Assessment Requirements for TLIA0031 Organise transport of freight or goods

Release: 1

Assessment Requirements for TLIA0031 Organise transport of freight or goods

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- communicating effectively with others
- completing relevant documentation
- identifying, monitoring and managing resources for transport of freight or goods
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring and prioritising work activities in terms of planned schedule
- planning own work, prioritising work activities, predicting consequences and identifying improvements
- planning transport operations of freight or goods
- reading, interpreting and following relevant instructions, procedures and signs
- reporting and/or rectifying identified problems, faults or malfunctions promptly in accordance with regulatory requirements and workplace procedures
- securing freight in accordance with regulations
- selecting and using required communication systems
- using suitable handling methods
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- possible problems and appropriate solutions
- procedures for assessing storage and transport requirements and options
- procedures for calculating/estimating weight, volumes and dimensions
- procedures for coordinating the transfer and storage of goods, including multi-modal transport
- procedures for identifying and evaluating information needed to facilitate the transport of freight
- procedures for organising required permits and for completing transport documentation
- procedures for selecting transport/storage equipment and systems
- relevant legislative requirements and codes of practice
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations
- sources of information and documentation for organising the transport of freight and goods.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
