## Modification History

Release 2. This is the second release of this qualification in the TLI Transport and Logistics Training Package. The following modification has been made:

- Imported units updated.

**Release 1.** This is the first release of this qualification in the TLI Transport and Logistics Training Package.

## Qualification Description

This is a qualification for a person who is engaged in the Logistics Industry in a variety of integrated logistics and materiel sustainment roles.

Successful achievement of this qualification requires a person to perform a broad range of skilled applications including requirements to evaluate and analyse current practices, develop new criteria and procedures for performing current practices, and to provide some leadership and guidance to others.

This qualification is targeted at practitioners from the logistics support discipline with at least twelve months' experience. Practitioners from the inventory management, data management, maintenance system management and integrated logistics support (acquisition and sustainment) job streams would benefit from this qualification.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.
