- Imported Elective units updated.

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a qualification for a person working in a deployment logistics management role.

Successful achievement of this qualification requires the self-directed application of knowledge and skills, with substantial depth in some areas where judgement is required in planning and selecting appropriate equipment, services and techniques for self and others.

Applications involve participating in developing strategic initiatives as well as personal responsibility and autonomy in performing complex technical operations or organising others. It may include participating in teams, including those concerned with planning and evaluation functions. Group or team coordination may be involved.

Job roles

Job roles and titles vary across different sectors. Possible job titles relevant to this qualification include:

- Logistics Manager (Deployed Operations).

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements
