Assessment Requirements for TLID0011
Use bulk transfer equipment (dry)

Release: 1

Assessment Requirements for TLID0011 Use bulk transfer equipment (dry)

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying workplace procedures
- communicating and working effectively with others
- estimating mass, volume and special requirements of dry bulk products
- identifying and using equipment required to transfer dry bulk product
- identifying goods coding, Australian Dangerous Goods (ADG) Code markings and emergency information panels
- interpreting and following relevant instructions, procedures and information
- monitoring equipment performance
- monitoring work activities
- operating and adapting to differences in specialised equipment in accordance with workplace procedures
- reporting faults and damage in accordance with workplace procedures
- selecting and using required personal protective equipment (PPE).

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- current ADG Code
- housekeeping standards and procedures
- relevant work health and safety (WHS)/occupational health and safety (OHS) procedures and guidelines for using bulk transfer equipment
- risks when transferring dry bulk product and related precautions to control the risk
- workplace procedures for the use of equipment to transfer dry bulk products.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- relevant materials, tools, equipment and PPE
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
