TLI32715 Certificate III in Track Protection

Release 2

TLI32715 Certificate III in Track Protection

Modification History

Release 2. This is the second release of this qualification in the TLI Transport and Logistics Training Package. The following unit has been added to the general elective units:

- TLIF0008 Apply safety critical communications in the rail environment.

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a general qualification for a person engaged in the rail infrastructure environment who performs tasks involving track protection in a variety of contexts.

It may involve application of some discretion and judgement in selecting equipment, services or contingency measures. It may also include responsibility for coordinating the work of others.

Job roles

Job roles and titles vary across different sectors. A possible job title relevant to this qualification includes:

- Track protection officer.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

The entry requirement for this qualification is TLI21915 Certificate II in Track Protection or relevant industry experience gained by working in the rail infrastructure environment providing track protection services.

Packaging Rules
