TLIF3060 Control traffic as a pilot vehicle operator

Release: 2

TLIF3060 Control traffic as a pilot vehicle operator

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor changes to unit Application
- Minor changes to Performance Criteria
- Minor changes to Performance Evidence
- Minor changes to Knowledge Evidence
- Minor changes to Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to control traffic as a pilot vehicle operator.

It includes applying control procedures, coordinating traffic, maintaining effective communication, maintaining equipment using prescribed traffic control stop/slow bats and communicating effectively with persons involved.

Work involves applying basic principles, routine procedures and regulatory requirements to control traffic as a pilot vehicle operator.

Work is performed independently with minimum supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

F – Safety Management.

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Apply control procedures

2 Coordinate traffic

3 Maintain effective communication

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Legislative responsibilities and requirements are identified, interpreted and applied

1.2 Work health and safety (WHS)/occupational health and safety (OHS) requirements are identified, interpreted and applied

1.3 Workplace procedures and requirements are identified, interpreted and applied

1.4 Appropriate personal protective equipment (PPE) is selected and used in accordance with workplace procedures

1.5 Traffic control equipment is selected in accordance with task requirements and workplace procedures

2.1 Vehicles and pedestrians are monitored to ensure safety of persons and property

2.2 Hazards are identified, risks are assessed, and control measures are implemented

2.3 Adjustments are made for changing conditions and to ensure best traffic flow

2.4 Handheld signs (bats) are positioned in accordance with operating procedures and maximum visibility is provided

2.5 Mishaps or accidents are managed in accordance with workplace procedures and relevant legislation

3.1 Effective communication is maintained between all parties

3.2 Appropriate language and protocols are used during communication

3.3 Messages are transmitted concisely in accordance with workplace procedures

3.4 Electronic communications power supply is maintained in accordance with manufacturer instructions

3.5 After a period of non-contact, radio or other electronic

contact is checked to ensure effective operation in accordance with workplace procedures

- 4 Maintain equipment**
- 4.1** Equipment is cleaned, maintained and stored or stowed in accordance with manufacturer specifications and workplace procedures to ensure operational effectiveness
 - 4.2** Documentation is completed in accordance with workplace procedures and journey requirements

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the TLI Transport and Logistics Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIF3060A Control traffic as a pilot vehicle operator.
