Assessment Requirements for TLID3015

Identify and label explosives/dangerous goods

Release: 1

Assessment Requirements for TLID3015 Identify and label explosives/dangerous goods

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- communicating effectively with others
- completing relevant documentation
- correctly marking/labelling explosives and dangerous goods
- handling explosives and/or dangerous goods in accordance with regulatory requirements, codes, national Load Restraint Guide (LRG) and employer policy as required
- identifying and using required personal protective equipment
- identifying explosives and dangerous goods from labels, in accordance with regulatory requirements and practices
- identifying hazards from labels of explosives and dangerous goods
- interpreting and following operational instructions and prioritising work
- interpreting safety data sheets (SDSs)/material safety data sheets (MSDSs), containers and goods coding, markings and other information describing explosives and dangerous goods including emergency information panels for mode of transport/storage selected
- locating, interpreting and applying relevant codes and regulations
- maintaining workplace records for explosives and dangerous goods
- monitoring work activities in terms of planned schedule
- operating and adapting to differences in equipment in accordance with workplace procedures
- reading and interpreting relevant instructions, procedures, information and signs
- selecting and using required personal protective equipment, and conforming to industry and work health safety (WHS)/occupational health and safety (OHS) standards
- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- characteristics of explosives and dangerous goods relevant to handling and transport
- compatibility of various types of explosives and dangerous goods
- housekeeping standards and procedures
- relevant Australian and state/territory regulations and codes for identifying and labelling explosives and dangerous goods including the current Australian Dangerous Goods (ADG) Code and Australian Code for the Transport of Explosives by Road and Rail (AE Code)
- risks and hazards when loading, unloading and handling explosives and dangerous goods, and related precautions to control the risk
- site layout and obstacles
- WHS/OHS procedures and guidelines concerning lifting and moving loads
- workplace procedures and policies for identifying and labelling explosives and dangerous goods.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, current ADG/AE Code, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
