TLIB2122 Apply awareness of fundamentals of rail operations in yards or sidings

Release: 1

TLIB2122 Apply awareness of fundamentals of rail operations in yards or sidings

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to apply an awareness of the fundamentals of rail operations in yards or sidings.

It includes fixed structures, rail vehicles and rolling stock, signals, safety devices, primary activities and safety systems.

This unit is intended as an introduction to rail yards or sidings for people entering the rail industry who will be working on or around rail yards or sidings.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

B – Equipment Checking and Maintenance

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Identify yard or siding structures, layout and

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Terminology for track, trackside equipment and fixed structures is identified

- terminology**
- 1.2 Features of track, including geography and geometry are identified
 - 1.3 Infrastructure categories and their purpose are identified
 - 1.4 Other principal structure types and their purpose are identified
 - 1.5 Relevant stakeholders for reporting structural faults or anomalies to, are identified
- 2 Identify above and below ground services**
- 2.1 Principal overhead and/or electrical components and their purpose are identified and explained
 - 2.2 Power supply voltages are identified
 - 2.3 Methods of isolation are identified and their purpose is explained
- 3 Identify rail track vehicles and rolling stock**
- 3.1 Types of trains and rolling stock are identified
 - 3.2 Types of rail track vehicles are identified
 - 3.3 Relevant stakeholders for reporting rolling stock faults or anomalies to, are identified
- 4 Identify signals and safety devices**
- 4.1 Types, location and purpose of signals are identified
 - 4.2 Types, location and purpose of safety devices are identified
 - 4.3 Relevant stakeholders for reporting signal or safety device faults or anomalies to, are identified
- 5 Identify primary rail activities and safety systems**
- 5.1 Primary rail activities and other operators are identified as required
 - 5.2 Types and purpose of safety systems are identified
 - 5.3 Relevant stakeholders for reporting safety events to, are identified

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIB2122A Apply awareness of fundamentals of rail operations in yards or sidings.
