TLIF0017 Implement safeworking rules and regulations for network control activities

Release: 1

TLIF0017 Implement safeworking rules and regulations for network control activities

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to implement and coordinate systems of safeworking rules and regulations for network control activities.

It includes implementing safeworking rules and regulations; applying and managing safeworking protocols and communications; and taking appropriate action in safety incidents, unsafe situations or emergencies.

Work is performed using established operational procedures, with accountability and responsibility for self and others in achieving the prescribed outcomes with terminology as defined by the applicable Rail Infrastructure Manager safeworking system.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

It covers the activities required by network control officers in the operation of safeworking procedures within their area of control.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

F – Safety Management

Unit Sector

Rail sector.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Conduct network control activities following safeworking rules and procedures	1.1	Relevant rules for the applicable safeworking system are followed when carrying out network control activities as part of rail operation
		1.2	Hazards are identified, risks are assessed and control measures are implemented
		1.3	All network control activities are conducted in compliance with relevant state/territory legislation and regulations
		1.4	Records and documentation are completed in accordance with workplace procedures
2	Apply and manage communications	2.1	Communication protocols are applied and managed in accordance with applicable safeworking system requirements
		2.2	Authorities required by safeworking systems are issued in accordance with applicable safeworking system rules and regulations using communication systems
		2.3	Appropriate records of communications are managed as required within the applicable safeworking system rules, regulations and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIF4090 Implement safeworking rules and regulations for network control activities.
