**Assessment Requirements for TLIF4101
Implement and maintain a rail safety
culture**

Release: 2

Assessment Requirements for TLIF4101 Implement and maintain a rail safety culture

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating relevant information
- conducting a review of rail safety culture within an organisation/project
- identifying available media for dissemination of rail safety information
- identifying positive rail safety culture factors
- influencing others positively
- reading and comprehending relevant complex and formal documents, such as literature and guidelines
- researching information
- solving problems.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- appropriate safety survey tools
- behavioural marker system for rail safety
- concepts and key elements of a positive rail safety culture
- key principles relating to rail safety culture
- legislation and guidelines relating to rail safety culture
- organisational policies, procedures and systems relating to developing and maintaining a positive rail safety culture
- organisational systems for risk management and risk mitigation
- principles and application of rail safety
- rail environment.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
