

**Australian Government**

# **TLIF3058 Apply safeworking rules and regulations to rail functions**

**Release: 2**

# TLIF3058 Apply safeworking rules and regulations to rail functions

## Modification History

**Release 2.** This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

**Release 1.** This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Application

This unit involves the skills and knowledge required to apply applicable safeworking rules and regulations to rail functions carried out on rail networks.

It includes correctly using communications protocols; interpreting and responding to radio, hand signal and light commands; interpreting and following relevant safeworking rules and protocols; and taking appropriate action in safety incidents, unsafe situations or emergencies.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

Work is performed under established safeworking system rules, protocols and procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

## Pre-requisite Unit

Not applicable.

## Competency Field

F – Safety Management

## Unit Sector

Rail sector.

## Elements and Performance Criteria

### ELEMENTS

### PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

- |   |   |
|---|---|
| <b>1 Apply safeworking rules and regulations</b>                | <p><b>1.1</b> Relevant safeworking system for area where work activities are to be carried out is identified prior to commencing work</p> <p><b>1.2</b> Relevant rules for the applicable safeworking system are followed when carrying out activities as part of rail operations</p> <p><b>1.3</b> Work activities are conducted in compliance with relevant state/territory safeworking regulations for activities concerned</p>    |
| <b>2 Apply communications protocols</b>                         | <p><b>2.1</b> Communications protocols are followed in accordance with the applicable safeworking system requirements</p> <p><b>2.2</b> Appropriate communications records are maintained as required within the applicable safeworking system rules and procedures</p>   |
| <b>3 Use and interpret radio, hand, light and flag commands</b> | <p><b>3.1</b> Applicable safeworking system rules and procedures are applied when using and interpreting radio, hand, light and flag commands</p> <p><b>3.2</b> Hand signals are only used in conditions of good visibility</p> <p><b>3.3</b> Any command not clearly understood is regarded as a STOP command in accordance with applicable safeworking system rules and regulations</p>   |
| <b>4 Follow safeworking protocols</b>                           | <p><b>4.1</b> Relevant protocols are followed as required and specified in safeworking system rules and procedures</p> <p><b>4.2</b> Appropriate records and documentation are completed in accordance with the requirements of the applicable safeworking system rules and procedures</p>  |
| <b>5 Take action in unsafe situations or emergencies</b>        | <p><b>5.1</b> Unsafe situations are identified in accordance with the requirements of the applicable safeworking system rules and procedures</p> <p><b>5.2</b> Appropriate action is taken to report and/or control safety incidents, identified unsafe situations or emergencies, in accordance with rail safety worker duty of care responsibilities and the requirements of applicable safeworking system rules and procedures</p> |

- 6 Record unsafe situations or emergencies**
- 6.1** Appropriate records and documentation of safety incidents, identified unsafe situations or emergencies are completed in accordance with the requirements of applicable safeworking system rules and procedures
