Assessment Requirements for TLIC1013 Ride courier/delivery bicycle

Release: 1

Assessment Requirements for TLIC1013 Ride courier/delivery bicycle

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- controlling all functions of the courier delivery bicycle
- completing relevant documentation
- monitoring bicycle and equipment performance and taking appropriate action as required
- reading and interpreting relevant instructions, procedures, information and signs
- reporting and/or rectifying identified problems that may arise, in accordance with regulatory requirements and workplace procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- bicycle handling procedures
- cycling hazards and related defensive riding techniques
- emergency procedures
- factors that may cause traffic delays and diversions, and related action that can be taken by a courier or delivery cyclist
- map reading and road navigation techniques
- pre-operational checks carried out on bicycle and related action
- procedures and policies identifying, accepting and carrying of dangerous/hazardous goods
- relevant state/territory road traffic authority road rules, regulations, permit and licence requirements

- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations
- requirements of courier or delivery work systems/operations and relevant equipment
- workplace operational instructions.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Practical riding aspects must be assessed on a courier or delivery bicycle typical of that used in industry. Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
