TLI42715 Certificate IV in Tram/Light Rail Control

Release 2

TLI42715 Certificate IV in Tram/Light Rail Control

Modification History

Release 2. This is the second release of this qualification in the TLI Transport and Logistics Training Package. The following unit has been added to the general elective units:

- TLIF0008 Apply safety critical communications in the rail environment.

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package

Qualification Description

This is a qualification for a person engaged in the control of tram/light rail networks.

This qualification requires a broad range of skilled applications within the rail control environment. It also requires the skills and knowledge to evaluate and analyse current practices, to develop new criteria and procedures, and to provide some leadership and guidance to others in their work

Job roles

- Job roles and titles vary across different sectors. Possible job titles relevant to this qualification include:
- Light Rail Controller
- Tram Controller.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

A total of **12 units of competency** comprising:

8 core units listed below **plus**

4 general elective units from the general elective units listed below. Up to **2 of the general elective units** may be selected from any relevant nationally endorsed Training Package. The general elective units must contribute to the vocational outcomes of the qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units specified are complied with.
