which is sufficient to include dealings with an appropriate range and variety of situations
Context/s of Assessment	• Competency is demonstrated by performance of all stated criteria, including paying particular attention to the critical aspects and the knowledge and skills elaborated in the Evidence Guide, and within the scope as defined by the Range Statement • Assessment must take account of the endorsed assessment guidelines in the Business Services Training Package • Assessment of performance requirements in this unit should be undertaken in an actual workplace or simulated environment • Assessment should reinforce the integration of the key competencies and the Business Services Common Competencies for the particular AQF Level. Refer to the Key Competency Levels at the end of this unit

KEY COMPETENCY LEVELS

NB: These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

Collect, analyse and organise information	Communicate ideas and information	Plan and organise activities	Work with others and in teams	Use mathematical ideas and techniques	Solve problems	Use technology
Level 1	Level 1	Level 1	Level 1	Nil	Level 1	Level 1

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Three levels of performance denote level of competency required to perform a task.

1. Perform 2. Administer 3. Design

- Collecting, analyse and organise information – to access equipment instructions
- Communicating ideas and information – to obtain advice
- Planning and organising activities – to plan own work
- Working with teams and others – to complete scheduled tasks
- Using mathematical ideas and techniques – not applicable for this unit
- Solving problems – to operate a computer
- Using technology – to operate equipment and complete a task

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

BSBCUS401A Coordinate implementation of customer service strategies

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to advise on, carry out and evaluate customer service strategies, including the design of improvement strategies based on feedback. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals with a broad knowledge of customer service strategies who contribute well developed skills in addressing customer needs and problems. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Advise on customer service needs	1.1. Clarify and accurately assess ***customer needs*** using appropriate ***communication techniques*** 1.2. Diagnose problems matching service delivery to ***customers*** and develop options for improved service within ***organisational requirements*** 1.3. Provide relevant and constructive advice to promote the improvement of customer service delivery 1.4. Use ***business technology*** and/or ***online services*** to structure and present information on customer service needs
2. Support implementation of customer service strategies	2.1. Ensure customer service strategies and opportunities are promoted to ***designated individuals and groups*** 2.2. Identify and allocate available budget resources to fulfil customer service objectives 2.3. Promptly action ***procedures to resolve customer difficulties*** and ***complaints*** within organisational requirements 2.4. Ensure that decisions to implement ***strategies*** are taken in consultation with designated individuals and groups
3. Evaluate and report on customer service	3.1. Review client satisfaction with service delivery using verifiable data in accordance with organisational requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.2. Identify and report changes necessary to maintain service standards to designated individuals and groups 3.3. Prepare conclusions and recommendations from verifiable evidence and provide constructive advice on future directions of client service strategies 3.4. Maintain systems, records and reporting procedures to compare changes in customer satisfaction

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to read a variety of texts, to prepare general information and papers, and to write formal and informal letters according to target audience
- planning skills to develop implementation schedules
- problem-solving skills to diagnose organisational problems relating to customer services.

Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety (OHS)
- principles of customer service
- organisational business structure, products and services
- product and service standards and best practice models.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • identifying needs and priorities of the organisation in delivering services to customers • responding to and reporting on customer feedback • designing strategies to improve delivery of products and services • knowledge of the principles of customer service.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • examples of customer complaints, feedback and strategies.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of documentation reporting changes necessary to maintain service standards • analysis of responses to case studies and scenarios • demonstration of techniques • observation of presentations • oral or written questioning to assess knowledge of customer service techniques and strategies • review of systems, records and reporting procedures to compare changes in customer satisfaction.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • sales units • other customer service units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Customer needs may relate to:	• accuracy of information • advice or general information • complaints • fairness/politeness • further information • making an appointment • prices/value • purchasing organisation's products and services • returning organisation's products and services • specific information
Communication techniques may include:	• analysing customer satisfaction surveys • analysing quality assurance data • conducting interviews • consultation methods, techniques and protocols • making recommendations • obtaining management decisions • questioning • seeking feedback to confirm understanding • summarising and paraphrasing
Customers may include:	• corporate customers • individual members of the organisation • individual members of the public • internal or external • other agencies
Organisational requirements may include:	• access and equity principles and practice • anti-discrimination and related policy • confidentiality and security requirements • defined resource parameters

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ethical standards • goals, objectives, plans, systems and processes • legal and organisational policies, guidelines and requirements • OHS policies, procedures and programs • payment and delivery options • pricing and discount policies • quality and continuous improvement processes and standards • quality assurance and/or procedures manuals • replacement and refund policy and procedures • who is responsible for products or services
Business technology may include:	• answering machine • binder • computer • fax machine • photocopier • printer • shredder • telephone
Online services may include:	• access to product database by customers online • access to purchase, delivery and account records • call/contact centre • online ordering • online payments • online registration • quick/reasonable response • two-way communication online
Designated individuals and groups may include:	• colleagues • committee • customers • external organisation • line management • supervisor
Procedures to resolve customer difficulties may include:	• external agencies (e.g. Ombudsman) • item replacement • referrals to supervisor • refund of monies • review of products or services

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• using conflict management techniques

Customer complaints may include:	• administrative errors such as incorrect invoices or prices
	• customer satisfaction with service quality
	• damaged goods or goods not delivered
	• delivery errors
	• products not delivered on time
	• service errors
	• specific e-business problems and issues:
	  • difficulty accessing services
	  • inactive links
	  • not appreciating differing hardware and software
	  • services not available
	  • supply errors such as incorrect product delivered
	  • time taken to access services
	  • unfriendly website design
	  • website faults
	• warehouse or store room errors such as incorrect product delivered

Customer service ***strategies*** may include:	• courtesy/politeness • delivery times • merchandise characteristics • price offers • product/refund guarantees • product/service availability

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Review website content and use	1.1. Monitor and analyse customer and user feedback in accordance with organisational timelines 1.2. Analyse automatically collected website data and identify trends 1.3. Make recommendations on changes to the website and its content in response to ***feedback and data analysis*** and approve changes scheduled for implementation 1.4. Review cost implications of the recommended changes to determine their viability
2. Update website	2.1. Replace superseded and inaccurate information with current information and add additional material in accordance with organisational requirements 2.2. Follow protocols for ensuring the accuracy and authenticity of information 2.3. Remove services no longer available or required and add new ones in accordance with organisational requirements 2.4. Check ***off-line information*** against that posted on the website and rectify discrepancies in accordance with organisational timelines 2.5. Follow ***security procedures*** for updating the website
3. Carry out non	3.1. Analyse user feedback to confirm that faults have

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
technical site maintenance	resulted from the site and are not user problems 3.2. Rectify faults and make improvements to the site in response to user feedback approved by the organisation 3.3. Add new web pages and/or active links and remove redundant pages and links in accordance with organisational requirements 3.4. Make site changes in response to changes in marketing strategy in accordance with organisational requirements and consideration of cost benefits

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to interpret policies and procedures, provide recommendations to others and to draft text in a logical sequence and structure appropriate for an online format
- numeracy skills for basic statistical analysis of website usage data
- communication skills for consultation with users and customers.

Required knowledge

- identification and overview knowledge of key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
- ethical principles
  - codes of practice
  - privacy laws
  - Occupational Health and Safety
- basic principles of website design and maintenance
- online security issues.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Investigate e business opportunities	1.1. Undertake a competitive analysis to determine the likely impact ***new capabilities*** will have on industry sectors and competitors 1.2. Complete and assess ***value chain analysis*** to identify ***processes and relationships*** that may benefit from the adoption of e-business solutions 1.3. Identify ***threats and opportunities*** to e-business implementation and evaluate potential ***contributions to the business*** 1.4. Conduct resource analysis to identify cost and revenue implications in developing opportunities 1.5. Identify and evaluate legal and ethical issues relating to e-business opportunities
2. Evaluate e business models	2.1. Identify and analyse ***business-to-business***, ***business-to-consumer***, intra-organisational e-business applications and ***e-business models*** 2.2. Rank compatible e-business models in terms of their strengths and weaknesses, considering resourcing, technical and security requirements of each 2.3. Assess cost implications of implementation of e-business models

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.4. Determine an e-business model most appropriate in relation to business plan
3. Design an e business	3.1. Formulate purpose, objectives and values for the e-business 3.2. Identify target market, and value chain structure in accordance with chosen e-business model 3.3. Identify and obtain ***technical needs and expertise*** required to implement e-business model 3.4. Investigate and develop plan to address culture change issues to manage transition to an e-business
4. Implement an e business strategy	4.1. Develop ***policies and guidelines*** to support customers, supply chain and staff to ensure successful implementation 4.2. Monitor performance of business goals and adjust policies and procedures to respond to changing needs of customers, staff and supply chain 4.3. Review e-business systems and models, seeking feedback from users and personnel responsible for e-business implementation 4.4. Incorporate evaluation results and feedback to improve future e-business strategies

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- analytical and problem-solving skills to assess information and apply to identified business needs
- communication skills to collaborate with technical experts and other staff
- literacy skills to identify and interpret market and product information.

Required knowledge

- features of a range of software and hardware systems
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• ethical principles • codes of practice • privacy laws • copyright • occupational health and safety • organisational policies and procedures relating to the systems, products and/or service being worked with.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • evaluation of e-business opportunities involving new business models and not simply electronic versions of existing businesses • rationale and supporting evidence for choice of e-business solution • knowledge of relevant legislation.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and networked computers • documentation relating to analysis and strategies/policies for implementation.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment

EVIDENCE GUIDE	
	• demonstration of techniques in a workplace or simulated environment.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBEBU502AImplement e-business solutions • IT use units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
New capabilities may include:	• 24-hour operation • automated marketing efforts • communication • distribution channel • global reach • online customer service • online inventory • online payments • online purchasing • online sales systems • supply chain

Value chain analysis may include:	• an analysis of a series of primary activities, such as:
	  • inbound logistics
	  • marketing and sales
	  • operations
	  • outbound logistics
	  • service support
	• and their support activities, such as:
	  • business infrastructure

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• human resources management • procurement • technological development
Processes and relationships may include:	• customer service • delivery of core services • delivery of government services • delivery of products • development of new products, services and markets • organisational structures • trading communities
Threats and opportunities may include:	• business to government (B2G) opportunities where e-business is conducted between an enterprise and the government • business-to-business (B2B) opportunities where e-business is conducted between companies • business-to-consumer (B2C) opportunities where e-business is conducted between an enterprise and a customer • competition legislation • disintermediation threats/opportunities where the role of 'middlemen' or other middle supply chain elements is reduced or made redundant as newer more efficient supply chain technologies are implemented • infrastructure requirements: disaster recovery, failsafe systems • internal business opportunities that improve productivity utilising e-business development • re-intermediation opportunities, where e-business creates new value between producers and consumers • risk management: payments, fraud etc.

Contributions to the business may include:	• effect on:
	  • customer satisfaction ratings
	  • growth
	  • market share
	  • profitability
	  • return on investment
	  • sales

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• staff morale i.e. using efficient technologies to enhance workplace • staff productivity and professional development
Business-to-business may include:	• involves e-business between organisations • may be B2G (business to government)
Business-to-consumer may include:	• involves e-business between an enterprise and a customer
E-business models may include:	• aggregator models • collaboration partners • competitor cooperation model • e-auction • e-government • e-mall • e-office • e-procurement • e-shop/e-tailing • information brokers • micro-payments business model • multilevel marketing • portal • tender services • third party marketplaces • trust services • value chain integrators • value chain service providers • virtual community • web rings
Technical needs and expertise may include:	• advice on existing business strategy and base business versus growth business • advice on staffing arrangements • advice on technology issues/compatibility • banking information for electronic funds transfer • contact person • feedback loops • new protocols relating to legal or security issues for e-business • open and international standards e.g. EAN.UCC or UN/EDIFACT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• personal identification and password for online access to business processes e.g. purchasing or supply
Policies and guidelines may include:	• business ethics • confidentiality • electronic communication • fraud prevention and detection • human resources management • information management • intellectual property • legal issues e.g. jurisdiction, contract validity, taxation • outsourcing • performance management • privacy • risk management • security

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Record payroll data	1.1. Check payroll data and clarify discrepancies with ***designated persons*** 1.2. Enter employee ***pay period details*** and any ***deductions and allowances*** in ***payroll system*** in accordance with ***source documents*** 1.3. Calculate payment due to individual employees to reflect standard pay and ***variations*** in accordance with employee source data
2. Prepare payroll	2.1. ***Prepare payroll*** within designated time lines in accordance with organisational policy and procedures 2.2. Reconcile total wages for pay period, check or correct irregularities or refer to designated persons for resolution 2.3. Make arrangements for payment in accordance with organisational and individual requirements 2.4. Obtain authorisation of payroll and individual pay advice in accordance with organisational requirements 2.5. Produce, check and store ***payroll records*** in accordance with organisational policy and security procedures 2.6. Follow security procedures for processing payroll and for maintaining payroll records

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3. Handle payroll enquiries	3.1. Respond to payroll ***enquiries*** in accordance with organisational and ***legislative requirements*** 3.2. Provide information in accordance with organisational and legislative requirements 3.3. Ensure all enquiries outside area of responsibility and knowledge are referred to designated persons for resolution 3.4. Complete additional information or follow-up action within designated time lines in accordance with organisational policy and procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- literacy skills to:
  - read and understand organisation's financial policies and procedures, and any procedures based on legislative requirements
  - write cheque or salary authorisations
  - prepare pay advice slips
  - maintain records
- numeracy skills to perform calculations and to reconcile figures
- problem-solving skills to reconcile figures and to resolve employee enquiries within scope of own responsibility.

Required knowledge

- key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - financial legislation
  - privacy laws
  - occupational health and safety

REQUIRED SKILLS AND KNOWLEDGE
• organisational policy and procedures • types of payroll systems.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • performing payroll calculations • applying knowledge of organisational guidelines relating to security and confidentiality of information.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to computer equipment, relevant software and payroll data (samples or actual).
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment • analysis of responses to case studies and scenarios • demonstration of techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other financial administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Designated persons may include:	• immediate supervisor • those who have the authority to approve payroll decisions
Pay period details may include:	• bonus • casual wage • commission • contract • piecework • salary • wage
Deductions and allowances may include:	• car allowance • health insurance • income tax • meal allowance • superannuation contributions • travel allowance • union dues
Payroll system may include:	• manual • computerised
Source documents may include:	• employee earnings and payroll register • employee records or history • employee timesheets
Variations may include:	• holiday loading • long service leave • overtime • paid leave • rates of pay • sick leave • taxation • unpaid leave

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Preparing payroll may include:	• calculation of gross pay • cash analysis • electronic funds transfer • net pay • preparing cheques • preparing pay advice slips • taxation and other deductions
Payroll records may include:	• cash analysis sheets • electronic funds transfer • employee summary report • end of month reports • end of year reports • group certificates • pay advice slips • taxation reports
Enquiries may include:	• email • face-to-face • fax • telephone
Legislative requirements may include:	• Australian Tax Office regulations e.g. Australian Business Number, Employment Declaration Forms • confidentiality and security of records • Higher Education Contribution Scheme (HECS) • Higher Education Loan Programme (HELP) • Medicare levy • PAYE tax • payroll tax

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Maintain financial journal systems	1.1. Check ***source documents*** for accuracy and appropriate authorisation 1.2. Refer errors and discrepancies in source documents for resolution, in accordance with organisational policy and procedures 1.3. Enter ***transactions*** into cash and credit ***journal system*** in accordance with organisational policy and procedures, and ***relevant legislation and compliance requirements*** 1.4. Total credit journals in accordance with organisational policy and procedures
2. Prepare bank reconciliations	2.1. Check cash journals against bank statements to identify differences 2.2. Update cash journals with relevant data from bank statement/s 2.3. Identify ***discrepancies*** and refer to appropriate staff member, organisation or agency 2.4. Total cash journals in accordance with organisational policy and procedures 2.5. Prepare regular reconciliation reports within designated time lines

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3. Maintain accounts payable and accounts receivable systems	3.1. Enter transactions into individual ***accounts payable and accounts receivable***, in accordance with organisational policy and procedures, and accounting requirements 3.2. Prepare schedules of accounts payable and accounts receivable for reconciliation purposes, in accordance with organisational requirements 3.3. Reconcile schedules accounts payable and accounts receivable with ***journal data*** or general ledger, in accordance with organisational requirements
4. Process payments for accounts payable	4.1. Reconcile accounts payable statements with accounting records, in accordance with organisational policy and procedures 4.2. ***Check payment documentation*** for accuracy of information and discrepancies and rectify errors, in accordance with organisational requirements
5. Prepare statements for accounts receivable	5.1. Produce and check ***accounts receivable statements*** for accuracy of content in accordance with organisational policy and procedures 5.2. Rectify discrepancies and statements despatched within designated time lines
6. Follow up outstanding accounts	6.1. Maintain accounts receivable ledger system, in accordance with organisational requirements, to reflect current credit situation 6.2. Conduct aged analysis of accounts receivable to identify outstanding accounts and to determine collection procedures, in accordance with organisational requirements 6.3. Report or follow-up outstanding accounts in accordance with organisational policy and procedures 6.4. Monitor and review ***credit terms*** in accordance with credit policy and procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.

BSBFIM501A Manage budgets and financial plans

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to undertake financial management within a work team in an organisation. This includes planning and implementing financial management approaches, supporting team members whose role involves aspects of financial operations, monitoring and controlling finances, and reviewing and evaluating effectiveness of financial management processes in line with the financial objectives of the work team and the organisation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit addresses the requirement for managers to ensure that financial resources are used effectively. This is done by ensuring access to budget/s and ongoing monitoring expenditure against the budget/s. The unit applies to managers working in small and large business environments and not for profit organisations.

Licensing/Regulatory Information

Not applicable.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• numeracy skills to read and understand a budget and to update a budget • technology skills to use software associated with financial record keeping.
Required knowledge
• basic accounting principles • organisational requirements related to financial management • relevant legislation and current requirements of the Australian Taxation Office, including GST • requirements for organisational record keeping and auditing • principles and techniques involved in: • budgeting

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• cash flows • electronic spreadsheets • GST • ledgers and financial statements • profit and loss statements.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • financial skills required to work with and interpret budgets, ageing summaries, cash flow, petty cash, GST, and profit and loss statements • knowledge of the record keeping requirements for the ATO and for auditing purposes.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate documentation and resources normally used in the workplace.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • assessment of written reports indicating broad knowledge of managing budgets and managing financial resources in the organisation • demonstration of techniques using financial record keeping software • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • oral or written questioning to assess knowledge of requirements for organisational record keeping and auditing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• review of contingency plans • review of identification of cost variations and expenditure overruns • evaluation of documentation reportingon budget and expenditure • review of documentation identifying and recommending improvements to financial management processes.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other units from the Diploma of Management.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Budget/financial plans may include:	• cash flow projections • long-term budgets/plans • operational plans • short-term budgets/plans • spreadsheet-based financial projections • targets or key performance indicators for production, productivity, wastage, sales, income and expenditure
Relevant personnel may include:	• financial managers, accountants or financial controllers • supervisors, other frontline managers
Contingency plans may include:	• contracting out or outsourcing human resources and other functions or tasks • diversification of outcomes • finding cheaper or lower quality raw materials and consumables

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• increasing sales or production • recycling and re-using • rental, hire purchase or alternative means of procurement of required materials, equipment and stock • restructuring of organisation to reduce labour costs • risk identification, assessment and management processes • seeking further funding • strategies for reducing costs, wastage, stock or consumables • succession planning
Support may include:	• access to specialist advice • documentation of procedures • help desk or identified experts within the organisation • information briefings or sessions • intranet-based information • training including mentoring, coaching and shadowing
Required roles may include:	• arranging for use of corporate credit cards • banking • debt collection • ensuring security, accuracy and currency of financial operations • invoicing clients, customers and consumers • maintaining journals, ledgers and other record keeping systems • maintaining petty cash system • purchasing and procurement • wages and salaries payments and record keeping
Resources and systems may include:	• hardware and software • human, physical or financial resources • record keeping systems (electronic and paper-based) • specialist advice or support

Processes to monitor actual expenditure and to control costs across the work team include:	• reporting of:
	  • assets
	  • consumables

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• equipment • expenditure • income • stock • wastage
Reporting may include data from:	• bank statements • credit card statements • financial reports • invoices and receipts • ledgers and journals • logs • petty cash records • spreadsheet-based records
Data and information on the effectiveness of financial management processes may include records (paper-based and electronic) related to:	• bank account records • cash flow data • contracts • credit card receipts • employee timesheets • files of paid purchase and service invoices • income and expenditure • insurance reports • invoices • job costings • petty cash receipts • quotations • taxation records • wages/salaries books

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Establish procedures for the management of payroll	1.1. Establish ***security procedures*** that ensure the confidentiality and security of payroll information 1.2. Ensure procedures guarantee substantiation of claims for allowances 1.3. Establish ***control measures*** to safeguard organisation's financial resources in accordance with ***legislative and organisational requirements*** 1.4. Establish systems to ensure that statutory obligations are met and records are kept for the period determined by government legislation
2. Prepare payroll data	2.1. Use ***nominated industrial awards***, ***contracts and government legislation*** to ***calculate gross pay and annual salaries*** 2.2. Calculate ***statutory and voluntary deductions*** using government and employee documentation 2.3. Provide payroll data to payroll processor for calculation within ***designated time lines***
3. Authorise payment of salaries	3.1. Check payroll, and authorise salaries and wages for payment in accordance with organisational policy and procedures 3.2. Reconcile salaries, wages and deductions in accordance with organisational policy and procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3. Deal with salary, wage and related enquiries in accordance with organisational policy and procedures
4. Administer salary records	4.1. Process declaration forms for new and existing employees in accordance with Australian Taxation Office requirements 4.2. Forward periodic deductions to ***nominated creditors*** within designated time lines 4.3. Prepare and despatch payments to government authorities accurately and in accordance with the relevant government legislation 4.4. Calculate and transcribe group tax amounts and make payments in accordance with taxation procedures 4.5. Prepare and reconcile employee group certificate amounts from salary records

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to answer enquiries, and to explain and resolve discrepancies with employees
- literacy skills to follow complex financial procedures and to follow and write detailed instructions
- numeracy skills to:
- use financial formulae
- calculate gross and net pay
- compare differing rates of pay over a given time span of the same nature
- prepare cash analysis sheets
- reconcile figures and rectify anomalies to ensure accuracy.

Required knowledge

- key provisions of relevant legislation from all forms of government, standards, regulations and codes that may affect aspects of business operations, such as:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• Australian Taxation Office regulations • anti-discrimination legislation • ethical principles • codes of practice • financial legislation • privacy laws • relevant industrial awards • other relevant government and statutory bodies in relation to payroll • Superannuation Guarantee (Administration) Act and superannuation regulations • organisational policies and procedures across the full range of tasks requiredpayroll processes.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • documenting steps undertaken to establish payroll system • using data and calculations to calculate payroll, including a range of deductions • preparing appropriate records to record payroll processing.

Context of and specific resources for assessment	Assessment must ensure:
	• access to office equipment and resources, such as:
	  • Australian Accounting and Auditing Standards
	  • calculator
	  • certified or workplace agreements
	  • computer equipment and relevant software
	  • HECS/HELP documentation
	  • organisation's accounting system
	  • organisational contracts
	  • paper-based or electronic payroll system

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• relevant Australian Taxation Office legislation • relevant industrial Awards • Superannuation Guarantee (Administration) Act • access to samples of financial data.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • demonstration of techniques • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment • oral or written questioning to assess knowledge of accounting procedures and techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • financial administrationunits • other financial management units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Security procedures may include:	• authorised access • back-up files • computer passwords • employees signing for pay • ensuring security of passwords and keys • keeping payroll documents secure • maintaining security and confidentiality of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	employees' details • numbering payroll registers • restricting access to electronic files and locking paper-based confidential information • separating locations of confidential information • storage of information off site • supervision of timesheets
Control measures may include:	• authorisation requirements • dual checking system • internal control policies and procedures • multiple checks and balances • reconciliation of records • separation of duties
Legislative and organisational requirements may include:	• Australian Accounting and Auditing Standards • Australian Securities and Investments Commission (ASIC) requirements • Australian Taxation Office regulations • corporations law • Fringe Benefits Tax (FBT) • Higher Education Contribution Scheme (HECS) • Higher Education Loan Programme (HELP) • legislation and regulations in relation to superannuation such as the Superannuation Guarantee (Administration) Act • organisational policy and procedures for cash handling • Pay As You Go (PAYG) tax • superannuation • tax file number
Nominated industrial awards, contracts and government legislation may include:	• certified and workplace agreements • enterprise agreements • federal and state/territory awards • use of Wageline
Calculating gross pay and annual salaries may include:	• allowances • annual leave loading • appropriate pay structure • deductions • employment history cards

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• FBT • FBT returns • long service leave • overtime • penalty rates • salary packaging items • salary sacrificing • sick leave • time sheets
Statutory and voluntary deductions may include:	• HECS • HELP • insurance • Medicare levy • PAYG tax • payroll tax • superannuation levy • union fees
Designated time lines may include:	• Australian Taxation Office time lines for submission such as group tax, fringe benefits tax • Business Activity Statement (BAS) • stipulated time period before employee departs organisation • stipulated time period before pay is due to employees • organisational time lines
Nominated creditors may include:	• Australian Taxation Office • government agencies • health funds • membership organisations • those nominated as part of salary packaging • union • vehicle leasing organisations

BSBFRA401B Manage compliance with franchisee obligations and legislative requirements

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to comply with obligations set out in the franchising agreement and with relevant legislative requirements specific to the type of franchise. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to franchisees who require a broad knowledge of franchisee obligations and legislative requirements and who use this knowledge to develop compliance strategies. Franchisors will have their needs met in this area by BSBFRA501B Establish a franchise operation.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Determine franchisee obligations and legislative requirements	1.1. Identify ***obligations under franchising agreement*** 1.2. Identify relevant ***legislative requirements*** 1.3. Access codes of practice and material that interprets and explains obligations and legislative requirements 1.4. Clarify obligations and legislative requirements with franchisor and relevant ***government*** and licensing agencies
2. Develop strategies for compliance with franchisee obligations and legislative requirements	2.1. Analyse available information on obligations and legislative requirements to develop ***strategies*** for compliance 2.2. Check strategies with franchisor to determine suitability to operate franchise within obligations and legislative requirements 2.3. Use strategies to develop regular, cyclical ***compliance checks*** 2.4. Complete ***training*** to facilitate compliance requirements
3. Undertake scheduled compliance checks	3.1. Communicate compliance requirements to staff 3.2. Delegate compliance checks to relevant staff and provide training and support for staff to carry out these checks 3.3. Record timing and outcomes of compliance checks according to organisational requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.4. Identify instances of non-compliance from compliance checks
4. Act on identified instances of non compliance with franchisee obligations and legislative requirements	4.1. Determine courses of action to address instances of non-compliance 4.2. Seek assistance of franchisor or other relevant parties to address non-compliance 4.3. Take action to address non-compliance 4.4. Make checks to ensure non-compliance has been addressed 4.5. Monitor compliance in a specific area to ensure continuing compliance 4.6. Analyse reasons for non-compliance to guide future compliance

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- communication and negotiation skills to establish franchisee obligations
- problem-solving skills to address non-compliance
- research skills to access necessary information.

Required knowledge

- occupational health and safety (OHS) requirements:
  - specific to nature and type of franchise
  - generic to all workplaces
- other relevant legislation, codes of practice and national standards, for example:
  - legislation covering fire safety, employment of staff and anti-discrimination, dangerous goods, liquor licensing, food safety
  - Franchising Code of Conduct
- franchise specific obligations:
  - as per franchise agreement
  - as per updates and amendments to agreement over time
- auditing requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• penalties for non-compliance and context for franchisee obligations and legislative requirements.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • schedule of checks being undertaken associated with a broad statement of strategies to ensure compliance • compliance check schedule and examples of checks made • documented actions to address instances of non-compliance • demonstrated support to staff to assist with compliance • knowledge of relevant legislation, codes of practice and national standards.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to examples of real franchisee agreements and related documentation.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of action taken to address non-compliance • oral or written questioning to assess knowledge of franchisee arrangements • evaluation of strategies developed for compliance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• review of documentation recording timing and outcomes of compliance checks.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Obligations under franchising agreement may include:	• area of operations or limits to region or territory • fees and pricing structures • fees paid to franchisor • financial controls • franchise corporate image requirements and branding • limits on trading of other products and services that are outside franchise operations • merchandising requirements • quality assurance requirements • reporting of income, sales or turnover • stock control and inventory requirements, and reporting of this information
Legislative requirements may include:	• Australian Taxation Office requirements, including requirements to register as a business and obtain an (Australian Business Number) ABN • Dangerous Goods Act requirements • fire regulations • food safety requirements • Liquor Licensing Act requirements • local government planning and land use zoning regulations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• OHS requirements • other legislative requirements specific to the nature and type of franchise • relevant permits, licences and completion of training programs such as in safe food handling • requirements under employment legislation
Government may include:	• commonwealth • local government • state/territory
Strategies may be:	• broad statements of requirements for compliance • used to develop specific work procedures and compliance checks
Compliance checks may be:	• continuous, daily, weekly, monthly as required to ensure compliance • logged in specific logbook or checked against checklists and filed as required • undertaken by franchisee or staff delegated with specific tasks
Training may include:	• a cyclical schedule (such as yearly refresher courses and product knowledge workshops) • legislative requirements such as first aid, OHS, food handling • specifications in the initial franchise agreement

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Establish relationship with franchisor	1.1. Identify the ***franchisor's representative/s or liaison person/s*** 1.2. Identify ***communication channels*** with the franchisor's representative/s or liaison person/s 1.3. Establish ***schedule of contact*** with the franchisor's representative/s or liaison person/ 1.4. Hold initial meeting with the franchisor's representative/s or liaison person/s to initiate ongoing relationship 1.5. Ensure participation in the franchisee advisory council meetings and relevant activities
2. Determine services available from franchisor	2.1. Consult with the franchisor's representative/s or liaison person/s to determine the range of ***services available through the franchisor*** 2.2. Establish schedule for accessing services of the franchisor 2.3. Access services available through the franchisor according to schedule and as needs arise in the course of business operations 2.4. Maintain currency of information relating to services available through the franchisor
3. Implement strategies for meeting	3.1. Identify ***franchisee financial obligations*** to the franchisor

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
franchisor financial obligations	3.2. Develop and implement strategies and procedures to meet franchisee financial obligations 3.3. Undertaken planning to facilitate ***ongoing management of franchise***
4. Resolve disputes with franchisor	4.1. Identify disputes with the franchisor and enter into negotiations with the franchisor's representative/s or liaison person/s in line with complaints handling procedure as described in the Franchising Code of Conduct 4.2. Seek assistance of third parties or mediators to facilitate resolution of disputes arising with the franchisor and in line with the complaints handling procedure 4.3. Resolve disputes and document courses of agreed action 4.4. Implement agreed courses of action to resolve disputes 4.5. Use lessons learned from disputes to guide future business operations and to facilitate positive relationships with the franchisor

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities • communication and negotiation skills to resolve disputes • problem-solving skills to address disputes arising in the course of business operations.
Required knowledge

• occupational health and safety (OHS) requirements:
  • specific to nature and type of franchise
  • generic to all workplaces
  • specific to own safety such as manual handling
• legislation, codes of practice and national standards, for example:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• Franchising Code of Conduct • legislation covering fire safety, OHS, employment of staff, company law, anti-discrimination and fair trading • required permits (under commonwealth, state/territory and local government regulations and legislation) • franchise specific obligations as per franchise agreement, specifically financial obligations.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • implementing processes to manage the relationship between franchisor and self • identifying and resolving disputes • financial planning to meet franchisor requirements • knowledge of relevant legislation, codes of practice and national standards.
Context of and specific resources for assessment	Assessment must ensure: • access to business documentation • access to feedback from franchisor • access to an actual workplace or simulated environment • access to equipment and resources.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of strategies and procedures implemented to meet franchisee financial obligations

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Design database	1.1. Review ***organisational and task requirements*** to confirm ***scope and functionality of database*** design, including data redundancy 1.2. Develop a logical data model to identify and classify data into types 1.3. Select appropriate ***software*** according to organisational and task requirements and required scope and functionality of database 1.4. Confirm database design with ***appropriate person***
2. Develop database	2.1. Set field attributes according to data type and link databases by a common field in accordance with software procedures 2.2. Identify primary key to uniquely identify data 2.3. Identify foreign keys to establish associations between data 2.4. Use ***software functions*** and ***formulae*** to meet organisational and task requirements 2.5. Create password and access system according to organisational and task requirements
3. Develop queries, forms and reports	3.1. Develop queries as required by organisational and task requirements 3.2. Develop input screens or forms in order to access required data

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.3. Develop reports according to organisational and task requirements
4. Test and finalise database	4.1. Populate database with sample dataset for testing 4.2. Assess and document effectiveness of data relationships, queries forms and reports 4.3. Address any errors in database design 4.4. ***Name and store*** database in accordance with organisational requirements and exit the application without data loss or damage 4.5. Confirm database readiness with appropriate person

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to interpret and evaluate the purposes and features of databases
- numeracy skills to utilise software functions and formulae, and to establish data relationships and queries
- planning and organising skills to establish database design
- problem-solving skills to address inconsistencies in database design and data relationships.

Required knowledge

- advanced functions of database software applications
- impact of formatting and design on the presentation and readability of data
- key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • producing a database containing a minimum of three tables and incorporating queries, reports and forms • knowledge of advanced functions of database software app.
Context of and specific resources for assessment	Assessment must ensure: • access to office equipment and resources • access to sample data.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of databasedesign • review of database testing • demonstration of techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • IT use units • other IT analysis and design units.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Organisational and task requirements may include:	• business requirements • consistent corporate image, including colour schemes and company logo • established guidelines and procedures for data usage • existing database templates • final output requirements for data • house styles • observing copyright legislation • organisation name, time, date, document title, filename or other fields in headers and footers • technical operating environment and platform
Scope and functionality of database may include:	• concurrency of access requirements • data relationships • data structures • forms • queries • reports • screens • security features • table relationships
Software may include:	• commercial software applications • organisational specific software
Appropriate person may include:	• clients • colleagues • supervisors
Software functions may include:	• adding, deleting, moving, re-labelling fields • altering field widths • calculations, formula • data protection • field definitions and attributes • formatting fields • formatting text • headers and footers • inserting and deleting blank lines and spaces • macros • append

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• delete • edit • exit • list • print • query • report • repeating (if available) • table, form and report wizards
Formulae may include:	• formulae • addition • average • combinations of formulae • count • division • maximum • minimum • multiplication • subtraction • sum
Naming and storage may include:	• authorised access • filing locations • organisational policy for backing up files • organisational policy for filing hard copies of spreadsheets • security • storage in folders and sub-folders • storage on disc drives, CD-ROM, USBs, tape or server back-up

BSBITU102A Develop keyboard skills

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop basic keyboard skills using touch typing techniques. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals developing skills and knowledge of basic keyboarding techniques in preparation for working in a broad range of settings.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Use safe work practices	1.1. Adjust workspace, furniture and equipment to suit user ***ergonomic requirements*** 1.2. Ensure ***work organisation*** meets organisational and occupational health and safety (OHS) requirements for computer operation
2. Identify and develop keyboard skills	2.1. Identify and apply keyboard functions for both alpha and numeric keyboard functions 2.2. Apply ***touch typing technique*** to complete a task 2.3. Develop ***speed and accuracy*** in accordance with workplace requirements for level of responsibility
3. Check accuracy	3.1. Proofread document carefully to identify errors 3.2. Amend document, correct errors and complete a final accuracy check

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• communication skills to identify lines of communication, to request advice, to effectively question, to follow instructions and to receive feedback • literacy skills to identify work requirements, to comprehend basic workplace documents, and to produce and proofread simple documents • problem-solving skills to solve routine problems in the workplace, while under direct supervision • technology skills to use equipment safely while under direction, and to use basic keyboard, touch typing and mouse skills to produce simple documents.
Required knowledge
• key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as OHS • organisational benchmarks for keyboarding.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • applying touch typing technique to enter alphanumeric characters • safely using keyboard.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to examples of workplace documentation.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • demonstration of techniques

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• oral or written questioning to assess knowledge of keyboard operations and functions • review of completed documents.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBITU101A Operate a personal computer • other general administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Ergonomic requirements may include:	• avoiding radiation from computer screens • chair height, seat and back adjustment • document holder • footrest • keyboard and mouse position • lighting • noise minimisation • posture • screen position • workstation height and layout
Work organisation may include:	• exercise breaks • mix of repetitive and other activities • rest periods • visual display unit (VDU) eye testing
Touch typing technique may vary according to:	• level of competency of operator • workplace requirements
Speed and accuracy must be:	• consistent with degree of experience of operator • relevant to level of responsibility

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare to produce documents	1.1. Use safe work practices to ensure ***ergonomic***, ***work organisation***, energy and resource ***conservation requirements*** are addressed 1.2. Identify ***document*** purpose, audience and presentation requirements, and clarify with relevant personnel as required 1.3. Identify ***organisational*** and task ***requirements*** for document layout and design
2. Produce documents	2.1. ***Format*** document using appropriate ***software functions*** to adjust page layout to meet information requirements, in accordance with organisational style and presentation requirements 2.2. Use system features to identify and manipulate ***screen display options and controls*** 2.3. Use manuals, user documentation and online help to overcome problems with document presentation and production
3. Finalise documents	3.1. Ensure final document is previewed, ***checked***, adjusted and ***printed*** in accordance with organisational and task requirements 3.2. Ensure document is prepared within ***designated time lines*** and organisational requirements 3.3. ***Name and store document*** in accordance with organisational requirements and exit application

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	without information loss/damage

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to clarify document requirements • editing and proofreading skills to check own work for accuracy • keyboarding skills to enter text and numerical data • literacy skills to read and understand organisation's procedures, and to use basic models to produce a range of correspondence • problem-solving skills to solve routine problems.
Required knowledge
• formatting styles and their effect on formatting, readability and appearance of documents • purpose, use and function of word processing software • organisational requirements for ergonomics, work periods and breaks, and conservation techniques • organisational style guide.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of simple word processing functions, standard document layout and design principles • production of a minimum of three simple, word processed documents.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to examples of word processed documents and style guides.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of formatted document • review of final document • demonstration of techniques • oral or written questioning to assess knowledge of word processing software functions.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • general administration units • other IT use units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Ergonomic requirements may include:	• avoiding radiation from computer screens • chair height, seat and back adjustment • document holder • footrest • keyboard and mouse position

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• lighting • noise minimisation • posture • screen position • workstation height and layout
Work organisation requirements may include:	• exercise breaks • mix of repetitive and other activities • rest periods
Conservation requirements may include:	• disposing of non-confidential waste paper in recycling bins • double-sided paper use • re-using paper for rough drafts (observing confidentiality requirements) • utilising power-save options for equipment
Documents may include:	• agendas • briefing papers • envelopes • faxes • labels • letters • mail merges • memos • minutes • short reports • simple one-page flyers • standard form letters
Organisational requirements may include:	• company colour scheme • company logo • consistent corporate image • content restrictions • established guidelines and procedures for document production • house styles • observing copyright legislation • organisation name, time, date, document title, filename etc. in header/footer • templates
Formatting may include:	• alignment on page • columns • company logo/letterhead

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• enhancements to format - borders, patterns and colours • enhancements to text - colour, size, orientation • headers/footers • margins • page orientation
Software functions may include:	• default settings • document protection • grammar check • headers/footers • indent • line spacing • page numbers • page set up • paragraph formatting • spell check • tabs • text formatting
Screen display options and controls may include:	• layout view • maximise/minimise • normal view • page view • print preview • ruler • toolbars • zoom percentage
Checking may include:	• accuracy of information • consistency of layout • ensuring instructions with regard to content and format have been followed • grammar • proofreading • spelling, electronically and manually
Printing may include:	• basic print settings • multiple copies • odd or even pages • print preview • printer setup • specified pages • whole document

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Designated time lines may include:	• organisational time line e.g. deadline requirements • time line agreed with internal/external client • time line agreed with supervisor/person requiring document/s
Naming and storing documents may include:	• appropriate file type • authorised access • file names according to organisational procedure e.g. numbers rather than names • file names which are easily identifiable in relation to the content • file/directory names which identify the operator, author, section, date etc. • filing locations • organisational policy for backing up files • organisational policy for filing hard copies of documents • security • storage in folders/sub-folders • storage on hard/floppy disk drives, CD-ROM, tape back-up

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Select and prepare resources	1.1. Adjust workspace, furniture and equipment to suit user ***ergonomic***, ***work organisation*** and occupational health and safety (OHS) ***requirements*** 1.2. Use energy and resource ***conservation techniques*** to minimise wastage in accordance with organisational and statutory requirements 1.3. Identify ***spreadsheet task requirements*** and clarify with relevant personnel as required
2. Create simple spreadsheets	2.1. Ensure ***data*** is entered, ***checked*** and amended in accordance with organisational and task requirements, to maintain consistency of design and layout 2.2. ***Format*** spreadsheet using ***software functions***, to adjust page and cell layout to meet information requirements, in accordance with organisational style and presentation requirements 2.3. Ensure ***formulae*** are used and tested to confirm output meets task requirements, in consultation with appropriate personnel as required 2.4. Use manuals, user documentation and online help to overcome problems with spreadsheet design and production
3. Produce simple charts	3.1. Select ***chart type*** and design that enables valid representation of numerical data and meets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	organisational and task requirements 3.2. Create chart using appropriate data range in the spreadsheet 3.3. Modify chart type and layout using formatting ***features***
4. Finalise spreadsheets	4.1. Ensure spreadsheet and any accompanying charts are previewed, adjusted and ***printed*** in accordance with organisational and task requirements 4.2. Ensure data input meets ***designated time lines*** and organisational requirements for speed and accuracy 4.3. Name and ***store*** spreadsheet in accordance with organisational requirements and exit the application without data loss/damage

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to clarify requirements of spreadsheet • editing and proofreading skills to check own work for accuracy • keyboarding skills to enter text and numerical data • literacy skills to read and understand organisation's procedures, and to use basic models to produce a range of spreadsheets • numeracy skills to create and use spreadsheet formulae.
Required knowledge
• formatting of workplace documents • organisational requirements for ergonomic standards, work periods and breaks, and conservation techniques • organisational guidelines on spreadsheet manipulation and processing • purpose and range of use of spreadsheet functions.

ELEMENT	PERFORMANCE CRITERIA
	accordance with organisational policy, procedures and ***net etiquette*** (netiquette) 3.3. Respond to posts or communications in accordance with agreed parameters, organisational requirements and netiquette

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to request advice, to receive feedback and to work with a team • literacy skills to identify work requirements; to understand and process basic, relevant workplace information; and to draft simple correspondence • problem-solving skills to solve routine technology problems.
Required knowledge

• different methods of electronic communication
• key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • occupational health and safety.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • sending and receiving email for a range of purposes • attaching and removing documents to email • using software applications to collaborate online • knowledge of relevant legislation.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to software applications likely to be used in the workplace.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • analysis of responses to case studies and scenarios • demonstration of techniques • oral or written questioning to assess knowledge of electronic communication methods and tools • review of attachments prepared for email • review of electronic mailing lists • evaluation of postings and responses to online discussions.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • general administration units • other IT use units.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating

RANGE STATEMENT	
conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Software may include:	• mobile or wireless software applications:
	  • personal digital assistants (PDA)
	  • mobile phones
	  • text messaging (SMS/TXT)
	  • multimedia messaging (MMS)
	  • internet relay chat (IRC)
	• personal computer-based software applications:
	  • email applications
	  • web-based email services
	  • chat applications
	  • internet discussion groups/boards/chat rooms
	  • intranet discussion groups/boards/chat rooms

Organisational requirements may include:	• carbon copies or blind carbon copies • concise, relevant subject line • electronic signature • form of address • formality/informality of language, tone and structure • including original message in the reply • length of emails (i.e. short and to the point) • net ethics • net etiquette(netiquette) • requesting read receipt • sender's name and address
Checking outgoing email for accuracy may include checking:	• clarity of intended meaning • completeness • content • grammar • punctuation • recipient's address • spelling • structure
Attachments may include:	• PDFs

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• pictures • spreadsheets • word processed documents • any electronic file
Suspicious or potentially dangerous email may include:	• attachments • email where sender is unknown, and subject line is enticing and/or personal (e.g. urging the receiver to open immediately) • particular file extensions • spam (unsolicited commercial email or junk email) • unsolicited email containing viruses
Dealing with returned email may include:	• checking email address • checking size of attachment/s • re-sending • sending message by other means e.g. facsimile, post • telephoning addressee
Storing email may include:	• email application software • paper-based filing system • specialised recordkeeping, spreadsheet or database software
Mailing lists may include:	• database or spreadsheet records • electronic address books • word processing tables or data files
Online collaboration may include:	• chat rooms • email communications • instant messaging • intranet
Net etiquette may include:	• accepted (not mandated) rules for being a good net citizen (netizen) • adjust to the style and tone of discussion groups • be forgiving of other's mistakes • do not abuse your power • if you would not do it in real life do not do it in cyberspace • keep flames under control (flaming is making personal attacks on others) • look good online (spelling, grammar, and have

BSBITU301A Create and use databases

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to create simple two table relational databases with reports and queries, for the storage and retrieval of information. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals employed in a range of work environments who develop and use simple databases to store and retrieve data. They may provide administrative support within an enterprise, or may be independently responsible for the storage and retrieval of data relating to their own work roles.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Create a simple database	1.1. Design a simple database, with at least two tables, using a ***database application***, ***basic design principles***, ***software functions*** and ***simple formulae*** 1.2. Develop a table with fields and attributes according to database usage, as well as ***data*** considerations and user requirements 1.3. Create a primary key for each table 1.4. Modify table layout and field attributes as required 1.5. Create a relationship between the two tables 1.6. ***Check and amend data*** entered, in accordance with organisational and task requirements
2. Create reports and queries	2.1. Determine information output, database tables to be used and ***report layout*** to meet task requirements 2.2. Determine data groupings, search and sort criteria to meet task requirements 2.3. Run reports and queries to check that results and formulae provide the required data 2.4. Modify reports to include or exclude additional requirements
3. Use database	3.1. Ensure data input meets ***designated time lines*** and organisational requirements for speed and accuracy 3.2. Use manuals, user documentation and online help to overcome problems with database design and

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• numeracy skills to create simple queries and to use simple formulae • planning and organising skills to develop effective databases • problem-solving skills to address inconsistencies in data and issues in database, and to query structures.
Required knowledge

• key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • occupational health and safety
• organisational requirements relating to data entry, storage and presentation.

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • creating simple databases and queries • manipulating data using queries • formatting data into a final version.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to sample data.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment • demonstration of techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • administration units • other information and communications technology units.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Database applications may include:	• commercial database applications • organisational specific database applications
Basic design principles may include:	• naming conventions • data layout • formatting • database use • required output • reporting and presentation requirements
Software functions may include:	• adding, deleting, moving, re-labelling fields • altering field widths • calculating, using formula • data protection • field definitions and attributes • formatting fields • formatting text • headers and footers • inserting and deleting blank lines and spaces • repeating (if available) • table, form and report wizards
Simple formulae may include:	• average • count • division • maximum • minimum • multiplication • subtraction • sum • combinations of above
Data may include:	• numbers • text
Checking and amending data may include:	• accuracy of data • accuracy of formulae with calculator • ensuring instructions with regard to content and format have been followed • outcome of sorting or filtering • proofreading • spelling, electronically and manually
Report layout may include:	• alignment on page • columns

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• enhancements to format - borders, patterns and colours • enhancements to text • formatting provided through use of a wizard or other automated process • headers/footers • logical ordering of data • tables
Designated time lines may include:	• time line agreed with internal or external client • time line agreed with supervisor or person requiring database
Printing may include:	• forms • queries • records • reports • tables
Storing databases may include:	• authorised access • filing locations • naming conventions • organisational policy for backing up files • organisational policy for filing hard copies of databases • security • storage in electronic folders and sub-folders • storage on disk drives, CD-ROM, back-up tapes

Elements and Performance Criteria

Elements and Performance Criteria

Element	Performance Criteria
1 Prepare to create presentation	1.1 Organise personal work environment in accordance with **ergonomic requirements**
	1.2 Determine purpose, audience and **mode of presentation** in consultation with content author or presenter
	1.3 Identify **presentation requirements** in terms of supporting documents, transparencies and equipment
	1.4 Apply **work organisation strategies** and **energy and resource conservation techniques** to plan work activities
2 Create presentation	2.1 Design slides, notes and handout masters to incorporate **organisational and task requirements** in relation to image and preferred style, avoiding **distractions**
	2.2 Use **software functions** for consistency of design and layout, to meet identified presentation requirements
	2.3 Balance **presentation features** for visual impact and emphasis
	2.4 Use **advanced software features** to streamline and customise the presentation for different audiences
	2.5 Prepare presentations within **designated time lines**

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

3 Finalise presentation	3.1 Use manuals, user documentation and online help to overcome problems with design and production
	3.2 Check presentation for spelling, consistency in presentation features and style, in accordance with task requirements
	3.3 Print **presentation materials** in accordance with presenter or audience requirements
	3.4 **Store presentation,** in accordance with organisational requirements and exit the application without information loss or damage

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

communication skills to clarify requirements of documents

keyboarding skills to enter text and numerical data

literacy skills to read and understand organisational procedures, to use screen layout to support text structure, and to proofread and edit documents

problem-solving skills to use processes flexibly and interchangeably.

Required knowledge

key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:

anti-discrimination legislation

ethical principles

codes of practice

privacy laws

occupational health and safety

effect of design features on readability and appearance of electronic presentations.

work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Ergonomic requirements may include:	avoiding radiation from computer screens
	chair height, seat and back adjustment
	document holder
	footrest
	keyboard and mouse position
	lighting
	noise minimisation
	posture
	screen position
	workstation height and layout
Mode of presentation may include:	available for browsing by individuals
	display on one computer, control from another
	online, internet, intranet
	conference presentation
	self-running presentation
	speaker
Presentation requirements may include:	35 mm slides
	annotation pen
	computer equipment and peripherals for on-screen presentation
	data show
	digital pointer
	handouts
	internet access
	laptop computer
	network access
	outlines
	overhead projector

	overhead transparencies
	paper printouts of presentation or slide show
	slide projector
	speaker notes
	video projector/s
	world wide web documents
Work organisation strategies may include:	exercise breaks
	mix of repetitive and other activities
	rest periods
Energy and resource conservation techniques may include:	double-sided paper use
	recycling used and shredded paper
	re-using paper for rough drafts (observing confidentiality requirements)
	using power-save options for equipment
Organisational and task requirements may include:	company colour scheme
	company logo
	corporate image
	music
	organisation name, time, date, occasion etc. in header/footer
	organisational video clip
Distractions may include:	heavy colour
	insufficient colour separation (background to text)
	irrelevant animation
	multiple transitions
	overly busy background
	overuse of sound
	too many words or pictures per slide
	too small fonts
Software functions may include:	backgrounds
	colour schemes
	creating templates

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	handout master
	importing outlines from other applications
	importing images and graphics
	notes master
	placeholders
	slide master
Presentation features may include:	animation
	charts
	graphics
	headlines or titles
	illustrations
	logos
	music
	objects
	pace
	pictures
	sound
	text content
	timing
	transitions
	video clips
Advanced software features may include:	agenda slides
	presentation within a presentation - custom show
Designated time lines may include:	organisational time line e.g. conference deadline requirements
	timeline agreed with internal or external client
	timeline agreed with supervisor or person requiring presentation
Presentation materials may include:	handouts
	outlines
	overhead transparencies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	paper printouts of presentation/slide show
	speaker notes
	35 mm slides
	world wide web documents
Storing presentations may include:	authorised access
	filing locations
	organisational policy for backing up files
	organisational policy for filing hard copies
	security
	storage in folders or sub-folders
	storage on disk drives, USB, CD-ROM, backup tapes, server

BSBITU305A Conduct online transactions

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to undertake a range of online transactions, including banking, buying and selling products and services. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who are skilled operators and apply a broad range of competencies in various work contexts. They may exercise discretion and judgement using appropriate theoretical knowledge of conducting online transactions to provide technical advice and support to a team.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Identify and investigate online service provider	1.1. Undertake online research to identify ***suppliers*** of required ***products***/***services*** 1.2. Assess service provider ***confidentiality***, ***security*** and ***privacy*** facilities in accordance with individual and organisational requirements 1.3. Assess potential products/services for authenticity
2. Perform online transactions	2.1. Confirm organisational requirements for products/services to be obtained 2.2. Ensure authentication information is secured in accordance with organisational requirements 2.3. Use appropriate online functions to obtain required products/services 2.4. Report any difficulties in accessing or using online facilities to the service provider 2.5. Complete transaction and ensure that products/services are received in accordance with terms of online transaction
3. Maintain records of online transactions	3.1. Maintain records of transactions in accordance with organisational policy, procedures and level of authority 3.2. Compare organisational records with online records and deal with irregularities according to organisational policy and procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
4. Review online transactions	4.1. Review obtained products/services rendered to determine quality, timeliness and level of customer service in relation to advertised profile 4.2. Make recommendations regarding continued or future use of online service provider, as supported by transaction history

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to negotiate with online service provider/s.
- literacy skills to read and analyse information for its relevance and sufficiency, and to follow policies and procedures
- numeracy skills to work with and evaluate monetary figures
- technology skills to operate computer and software appropriate to transaction being performed.

Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety
- policies and procedures relating to use of the internet and online purchasing
- service provider requirements
- legal and ethical requirements relating to a range of online transactions.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Select and prepare resources	1.1. Select and use appropriate ***technology*** and ***software*** applications to produce required ***business documents*** 1.2. Select layout and style of publication according to information and ***organisational requirements*** 1.3. Ensure document design is consistent with company and/or client requirements, using basic design principles 1.4. Discuss and clarify format and style with person requesting document/publication
2. Design document	2.1. Identify, open and generate files and records according to task and organisational requirements 2.2. Design document to ensure efficient entry of information and to maximise the presentation and appearance of information 2.3. Use a range of ***functions*** to ensure consistency of design and layout 2.4. Operate ***input devices*** within designated requirements
3. Produce document	3.1. Complete document production within designated time lines according to organisational requirements 3.2. Check document produced to ensure it meets task requirements for style and layout 3.3. Store document appropriately and save document to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	avoid loss of data 3.4. Use manuals, training booklets and/or help-desks to overcome basic difficulties with document design and production
4. Finalise document	4.1. Proofread document for readability, accuracy and consistency in language, style and layout prior to final output 4.2. Make any modifications to document to meet requirements 4.3. ***Name*** and ***store*** document in accordance with organisational requirements and exit the application without data/loss damage 4.4. Print and present document according to requirements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- keyboarding and computer skills to complete a range of formatting and layout tasks
- literacy skills to read and understand a variety of texts; to prepare general information and papers according to target audience; and to edit and proofread documents to ensure clarity of meaning and conformity to organisational requirements
- numeracy skills to access and retrieve data
- problem-solving skills to determine document design and production processes.

Required knowledge

- appropriate technology for production requirements
- functions and features of contemporary computer applications
- organisational policies, plans and procedures
- organisational requirements for document design e.g. style guide.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare to produce desktop published documents	1.1. Use safe work practices including addressing ***ergonomic requirements*** and using ***work organisation strategies*** 1.2. Use ***energy and resource conservation techniques*** 1.3. Identify ***document*** purpose, audience and presentation requirements, and clarify with relevant personnel as required 1.4. Identify ***organisational and task requirements*** for desktop published documents to ensure consistency of style and image
2. Set up desktop published document	2.1. ***Design*** content ***structure and layout*** to ensure information and graphics are arranged according to related topics and logical sequences 2.2. Select appropriate formatting and create templates or master pages to ensure ***consistency of design and layout*** 2.3. Confirm layout with appropriate person
3. Create desktop published document	3.1. Prepare, format and enter required text 3.2. Import text from other applications and resolve any formatting issues 3.3. Scan or import graphics from other applications and resolve any formatting issues 3.4. Arrange text and graphics according to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	organisational and task requirements
4. Finalise desktop published document	4.1. Review text for possible errors and omissions, and resolve any issues 4.2. Check page order, structure and linkages 4.3. Produce completed document in required format 4.4. ***Name and store*** text documents, in accordance with organisational requirements and exit the application without information loss/damage 4.5. Prepare text documents within ***designated time lines*** and organisational requirements for speed and accuracy 4.6. Use manuals, user documentation and online help to overcome problems with document design and production

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to clarify requirements of documents
- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- editing and proofreading skills to check own work for accuracy against original
- keyboarding skills to enter text and numerical data
- literacy skills to read and understand the organisation's procedures and to use models or exemplars to produce a range of documents
- problem-solving skills to edit documents and to resolve issues of consistency of design.

Required knowledge

- energy and resource conservation techniques
- organisational requirements for ergonomics, work periods and breaks
- organisational style guides
- purposes, uses and functions of desktop publishing software
- styles and their effect on formatting, readability and appearance of document.

BSBITU402A Develop and use complex spreadsheets

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to use spreadsheet software to complete business tasks and to produce complex documents. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals employed in a range of work environments who require skills in the creation of complex spreadsheets to store and retrieve data. They may work as individuals providing administrative support within an enterprise, or may be independently responsible for designing and working with spreadsheets relevant to their own work roles.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare to develop spreadsheet	1.1. Organise personal work environment in accordance with ***ergonomic requirements***
	1.2. Analyse task and determine specifications for spreadsheets
	1.3. Identify organisational and task requirements in relation to data entry, storage, output, reporting and presentation requirements
	1.4. Apply ***work organisation strategies*** and ***energy and resource conservation techniques*** to plan work activities
2. Develop a linked spreadsheet solution	2.1. Utilise ***spreadsheet design*** software ***functions*** and ***formulae*** to meet identified requirements
	2.2. Link spreadsheets in accordance with software procedures
	2.3. Format cells and use data attributes assigned with relative and/or absolute cell references, in accordance with the task specifications
	2.4. Test formulae to confirm output meets task requirements
3. Automate and standardise	3.1. Evaluate tasks to identify those where automation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
spreadsheet operation	would increase efficiency 3.2. Create, use and edit ***macros*** to fulfil the requirements of the task and automate spreadsheet operation 3.3. Develop, edit and use ***templates*** to ensure consistency of design and layout for forms and reports, in accordance with organisational requirements
4. Use spreadsheets	4.1. Enter, check and amend data in accordance with organisational and task requirements 4.2. ***Import and export*** data between compatible spreadsheets and adjust host documents, in accordance with software and system procedures 4.3. Use manuals, user documentation and online help to overcome problems with spreadsheet design and production 4.4. Preview, adjust and ***print*** spreadsheet in accordance with organisational and task requirements 4.5. ***Name and store spreadsheet*** in accordance with organisational requirements and exit the application without data loss or damage
5. Represent numerical data in graphic form	5.1. Determine style of ***graph*** to meet specified requirements and manipulate spreadsheet data if necessary to suit graph requirements 5.2. ***Create graphs*** with labels and titles from numerical data contained in a spreadsheet file 5.3. Save, view and print graph within designated time lines

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• literacy skills to interpret and evaluate the purposes and uses of various features of spreadsheets and to use a variety of strategies for planning and reviewing own work • proofreading and editing skills to check for accuracy and consistency of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
information by consulting additional resources • numeracy skills to collate and present data, graphs and related references.
Required knowledge

• advanced functions of spreadsheet software applications
• impact of formatting and design on the presentation and readability of data
• key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • occupational health and safety
• organisational policies and procedures.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • developing complex spreadsheets • developing graphical representations of data contained in spreadsheets.
Context of and specific resources for assessment	Assessment must ensure: • access to office equipment and software • access to samples of data for inclusion in spreadsheets.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• review of authenticated documents from the workplace or training environment • demonstration of techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • administration units • other information and communications technology units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Ergonomic requirements may include:	• avoiding radiation from computer screens • chair height, seat and back adjustment • document holder • footrest • keyboard and mouse position • lighting • noise minimisation • posture • screen position • workstation height and layout
Work organisation strategies may include:	• exercise breaks • mix of repetitive and other activities • rest periods
Energy and resource conservation techniques may include:	• double-sided paper use • recycling used and shredded paper • re-using paper for rough drafts (observing confidentiality requirements) • using power-save options for equipment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Spreadsheet design may include:	• analysis • appropriateness • avoidance of blank rows and columns • embedding cell references in formulae • formulae • formatting and reformatting • functions • headers and footers • headings • headings and labels • identification and parameters • import and export of data • labels • linked formulae • multi-page documents • pivot tables • relative and absolute cell references • split screen operation
Functions may include:	• basic financial functions (if available) • date functions • logical functions (lookup, if, choose, true, false, conditions) • mathematical functions (square root, integer, absolute value, round) • simple nested functions • statistical functions (standard deviation, count, maximum, minimum)
Formulae may include:	• addition • average • comparison • division • exponentiation • multiplication • percentage • subtraction • combinations of above
Macros may include:	• printing sections of a spreadsheet
Templates may include:	• font types and sizes • forms

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• headers and footers • headings • page formats • reports
Importing and exporting data may include:	• proofreading • reformatting • split screen (if available)
Printing may include:	• charts • entire workbooks • selected data within a worksheet • worksheets
Naming and storing spreadsheets may include:	• authorised access • file naming conventions • filing locations • organisational policy for backing up files • organisational policy for filing hard copies of spreadsheets • security • storage in folders and sub-folders • storage on disk drives, CD-ROM, USB, tape back-up, server
Graphs may include:	• bar • line • pie • scatter • stack • 3D
Creating graphs may include:	• data range • keys and legends • labels and titles • naming • sizing (if possible) • using graph menu • X and Y axis

BSBMGT502B Manage people performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage the performance of staff who report to them directly. Development of key result areas and key performance indicators and standards, coupled with regular and timely coaching and feedback, provide the basis for performance management. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit
