## Modification History

Release	Comments
Release 1	This version first released with <i>TAE Training and Education Training Package Version 2.0</i> .

## Application

This unit describes the skills and knowledge required to design, develop and review learning strategies.

It applies to those who work under limited supervision and use a range of specialised technical or managerial skills to develop learning strategies relevant to both Training Package qualifications and course-based qualifications.

The learning strategy provides an overview or outline only. Detailed guidance is provided in the content of specific learning programs.

No licensing, legislative or certification requirements apply to this unit at the time of publication

## Unit Sector

Learning design

## Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine the parameters of the learning strategy	1.1 Clarify the purpose of the learning strategy, likely target groups and their learning needs 1.2 Research qualification or other benchmark options for meeting the likely target group needs and select an appropriate option 1.3 Consult with relevant people to confirm the parameters of the learning strategy
2. Develop the framework for the learning strategy	2.1 Develop a learning strategy design that reflects the requirements of the selected qualification or other benchmark 2.2 Analyse industry or organisation documentation to determine additional and supporting requirements 2.3 Research and analyse options for design, based on likely target groups, their learning needs and contexts for delivery 2.4 Use appropriate learning theories and instructional design principles to support the learning strategy design 2.5 Identify and document learning outcomes 2.6 Consult to modify and confirm the framework 2.7 Develop the review process for the learning strategy
3. Devise the content and structure of the learning strategy	3.1 Construct content headings from learning outcomes to form an overview of content to be addressed 3.2 Sequence the content to support learning and determine overall timelines within operating constraints 3.3 Express learning strategy outcomes to reflect both generic and specific learning outcomes to be achieved 3.4 Identify and document appropriate delivery and assessment strategies, taking account of the learning parameters, design framework and learning context 3.5 Identify and document operational requirements
4. Review the learning strategy	4.1 Review the learning strategy in collaboration with relevant people against specified criteria prior to and post implementation 4.2 Document a post-implementation review process that includes measures for identifying the effectiveness and quality of the learning strategy

ELEMENT	PERFORMANCE CRITERIA
	4.3 Make recommendations based on outcomes of the review processes, where appropriate, and document these  4.4 Make modifications and document as part of a continuous improvement strategy

## Foundation Skills
