Assessment Requirements for TLIA0030 Organise international transport of freight

Release: 1

Assessment Requirements for TLIA0030 Organise international transport of freight

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- communicating and working effectively with customers, shipping agents and authorities
- communicating with shipping agents and authorities
- confirming customer requirements and organising freight arrangements
- interpreting and following relevant instructions, procedures and labels
- preparing, completing and checking relevant documentation
- using relevant communications, information technology equipment and systems.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- contacts and sources of information/documentation needed for organising international transport of freight
- customer service policies and procedures
- impacts of customer requirements, including:
 - budgeting restrictions
 - countries of origin and destination
 - nature of goods
 - timescales for collection and delivery
- procedures for:
 - consignment documentation completion
 - customer, shipping agents and authority requirements
 - organising international transportation of freight
 - transport options and availability of carriers
 - volume and dimension checks
- relevant codes of practice and legislative requirements, including local and international

freight regulations.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
