TLI32915 Certificate III in Tram or Light Rail Infrastructure

Release 1

TLI32915 Certificate III in Tram or Light Rail Infrastructure

Modification History

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a general qualification for a person engaged in the tram or light rail infrastructure environment who performs tasks involving a broad range of skilled applications applied in a wide variety of contexts, which may involve application of some discretion and judgment in selecting equipment, services or contingency measures. It may also include responsibility for coordinating the work of others.

Job roles

This qualification is aligned to the following defined roles:

- Tram Infrastructure Track Worker Level 4
- Light Rail Track Worker.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

The entry requirement for this qualification is TLI22215 Certificate II in Tram or Light Rail Infrastructure or equivalent vocational experience working within the rail infrastructure environment.

Packaging Rules

A total of **11 units of competency** comprising:

6 core units listed below **plus**

5 general elective units from the general elective units listed below. Up to **2 of the general elective units** may be selected from any relevant nationally endorsed Training Package. The general elective units must contribute to the vocational outcomes of the qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units specified are complied with.
