**Assessment Requirements for TLIF4065
Ensure compliance with Australian
Dangerous Goods Code**

Release: 1

Assessment Requirements for TLIF4065 Ensure compliance with Australian Dangerous Goods Code

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- communicating effectively with others
- complying with applicable regulations and current Australian Dangerous Goods (ADG) Code
- complying with workplace documentation and current ADG Code
- identifying hazards and applying precautions and required action to minimise, control or eliminate identified hazards
- implementing contingency plans, particularly to deal with any potential ADG Code breaches
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring work activities of team members in terms of planned schedule
- reading and interpreting current ADG Code, related documents and procedures, and information and materials provided as guidance notes
- using effective communication techniques
- working collaboratively with others to ensure compliance with health and safety requirements, and current ADG Code.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- relevant required documentation
- relevant sections of national and state/territory regulatory requirements and codes of practice, including current ADG Code, conditions and duty holders to whom it applies
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations particularly as they overlap with the current ADG Code
- workplace procedures for:
 - emergency management plan

- managing and controlling hazardous situations when carrying out work activities
- safe transfer and storage of dangerous goods and hazardous materials
- transport emergency response plan (TERP).

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, current ADG Code, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
