TLIF2097 Use audible track warning devices
TLIF2097 Use audible track warning devices

Modification History
Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application
This unit involves the skills and knowledge required to access, place and remove audible track warning devices (ATWDs) in accordance with legislative and regulatory requirements.

It includes accessing, placing and removing ATWDs in accordance with legislative requirements, organisational and/or network owner policies and procedures.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

ATWDs are used to warn rail traffic crews and rail safety workers within the rail corridor. ATWDs are also known as:
- railway track signals
- audible safety signalling devices.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit
Not applicable.

Competency Field
F – Safety Management

Unit Sector
Not applicable.

Elements and Performance Criteria
Elements describe the essential outcomes. Performance criteria describe the performance needed to demonstrate achievement of the element.
1 Access and transport ATWDs

1.1 Required ATWDs are obtained in accordance with organisational procedures

1.2 Hazards are identified, risks are assessed and risk control measures are implemented

1.3 ATWDs are checked to ensure they are within their use-by date, in accordance with legislative requirements, organisational and/or network owner policies and procedures

1.4 ATWDs are stored and transported in accordance with legislative requirements, organisational and/or network owner policies and procedures

1.5 Documentation is completed in accordance with organisational procedures

2 Place ATWDs

2.1 Advice is confirmed as to where the ATWDs are to be placed

2.2 ATWDs are placed in accordance with organisational and/or network owner policies and procedures

2.3 Safe distances from ATWDs are maintained in accordance with organisational and/or network owner policies and procedures

2.4 Others are advised of safe distances to be maintained from ATWDs, in accordance with organisational and/or network owner policies and procedures

3 Remove ATWDs

3.1 ATWDs are removed as advised in accordance with organisational and/or network owner policies and procedures

3.2 Unused ATWDs are stored and returned in accordance with organisational and/or network owner policies and procedures

4 Dispose of ATWDs

4.1 Out of date ATWDs are removed from service and returned in accordance with organisational and/or network owner policies and procedures

4.2 Defective ATWDs are removed from service, reported and returned in accordance with organisational and/or network owner policies and procedures

4.3 Documentation is completed in accordance with organisational and/or network owner policies and procedures
Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIF2097A Use audible track warning devices.
