Assessment Requirements for TLIF0009 Ensure the safety of transport activities (Chain of Responsibility)

Release: 1

Assessment Requirements for TLIF0009 Ensure the safety of transport activities (Chain of Responsibility)

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include:

- applying applicable state/territory law and regulations
- assessing the likelihood and consequences of harm relating to own job function on a minimum of three occasions
- completing safety documentation of identified transport activities of a heavy vehicle risk on a minimum of three occasions, each about a different type of risk
- identifying risks associated with transport activities of a heavy vehicle of own job function and at least two other job functions directly related to own job function
- implementing relevant risk control measures and report actions taken to relevant person in accordance with workplace procedures on a minimum of three occasions.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- action required when possible risks of the transport activities are identified
- consideration of external factors in managing speed and fatigue
- function of driver and how they relate to transport activities, including level of influence and control
- methods, industry standards and requirements to ensure management of fatigue, speed, load restraint, mass, dimension and heavy vehicle maintenance and how they relate to transport activities job functions
- parties in the chain of responsibility and the concept of level of influence and control
- potential consequences of non-compliance with the applicable heavy vehicle state/territory law and regulations
- principle of shared responsibility
- transport activities as defined by the Heavy Vehicle National Law (HVNL) or applicable state/territory law and regulations
- what constitutes an unreasonable request
- where to locate current information relating to heavy vehicle transport activities including:
 - codes of practices

- heavy vehicle standards
- securing loads, load placement and load restraint
- vehicle dimension and mass limits
- workplace policies and procedures for own job function.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
