TLIF4086 Control and coordinate incident responses

Release: 2

TLIF4086 Control and coordinate incident responses

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Performance Evidence
- Minor statement changes in Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to control and coordinate incident responses in accordance with organisational and regulatory procedures.

It includes applying emergency response principles when responding to an incident, coordinating incident response activities and completing follow-up actions.

Work must be carried out in compliance with relevant regulations and workplace procedures concerning action to be taken in an emergency.

Work is performed under minimal supervision generally in a team environment.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

F – Safety Management

Unit Sector

Rail sector.

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Respond to incident	1.1	Details of incident are received, analysed, confirmed and prioritised
		1.2	Hazards are identified, risks are assessed and control measures are implemented
		1.3	Immediate coordination requirements are identified and actioned in accordance with organisational and regulatory procedures
2	Coordinate incident response activities	2.1	Control and coordination of incident response activities are assumed, and relevant personnel and other authorities are informed of this action
		2.2	Assistance to be provided to clients and operators is arranged in accordance with rail safety worker duty of care responsibilities and organisational requirements
		2.3	Assistance is provided to relevant authorities in accordance with workplace policy and legislative requirements
		2.4	Information is collected and passed on to relevant personnel/stakeholders in accordance with workplace procedures
3	Complete follow-up actions	3.1	Details of incident are collected, recorded and managed in accordance with organisational procedures
		3.2	Contribution is made to debrief process and recommendations are prepared and submitted, as required
		3.3	Documentation relating to the implementation and coordination of incident responses is completed in accordance with organisational procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIF4086A Control and coordinate incident responses.
