Assessment Requirements for TLIF3091 Apply awareness of dangerous goods and hazardous materials requirements

Release: 1

Assessment Requirements for TLIF3091 Apply awareness of dangerous goods and hazardous materials requirements

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- communicating effectively with others
- checking relevant dangerous goods and hazardous substances documentation in accordance with operational procedures and instructions
- checking relevant dangerous goods and/or hazardous substances segregation in accordance with class and subsidiary risk information/documentation
- identifying dangerous goods and hazardous substance labels
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- identifying relevant safety data sheets (SDSs)/material safety data sheets (MSDSs), manufacturer instructions, and organisational policies and procedures for dangerous goods and/or hazardous substances
- reading and interpreting relevant instructions, procedures, information and signs.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- labelling of dangerous goods and hazardous substances
- relevant national, state/territory regulations and codes of practice for identifying and labelling dangerous goods and hazardous substances, including appropriate sections of the current Australian Dangerous Goods (ADG) Code and other applicable legislation
- risks and hazards when transporting dangerous goods and hazardous substances.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, industry standards, codes of practice, current ADG Code and operation manuals.
