Assessment Requirements for TLIF1001 Follow work health and safety procedures

Assessment Requirements for TLIF1001 Follow work health and safety procedures

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate hazards that may exist during work activities
- applying relevant legislation and workplace procedures
- communicating effectively with others when following WHS/OHS procedures
- completing documentation related to WHS/OHS in the workplace
- implementing WHS/OHS workplace procedures
- reporting and/or rectifying identified problems, faults or malfunctions promptly, in accordance with regulatory requirements and workplace procedures
- reading and comprehending simple statements in English
- reading and interpreting relevant safety-related information including safety labels, instructions for safe work, relevant safety data sheets (SDSs)/material safety data sheets (MSDSs),   workplace procedures and codes of practice
- selecting and using required personal protective equipment conforming to industry and WHS/OHS standards
- working collaboratively with others when following WHS/OHS procedures
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- emergency and evacuation procedures
- HAZCHEM symbols and implications for safe work and storage
- housekeeping standards and procedures
- location and use of safety alarms, manifests, emergency shut-off systems, emergency communications systems
- manual and mechanically-assisted lifting and load shifting procedures

- procedures for handling broken or damaged equipment
- relevant terms used in SDSs/MSDSs
- relevant WHS/OHS procedures and guidelines
- reporting procedures for unsafe situations, fire hazards, broken or damaged equipment or fittings, sickness and accidents
- site layout and obstacles
- storage and use of hazardous substances
- WHS/OHS warning signs and signals.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulation
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
