

**Australian Government**

# **TLIC0031 Apply low risk car driving behaviours**

**Release: 2**

# TLIC0031 Apply low risk car driving behaviours

## Modification History

**Release 2.** This is the second release of this unit of competency in the TLI Transport and Logistics Training Package with minor changes to the unit application.

**Release 1.** This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Application

This unit involves the skills and knowledge required to apply low risk car driving behaviours.

It includes applying relevant legislation applicable to low risk car driving, and applying low risk car driving behaviours and strategies. It also includes explaining risk factors that contribute to collisions or incidents when driving a car and applying operation and car control skills.

This includes higher-order skills involving broad cognitive, technical, communication and vehicle management skills. It also requires knowledge about hazard perception, risk control and low risk driving behaviour, judgement, decision making and multi-tasking that builds on driver licence requirements across a range of vehicles and driving situations.

Low risk car driving behaviours are applied without supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

## Pre-requisite Unit

Not applicable.

## Competency Field

C – Vehicle Operation

## Unit Sector

Not applicable.

## Elements and Performance Criteria

### ELEMENTS

### PERFORMANCE CRITERIA

Elements describe the essential Performance criteria describe the performance needed to

outcomes.

demonstrate achievement of the element.

- |   |   |
|---|---|
| <b>1 Apply relevant legislation applicable to low risk car driving</b>                      | <p><b>1.1</b> Work health and safety (WHS)/occupational health and safety (OHS) regulatory requirements are adhered to prior to driving in order to eliminate or control hazards relating to the driving environment and equipment</p> <p><b>1.2</b> Current and relevant road rules and applicable state/territory law and regulations are identified, interpreted and applied in a low risk manner</p>  |
| <b>2 Apply low risk driving behaviours in a car</b>   | <p><b>2.1</b> Requirements for low risk car driving are applied</p> <p><b>2.2</b> Importance of attitude in complying with road rules in relation to level of risk faced by a driver is applied when driving a car</p> <p><b>2.3</b> Importance of road sharing principles is applied when driving a car, including interacting with other road users, in accordance with road rules to ensure safe and efficient traffic flow</p> <p><b>2.4</b> Importance of motivation to drive in a low risk manner is interpreted and explained</p> <p><b>2.5</b> Principles of low risk driving methods are identified and applied</p> <p><b>2.6</b> Contributing risk factors to potential collision risks are identified and taken into consideration</p> |
| <b>3 Apply low risk car driving strategies</b>  | <p><b>3.1</b> Contributing risk factors to forming opinions and beliefs about low risk driving are applied</p> <p><b>3.2</b> Human factors that can influence low risk driving behaviour are outlined</p> <p><b>3.3</b> Low risk driving strategies are applied and their intent explained</p>  |
| <b>4 Explain risk factors that contribute to collisions or incidents when driving a car</b> | <p><b>4.1</b> Contributing risk factors to collisions or incidents are recognised</p> <p><b>4.2</b> External and internal factors that could lead to collisions or incidents are outlined</p> <p><b>4.3</b> Consequences of collisions or incidents in relation to relevant traffic laws and physical, financial and psychological costs to the individual and society are explained</p>  |

- 4.4** Functions of vehicle operations and controls and how to recover control of a vehicle are explained
- 5 Apply operation and car control skills**
- 5.1** Appropriate actions are taken to identify and negotiate hazards in a low risk manner on various road surfaces
- 5.2** Principles of car control are applied to a high level of technical competence
- 5.3** Principles of car driving skills and techniques are applied to a high level of technical competence
- 5.4** Principles of low risk car driving techniques and frameworks are carried out to a high level of technical competence

## Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the TLI Transport and Logistics Training Package Companion Volume Implementation Guide.

## Unit Mapping Information

This unit replaces and is equivalent to TLIC3036 Apply safe car driving behaviours.
