Assessment Requirements for TLIF4066 Implement and supervise transport regulations compliance systems

Release: 2

Assessment Requirements for TLIF4066 Implement and supervise transport regulations compliance systems

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor changes to unit Application
- Minor changes to Performance Criteria
- Minor changes to Performance Evidence
- Minor changes to Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace policies and procedures
- communicating effectively and working collaboratively with others
- completing relevant documentation
- interpreting and following operational instructions and prioritising work
- reading and interpreting relevant instructions, procedures, information and signs, including the relevant parts of transport regulations, or related implementation materials
- reporting and/or rectifying identified problems, faults or malfunctions promptly in accordance with regulatory requirements and workplace procedures
- selecting and using required personal protective equipment (PPE) conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- emergency response workplace procedures
- procedures for managing and controlling hazardous situations when carrying out transport activities
- relevant sections of Heavy Vehicle National Law (HVNL) and applicable state/territory transport regulations as they apply to the enterprise, including:
 - chain of responsibility of duty holders
 - fatigue management
 - mass, dimension and loading
 - state/territory and national regulations
 - transport activities
 - vehicle standards
- relevant WHS/OHS and environmental procedures and regulations
- requirements for completing relevant documentation
- steps involved in planning transport activities.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, vehicle standards, HVNL, codes of practice, workplace procedures and operation manuals.
